MISSION

The mission of University of Maryland Global Campus is improving the lives of adult learners. We will accomplish this by operating as Maryland’s open university, serving working adults, military servicemen and servicewomen and their families, and veterans who reside in Maryland, across the United States, and around the world.

VISION

UMGC will be a global leader in adult education focusing on career-relevant programs that enable students to realize their professional aspirations.

VALUES

- **Students First:** These are the people who make our work possible.
- **Accountability:** We are each responsible for our overall success.
- **Diversity:** Each individual brings value to our efforts and results.
- **Integrity:** Our principles and standards are never compromised.
- **Excellence:** Quality is the hallmark of our work.
- **Innovation:** We advance so others can benefit from our leadership.
- **Respect:** The rights and feelings of others are always considered.
- **People Always:** Our faculty and staff represent our differentiator and competitive advantage.
From the Chief Academic Officer

Dear Learner,

Welcome to University of Maryland Global Campus! On behalf of our more than 4,800 faculty and 1,680 staff members worldwide, we are delighted that you have chosen us to help you achieve your education and career goals.

At UMGC we know that every one of you is on a unique and personal journey to furthering your education; advancing or changing your career; and acquiring necessary knowledge, skills, abilities and dispositions to prepare for success in the jobs of today and tomorrow. We have one goal: to enable you to realize your goals.

You bring to our learning community a host of life, work, and prior educational experiences. We know how important it is to complete your studies as quickly and affordably as possible while developing knowledge and skills you can apply immediately. We also offer a range of ways for you to earn credit for what you know and can do. To remove the guesswork and position you on the most efficient pathway to your goal, we provide a recommended sequence to completing the courses in your chosen area of study.

At UMGC our faculty and staff strive to offer you a range of meaningful, high-quality educational options for meeting your goals, to provide exceptional support in and out of the classroom, and to help remove any obstacles to success you may encounter. We are committed to understanding what is important to you, what you need from us, and how we can get better at fulfilling our mission—improving the lives of adult learners—every day. Our greatest success is your success.

Congratulations on taking this step. We are proud and excited to be your partner on this journey.

Blakely R. Pomietto
Senior Vice President and Chief Academic Officer

POLICY STATEMENT

This publication and its provisions do not constitute and should not be regarded as a contract between UMGC and any party or parties, nor is it a complete statement of all policies, procedures, rules, regulations, academic requirements, or tuition and fees applicable to UMGC, its students, or its programs. UMGC reserves the right to make changes to the policies, procedures, rules, regulations, and academic requirements set out in this publication without prior notice. Such changes will be reflected on the university’s website or other publication.

This catalog provides the degree requirements and recommended curriculum for students who begin continuous enrollment on or after August 1, 2022. When a curriculum or graduation requirement is changed, it is not made retroactive unless the change is to the student’s advantage and can be accommodated within the span of years normally required for graduation. See additional policies on pp. 245–248.

Sources for any claims made throughout this catalog may be found on the UMGC website (asia.umgc.edu).

Welcome to UMGC Asia

Dear Student,

Welcome to the University of Maryland Global Campus and the Asia division. Our mission—to offer quality academic programs to students whose responsibilities may include work, family, and military service—is always at the heart of our decisions. UMGC is proud to serve our students, and your success is our priority.

Since arriving in Japan and the Republic of Korea in 1956, UMGC Asia has remained dedicated to the education of military servicemembers, veterans, and their families. As the first American university to educate U.S. servicemembers overseas, serving the military is embedded in our DNA, and we proudly carry on this heritage as one of the top military-trusted and veteran-friendly schools. We are honored to serve military communities throughout the United States, Europe, Asia, Africa, and the Middle East.

Operating for over seven decades around the globe, UMGC understands the challenges servicemembers and their families face, the sacrifices they make daily, and their ambition to improve themselves and enhance their lives. At UMGC Asia, we answer this need by offering career-relevant academics to help you become more valuable in your current role and in the job market. Our programs and courses are designed to give you the best possible academic training, preparation, and credentials for a successful career in your field. You can achieve your dreams and your true potential—one class, one semester, one accomplished moment at a time.

On behalf of the faculty and staff of this great institution, we extend to you our very best wishes, as you build your professional value and achieve your educational goals.

Sincerely,

James B. Cronin
U.S. Army, Ret.
Vice President and Director
UMGC Asia

Jeffrey D. Newbern
Associate Vice President
and Associate Dean,
Academic Affairs

Accreditation

University of Maryland Global Campus is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104 (+1-267-284-5000), an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation.

UMGC is a constituent institution of the University System of Maryland and is governed by the USM Board of Regents. UMGC is certified to operate by the State Council of Higher Education for Virginia. UMGC at Quantico, Corporate Center, 525 Corporate Drive #101, Stafford, VA 22554.
Welcome to UMGC

From its founding in 1947, University of Maryland Global Campus (UMGC) has had a single mission: to meet the educational needs of adult students like you—students who must balance study with the demands of work and family life.

Since then, the university has grown to be the largest public university in the nation, serving students throughout the state, the country, and the world. And although its name has changed more than once over the decades (from the College of Special and Continuation Studies to University College, from UMUC to UMGC), the university’s mission (stated on inside front cover) and focus on providing open access to high-quality educational programs and services—eliminating the barriers that can keep you from achieving your educational goals—remains unchanged.

For information on UMGC’s mission, history, and values, visit umgc.edu/mission.

CARRYING OUT THE MISSION

Students First

At UMGC, your success as a student is of paramount importance. The university seeks not only to help you fulfill your current education goals but also to create an educational partnership that will last throughout your life.

To that end, the university looks first for ways to ensure that you can easily access programs and services. Admission policies are designed to simplify the process (standardized tests are not generally required), making it possible for you to apply and register for most programs at the same time.

As a global university, UMGC makes it possible for you to take classes any time, any place, by offering a large selection of online programs—in addition to classes at sites throughout Maryland and the Washington, D.C., metropolitan area and at military sites all over the world. You can also access student services online and by phone, as well as on-site at many locations.

Convenience and flexibility are not the only issues, however. UMGC seeks to create a learning environment that is respectful of diverse backgrounds, inclusive, responsive, and relevant.

Recognizing that financial concerns often present the biggest obstacle to higher education, UMGC also strives to keep tuition costs low and provides numerous financial aid opportunities, including scholarships for military and community college students.

Excellence

A regionally accredited university, UMGC is dedicated to providing the highest quality programs and services and ensuring excellence in its online and on-site classes.

In providing these programs, UMGC relies on a renowned faculty of scholar-practitioners—teachers who bring real-world experience as well as advanced academic credentials to your courses—and the use of the latest technologies. UMGC also is able to provide you with a wealth of resources because of its place within the University System of Maryland.

The success of UMGC’s efforts over the years is evident. UMGC has garnered awards from such notable organizations as the World Affairs Council, E-C Council, University Professional and Continuing Education Association, Online Learning Consortium (formerly the Sloan Consortium), and Maryland Distance Learning Association.

Innovation

UMGC has always looked for new and better ways to serve students. Long before the online revolution, the university was delivering courses to students at distant locations, using any and all available technologies—from interactive television to voice mail. Today, you can access both courses and services online, using the university’s learning management system and MyUMGC, its online gateway to services and information. Through its Office of Academic Quality, UMGC leads the search for next-generation learning models and best practices for online learning.

PROGRAMS AND FACILITIES

UMGC offers degree programs from the associate level to the doctorate. Most undergraduate and graduate programs are available online. These academic programs are administered by the School of Arts and Sciences, the School of Business, and the School of Cybersecurity and Information Technology, which are described on pp. 52-54.

The university’s administrative headquarters are located in Adelphi, Maryland, and also serve as home to a prestigious art collection and a conference facility, the College Park Marriott Hotel & Conference Center at UMGC.

Admission

Eligibility

UMGC Asia

Members of the U.S. Armed Forces, U.S. DoD Civilians, and their family members may enroll in undergraduate courses at military installations within the INDOPACOM regions where the University of Maryland Global Campus Asia is contracted to provide educational services if they meet admission requirements. Other populations may be eligible depending upon local base command directives. U.S. military policy requires a valid identification privilege card issued by the military services. Card validation is required after completing the online application. In Japan, local citizens may take UMGC courses if deemed eligible by the Japanese government. All eligibility questions should be directed to the student services staff at the UMGC Asia Headquarters at studentservices-asia@umgc.edu.

General Information

Before the beginning of each academic term, UMGC holds various online events, as well as on-site open houses, for new and prospective students. These events offer an opportunity to learn about UMGC and its programs, student services, academic and career offerings, faculty members, and students. You can apply for admission and enroll in courses during the on-site open houses.

Local UMGC representatives and academic advisors stand ready in military communities to provide you with on-site assistance with admissions, registration, financial aid, advising appointments, and more.

Contact information for the UMGC location nearest you is available at asia.umgc.edu/locations.

Undergraduate Admission Requirements

General Requirements

To be considered for admission, you must have graduated from a state-approved or regionally accredited U.S. high school or achieved one of the following qualifications representing high school equivalency or better:

- Passing scores on a state high school equivalency exam, such as the General Educational Development (GED) test or HiSet exam
- Graduation from a non-U.S. high school with a credential evaluated as equivalent to a U.S. high school diploma by an approved international credential evaluation agency
- An associate degree or higher from an accredited postsecondary institution or at least 60 college credits from an accredited postsecondary institution with at least a 2.0 grade point average (GPA) on a 4.0 scale
- Military service, documented by a Joint Services Transcript (JST) or Community College of the Air Force (CCAF) transcript (On a case-by-case basis, UMGC may accept other military records as proof of high school equivalency.)

High school students who meet certain criteria (described on p. 11) may also be considered for admission and concurrent enrollment.

In addition to meeting the academic criterion listed above, you must be at least 13 years old, meet UMGC’s English proficiency requirement, and be in good standing at any institutions that you previously attended, as noted in UMGC Policy 210.00 Undergraduate Admission. Standardized test scores are not required.

Eligibility to enroll in UMGC overseas divisions may depend on citizenship and international residency. Additional admission requirements may apply if you are pursuing certain bachelor’s and degree programs. See Undergraduate Program-Specific Requirements on p. 9.

You must be admitted to the university before you can register for classes.

UMGC Policy 210.00 Undergraduate Admission is available online at umgc.edu/policies.

Undergraduate Student Status

As an undergraduate student, you are assigned regular, provisional, or visiting status.

REGULAR

To be assigned regular student status, you must meet the general admission requirements. If you attended another institution of higher education within the last two years, you must also have a grade point average (GPA) of 2.0 or higher and be in good academic standing at the last institution of higher education you attended.

As a student in regular status, you are limited to enrolling in the number of credits set forth in UMGC Policy 215.00 Student Academic Load and Enrollment Status (available online at umgc.edu/policies). Course load is discussed on p. 40.
PROVISIONAL
You will be assigned provisional status if you meet the general admission requirements but one of the following conditions applies:

• You had a GPA lower than 2.0 at the last institution that you attended within the last two years.
• You were on academic probation for poor academic performance at the last institution that you attended within the last two years.
• You were dismissed for poor academic performance from the last institution that you attended within the last two years.
• You are currently a high school student who qualifies for concurrent enrollment. (See p. 11 for additional information about qualifying for concurrent enrollment.)

If you are a concurrently enrolled high school student, you maintain your provisional status until you submit proof of high school completion; until that time, you are allowed to take a maximum of 7 credits each term. All other provisional students must complete 7 credits of graded coursework with a cumulative GPA of 2.0 or higher before being considered for regular student status. All provisional students must contact an advisor or a success coach to request regular student status.

VISITING
If you are attending an institution outside of the University System of Maryland (USM), you must apply for admission to UMGC.

If you are currently attending another institution of the USM as an undergraduate or a graduate student, you may take undergraduate courses without applying to UMGC. Instead, you must submit a letter or form from the USM institution you attend authorizing your enrollment at UMGC for the term in which you wish to attend. Your previous coursework will be reviewed by the appropriate UMGC academic department to see if course prerequisites have been met. The number of credits you may take and the transferability of academic work completed at UMGC are determined by your home institution.

Graduate Admission Requirements
General Requirements for Graduate Certificates and Master’s Degree Programs
To be considered for admission, you must have graduated from a regionally accredited degree-granting university or college with a bachelor’s degree (or higher). Graduates from other accredited institutions may be considered on a case-by-case basis. Applicants who are not seeking a degree or certificate must meet the same criteria and are limited to taking a maximum of 12 credits.

In addition to the academic criteria listed above, you must meet UMGC’s English proficiency requirement, as noted in UMGC Policy 170.10 Graduate Admission (available online at umgc.edu/policies). Standardized test scores, such as the Graduate Record Examination (GRE) or Graduate Management Admission Test (GMAT), are not required for most programs. Additional admission requirements, which may include standardized test scores, may apply if you are pursuing certain degree programs. See Graduate Program-Specific Requirements on p. 9.

Regardless of program, your eligibility for admission may be limited by foreign citizenship or international residency, in accordance with federal law. In such cases, additional admission procedures may apply.

You must be admitted to the university before you can register for classes.

Graduate Student Status
As a graduate student, you are assigned regular or visiting status.

REGULAR
To be assigned regular student status, you must meet the general admission requirements.

As a student in regular status, you are limited to enrolling in the number of credits set forth in UMGC Policy 215.00 Student Academic Load and Enrollment Status (available online at umgc.edu/policies). Course load is discussed on p. 40.

VISITING
If you are attending an institution outside the University System of Maryland, you must apply for admission to UMGC.

If you are a degree-seeking student in good academic standing in an approved graduate program at another University System of Maryland institution and wish to take courses at UMGC, you need not apply for admission to UMGC. Instead, you must obtain an interinstitutional enrollment form from your home institution, complete it, and submit it to admissions@umgc.edu.

Your previous coursework will be reviewed by the appropriate UMGC academic department to see if course prerequisites have been met. The number of credits you may take and the transferability of academic work completed at UMGC are determined by your home institution.
Graduate Program-Specific Requirements

TRANSFORMATIONAL LEADERSHIP

To be admitted to the Master of Science in Transformational Leadership program, you must meet the standard criteria for graduate admission and belong to one of the following military populations:

- Full-time active-duty members of the U.S. Armed Forces
- Members of the National Guard
- Reservists
- Veterans of the U.S. Armed Forces
- Commissioned Corps members of the U.S. Public Health Service
- Commissioned Corps members of the National Oceanic and Atmospheric Administration

Special Situations

Applicants Educated Abroad

If you are applying for admission to an undergraduate program and you graduated from a high school not located in the United States or one of the countries listed at umgc.edu/internationalstudent, you must demonstrate English language proficiency in one of the following ways:

- Certifying on the admission application that you earned a passing score on a U.S. GED test or HiSet exam
- Certifying on the admission application that you earned at least 24 credits from an accredited U.S. institution or from an institution in one of the countries listed at umgc.edu/internationalstudent
- Submitting a passing score on an English proficiency examination (listed below)

If you are applying for admission to a graduate or doctoral program and you obtained a bachelor’s or master’s degree from an institution not located in the United States or one of the countries listed at umgc.edu/internationalstudent, you must demonstrate English language proficiency in one of the following ways:

- Submitting transcript(s) indicating completion of at least 12 credits of graduate coursework, taken within the last two years with a grade of B or higher from an accredited institution in the United States, which will be considered on a case-by-case basis
- Submitting a passing score on an English proficiency examination (listed below)

For all programs, the following examination scores are accepted as proof of English proficiency:

- A minimum score of 71 if you are an undergraduate student and 79 if you are a graduate student on the internet-based version of the Test of English as a Foreign Language (TOEFL)
- A minimum score of 525 if you are an undergraduate student and 550 if you are a graduate student on the paper-based version of the TOEFL and a minimum score of 4 on the Test of Written English (TWE)
- A minimum overall score of 6 if you are an undergraduate student and 6.5 if you are a graduate student on the International English Language Testing System (IELTS), including the academic writing and academic reading modules
- A minimum grade of Pre-1 on the Eiken Test in Practical English Proficiency
- A score of 95 if you are an undergraduate student and 105 if you are a graduate student on the Duolingo English Proficiency Test.

If you are providing test scores to demonstrate English proficiency, you must arrange to have the official score reports sent directly from the testing agency to UMGC and marked Incoming Transcripts. The TOEFL score recovery code for UMGC is 5804.

Test scores must be less than two years old. If you are applying to an undergraduate program, you may seek an exception for scores that are more than two years old. Alternative evidence may be accepted as demonstrating English proficiency. Contact Admissions at admissions@umgc.edu for more information. See Admission Procedures for additional requirements.

BRIDGE PROGRAM

UMGC Asia offers the Bridge Program to English learners in Japan and Korea who have not achieved the required test scores to become standard students. For details, you should refer to p. 51 or visit asia.umgc.edu/bridge.

Note: UMGC does not issue Form I-20 A-B Certificate of Eligibility for F-1 student status. However, you may be eligible to pursue a program online from outside the United States.

Applicants Expelled or Suspended from Another Institution

FOR ACADEMIC MISCONDUCT

If you were expelled for academic misconduct from any institution in the USM, you are not eligible for admission to UMGC; if you were suspended for that reason, you are not eligible for admission to UMGC during the period of your suspension.
If you were expelled or suspended for academic misconduct from an institution outside the USM, your application must be reviewed before an admission decision can be made.

**FOR DISCIPLINARY MISCONDUCT**

If you were suspended from a USM institution under USM’s Event-Related Misconduct Policy, you will not be admitted to UMGC during the term of your suspension. If you were expelled under that policy, you will not be admitted to UMGC for one year from the effective date of the expulsion. After that time, you may be considered for admission on a case-by-case basis.

If you were expelled or suspended from a non-USM institution for any type of disciplinary misconduct or you were expelled or suspended from a USM institution for disciplinary misconduct that was not event-related, you may be considered for admission on a case-by-case basis.

**High School Students Seeking Concurrent Enrollment**

If you have not earned your high school diploma but are currently attending a U.S. regionally accredited or state-approved high school, you may be admitted as a provisional student. With your application for admission, you must provide a letter of recommendation from the appropriate officials at your high school and a high school transcript. If UMGC determines after a review of this documentation that your record reflects superior scholarship and college readiness, you may be admitted with provisional status.

If you are currently being homeschooled or attending an alternative high school program, you may qualify for concurrent enrollment if your homeschool or alternative high school program complies with applicable state and local education regulations.

As a concurrently enrolled student, you are assigned provisional and non-degree-seeking status. Once you meet all the general admission requirements, you may contact an advisor to request to be changed to regular and degree-seeking status.

**Admission Procedures**

To apply for admission, you must complete an admission application online at umgc.edu/apply and pay the nonrefundable fee. Documentation required for proof of English proficiency is detailed under Applicants Educated Abroad. Other required documentation for various populations is detailed in the following sections.

If you are a former UMGC student and have not attended UMGC for at least two years, you must submit a new application before you will be allowed to register. However, you will not be required to pay another application fee.

Applicants or current students who submit false information on their application may be subject to disciplinary action, as detailed in UMGC Policy 151.00 Code of Student Conduct (available at umgc.edu/policies).

**Applicants to Undergraduate Certificate and Associate and Bachelor’s Degree Programs**

Once you are admitted to UMGC, you will be assigned an admit term (the academic term in which you are officially admitted, e.g., fall 2020), which will be reflected in your MyUMGC student portal. You have until the end of the term following your admit term to submit documentation to verify your eligibility for admission to UMGC. If you do not submit the documentation by that deadline, you will not be permitted to register for subsequent terms until documentation is received and accepted by UMGC.

You must submit the following documentation:

- If you graduated from a state-approved or regionally accredited high school, submit an official transcript from that school.
- If you served or are currently serving in the U.S. Armed Forces, you may submit a Joint Services Transcript (JST) or Community College of the Air Force (CCAF) transcript as proof of high school equivalency.
- If you completed a state high school equivalency exam, such as the GED, submit an official score report.
- If you graduated from a homeschool or alternative high school program, submit documentation showing high school completion and compliance with state and local education regulations for the state in which you were homeschooled or attended an alternative high school program.
- If you graduated from a non-U.S. high school, submit documentation of your education to a UMGC-approved international credit evaluation agency and have the credit evaluation agency submit its recommendations to UMGC. For a list of UMGC-approved international credit evaluation agencies, see umgc.edu/internationalcredit.
- If you graduated from high school and have completed at least 30 college-level credits, you are not required to submit documentation of high school graduation if you submit official documentation of at least 30 completed college-level credits from one or more of the following sources:
  - UMGC-approved two- and four-year colleges and universities
  - Professional noncollegiate coursework
• Military occupational specialties and experience
• Vocational and technical coursework
• Professional or technical coursework based on statewide agreements and alliances

• If you have not graduated from high school but have completed an associate degree or higher or at least 60 college-level credits, submit official documentation of the completed degree or at least 60 college-level credits from one or more of the sources listed above.

You need not submit proof of standard examinations.

Applicants to Graduate Certificate and Master’s Degree Programs

To be admitted to most graduate programs or to take graduate courses without pursuing a degree, you must submit official transcripts demonstrating completion of a bachelor’s degree from a regionally accredited degree-granting university or college or other accredited institution (approved by UMGC on a case-by-case basis) by the last day of your first term of enrollment at UMGC.

Until the university receives your official transcript(s) and verifies your completion of a bachelor’s degree, you are limited to enrolling in no more than 6 credits of graduate coursework. Failure to submit official transcripts by the last day of your first term of enrollment at UMGC will prevent you from enrolling in additional graduate courses at UMGC until such transcripts are received and verified by UMGC.

Some master’s degree programs require the submission of official transcripts before you can be admitted and enroll in classes. These programs have specific admission requirements and/or prerequisite coursework, described under Graduate Program-Specific Requirements and on the UMGC website. A list of the programs that require submission of a transcript before admission is available at umgc.edu/admission-transcript.

Depending on your program, your official transcript may need to reflect specific coursework and/or a given GPA. You may also be required to provide documentation of industry certification, test scores, or military status.

Military-Affiliated Students

Most military servicemembers may apply to all UMGC programs online via MyUMGC at umgc.edu/apply.

Note: If you intend to use military TA benefits, you must contact your educational services officer or counselor within your branch of service for details on eligibility and your military branch’s process for submitting TA forms before you submit an application for admission to UMGC.

RELOCATING BETWEEN UMGC DIVISIONS

It is important that you notify UMGC when you are relocating to a new duty station, so that residency classification and tuition rate may be accurately determined.

If you plan to relocate from one UMGC division (stateside, Europe, or Asia) to another and you have attended classes with UMGC within the last two years, you must complete and submit a Relocation Form before the start date of the term in which you intend to begin study at the new division. This form may be accessed via the MyUMGC student portal under Helpful Links. There is no fee for relocations. If you have not attended UMGC within the last two years, you will need to complete the regular UMGC admission application and indicate the division that you wish to attend by answering the questions presented.

Students Seeking Readmission

If you have not enrolled in classes at UMGC for a period of two years (six or eight terms, depending on the program) or more, you must reapply for admission before you will be allowed to resume enrollment. However, you need not pay another application fee. Refer to the requirements section of the degree or certificate you plan to pursue for information on continuous enrollment and the requirements you must follow.

If you have been academically dismissed, you may not register for classes. For more information on reinstatement after academic dismissal, see p. 36. Reinstatement is not guaranteed.

MILITARY SERVICEMEMBERS SEEKING READMISSION

If you discontinued your studies with UMGC because of your military service obligations and would like to return as a UMGC student, contact admissions-asia@umgc.edu within three years after completion of military service to seek readmission. The cumulative length of all absences for military service time may not exceed five years. If the program in which you were enrolled no longer exists, UMGC will enroll you in the most similar program, unless you request or agree to a different program.

Unless precluded by military necessity, you should provide oral or written notice of a service obligation to your local UMGC representative or academic advisor in advance as possible. Contact information for the UMGC location nearest you is available at asia.umgc.edu/locations. Refer to UMGC Policy 210.12 Readmission for Military Servicemembers at umgc.edu/policies for more information.
Students Changing Programs

If you are considering a change to your major, minor, or certificate at the undergraduate level or a change from one master's degree program, specialization, or certificate program to another at the graduate level, you must first consult an advisor, who can help you determine the impact of changing degree programs.

The advisor can determine whether another application is required and whether any previous credit is likely to apply, as well as when you may begin to take classes in the new program. Generally, the requirements for completing your new program are those in place when you start study in the new program.

For more information on changing programs, please contact your local advisor (asia.umgc.edu/students/academic-advising.cfm). Please be prepared to provide your name, student ID, current program, and requested program.

If you are using veterans education benefits or transferred benefits, you are required to submit certain forms to the Veterans Administration. Refer to umgc.edu/major-change for more information.

Cross-Enrollment Between Programs

You may be admitted either as an undergraduate or graduate student, but you may not hold both classifications simultaneously. Generally, you are not eligible to enroll in courses outside your degree program. However, if UMGC has developed a vertical pathway between undergraduate and graduate programs, specific courses may apply to both of the degree programs. In such cases, you are eligible to cross-enroll and will be charged the undergraduate rate for undergraduate courses and the graduate rate for graduate courses.

As a graduate student, you may be enrolled in only one master's degree program at a time, and you may not enroll in courses outside your degree program. If you change graduate degree programs, you may not enroll in courses in the new degree program until the current term is completed.

Enrollment Information

Ways to Register

Registration begins each session as soon as the course schedule becomes available on the web and continues until the deadline listed. Check the current online schedule of classes (asia.umgc.edu/currentschedule) and academic calendar (asia.umgc.edu/calendar) for registration information and deadlines.

UMGC offers a number of ways to register for most courses, including online (via MyUMGC) and on-site registration. Detailed information and instructions are available each session online at asia.umgc.edu/students/enrollment.

Schedule Adjustments

The university reserves the right to make changes to class sections to ensure that such sections are adequately sized to create an appropriate learning environment. Such class section changes include changing faculty members and moving students between course sections to balance enrollments.

Waiting List

If a hybrid class is already full at the time of registration, you can place your name on a waiting list for that class.

Regardless of how you register, the following procedures apply:

• You may put your name on the waiting list for up to six hybrid classes or sections.
• You may not attend a hybrid class for which you are on the waiting list.
• If you are already enrolled in a different section of the same class for which you are waitlisted, you will not be enrolled in the waitlisted section even if space becomes available.
• If you are already enrolled in the maximum number of allowable credits and you are on a waiting list for another course, you will not be registered in the additional course even if space becomes available in the class.
• Faculty members and academic advisors are not authorized to add you to a closed class.
• If a space becomes available and you are the next person on the waiting list, you will automatically be registered for that class, and the charge will appear on your account. You will be notified of the enrollment by email. If you are ineligible for enrollment (because you have not met prerequisites or are enrolled in another class that conflicts in time), the space will go to the next person on the waiting list.
• If you no longer want to enroll in the class, you should remove your name from the waiting list to prevent the possibility of being automatically enrolled.

The waiting list option is not available for online classes.
Dropping or Withdrawing from Classes

Procedures
To cancel your enrollment in a class without any mark on your transcript (dropping a class), you must access MyUMGC (my.umgc.edu) and follow the steps for dropping a class before the end of the drop period. The dates for the drop period are available on the UMGC website at asia.umgc.edu/students/calendar-and-classes/academic-calendar.cfm.

When you drop a class, all tuition charges for that course are removed from your student account and no mark or record of the course will appear on your transcript.

If you wish to cancel enrollment in a class after the drop period ends (i.e., withdraw from a class), you must access MyUMGC and follow the steps for withdrawing from a class before the end of the withdrawal period. The dates for the withdrawal period are also available at asia.umgc.edu/services/course-withdrawal-refunds.

Withdrawing from a class will result in a mark of W (described on p. 34) on your academic transcript. You may be refunded a portion of your tuition based on the withdraw date and the refund schedule posted at asia.umgc.edu/services/course-withdrawal-refunds. You will be responsible for any remaining tuition due.

You should be careful to note deadlines according to your class format (online or hybrid/on-site) and division (stateside, Europe, or Asia).

Failure to drop or withdraw from a class in the appropriate manner or by the posted deadlines may result in your receiving a failing grade and forfeiting any refund. The following actions do not constitute dropping or withdrawing from a course:

- Stopping payment on checks
- Nonpayment of tuition charges
- Never attending or participating in a class
- Ceasing to attend or participate in a class

If you have additional questions concerning withdrawing from or dropping a course, see UMGC Policy 170.72 Course Withdrawal at umgc.edu/policies.

Effect on Student Aid
If you are using financial aid and/or veterans benefits, you are strongly encouraged to contact the Financial Aid Office or Veterans Advising before you drop or withdraw from a class to fully understand the impact of such an action on your current and future financial aid awards and/or veterans benefits. Withdrawing from class could leave you responsible for a portion of the tuition.

For more information, email studentservices-asia@umgc.edu or contact your local field office.

If you are using military tuition assistance, you must contact your military education counselor or education services officer for guidance on withdrawals related to emergencies or official duty requirements before dropping or withdrawing from a class to fully understand the impact of such an action on your current and future military tuition assistance benefits.

Ways of Earning Credit
UMGC excels in combining access with academic quality. It opens doors to learning by bringing education to you wherever you may be.

Because UMGC understands the importance of lifelong learning, it has established academic policies that encourage the appropriate use of transfer credit from other institutions as well as credit from less traditional sources. Recognizing that adult students bring to the university not only a willingness to learn but also an educational history informed by experiential learning, UMGC incorporates the assessment of nontraditional learning (i.e., learning gained outside the classroom) into the evaluation of student competencies and academic credit.

Transfer Credit from Outside Sources
Undergraduate Transfer Credit
UMGC accepts undergraduate credit from a variety of outside sources. Sources include

- Regionally accredited two- and four-year colleges and universities and other accredited institutions, including vocational and technical colleges, that have been approved by UMGC
- Other higher education institutions with which UMGC has an articulation agreement for acceptance of credit and/or a joint program
- Non-U.S. institutions, based on UMGC review of the report of an international credit evaluation agency approved by UMGC
- High schools with which UMGC has an articulation agreement for acceptance of credit
- Corporate training or coursework; military occupational specialties, training, and experience; vocational and technical organizations; and industry certifications evaluated by nationally recognized credit evaluation agencies, such as the American Council for Education (ACE) or National College Credit Recommendation Service (NCCRS), or evaluated and approved by UMGC
- Standardized examinations (listed on p. 19)
Criteria for each type of credit are detailed in the following sections.

Be sure to discuss all previous experience and training with an advisor to ensure that you request evaluation from all the sources that are available to you.

CREDIT LIMITS
Credit transferred from outside sources is subject to maximum allowances, including

• 70 credits from two-year institutions toward the bachelor’s degree
• 45 credits from two-year institutions toward the associate degree
• 90 credits from all sources combined toward the bachelor’s degree
• 45 credits from all sources combined toward the associate degree

No more than half the credits required (usually 8 or 9 credits) from all sources combined may be applied to a certificate program.

SOURCES, REQUIREMENTS, AND RESTRICTIONS
If you have earned credit at another college or university, you are responsible for determining whether courses you plan to take at UMGC would duplicate any previously earned credit and for submitting all official transcripts from colleges and universities you attended, as well as documentation of military and professional learning and pertinent test scores (CLEP, AP, etc.)—regardless of whether they appear on a previous college transcript or not.

UMGC does not accept transfer credits for remedial, precollege, or sectarian religious courses. If you plan to transfer credit from other institutions to UMGC, you may request an evaluation of your previous credit and experience to determine whether UMGC will accept transfer credit and how those credits may apply to a degree from UMGC. Official transcripts are required for UMGC to evaluate and award transfer credit. For nontraditional sources of credit, other documentation is required as set forth in the sections that follow. Transfer credit is granted only if it is applicable to your chosen program.

If you are in doubt about whether a UMGC course duplicates previous study, you should consult an advisor before registering.

More information on the process of transferring credit is provided on p. 57 and online at umgc.edu/transcripts. UMGC Policy 210.18 Undergraduate Transfer Credit Evaluation and Appeal Process and UMGC Policy 210.17 Graduate Transfer Credit Evaluation and Appeal Process are available at umgc.edu/policies.

Credit from Other Colleges and Universities
Transfer credits from approved two- and four-year colleges and universities for courses in which you earned a grade of at least C (2.0) may be accepted for courses that apply to your undergraduate degree program and do not duplicate other courses for which credit has been awarded. Transfer credit for another institution’s course challenge examinations and prior learning program may be accepted if it is listed on your transcript with a passing grade.

Approved Institutions for Undergraduate Transfer Credit
Approved institutions include those accredited by the following regional associations:

• Higher Learning Commission
• Middle States Commission on Higher Education
• New England Commission of Higher Education
• Northwest Commission on Colleges and Universities
• Southern Association of Colleges and Schools Commission on Colleges
• Western Association of Schools and Colleges, Accrediting Commission for Community and Junior Colleges
• Western Association of Schools and Colleges Senior Colleges and Universities Commission

Credit from other accredited institutions may be approved on a case-by-case basis.

Credit from Community Colleges, Junior Colleges, and Vocational and Technical Colleges
A total of 70 credits from approved two-year institutions (community colleges, junior colleges, or vocational and technical colleges) may be applied toward a bachelor’s degree at UMGC. If you have already completed 70 credits, you may not apply further credit from a two-year institution to a degree from UMGC.

If you initially enrolled in any of the public community colleges in Maryland, general education credit is transferred in conformance with the policy developed and approved by the Maryland Higher Education Commission, subject to any limitations under federal law. (Details are given on p. 27.) If you have participated or are participating in one of the community college alliances with UMGC and plan to enroll in courses at both institutions concurrently, you should consult with advisors at both institutions.

Credit from Military Institutions or Military Experience
UMGC grants credit for military experience, military service occupations, and military training offered by the U.S. Armed Forces or military institutions on the basis of the recommendations by the American Council on Education (ACE) in its Guide to the Evaluation of Educational Experiences in the Armed Services. Courses
taken at accredited military institutions may also be accepted as part of an articulation agreement. Such credit is granted only if it is applicable to your chosen degree program; it must meet other UMGC requirements for transfer credit and is subject to the same limitations as those placed on nonmilitary credit. UMGC generally accepts ACE recommendations for lower- and upper-level credit.

Credit from Community College of the Air Force
UMGC awards undergraduate credit for study at technical schools of the U.S. Air Force in accordance with recommendations from the Community College of the Air Force (CCAF). Credits must be applicable to your chosen degree program at UMGC, must meet other UMGC requirements for transfer credit, and are subject to the same limitations as those placed on nonmilitary credit. The following conditions apply:

- All credit from the CCAF is lower level.
- Since the CCAF records satisfactorily completed courses as S (satisfactory) and specifies that S equals a grade of C or higher, credit may be applied to your undergraduate UMGC degree program as determined by UMGC.
- Courses that are vocational or technical may be used only as electives in an undergraduate degree program.

Credit from Institutions Outside the United States
Study at institutions outside the United States must be evaluated by an approved international credit evaluation agency to be considered for transfer credit.

If you are seeking a review of potential transfer credit from a non-U.S. postsecondary educational institution, you must

- Mail your official international transcripts to an approved credit evaluation agency (listed at umgc.edu/internationalcredit)
- Pay fees associated with the international evaluation

More details are available online at umgc.edu/internationalcredit.

Credit from Noncollegiate Courses and Training
UMGC may accept for credit noncollegiate courses and training applicable to your degree program that have been evaluated by either ACE (if the courses have been given credit recommendations in the National Guide to Educational Credit for Training Programs) or the National College Credit Recommendation Service (formerly PONSI).

INITIAL ESTIMATE OF TRANSFER CREDIT
You can have a review of your potential transfer credit done by an academic advisor. This review provides an estimate of the academic credit UMGC might accept toward a particular degree and of the requirements that would remain to be fulfilled. This review is not binding on either you or UMGC and is subject to change.

Graduate Transfer Credit

FOR MOST GRADUATE PROGRAMS
Up to 6 credits of graduate coursework may be considered for transfer to graduate degree programs at UMGC that do not require DCL 600 or PRO 600, if the credits were earned at an approved institution and if they are applicable to your program of study. Up to 3 graduate credits may be accepted in transfer for a graduate certificate program.

UMGC may accept more than the usual maximum of 6 credits toward a degree program (or 3 credits for a certificate program) based on agreements with third parties. Decisions regarding your eligibility to enter a graduate program and receive transfer credit based on agreements with third parties are made at the time of admission and may not be made retroactive after enrollment.

Graduate credits offered for transfer credit must meet the following criteria:

- The credits must have been earned as graduate credit.
- The credits must have been awarded within the time limit for the degree or certificate.
- You must have earned a grade of B (3.0) or higher in the courses considered for transfer. (However, these grades are not included in the calculation of your grade point average.)
- The department advisor and the program chair must have determined that the transfer courses are relevant to your program of study.
- The credits must have been earned at an approved institution and be equivalent to graduate-level coursework or recommended for graduate-level credit by the American Council on Education (ACE) or other nationally recognized bodies or as part of an approved articulation agreement.

FOR MASTER’S DEGREE PROGRAMS THAT REQUIRE CBR 600, DCL 600M, DCL 600T, OR PRO 600
Up to 6 credits of graduate coursework may be considered for transfer as replacement for DCL 600 or PRO 600, if earned at an approved institution.

If you have previously earned a master’s degree from an approved institution, you are eligible to receive transfer credit for DCL 600M or PRO 600 in recognition of the fundamental competencies essential for successful completion of a graduate degree program. If you have earned graduate credit but have not earned
a master's degree, you may request a review of transfer credit for DCL 600M or PRO 600.

All graduate credits offered for transfer credit in replacement of DCL 600M or PRO 600 are reviewed for approval and must meet the following criteria:

• Credits must have been earned as graduate credit.
• A grade of B or higher must have been earned in the courses considered for transfer. These grades, however, will not be included in the calculation of the grade point average at UMGC.
• Credits must have been earned at an approved institution and be equivalent to graduate-level coursework or recommended for graduate-level credit by ACE.

APPROVED INSTITUTIONS FOR GRADUATE TRANSFER CREDIT
Approved institutions include those accredited by the following regional associations:

• Higher Learning Commission
• Middle States Commission on Higher Education
• New England Commission of Higher Education
• Northwest Commission on Colleges and Universities
• Southern Association of Colleges and Schools Commission on Colleges
• Western Association of Schools and Colleges Senior Colleges and Universities Commission

Credits from other accredited institutions may be approved on a case-by-case basis.

More information is available in UMGC Policy 210.17 Graduate Transfer Credit Evaluation and Appeal Process at umgc.edu/policies.

Credit Options to Accelerate Degree Progress

Prior Learning
Learning acquired outside the college classroom may be assessed for credit toward an undergraduate degree at UMGC if your work and life experience aligns to an undergraduate course at UMGC, as determined by UMGC. There are several methods to obtain credit for your work and life experience, including Course Challenge, Portfolio Assessment, and a variety of recognized external standardized assessments. Advisors can help you determine the best routes to use in fulfilling any academic plan.

COURSE CHALLENGE

Course Challenge is a comprehensive assessment of the material that is normally presented through a full term-length UMGC undergraduate course. The assessment provides the opportunity for you to establish academic credit for competencies gained outside the classroom for which you have not already earned academic credit.

While some course challenges may consist of a final exam, the challenge can include other requirements based on the course chosen. These can include research papers, computer programs, language tapes, or other documents that exhibit the competency for which you are seeking credit. Requirements are set by the applicable academic department.

If you are an undergraduate degree- or certificate-seeking student at UMGC, have received an academic advisement report, and have a cumulative GPA of at least 2.0 in UMGC coursework, you may be eligible for course challenge. Students enrolled at other USM institutions are not eligible to take UMGC course challenge assessments.

Course Challenge is not intended as a substitute for independent study. Not all courses are available for course challenge. Advisors and Prior Learning office staff can inform you about specific courses that may not be challenged.

Only one course in a sequence may be challenged at a time, and you may not challenge a course that is prerequisite for a higher-level course you have already taken. In addition, you may not challenge capstone courses (usually numbered 485 or 495), Workplace Learning courses (numbered 485A/B), CAPL 398A, or EXCL 301.

You may not seek to challenge foreign language courses of your native language, except upper-level courses of your native language when those courses emphasize linguistics, literature, or written translation to and from English. You may not receive credit for 100- or 200-level courses in your native language.

Course challenge assessments may not be taken more than twice and may not be taken for courses for which you have previously enrolled. Other restrictions may apply.

Credit earned by course challenge is assigned a letter grade that is computed in your grade point average and may be applied toward a first or second bachelor’s degree or toward a certificate.

Course challenges may only be canceled before you receive the assessment. Refunds are given only if a suitable assessment cannot be prepared.
Visit the UMGC Asia website asia.umgc.edu/transfers-and-credits/index.cfm or email studentservices-asia@umgc.edu for more information.

PORTFOLIO ASSESSMENT

Portfolio Assessment is a unique way for you to identify and articulate learning you have gained from work, community or political involvement, or other noncollegiate experiences and earn credit for it. To be eligible for Portfolio Assessment, you must

- Have been admitted to UMGC as an undergraduate student
- Have a recent copy of your academic advisement report, updated in the last six months by an academic advisor
- Have completed an application for Portfolio Assessment

After you are accepted into the program, you must enroll in EXCL 301 Learning Analysis and Planning. EXCL 301 is a 3-credit course in which you prepare a portfolio describing and documenting the learning you have gained from past experiences and how it aligns to a particular UMGC course. Because EXCL 301 is a demanding and complex course, UMGC recommends that you should not register for more than one other course during the session in which you are enrolled in EXCL 301 if you are enrolled part-time.

EXCL 301 is graded on an S/D/F basis (explained on p. 33). If the quality of your work in the portfolio merits a grade of C or higher, a grade of S is awarded and the portfolio is forwarded for credit evaluation. Faculty members from the appropriate disciplines assess the portfolio and recommend whether to award credits. Credit earned as a result of portfolio evaluation also earns a grade of S. The S grade is not computed in the grade point average and is not applicable toward honors.

If the quality of your work in the portfolio merits a grade of D or lower, the portfolio will not be forwarded for credit evaluation.

If you successfully complete EXCL 301 with a grade of S and submit a portfolio for evaluation, you may enroll in a supplemental class (EXCL X001) to complete additional portfolios. The supplemental class may be taken more than once, but it confers no credit and may not be applied toward degree completion. If you take this option, you may not target courses for which you were previously denied credit in EXCL 301 or EXCL X001.

Portfolio Assessment credits may be awarded at both the upper and lower levels. Credits earned do not fulfill requirements for graded coursework and so may not exceed half the total credits for a major, minor, or certificate.

You may not request or receive credit through Portfolio Assessment for learning for which credit has been awarded by other means. You may not request Portfolio Assessment for 100- and 200-level courses in your native language. In addition, certain specialized courses may not be available for credit via Portfolio Assessment.

Credit for EXCL 301 is charged at the current tuition rate. Tuition for the course covers evaluation of documentation for up to three courses. Evaluations for courses beyond these first three incur additional fees, which are applicable to all students, including Golden ID students and those receiving financial aid. Visit umgc.edu/tuition-archive for information on additional fees.

You should carefully review the requirements, rules, and procedures for Portfolio Assessment. For more information, visit umgc.edu/priorlearning or contact the Prior Learning office by email at priorlearning@umgc.edu or by phone at 800-888-8682, ext. 2-2890.

Workplace Learning

Workplace Learning offers an opportunity for you to gain experience and develop new knowledge and skills in your chosen undergraduate discipline while you earn upper-level college credit through an integrated model that combines new learning opportunities with academic assignments, putting theory into practice and enabling you to accelerate progress on both your academic and career goals.

To be eligible for Workplace Learning, you must

- Be an undergraduate student at UMGC
- Have completed 30 credits, including transfer credit, toward a degree (if you are seeking a degree)
- Have completed at least 9 credits in the discipline in which you plan to do your Workplace Learning project
- Have completed at least 6 credits at UMGC
- Have a GPA of 2.0 or higher at UMGC
- Have submitted all official transcripts and contacted an academic advisor to request an official evaluation
- Be working in a position or have identified an opportunity to work in a position that allows you to apply classroom theory to practical projects that involve significant analysis and problem solving and are directly related to a given academic discipline. The position should allow you to have new learning experiences; Workplace Learning will not be approved for day-to-day work tasks that have already been mastered. (Position may be paid or unpaid, part- or full-time.)

To participate in Workplace Learning, you must first apply to Workplace Learning by the deadline published in the MyUMGC student portal. Once you are notified of your eligibility, you must develop a...
learning proposal that identifies several project tasks representing the new learning to be acquired as a result of the work experience. A UMGC faculty member in the appropriate discipline will review your learning proposal to ensure that it constitutes upper-level college learning. If your learning proposal is approved, you will be given permission to register for Workplace Learning. Your learning proposal is then developed into a three-way learning contract among your employer, you, and your faculty mentor.

Throughout the Workplace Learning experience, you work under the supervision of your employer on completing several of the identified project tasks. You will also work with your faculty mentor on completing the academic assignments required to earn college credit for your work experience. The project tasks for the employer constitute the course content, which is augmented by the reflective academic assignments written for review by the faculty mentor. During the Workplace Learning session, which typically lasts 15 weeks, you are required to communicate regularly with your faculty mentor, who will also maintain regular contact with your supervisor at work.

You may earn either 3 or 6 credits during the Workplace Learning session and must work 45 hours per credit. To earn 3 credits, you must complete a minimum of four projects and work a total of 135 hours; to earn 6 credits, you must complete a minimum of five projects and work a total of 270 hours.

Workplace Learning projects may be developed in all undergraduate disciplines. Courses are listed in the UMGC catalog with the designator of the discipline and numbered 486A (for 3 credits) or 486B (for 6 credits). For example, a 3-credit Workplace Learning course in business and management would be listed as BMGT 486A, a 6-credit course as BMGT 486B. Tuition for the Workplace Learning course is charged at the current rate per credit. See asia.umgc.edu/tuition for current rates.

Workplace Learning courses may not be used to satisfy general education requirements or (unless otherwise specified) required academic coursework in your major. However, Workplace Learning credits may be applied to electives as well as to designated upper-level requirements in the major or minor. A standard letter grade is awarded for successful completion of Workplace Learning courses. It is strongly recommended that you consult with a UMGC advisor to determine how Workplace Learning credits may help you fulfill degree requirements.

Credit by Examination

UMGC may award credit toward an undergraduate degree or certificate for various external standardized examinations, provided that there is no duplication of other academic credit and the scores presented meet UMGC standards.

Examinations may include

- Advanced Placement examinations administered by the College Board
- Cambridge International Examinations
- College-Level Examination Program (CLEP) examinations
- DANTES Subject Standardized Test (DSST) examinations
- Excelsior College Examinations (formerly called ACT/PEP and Regents examinations)
- International Baccalaureate exam
- Approved industry certification examinations (listed online at umgc.edu/creditbyexam)

UMGC also accepts credit for the following:

- Various professional examinations evaluated by the American Council on Education (ACE) or the National College Credit Recommendation Services (NCCRS)
- Examinations offered by other approved colleges and universities that appear on an official transcript, as approved on a case-by-case basis

If you intend to transfer exam credit that was awarded at another institution, you must have a transcript of those scores sent directly to UMGC from the examining body. When those scores have been received, an advisor will determine whether they meet the standards established at UMGC for granting credit and how much credit may be awarded. Credit earned through examinations may be used to fulfill major, minor, general education, or elective requirements, as applicable.

Consult your local academic advisor for more information about credit by examination. Contact information for the UMGC location nearest you is available at asia.umgc.edu/students/academic-advising.cfm.

Vertical Pathways Between UMGC Undergraduate and Graduate Degree Programs

If you completed your undergraduate degree at UMGC in computer science, cybersecurity technology, data science, English, history, or social science or completed coursework in accounting, criminal justice, emergency management, homeland security, or human resource management, vertical pathways between UMGC’s undergraduate and graduate programs in these areas allow you to
reduce your total coursework for certain related graduate degrees. Details on each of these agreements are provided on the following pages.

Eligible credits for most pathways must have been completed no earlier than two years before the beginning of graduate studies at UMGC; stricter requirements may be listed under individual pathways.

Graduate admission requirements and time limits for degree completion apply to all applicants.

ACCOUNTING

If you completed your undergraduate degree at UMGC with coursework in accounting, a vertical pathway between UMGC undergraduate and graduate programs in accounting allows you to reduce your total coursework for a related graduate degree by up to 6 credits.

The following undergraduate courses will be accepted as credit toward the courses listed below in the Master of Science in Accounting and Financial Management, CyberAccounting, or Management with a specialization in accounting for a maximum of 6 credits:

- ACCT 438 Fraud and Forensic Accounting and ACCT 440 Forensic and Investigative Accounting instead of ACCT 630 Fraud Examination
- ACCT 422 Auditing Theory and Practice and ACCT 436 Internal Auditing instead of ACCT 628 Auditing

The substitutions listed above are the only ones possible. Note that a minimum grade of B must be earned in each undergraduate course for the credits to be accepted at the graduate level.

CYBERSECURITY

If you completed your undergraduate degree at UMGC with a major in cybersecurity technology, a vertical pathway between UMGC undergraduate and graduate programs in cybersecurity allows you to earn 6 credits toward the Master of Science in Cloud Computing Systems, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, or Digital Forensics and Cyber Investigation or a certificate in Cloud Computing and Networking, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, or Digital Forensics and Cyber Investigation.

To be eligible for the pathway, you must enroll in a related graduate program within two years of completing CMIT 495 Current Trends and Projects in Computer Networks and Cybersecurity. If eligible, you may be awarded credit for CBR 600 Communicating, Problem Solving, and Leading in Cybersecurity or DCL 600T Decisional Thinking, Communicating, and Leading in Technology Fields. Either CBR 600 or DCL 600T is the only course for which credit may be granted through the vertical pathway.

DATA ANALYTICS

If you completed your undergraduate degree at UMGC with a major in data science, a vertical pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Science in Data Analytics by 6 credits (two courses). If eligible, you may be awarded credit for UCSP 615 Orientation to Graduate Studies (0) and DATA 620 Data Management and Visualization (6).

You should enroll in the graduate data analytics program within two years of completing your undergraduate degree in data science.

EMERGENCY MANAGEMENT

If you completed your undergraduate degree at UMGC with coursework in emergency management, a vertical pathway between UMGC undergraduate and graduate programs in emergency management allows you to reduce your total coursework for the related graduate degree by up to 6 credits (two courses).

The following undergraduate courses will be accepted as credit toward the courses listed below in the specialization in emergency management within the Master of Science in Management for a maximum of 6 credits:

- EMGT 304 Emergency Response Preparedness and Planning instead of HSMN 630 Resilience Planning and Preparedness for Disaster Response and Recovery
The substitutions listed above are the only ones possible. Note that a minimum grade of B must be earned in each undergraduate course for the credits to be accepted at the graduate level.

**HOMELAND SECURITY**

If you completed your undergraduate degree at UMGC with coursework in homeland security, a vertical pathway between UMGC undergraduate and graduate programs in homeland security allows you to reduce your total coursework for a related graduate degree by up to 6 credits (two courses).

The following undergraduate courses will be accepted as credit toward the courses listed below in the specialization in homeland security within the Master of Science in either Information Technology or Management for a maximum of 6 credits:

- HMLS 408 Infrastructure Security Issues instead of HSMN 625 Critical Infrastructures

The substitutions listed above are the only ones possible. Note that a minimum grade of B must be earned in each undergraduate course for the credits to be accepted at the graduate level.

**HUMAN RESOURCE MANAGEMENT**

If you completed your undergraduate degree at UMGC with coursework in human resource management, a vertical pathway between UMGC undergraduate and graduate programs in human resource management allows you to reduce your total coursework for the related graduate degree by up to 6 credits (two courses).

The following undergraduate courses will be accepted as credit toward the courses listed below in the specialization in human resource management within the Master of Science in Management for a maximum of 6 credits:

- HRMN 400 Talent Acquisition and Management instead of HRMD 630 Recruitment and Selection

The substitutions listed above are the only ones possible. Note that a minimum grade of B must be earned in each undergraduate course for the credits to be accepted at the graduate level.

**TEACHING**

If you are pursuing a bachelor’s degree from UMGC in an appropriate major (computer science, English, history, or social science or a general studies degree with a minimum of a 30-credit specialization in social studies) or have other appropriate coursework (including biology and mathematics coursework), you may reduce the total coursework for the Master of Arts in Teaching (MAT) by up to 12 credits (three courses, including the noncredit introductory course UCSP 615) and complete both degrees with a total of 138 credits of coursework. This accelerated program option allows you to take graduate-level coursework before you complete your undergraduate degree.

To be eligible for this accelerated MAT option, you must have completed the courses listed below before being accepted to the MAT program. The 500-level courses listed below are the only courses eligible for the 12 articulated credits available through this vertical pathway. If completed with a grade of B or higher, the credits will apply to the MAT program. If successfully completed with a grade of C or lower, these credits apply toward the undergraduate degree only.

- EDTP 500 Professional Fundamentals of Teaching and Learning instead of EDTP 600 Professional Fundamentals of Teaching and Learning

The substitutions listed above are the only ones possible.

**Educational Relationships**

**Corporate Alliances**

UMGC works to develop strong connections with local and national leaders in business and industry, government, and nonprofit organizations and is an important partner in the region’s economic development.

UMGC has developed customized programs for employers and organizations across the country and values employers’ viewpoints. Consistent with its mission of bringing convenient and relevant learning opportunities to the workforce, UMGC has developed strong relationships with many prominent employers in the area and around the country, including Amazon, GEICO, and ManTech International.

**Military Relationships**

UMGC has a rich history of educating the armed forces that dates back to World War II. Through contracts with the Department of Defense, the university offers courses and services to service-members at military sites throughout Asia and Europe, including sites in combat zones. Courses and services are also available at numerous military sites stateside.

UMGC participates in the General Education Mobile program and the Air University Associate-to-Baccalaureate Cooperative
program. For more information on these programs, see umgc.edu/military or speak to your education counselor.

At the graduate level, UMGC has established special relationships with a number of professional military education institutions: Air War College, Air University, Defense Acquisition University, Defense Information School, Naval War College, National Defense University Information Resources Management College (iCollege), and Marine Corps College of Distance Education and Training. In most of these educational relationships, you may complete coursework at the military institution as part of the Master of Science in Management or the Master of Science in Information Technology. More information on these educational relationships is available online at umgc.edu/military-and-veterans or by email at militaryportals@umgc.edu.

Community College and Other Higher Education Alliances

UMGC is dedicated to collaboration and cooperation with other Maryland educational institutions, both public and private, and actively seeks relationships with those institutions to benefit Maryland citizens. The university also reaches out through educational collaborations around the world.

UMGC is a charter member of MarylandOnline, a consortium of Maryland community colleges and universities formed to encourage collaboration among institutions across Maryland and to extend resources for the development and delivery of online courses.

In support of the university’s mission to extend access to educational opportunities to Maryland’s working adult students, UMGC has formed alliances with all 16 Maryland community colleges (listed in the Appendices), enabling students to earn an associate degree at an allied community college and finish a bachelor’s degree by completing required coursework at UMGC. These Maryland alliances offer a seamless transition between curricula through linked degree programs. Each of the Maryland community colleges is visited regularly by UMGC representatives. In addition to online options, numerous class locations in Maryland and the Washington, D.C., area enable alliance students to complete bachelor’s degrees conveniently close to home. Special UMGC scholarships are also available for graduates of Maryland community colleges.

In addition, UMGC has established alliance agreements with more than 50 community colleges across the United States.

More information on these alliances is available online at umgc.edu/alliances.

The university has also developed articulated programs with international secondary and postsecondary educational institutions.

Helping You Get Started

At UMGC, your success as a student is of paramount importance.

The university seeks not only to help you fulfill your current education goals, but also to create an educational partnership with you that will last throughout your life.

To help you, UMGC looks first for ways to make it easy for you to get started. Admission policies are designed to simplify the admission process (standardized tests are not generally required), making it possible for you to apply and register for most programs at the same time. Shorter terms and multiple start dates mean you don't have to wait to take that first class (described on the following page), which is geared to help you transition back to college-level study. Recognizing that financial concerns often present the most challenging obstacle to higher education, UMGC works hard to keep tuition costs low and provides numerous financial aid opportunities, including scholarships for military and community college students, to help you finance your education (described on p. 44). And to support you at every step—from finding the right program, applying for admission, registering for class, and getting academic and career assistance, to applying for your diploma and graduating—services and resources (described on pp. 26–pp. 31) are conveniently available online and by phone, as well as on-site at many locations.

Course Formats and Expectations

As a global university, UMGC makes it possible for you to take classes any time, any place. For your convenience, UMGC offers a large selection of online classes, as well as hybrid classes that combine on-site and online instruction and that are available at sites throughout Maryland and the Washington, D.C., metropolitan area and at military sites all over the world.

Face-to-Face: Class meets Face-to-Face for in-person instruction. Work is done and instructional content is delivered all in the physical classroom. This class format utilizes LEO for access to OERs (Online Educational Resources) and logging into the LEO classroom is not necessary for students to complete any course work.

Hybrid: Class meets Face-to-Face at least once per week for in-person instruction. Work is done and content is delivered both in the physical classroom, synchronously, and the LEO classroom, asynchronously. Students submit assignments and discussion posts in the LEO classroom, where resources are also available to supplement the lecture, which happens during face to face meetings.
Hybrid Live-stream: The same format as Hybrid, live-streaming sections are two classes at different physical locations that are combined into an A section (host) and S section (remote) and posted to the schedule of classes for each location. One instructor is assigned to teach the combined class and meets on-site in a classroom with students at the host location and uses a “Live-streaming Kit” to stream live video and audio from the host classroom to the remote classroom, where students meet at the other location.

Temporary Virtual (due to COVID-19): Face-to-Face, Hybrid, and Hybrid Live-streaming courses have temporarily shifted to synchronous, alternative delivery in response to military command guidance on Novel Coronavirus (COVID-19), physical distancing requirements, and our continued focus on the health and safety of students, employees, alumni, and guests. When it is safe to return to the classroom, these classes will shift from the synchronous, alternative delivery to their originally scheduled formats: Face-to-face, Hybrid, or Hybrid Live-streaming.

Virtual (Two-way video): The Virtual format is similar to a Hybrid class, except for three notable differences:

1. Students and faculty do not physically meet in a classroom—they join class from home via Zoom at the scheduled day and time in a synchronous format. The remaining coursework is completed online in the LEO classroom, asynchronously.

2. Because the class is not tethered to a location, students from across the division may register for access this class format.

3. Lastly, because students join class meetings without being in a physical classroom, those using Veterans Benefits will have to certify as distance.

Online: Online courses maintain the same academic standards as hybrid courses. Course content, learning materials, requirements, assignments, and class participation are comparable for online and hybrid courses, and faculty members are engaged and supportive of students in either format.

Both online and hybrid course formats require that you have access to appropriate technology to participate in asynchronous, computer-based class discussions; study groups; online database searches; course evaluations; and other online activities.

Technology Requirements

GENERAL REQUIREMENTS

To be successful in online study, you must have some type of internet access. Barring individual course requirements, this access may be through use of a UMGC computer lab; university or public library; or other readily available, reliable source if you do not have internet access at home. In addition, you must have a current email address. You are responsible for your own internet access costs.

DISCIPLINE-SPECIFIC REQUIREMENTS

Some academic disciplines may have specific technology requirements, such as requiring you to download and install certain computer programs. To determine if such requirements apply to your coursework, you should consult the program and course descriptions. For more information about technology requirements, refer to umgc.edu/techreq.

Cybersecurity and Information Technology Courses

If you are taking upper-level coursework (beyond general education requirements) in a cybersecurity and information technology field, you will need equipment that meets the following specifications.

Hardware Requirements

- 64-bit processor, Intel Core i5 (7th generation or higher), or equivalent (e.g., AMD, M1)
- Processor Speed: 1.5 GHz or higher (2GHz recommended)
- Storage: At least 250G (SSD [preferred] or HD), with at least 30–40 percent free space
- RAM: At least 4G (8G recommended)
- Display/Monitor: Minimum 13"
- Screen resolution: Minimum 1280 px x 1024 px
- Keyboard and mouse/trackpad
- High-speed internet connection (Ethernet or Wi-Fi)
- 32-bit video card

Operating System (one of the following)

- Windows 10 (recommended; version 1909 or higher required for any course using Adobe Creative Cloud)
- Mac OS X 10.15 or higher
- Ubuntu 18.04+ (or other Linux LTS)

Software

- Office 2019 or later (Office 365 Education is available for free with your student email address.)
- Most recent version/update of a web browser (Firefox, Safari, or Chrome)
- Antivirus software
- Adobe Acrobat PDF Reader
Additional Recommendations

- Built-in camera (or USB port for a webcam)
- Built-in microphone and speakers (or USB ports for external audio devices)

Note: Tablets, Chromebooks, and cell phones will not work with the virtual learning environment.

Graphics- or computing-intensive disciplines may require a higher processing speed, more RAM, and/or better screen resolution. For information specific to individual computing disciplines, see the course descriptions and umgc.edu/techreqs.

Expectations

Before registering, you may want to consider the following requirements to be successful as a student:

- You need to be prepared to write extensively, because nearly all communication is written. You need strong reading and writing skills in English.
- You need to be competent in the use of computers and commonly used software programs.
- Because the online classroom is asynchronous and you are expected to be an active participant, you are encouraged to log in frequently to check what has transpired in your online classroom.
- You will need disciplined work habits, effective time management skills, and the ability to work both alone and collaboratively.

First-Term Courses

An array of “first” and preparatory courses are managed by Student Affairs, which is committed to promoting your development and success as a student by providing programs and services that enable you to reach your educational goals. These courses are designed to provide a well-supported and productive start to your academic programs. Faculty members who teach these courses have been selected for their academic credentials as well as for their high degree of engagement and commitment to student success.

Since students come to UMGC with a wide range of academic preparedness and backgrounds in very different fields, the first courses focus on core skills that will prepare you to do well in your succeeding courses and program.

Required Introductory Courses

UNDERGRADUATE

Degree-seeking students starting with UMGC in our Asia or Europe overseas divisions are encouraged to take PACE 111 as their first course; however, if this is not possible, the student should work with their academic advisor of program coordinator to plan their degree and course requirements progression order. More information for overseas students is available in the UMGC Asia and UMGC Europe catalogs, available on their websites (asia.umgc.edu and europe.umgc.edu). This 3-credit course provides an orientation to UMGC and an exploration of how UMGC academic programs align to professional goals and career options. The aim of this course is to enable you to become familiar with the university's academic culture and expectations; learn about UMGC resources for success; reflect on academic and professional goals; and explore opportunities to accelerate your path to degree completion through transfer credit and other prior learning. There are six models of the course to provide focused insight into the fields of business, communications and humanities, multidisciplinary studies (e.g., any field), public safety, sciences and healthcare, and technology.

If you begin undergraduate study at UMGC with 45 or more transfer credits, you may be eligible to take PACE 100 Professional and Career Exploration for Transfer Students, which is a condensed orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Students who successfully complete this 4-week course will receive the 3 credits equivalent to PACE 111. Please contact your local academic advisor (asia.umgc.edu/students/academic-advising.cfm) to verify your eligibility to enroll in PACE 100.

GRADUATE

For most master’s degree or graduate certificate programs, you must begin your studies with UMGC with UCSP 615 Orientation to Graduate Studies, which is to be taken within the first 6 credits. This five-week noncredit course is designed to help you develop the skills and techniques you need to understand and manage the challenges involved in a graduate program and to familiarize you with research strategies and online library resources—material that is critical for 21st-century professionals.

For master’s degrees and graduate certificates that do not require UCSP 615, a 6-credit introductory course tailored toward that academic area is required:

- In the Master of Business Administration program, you are required to take PRO 600 Communicating, Problem Solving, and Leading in Professional Fields.
In most cybersecurity programs, you are required to take CBR 600 Communicating, Problem Solving, and Leading in Cybersecurity.

In the Acquisition and Contract Management, Learning Design and Technology, Strategic Communications, and Transformational Leadership programs, you are required to take DCL 600M Decisive Thinking, Communicating, and Leading in Multidisciplinary Fields.

In the Cloud Computing Architecture and Cyber Operations programs, you are required to take DCL 600T Decisive Thinking, Communicating, and Leading in Technology Fields.

Preparatory Courses

UNDERGRADUATE

If you are an undergraduate student, you may find a number of courses helpful to your success both during and after your undergraduate studies with UMGC. These include LIBS 150 Introduction to Research and various one-credit courses in career planning, such as CAPL 198A Effective Time Management, CAPL 198B Career Transitions, CAPL 198C Interviewing Skills, and CAPL 398A Career Planning Management.

GRADUATE

As a graduate student, you may find one or more graduate noncredit courses helpful to your development of deeper subject knowledge. Preparatory courses (currently designated UCSP or ASC) are available in computer programming, financial accounting, information technology, writing, and research methods and generally last five to eight weeks. If you have been away from university study for a while or lack current experience in the area, these courses may provide a useful refresher. These courses carry no academic risk and are very reasonably priced. Specific recommendations are provided under Preparation Recommended for Success for each individual program. Although these courses carry no UMGC credit, they are graded on an S/U basis (explained on p. 33) and will appear on your official academic transcript. You must be admitted or have an application on file before you can register for any noncredit courses.
Availability of Services

General Information

Local UMGC representatives are available to answer general questions and help you navigate UMGC’s website. You can locate a representative at an office near you by visiting asia.umgc.edu/locations/index.cfm. Representatives also can make sure you are signed up to receive important announcements.

UMGC provides numerous services and resources to help you complete your educational program from anywhere in the world—through systems and resources available online; by email, chat, and voice and text telephone communication; and in-person at sites throughout the Maryland area, as well as at many military sites stateside and worldwide. A number of offices are responsible for the delivery of these services, including Accessibility Services, Admissions, Advising, Career Services, Student Financial Services, Information Technology, the Office of the Registrar, and the UMGC Library.

Among these, the Offices of Advising and the Registrar respond to most of your academic needs throughout your college career, providing general information; admission assistance; academic advising; registration, graduation, and transcript services; and veterans benefits assistance.

MyUMGC

You may access many of your personal UMGC records online through MyUMGC (available online at my.umgc.edu). MyUMGC enables you to change personal information (such as home address, email address, or phone numbers); register and pay for courses; pay bills; check grades, financial aid, and student account status; apply for graduation; request certification for VA educational benefits and check the status of the request; and view and print reports (such as your class schedule, grade report, statement of account, and unofficial transcript). To access these services, you must enter your UMGC login credentials.

A glossary of terms frequently used in MyUMGC may be found in the appendices.

Accessibility Services

Reasonable accommodations are available to help you if you have a documented disability and are enrolled in any program offered at UMGC.

You can request disability-related accommodations by submitting a request to Accessibility Services.

You should make your request for accommodations as early as possible to allow sufficient time for the processing of your request and development of your accommodation plan. Once the request is received and accompanying documentation has been reviewed, Accessibility Services will notify you of the status of your request and schedule an intake appointment, which may be held by phone, via email, or in person. During the appointment, your request for accommodations, your academic needs, and Accessibility Services’ procedures are discussed. Decisions regarding accommodations are made on an individualized assessment of program requirements and the need for accommodations. Once an accommodation plan is finalized, Accessibility Services will provide the plan to your teachers upon your written request.

You are under no obligation to disclose a disability unless an accommodation is being requested. A decision not to disclose is understood and respected; however, faculty members cannot provide individual accommodations if a formal accommodation plan is not received. All disability information provided to Accessibility Services is maintained separately from your academic information and is not considered part of your permanent academic record. Disability-related information is used solely for the purpose of establishing the existence of your disability and enabling UMGC to facilitate academic and supportive services related to your disability.

Visit asia.umgc.edu/students/student-life-and-support/accessibility-accommodations/index.cfm or contact Accessibility Services by phone at DSN (315)225-3680 or commercial +81-42-552-2510 ext, 5-3680 or by email at services-asia@umgc.edu for more information.

Admission Assistance

If you are inquiring about becoming a UMGC student or are admitted but have not yet registered, admissions representatives can help you select the right program, apply for admission, identify the right payment option, plan your curriculum, and register for your first term of classes.

Contact a program coordinator at a location near you. Contact information for the UMGC location nearest you is available at asia.umgc.edu/locations. See p. 8 for information on admission.

Advising

Academic advisors help you develop the behaviors, skills, and habits you need to successfully navigate your academic program—from admission to degree completion. Their assistance can include reviewing potential transfer credit, helping you clarify education and career goals, and helping you select appropriate
Transfer Credit

To access information about progress in your chosen program, you need to submit official transcripts from all the colleges and universities you previously attended, including other institutions of the University System of Maryland, and any other potential source of credit, whether or not transfer credit will be requested or granted. UMGC may deny transfer credit from any institution not listed on the application for admission. Sources of transfer credit (described on p. 14) not listed at the time of admission or approved by an advisor after admission may not be applied toward your UMGC program.

You are responsible for submitting all pertinent academic documents (such as academic transcripts, confirmation of credit conferred by examination, or records of credit from military service schools or sources) in a timely fashion to facilitate completion of your academic advisement report. To be considered official, documents must be sent directly from the issuer in either a sealed, unopened envelope or via an accepted secure electronic method. UMGC cannot accept official transcripts via fax or email, regardless of the source. For more information, visit asia.umgc.edu/submittranscripts.

Official documents should be mailed to the appropriate address:
Attn: Student Records
University of Maryland Global Campus
3501 University Boulevard East
Adelphi, MD 20783-8070

Military Degree Plan

UMGC will provide the necessary military degree plan as required by your military branch. To be eligible, you must be an active-duty military servicemember and have a completed academic advisement report. Please submit all documentation so that an academic advisement report can be completed in a timely fashion.

If you are a servicemember in the Army pursuing a certificate, associate, bachelor’s, or graduate degree, UMGC will submit a student degree plan to ArmyIgnitED.

If you are a Navy, Marine Corps, or Coast Guard student pursuing an associate or bachelor’s degree, UMGC will provide a military degree plan that documents any credit you have been awarded from other sources. The military degree plan also lists all your remaining degree requirements, including the total number of credits needed for graduation, as well as credits required to fulfill general education, major and minor, and elective requirements.

If you are a Coast Guard, Navy, or Marine Corps servicemember pursuing a certificate or graduate degree, you do not require a military degree plan to continue to be eligible for tuition assistance.
The Academic Advisement Report is sufficient documentation for that purpose.

If you are an Air Force servicemember pursuing a certificate or an undergraduate (associate or bachelor’s) degree, UMGC will provide a specialized military degree plan (titled an Air Force Degree Plan).

Alumni Association

The UMGC Alumni Association, founded in 1990, fosters and perpetuates lifelong relationships between alumni and their alma mater. Its mission is to support, enhance, and promote UMGC and its community of students, faculty, and alumni worldwide.

Membership in the Alumni Association is free for UMGC graduates. The association invites graduates to stay connected through volunteer service, social events, career networking, and other opportunities. Benefit programs and resources include career services, networking opportunities, affinity partner discounts, virtual alumni book club, and special alumni events—held both online and on-site.

Membership in the UMGC Alumni Association offers an exceptional opportunity to expand personal and professional networks. UMGC currently has more than 254,000 graduates in 47 states and 24 countries. UMGC alumni work in nearly all major international and Fortune 500 organizations, federal agencies, branches of the military, and private industry.

For more information on the Alumni Association and on how to activate your free membership, visit alumni.umgc.edu. You can also follow the Alumni Association on Facebook, LinkedIn, and Twitter.

Career Services

Career Services provides resources and services for UMGC students and alumni worldwide to inform them about, prepare them for, and connect them with their career and job-search needs. To access Career Services, activate your account on CareerQuest, UMGC’s online career portal, at careerquest.umgc.edu using your UMGC login credentials.

Tools and Resources

Career Services offers a variety of tools and resources, available online 24 hours a day, that can be useful in the career planning and job-search process. Resources include résumé builders and critiques, online mock interviews, video job-search tips, LinkedIn profile critiques, mentor matching, and occupational information.

Job-Search Services

UMGC offers several services designed to support UMGC students and alumni who are seeking employment. Services include recruitment sessions and job fairs (held online and on-site); employability and job-seeking skills webinars, such as résumé writing and interview preparation; and job-search tutorials. CareerQuest enables you to register for recruiting events, search job listings and set job alerts, and post résumés for prospective employers.

Career Development and Planning

Career Services staff are available to provide personalized attention to help you clarify your skills, interests, and work-related values; make career/life-related decisions; research career options; plan for further study; and search for employment, whether you are new to your career field, making a career transition, or looking for guidance on how to climb the corporate ladder as an experienced professional.

Career advising services are available by appointment (on-site and by phone, video chat, and email) and can be scheduled via CareerQuest. Call 800-888-8682, ext. 2-2720, or visit umgc.edu/careerservices for more information.

Computer Labs and Services

Computer labs are available at many UMGC sites. You can check asia.umgc.edu/locations to see if a site near you has computing services. At some sites, use may be restricted to students taking classes at that site.

These labs are available primarily for you to complete coursework but are also open to faculty members, staff, and alumni with current single sign-on credentials on a first-come, first-served basis upon presentation of a valid UMGC ID. You must bring your own media to save required data or documents. Acceptable media include flash drives or thumb drives.

Lab assistants are available during scheduled hours to help you with resident software programs but cannot provide tutoring.

Technical support for MyUMGC, the learning management system, and other learning applications is available 24 hours a day, seven days a week, at umgc.edu/help or 888-360-8682. For the most current information on technical requirements for online and hybrid courses, visit umgc.edu/techreq.
Course Materials

You can complete most UMGC degrees without purchasing textbooks, thanks to electronic resources that are free, up to date, and available in your online classroom. These open educational resources may include electronic textbooks, lectures, links to websites, and other selected documents and media.

Some courses do require the use of specific software or content that cannot be accessed for free. When you register for a course, check the required course materials listed in the interactive schedule of classes to determine whether you will need to buy any course materials. These materials are not included on your student account or added with your tuition and fees and must be paid for out-of-pocket.

For those few courses that require additional resources, you may order textbooks and software either through the vendor listed on the interactive schedule, from MBS Direct online through the UMGC online bookstore (umgc.edu/bookstore), or by mail. In rare cases, your faculty member will provide information on special resources to purchase.

Graduation Clearance and Services

Application Deadlines

If you expect to complete the requirements for your program, you are responsible for making sure you have reviewed your academic advisement report with an academic advisor (details on p. 27), filed an application for graduation (available online through MyUMGC at my.umgc.edu) with Graduation Services, and paid the appropriate fee (currently $50). For all undergraduate programs and most graduate programs, this may be done at the time you register for your final term or by the following deadlines:

December (fall term) graduation October 15
May (spring term) graduation February 15
August (summer term) graduation June 15

If you are a doctoral student or are enrolled in a program that requires DCL 600M or PRO 600, you may submit your application for graduation at the time you register for your final term or up to the following deadlines:

December graduation October 15
March graduation February 15
June graduation April 1
September graduation July 15

The same deadlines apply if you are completing a certificate program. The application form must be completed via MyUMGC at my.umgc.edu. Follow the links from the Student Center, to MyAcademics, and Apply for Graduation.

Clearance Process for Graduation

Once you have applied for graduation, Graduation Services will review your academic requirements and determine whether you are cleared for graduation. If you do not complete the degree requirements in the term in which you first applied for graduation, your graduation application will automatically be moved to the next term. You will not be required to reapply, and you do not need to pay the application fee again.

If you are taking courses outside of UMGC in your final term, contact your academic advisor to request a Permission to Enroll form. Once the form has been completed and submitted, it will be reviewed by a member of the Graduation Services team. The Graduation Services team then certifies degree completion, awards the degrees or certificates, and orders diploma(s). You will be issued a digital diploma after your degree or certificate has been awarded. Graduation Services also processes letters of completion and embassy letters.

Transcripts are not updated to show program completion, nor are diplomas and certificates ordered, until the degree has been awarded.

For more information on the clearance process for graduation, visit umgc.edu/graduationservices.

Commencement

Asia commencement ceremonies are held annually in April and May depending on your location. You will be invited to participate in commencement if you apply for a diploma in the same term as the ceremony (or have graduated since the last commencement). Visit asia.umgc.edu/commencement for more information about eligibility and details about the Asia commencement ceremonies.

If you invite guests from outside the United States, you may request up to 10 embassy letters up to five months in advance. Embassy letters for UMGC Asia students should be requested through the Office of Student Services at studentservices-asia@umgc.edu.

Student Advisory Council

The Student Advisory Council provides advice to the university administration and thus serves as an avenue for you and your fellow students to provide feedback about UMGC's mission and overall direction. The council consists of 12 members, elected by
the student body, who act in an advisory capacity to the university leadership on behalf of all students. The council does not have the authority to act on behalf of individual students but instead provides recommendations for the improvement of UMGC for the benefit of all.

If you would like to see certain issues addressed or have questions, you should contact your council representative by email at stac@umgc.edu.

More information on shared governance is available online at umgc.edu/governance.

Student Organizations

Student organizations provide professional growth, leadership development, and academic recognition through career networking, service opportunities, and learning as part of a community. Most of UMGC's student organizations have virtual communities and enable you to participate regardless of your location. Visit umgc.edu/clubs for a list of active student organizations and instructions on becoming a member.

Transcript Services

Official academic records are maintained by the Office of the Registrar at UMGC and show all graded coursework taken through UMGC. A summary of your transfer credit from other institutions (including other institutions in the University System of Maryland) is also listed on your official transcript, if an official evaluation has been completed.

Your records are considered confidential. Therefore, UMGC releases transcripts only upon receiving an online transcript request from you and payment of the appropriate fee. Online requests are authenticated through your login credentials. An electronic release form is provided during the request process and serves as your official signature.

Various procedures for requesting transcripts are available online at umgc.edu/transcripts. A fee is charged for each UMGC transcript that is issued; additional fees are charged for rush overnight processing. You should allow at least three business days for transcript requests to be processed. All financial obligations to the university must be satisfied before a transcript may be released.

Tutoring and Writing Resources

Free online tutoring via Tutor.com is available in select courses in accounting, computer programming and information technology, economics, finance, statistics, and other select general education courses. Tutoring is not yet available for all subjects offered at UMGC. You are encouraged to first seek guidance from the class's faculty member; he or she is eager to help you master the material and concepts of the course. More information about tutoring services is available at umgc.edu/tutoring. If you need additional information or have any questions, email tutoring@umgc.edu.

Writing tutoring is available for all classes through various means. You can access Tutor.com through the online classroom and upload a draft of a paper to receive targeted assistance. You can also access writing-related services and resources through the Effective Writing Center, which is available online 24 hours a day, seven days a week. The center's experienced, trained tutors can help you develop key writing skills by providing specialized individual online tutoring, self-study modules, and other writing resources. You can schedule a session with a UMGC writing tutor via email to writingcenter@umgc.edu to set the day and time. There are also a number of additional resources hosted by the center, such as the "Online Guide to Writing and Research" and other multimedia materials. The center's goal is to help you become a more skilled and confident writer who understands the tasks before you, so that you are better prepared for your next assignment, whether that is in the classroom or in your career. More information is available at umgc.edu/ewc.

The UMGC Library

The UMGC Library serves to educate students, faculty, and staff in the use of library and information resources, emphasizing the critical importance of information literacy knowledge and skills for success in today's information-rich world. The UMGC Library also develops and manages extensive online library resources and user-centered services for UMGC students, faculty, and staff worldwide.

Library Resources

The UMGC Library provides access to research materials on topics related to UMGC's academic programs. You can access subscription research databases containing hundreds of thousands of full-text articles and thousands of electronic books. OneSearch allows you to search for scholarly articles, books, and other research resources from most of the research databases via
a single search. In addition, subject-specific resource guides serve as starting points for your research. Each guide includes research databases, books, websites, and other resources related to your topic or program.

**Library Services**
Currently enrolled students in the continental United States have borrowing privileges at all the University System of Maryland and Affiliated Institutions (USMAI) member libraries. The library collections can be searched and books can be requested through the online library catalog, available via the library home page. You may also use the DocumentExpress service to request journal articles or book chapters not otherwise available online.

**Library Instruction and Research Assistance**
Reference and research assistance and technical help is available daily (except holidays), during regularly scheduled hours, via online chat, email, and telephone. Research consultation appointments are also available for in-depth assistance. The UMGC Library home page also provides extensive resources on conducting research, writing, citing, and maintaining academic integrity. Periodic library webinars can also help you learn more about research and citation. Visit umgc.edu/library for more information.

**Verification Services**

**Enrollment Verification**
UMGC participates in the National Student Clearinghouse, which, in turn, supplies verification of enrollment to lending agencies. UMGC reports student enrollment data to the clearinghouse two times each month. Enrollment data are provided for all students who are enrolled in classes, whether they are attending full-time, half-time, or less than half-time, as well as for students who are considered to have withdrawn from the university. UMGC also reports degree information, including graduation date, for students who have completed an academic program.

If you are a current student, you may request enrollment verification through MyUMGC free of charge. If you are no longer enrolled at UMGC, you may request a transcript of your academic record to verify past enrollment.

All enrollment verifications requested via MyUMGC are processed in real time and available to print on the same day. An enrollment verification will not be processed until all financial obligations to the university have been satisfied.

**Loan Deferment Form Certification**
UMGC does not grant or deny deferment requests; any deferments are at the sole discretion of the lender. UMGC processes deferment forms, certifying your official dates of enrollment. If you are not enrolled in the current term, you are reported as having withdrawn, regardless of whether you plan to enroll or have already enrolled in a future term.

If you have a William D. Ford Federal Direct Loan and wish to apply for a deferment, you must complete the In-School Deferment Request (available at umgc.edu/finaldfoms) and submit it to Academic Services and Quality by fax or email for certification. Forms should be faxed to 240-684-2005 or emailed to studentrecords@umgc.edu.

You should be aware of both your lender’s deadlines for receiving deferment requests and UMGC’s reporting schedule to avoid having deferment forms processed and forwarded to the lenders before enrollment data have been reported.

**Degree Verification**
UMGC has authorized the National Student Clearinghouse to provide degree verification. A degree verification will not be released until all financial obligations to the university have been satisfied.

Employers and background screening firms must contact the clearinghouse directly for this information, for which a fee is charged. For more information about this service, visit studentclearinghouse.org.

**Veterans Resources**
UMGC offers dedicated military and veterans advisors and a range of resources targeted specifically for veterans. These include VetSuccess on Campus and the Vessey Veterans Resource Center, a one-stop shop designed to give you the support you need to succeed in school and in your career. Learn more at asia.umgc.edu/military/veterans-affairs/veterans-benefits/index.cfm.

See p. 48 for information on using veterans benefits to pay for your education.
Academic Standards

UMGC standards for academic rigor assess the degree to which you demonstrate content mastery, application of critical thinking skills, and adherence to UMGC’s code of academic integrity.

Grading Methods

There are five grading methods at UMGC: standard, pass/fail, satisfactory/unsatisfactory, satisfactory/D/fail, and audit. The most commonly used is the standard method. Any course may be audited.

Some grading options and methods are limited to undergraduate or graduate courses as follows:

- The pass/fail grading method is available only at the undergraduate level and under limited conditions. The satisfactory/D/fail method is restricted to certain specified undergraduate courses. Both methods are described in the next section.
- The satisfactory/unsatisfactory method is available only for EXCL 001, graduate noncredit courses, and doctoral dissertation courses and may not be selected or changed.

The table at right defines the grades and marks; regulations and usage for each grading method are provided in the paragraphs that follow.

<table>

</table>
Standard
Unless you choose the pass/fail (for undergraduate courses only) or audit option for a particular course at the time of registration, you will be graded according to the standard grading method. Under the standard grading method, you earn a grade of A, B, C (for courses in which the grade of C is available), D (for undergraduate courses only), F, or FN on the basis of your performance in meeting the requirements of the course. All grades received under the standard grading method are included in calculating the grade point average (GPA).

Pass/Fail
If you are a degree-seeking undergraduate student, have earned 30 credits (including at least 15 credits at UMGC), and have a cumulative grade point average of 2.0, you may take one elective course each standard term (fall, spring, or summer) by the pass/fail method, up to a maximum of 18 credits.

This grading method is allowed only for electives. Courses that fulfill general education requirements, major or minor requirements, related requirements for the major, or certificate requirements may not be taken pass/fail, nor may pass/fail grading be used in retaking a course for which a letter grade was earned previously.
You must elect pass/fail grading at the time you register. This status may not be changed after the first week of classes.
If you register for pass/fail grading, you must still complete all the regular requirements of the course. The faculty member evaluates your work under the normal procedure for letter grades and submits a regular grade. Grades of A, B, C, or D are then converted to the grade of P, which is entered into the permanent record. A grade of F or FN remains unchanged.

Although a grade of P earns credit toward graduation, it is not included in calculating a grade point average. A grade of F or FN carries no credit toward graduation and is included in computing grade point averages.

This option is not available for graduate courses.

Satisfactory/Unsatisfactory
EXCL 001; graduate noncredit courses, currently designated UCSP or ASC; and doctoral dissertation courses are graded on a satisfactory/unsatisfactory basis. You may not choose to take other graduate courses or any undergraduate courses on a satisfactory/unsatisfactory basis. This grading method does not include an option for requesting a mark of Incomplete.

Satisfactory/D/Fail
This grading method is available only at the undergraduate level and on a limited basis, primarily for experiential learning courses. Although a grade of satisfactory (S) earns credit toward graduation, it is not included in calculating grade point averages. The grade of D earns credit and is included in computing grade point averages. While a grade of F or FN earns no credit toward graduation, it is included in computing grade point averages.

Grades and Marks

The Grade of F: Failure
The grade of F means you failed to satisfy the minimum requirements of a course. Although it carries no credit, it is included in calculating the GPA. If you earn a grade of F, you must register again for the course, pay all applicable tuition and fees, repeat the course, and earn a passing grade to receive credit for that course.

The Grade of FN: Failure for Nonattendance
The grade of FN is assigned if you register for a course and never attend or participate or if you cease to attend or participate within the first 60 percent of the course and do not officially drop or withdraw from the course. An FN grade results in zero quality points and no credit earned. It is included in calculating your GPA and may affect your academic standing. If you receive a grade of FN, you must register again for the course, pay all applicable tuition and fees, repeat the course, and earn a passing grade to receive credit for that course.

The Mark of G: Grade Pending
The mark of G is an exceptional and temporary administrative mark given only when the final grade in the course is under review. It is not the same as a mark of Incomplete.

The Grade of P: Passing
The grade of P is available only at the undergraduate level and is conferred after a faculty member has evaluated coursework under the normal procedure for letter grades and has submitted a standard grade (A, B, C, or D). Then the Office of the Registrar converts that standard grade into the grade of P.

A passing grade is recorded on the permanent record and confers credit toward graduation. However, courses graded P are not included in calculating grade point averages.
The Grade of S: Satisfactory
The grade of S is awarded only for select courses. Although the grade of S confers credit and appears on the permanent record, courses graded S are not included in calculating the GPA.

At the undergraduate level, the grade of S is equivalent to a grade of C or higher and is used to denote performance that meets standards in an experiential setting or practicum, such as EXCL 301.

At the graduate level, the grade of S is equivalent to a grade of B or higher and is used to denote performance that meets standards in noncredit and doctoral dissertation courses.

The Grade of U: Unsatisfactory
The grade of U indicates that work for the course was not completed at a satisfactory level. Although it appears on the permanent record, it carries no credit and is not included in calculating the GPA.

The Mark of I: Incomplete
The mark of I (Incomplete) is an exceptional mark, given only if your completed coursework has been qualitatively satisfactory, but you have been unable to complete all course requirements because of extenuating academic or personal circumstances beyond your control.

To be eligible for an I, you must have completed 60 percent or more of the course requirements with an overall grade of C or better for undergraduate courses or B or better for graduate courses. You must request an I from your faculty member before the class ends. Faculty, however, are not required to approve the request. If your request for a mark of I is approved, you must arrange fulfillment of course responsibilities with your teacher by the assigned deadline to receive credit.

The mark of I is not available for courses graded on a satisfactory/unsatisfactory basis. The doctoral program and master’s degree programs requiring DCL 600M, PRO 600, and CBR 600 have additional parameters for the mark of I. Consult your course syllabus for detailed information.

The Grade Point Average
Your cumulative grade point average (GPA) is computed at the end of every term (fall, winter, spring, or summer), based on all your graded coursework at UMGC, using the quality points assigned to each grade or mark (detailed on the chart on p. 32). First, the quality-point value of each grade or mark is multiplied by the number of credits; then the sum of these quality points is divided by the total number of credits attempted for which a grade of A, B, C (for courses in which the grade of C is available), D (for undergraduate courses only), F, or FN was received.

Only courses applied toward a second bachelor’s degree are computed in the GPA for that degree, even if you earned a first degree at UMGC.

Only courses applied toward a master’s degree are computed in the GPA for that degree, even if you earned an undergraduate degree at UMGC.

Changes in Grade
Faculty members may revise a grade previously assigned only if your grade was miscalculated or a mark of I was submitted and must be changed. Any revision must be made no later than four months after the original grade was awarded.
Repeated Courses

Grading Repeated Courses
If you failed or withdrew from a course, you must repeat the course to establish credit in it. In such a case, you must register, pay the full tuition and fees, and repeat the entire course successfully.

When you repeat a course, only the higher grade earned is included in the calculation of your GPA. For purposes of financial aid and satisfactory academic progress, both attempts are counted toward your completion rate. Both grades are entered on the permanent record, with a notation indicating that the course was repeated. You cannot increase the total hours earned toward a degree by repeating a course for which you already earned a passing grade.

If you are enrolled in a second master’s degree program, you may not repeat coursework from your first program, even if your second program requires one or more of the courses required in your first program. See p. 151 for more information on earning a second master’s degree.

Limits on Repeating Courses

UNDERGRADUATE
If you are an undergraduate student, you may not register for the same course more than three times without first speaking to an advisor and submitting a course repeat petition form, which must be on file before the start of the term in which you wish to repeat the course. Your advisor can also explain how repeating the course affects your GPA, transcript notations, and progress toward degree completion. Note that the limit on repeating courses applies only to courses in which you have received a grade. Officially withdrawing from a class and receiving a mark of W is not counted as an attempt for repeat limits.

GRADUATE
If you are a graduate student and your term or cumulative GPA drops below 3.0, you will be placed on academic warning. You will remain on academic warning as long as your cumulative GPA is less than 2.0 but your GPA for the term is 2.0 or better.

Dismissal
If you are on probation and your GPA for the term is less than 2.0, you will be dismissed. Once dismissed, you must apply for reinstatement if you wish to continue studies with UMGC. Your application for reinstatement must be approved before you are eligible to register again for UMGC courses.

Institutional Credit
A course that may not be applied toward graduation may be assigned a credit value for purposes of course load per session and tuition. This institutional credit is included in your GPA and in determining your eligibility for financial aid, tuition assistance, and veterans educational benefits. However, if you are required to take these courses, you do so in addition to the credit required for the degree.

Academic Standing and Levels of Progress
UMGC assesses your academic standing at the end of every term. Your GPA is computed for all UMGC graded coursework to make a determination of academic standing according to your level of progress as described below.

For details, see UMGC Policy 158.00 Undergraduate Academic Levels of Progress and UMGC Policy 158.01 Academic Standing Status for Graduate Students, both available online at umgc.edu/policies.

Undergraduate Students

UNDERGRADUATE LEVELS OF PROGRESS
At the undergraduate level, there are four levels of academic progress: satisfactory, warning, probation, and dismissal.

Satisfactory
If your cumulative grade point average is 2.0 or higher, you are considered to be making satisfactory progress.

Warning
If your cumulative GPA is less than 2.0, you will be placed on academic warning. You will remain on academic warning as long as your cumulative GPA is less than 2.0 but your GPA for the term is 2.0 or better.

Probation
If you are on academic warning and your GPA for the term is less than 2.0, you will be placed on probation.

If your GPA for the term is 2.0 or better while you are on probation, but your cumulative GPA is less than 2.0, you will return to academic warning or provisional admission status.

While on academic probation, you are limited to a maximum enrollment of 7 credits per standard term until your academic progress status returns to warning.

Dismissal
If you are on probation and your GPA for the term is less than 2.0, you will be dismissed. Once dismissed, you must apply for reinstatement if you wish to continue studies with UMGC. Your application for reinstatement must be approved before you are eligible to register again for UMGC courses.
If you are on probation and your GPA for the term is 2.0 or higher, you will not be dismissed, regardless of your cumulative GPA.

**REINSTATEMENT AFTER DISMISSAL FROM AN UNDERGRADUATE PROGRAM**

If you were academically dismissed from an undergraduate program at UMGC, you may submit a request to be reinstated by contacting your local academic advisor. You must explain the changes you have made in your academic preparation and the strategies you have adopted that will improve your potential for successfully completing your program. You are not eligible to register again for UMGC courses until you are reinstated.

If you attended another college or university since you were academically dismissed, you must ensure that transcripts from any such college or university are sent to UMGC. You may direct inquiries to the Office of Student Services at studentservices- asia@umgc.edu.

Staff know that these petitions for reinstatement are important and that you are eager to get back on track, so petitions will be reviewed as quickly as possible. The Office of Student Services will notify you of the decision.

If you are approved for reinstatement, you will be admitted and placed on academic warning. You may also be required to meet additional conditions, such as working with a coach or tutor or enrolling in specific courses. You must earn a 2.0 or better to avoid academic probation.

If you have questions about the reinstatement process, speak with an academic advisor or email studentservices- asia@umgc.edu.

**Master’s Degree Students**

**GRADUATE ACADEMIC STANDING**

At the graduate level, there are three levels of academic standing: good academic standing, academic probation, and academic dismissal.

As a graduate student, you must maintain a cumulative and term GPA of 3.0 or higher at all times to remain in good academic standing.

**Good Academic Standing**

If you have a term and cumulative GPA of 3.0 or higher, you are in good academic standing.

**Academic Probation**

If you have a term or cumulative GPA below 3.0, you will be placed on academic probation in your next term of enrollment. Academic probation is a temporary status. If you are placed on academic probation, you have up to two terms of enrollment in which to restore your GPA to 3.0. During that time, you must enroll only in the course(s) for which you received a grade that caused your cumulative or term GPA to drop below 3.0; you may not attempt any other coursework until you earn a grade of B or better in the repeated course(s).

Failing to restore your GPA to 3.0 or higher or earning any grade below B while on probation will result in academic dismissal. If you restore your GPA to 3.0 or higher, you will be returned to good academic standing. You should seek guidance and advice from an academic advisor if you are placed on academic probation.

**Academic Dismissal**

If you are on academic probation and you fail to raise your GPA to 3.0 or higher or if you earn a grade below B during the probationary period, you will be dismissed. Once dismissed, you are ineligible to enroll in UMGC graduate courses and may be readmitted to UMGC only under the conditions for reinstatement or restart described in the following paragraphs.

**REINSTATEMENT AFTER DISMISSAL FROM A GRADUATE PROGRAM**

If you were academically dismissed from a graduate program at UMGC, you may submit one request for reinstatement. You must explain the changes you have made in your academic preparation and the strategies you have adopted that will improve your potential for successfully completing your program. You may direct inquiries to Student Affairs at studentservices- asia@umgc.edu.

Staff know that these petitions are important and that you are eager to get back on track, so petitions will be reviewed as quickly as possible. Student Affairs will notify you of the decision.

If you are approved for reinstatement, you will be admitted for one term and placed on academic probation. You may also be required to meet additional conditions, such as working with a coach or tutor or enrolling in specific courses. By the conclusion of this term, you must be in good academic standing to remain enrolled.

If you are reinstated to the same program in which you were last enrolled, you must immediately repeat the course(s) for which you received the grade(s) that caused your cumulative GPA to drop below 3.0. If you are reinstated to a different program, your previous coursework and credits will not apply.

If you fail to attain a cumulative GPA of 3.0 or higher or if you earn a term GPA below 3.0, you will be academically dismissed, and you will not be eligible to apply for reinstatement or a restart again.

If you have questions about the reinstatement process, speak with an academic advisor or email studentservices- asia@umgc.edu.
RESTART AFTER DISMISSAL FROM OR ACADEMIC PROBATION IN A GRADUATE PROGRAM

If you were academically dismissed from a graduate program, have not been approved for reinstatement (as described in the preceding section), and have not attended graduate classes for a period of at least five consecutive years, you may request a one-time restart. You may also request a one-time restart if you were on academic probation when you last attended and have not attended graduate classes for a period of at least five consecutive years. Grades and credits previously earned will not apply toward any program you pursue upon your return, and you must fulfill the program requirements in effect at the time you restart.

Program Completion Requirements

The award of degrees and certificates is conditional upon satisfactory completion of all program requirements, compliance with all UMGC policies, and satisfactory or good academic standing (described on pp. 35-36). Graduation clearance will not be granted if you are not in good academic standing, have outstanding debt to UMGC, or have any outstanding misconduct charges or unsatisfied sanction restrictions. Individual programs may have additional requirements that must be met before graduation clearance can be granted.

Scholastic Recognition

Honor Societies

Honor societies are national organizations that celebrate the scholarship and leadership of students in specific fields of study. The honor societies represented at UMGC meet our high academic standards, and membership is a privilege that can enhance your academic and professional stature. Contact information for each honor society chapter can be found online at umgc.edu/honor-societies. Many honor societies process new membership applications only once or twice a year. If you receive an invitation to an honor society, you should first check that it is listed on the UMGC website or in this catalog before joining. The descriptions that follow indicate whether an honor society is open to undergraduate students, graduate students, or both.

Alpha Sigma Lambda

Alpha Sigma Lambda is a nationally recognized honor society that celebrates the scholarship and leadership of adult undergraduate students in higher education. Members of Alpha Sigma Lambda are highly motivated adult students who are pursuing their undergraduate education and managing the responsibilities of work and family while studying. To qualify for membership, you must be pursuing a first associate or bachelor’s degree; have completed at least 24 credits at UMGC in courses graded A, B, C, D, or F; and maintained a GPA of 3.7 or higher in all UMGC courses. At least 15 credits, from UMGC or transferred, must be in courses outside the major.

Lambda Epsilon Chi

Lambda Epsilon Chi is the national honor society founded by the American Association for Paralegal Education (AAIPE), which recognizes the scholarship and leadership of students in higher education. There are more than 150 chapters throughout the United States and thousands of inductees who have been honored for their outstanding academic achievements.

Membership is open to legal studies majors by invitation only. To be eligible for membership, you must complete a minimum of 24 hours of legal studies coursework and demonstrate superior academic performance, as evidenced by a GPA of at least 3.5 in UMGC legal studies classes and an overall UMGC GPA of at least 3.25.

National Society of Collegiate Scholars

The National Society of Collegiate Scholars (NSCS) is an honor society recognizing students who have completed fewer than 60 credits toward an associate or a bachelor’s degree and have shown academic excellence. The honor society encourages members to participate in honor society, university, and community events and provides resources to enable them to focus on their professional and leadership development. To be eligible, you must be seeking a first associate or bachelor’s degree. You must have completed at least 12 credits at UMGC in courses graded A, B, C, D, or F and have a cumulative GPA of 3.0 or higher. In addition, you must have completed between 12 and 59 credits toward your degree.

Phi Alpha Theta

As a UMGC undergraduate student, you may qualify for membership in Phi Alpha Theta, the international honor society in history. To qualify for membership, you must attain a GPA of 3.5 or higher in at least 12 credits of UMGC history coursework and have an overall UMGC GPA of 3.0.

Phi Kappa Phi

The Honor Society of Phi Kappa Phi promotes the pursuit of excellence in all fields of higher education and recognizes outstanding achievement by students, faculty, and others through election to membership and through various awards for distinguished achievement. Admission is by invitation only. If you are an undergraduate student in your junior year, have completed between 72 and 89 credits toward your degree (including at least 24 credits...
Served as a mentor in the One2One mentoring program for at least one term, posted feedback on Vessey Veterans Student Union articles or to the social wall at least twice per month, or served as a volunteer in the past six months; display the highest ethical standards; and maintain a GPA of at least 3.0 as an undergraduate student or 3.5 as a graduate student. Documentation of volunteer activity is required.

If you meet the minimum standards stated above, you are encouraged to apply for membership. To learn more, visit umgc.edu/salute.

Sigma Phi Omega
Sigma Phi Omega is a national academic honor and professional society in gerontology that seeks to promote scholarship, professionalism, friendship, and services to older persons and to recognize exemplary attainment in gerontology and aging studies and related fields. Student membership is open to undergraduate students majoring or minoring in gerontology and aging services, social science (with a focus on gerontology), and related fields. You must be in at least your second term of enrollment, have completed a minimum of 12 credits at UMGC, and have a GPA of at least 3.3. Your eligibility will be confirmed through the chapter sponsor before membership is conferred.

Sigma Tau Delta
Membership in Sigma Tau Delta, the international English honor society, is open to qualified undergraduate UMGC students with a major in English. To be eligible, you must have earned at least 45 credits toward the bachelor’s degree with an overall GPA of 3.5 or higher. At least 30 credits must have been earned through UMGC and must include 12 credits of English, not including WRTG 112 or WRTG 101, and 6 credits of upper-level coursework. You must also have earned a GPA of 3.6 or higher in English major coursework at UMGC.

Upsilon Phi Delta
Upsilon Phi Delta is a national academic honor society founded by the Association of University Programs in Health Administration for students in healthcare management and policy and designed to recognize, reward, and encourage academic excellence in the study of healthcare administration. To be eligible as an undergraduate student, you must have a cumulative GPA of 3.25 or higher and at least 18 credits of coursework in health services management with a GPA of 3.25 or higher in those courses. If you are a graduate student, you must have a cumulative GPA of 3.5 or higher and at least 18 credits of graduate coursework.

Upsilon Pi Epsilon
The Kappa Chapter of Upsilon Pi Epsilon, the international honor society for the computing and information disciplines, is open to
undergraduate and graduate students. To be eligible as an undergraduate student, you must be pursuing a bachelor’s degree with a major in the computing and information disciplines and must have completed at least 45 credits. You should have completed at least 30 credits at UMGC in courses graded A, B, C, D, or F, including at least 15 credits in the computing and information disciplines, and must have a GPA of at least 3.5 overall and in all computing and information systems coursework. If you are a graduate student, you may be considered for membership if you are pursuing one of the following degrees: MS in Cloud Computing Systems, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, Data Analytics, Digital Forensics and Cyber Investigation, Information Technology (with a specialization in database systems technology, informatics, information assurance, software engineering, or systems engineering), or Management (with a specialization in information systems and services). To qualify for graduate-level membership, you must have completed at least 18 credits at UMGC toward your degree, with a cumulative GPA of 3.5 or higher.

Undergraduate Scholastic Recognition

Academic Honors

Academic honors for excellence in scholarship are determined by your cumulative GPA at UMGC. The distinction of summa cum laude is conferred on those undergraduate students with a cumulative GPA of 4.000; magna cum laude honors are conferred on those with a cumulative GPA of 3.901 to 3.999; cum laude honors are conferred on those with a cumulative GPA of 3.800 to 3.900. To be eligible for any of these categories of recognition, you must have earned at least 30 credits at UMGC in courses for which a letter grade and quality points were assigned. For honors to be conferred with a second bachelor’s degree, you are required to have a total of 30 new UMGC credits and the requisite GPA. (See p. 86 for more information on attaining a second bachelor’s degree.)

Dean’s List

The dean’s list is calculated at the end of each term. To be eligible for the dean’s list, you must have completed at least 6 credits (in courses graded A, B, C, D, or F) during the term, earned a GPA of at least 3.5 for the term, and maintained a cumulative GPA of 3.5 at UMGC.

All courses taken during the term are used in computing the GPA, even though the total number of credits may exceed 6. A term is designated as fall, spring, or summer.

If you make the dean’s list, you will be notified via email of your achievement by the Office of the Dean of your school.

Responsibilities of the Student

Attendance and Participation

You are responsible for attending all on-site and online classes and any related activities regularly and punctually. Faculty members may base part of the final grade on class participation.

According to the university’s definition of a unit of credit (described in Policy 160.00 Credit Hour Definition), you should expect to spend 42 to 45 hours on coursework (online or on-site class discussions and activities, additional study, readings, and preparation of assignments) for each credit you earn. As a rule of thumb, you should expect to devote at least three hours of outside study each week for every credit in which you are enrolled. For example, you would need to devote at least nine hours per week to outside study for a 3-credit course.

You are expected to achieve the same intended learning outcomes and do the same amount of work in an online course as you would in an on-site course. Active participation is required in all courses, whether they are online or on-site with an online component, and you should expect to log in to your courses several times a week.

Absence from class does not excuse you from missed coursework. You are responsible for completing any missed coursework, as indicated in the course syllabus, and obtaining detailed information about missed class sessions, including content, activities covered, and any announcements or assignments. Failure to complete any required coursework may adversely affect your grade. Faculty members are not expected to repeat material that you missed because of your absence from class.

You may not give permission to another person to accompany you to an on-site class meeting, to attend an on-site class meeting in your place, or to access or attend your online class, except as part of reasonable accommodations arranged through Accessibility Services.

Academic Integrity

Integrity in teaching and learning is a fundamental principle of a university. As a member of the International Center for Academic Integrity (academicintegrity.org), UMGC subscribes to the center’s definition of academic integrity as “a commitment, even in the face of adversity, to six fundamental values: honesty, trust, fairness, respect, responsibility, and courage.” UMGC believes that all members of the university community share the responsibility for academic integrity.
As a UMGC student, you are expected to conduct yourself in a manner that will contribute to the maintenance of academic Integrity in accordance with the university’s philosophy of academic integrity (umgc.edu/integrityphil). All forms of academic misconduct, defined as actions that create an unfair academic advantage, are a violation of the principles of academic integrity and will not be permitted. Attempts to engage in academic misconduct or to assist others in doing so are prohibited and may result in disciplinary actions that range from lower assignment grades to expulsion. Candor, the acknowledgement of error, and willingness to learn from mistakes are valued in the misconduct review process. Resources to help you uphold the highest standards of academic integrity and a link to UMGC Policy 150.25 Academic Integrity are available at umgc.edu/academicintegrity. UMGC strongly encourages you to review the complete policy and to make use of available resources and support services.

**Intellectual Property**

The primary mission of universities is to create, preserve, and disseminate knowledge. When that knowledge takes the form of intellectual property, a university must establish a clear and explicit policy that will protect the interests of the creators and the university while ensuring that society benefits from the fair and full dissemination of that knowledge. UMGC’s policy on intellectual property is available online at umgc.edu/intellectual-property.

**Course Load**

See UMGC’s Policy 215.00 on Student Academic Load and Enrollment Status at umgc.edu/policies for more information.

**Undergraduate**

For undergraduate students, full-time enrollment is defined as 12 or more credits per term and half-time as 6 to 11 credits per term (fall, spring, or summer). Decisions on the number of courses you can successfully complete in any one session are normally left to your discretion.

Most UMGC students register for between 3 and 7 credits per term, and you are strongly advised not to exceed this limit. Carefully and realistically assess your other commitments before you register for more than 7 credits. You may not register for more than 18 credits in a 17-week period without written permission from the Office of Student Services.

To initiate the permission process, contact your academic advisor. Permission to register for more than 18 credits is at the university’s discretion and is based on demonstrated academic excellence at UMGC. A minimum GPA of 3.5 and an enrollment history indicating success in carrying a heavier-than-average course load at UMGC are required.

You may not register for on-site or hybrid courses whose scheduled meeting times overlap.

**Graduate**

**FOR MASTER’S DEGREE PROGRAMS**

If you are enrolled in a program that operates on a three-term calendar for the academic year, you are considered a full-time graduate student if you are registered for at least 9 credits of graduate coursework per term and half-time if you are enrolled for 6 credits per term.

If you are enrolled in a program that operates on a four-term calendar for the academic year, you are considered a full-time graduate student if you are registered for 6 credits per term.

Given the time commitment required for graduate study, the normal academic load is 6 credits per term. UMGC strongly recommends that you limit your academic load to conform with the demands of your employment and the time you have to prepare for class.

Taking more than 6 credits per term is not allowed in the MS in Data Analytics program or any program that operates on a four-term calendar but may be allowed in programs that operate on a three-term calendar, if certain conditions are met.

If you have a compelling need to take more than 6 credits per term (and are enrolled in a program that allows course overloads), you may submit to your advisor a written request to take 3 additional credits of coursework (i.e., one additional course). You must have fulfilled the prerequisites for the additional course you wish to take. In the request, you must indicate your acceptance of the academic risk entailed in adopting the course overload.

To be considered for a course overload, you must

- Be a degree- or certificate-seeking student
- Have a 3.0 GPA

**Appealing a Grade**

The established performance standards for a course grade are communicated in the syllabus and other course materials. If you reasonably believe that your grade was not based on such standards but was arbitrary and capricious, you may pursue the appeal process for arbitrary and capricious grading. Procedures for appealing a grade are detailed in UMGC Policy 130.80 Procedures for Review of Alleged Arbitrary and Capricious Grading, which is available online at umgc.edu/policies.

There is a time limit for appealing a grade; if you want to appeal a grade, you must initiate the process by requesting a conference with the faculty member to discuss how the grade was calculated.
within 30 calendar days of the posting of the grade. If you have conferred with a faculty member with no resolution, contact dean-asia@umgc.edu with a detailed explanation of how you believe that your grade situation fits the definition of arbitrary and capricious grading as provided in the policy.

**Grievance and Appeal Procedures**

If you have legitimate complaints about faculty, staff members, academic departments, or administrative units, contact the Dean's Office at dean-asia@umgc.edu.

To file a formal complaint concerning the actions of members of the UMGC faculty or administrative staff, you must follow the procedures detailed in UMGC Policy 130.70 Student Grievance Procedures, which is available at umgc.edu/policies as well as from the Office of Academic Integrity and Accountability. If you wish to seek redress for the acts or omissions of a faculty or staff member, you must first request a conference with that person and attempt to resolve the complaint informally within 14 calendar days of the alleged act or omission. If you have attempted resolution within the academic program without a satisfactory outcome, email integrity@umgc.edu and include information required by the grievance policy linked above.

If you are not satisfied with the outcome of your student grievance, you may submit your complaint to an applicable accreditor, state higher education agency, or other external entity. Contact information for external entities is available at umgc.edu/external-complaint.

If you wish to file a complaint about discrimination or harassment, you must follow the procedures detailed in UMGC Policy 040.30 Affirmative Action and Equal Opportunity, available at umgc.edu/ eeo. You can file a complaint regarding discrimination or harassment at fairpractices@umgc.edu. You may file a complaint regarding sexual misconduct at titleixinvestigator-overseas@umgc.edu.

**Connectivity and Technical Fluency**

UMGC is committed to ensuring that you have access to up-to-date resources and acquire the level of fluency in information technology you need to participate actively in contemporary society.

As a UMGC student, you must own or have access to a personal computer, have access to the internet, and have a current email address. You must be prepared to participate in asynchronous, computer-based class discussions, study groups, online database searches, course evaluations, and other online activities whether your course is held online or in a classroom. Although a mobile device is useful for keeping up with reading course materials and posting to discussion boards, a computer provides all the functionality needed for an online classroom.

You must also be able to reach fellow students, faculty, and the university via email. You will be assigned a UMGC account, which includes email, as soon as you register. While you are not required to use the UMGC email address, you must provide and maintain a current email address through MyUMGC (my.umgc.edu).

In addition, you are expected to have a working knowledge of and access to a basic word processing program, such as Microsoft Word; a spreadsheet program, such as Microsoft Excel; internet email services; Microsoft Windows; and the World Wide Web. As a UMGC student, you may use Microsoft Office 365, including Word, Excel, and PowerPoint, plus additional classroom tools at no cost. Office 365 can be accessed either via the web or by downloading applications to home or work computers.

Information on technology requirements for computing and IT courses is provided on p. 23. The most current technical requirements are available online at umgc.edu/techreq.

**Placement Testing**

Proper placement in critical core courses helps ensure your success and allows you to advance more quickly toward your degree goals. UMGC offers complimentary placement testing to help determine the most appropriate course in certain foreign languages for your academic success.

You are not required to take a writing placement exam before you register for a writing course at UMGC.

Contact Exams and Testing Services by phone at 800-888-8682, ext. 2-2600, or by email at exams@umgc.edu.

**Change of Address**

If you move while enrolled at UMGC, you must notify UMGC by updating your personal information in MyUMGC.

**Transfer of Credits from UMGC**

To have credits earned through UMGC transferred to another institution, you must obtain authoritative guidance from the institution to which you intend to transfer—even if it is another institution in the University System of Maryland. The transferability of credits earned is always at the discretion of the receiving institution. Only that institution can answer specific questions about whether it will accept transfer credit, as well as whether any credits may satisfy its admission, residency, and degree requirements or apply to its curricula.
Code of Civility

To encourage the development and growth of a supportive and respectful academic environment for all students, faculty, and staff, UMGC has created the Code of Civility, which is available at umgc.edu/civility.

Code of Student Conduct

UMGC Policy 151.00 Code of Student Conduct outlines prohibited conduct and the procedures by which such conduct is addressed. The university reserves the right to take appropriate action to protect the safety and well-being of the UMGC community.

You may be accountable to both civil authorities and to UMGC for acts that constitute violations of law and of this code. Disciplinary action at UMGC normally will go forward pending criminal proceedings and will not be subject to challenge on the grounds that criminal charges involving the same incident have been dismissed or reduced.

In every case of alleged Code of Student Conduct violation, the burden of proof rests with the complainant, who must establish the responsibility of the person accused by a preponderance of evidence. In cases where the complainant wishes to remain anonymous, the burden of proof rests with the administrator.

See umgc.edu/student-conduct for additional information about the UMGC Code of Student Conduct.
Payment of Tuition and Fees

UMGC requires that you pay your tuition and fees on time. Due dates are provided at the time of registration and depend on how early you register for courses.

Current Tuition and Fees

Tuition rates and fees are available online at asia.umgc.edu/tuition. Information on student classification and residency is provided at usmd.edu/regents/bylaws/SectionVIII.

Review the fee schedule carefully to see which ones apply to you. Fees are commonly charged for admission and graduation applications, laboratory use (science and computer courses), technology, transcripts, and various options for earning credit (such as Workplace Learning, Prior Learning Portfolio Assessment, and credit by examination). Site-specific fees may apply for courses taken at certain locations. A service charge is assessed for dishonored checks.

Determination of Residency for Tuition Purposes for UMGC Stateside Students

An initial determination of in-state or out-of-state status for tuition purposes is made when you apply for admission. The determination made at that time remains in effect unless it is successfully challenged. You are responsible for providing the information necessary to establish eligibility for in-state status. Official criteria for determining residency are detailed in USM Policy VIII-2.70 Policy on Student Classification for Admission and Tuition Purposes at usmd.edu/regents/bylaws/SectionVIII/ and UMGC Policy 210.20 Student Residency Classification for Admission, Tuition, and Charge-Differential Purposes at umgc.edu/policies.

Determination of Eligibility for Military Tuition Rate

UMGC’s undergraduate military tuition rate applies to

- Members of the Commissioned Corps of the National Oceanic and Atmospheric Administration (NOAA)
- The spouses and dependent children of the servicemembers listed above

UMGC’s graduate military tuition rate applies to

- Full-time active-duty servicemembers
- Members of the Selected Reserves
- Members of National Guard units
- Members of the Commissioned Corps of the USPHS
- Members of the Commissioned Corps of NOAA
- Spouses of full-time active-duty members of the U.S. Armed Forces, members of the Commissioned Corps of the USPHS, and members of the Commissioned Corps of NOAA
- Dependent children of full-time active-duty members of the U.S. Armed Forces, the Commissioned Corps of the USPHS, and the Commissioned Corps of NOAA whose sponsor resides in Maryland, is stationed in Maryland, or claims Maryland as the sponsor’s state of residency
- Dependent children of full-time active-duty members of the U.S. Armed Forces, the Commissioned Corps of the USPHS, and the Commissioned Corps of NOAA if the dependent child resides in Maryland and is using the sponsor’s transferred Post-9/11 GI Bill® benefits

To secure the military tuition rate, you must provide documentation of your service (or that of your qualifying spouse or parent) no later than 30 days after the date you submit the application for admission. For more information, contact Admissions or check the To Do list in MyUMGC.

If you do not submit sufficient documentation by the deadline, your tuition rate will be charged at the out-of-state rate—unless you have submitted the Residency Questionnaire in MyUMGC and qualify for in-state tuition, in which case your tuition rate will be changed to the in-state rate.

More information about securing the military tuition rate is available at umgc.edu/milrate-procedures. If you have questions about your eligibility or documentation, email residency@umgc.edu.

Payment Deadlines

UMGC requires that you pay your tuition and fees on time. Your payment due dates depend on how early you register for courses. Due dates are provided at the time of registration and are visible

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available at the official U.S. government website at benefits.va.gov/gibill.
in the Account Balance panel in your Student Account Center in MyUMGC.

If you register any time from the beginning of registration through seven days before the class start date, your payment will be due seven days before the class start date. If you register within seven days of the class start date, your payment will be due the day before class starts. If you register on or after the class start date, your payment is due at the time of registration.

Note: All other charges, including application and diploma fees, are due the same day the charges are incurred.

All tuition and applicable fees must be paid by the deadline, unless you

- Applied for financial aid to cover tuition and fees for the session
- Confirmed your status as active-duty military or submitted your military tuition assistance documents
- Requested certification for your veteran’s education benefits
- Enrolled in UMGC’s interest-free monthly payment plan
- Provided confirmation that you will receive employer-provided tuition assistance

UMGC offers a variety of payment options. Payments can be made via

- Credit card (American Express, Discover, MasterCard, or Visa)
- Money order
- Check (made payable to University of Maryland Global Campus)
- Electronic debit from a checking or savings account

Consult the appropriate sections of this chapter for further information about tuition assistance, financial aid, or veterans benefits. More information about different payment options, including the monthly payment plan, is available at umgc.edu/payoptions.

Refunds for Dropping or Withdrawing from a Course

Registering for a course obligates you to pay for it; however, if for any reason you are unable to take a course, you must officially drop or withdraw from the course. See p. 14 for procedures on how to drop or withdraw from a course.

If you drop a course during the drop period, you will qualify for a full refund of tuition and fees, except for the admission application fee.

If you withdraw during the withdrawal period, you may be refunded a portion of the tuition as determined by the date of withdrawal and the refund schedule posted online at asia.umgc.edu/services/course-withdrawals-refunds. All refunds are computed from the date the withdrawal is formally initiated, not from the date of the last class you attended or the last participation date. Refunds are applicable for tuition only. Fees are not refundable.

If your tuition was paid directly through employer tuition assistance, the refund is returned to the employer. If the tuition assistance was only a partial payment, it is returned to the employer, and excess payment is refunded to you.

More information about refunds can be found on the UMGC website.

See the following sections for information on return of military tuition assistance, veterans benefits, and federal return of funds policy for financial aid students.

Dishonored Checks

For each paper or electronic check returned to UMGC by the payer’s bank (whether because of insufficient funds, stopped payment, postdating, or drawing against uncollected items), UMGC assesses a service charge of $30 (over and above any service charges levied by the financial institution).

If you stop payment on a check for tuition, you will be neither disenrolled nor relieved of responsibility for paying tuition and fees. Anyone whose checks for tuition or fees remain dishonored may be barred from classes.

Indebtedness to the University

If you incur debts to UMGC, you must clear them to be permitted to register. Requests for transcripts and diplomas may be denied until all debts have been paid. Outstanding debts are collected against refunds due to you. After a reasonable period, uncollected debts are forwarded to the Central Collection Unit of the State Attorney General’s Office.

The Board of Regents has authorized UMGC to charge students’ delinquent accounts for all collection costs incurred by UMGC. The normal collection fee is 17 percent plus attorney and/or court costs. Delinquent accounts are reported to a credit bureau.

Ways to Finance Your Education

Monthly Tuition Payment Plan

UMGC offers a cost-effective alternative for students who are budgeting for college tuition: an interest-free, monthly tuition pay-
ment plan. This plan allows you to spread all or part of your tuition bills into monthly installments on an academic session basis. All UMGC students are eligible to participate in the payment plan, regardless of financial need. If you are interested in the monthly payment plan, visit asia.umgc.edu/tuition-assistance.

**Employer–Provided Tuition Assistance**

If an employer is going to pay for part or all of your tuition, at the time of registration you must submit two copies of a document (purchase order, tuition assistance form, or contract on company letterhead) containing the following information:

- A specific description of types of fees and charges (such as tuition, application fee, or books) and the amount to be assumed by the employer
- Your full name and student identification number or the last four digits of your Social Security number
- The session covered by the document
- The billing address
- The signature and phone number of the authorizing official

If you do not have an authorizing document at the time of registration, you must pay the bill in full and arrange for direct reimbursement from your employer. UMGC cannot issue refunds for authorizing documents submitted after registration.

Documents that restrict payment or are in any way conditional will not be accepted. If the employer does not pay UMGC, you are responsible for payment.

**Financial Aid**

UMGC’s Financial Aid Office administers a variety of financial assistance programs—including grants, scholarships, and loans—to help you meet the costs of your educational goals. Aid is available for students who demonstrate financial need, academic merit, or both.

**General Eligibility Requirements**

To be eligible for federal student aid and most UMGC need-based assistance, you must

- Be admitted to UMGC as a degree-seeking or eligible certificate-seeking student
- Be a U.S. citizen or an eligible noncitizen
- Be enrolled half-time for most federal programs

**Note:** Audited courses, some repeated courses, credit by examination, and credits earned through Portfolio Assessment cannot be counted toward enrollment status.

- Demonstrate satisfactory academic progress toward a degree or certificate according to UMGC policy
- Have a high school diploma or General Education Development (GED) certificate
- Possess a valid Social Security number
- Not be in default on any federal student loans, nor have borrowed in excess of loan limits, nor owe a refund on any grant under Title IV federal student aid programs
- Be enrolled in courses that are required for your degree or certificate program.

**Note:** Courses not required for your degree or certificate program will not be included in determining eligibility for financial aid. See Program Applicability on p. 47.

**The Financial Aid Application Process**

You must complete the Free Application for Federal Student Aid (FAFSA) to be considered for federal, most state, and institutional financial aid at UMGC. The FAFSA (which is available online at fafsa.ed.gov) must also be completed if you wish to be considered for need-based Maryland state grants and scholarships. UMGC’s school code is 011644. The FAFSA form must be submitted by the federal deadline each year; many states also set priority deadlines by which you must submit the form to be considered for aid programs they administer. UMGC encourages you to complete the FAFSA as soon as you have decided on your academic career. For more information, visit asia.umgc.edu/costs-and-financial-aid.

**Financial Aid Programs**

Financial Aid programs are available to both full- and part-time students. UMGC may offer the following types of financial aid: grants, scholarships, and loans. In most cases, at least half-time enrollment is required. (Full- and part-time status is explained on p. 40.)

Eligibility for federal financial aid is determined each year based on data submitted on the FAFSA. Following is a description of programs currently available at UMGC.

**GRANTS AND SCHOLARSHIPS**

UMGC offers and administers many different types of grants and scholarship programs from various funding sources. UMGC aims to offer scholarship funding to as many eligible students as possible each year based on available funding. For this reason, it is not common for students to receive more than one donor-funded or institutional scholarship in an aid year. The standard combined annual maximum award amount for most donor-funded and institutional awards is $2,000. The following are the main categories of scholarships and grants that are available to eligible UMGC students. Additional annual maximum award limits and restrictions
other than those listed below may apply. Contact the Financial Aid Office for details.

Note: This list is not exhaustive and is subject to change.

Federal Grants
The federal government provides grants for students attending college. Most types of grants are sources of money that generally do not have to be repaid.

- The Federal Pell Grant is a grant program for high-need, first-time undergraduate students. Award amounts vary by need level and enrollment status.
- The Federal Supplemental Educational Opportunity Grant (SEOG) offers need-based awards for high-need students who are seeking their first undergraduate degree. The amount and number of awards vary depending on the availability of funds allocated by the U.S. Department of Education.

More information is available at asia.umgc.edu/grants.

UMGC Institutional Scholarships and Grants
UMGC allocates a portion of its operating funds each year to help eligible students with demonstrated financial need afford their coursework. Most institutional funds are provided as part of the regular award packaging process and do not require a separate application. The most commonly provided institutional scholarships are described below.

The UMGC President’s Grant offers up to $1,400 per year to select students with demonstrated need who are enrolled in at least 3 credits of coursework per semester.

The UMGC President’s Scholarship offers up to $2,000 per year (fall and spring semesters only) to select students with demonstrated need and a GPA of 3.0 or higher who are enrolled in at least half-time each semester they receive the award.

The Maryland Completion Scholarship is offered to UMGC undergraduate students who meet the following criteria. You must

- Be a current Maryland resident receiving the in-state tuition rate, or an active-duty servicemember
- Have earned an associate degree from a Maryland alliance community college
- Be pursuing a first bachelor’s degree with UMGC
- Maintain a term and cumulative GPA of 2.0 and meet the university’s requirements for satisfactory academic progress
- Successfully complete at least 3 credits every fall and spring semester (Summer courses are also eligible for Completion Scholarship funding; all regular requirements must be met in any optional summer registration.)

If you qualify, you can receive the Maryland Completion Scholarship for up to 60 credits attempted at UMGC or for up to five calendar years starting in the semester of the first award, whichever occurs first. You must provide an official transcript showing completion of a conferred associate degree from a Maryland community college before the end of your second semester of enrollment at UMGC.

Donor Scholarships
Generous donors to UMGC have provided many different scholarship funds, each with its own specific criteria. If you meet the general eligibility requirements for donor-funded scholarships, you will receive an invitation by email (and in the student portal) each spring semester. This application is the only one needed for consideration for nearly all donor-funded scholarships. An invitation to apply for these scholarships does not guarantee funding, as funds are limited.

In general, to be eligible for these scholarships you must

- Be enrolled as a degree-seeking student
- Have a current FAFSA on file, demonstrating financial need
- Have successfully completed 15 credits (if you are an undergraduate student) or 9 credits (if you are a graduate student) in courses taken at UMGC
- Meet satisfactory academic progress standards (described in a following section)
- Maintain a cumulative GPA of 3.0
- Maintain at least half-time registration each fall and spring semester

Maryland Higher Education Commission (MHEC) Programs
The state of Maryland offers many different grant and scholarship programs to eligible students. The MHEC website (mhec.state.md.us) is the best source for current information about the different programs available to UMGC students and application deadlines. Note that some deadlines are early. For more information, contact the Maryland Higher Education Commission Office of Student Financial Assistance at 410-767-3300 or 800-974-0203 or visit the website.

Private and Third-Party Scholarships
Outside agencies, such as social clubs or volunteer organizations, may offer scholarship funds to UMGC students to assist with education costs. These agencies provide funding either directly to you (the student) or directly to UMGC for processing and administration. The Financial Aid Office ensures that students receiving these funds maintain eligibility per the requirements of the individual agencies.
For more information on scholarships, visit asia.umgc.edu/scholarships.

LOANS

Loan programs are available to students enrolled in at least half-time status each semester. If you borrow funds to pay for college expenses, you must repay the principal and interest in accordance with the terms of the promissory note.

The Federal Direct Loan program offers two types of loans: subsidized and unsubsidized. Loan amounts vary based on your degree level (i.e., undergraduate or graduate), grade level, and dependency status. Repayment begins six months after you leave school or your attendance drops below half-time. For annual eligibility amounts and general repayment terms, visit umgc.edu/direct-loan.

- Federal Direct Subsidized Loans are available to eligible undergraduate students who demonstrate financial need. The U.S. Department of Education pays the interest on Federal Direct Subsidized Loans while you are in school at least half-time and for the first six months after you leave school.
- Federal Direct Unsubsidized Loans are available to eligible undergraduate and graduate students. There is no requirement to demonstrate financial need. Interest on an unsubsidized loan begins on the day the loan is disbursed and continues until the day that you repay the loan in full. You can pay the accumulating interest while you are in school, during the grace period, or during deferment, or you may capitalize the interest (i.e., add unpaid accumulated interest to the total unsubsidized amount borrowed) when you begin repayment.

The Federal Direct PLUS Loan Programs are loans for graduate students and parents of dependent undergraduate students to help pay for education expenses not covered by other financial aid. Eligibility is not based on financial need, but a credit check is required. Borrowers who have an adverse credit history must meet additional requirements to qualify. Repayment begins as soon as the loan is fully disbursed; however, there is an option to defer payments while you meet certain enrollment criteria.

For more information on federal loan repayment obligations, visit umgc.edu/loan-repayment.

Private student loans are made by private organizations—such as banks, credit unions, and state-based or state-affiliated organizations—and have terms and conditions that are set by the lender. If your financial aid does not meet your financial need, you may be able to borrow up to your cost of attendance through a private student loan program. These education loans are not federal loans; you borrow directly from and make payments to the lender. Private student loans usually have higher interest rates than federal loans. UMGC encourages you to apply for federal student aid before seeking alternative private loan options. If you are interested in a private student loan, contact the lender of your choice. For more information on federal financial aid programs, visit umgc.edu/financial-aid. More information on loan repayment is available at umgc.edu/loan-repayment.

Program Applicability

Federal and state regulations mandate that financial aid can only be disbursed for courses that are required for your degree or certificate program. If you enroll in courses that are not required for your degree or certificate, those courses will not be used to determine your financial aid eligibility. If you choose to remain in courses which are not applicable to your degree or certificate program, your financial aid may be negatively affected as a result.

UMGC Financial Aid Standards for Satisfactory Academic Progress

If you receive financial aid, federal regulations require you to maintain satisfactory academic progress toward your degree or certificate. If you fail to meet the minimum requirements, you are not eligible to receive financial aid. Review the complete Satisfactory Academic Progress policy for financial aid students, including details of the appeal process, at umgc.edu/sap.

Federal Return of Funds Policy

Federal financial aid is offered under the assumption that you will attend and participate in classes for the entire period for which the aid has been offered. If you receive Title IV funds and do not attend or participate for the entire period for which you have been given aid, the university is required by federal regulation 34 CFR 668.22 to perform a Return of Title IV Funds calculation. The requirement to perform such a calculation may be triggered by any of the following actions occurring during your enrollment period:

- Course cancellation
- Disenrollment
- Never participating in a class
- Ceasing to participate in a class
- Dropping a course
- Withdrawing from a course
- Ceasing enrollment for 45 calendar days or more between modules
- You are not considered to have withdrawn
- If you certify your intent to return later within the same term in which you dropped or withdrew from class, unless you do not return as scheduled
If you fulfill all the requirements for graduation from the program before completing the required number of days in the period for which you have received funds
- If you complete one or more modules that together cover at least 49 percent of the days in the payment period
- If you successfully complete credits equal to or greater than the credits required for half-time enrollment

When the Financial Aid Office performs a return of funds calculation, unearned funds are returned to the Department of Education. This can result in a balance owed to UMGC. You are then responsible for repaying the outstanding debt, or it will be transferred to the state Central Collection Unit.

If you are using federal financial aid, you are strongly encouraged to contact the Financial Aid Office before dropping or withdrawing to fully understand the impact on your current and future financial aid.

Visit umgc.edu/enrollmentchanges for further information.

For More Information
If you need additional information, visit the Financial Aid Online Support Center at umgc.edu/help to email, chat, request a call, or view the extensive list of frequently asked questions in the Knowledge Base.

Note: If you are a resident of Washington state and are interested in information and resources about student loan repayment or wish to submit a complaint to the Washington Student Achievement Council regarding your student loan or student loan servicer, visit wsac.wa.gov/loan-advocacy or contact the student loan advocate at loanadvocate@wsac.wa.gov.

Military Tuition Assistance
If you are serving in the Navy, Marine Corps, or Coast Guard, you must contact your education center to request a tuition assistance form. A tuition assistance form signed by the education coordinator must be submitted at the time of registration using one of the methods listed at umgc.edu/milta.

If you are serving on active duty in the U.S. Army or are a member of the Army National Guard or Army Selected Reserves and intend to use military tuition assistance benefits, the funds will be approved in the ArmyIgniteEd portal (armyignited.com) one business day after you have registered for classes with UMGC.

If you are serving in the Air Force, you may submit your tuition assistance forms via the Air Force Virtual Education Center (AFVEC) portal. If you are the spouse of a servicemember eligible to utilize MyCAA (My Career Advancement Account) benefits, you may also submit your tuition assistance via the AFVEC portal.

Return of Unearned Military Tuition Assistance Funds
Military tuition assistance funds are awarded under the presumption that you will attend and participate in classes over the entire period for which the funds have been awarded. If you receive military tuition assistance funds and do not attend or participate for the entire period for which funds were provided, the university is required by the Department of Defense to perform a Return of Unearned Military Tuition Assistance funds calculation. The requirement to perform such a calculation is triggered by any of the following actions occurring on or before the 60 percent point of your enrollment period:

- Course cancellation
- Disenrollment
- Never participating in a class
- Ceasing to participate in a class
- Dropping a course
- Withdrawing from a course

A return of funds calculation is based on the last documented date of attendance or participation in the class or the date the drop, withdrawal, cancellation, or disenrollment is initiated. When a return of funds calculation occurs, unearned funds are returned to the Department of Defense. This can result in you owing a balance, which is your responsibility to repay to UMGC. To learn more about course withdrawal and return of military tuition assistance, see UMGC Policy 170.72 Course Withdrawal at umgc.edu/policies.

Any requests for exceptions to UMGC Policy 170.72, including requests related to dropping or withdrawing from a class because of military service obligations, must be submitted within 90 days of the last day of the term during which you dropped or withdrew from the class. For more information, contact Student Resolution and Judicial Affairs at exception.request@umgc.edu.

If you are using military tuition assistance, you must contact your military education counselor or education services officer for guidance on drops or withdrawals related to emergencies or official duty requirements before dropping or withdrawing from a class to fully understand the impact of such an action on your current and future military tuition assistance benefits.

For more information about the return of military tuition assistance funds, visit umgc.edu/return-milta.

Veterans Benefits
You may apply for the following educational assistance programs administered by the U.S. Department of Veterans Affairs (VA):
• The Montgomery GI Bill–Active Duty Increased Educational Benefits (MGIB, Chapter 30)
• Veteran Readiness and Employment (Chapter 31)
• The Post–Vietnam Era Educational Assistance Program (Chapter 32)
• The Post-9/11 GI Bill (Chapter 33)
  • Yellow Ribbon Program
  • Transfer of Post-9/11 GI Bill Benefits to Dependents
  • Marine Gunnery Sergeant John David Fry Scholarship
• The Survivors’ and Dependents’ Educational Assistance Program (Chapter 35)
• Montgomery GI Bill–Selected Reserve Educational Assistance Program (Chapter 1606)

Detailed information on all assistance programs is available on the UMGC website at asia.umgc.edu/vabenefits or on the VA website at gibill.va.gov.

Application Procedures
If you are eligible for educational benefits from the VA, you should review the online information and application procedures at asia.umgc.edu/vabenefits. Every educational assistance program requires different paperwork and documentation to process a claim. Initial applications for benefits should be submitted online directly to the VA. You must also complete a UMGC request for certification form each session you wish to receive benefits. The VA processes claims and issues payment six to eight weeks after the add/drop period of each enrollment session. VA claims may be submitted no earlier than 180 days before class starts for Chapter 33 enrollments and 120 days before class starts for Chapter 30, 35, and 1606 enrollments.

Amounts and Methods of Payment
The amount of money you may receive from the VA depends on the educational assistance program for which you are eligible, the number of credits for which you are registered, the length of the session, and (for certain programs) the number of dependents you have. The current monthly payment for each educational assistance program is available online at gibill.va.gov.

Benefit Provisions Related to Pending Payments
In accordance with Title 38 US Code 3679 subsection (e), UMGC adopts the following additional provisions for any students using VA Post-9/11 GI Bill (Ch. 33) or Veteran Readiness and Employment (Ch. 31) benefits. While payment to the university is pending from the VA, UMGC will not

• Prevent your enrollment
• Assess a late penalty fee
• Require you to secure alternative or additional funding
• Deny you access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution

However, to qualify for this provision, you may be required to
• Produce the VA Certificate of Eligibility by the first day of class
• Provide a written request to be certified
• Provide additional information needed to properly certify the enrollment as described in other institutional policies

Evaluation of Prior Training
When you file a claim for educational benefits, the VA requires your previous training and coursework to be evaluated so that you receive correct transfer credit.

If you are an undergraduate student, you must have an academic advisement report completed during your first session of enrollment. If you do not comply, you may find future benefits delayed. After your first registration, you are provided with information on the necessary procedure. (Information about sources of credit, including types of training that qualify for undergraduate credit, begins on p. 17; these include military training and service schools, postsecondary education, certain correspondence courses, and credit by examination.)

If you have earned graduate credit from a regionally accredited institution, you must have an evaluation completed during the first session of enrollment. (Equivalent credit from other accredited institutions may be considered on a case-by-case basis. If you were educated abroad, see umgc.edu/internationalstudent for additional requirements.) Not complying with this evaluation may delay future benefits. For information on evaluation procedures for study abroad, visit umgc.edu/internationalcredit.

Students’ Responsibilities
If you are receiving benefits, you are expected to follow all regulations and procedures of the VA while attending UMGC.

At UMGC, all regulations of the VA are enforced. You should be aware of the following requirements and consequences:
• You are expected to make satisfactory progress toward a degree or certificate; you must comply with the academic standards of UMGC.
• You must report all changes in enrollment—including drops, adds, withdrawals, changes to audit, and changes in degree objective.
• Registering for a course and then not attending, or ceasing to attend without officially withdrawing, is a misuse of federal funds that is punishable by law.
• Payment of benefits will be disallowed for any course in which a nonpunitive grade (i.e., a grade of I, W, or AU) is assigned.
• Payment of benefits will be disallowed for repeating a course for which transfer credit has been granted or for which a passing grade of A, B, C, D, P, or S was assigned.
• Payment of benefits will be disallowed for any course in which a grade of FN is assigned.
• Payment of benefits will be disallowed for any course that is not a requirement in your degree or certificate program.
• Payment of benefits will be disallowed for noncredit graduate courses.
• Payment of tuition and fees is required at time of registration, unless you are applying for Chapter 31 Vocational Rehabilitation or Chapter 33 Post-9/11 GI Bill benefits.
• You may be responsible for debts caused by overpayment of benefits resulting from reductions of your course load.
• If you are in a program that involves any internship, practicum, or work study, you are required to provide documentation to the Veterans Certification Office verifying the physical location and zip code where the work takes place.

Grievance Information for Virginia Students Using Veterans Educational Benefits

The Virginia State Approving Agency (SAA) is the approving authority of education and training programs for Virginia. The SAA investigates complaints of GI Bill beneficiaries residing in Virginia. While beneficiaries should initially follow the school grievance policy to address complaints, they should contact the SAA office via email at saa@dvs.virginia.gov if the situation cannot be resolved at the school.

Tutorial Assistance

You may qualify for tutorial assistance if you are a veteran, active-duty military servicemember, or reservist receiving funding assistance from the VA and you are enrolled at least half-time. Payments are allowed when you demonstrate deficiency in courses that are required for your degree program.

Work-Study Allowance

If you are registered at least three-quarters time (9 credits) and need money to attend school, you may participate in work-study. Recipients of benefits under the provisions of Chapters 30, 31, 32, 33, 35, and 1606 may be eligible. You may work up to 400 hours during a session and receive either the federal minimum wage or the state minimum wage, whichever is greater.

For Further Information

Information and applications are available from your advisor or at asia.umgc.edu/vabenefits on the UMGC website. For information on qualifying for the in-state tuition rate as a veteran or eligible dependent, see Determination of Residency for Tuition Purposes on p. 43.
Bridge Program

UMGC Asia offers the Bridge Program to English language learners who have had previous study in the English language but have not achieved the required test scores to become degree-seeking students. The five-course sequence, with an optional sixth course, is designed to help you improve fundamental oral and written skills in academic English. The Bridge Program provides a foundation for success in future classes to facilitate an academic transition into the U.S. higher education environment.

The Bridge Program is currently available at various locations in Japan (mainland and Okinawa) and Korea. This program is open to individuals with or without SOFA status, though different admission procedures apply.

Non-SOFA students must have an official certificate of English proficiency from TOEFL, EIKEN, or IELTS prior to admission to the Bridge Program.

Non-SOFA Japanese citizens who wish to take courses with UMGC must first be approved by their prefectural governmental agency. As a base employee (IHA/MLC), you must provide proof of English proficiency, high school completion documentation, and an endorsement letter from your supervisor to confirm eligibility. You should contact the Bridge Program Office for more information about the designated agency.

Non-native English speakers with SOFA status must provide proof of English proficiency and high school completion documentation.

Foreign educated students can be admitted as either Bridge or degree-seeking, dependent upon the English proficiency information provided. Acceptable test scores must be from exams taken within the last seven years.

Upon successful completion of the program, Bridge Program completers may take additional undergraduate courses and have the option to pursue a UMGC degree as a degree-seeking student.

To help you meet your educational goals, UMGC offers certificate programs that respond to current trends in today’s demanding job market. Certificate programs offer working adults a convenient, flexible way to earn credentials for potential career advancement. All are available online.

The undergraduate certificate programs generally require 16 to 18 credits, and graduate certificate programs generally require 12 to 18 credits. All courses for the certificate programs carry college credit and may be applied toward a related degree.

More details about certificate programs is available online at umgc.edu/certificates.

Expectations

Within each academic certificate program, UMGC seeks to help you gain specific skills needed to advance in your career. Most certificates are fully stackable, that is, they are part of a more advanced degree program, such as one leading to a bachelor's or master's degree. However, each certificate may also be used as a stand-alone credential.

Requirements

Continuous Enrollment

In general, the UMGC degree requirements that apply to you are those that were in effect when you completed the first credit-bearing course in a given program at UMGC. If you cease to be continuously enrolled, the program requirements that apply to you are those in effect at UMGC when you return to UMGC and enroll in a credit-bearing course for the program you wish to pursue at that time.

To be considered continuously enrolled, you must have had no more than two sequential years of nonenrollment. After two years of nonenrollment, you must apply for admission to resume enrollment.

If you change your degree program while continuously enrolled, then the program requirements that apply to you are those in effect at the time you enroll in the first required course for that program. Previously completed coursework may not apply to the new requirements.

Information about the catalog year that applies to you is provided in the MyUMGC student portal.

The individual certificate coursework requirements specified in the following section are applicable to students enrolling on or after August 1, 2022.

Overall Requirements

1. You must be admitted as a UMGC student.

2. You may pursue a degree and certificate simultaneously or pursue a degree after completing the certificate.

3. For undergraduate certificates, no more than half of the total credits for any certificate may be earned through credit by examination, prior-learning portfolio credit, internship/Workplace Learning credit, or transfer credit from other schools, under current policies for such credit. Additional limitations may apply to specific programs; see description of individual certificate programs for details.

4. For graduate certificates, no more than 6 credits may be earned through transfer from other schools.

5. You must satisfy all required prerequisites for certificate courses. Some prerequisites may need to be fulfilled before beginning certificate coursework.

6. For undergraduate certificate programs, you must complete all required coursework with a minimum grade of C (2.0) in all courses. For graduate certificate programs, you must complete all required coursework with a minimum grade of B (3.0) in all courses.

7. Certificate courses may not be taken pass/fail.

8. You may pursue up to four certificates at a time.

9. Undergraduate students may only complete certificates at the undergraduate level. Graduate students may only complete certificates at the graduate level.

Second Certificate

If you have earned a certificate from UMGC and want to pursue an additional certificate at UMGC, you must complete at least 12 credits of new coursework to be eligible. No substitutions to the program are available. If the coursework required for one certificate program significantly overlaps with coursework for another certificate program, it may not be possible for you to earn both certificates. In such cases, you will need to choose an alternate program if you wish to complete another credential at UMGC.

Before beginning work toward or registering for a second certificate program, consult an advisor or a success coach. Advisors or success coaches will be glad to explain the requirements and restricted combinations.
Curricula

The following undergraduate certificate programs are available:

- Accounting Foundations
- Advanced Management
- American Government and Political Processes
- Applied Social Sciences
- Augmented and Virtual Reality Design
- Business Analytics
- Clinical Mental Health Care
- Computer Networking
- Computer Studies
- Cyber Threat Hunting
- Decision Support for Business
- Digital Design
- Digital Marketing
- Foreign Language Area Studies
- Health Information Management and Data Analytics
- HR People Analytics
- Human Resource Management
- Leadership and Ethics
- Machine Learning
- Management
- Management Information Systems
- Project Management
- Public Safety Executive Leadership
- Spanish for Business and the Professions
- Urban Watershed Management
- Vulnerability Assessment
- Web Design
- Women, Gender, and Sexuality Studies

Accounting Foundations

The undergraduate certificate program in accounting foundations can help you develop the skills and knowledge needed for business transactions, including critical-thinking skills for analysis and reporting of the economic activities of an organization. It can also supplement an associate or bachelor’s degree program.

Overall certificate requirements are listed on p. 55.

**TWO REQUIRED COURSES (6):**

- ACCT 220 Principles of Accounting I (3)
- ACCT 221 Principles of Accounting II (3)

**FOUR COURSES CHOSEN FROM THE FOLLOWING (12):**

- Any ACCT course
- Any FINC course
- BMGT 110 Introduction to Business and Management (3)
- CMIS 102 Introduction to Problem Solving and Algorithm Design (3)
- DATA 200 Data Literacy Foundation (3)
- ECON 201 Principles of Macroeconomics (3)
- ECON 203 Principles of Microeconomics (3)
- IFSM 201 Concepts and Application of Information Technology (3)
- STAT 200 Introduction to Statistics (3)
- WRTG 112 Academic Writing (3)

**Total credits for certificate in Accounting Foundations:** 18
Advanced Management

Successful managers today require a strong balance of managerial skills and the relationship-building soft skills to manage those who are completing the work. The certificate program in advanced management is designed to help you build expertise by applying best practices to decision making, problem solving, and relationship building in real workplace scenarios. The curriculum covers management principles and organizational dynamics for today’s global, multicultural, and virtual organizations.

Overall certificate requirements are listed on p. 55.

**FOUR REQUIRED COURSES (12):**
- BMGT 160 Principles of Management (3)
- BMGT 364 Management and Organization Theory (3)
- BMGT 484 Organizational Collaboration (3)
- BMGT 317 Methods of Decision Making and Problem Solving (3)

**TWO SUPPORTING ELECTIVES CHOSEN FROM THE FOLLOWING (6):**
- ACCT 301 Accounting for Nonaccounting Managers (3)
- BMGT 305 Knowledge Management (3)
- BMGT 335 Small Business Management (3)
- BMGT 365 Organizational Leadership (3)
- BMGT 380 Business Law I (3)
- BMGT 464 Organizational Behavior (3)
- BMGT 465 Organizational Development and Transformation (3)
- BMGT 496 Business Ethics (3)
- DATA 200 Data Literacy Foundations (3)
- FINC 330 Business Finance
- FINC 331 Finance for the Nonfinancial Manager (3)
- HRMN 300 Human Resource Management (3)
- HRMN 302 Organizational Communication (3)
- HRMN 367 Organizational Culture (3)
- IFSM 300 Information Systems in Organizations
- MRKT 310 Marketing Principles (3)

**Total credits for certificate in Advanced Management: 18**

American Government and Political Processes

The certificate program in American government and political processes provides an in-depth study and analysis of the U.S. government, including its history, structure, and political culture. In this program, you’ll analyze the vertical and horizontal structure of the American government and its federal and republican foundations. You’ll examine the three federal branches, bureaucracies, and the state governments in the context of the development of the American political system and its impact on the political landscape. In addition, the program compares American government and political economy to those of other nations for a comprehensive overview of political forces.

Overall certificate requirements are listed on p. 55.

**SIX REQUIRED COURSES (18):**
- GVPT 170 American Government (3)
- GVPT 280 Comparative Politics and Governments (3)
- GVPT 306 Global Political Economy (3)
- GVPT 444 American Political Theory (3)
- GVPT 457 American Foreign Policy (3)
- GVPT 475 The U.S. Presidency and Executive Branch (3)

**Total credits for certificate in American Government and Political Processes: 18**
Applied Social Sciences

The certificate program in applied social sciences helps prepare you to apply social science tools and concepts to practical problems. The program helps equip you with updated knowledge and skills for identifying and solving social problems in communities, families, and the workplace. You’ll develop a deep understanding of social science concepts and learn to identify stakeholders, apply expert knowledge, communicate evidence, and present and defend solutions to relevant parties.

Overall certificate requirements are listed on p. 55.

**TWO REQUIRED COURSES (6):**
- PSYC 100 Introduction to Psychology (3)
- SOCY 100 Introduction to Sociology (3)

**FOUR COURSES CHOSEN FROM THE FOLLOWING (12):**
- ANTH 350 Health, Illness, and Healing
- ANTH 351 Anthropology in Forensic Investigations
- GER 427 Culture and Aging
- PSYC 351 Lifespan Development
- PSYC 354 Cross-Cultural Psychology
- SOCY 350 Contemporary Social Problems

**Total credits for certificate in Applied Social Sciences: 18**

Augmented and Virtual Reality Design

The augmented and virtual reality design certificate program helps provide you with entry-level skills for a career in these immersive technologies. In this project-centric program, you’ll be exposed to virtual reality design and augmented reality design, 3D game engines, user experience and interface design, and immersive design techniques.

Overall certificate requirements are listed on p. 55.

**SIX REQUIRED COURSES (18):**
- CMST 290 Introduction to Interactive Design (3)
- CMST 295 Fundamentals of Digital Design (3)
- CMST 308 User Experience and Interface Design (3)
- CMST 315 Game Design I (3)
- CMST 330 Virtual Reality Design I (3)
- CMST 331 Augmented Reality Design I (3)

**Total credits for certificate in Augmented and Virtual Reality Design: 18**
Business Analytics

Today, employers are looking to hire professionals who possess data analytics skills and can inform and enhance decision making within corporations, nonprofit organizations, government agencies, or the military. The certificate program in business analytics provides a valuable introduction to data science and can enhance your career opportunities, regardless of your major. In this program, you learn how to manage and manipulate data, create data visualizations, and use cutting-edge technology to gain insights from traditional and emerging data sources to make strategic data-driven recommendations that influence managerial decision making and organizational outcomes.

Overall certificate requirements are listed on p. 55.

FIVE REQUIRED COURSES (15):
- STAT 200 Introduction to Statistics (3)
- DATA 200 Data Literacy Foundations (3)
- DATA 320 Introduction to Data Analytics (3)
- IFSM 330 Business Intelligence and Data Analytics (3)
- DATA 335 Data Visualization (3)

AN UPPER-LEVEL COURSE CHOSEN FROM THE FOLLOWING (3):
- CSIA 300 Cybersecurity for Leaders and Managers
- DATA 300 Foundations of Data Science

Total credits for certificate in Business Analytics: 18

Clinical Mental Health Care

The certificate in clinical mental healthcare is designed to help prepare you for mental health service jobs that do not require licensure or credentialing. It supports work in direct and indirect client care activities performed under the supervision of a licensed professional (e.g., psychologist, medical doctor, social worker, or rehabilitation therapist) across multiple clinical settings (e.g., hospitals, behavioral health agencies, government agencies, and nonprofit organizations). The curriculum provides foundational theoretical and practical coverage of human behavior, mental health, ethics, and current research in the field.*

Overall certificate requirements are listed on p. 55.

SIX REQUIRED COURSES (18):
- PSYC 100 Introduction to Psychology (3)
- PSYC 300 Research Methods (3)
- PSYC 301 Biological Basis of Behavior (3)
- PSYC 335 Theories of Personality (3)
- PSYC 353 Abnormal Psychology (3)
- PSYC 436 Introduction to Clinical Psychology (3)

Total credits for certificate in Clinical Mental Health Care: 18
Computer Networking

A certificate in computer networking can supplement a bachelor’s degree or help you build knowledge and experience in this in-demand field. Ideal for those who want to work as network administrators for business, government, or nonprofit organizations, the undergraduate certificate program in computer networking at UMGC can provide you with hands-on training in state-of-the-art computer technology.

Through the computer networking certificate program, you’ll learn about the fundamental aspects of computer troubleshooting, networking, network security, interconnected Cisco devices, and cloud technologies. Plus, you’ll get a chance to choose from upper-level courses so you can tailor your degree to your career goals.

Overall certificate requirements are listed on p. 55.

FIVE REQUIRED COURSES (15):
CMIT 202 Fundamentals of Computer Troubleshooting (3)
CMIT 265 Fundamentals of Networking (3)
CMIT 320 Network Security (3)
CMIT 326 Cloud Technologies (3)
CMIT 351 Switching, Routing, and Wireless Essentials (3)

A SUPPORTING ELECTIVE CHOSEN FROM ANY UPPER-LEVEL CMIT COURSES (3)

Total credits for certificate in Computer Networking: 18

Computer Studies

(18 credits, at least 9 of which you must complete with UMGC)

COMPUTER STUDIES CORE COURSES (6 CREDITS)
CMIS 102 Introduction to Problem Solving and Algorithm Design (3)
IFSM 201 Concepts and Applications of Information Technology (3)

DISCIPLINE-SPECIFIC COURSE SEQUENCE (6 CREDITS)
Choose one 6-credit sequence from the following:
CMIS 141 Introductory Programming (3)
CMIS 242 Intermediate Programming (3)
or
CMIT 202 Fundamentals of Computer Troubleshooting (3)
CMIT 265 Fundamentals of Networking (3)
or
CMST 290 Introduction to Interactive Design (3)
CMST 295 Fundamentals of Digital Media (3)

COMPUTER STUDIES-RELATED COURSES (6 CREDITS)
Chosen from any CMIS, CMIT, CMSC, CMST, CSIA, IFSM, or SD courses.

Total credits for certificate in Computer Studies: 18
Cyber Threat Hunting

Organizations today must continuously hunt for cyber threats, since the threat scenario is constantly shifting and no software environment is secure from all threats. This certificate program provides an introduction to the concept of cyber threat hunting. In this program, you’ll learn fundamental techniques and methods for uncovering threats.

Overall certificate requirements are listed on p. 55.

**SIX REQUIRED COURSES (18):**
- IFSM 201 Concepts and Applications of Information Technology (3)
- CMIT 265 Fundamentals of Networking (3)
- CMIT 320 Network Security (3)
- CMIT 321 Ethical Hacking (3)
- CMIT 386 Penetration Testing and Cyber Red Teaming (3)
- CMIT 421 Threat Management and Vulnerability Assessment (3)

Total credits for certificate in Cyber Threat Hunting: 18

Decision Support for Business

The certificate program in decision support for business focuses on building leadership skills in thinking creatively and strategically about both business administration and information systems in the workplace to achieve organizational success. In this program, you’ll explore the foundations of business administration, leadership, management, marketing, finance/accounting, and information systems to gain appropriate insights, improve operations, make on-target predictions, and achieve a competitive advantage in today’s global business environment.

Overall certificate requirements are listed on p. 55.

**ONE COURSE CHOSEN FROM THE FOLLOWING (3):**
- IFSM 300 Information Systems in Organizations (3)
- DATA 200 Data Literacy Foundations (3)

**FIVE REQUIRED COURSES (15):**
- BMGT 364 Management and Organization Theory (3)
- BMGT 365 Organizational Leadership (3)
- BMGT 495 Strategic Management (3)
- FINC 330 Business Finance (3)
- MRKT 310 Marketing Principles (3)

Total credits for certificate in Decision Support for Business: 18
Digital Design

The digital design certificate program provides you with entry-level skills for a career in digital and computer graphics design. The project-centric program exposes you to elements of design, electronic publishing, image editing, illustration graphics, motion graphics, ethical and legal considerations, digital design applications, theories, industry best practices, and design techniques, as well as to various career paths.

Overall certificate requirements are listed on p. 55.

**SIX REQUIRED COURSES (18):**
- CMST 295  Fundamentals of Digital Design (3)
- CMST 310  Fundamentals of Electronic Publishing (3)
- CMST 311  Advanced Electronic Publishing (3)
- CMST 320  Illustration Graphics (3)
- CMST 325  Image Editing (3)
- CMST 341  Principles of Multimedia I (3)

**Total credits for certificate in Digital Design: 18**

Digital Marketing

The digital marketing certificate integrates a foundational understanding of marketing principles with practical applications of digital techniques. In this program, you’ll learn how to create effective online content and use data visualization techniques to gain better insight into the customer experience.

In addition, you’ll learn the skills to create an ad on Facebook that contributes to a social media campaign on that platform and understand the key metrics of optimization. You’ll examine the role of marketing in specific business contexts; use consumer behavior and psychology in the design of marketing strategies; employ best practices in simulating cost-effective marketing designs and selecting delivery modalities; and analyze how to use social media, email, and other digital-based platforms for optimum marketing results.

Overall certificate requirements are listed on p. 55.

**Note:** All courses required for the Digital Marketing certificate can be applied to major course requirements for the BS in Marketing. Prior-learning portfolio credit, internship/Workplace Learning credit, course challenge, or transfer credit from other schools cannot be applied to this certificate.

**SIX REQUIRED COURSES (18):**
- MRKT 311  Digital Marketing Principles (3)
- MRKT 354  Integrated Marketing Communications (3)
- MRKT 356  Email Marketing (3)
- MRKT 394  Managing Customer Relationships (3)
- MRKT 411  Consumer Behavior in Digital Media (3)
- MRKT 458  Social Media Marketing (3)

**Total credits for certificate in Digital Marketing: 18**
Foreign Language Area Studies

(18 credits, at least 9 of which you must complete with UMGC). You may choose coursework from one of the following areas—all courses must be from same area.

Overall certificate requirements are listed on p. 55.

Japanese

CORE COURSES (6)

JAPN 111 Elementary Japanese I (3)
JAPN 112 Elementary Japanese II (3)

RELATED AREA STUDIES COURSES (12)

Choose from related courses in Japanese culture, history, language, literature, or government and politics. Some examples follow:

Any JAPN language course(s) (3)
ANTH 417 People and Cultures of East Asia (3)
ASTD 135 Introduction to Japanese Language and Culture (3)
ASTD 284 Foundations of East Asian Civilization (3)
ASTD 285 Introduction to Modern East Asia (3)
ASTD – Other courses related to Japanese Studies (3)
GVPT 453 Recent East Asian Politics (3)
HIST 482 History of Japan to 1800 (3)
HIST 483 History of Japan Since 1800 (3)
JAPN 333 Society and Culture (3)

(Contact your academic advisor for additional approved courses)

Korean (Available only in Korea)

CORE COURSES (6)

KORN 111 Elementary Korean I (3)
KORN 112 Elementary Korean II (3)

RELATED AREA STUDIES COURSES (12)

Choose from related courses in Korean culture, history, language, literature, or government and politics. Some examples follow:

Any KORN language course(s) (3)
ANTH 417 People and Cultures of East Asia (3)
ASTD 155 Introduction to Korean Language and Culture (3)

Total credits for certificate in Foreign Language Area Studies: 18
Health Information Management and Data Analytics

The certificate program in health information management and data analytics is designed to help equip you with knowledge of the U.S. healthcare system and the skills needed for healthcare organizational management. In this program, you’ll learn methods of health information management and technologies for collecting, storing, retrieving, and processing healthcare data. In addition, you’ll learn how to analyze, interpret, and present that data using appropriate statistical tools and techniques for healthcare decision making. You’ll apply managerial epidemiology tools and evidence in decision making and acquire skills in planning and resolving diverse healthcare issues.

Overall certificate requirements are listed on p. 55.

SIX REQUIRED COURSES (18):

- HMGT 300  Introduction to the U.S. Healthcare Sector (3)
- IFSM 305  Information Systems in Healthcare Organizations (3)
- STAT 200  Introduction to Statistics (3)
- HMGT 307  Managerial Epidemiology and Decision Making in Healthcare (3)
- HMGT 320  Management in Healthcare Organizations (3)
- HMGT 400  Research and Data Analysis in Healthcare (3)

Total credits for certificate in Health Information Management and Data Analytics: 18

HR People Analytics

The HR people analytics certificate program is designed to provide a comprehensive understanding of human resource functions—such as resource planning; recruitment, selection, placement, and orientation of employees; training and career development; labor relations; performance appraisal and rewards programs; and development of personnel policies and procedures—in private- and public-sector settings.

The program provides a data-driven approach toward human resource management that involves collecting, analyzing, and reporting HR data. In this program, you’ll learn the skills you need to measure the impact of a range of HR metrics on overall business performance and make effective business decisions based on HR-related data.

Overall certificate requirements are listed on p. 55.

SIX REQUIRED COURSES (18):

- BMGT 364  Management and Organization Theory (3)
- FINC 331  Finance for the Nonfinancial Manager (3)
- HRMN 300  Introduction to Human Resource Management (3)
- HRMN 400  Talent Acquisition and Management (3)
- HRMN 406  Employee Training and Development (3)
- IFSM 300  Information Systems in Organization (3)

Total credits for certificate in HR People Analytics: 18
Human Resource Management

The human resource management certificate program at UMGC can help provide the theoretical and practical knowledge you need to advance and skills you can apply on the job right away.

In your HR management certificate program, you’ll learn how to resolve problems in the workplace via conflict management, approach the workplace and employees with a sensitivity to cultural diversity, develop programs for rewarding employees, and help employees reach their full potential.

Overall certificate requirements are listed on p. 55.

FOUR REQUIRED COURSES (12):
- BMGT 364  Management and Organization Theory (3)
- HRMN 300  Human Resource Management (3)
- HRMN 362  Labor Relations (3)
- HRMN 400  Talent Acquisition and Management (3)

TWO SUPPORTING ELECTIVES CHOSEN FROM THE FOLLOWING (6):
- BMGT 365  Organizational Leadership (3)
- BMGT 464  Organizational Behavior (3)
- BMGT 465  Organizational Development and Transformation (3)
- HRMN 302  Organizational Communication (3)
- HRMN 367  Organizational Culture (3)
- HRMN 395  The Total Awards Approach to Compensation Management (3)
- HRMN 406  Employee Training and Development (3)
- HRMN 495  Contemporary Issues in Human Resource Management Practice (3)

Total credits for certificate in Human Resource Management: 18

Leadership and Ethics

The certificate program in leadership and ethics is designed for business managers, organizational leaders, entrepreneurs, legal professionals, and individuals seeking to become effective leaders in public and private global organizations, both for-profit and not-for-profit. The program examines the qualities that make for thoughtful and responsible leadership and allows you to explore issues of morality related to business administration, leadership, and organizations. In this program, you’ll learn ethical leadership, leadership theory and practice, executive decision making, corporate social responsibility, ethical leadership, conflicts of interest, and organizational culture.

Overall certificate requirements are listed on p. 55.

SIX REQUIRED COURSES (18):
- BMGT 364  Management and Organization Theory (3)
- BMGT 365  Organizational Leadership (3)
- BMGT 496  Business Ethics (3)
- HRMN 300  Human Resource Management (3)
- BMGT 110  Introduction to Business and Management (3)
- BMGT 380  Business Law I (3)

Total credits for certificate in Leadership and Ethics: 18
Machine Learning

Machine learning impacts all industry sectors that generate significant amounts of data. The certificate program in machine learning combines study of methods and software tools to develop predictive models and artificial intelligence solutions. It can help prepare you for in-demand positions, such as machine learning engineer, applied machine learning scientist, artificial intelligence engineer, artificial intelligence specialist, and data scientist, among others.

The program can serve as an excellent supplement to a wide range of majors—including cybersecurity, environmental management, computer science, and biotechnology—beyond data science.

Overall certificate requirements are listed on p. 55.

SIX REQUIRED COURSES (18):
- STAT 200 Introduction to Statistics (3)
- DATA 320 Introduction to Data Analytics (3)
- DATA 300 Foundations of Data Science (3)
- DATA 430 Foundations of Machine Learning (3)
- DATA 450 Data Ethics (3)
- DATA 460 Artificial Intelligence Solutions (3)

Total credits for certificate in Machine Learning: 18

Management

Today, many workplaces require knowledge of management principles from multiple disciplines. The certificate in management can help you gain knowledge and skills by focusing on fundamental concepts of business management and leadership, problem solving, and effective data communication strategies.

Overall certificate requirements are listed on p. 55.

TWO REQUIRED COURSES (6):
- BMGT 160 Principles of Management (3)
- BMGT 110 Introduction to Business and Management (3)

FOUR COURSES CHOSEN FROM THE FOLLOWING (12):
- ACCT 220 Principles of Accounting I (3)
- ACCT 221 Principles of Accounting II (3)
- ECON 201 Principles of Macroeconomics (3)
- ECON 203 Principles of Microeconomics (3)
- IFSM 201 Concepts and Applications of Information Technology (3)
- STAT 200 Introduction to Statistics (3)

Total credits for certificate in Management: 18
Management Information Systems

The management information systems certificate program provides you with entry-level skills for a career in information systems. It is especially helpful if you are looking to move into a management position in information systems and bridge the gap between an organization’s functional users and technical developers.

Overall certificate requirements are listed on p. 55.

SIX REQUIRED COURSES (18):
- CSIA 300 Cybersecurity for Leaders and Managers (3)
- IFSM 300 Information Systems in Organizations (3)
- IFSM 301 Foundations of Management Information Systems (3)
- IFSM 310 Software and Hardware Infrastructure Concepts (3)
- IFSM 370 Telecommunications in Information Systems (3)
- IFSM 330 Business Intelligence and Data Analytics (3)

Total credits for certificate in Management Information Systems: 18

Project Management

The undergraduate project management certificate program at UMGC can help prepare you for supervisory and midlevel management positions involving project management and team management. If you’re a project manager, project team member, or otherwise assigned to project teams within a private- or public-sector organization, this certificate program can help you upgrade your skills with theoretical and practical knowledge to advance to a higher level.

In your certificate courses, you’ll learn to bring a project full cycle from development to completion. You’ll also work with a variety of tools designed specifically for project management and work hands-on with federal contracts to become familiar with processes and issues.

Overall certificate requirements are listed on p. 55.

FOUR REQUIRED COURSES (12):
- BMGT 487 Project Management I (3)
- BMGT 488 Project Management II (3)
- IFSM 438 Information Systems Project Management (3)
- IFSM 441 Agile Project Management (3)

TWO SUPPORTING ELECTIVES CHosen FROM THE FOLLOWING (6):
- BMGT 317 Decision Making (3)
- BMGT 339 Introduction to Federal Contracting (3)
- BMGT 365 Organizational Leadership (3)
- BMGT 484 Organizational Collaboration (3)
- IFSM 300 Information Systems in Organizations (3)

Total credits for certificate in Project Management: 18
Public Safety Executive Leadership

Develop the executive leadership skills needed to succeed in the public safety professional environment. There is currently a high demand for leadership education for public safety officials at the federal, state, and local government levels, as well as throughout the private sector. This certificate should be of professional benefit to both current and future public safety officials employed in public safety planning, public safety legal issues, public policy, public safety research and technology, and public safety leadership.

Overall certificate requirements are listed on p. 55.

SIX REQUIRED COURSES (18):

- PSAD 304 Contemporary Public Safety Practices (3)
- PSAD 306 Public Safety Planning (3)
- PSAD 408 Public Safety Legal Issues and Public Policy (3)
- PSAD 410 Public Safety Research and Technology (3)
- PSAD 414 Public Safety Leadership (3)
- PSAD 416 Public Safety Administration Ethics (3)

Total credits for certificate in Public Safety Executive Leadership: 18

Spanish for Business and the Professions

Through the certificate program in Spanish for business and the professions at UMG, you’ll benefit from a combination of language and professional study that will build a foundation to enhance your résumé and prepare you to work and communicate in a variety of Spanish-speaking environments.

This program is ideal for those who are in a professional or social setting where Spanish is often spoken.

In your online Spanish classes, you’ll not only learn the language but also explore contexts and practices specific to the Spanish-speaking world. You’ll use your knowledge of diverse business cultures to communicate and interact effectively in a business environment.

Note: This certificate is not intended for students who already have native or near-native ability in Spanish. If you have prior experience in the Spanish language, you should contact the department at languages@umg.edu about a placement test.

Overall certificate requirements are listed on p. 55

FOUR COURSES CHOSEN FROM THE FOLLOWING (12):

- SPAN 211 Intermediate Spanish I (3)
- SPAN 212 Intermediate Spanish II (3)
- Any 300- or 400-level SPAN course taught in Spanish

ONE OF THE FOLLOWING COURSES (4):

- SPAN 418 Business Spanish I (4)
- SPAN 419 Business Spanish II (4)

Total credits for certificate in Spanish for Business and the Professions: 16
Urban Watershed Management

Watershed management is critical to a healthy, sustainable ecosystem. The certificate program in urban watershed management addresses basic watershed processes, foundational ecosystems concepts, and the tools and knowledge needed to manage urban watersheds effectively. In this program, you’ll gain the knowledge and skills needed for monitoring water quality and identifying and controlling sources of water pollution. You’ll learn the physical, chemical, and biological impacts of human activity on the urban watershed and technology-based assessment methods (such as GIS). You’ll also gain insights into approaches to protect and restore healthy functions of watersheds. This program covers laws, regulations, and policies that promote the health and quality of streams and ways to ensure compliance with water quality standards and criteria. Activities emphasize how to effectively manage urban watersheds to reduce the impact of land development, industrial processes, and everyday human activities.

Overall certificate requirements are listed on p. 55.

SIX REQUIRED COURSES (18):

- ENMT 301  Environment and Ecosystems Principles (3)
- ENMT 303  Environmental Regulations and Policy (3)
- ENMT 307  Introduction to Geographic Information Systems (3)
- ENMT 340  Environmental Technology (3)
- ENMT 360  Introduction to Urban Watersheds (3)
- ENMT 405  Pollution Prevention Strategies (3)

Total credits for certificate in Urban Watershed Management: 18

Vulnerability Assessment

The vulnerability assessment certificate program is designed to provide you with the knowledge and skills to examine software for embedded vulnerabilities—whether they are accidental or malicious—that create weaknesses that may be exploited by hackers. In this program, you’ll learn techniques to identify such flaws in software.

Overall certificate requirements are listed on p. 55.

REQUIRED COURSES:

- CMIS 102  Introduction to Problem Solving and Algorithm Design (3) or prior programming experience
- CMIS 141  Introductory Programming (3)
- CMIS 242  Intermediate Programming (3)
- CMIS 320  Relational Database Concepts and Applications (3)
- SDEV 300  Building Secure Python Applications (3)
- SDEV 325  Detecting Software Vulnerabilities (3)
- SDEV 360  Secure Software Engineering (3)

For more information about documenting your prior programming experience, contact your advisor or success coach.

Total credits for certificate in Vulnerability Assessment: 18–21
Web Design
The web design certificate program provides you with entry-level skills for a career in web design. This project-centric program exposes you to responsive web design, industry best practices, cascading style sheets (CSS), HTML5 coding, extensible markup language (XML), and JavaScript technologies, as well as ethical and legal considerations. Career paths are also explored.

Overall certificate requirements are listed on p. 55.

**SIX REQUIRED COURSES (18):**
- CMST 290 Introduction to Interactive Design (3)
- CMST 295 Fundamentals of Digital Design (3)
- CMST 385 Principles of Web Design and Technology I (3)
- CMST 386 Principles of Web Design and Technology II (3)
- CMST 388 Fundamentals of JavaScript (3)
- CMST 450 Web Development Using XML (3)

**Total credits for certificate in Web Design:** 18

Women, Gender, and Sexuality Studies
The certificate program in women, gender, and sexuality studies provides an interdisciplinary study of gender and sexuality. You’ll examine how these concepts differ across cultures and through time, with an eye toward understanding the diversity of expressions of gender and sexuality in contemporary society and applying that understanding to your personal, professional, and educational contexts.

Overall certificate requirements are listed on p. 55.

**ONE REQUIRED COURSE (3):**
- WMST 200 Introduction to Women’s Studies: Women and Society (3)

**FIVE COURSES CHOSEN FROM THE FOLLOWING (15):**
- BEHS 220 Diversity Awareness (3)
- BEHS 350 Social Justice Movements (3)
- BEHS 343 Parenting Today (3)
- BEHS 453 Domestic Violence (3)
- ENGL 250 Introduction to Women’s Literature (3)
- GERO 311 Gender and Aging (3)
- HIST 377 U.S. Women’s History: 1870 to 2000 (3)
- PSYC 338 Psychology of Gender (3)
- SOCY 325 The Sociology of Gender (3)
- SOCY 443 Sociology of the Family (3)
- SOCY 462 Women in the Military (3)
- SPCH 324 Communication and Gender (3)

**Total credits for certificate in Women, Gender, and Sexuality Studies:** 18
Expectations

Within the associate degree, a UMGC degree incorporates core competencies that build toward and support both the associate and bachelor’s degrees. The following essential core competencies are emphasized across all programs:

- Effective writing and oral communication
- The use of information technology
- Information literacy
- Mathematical and quantitative reasoning
- Critical analysis, critical reasoning, and problem solving
- Understanding of key concepts and principles of the natural, social, and behavioral sciences

UMGC conducts learning outcomes assessments to measure and improve your learning in these general education areas.

Requirements

Continuous Enrollment

In general, the UMGC degree requirements that apply to you are those that were in effect when you completed the first credit-bearing course in a given program at UMGC. If you cease to be continuously enrolled, the program requirements that apply to you are those in effect at UMGC when you return to UMGC and enroll in a credit-bearing course for the program you wish to pursue at that time.

To be considered continuously enrolled, you must have had no more than two sequential years of nonenrollment. After two years of nonenrollment, you must apply for admission to resume enrollment.

If you change your degree program while continuously enrolled, then the program requirements that apply to you are those in effect at the time you enroll in the first required course for that program. Previously completed coursework may not apply to the new requirements.

Information about the catalog year that applies to you is provided in the MyUMGC student portal.

The following requirements for the Associate of Arts (AA) are applicable to students who begin continuous enrollment on or after August 1, 2022.

Overall Requirements

The Associate of Arts degree requires the completion of a minimum of 60 credits, at least 15 of which (normally the final 15) must be taken through UMGC. Of these 60 credits, 35 credits must be earned in courses that fulfill the general education requirements listed on the following page. The remaining 25 credits must satisfy the requirements of the curriculum you select.

In addition to the general education requirements and elective requirements, the overall requirements listed below pertain to all associate degrees.

1. You must be admitted as an undergraduate UMGC student.
2. You must complete a minimum of 60 credits.
3. You must complete all general education requirements listed on the following page, including PACE 111 Professional and Career Exploration as your first course at UMGC. If you have 45 or more credits, you may be eligible to take PACE 100 Professional and Career Exploration for Transfer Students, which provides a condensed orientation to UMGC.
4. You must maintain a minimum grade point average of 2.0 (C) overall in all courses taken through UMGC. See page p. 35 for information on maintaining satisfactory academic standing.
General Education Requirements (35 credits)

Specific recommendations for fulfilling the general education requirements in each category are provided in the degree plan for the general curriculum and each specialization.

Note: Any course that may be applied toward a general education requirement is considered a general education elective. Credit applied to general education requirements may not be applied toward major, minor, or elective requirements. Courses applied to general education requirements may not be taken pass/fail.

Curriculum Requirements (25 credits)

In addition to the general education requirements, you must take 25 credits of coursework related to your educational goals. You may choose a general curriculum (described on the next page) or a specialized curriculum with its own particular requirements (detailed on the following pages). You must earn a grade of C or higher in all core or core-related curriculum courses. For the specialized curricula, at least 9 credits of coursework taken through UMGC must be earned in core or core-related courses for the chosen curriculum. If you anticipate seeking a bachelor’s degree, you should select courses that will advance that goal.

Second Associate Degree

If you have already received an associate degree from an approved institution other than UMGC, you can broaden your education by earning a second associate degree. The following conditions apply:

• You must have received the first associate degree to be eligible to begin the second.
• For a second associate degree, you must complete at least 15 credits of new coursework with UMGC. The combined credit must add up to at least 75 credits.
• The 15 new credits must be uniquely applicable to the second AA curriculum.
• Before beginning work toward a second associate degree, you must request an academic advisement report (discussed on p. 27).
• You must complete all requirements for the curriculum. All course prerequisites apply.
• As with other degrees, continuous enrollment at UMGC is required.
• A minimum grade point average of 2.0 in all courses taken through UMGC is required for graduation.
• Consult an academic advisor for more information on earning a second associate degree.

Before beginning work or considering nontraditional options toward a second degree, consult an academic advisor. Advisors or success coaches will be glad to explain the requirements for a second associate degree and clarify its limitations.

Curricula

What You’ll Learn

Through your coursework, you will learn how to
• Communicate orally and in writing in a clear, well-organized manner
• Conduct academic research
• Think critically

The Associate of Arts General Curriculum

The Associate of Arts general curriculum is for adult students who wish to pursue their own educational goals.

In the general curriculum, you may choose related courses from several disciplines, explore several interests at once, or choose a variety of courses from UMGC’s offerings. The responsibility for developing a curriculum that meets your intended learning outcomes is yours. You are encouraged to seek assistance from academic advisors in arranging your curriculum as appropriate to your personal interests and future educational plans. If you are interested in pursuing a general studies major, you should strive to include 6 credits of coursework in one discipline area (e.g., HRMN) and 6 credits from a second discipline area (e.g., PSYC) in your plan.

COURSES IN THE GENERAL CURRICULUM (25 CREDITS)

A course in communication, writing, or speech (3 credits) ENGL 102; ENGL 281; JOUR 201; and all 3-credit COMM, SPCH, and WRTG courses (except those numbered 486A and 486B) apply.

CAPL 198A, CAPL 198B, CAPL 198C, BMGT 121A, BMGT 121B, or any 1-credit course (1 credit)

Courses from any discipline for which prerequisites have been met (21 credits)

Associates of Arts Specialized Curricula Areas

The Associate of Arts specialized curricula are for adult students who wish to pursue a specific career or educational goal, often as a basis for further study toward the bachelor’s degree. The Associate of Arts specialized curricula are for students who wish to pursue a specific career or educational goal, often as a basis for further study toward the bachelor’s degree. Within the overall outcomes of the AA in General Studies, the specialized curriculum areas help you demonstrate competencies in fundamental skills and practices to transition toward a bachelor’s degree in a related field.

Specialized curriculum areas are recommended but optional within the AA in General Studies. You should take careful note of course prerequisites and recommended course sequences. Curriculum areas may be available only in limited geographic areas.

A course in communication, writing, or speech (3 credits)—ENGL 102; ENGL 281; JOUR 201; and all 3-credit COMM, SPCH, and WRTG courses (except those numbered 486A and 486B) apply.

CAPL 198A, CAPL 198B, CAPL 198C, BMGT 121A, BMGT 121B, or any 1-credit course (1 credit)

Computer studies–related courses (21 credits)—Chosen from any CMIS, CMIT, CMSC, CMST, DATA, IFSM, or SDEV courses for which you have met prerequisites

Technology Requirements

Courses in the computer studies curriculum area may have requirements beyond the minimum technology requirements found on p. 23. Review the appropriate course description sections to determine the technology requirements for the classes in which you are enrolling.

Course Sequencing

Visit umgc.edu/aa for an optimal order for taking both required and recommended general education, curriculum, and elective courses for this program. Your plan will be unique to you, based on your previous education and credit earned. See pp. 71–72 for information on general education and overall requirements for completing an associate degree.

Contact an advisor or a success coach for alternative course recommendations and answers to questions about your official plan.

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>60</strong></td>
</tr>
</tbody>
</table>

Within the overall outcomes of the AA degree in General Studies (listed on p. 73), the specialized curriculum in foreign language area studies will help you develop intermediate foreign language skills and related cultural knowledge in a variety of personal and professional settings.

If you have previous experience in the foreign language you wish to study, contact the department at languages@umgc.edu about a placement test.

#### COURSES IN THE FOREIGN LANGUAGE AREA STUDIES CURRICULUM AREA (25 CREDITS)

A course in communication, writing, or speech (3 credits) ENGL 102; ENGL 281; JOUR 201; and all 3-credit COMM, SPCH, and WRTG courses (except those numbered 486A and 486B) apply.

CAPL 198A, CAPL 198B, CAPL 198C, BMGT 121A, BMGT 121B, or any 1-credit course (1 credit)

Language core courses (12 credits)—Sequential courses in a single language, usually numbered 111–112 and 114–115 (or 211–212)

Related foreign language area studies courses (9 credits)—Any courses in the culture, history, language, literature, or government and politics of the area (see specific courses for each language area)

#### Course Sequencing

Visit umgc.edu/aa for an optimal order for taking both required and recommended general education, curriculum, and elective
courses for this program. Your plan will be unique to you, based on your previous education and credit earned. See pp. 71–72 for information on general education and overall requirements for completing an associate degree. Contact an advisor or a success coach for alternative course recommendations and answers to questions about your official plan.

Within the overall outcomes of the AA degree in General Studies (listed on p. 73), the specialized curriculum in mathematics will help you employ appropriate mathematical methods and technologies to accomplish quantitative tasks in your professional and educational contexts.

COURSES IN THE MATHEMATICS CURRICULUM AREA (25 CREDITS)

A course in communication, writing, or speech (3 credits)—ENGL 102; ENGL 281; JOUR 201; and all 3-credit COMM, SPCH, and WRTG courses (except those numbered 486A and 486B) apply.

CAPL 198A, CAPL 198B, CAPL 198C, BMGT 121A, BMGT 121B, or any 1-credit course (1 credit)

Mathematics-related courses (18–19 credits), including the following:

MATH 140  Calculus I (4)
MATH 141  Calculus II (4)

MATH 241  Calculus III (4)
MATH 340  Linear Algebra (4)
STAT 200  Introduction to Statistics (3)
Mathematics-related course (3)—Chosen from the following:
Any ACCT or FINC course
CHEM 103  General Chemistry I
CHEM 113  General Chemistry II
CMIS 102  Introduction to Problem Solving and Algorithm Design
CMSC 150  Introduction to Discrete Structures
CMIS 242  Intermediate Programming
ECON 201  Principles of Macroeconomics
ECON 203  Principles of Microeconomics
ECON 430  Money and Banking
ECON 440  International Economics
Any MATH course numbered 108 or higher
Any math-based physics course

</table>

Within the overall outcomes of the AA in General Studies (listed on p. 30), the specialized curriculum area in women, gender, and sexuality studies provides an interdisciplinary study of gender and sexuality. You’ll examine how these concepts differ across cultures and through time, with an eye toward understanding the diversity of expressions of gender and sexuality in contemporary society and applying that understanding to your personal, professional, and educational contexts.

COURSES IN THE WOMEN, GENDER, AND SEXUALITY STUDIES CURRICULUM AREA (25 CREDITS)

A course in communication, writing, or speech (3 credits)—ENGL 102; ENGL 281; JOUR 201; and all 3-credit COMM, SPCH, and WRTG courses (except those numbered 486A and 486B)—apply.
### CAPL 198A, CAPL 198B, CAPL 198C, BMGT 121A, BMGT 121B, or any 1-credit course (1 credit)

**WMST 200**  Introduction to Women’s Studies: Women and Society (3 credits)

Women, gender, and sexuality studies–related courses (15 credits)—Chosen from the following:

- **BEHS 220**  Diversity Awareness
- **BEHS 250**  Social Justice Movements
- **BEHS 343**  Parenting Today
- **BEHS 453**  Domestic Violence
- **ENGL 250**  Introduction to Women’s Literature
- **GERO 311**  Gender and Aging
- **PSYC 332**  Psychology of Human Sexuality
- **PSYC 338**  Psychology of Gender
- **SOCI 325**  The Sociology of Gender
- **SOCI 443**  Sociology of the Family
- **SOCI 462**  Women in the Military
- **SPCH 324**  Communication and Gender

Elective course (3 credits)

---

At the undergraduate level, UMGC offers the Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Science in Nursing (BSN), and Bachelor of Technical and Professional Studies (BTPS) degrees. The BSN program is available only to students who have an associate degree in nursing or a diploma from a registered nursing education program that is recognized by the appropriate state board of nursing and who reside in and have an active, unencumbered nursing license in an approved state.* The BTPS degree is available only to students who have earned the Associate of Applied Science (AAS) degree from a community college with which UMGC has an appropriate articulation agreement. The BSN and BTPS degrees are restricted programs and are not available at UMGC Asia locations.

Except for those restricted programs, current UMGC degree programs are open to you from virtually anywhere in the world. However, offerings sufficient to complete every program may not be available at every location or in every format. You should consult your advisor, current schedules, and site-specific materials to determine which programs you may normally expect to complete from your geographic location.

Requirements for degrees vary according to the major and minor. The requirements you must meet to complete your bachelor’s degree, regardless of your academic major, are summarized in the following sections.

Requirements

Continuous Enrollment
In general, the UMGC degree requirements that apply to you are those that were in effect when you completed the first credit-bearing course in a given program at UMGC. If you cease to be continuously enrolled, the program requirements that apply to you are those in effect at UMGC when you return to UMGC and enroll in a credit-bearing course for the program you wish to pursue at that time.

To be considered continuously enrolled, you must have had no more than two sequential years of nonenrollment. After two years of non-enrollment, you must apply for admission to resume enrollment.

If you change your degree program while continuously enrolled, then the program requirements that apply to you are those in effect at the time you enroll in the first required course for that program. Previously completed coursework may not apply to the new requirements.

Information about the catalog year that applies to you is provided in the MyUMGC student portal.

The following requirements for the BA, BS, BSN, and BTPS are applicable to students who begin continuous enrollment on or after August 1, 2022.

Overall Bachelor’s Degree Requirements
In addition to the general education requirements and the major, minor, and elective requirements, the overall requirements listed below pertain to all bachelor’s degrees.

1. You must be admitted as an undergraduate UMGC student.
2. You must complete a minimum of 120 credits.
3. You must maintain a minimum grade point average of 2.0 (C) overall and a minimum grade of C (2.0) for any course applied to the academic major or minor. See p. 35 for information on maintaining satisfactory academic standing.
4. You must complete all general education requirements listed on the following page, including PACE 111 Professional and Career Exploration as your first course or within your first 6 credits at UMGC Asia. If you have 45 or more credits, you may be eligible to take PACE 100 Professional and Career Exploration for Transfer Students, which provides a condensed orientation to UMGC.
5. You must complete all coursework required for an academic major, which typically requires from 30 to 39 credits.

6. At least 36 credits must be upper level (i.e., earned in courses numbered 300 to 499) and include at least one-half of the credits required for the major. The remaining upper-level credits may be earned in any part of the curriculum.

7. At least half the required number of credits for any academic major or minor must be earned through graded coursework. Credits earned by examination, portfolio assessment, and non-collegiate training do not count as graded coursework.

8. Within the 120 credits required, the following coursework must be taken through UMGC:
   - 30 credits (normally the final 30)
   - Half of the required number of credits within both the major (if you are not majoring in general studies, described on p. 114) and the minor (if you choose a minor)
   - 15 credits at the upper level (i.e., earned in courses numbered 300 to 499), preferably within the major or minor (if you choose a minor)

**General Education Requirements**

Recommendations for fulfilling general education requirements are provided for each major in the recommended sequence.

**Mathematics**

<table>
<thead>
<tr>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>3</strong></td>
</tr>
</tbody>
</table>

MATH 105, MATH 107, MATH 115, MATH 140, STAT 200, or a mathematics course approved by the department.

Must be completed within the first 24 credits. Prerequisites must be fulfilled before taking MATH 108, MATH 140, or any higher-numbered MATH or STAT courses.

**Note:** Check individual majors for recommended math courses and related requirements.

**Arts and Humanities**

<table>

<td><strong>6</strong></td>
</tr>
</tbody>
</table>

Two 3-credit courses chosen from the following disciplines: AASP (AASP 201 only), ANTH, ASTD (depending on course content), BEHS, CCJS (CCJS 100, CCJS 105, CCJS 350, CCJS 360, and CCJS 461 only), ECON, GEOG, GERO (except GERO 342 and GERO 351), GVPT, PSYC, SOCY, or WMST (WMST 200 only).

**Biological and Physical Sciences**

<table>
<thead>
<tr>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>7</strong></td>
</tr>
</tbody>
</table>

A science lecture course (3 credits) with related laboratory course (1 credit) or a science course combining lecture and laboratory (4 credits).

Any other science course (3 credits).

Courses from the following disciplines apply: ASTR, BIOL, CHEM, GEOG, NSCI, NUTR, or PHYS. Science courses in other disciplines may also apply.

**Research and Computing Literacy**

<table>
<thead>
<tr>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>7</strong></td>
</tr>
</tbody>
</table>

Professional exploration course (3 credits)

Should preferably be taken within the first 6 credits. PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, and PACE 111T apply.

**LIBS 150, CAPL 398A, or a general education course (1 credit)**

One 3-credit course or three 1-credit courses in computing or information technology (3 credits)

Unless otherwise specified, upper- or lower-level courses designated CMIS, CMIT, CMSC, CMST, CSIA, IFSM, and SDEV, ACCT 326, and DATA 200 apply. Refer to your specific major for requirements or recommendations.

**Total General Education Requirements**

</tbody>
</table>

WRTG 111 or another writing course (3 credits)

All 3-credit WRTG courses (except WRTG 288, WRTG 388, WRTG 486A, or WRTG 486B), COMM 390, COMM 492, ENGL 102, and JOUR 201 apply.

WRTG 112 (3 credits)

Must be completed with a grade of C- or better within the first 24 credits. May not be earned through Prior Learning (Portfolio Assessment or Course Challenge) assessment.

A course in communication, writing, or speech (3 credits)

ENGL 102, ENGL 281, JOUR 201, and all 3-credit COMM, SPCH, and WRTG courses (except those numbered 486A and 486B) apply.

An upper-level advanced writing course (3 credits)

WRTG 391, WRTG 393, and WRTG 394 apply.

No more than 3 credits in writing may be earned by examination.

Double Major

You can earn a double major upon completion of all requirements for both majors, including the required minimum number of credits for each major and all related requirements for both majors. The same course cannot be used to fulfill requirements for more than one major. Certain restrictions (including use of credit and acceptable combinations of majors) apply for double majors. You cannot major in two programs with excessive overlap of required coursework. Contact an academic advisor before selecting a double major.

Second Bachelor’s Degree

If you have already received a bachelor’s degree from UMGC or from another approved institution, you can broaden your education by earning a second bachelor’s degree with a different major.

- You must have received the first bachelor’s degree to be eligible to begin a second.
- For a second bachelor’s degree, you need to complete at least 30 new credits through UMGC after completing the first degree. The combined credit in both degrees must add up to at least 150 credits.
- You may not earn a second bachelor’s degree with a double major. You may not earn a second degree in general studies and may not obtain a second associate degree within the second bachelor’s degree.
- To qualify for academic honors in a second bachelor’s degree, you must complete at least 30 new credits through UMGC with the requisite grade point average.
- You must complete all requirements for the major. All course prerequisites apply.
- If any major requirements were satisfied in the previous degree, the remainder necessary to complete the minimum 30 credits of new coursework should be satisfied with courses related to the major. For purposes of determining what major requirements apply, the applicable date is the date you started coursework at UMGC after being admitted into the second undergraduate degree program.
- As with other degrees, continuous enrollment at UMGC is required.
- A minimum grade point average of 2.0 in all courses taken through UMGC is required for graduation.

Before beginning work or considering nontraditional options toward a second degree, consult an academic advisor. Advisors will be glad to explain the requirements for a second bachelor’s degree and clarify its limitations.
Accounting

You may seek either an academic major or minor in accounting.

Major in Accounting

The major in accounting combines theory and practice to help prepare you to analyze and report on the economic activities of organizations. You’ll develop skills in managerial accounting, budgeting, accounting systems, internal controls, financial analysis, financial reporting, internal and external auditing, taxation, and international accounting.

What You’ll Learn

Through your coursework, you will learn how to

• Communicate appropriate financial decisions with financial and nonfinancial audiences in a clear and concise manner
• Research, prepare, analyze, and review financial and business data by applying accounting and business management principles to produce financial and business reports
• Use current technology and analytical tools to work collaboratively and facilitate decision making
• Employ analysis, critical thinking, and problem solving to identify, test, and validate processes, systems, and financial data
• Develop ethical decision-making models for business practices by addressing current and emerging issues
• Conduct fraud detection and deterrence planning, analysis, and communication
• Perform a range of functions, including auditing and financial reporting, to manage finances for federal agencies
• Analyze business intelligence, data management, and analytics for an organization to improve results

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

• Certified Fraud Examiner (CFE)
• Certified Government Auditing Professional (CGAP)
• Certified Government Financial Manager (CGFM)
• Certified Information Systems Auditor (CISA)
• Certified Internal Auditor (CIA)
• Certified Management Accountant/Certified Financial Manager (CMA/CFM)
• Certified Public Accountant (CPA)*

Vertical Pathway

If you complete your undergraduate degree at UMGC with a major in accounting, a vertical pathway between UMGC undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Accounting and Financial Management, CyberAccounting, or Management with a specialization in accounting at UMGC by 6 credits (two courses). Details are on p. 20.

</table>
Minor in Accounting
The accounting minor complements the skills you gain in your major discipline by providing a study of how the accounting environment measures and communicates the economic activities of organizations to enable stakeholders to make informed decisions regarding the allocation of limited resources.

Courses in the Minor (15 Credits)
A minor in accounting requires the completion of 15 credits of coursework in accounting. Any ACCT courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

African American Studies
You may seek an academic minor in African American studies.

Minor in African American Studies
The African American studies minor complements the skills you gain in your major discipline by offering an interdisciplinary approach to the study of the contemporary life, history, and culture of African Americans.

Courses in the Minor (15 Credits)
A minor in African American studies requires the completion of 15 credits of coursework focusing on African American issues, chosen from the following:

AASP 201 Introduction to African American Studies
ENGL 363 African American Authors from the Colonial Era to 1900
ENGL 364 African American Authors from 1900 to the Present
HIST 461 African American History: 1865 to the Present
SOCY 423 Race and Ethnicity: A Global Perspective
Any African American studies course

It is recommended that you take AASP 201 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Art
You may seek an academic minor in art.

Minor in Art
The art minor complements the skills you gain in your major discipline by offering an aesthetic and personal exploration of imagery, media, and composition through a balance of art theory and practice.

Courses in the Minor (15 Credits)
A minor in art requires the completion of the following courses:

ARTT 110 Introduction to Drawing (3)
ARTT 152 Basics of Photography (3)
ARTT 210 Intermediate Drawing (3)
ARTT 320 Painting I (3)
ARTT 428 Advanced Painting (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 6 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Art History
You may seek an academic minor in art history.

Minor in Art History
The art history minor complements the skills you gain in your major discipline by helping to develop skills in historical and cultural interpretation and critical analysis of works of architecture, sculpture, painting, and the applied arts.

Courses in the Minor (15 Credits)
A minor in art history requires the completion of the following courses:

ARTH 204 Film and American Culture Studies (3)
ARTH 334 Understanding Movies (3)
ARTH 372 History of Western Art I (3)
ARTH 373 History of Western Art II (3)
ARTH 375 History of Graphic Art (3)
Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Biology

You may seek an academic minor in biology.

Minor in Biology

The biology minor complements the skills you gain in your major discipline by helping to provide an underlying scientific base on which to build a career in the life sciences, allied health fields, bioinformatics, environmental management, science journalism, or science education.

Courses in the Minor (15 Credits)

A minor in biology requires the completion of 15 credits of coursework in biology. All BIOL courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Business Administration

You may seek either an academic major or minor in business administration.

Major in Business Administration

In the business administration major, you’ll gain a well-rounded education that provides foundational, workplace-relevant management skills, organizational theory, and operational knowledge.

UMGC’s career-focused bachelor’s degree program in business administration is designed to help you compete for the jobs of today and tomorrow by building a comprehensive base of knowledge. This major will help you prepare for a variety of positions in for-profit, nonprofit, and public-sector organizations.

What You’ll Learn

Through your coursework, you will learn how to

• Plan and communicate a shared vision for the organization that will drive strategy, assist with decision making, and position the organization competitively
• Design and create management and leadership plans
• Evaluate qualitative and quantitative data
• Communicate effectively across all levels of an organization
• Develop, communicate, and implement policies and procedures to reduce cost and organizational risk and promote ethical practices
• Manage people, time, and resources by using effective employment practices, encouraging team building, and mentoring junior members of the staff
• Design and execute personal and employee development systems to enhance job performance and leadership skills

Minor in Business Administration
The business administration minor complements the skills you gain in your major discipline by providing a study of principles and techniques used in organizing, planning, managing, and leading within various organizations.

Courses in the Minor (15 Credits)
A minor in business administration requires the completion of 15 credits of coursework in business administration. Any ACCT, BMGT, FINC, HMGT, HRMN, and MRKT courses apply. It is recommended that you take BMGT 364 as the first course in the minor (if you have not already applied the course to other requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.
Communication Studies

You may seek either an academic major or minor in communication studies.

Major in Communication Studies

Whether you’re interested in journalism, public relations, business, or digital communications, you can build a firm base of knowledge while you earn a bachelor’s degree in communication studies at UMGC. In this major, you’ll learn about and apply communication theories and best practices to communicate about events and ideas to various populations. In addition, you’ll learn to work with individuals and groups professionally and manage communications within ethical, legal, and financial parameters.

What You’ll Learn

Through your coursework, you will learn how to

• Apply analytical skills in interpreting, using, and delivering information, particularly through mass media
• Create professional and appropriate written, oral, and visual communications for specific purposes and diverse audiences
• Design, create, and select multimedia components and integrate them into print, broadcast, and online formats
• Work with individuals and groups in ways that reflect an understanding of both communication theory and professional expectations
• Understand diverse and intercultural perspectives as they affect communication
• Design and employ specific research methods and tools to gather information

Required Major Courses (33 Credits)

- SPCH 100  Foundations of Oral Communication (3) or any SPCH course
- COMM 207  Understanding Visual Communication (3) or any COMM course
- JOUR 201  Introduction to News Writing (3)
- COMM 300  Communication Theory (3)
- COMM 302  Mass Communication and Media Studies (3)
- SPCH 324  Communication and Gender (3)
- JOUR 330  Public Relations Theory (3) or any upper-level JOUR course
- COMM 400  Mass Media Law (3) or any upper-level COMM course
- SPCH 470  Effective Listening (3) or any upper-level SPCH course
- COMM 390  Writing for Managers (3) or any upper-level COMM course
- COMM 495  Senior Seminar in Communication Studies (3)

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. See pp. 84–86 for information on general education and overall requirements for completing a bachelor’s degree. Contact an advisor or a success coach if you have any questions about your academic advisement report.

### Major in Communication Studies

The communication studies minor complements the skills you gain in your major discipline by helping you develop specialized skills in workplace communication, including written and oral communication skills and a greater understanding of human interaction.

#### Courses in the Minor (15 Credits)

A minor in communication studies requires the completion of 15 credits of coursework in communication studies. All COMM, JOUR, SPCH, and WRTG courses apply. It is recommended that you take COMM 300 early in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

### Computer Science

You may seek either an academic major or minor in computer science.

### Major in Computer Science

With a bachelor’s degree in computer science, you’ll be able to plan, design, and optimize computer software and hardware systems for commercial and government environments. This versatile major provides you with a foundation in programming...
languages, software development, complex algorithms, and graphics and visualization.

What You’ll Learn
Through your coursework, you will learn how to
• Identify and respond to emerging technology, models, methodologies, systems, and trends in human/computer interaction, including social networking, gaming, modeling, and simulation
• Apply logic and mathematical principles to the design, development, and verification of secure, high-performance, and reliable computing systems
• Analyze, design, develop, and document secure technical solutions for computing systems and databases
• Plan, design, and optimize computing architecture, software applications, data, and systems
• Adhere to local, national, and international technical standards, ethics, and intellectual property regulations when developing computer applications and systems
• Analyze, compare, and contrast algorithms, programming languages, compilers, and operating systems to select or develop solutions to problems

Vertical Pathway
If you complete your undergraduate degree at UMGC with a major in computer science, a vertical pathway between UMGC’s undergraduate and graduate programs allows you to reduce your total coursework for the Master of Arts in Teaching by 12 credits (three courses), including the noncredit introductory course UCSP 615. Details are on p. 21.

Minor in Computer Science

The computer science minor complements the skills you gain in your major discipline by providing the foundations for designing and programming computer applications in support of many occupations and developing a process for solving challenging computer problems.

Courses in the Minor (15 Credits)

A minor in computer science requires the completion of 15 credits in computer science coursework, including the following two-course sequence in programming:

CMIS 141 Introductory Programming (3)

CMSC 242 Intermediate Programming (3)

The remaining 9 credits may be chosen from any upper-level (i.e., numbered 300 or above) CMSC courses.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the national academic honor society for the computing and information disciplines, is available on p. 38.
Technology Requirements
Courses in the computer science program may have computing needs beyond the minimum technology requirements found on p. 23. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

Criminal Justice
You may seek either an academic major or minor in criminal justice.

Major in Criminal Justice
The criminal justice curriculum at UMGC is uniquely designed to provide you with an understanding of crime and criminal behavior, the roles of practitioners within the criminal justice system, and the critical thinking and ethical decision-making strategies necessary to meet the professional demands of the field of criminal justice.

What You’ll Learn
Through your coursework, you will learn how to
- Evaluate the roles and responsibilities of police, courts, and corrections within the American criminal justice system
- Utilize ethical reasoning, analytical skills, and professional knowledge to investigate the implications of criminal justice policies or procedures on diverse social groups
- Articulate the importance of research in the social sciences
- Evaluate criminal justice public policies using analytical competencies
- Apply the principles of the various criminal bodies of law (i.e., substantive, procedural, and evidentiary) that currently regulate the American criminal justice system

Vertical Pathway
If you complete your undergraduate degree at UMGC with a major in criminal justice, a vertical pathway between UMGC’s undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Management with a specialization in criminal justice management at UMGC by 6 credits (two courses). Details are on p. 20.

**Minor in Criminal Justice**

The criminal justice minor complements the skills you gain in your major discipline by providing a study of crime, law enforcement, courts, corrections, security, and investigative forensics.

**Courses in the Minor (15 Credits)**

A minor in criminal justice requires the completion of 15 credits of coursework in criminal justice. Any CCJS courses apply. It is recommended that you take CCJS 100 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.
Cybersecurity

Minor in Cybersecurity

The cybersecurity minor complements the skills you gain in your major discipline by providing a study of the principles, issues, and technologies pertinent to the cybersecurity field.

Courses in the Minor (15 Credits)

A minor in cybersecurity requires the completion of 15 credits of coursework in cybersecurity. All CSIA and CMIT courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 84–86.

Technology Requirements

Courses in the cybersecurity program may have computing needs beyond the minimum technology requirements found on p. 23. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

Cybersecurity Management and Policy

You may seek an academic major in cybersecurity management and policy.

Major in Cybersecurity Management and Policy

In UMGC's bachelor's degree program in cybersecurity management and policy, you can prepare to become a leader in the protection of data. This innovative, world-class program uses a multidisciplinary approach—drawing from fields such as management, law, science, business, technology, and psychology—to provide you with the most current knowledge and skills for protecting critical cyber infrastructure and assets.

UMGC was named a National Center of Academic Excellence in Cyber Defense Education (CAE-CDE) by the National Security Agency and the Department of Homeland Security.

What You’ll Learn

Through your coursework, you will learn how to

- Protect an organization's critical information and assets by ethically integrating cybersecurity best practices and risk management throughout an enterprise
- Integrate continuous monitoring and real-time security solutions with information collection, sharing, collaboration, and analysis capabilities to improve situational awareness and deployment of countermeasures in industry and government
- Evaluate and assess the use of technology to support cybersecurity goals and objectives
- Participate in the investigation of cyber incidents and assist in recovery of operations
- Formulate, update, and communicate short- and long-term organizational cybersecurity strategies and policies

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- CompTIA Network+
- CompTIA Security+
- EC-Council Certified Chief Information Security Officer (CCISO)
- EC-Council Certified Incident Handler (ECIH)
- EC-Council Certified Secure Computer User (CSCU)
- EC-Council Information Security Manager (EISM)
- IAPP Certified Information Privacy Professional/US (CIPP/US)
- (ISC)2 Certified Information Systems Security Professional (CISSP)

What You’ll Learn
Through your coursework, you will learn how to
• Design, implement, and administer local-area and wide-area networks to satisfy organizational goals
• Resolve IT system problems and meet the needs of end users by applying troubleshooting methodologies
• Apply relevant policies and procedures to effectively secure and monitor IT systems
• Communicate IT knowledge effectively using a wide range of presentation styles
• Meet organizational goals using effective workforce skills, best practices, and ethical principles

INDUSTRY CERTIFICATION
This program is designed to help prepare you for the following certification exams, listed in alphabetical order:
• AWS Certified Cloud Practitioner—Foundational
• AWS Certified Solutions Architect—Associate
• CERT Computer Security Incident Handler (CSIH)
• Cisco Certified Network Associate (CCNAv7)
• Cisco Certified Network Professional (CCNP-ENARSI)
• Cisco Certified Network Professional (CCNP-ENCOR)
• CompTIA A+
• CompTIA Cloud+
• CompTIA Cybersecurity Analyst (CySA+)
• CompTIA Linux+ and LPIC-1
• CompTIA Network+
• CompTIA PenTest+
• CompTIA Security+
• EC-Council Certified Ethical Hacker (CEH)
• (ISC)2 Certified Cloud Security Professional (CCSP)
• (ISC)2 Certified Information Systems Security Professional (CISSP)
• ISFCE Certified Computer Examiner (CCE)
• Microsoft 365 Certified: Enterprise Administrator Expert
• Microsoft 365 Certified: Modern Desktop Administrator Associate
• Microsoft Certified: Azure Fundamentals (AZ-900)

The cybersecurity technology curriculum is closely aligned to industry standards and certifications. Changes related to leading
industry certifications may lead to adjustments in course offerings. Visit the program web page for updates.

Vertical Pathway
If you complete your undergraduate degree at UMGC with a major in cybersecurity technology, a vertical pathway between the undergraduate and graduate programs in this field allows you to earn 6 credits toward the Master of Science in Cloud Computing Systems, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, or Digital Forensics and Cyber Investigation and/or a certificate in Cloud Computing and Networking, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, or Digital Forensics and Cyber Investigation. Details are on p. 20.

</table>
the technology requirements for the classes in which you are enrolling.

**Data Science**

You may seek either an academic major or minor in data science.

**Major in Data Science**

The major in data science is designed to meet the growing need for highly skilled professionals who can transform increasing amounts of data into actionable insights. The program provides hands-on experience with a number of the most frequently used analytical tools and methods, offering opportunities to manage and manipulate data; create data visualizations; build predictive models using different machine learning techniques; apply artificial intelligence (AI) and natural language processing techniques to gain insights from free text, images, and videos; and make strategic data-driven recommendations that directly impact business outcomes. You’ll acquire fundamental knowledge and skills in data science that will help you adapt to future changes in tools, technology, and the marketplace.

**What You’ll Learn**

Through your coursework, you will learn how to

- Communicate effectively orally and in writing, meeting expectations for content, purpose, organization, audience, and format
- Implement all stages of data science methodology, including data extraction, data cleaning, data load, and transformation
- Execute best practices, using diverse technologies, in data science, business intelligence, machine learning, and artificial intelligence
- Analyze social, global, and ethical issues and their implications as they relate to the use of existing and emerging data science, machine learning, and AI technologies
- Evaluate a business problem or opportunity to determine the extent data science can provide a viable solution, and translate the business problem into a viable project to meet organizational strategic and operational needs
- Incorporate data security, data privacy, and risk management best practices in the planning, development, and implementation of data science solutions
- Build and deploy the machine learning process throughout its life cycle in full compliance with best practices for tool evaluation, model selection, and model validation
- Leverage big data analytics and AI technology to create solutions for stream analytics, text processing, natural language understanding, AI, and cognitive applications

**Honor Society**

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the national academic honor society for the computing and information disciplines, is available on p. 38.

**Technology Requirements**

Courses in the cybersecurity technology program may have computing needs beyond the minimum technology requirements found on p. 23. Review the course descriptions to determine
INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- AWS Certified Machine Learning
- Microsoft Certified: Data Analyst Associate
- Tableau Desktop Certified Associate
- Tableau Desktop Specialist

Vertical Pathway

If you complete your undergraduate degree at UMGC with a major in data science, a vertical pathway between UMGC’s undergraduate and graduate programs allows you to reduce your total coursework for the Master of Science (MS) in Data Analytics by 6 credits, including the noncredit introductory course UCSP 615. Details are on p. 20.

- DATA 430 Foundations of Machine Learning (3)
- DATA 440 Advanced Machine Learning (3)
- DATA 445 Advanced Data Science (3)
- DATA 450 Data Ethics (3)
- DATA 460 Artificial Intelligence Solutions (3)
- DATA 495 Data Science Capstone (3)

RELATED REQUIRED COURSES

Note: The following required courses may be applied to general education or elective requirements.

DATA 200 Data Literacy Foundations
MATH 140 Calculus I

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. See pp. 84–86 for information on general education and overall requirements for completing a bachelor’s degree. Contact an advisor or a success coach if you have any questions about your academic advisement report.

Major and related requirements are listed in bold.
### Technology Requirements

Courses in the data science program may have computing needs beyond the minimum technology requirements found on p. 23. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

### Minor in Data Science

The data science minor complements the skills you gain in your major discipline by helping you develop specialized skills in data science, business intelligence, machine learning, and artificial intelligence.

#### Courses in the Minor (15 Credits)

The minor in data science requires the completion of 15 credits of coursework. STAT 200, IFSM 330, CSIA 300, and all DATA courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

Technology requirements are the same as for the major (see above). For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 84–86.

### Diversity Awareness

You may seek an academic minor in diversity awareness.

### Minor in Diversity Awareness

The diversity awareness minor complements the skills you gain in your major discipline by providing an interdisciplinary perspective on diversity in contemporary society, conceptually grounded in social science, to promote and cultivate the intercultural awareness and effective communication skills that are necessary in today's professional and social settings.

#### Courses in the Minor (15 Credits)

A minor in diversity awareness requires the completion of 15 credits of coursework, chosen from the following courses:

- ANTH 346 Anthropology of Language and Communication
- BEHS 220 Diversity Awareness
- BEHS 250 Social Justice Movements
- BEHS 320 Disability Studies
- BEHS 343 Parenting Today
- ENGL 459 Contemporary Global Literature
• Apply your knowledge of East Asian diversity, values, and expectations to perform in a culturally appropriate way in personal and professional settings

• Write and speak an East Asian language, integrating interpersonal skills and cultural knowledge

### Minor in East Asian Studies

The East Asian studies minor complements the skills you gain in your major discipline by providing an interdisciplinary study of the cultural, historical, political, and contemporary business realities of the Asian/Pacific world.
Courses in the Minor (15 Credits)
A minor in East Asian studies requires the completion of 15 credits of coursework in East Asian studies, which must include ASTD 284 and ASTD 285. Courses allowable for the major in East Asian studies apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Economics
You may seek an academic minor in economics.

Minor in Economics
The economics minor complements the skills you gain in your major discipline by providing a study of the forces that determine production and distribution, price levels, and income distribution, as well as other economic factors that influence the quality of life.

Courses in the Minor (15 Credits)
A minor in economics requires the completion of 15 credits of coursework in economics, chosen from the following courses:

- ECON 201 Principles of Macroeconomics
- ECON 203 Principles of Microeconomics
- ECON 305 Intermediate Macroeconomic Theory and Policy
- ECON 306 Intermediate Microeconomic Theory
- ECON 330 Business and Economics of Sustainability
- ECON 430 Money and Banking

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Emergency Management
You may seek an academic minor in emergency management.

Minor in Emergency Management
The emergency management minor complements the skills you gain in your major discipline by providing knowledge of emergency management, including disaster planning and operations and allocation of limited resources.

Vertical Pathway
If you complete your undergraduate degree at UMGC with a minor in emergency management, a vertical pathway between UMGC’s undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Management with a specialization in emergency management at UMGC by 6 credits (two courses). Details are on p. 20.

Courses in the Minor (15 Credits)
A minor in emergency management requires the completion of the following courses:

- EMGT 302 Concepts of Emergency Management (3)
- EMGT 304 Emergency Response Preparedness and Planning (3)
- EMGT 312 Social Dimensions of Disaster (3)
- EMGT 308 Exercise and Evaluation Programs (3)
- EMGT 314 Terrorism Issues in Emergency Management (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

English
You may seek either an academic major or minor in English.

Major in English
Like other liberal arts majors, a major in English at UMGC offers a solid base of critical thinking on which to build a career or further graduate study. In-demand skills in research and writing that have a wide application in the job market are also honed. If you are intrigued by literature, the English major may be right for you.

What You’ll Learn
Through your coursework, you will learn how to

- Demonstrate knowledge of a range of English-language literary texts, genres, and terms
- Analyze literary texts to explain stylistic, historical, sociocultural, and ethical significance
- Apply critical theory to literary texts to enhance interpretation and analysis
• Conduct effective research across a range of media
• Create writing that effectively argues, persuades, illuminates, and/or informs
• Create presentations in various media to demonstrate the results of academic inquiry

Vertical Pathway
If you complete your undergraduate degree at UMGC with a major in English, a vertical pathway between UMGC’s undergraduate and graduate programs allows you to reduce your total coursework for the Master of Arts in Teaching at UMGC by 12 credits (three courses), including the noncredit introductory course UCSP 615. Details are on p. 21.

Elective (3)  Elective

ENGL 459 Contemporary Global Literature (3)  Major

ENGL 495 Advanced Seminar in English Language, Literature, and Writing (3)  Major/capstone

CAPL 398A Career Planning Management (1)  Elective

Minor in English

The English minor complements the skills you gain in your major discipline by providing exposure to literary analysis, critical thinking and reading, and the study of the relationship of literature to contemporary intellectual issues.

Courses in the Minor (15 Credits)

A minor in English requires the completion of the following courses:

- ENGL 240 Introduction to Fiction, Poetry, and Drama (3)
- ENGL 250 Introduction to Women's Literature (3)
- ENGL 303 Critical Approaches to Literature (3)

Any upper-level ENGL courses (6)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Environmental Management

You may seek either an academic major or minor in environmental management.

Major in Environmental Management

Environmental issues like global warming, air quality, and water scarcity are central to the safety, health, and security of our nation and its citizens. In UMGC’s hands-on environmental management program, you’ll learn to plan, implement, and control all facets of environmental management, using professional models and techniques.
What You’ll Learn

Through your coursework, you will learn how to

• Use the risk assessment process (identify, analyze, eliminate, and control hazards and risk factors) to evaluate potential risks to human health, safety, and the environment in a variety of settings

• Develop environmental management plans that comply with safety, health, and environmental regulations and policies; incorporate scientific principles; and manage risk to human health and the environment

• Evaluate and use information and data obtained through field inspections, monitoring, and public and private data sources to assess risks to human health and the environment

• Apply scientific knowledge and principles, quantitative methods, and technology to think critically and solve complex environmental management problems

• Communicate orally and in writing on environmental issues, principles, and practices in a clear, well-organized manner that effectively informs or persuades interested parties

• Identify and evaluate current and future air, water, land, and energy resource needs to make recommendations for sustainable solutions and practices

**Minor in Environmental Management**

The environmental management minor complements the skills you gain in your major discipline by providing an interdisciplinary study of multimedia (air, water, land) environmental management and related issues on a fundamental practical and global level.

**Courses in the Minor (15 Credits)**

A minor in environmental management requires the completion of 15 credits of coursework in environmental management. All courses allowable for the major apply. It is recommended that you take ENMT 301 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

### Minor in Finance

The finance minor complements the skills you gain in your major discipline by providing a study of the institutions, theory, and practice associated with the allocation of financial resources within the private sector.

### Courses in the Minor (15 Credits)

A minor in finance requires the completion of 15 credits of coursework in finance. All FINC courses apply. It is recommended that you take FINC 330, FINC 335, and FINC 340 as the first courses in the minor (if you have not already applied the courses toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.
For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 84–86.

Fire Service Administration

You may seek an academic minor in fire service administration.

Minor in Fire Service Administration

The fire service administration minor complements the skills you gain in your major discipline by providing knowledge of disaster planning and the administration of fire-protection services, including organization, planning, operating procedures, management, and allocation of limited resources.

Courses in the Minor (15 Credits)

A minor in fire service administration requires the completion of the following courses:

- FSCN 302 Fire and Emergency Services Administration (3)
- FSCN 304 Personnel Management for Fire and Emergency Services (3)
- FSCN 305 Fire Prevention Organization and Management (3)
- FSCN 413 Community Risk Reduction for the Fire and Emergency Services (3)
- FSCN 416 Emergency Services Training and Education (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 84–86.

Forensics

You may seek an academic minor in forensics.

Minor in Forensics

The minor in forensics complements the skills you gain in your major discipline by providing interdisciplinary study in selected areas of criminal justice, natural science, social science, investigation and security, information and computer systems, psychology, and sociology. It combines laboratory and field skills in the collection and analysis of physical evidence with further study in the various subfields of forensics.

Courses in the Minor (15 Credits)

A minor in forensics requires the completion of 15 credits of coursework in forensics, chosen from the following:

- CCJS 101 Introduction to Investigative Forensics
- CCJS 234 Criminal Procedure and Evidence
- CCJS 301 Criminalistics I: The Comparative Disciplines
- CCJS 302 Criminalistics II: The Scientific Disciplines
- CCJS 342 Crime Scene Investigation
- CCJS 390 Cybercrime and Security
- CCJS 420 Medical and Legal Investigations of Death
- CCJS 421 Principles of Digital Analysis
- CCJS 440 Fingerprint Analysis
- CCJS 441 Firearms and Toolmarks Analysis

It is recommended that you take CCJS 101 and CCJS 234 as the first courses for the minor (if you have not already applied the courses toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 84–86.

General Studies

You may seek an academic major in general studies.

Major in General Studies

The bachelor's degree program in general studies allows you to take an active role in designing your educational experience through a flexible curriculum while maximizing your ability to transfer previously earned credit. This personalized learning path, coupled with a focus on your specific interests and areas of study, provides a solid, well-rounded foundation in preparation for a variety of careers.

What You'll Learn

Through your coursework, you will learn how to

- Improve oral and written communication skills
- Apply critical thinking and problem-solving skills
- Analyze insights about personal and professional goals
- Apply skills and knowledge from different academic disciplines
- Synthesize concepts and theories in core content courses and focus areas

</tbody>
</table>

**REQUIREMENTS FOR THE MAJOR (30 CREDITS)**

- 6 credits of coursework in one discipline area (e.g., HRMN)
- 6 credits from a second discipline area (e.g., PSYC)
- 15 credits from any discipline area(s)
- CAPL 495 General Studies Capstone (3)

**Note:** No more than 21 credits of coursework in a single discipline area may be applied to the major.

**OVERALL REQUIREMENTS FOR THE DEGREE**

Overall requirements for a bachelor’s degree in general studies differ slightly from those listed on pp. 84–86. You must meet the 30-credit requirement for coursework taken at UMGC, but those credits may be earned in any combination across major, general education, and elective courses.

**Graphic Communication**

You may seek an academic major in graphic communication.

**Major in Graphic Communication**

UMGC’s graphic communication major is a portfolio-intensive program that can help you master the skills and technology needed to compete in today’s rapidly changing visual arts and communication environment. With a graphic design degree, along with an updated portfolio aimed toward your ideal clients, you can apply your creative streak toward a career in business, government, or industry as a graphic designer, manager, or communications specialist.

**What You’ll Learn**

Through your coursework, you will learn how to

- Produce effective visual communications by applying principles of composition, layout, color theory, and context
- Plan, design, and create interactive solutions, such as user interfaces, motion graphics, mobile applications, and web designs
- Use professional, analytical, collaborative, and technical design skills to support team goals, roles, and responsibilities
- Define and direct creative strategy in a business environment by combining scope, messaging, and evaluation of success in an overarching design campaign

**Course Sequencing**

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. See pp. 84–86 for information on general education and overall requirements for completing a bachelor’s degree. Contact an advisor or a success
coach if you have any questions about your academic advisement report.

Health Services Management

You may seek either an academic major or minor in health services management.

Major in Health Services Management

A major in health services management can provide you with grounding in the core knowledge and competencies for effective management in the dynamic healthcare environment, teaching you to think comprehensively and strategically about healthcare trends so you can lead innovation. It is ideal for entry-level and midcareer professionals.

What You’ll Learn

Through your coursework, you will learn how to

• Exercise sound business and financial management principles in healthcare settings through process mapping and strategic planning
• Apply technological advances and emerging trends in the U.S. healthcare system to achieve organizational goals and practices
• Identify, analyze, and evaluate quantitative and qualitative healthcare data and information for effective decision making in various healthcare settings
• Evaluate legal and ethical issues associated with the planning and delivery of healthcare services
• Analyze policies related to healthcare management

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the Certified Health Data Analyst (CHDA) exam.

Minor in Health Services Management

The minor in health services management complements the skills you gain in your major discipline by enhancing the knowledge, skills, and competencies required by the changing health services environment. The minor covers a wide range of topics designed to help you deal with the challenges of management and leadership in this dynamic field.

Courses in the Minor (15 Credits)

A minor in health services management requires the completion of 15 credits of coursework in health services management, chosen from any HMGT courses and GERO 342. It is recommended that you take HMGT 300 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 84–86.

History

You may seek either an academic major or minor in history.

Major in History

Like other liberal arts majors, a major in history offers a solid base of critical thinking on which to build a career or further graduate study.

One of the very first schools to offer a degree program in history online, UMGC brings you nearly two decades of experience in teaching history in an online environment. Plus, if you're based in the Washington, D.C., area, you'll have myriad opportunities to find internships and part-time and full-time jobs in the field via public institutions and federal positions. Our alumni have gone on to work at such agencies as the National Archives and the National Park Service.

What You’ll Learn

Through your coursework, you will learn how to

- Research, interpret, and present historical knowledge
- Write and speak clearly and appropriately about historical information for diverse audiences
- Engage in history as a moral and ethical practice, recognizing a wide range of backgrounds and perspectives
- Apply historical precedents to contemporary life and develop self-reflection
- Achieve a deep understanding of the different peoples, events, and cultures that have shaped human civilization

Vertical Pathway

If you complete your undergraduate degree at UMGC with a major in history, a vertical pathway between UMGC’s undergraduate and graduate programs allows you to reduce your total coursework for the Master of Arts in Teaching at UMGC by 12 credits (three courses), including the noncredit introductory course UCSP 615. Details are on p. 21.

Minor in History
The history minor complements the skills you gain in your major discipline by offering a historical perspective and by helping you develop critical-thinking skills and an appreciation of the major contributions of various events and individuals to human civilization.

Courses in the Minor (15 Credits)
A minor in history requires the completion of 15 credits of coursework in history, as follows:

A 100-level HIST course (3)
Any upper-level HIST courses (9)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Homeland Security
You may seek either an academic major or minor in homeland security.

Major in Homeland Security
The UMGC homeland security program is uniquely designed to provide you with an understanding of the homeland security sector. The curriculum covers international and domestic terrorism, emerging technologies, cyber threats, infrastructure protection, emergency preparedness and response, private-sector partnerships, global pandemics, natural disasters, strategic planning, policies, intelligence operations, and international engagement. In this program, you’ll develop the necessary critical-thinking, ethical decision-making, risk analysis, and communication skills to meet the professional demands of leadership and management in the homeland security profession.

What You’ll Learn
Through your coursework, you will learn how to

• Distinguish policies and procedures in the homeland security sector that demonstrate leadership and management

• Apply professional and ethical decision-making skills to increase knowledge of strategic and operational homeland security goals and interface with internal and external stakeholders

• Assess the critical technologies essential for the protection and recovery of critical infrastructure and for ensuring the nation’s cybersecurity against all hostile threats

• Assess terrorist threats, cyber and insider threats, critical infrastructure vulnerabilities, and emerging asymmetric threats to U.S. national security

• Evaluate the roles and relationships of homeland security partners and stakeholders supporting homeland security operations

Vertical Pathway
If you complete your undergraduate degree at UMGC with a major in homeland security, a vertical pathway between UMGC’s undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Management or in Information Technology with a specialization in homeland security at UMGC by 6 credits (two courses). Details are on p. 21.

**What You’ll Learn**

Through your coursework, you will learn how to

- Integrate theories, methods, and concepts from multiple humanities disciplines, such as philosophy, history, art, literature, music, and religious studies
- Evaluate the adequacy and justifiability of propositions, theories, assumptions, and arguments
- Communicate the results of critical reflection into personal positions on social, cultural, and ethical issues
- Apply sound ethical reasoning in contemporary contexts
- Develop cultural understanding by exploring the cultural heritage of sites, events, people, and communities

---

**Minor in Homeland Security**

The homeland security minor complements the skills you gain in your major discipline by providing knowledge of the concepts of domestic and international security.

**Courses in the Minor (15 Credits)**

A minor in homeland security requires the completion of the following courses:

- HMLS 302  Introduction to Homeland Security (3)
- HMLS 406  Legal and Political Issues of Homeland Security (3)
- HMLS 408  Infrastructure in Homeland Security (3)
- HMLS 414  Homeland Security and Intelligence (3)
- HMLS 416  Homeland Security and International Relations (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

---

**Humanities**

You may seek an academic major in humanities.

**Major in Humanities**

Like other liberal arts majors, a major in humanities offers a solid base of critical thinking on which to build a career or further study. This major will broaden your understanding of yourself and your interaction with the world and provide a perspective on cultural and intellectual heritage while offering tools to use that knowledge in the real world.

You’ll explore how individuals and groups understand their existence, their place within their cultures, and their responsibility to others and the physical world.
Course Sequencing
The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. See pp. 84–86 for information on general education and overall requirements for completing a bachelor’s degree. Contact an advisor or a success coach if you have any questions about your academic advisement report.

Human Resource Management

You may seek either an academic major or minor in human resource management.

Major in Human Resource Management

With a degree in human resource management from UMGC, you’ll find employment opportunities in nearly every industry. Our bachelor’s degree program is ideal for those who have some experience in HR, as well as those who want to transition into the HR profession.

You’ll gain a comprehensive understanding of human resource functions—such as resource planning; recruitment, selection, placement, and orientation of employees; training and career development; labor relations; performance appraisal and rewards programs; and development of personnel policies and procedures—in private- and public-sector settings. Additionally, you’ll explore the ways that human behavior, laws, labor relations, and diversity issues can intersect and affect a company’s culture and ultimately its progress.

What You’ll Learn

Through your coursework, you will learn how to

• Apply business knowledge, best practices, and ethical leadership skills to make effective business decisions
• Apply knowledge of human behavior, labor relations, and current laws and regulations to evaluate whether a working environment is safe, fair, and compliant with regulations
• Develop a plan to create and implement a total rewards program that aligns employee and organizational goals and objectives
• Create, implement, and assess training, development, and rewards programs that foster employee and organizational learning and development
• Recognize the diversity of cultures and worldviews that inform human behavior and respond constructively to differences in workplaces, communities, and organizations
• Use technology to research, collect, analyze, and interpret data and effectively communicate information in a professional manner
• Evaluate current issues in talent acquisition, selection, strategic planning, and performance-appraisal systems

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

• Global Professional in Human Resources (GPHR)
• Professional in Human Resources (PHR)
• SHRM-Certified Professional (SHRM-CP)

Vertical Pathway

If you complete your undergraduate degree at UMGC with a major in human resource management, a vertical pathway between UMGC undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Management with a specialization in human resource management at UMGC by 6 credits (two courses). Details are on p. 21.

</tr>
</tbody>
</table>

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Legal Studies

You may seek an academic major in legal studies.

Major in Legal Studies

The legal studies curriculum at UMGC is designed to provide you with a background in contemporary American civil and criminal law, legal systems and institutions, and legal theory and practice. In this major, you’ll be able to develop the knowledge and skills necessary in the legal workplace, including fact identification and analysis, legal research and writing, and field-related digital competence.

What You’ll Learn

Through your coursework, you will learn how to

- Distinguish the major components of the American civil and criminal legal systems and recognize the impact of each on American society and on major domestic social movements
- Research appropriate standard and internet-based legal resources to identify relevant, current, and presiding legal authority
- Develop legal documents that incorporate critical thinking and legal reasoning to inform, evaluate, and advocate with respect to specific legal issues
• Analyze the relevant legal concepts, authorities, regulations, and ethical codes required to support the resolution of legal disputes

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. See pp. 40–42 for information on general education and overall requirements for completing a bachelor’s degree. Contact an advisor or a success coach if you have any questions about your academic advisement report.

Major and related requirements are listed in bold.
Management Information Systems

You may seek either an academic major or minor in management information systems.

Major in Management Information Systems

Management information systems are a critical part of the strategic decision-making process in virtually all of today’s public and private organizations. Managers who can lead the teams that integrate information systems with general business processes are in high demand.

Developed by chief information officers and other high-level IT professionals, the bachelor’s degree program in management information systems at UMGC is well suited for those looking to move into a management position in information systems and bridge the gap between an organization’s functional users and technical developers.

What You’ll Learn

Through your coursework, you will learn how to

- Communicate effectively, orally and in writing, meeting expectations for content, purpose, organization, audience, and format
- Utilize diverse technologies to achieve project-level or organizational information systems objectives, within diverse areas, including cybersecurity, project management, software development, data analytics, and business process analysis
- Apply appropriate management, analysis, and measurement methods and tools for information systems and technology to meet organizational strategic and operational needs
- Utilize business intelligence and data analytics tools and techniques to generate actionable insights that support achievement of strategic or operational objectives
- Analyze recent and projected developments, implications, and applications of existing and emerging technologies, taking into account ethical issues and global and multinational corporate perspectives
- Incorporate cybersecurity and risk management best practices in the planning, development, and use of information systems
- Develop clear and concise technical and functional requirements, including the use of data and process models, for information systems development and implementation
- Create information technology strategic and implementation plans that support organizational strategies and activities and improve processes and outcomes
- Develop organizational policies, standards, and communications to inform end users about relevant IT operations issues, including ethical issues and accountabilities
- Collaborate with team members to plan, evaluate, and document technology solutions

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- Agile Certified Practitioner (PMI-ACP)®*
- Certified Associate in Project Management (CAPM)®*
- Project Management Professional (PMP)®*

Honor Society
Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the national academic honor society for the computing and information disciplines, is available on p. 38.

Minor in Management Information Systems
The management information systems minor complements the skills you gain in your major discipline by helping you develop your abilities to conceptualize and manage the design and implementation of high-quality information systems.

Courses in the Minor (15 Credits)
A minor in management information systems requires the completion of 15 credits of coursework in information systems management. All IFSM courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Management Studies
You may seek an academic major in management studies.

Major in Management Studies
Today, many business, government, public service, and technical environments require knowledge of management principles from multiple disciplines. UMGC’s program in management studies can help you gain that expertise through a course of study focused on decision making, problem solving, and leadership.

What You’ll Learn
Through your coursework, you will learn how to

- Apply leadership skills to promote communication, ethical behavior, and quality performance
- Implement employment practices, encourage team building, and mentor staff members
- Communicate effectively with culturally diverse audiences using a variety of formats and technologies
- Assess and develop performance measures, feedback, and coaching that facilitate employee development
- Employ self-reflection and mindfulness of individual and cultural differences when interacting with others
- Research, plan, and develop processes and procedures that ensure organizational performance

Marketing
You may seek either an academic major or minor in marketing.

Major in Marketing
The major in marketing offers an introduction to the fundamental concepts and strategies that constitute successful marketing management. It is designed to provide a thorough understanding of how to identify, retain, and grow profitable customer segments; create effective promotional programs; and develop integrated marketing communication tools, both in domestic and global markets. The program incorporates digital marketing strategies to meet the requirements of the modern marketplace.

What You’ll Learn
Through your coursework, you will learn how to

- Apply strategic marketing skills, such as scenario planning, market intelligence, customer profiles, and digital planning, to successfully market products or services
- Develop marketing insights with data derived from internal and external sources
- Design effective integrated marketing communication plans using traditional, digital, and social media channels
- Develop multichannel campaigns for nonprofit organizations through fundraising, recruiting volunteers, and promoting alliances using traditional and digital marketing channels
- Create consumer-driven marketing strategies for a consistent consumer experience across multiple marketing channels
- Develop successful customer relationships and enhance customer loyalty using appropriate marketing technologies
- Create marketing strategies to meet the challenges of a competitive global market

Minor in Marketing

The marketing minor complements the skills you gain in your major discipline by enhancing the knowledge and skills related to marketing situations and processes and the emerging global marketplace.

Courses in the Minor (15 Credits)

A minor in marketing requires the completion of 15 credits of coursework in marketing. All MRKT courses apply. It is recommended that you take MRKT 310 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Mathematical Sciences

You may seek an academic minor in mathematical sciences.

Minor in Mathematical Sciences

The mathematical sciences minor complements the skills you gain in your major discipline by helping you develop skills in solving mathematical problems and addressing complex and technical materials and by providing a mathematical background to support study in other areas, such as business and management, computer and information technology, and the biological and social sciences.

Courses in the Minor (18 Credits)

A minor in mathematical sciences requires the completion of 18 credits of coursework, including 15 credits in MATH courses numbered 140 or higher and at least 3 credits in MATH or STAT courses at the 300 or 400 level.

No more than two courses may satisfy requirements for both the academic major and the minor. Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Natural Science

You may seek an academic minor in natural science.

Minor in Natural Science

The natural science minor complements the skills you gain in your major by providing an underlying scientific basis on which to build a career in natural science, life science, physical science, and the allied health fields, as well as bioinformatics, environmental management, science journalism, and science education.

Courses in the Minor (17 Credits)

A minor in natural science requires the completion of 17 credits of coursework in natural science, chosen from any courses in astronomy, biology, chemistry, geology, natural science, and physics.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Personal Financial Planning

You may seek an academic minor in personal financial planning.

Minor in Personal Financial Planning

The personal financial planning minor complements the skills you gain in your major discipline by providing a study of financial management and planning designed to prepare you for the Certified Financial Planner (CFP) exam.*

This minor is designed primarily for students majoring in finance. If you are majoring in another field, you may need to take several courses to fulfill prerequisites. Consult an advisor or a success coach for more information.

Courses in the Minor (15 Credits)

A minor in personal financial planning requires the completion of the following courses:

<table>

ACCT 323 Federal Income Tax I (3)
FINC 355 Retirement and Estate Planning (3)
FINC 490 Financial Plan Development (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Philosophy

You may seek an academic minor in philosophy.

Minor in Philosophy

The philosophy minor complements the skills you gain in your major discipline by providing a study of the relationships between personal opinions and real-world issues faced by members of a pluralistic, open society.

Courses in the Minor (15 Credits)

A minor in philosophy requires the completion of the following courses:

- PHIL 100 Introduction to Philosophy (3)
- PHIL 110 Practical Reasoning (3)
- PHIL 304 Contemporary Social Justice Issues (3)
- PHIL 336 Ideas Shaping the 21st Century (3)
- PHIL 348 Religions of the East (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Political Science

You may seek either an academic major or minor in political science.

Major in Political Science

With a major in political science, you’ll develop a comprehensive understanding of U.S. government and global politics. By analyzing political structures, theory, and problems, you’ll learn to interpret complex political problems in both the public and private sectors and propose potential solutions. You’ll also have an opportunity to enhance your professionalism and fine-tune your communication and organizational skills.

What You’ll Learn

Through your coursework, you will learn how to

- Identify the characteristics of political science and its subfields
- Distinguish between major concepts, theories, and research methods of political science
- Explain key domestic and international systems, institutions, and organizations, including their purposes, functions, and impacts on domestic and global politics and policies
- Describe ethical issues in political science that inform a commitment to integrity in personal, professional, and political practice
- Explain the importance of diversity, equity, and identity within sociopolitical, economic, and cultural contexts, both domestically and internationally
- Apply new information, terminology, and research in political science and other relevant fields
- Analyze qualitatively and quantitatively based reports and articles for validity, methodology, applicability, and conclusions
- Produce well-reasoned research within the major theoretical/conceptual frameworks of political science, using appropriate research skills, including statistical methods as needed
- Express oneself clearly, accurately, logically, cohesively, and critically, in the language of political science, about international and domestic political issues
- Demonstrate strong analytical writing skills

Minor in Political Science

The political science minor complements the skills you gain in your major discipline by providing a systematic study of politics and government. It exposes you to the basic concepts, theories, policies, and roles of government at local, state, and national levels in domestic and foreign settings.

Courses in the Minor (15 Credits)

A minor in political science requires the completion of 15 credits of coursework in government and politics. All GVPT courses apply. It is recommended that you take GVPT 100, GVPT 101, or GVPT 170 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 84–86.

Minor in Psychology

The psychology minor complements the skills you gain in your major discipline by investigating the nature of the mind and behavior, including the biological basis of behavior; perception, memory, and cognition; the influence of environmental and social forces on the individual, personality, and lifespan development and adjustment; research methods; and statistical analysis.

Courses in the Minor (15 Credits)

A minor in psychology requires the completion of 15 credits of coursework in psychology, as follows.

One of the following foundation courses (3):
- PSYC 100 Introduction to Psychology
- PSYC 300 Research Methods in Psychology
- STAT 200 Introduction to Statistics

One course from each of the following groupings:
- Biological (3): PSYC 301, PSYC 310, PSYC 341
- Social (3): PSYC 321, PSYC 351, PSYC 354
- Professional (3): PSYC 335, PSYC 353, PSYC 436

An additional PSYC course (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Public Safety Administration

You may seek either an academic major or minor in public safety administration.

Major in Public Safety Administration

The public safety administration curriculum at UMGC is designed to provide you with a foundation of knowledge and expand your understanding of the unique aspects of administration in the field of public safety. In this program, you’ll study public safety’s professional legal frameworks as well as administrators’ responsibilities related to risk management, mitigation, and liability. You’ll also examine ethical decision-making processes and distinguish the attributes of exceptional public safety leaders.

What You’ll Learn

Through your coursework, you will learn how to

- Analyze the unique aspects and best professional practices associated with the field of public safety administration within the United States
- Analyze the legal framework within the United States that outlines the obligations and limitations of public safety entities with respect to their employees, constituents, and the public at large
- Evaluate the challenges associated with the professional obligation to address concurrent public safety emergencies and the challenges associated with the development of effective corresponding mitigation plans
- Evaluate traditional ethical frameworks and contemporary ethical ideas to determine the applicability of those frameworks and ideas to the decision-making process required of public safety professionals
- Assess the leadership attributes most commonly associated with exceptional professionals within the field of public safety administration

**Minor in Public Safety Administration**

The public safety administration minor complements the skills you gain in your major discipline by providing a background in the field of public safety. The minor exposes you to the principles of strategic planning, risk management, public policy, and ethics as related to public safety administration.

**Courses in the Minor (15 Credits)**

A minor in public safety administration requires the completion of 15 credits of coursework in public safety administration. All PSAD courses apply. It is recommended that you take PSAD 302 as your first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

**Small Business Management and Entrepreneurship**

You may seek an academic minor in small business management and entrepreneurship.

**Minor in Small Business Management and Entrepreneurship**

The small business management and entrepreneurship minor complements the skills you gain in your major discipline by helping you develop your ability to start and operate a successful small business and look for opportunities to create patterns of innovation within your organization. If you are planning to start or manage a small business, such as a family-owned business, a franchise, a virtual business, or a home enterprise, you’ll find this minor helpful.

**Courses in the Minor (15 Credits)**

A minor in small business management and entrepreneurship requires the completion of the following courses:

- BMGT 304 Managing E-Commerce in Organizations (3)
- BMGT 330 Entrepreneurship and New Venture Planning (3)
- BMGT 335 Small Business Management (3)
- BMGT 364 Management and Organization Theory (3)
- FINC 328 Small Business Finance (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

**Social Science**

You may seek an academic major in social science.

**Major in Social Science**

In UMGC’s bachelor’s degree program in social science, you’ll gain a breadth of knowledge through interdisciplinary study that encompasses perspectives from the fields of anthropology, behavioral sciences, gerontology, psychology, and sociology. You’ll also have the opportunity to drill down and focus closely on one of these fields.

**What You’ll Learn**

Through your coursework, you will learn how to:

- Analyze how quantitative and qualitative methods are used in social science research
- Communicate social science concepts and research findings effectively to a variety of audiences
- Examine how micro- and macro-level factors are linked in the social lives of individuals, communities, and societies
- Analyze complex social issues using theoretical approaches, critical-thinking skills, information literacy, technology, or interdisciplinary perspectives
- Evaluate social science research using ethical principles and standards for professional conduct
• Apply concepts of diversity, social factors, and global multicultural perspectives to examine practical problems in the workplace and society

Vertical Pathway
If you complete your undergraduate degree at UMGC with a major in social science, a vertical pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Arts in Teaching by 12 credits (three courses), including the noncredit introductory course UCSP 615. Details are on p. 21.

**REQUIRED MAJOR COURSES (30 CREDITS)**

Two of the following introductory (100-level) social science courses (6):

- ANTH 102  Introduction to Cultural Anthropology
- GERO 100  Contemporary Issues in Aging
- PSYC 100  Introduction to Psychology
- SOCY 100  Introduction to Sociology

The following courses:

- BEHS 210  Introduction to Social Sciences (3)
- BEHS 300  Research Methods in Social Sciences (3)
- BEHS 495  Advanced Seminar in Social Sciences (3)

One of the following courses (3):

- BEHS 220  Diversity Awareness
- BEHS 250  Social Justice Movements

Four upper-level ANTH, BEHS, GERO, PSYC, and SOCY courses (12)—Focused study in anthropology, gerontology, psychology, or sociology recommended, as follows:

**Anthropology**

- ANTH 345  World Prehistory and Archaeology
- ANTH 346  Anthropology of Language and Communication
- ANTH 350  Health, Illness, and Healing
- ANTH 351  Anthropology in Forensic Investigations

**Gerontology**

- GERO 302  Health and Aging
- GERO 311  Gender and Aging
- GERO 427  Culture and Aging
- GERO 320  Psychosocial Aspects of Aging

**Psychology**

- PSYC 321  Social Psychology
- PSYC 338  Psychology of Gender
- PSYC 351  Lifespan Development
- PSYC 354  Cross-Cultural Psychology

**Sociology**

- SOCY 313  The Individual and Society
- SOCY 325  The Sociology of Gender
- SOCY 423  Race and Ethnicity: A Global Perspective
- SOCY 350  Contemporary Social Problems

**RELATED REQUIRED COURSE**

Note: The following required course may be applied to general education or elective requirements.

- STAT 200  Introduction to Statistics

**Course Sequencing**

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. See pp. 84–86 for information on general education and overall requirements for completing a bachelor's degree. Contact an advisor or a success coach if you have any questions about your academic advisement report.

**Notes:**
- Major courses are required courses.
- Elective courses can be chosen from any of the provided options.
- Related courses can be chosen from any of the provided options.
- Required courses must be completed with a minimum grade of C or better.
### Sociology

You may seek an academic minor in sociology.

#### Minor in Sociology

The sociology minor complements the skills you gain in your major discipline by providing a study of contemporary sociological theory and research and applying it to social issues, including globalization, social inequality, diversity, healthcare, education, family, work, and religion.

**Courses in the Minor (15 Credits)**

A minor in sociology requires the completion of 15 credits of coursework in sociology. All SOCY courses apply. It is recommended that you take SOCY 100 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

### Software Development and Security

You may seek an academic major in software development and security.

#### Major in Software Development and Security

The major in software development and security at UMGC is designed to teach you programming languages and best practices in software development that are in demand today in the workplace. Study also focuses on the critical element of software security, providing skills in how to find and address possible vulnerabilities.

UMGC was named a National Center of Academic Excellence in Cyber Defense Education (CAE-CDE) by the National Security Agency and the Department of Homeland Security.

#### What You’ll Learn

Through your coursework, you will learn how to

- Work individually or in a team to design, develop, implement, and test secure software using leading industry practices and standards to meet user requirements
- Plan, manage, document, and communicate all phases of a secure software development project as part of a software development team
- Use appropriate tools to assess and analyze existing applications for weaknesses and vulnerabilities and implement techniques for mitigating security threats and risks
- Identify and respond to threats and attacks to minimize risk and protect privacy

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the national academic honor society for the computing and information disciplines, is available on p. 38.

Technology Requirements

Courses in the software development and security program may have computing needs beyond the minimum technology requirements found on p. 23. Review the course descriptions to
Speech Communication

You may seek an academic minor in speech communication if you are not completing a major in communication studies.

Minor in Speech Communication

The minor in speech communication complements the skills you gain in your major discipline by helping you develop communication skills, particularly oral communication, as well as providing a greater understanding of human interaction in a variety of personal and professional contexts.

Courses in the Minor (15 Credits)

A minor in speech communication requires the completion of 15 credits of coursework in speech communication. All SPCH and COMM courses apply, but at least 9 credits must be earned in SPCH courses. It is recommended that you take COMM 300 and SPCH 100 as the first courses for the minor (if you have not already applied the courses toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Terrorism and Critical Infrastructure

You may seek an academic minor in terrorism and critical infrastructure.

Minor in Terrorism and Critical Infrastructure

The terrorism and critical infrastructure minor complements the knowledge and skills you develop in your major discipline by offering you an understanding of the principal components of protecting both public and private critical infrastructure from acts of terrorism.

Courses in the Minor (15 Credits)

A minor in terrorism and critical infrastructure requires the completion of 15 credits of coursework focusing on terrorism and critical infrastructure, chosen from the following courses:

- CCJS 341 Criminal Investigation
- CCJS 390 Cybercrime and Security
- GVPT 406 Global Terrorism
- GVPT 407 State Terrorism
- GVPT 408 Counterterrorism
- GVPT 409 Terrorism, Antiterrorism, and Homeland Security
- HIST 392 History of the Contemporary Middle East
- HMLS 302 Introduction to Homeland Security
- HMLS 406 Legal and Political Issues of Homeland Security
- HMLS 408 Infrastructure in Homeland Security

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.

Web and Digital Design

You may seek either an academic major or minor in web and digital design.

Major in Web and Digital Design

You can follow your interests and prepare for a career in digital design with UMGC’s bachelor’s degree program in web and digital design, which allows you to explore design using various digital media and web technologies. In this major, you’ll learn how to create digital works using industry-standard software and incorporating design theory and efficient workflows. Through your coursework, you can gain hands-on experience in web design, virtual reality, augmented reality, electronic publishing, motion graphics, multimedia, animation, and graphic design.

What You’ll Learn

Through your coursework, you will learn how to

- Create digital products, such as graphics, interactive digital media, and web applications, that utilize current or emerging technologies to meet customer requirements and usability standards
- Apply sound business principles and project management techniques to manage a digital media or web design project from conceptualization to deployment
• Utilize scripting and programming languages to develop interactive digital media or web applications that meet technical specifications and quality standards
• Assess the cultural, ethical, and legal implications of producing and distributing interactive digital media, products, or platforms
• Communicate clearly and effectively with diverse stakeholders about technology and digital media

REQUIRED MAJOR COURSES (30 CREDITS)

CMST 290 Introduction to Interactive Design (3)
CMST 295 Fundamentals of Design (3)
CMST 495 Current Trends and Projects in Web and Digital Design (3)

Any upper-level CMST courses (21)—Focused study in web design, digital design, or augmented/virtual reality recommended, as follows:

Web Design
CMST 385 Principles of Web Design and Technology I
CMST 386 Principles of Web Design and Technology II
CMST 325 Image Editing
CMST 320 Illustration Graphics
CMST 388 Fundamentals of JavaScript
CMST 450 Web Development Using XML
CMST 488 Advanced JavaScript

Digital Design
CMST 310 Fundamentals of Electronic Publishing
CMST 311 Advanced Electronic Publishing
CMST 325 Image Editing

CMST 320 Illustration Graphics
CMST 425 Advanced Image Editing
CMST 341 Principles of Multimedia I
CMST 351 Motion Graphics I

Augmented/Virtual Reality
CMST 308 User Experience and Interface Design
CMST 315 Game Design I
CMST 330 Virtual Reality Design I
CMST 331 Augmented Reality Design I

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. See pp. 84–86 for information on general education and overall requirements for completing a bachelor’s degree. Contact an advisor or a success coach if you have any questions about your academic advisement report.

Major and related requirements are listed in bold.

**Honor Society**

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the national academic honor society for the computing and information disciplines, is available on p. 38.

**Technology Requirements**

Courses in the web and digital design program may have computing needs beyond the minimum technology requirements found on p. 23. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

**Minor in Web and Digital Design**

The web and digital design minor complements the skills you gain in your major discipline by providing a study of the principles, best practices, and technologies that govern the design of digital media.

**Courses in the Minor (15 Credits)**

A minor in web and digital design requires the completion of 15 credits of coursework in computer studies. You must complete either CMST 290 or CMST 295. The remaining credits may be chosen from any CMST courses.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

Technology requirements are the same as for the major (see above). For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.
Women, Gender, and Sexuality Studies

You may seek an academic minor in women, gender, and sexuality studies.

Minor in Women, Gender, and Sexuality Studies

The women, gender, and sexuality studies minor complements the skills you gain in your major discipline by providing an interdisciplinary study of the history, status, and experiences of women.

Courses in the Minor (15 Credits)

A minor in women, gender, and sexuality studies requires the completion of 15 credits of coursework in women, gender, and sexuality studies, chosen from the following courses:

Any WMST courses
BEHS 220  Diversity Awareness
BEHS 250  Social Justice Movements
BEHS 343  Parenting Today
BEHS 453  Domestic Violence
ENGL 250  Introduction to Women’s Literature
GERO 311  Gender and Aging
HIST 377  U.S. Women’s History: 1870 to 2000
PSYC 332  Psychology of Human Sexuality
PSYC 338  Psychology of Gender
SOCY 325  The Sociology of Gender
SOCY 443  Sociology of the Family
SOCY 462  Women in the Military
SPCH 324  Communication and Gender

It is recommended that you take WMST 200 as the first course for the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor’s degree, refer to your major and pp. 84–86.
At the master’s degree level, UMGC Asia offers the Master of Business Administration (MBA) and Master of Science in Transformational Leadership (MSTL).

Expectations
Each UMGC master’s degree incorporates program-specific and core competencies. The following essential core competencies are emphasized across all programs:

- Effective writing and oral communication
- Teamwork/collaboration/leadership
- Quantitative reasoning
- Critical analysis, critical thinking, and problem solving

UMGC conducts learning outcomes assessments to measure and improve your learning in these areas as well as in specific disciplinary knowledge and skills.

Requirements

Continuous Enrollment
In general, the UMGC degree requirements that apply to you are those that were in effect when you completed the first credit-bearing course in a given program at UMGC. If you cease to be continuously enrolled, the program requirements that apply to you are those in effect at UMGC when you return to UMGC and enroll in a credit-bearing course for the program you wish to pursue at that time.

At present, to be considered continuously enrolled, you must have had no more than two sequential years of nonenrollment. After two years of nonenrollment, you must reapply for admission to resume enrollment. The existing rules and standards for continuous enrollment are subject to change.

If you change your degree program while continuously enrolled, then the program requirements that apply to you are those in effect at the time you enroll in the first required course for the new program. Previously completed coursework may not apply to the new requirements.

Information about the catalog year that applies to you is provided in the MyUMGC student portal.

The following requirements for the master's degree are applicable to students who begin continuous enrollment on or after August 1, 2022.

Overall Requirements
More is expected at the graduate level than what is normally required at the undergraduate level. In addition, you usually must complete special requirements at the end of your graduate program. UMGC’s master’s degree programs require you to complete an integrative end-of-program capstone course in which you must demonstrate mastery of content covered throughout the program.

All master's degrees require completion of at least 30 credits, with specific requirements listed on the following pages. Information on the requirements for maintaining good academic standing may be found on p. 36.

Initial Requirement
Most master's degrees require UCSP 615 Orientation to Graduate Studies at UMGC, which must be taken within the first 6 credits of study. For master's degrees that require foundation courses CBR 600, DCL 600M, DCL 600T, or PRO 600, the required foundation course must be taken first.

Time Limits
All requirements established for the completion of a master's degree listed in this publication must be fulfilled within five consecutive years. The time limit is calculated from the term in which you successfully complete the first credit course that applies to the program. It does not include the introductory courses CBR 600, DCL 600M, DCL 600T, and PRO 600 but does include courses transferred from other institutions and courses transferred from UMGC undergraduate programs as part of an accelerated pathway.

Second Master's Degree
If you have earned a master’s degree from UMGC and want to pursue an additional master’s degree at UMGC, you must complete at least 30 credits of new coursework to be eligible. No substitutions to the program are available. If the coursework required for one degree program significantly overlaps with coursework for another degree program, it may not be possible for you to earn both degrees. In such cases, you will need to choose an alternate program if you wish to complete another credential at UMGC.

Before beginning work toward or registering for a second master’s degree, consult an advisor or a success coach. Advisors or success coaches will be glad to explain the requirements and restrictions on combinations.
Business Administration

You may earn a Master of Business Administration.

Master of Business Administration

The MBA program can help you gain the skills and abilities desired by today’s employers and learn how to strategically manage an organization for growth and success. In this program, you can develop and advance your competencies in finance, marketing, human resources, strategy, and leadership. You’ll be able to apply your learning from multiple disciplines and specializations to real-life business problems.

What You’ll Learn

Through your coursework, you’ll learn how to

- Evaluate organizational leadership from an ethical and strategic standpoint
- Create an enterprise strategy by designing, analyzing, and evaluating a global (i.e., domestic and international) market strategy
- Identify key legal concepts in the business environment and apply them to enhance effective management decisions and organizational operations
- Propose an operation plan, systems, and processes to optimize an organization’s performance
- Devise a comprehensive strategy for managing human capital that will create or maintain strategic and competitive value for an organization
- Plan, evaluate, and manage the financial implications of an organization’s global operations
- Recommend an approach that leverages technology for the strategic advantage of an organization
- Develop a marketing strategy, including design, implementation, and evaluation, for an organization
- Create and manage innovative new enterprises and initiatives for an organization

Preparation Recommended for Success

RECOMMENDATIONS

If you need to improve your computing skills, you should take the noncredit course ASC 605. Taking ASC 601 is recommended to improve your ability to write at the graduate level, thus increasing your prospects for success in your master’s degree program.

PRO 600 Communicating, Problem Solving, and Leading in Professional Fields (6)

REQUIRED CORE COURSES

- MBA 610 Leading Organizations and People (6)
- MBA 620 Financial Decision Making (6)
- MBA 630 Leading in the Multicultural Global Environment (6)
- MBA 640 Innovation Through Marketing and Technology (6)
- MBA 670 Strategic Decision Making (6)

COURSE SEQUENCING

Courses must be taken in the order listed.

Criteria for Program Progression

You must complete each course with a grade of B or better to advance to the next course. The grade of C is not available for these courses. Your course syllabus will explain options for and consequences of requesting an Incomplete.

Program Accreditation

UMGC has received specialized accreditation for its Master of Business Administration program through the International Accreditation Council for Business Education (IACBE), located at 11374 Strang Line Road in Lenaxa, Kansas, USA. IACBE is a specialized accrediting agency recognized by the Council for Higher Education Accreditation.
Transformational Leadership

You may earn a Master of Science in Transformational Leadership.

Master of Science in Transformational Leadership

The Master of Science (MS) in Transformational Leadership program is designed for students with military experience who want to build on and maximize their leadership training and skills to transition to corporate, nonprofit, or government organizations. Each course offers you practical experience by using workplace scenarios to apply your strategic-thinking and decision-making skills in both group and individual activities with civilian organizations. You “learn by doing” and graduate better prepared for workplace opportunities. The program provides hands-on experience with transformational leadership strategies and techniques that will enable you to effect change at the individual, group, and organizational levels and prepare you for positions in civilian organizations. You’ll utilize theories and concepts in leadership in a civilian context, focusing on the dynamics of leadership and building skills in communication, strategic planning and management, team building, conflict resolution and mediation, fiscal and performance-based decision making, change management, project management, and organizational learning.

The Master of Science in Transformational Leadership has program-specific admission requirements (listed on p. 10) that you must meet before enrolling in any program courses.

What You’ll Learn

Through your coursework, you will learn how to

• Analyze your strengths and weaknesses as a leader and leverage them to accomplish strategic goals
• Manage civilian employees and help them perform at higher levels
• Analyze the performance of an organization through metrics and formulate strategies to improve that performance
• Manage change in the organization’s environment
• Collaborate with an organization to address an internal business challenge

Preparation Recommended for Success

EXPECTATIONS

You are expected to have leadership experience from serving as an officer (noncommissioned or commissioned) in the U.S. Armed Forces.

RECOMMENDATIONS

Taking ASC 601 is recommended to improve your ability to write at the graduate level, thus increasing your prospects for success in your master’s degree program.

REQUIRED FOUNDATION COURSE

DCL 600M Decision Thinking, Communicating, and Leading in Multidisciplinary Fields (6)

REQUIRED CORE COURSES

TLP 610 Repositioning Your Leadership Skills (6)
TLP 620 Leading in the Organization (6)
TLP 630 Leading with Strategy and Performance Measures (6)
TLP 640 Leading Through Change and Uncertainty (6)
TLP 670 Leadership Capstone (6)

COURSE SEQUENCING

Courses must be taken in the order listed.

Criteria for Program Progression

You must complete each course with a grade of B or better to advance to the next course. The grade of C is not available for these courses. Your course syllabus will explain options for and consequences of requesting an Incomplete.
Course Numbering System

The following entries describe courses offered through University of Maryland Global Campus. Requirements pertain only to degrees conferred at UMGC. To determine how these courses may transfer and be applied toward degrees offered by other institutions, you should consult those institutions. Transferability is determined by the receiving institution. In transferring to UMGC—particularly from a community college—you should be careful not to enroll in courses that duplicate your previous studies.

Courses are arranged alphabetically by academic discipline or subject. The number of credits is shown by an Arabic numeral in parentheses—e.g., (3)—after the title of the course.

Course numbers are designated as follows:

- **000–099** Noncredit and institutional credit courses (which do not count toward any degree or certificate)
- **100–199** Primarily freshman-level courses
- **200–299** Primarily sophomore-level courses
- **300–399** Upper-level, primarily junior-level courses
- **400–499** Upper-level, primarily senior-level courses
- **500–599** Senior-level courses acceptable for credit toward some graduate degrees
- **600–898** Graduate-level credit
- **899** Doctoral thesis credit

Unit of Credit

The unit of credit defines the amount of university-level credit to be awarded for course completion, transfer of coursework from another institution, or evaluation of college-level prior learning. One credit is awarded on the basis of one of the following, according to the Title 13B of the Code of Maryland Regulations of the Maryland Higher Education Commission:

- At least 15 hours (50 minutes each) of actual class meeting or the equivalent in guided learning activity (exclusive of registration, study days, and holidays)
- At least 30 hours (50 minutes each) of supervised laboratory or studio work (exclusive of registration, study days, and holidays)
- At least 45 hours (50 minutes each) of instructional situations, such as practica, internships, and cooperative education placements, when supervision is ensured and learning is documented
- Instruction delivered by electronic media based on the equivalent outcomes in student learning, including tele-lessons, classroom instruction, student consultation with instructors, and readings, when supervision is ensured and learning is documented
Prerequisites

Prerequisites, normally stated in terms of numbered courses, represent the level of knowledge you are expected to have before enrolling in a given course. You may be barred from enrolling in or may be removed from courses for which you do not have the necessary prerequisites. Courses listed as corequisite are required and should be taken at the same time as the course described. Taking courses listed as recommended is advisable but not absolutely required.

It is your responsibility to check the prerequisites listed in the course description and make certain that you are academically prepared to take a course. If you did not take the prerequisite course recently, you should consult an advisor or the academic department about whether you are sufficiently prepared to perform well in a given course. Faculty members are not expected to repeat material listed as being prerequisite.

For undergraduate courses, prerequisites may also be fulfilled by Prior Learning credit for the appropriate course, earned through course-challenge assessments or Portfolio Assessment (described on p. 18). Advisors can explain the procedures for seeking this credit. Some courses are not eligible for challenge examination or Portfolio Assessment, and you may not take course-challenge assessments or seek Portfolio Assessment credit for lower-level courses that are prerequisite to courses for which you have already received credit.

WRTG 112 Academic Writing II is prerequisite to any higher-level course in English, communication studies, and writing, as well as many other advanced courses. MATH 107 College Algebra is prerequisite to any higher-level course in mathematics. Many other prerequisites for advanced courses may be found in the course descriptions.

Placement tests are not required for introductory writing (English composition) or mathematics courses (e.g., MATH 105, MATH 107, MATH 115, or STAT 200), nor do these courses require completion of prerequisite coursework. If you have prior experience in a foreign language, you should take a placement test to assess appropriate level. For information on language placement tests, email the department at languages@umgc.edu.

(Formerly PSYC 435.)¹ Prerequisite: PSYC 100.² Recommended: PSYC 300. A study of major theories and perspectives on personality. The goal is to explain and evaluate major concepts in personality. Topics include trait, psychodynamic, behavioral, and humanistic theories. Methods of personality research and relevant findings are also introduced.³ Students may receive credit for only one of the following courses: PSYC 335 or PSYC 435.⁴

1. Explanatory information, if needed, may:
   - Explain course sequence, purpose, or audience.
   - Identify courses fulfilling general education requirements (listed on pp. 29 and 41).
   - Identify courses requiring a special fee, equipment, or materials.
   - Identify courses that lead to certification, badging, or other professional credential.

2. Prerequisites represent the level of knowledge a student should have acquired before enrolling in this course. A prerequisite is usually stated as a specific numbered course; sometimes the prerequisite calls for a specific course, number of credits, "or equivalent experience."

3. The course description describes the focus and learning objectives of the course.

4. Statements beginning "Students may receive credit for only one of the following courses" are designed to avoid course duplication and, therefore, loss of credit. The courses listed are courses that duplicate or significantly overlap content. If a course in the list is not described elsewhere in the catalog, that means that the course has changed designator or number over the years or that the course is not offered at all UMGC locations.
Index to Course Descriptions

The courses summarized on the following pages are listed alphabetically by discipline or subject, as follows.

You should check the course descriptions carefully to avoid duplicating previous coursework. UMGC will not award credit for courses that repeat material you have already been credited with learning.

Accounting

ACCT 220 Principles of Accounting I (3)
An introduction to the basic theory and techniques of contemporary financial accounting. The objective is to identify the fundamental principles of accounting, identify and analyze business transactions, prepare financial statements, and communicate this information to users with different needs. Topics include the accounting cycle, transactions, and the preparation of financial statements for single-owner business organizations that operate as service companies or merchandisers. Students may receive credit for only one of the following courses: ACCT 220 or BMGT 220.

ACCT 221 Principles of Accounting II (3)
Prerequisite: ACCT 220. Further study of contemporary accounting practices, with an emphasis on financial and managerial accounting. The goal is to identify and analyze business transactions, define the characteristics of business entities, identify the interdependence of financial statements, employ managerial accounting techniques, and communicate this information to users with different needs. Financial accounting topics include liabilities, equities, investments, and business entities. Managerial accounting topics include job order and process costing, cost-volume-profit analysis, and budgets. Students may receive credit for only one of the following courses: ACCT 221 or BMGT 221.

ACCT 301 Accounting for Nonaccounting Managers (3)
(May not be applied toward a major in accounting.) A survey of accounting principles relevant in making business decisions on the basis of financial information. The aim is to apply critical thinking skills and ethical principles to accounting issues. Topics include internal controls, financial reporting, analysis of financial statements, and elements of managerial accounting and budgeting. Students may receive credit for only one of the following courses: ACCT 301, MGMT 301, or MGST 301.

ACCT 310 Intermediate Accounting I (3)
(Students should be cautious about enrolling in ACCT 310 or ACCT 311. These are professional courses requiring intensive study and analysis and are not to be undertaken casually. Students who have not taken ACCT 221 within the last two years may have difficulty.) Prerequisite: ACCT 221. A comprehensive analysis of financial accounting topics related to preparing financial statements for external reporting. The objective is to identify and analyze complex business transactions and their impact on financial statements. Students may receive credit for only one of the following courses: ACCT 310 or BMGT 310.

ACCT 311 Intermediate Accounting II (3)
A continuation of ACCT 310. Students should be cautious about enrolling in ACCT 310 or ACCT 311. These are professional courses requiring intensive study and analysis and are not to be undertaken casually. Students who have not taken ACCT 310 within the last two years may have difficulty.) Prerequisite: ACCT 310. A comprehensive analysis of financial accounting topics, including preparation of financial statements and external reports. The aim is to identify and analyze complex business transactions and their impact on financial statements. Students may receive credit for only one of the following courses: ACCT 311 or BMGT 311.

ACCT 320 Fraud Detection and Deterrence (3)
Prerequisite: ACCT 220 or ACCT 301. A study of the principles behind and standards for examining, identifying, detecting, and deterring fraud. The objective is to differentiate types of fraud, assess organizational characteristics conducive to fraud, and develop a plan to detect and deter fraud. Topics include the fraud triangle, cash larceny, check tampering, skimming, register disbursement schemes, cash receipts schemes, billing schemes, payroll and expense reimbursement issues, asset misappropriations, corruption, accounting principles and fraud, fraudulent financial statements, whistleblowing, interviewing witnesses, and writing reports.

ACCT 321 Cost Accounting (3)
Prerequisite: ACCT 221. A study of basic cost accounting concepts. The goal is to apply basic cost accounting concepts, use technology to prepare financial deliverables, evaluate business and financial data, and communicate financial information. Topics include the evaluation of business and financial data to make profit-maximizing decisions, ethics, and corporate social responsibility. Discussion also covers the role of accountants in decision making; cost behavior; cost planning and control; and costing methods, such as standard costing, budgeting, and inventory valuation. Students may receive credit for only one of the following courses: ACCT 321 or BMGT 321.

ACCT 323 Federal Income Tax I (3)
Prerequisite: ACCT 220. Recommended: ACCT 310 and ACCT 311. A study of federal income tax for individuals and other entities. The objective is to identify the legislative process, conduct tax research, evaluate tax implications, and complete an individual tax return. Topics include the legislative process, tax policy, research, and the evaluation of transactions and decisions for planning and compliance. Emphasis is on ethics and professional responsibilities. Students may receive credit for only one of the following courses: ACCT 323 or BMGT 323.
ACCT 326 Accounting Information Systems (3)
Prerequisite: ACCT 221. An introduction to accounting information systems (AIS) concepts. The objective is to evaluate how AIS tools are used to record, process, and analyze financial data; determine how best to integrate AIS tools and processes in a given organization; review and recommend controls to secure AIS applications and processes; and evaluate how technology can be used in AIS applications. Topics include transactional processing concepts and core AIS transactional cycles; basic control frameworks used to secure AIS applications and processes; strategies for implementing or upgrading AIS applications; information technology and accounting standards; and e-commerce and e-business. Students may receive credit for only one of the following courses: ACCT 326, BMGT 320, or BMGT 326.

ACCT 350 Federal Financial Management (3)
Prerequisite: ACCT 220 or ACCT 301. Analysis and discussion of issues relating to federal financial management. The goal is to apply knowledge of the federal process to accounting practice, administer federal grants and contracts, and research federal laws and regulations. Topics include the CFO Act, the federal budget, federal contracts and grants, and federal financial and information systems. Discussion also covers detection and deterrence of fraud, waste, and abuse.

ACCT 410 Accounting for Government and Not-for-Profit Organizations (3)
Prerequisite: ACCT 310. An introduction to the theory and practice of accounting as applied to governmental entities and not-for-profit organizations. The objective is to evaluate transactions, prepare and analyze financial statements, write financial briefings, and apply accounting rules and procedures. Topics include the evaluation and preparation of reports required for governmental and not-for-profit entities. Students may receive credit for only one of the following courses: ACCT 410 or BMGT 410.

ACCT 411 Ethics and Professionalism in Accounting (3)
Prerequisite: ACCT 311. An examination of the importance of ethical behavior in organizations and for the accounting and auditing professions. The goal is to identify ethical dilemmas, research regulations, and apply problem-solving methodology to resolve unethical situations. Discussion covers the AICPA Code of Professional Conduct and the ethical codes and requirements of other standard-setting organizations. Corporate governance and legal and regulatory obligations are explored within an ethical framework. Issues related to accounting ethics and professionalism are examined and analyzed using philosophical models and ethical theories.

ACCT 417 Federal Income Tax II (3)
(Strongly recommended for students seeking careers as CPAs.) Prerequisites: ACCT 311 and ACCT 323. A continuing study of federal income taxation as applied to different business entities, including corporations, flow-through entities, estates, and trusts. The aim is to analyze tax planning and compliance issues, conduct tax research, analyze and define tax implications, and evaluate and communicate tax implications. Discussion covers tax research, planning, procedure, compliance, ethics, and professional responsibility. Topics also include the tax implications of financial and business decisions and transactions for various entities. Students may receive credit for only one of the following courses: ACCT 417 or BMGT 417.

ACCT 422 Auditing Theory and Practice (3)
Prerequisite: ACCT 311. Recommended: ACCT 326. A study of the auditing profession, audit process, and other assurance and nonassurance services related to the CPA profession. The objective is to design an audit plan, apply audit procedures, evaluate audit findings, and assess the impact of standards and emerging issues. Topics include generally accepted auditing standards, tests of controls and substantive tests, statistical sampling, report forms, and opinions. Various techniques are used to study auditing concepts and practices; these may include the use of problem sets, case studies, computer applications, and other materials. Students may receive credit for only one of the following courses: ACCT 422 or BMGT 422.

ACCT 424 Advanced Accounting (3)
Prerequisite: ACCT 311. Recommended: ACCT 326. A study of advanced accounting theory, applied to specialized topics and contemporary problems. The aim is to prepare, present, and explain financial statements in five sectors—consolidated, international, partnership, not-for-profit, and state and local governments—and analyze a firm’s dissolution or reorganization. Emphasis is on consolidated statements and partnership accounting. Various techniques are used to study accounting theory and practice; these may include the use of problem sets, case studies, computer applications, and other materials. Students may receive credit for only one of the following courses: ACCT 424 or BMGT 424.

ACCT 425 International Accounting (3)
Prerequisite: ACCT 311. A study of accounting in a multinational context. Discussion covers the historical development and current status of international financial reporting standards. The goal is to recognize the influence of politics and culture on the development of accounting systems, prepare financial statements according to international financial reporting standards, and analyze the financial statements of a multinational enterprise. Strategies to manage and hedge against foreign currency exposure are
developed. Topics include evolving international accounting and reporting standards, foreign exchange and taxation, intercompany transfer pricing, and emerging issues in international accounting. Students may receive credit for only one of the following courses: ACCT 425 or ACCT 498A.

ACCT 436 Internal Auditing (3)
(Designed to align with the standards of the Institute of Internal Auditors and help prepare for the Certified Internal Auditor examination.) Prerequisite: ACCT 311. An exploration of the role of internal auditing and its consultative role in the management of risk. The aim is to identify the professional and ethical standards that apply to internal auditors; design, plan, and apply audit procedures; assess the impact of emerging issues and trends; and identify internal control deficiencies. Topics include internal auditing standards, scope, responsibilities, ethics, controls, techniques, and reporting practices. Practice in PC-based software such as ACL and IDEA is provided. Students may receive credit for only one of the following courses: ACCT 436, ACCT 498E, or BMGT 498E.

ACCT 438 Fraud and Forensic Accounting (3)
Prerequisite: ACCT 311. An analysis and discussion of issues relating to fraud and forensic accounting. The objective is to identify the resources for detecting fraud, evaluate the conditions that encourage fraud, and design effective fraud detection and prevention plans. Focus is on the perspectives of public, internal, and private accountants. Discussion covers the principles and standards for proactive and reactive investigation, as well as detection and control of fraud.

ACCT 440 Forensic and Investigative Accounting (3)
Prerequisite: ACCT 320 or ACCT 438. An analysis and discussion of issues relating to forensic and investigative accounting. The goal is to research and describe the use of forensic accounting evidence, identify the role of the forensic accountant, apply investigative and forensic accounting practices, and present forensic accounting evidence as an expert witness. Forensic and investigative methods, including use of auditing and technology, are demonstrated. Topics include criminal and civil litigation support, rules of evidence, and accreditation of expert witnesses.

ACCT 452 Federal Auditing (3)
Prerequisite: ACCT 221. Recommended: ACCT 422 or ACCT 436. An overview of the federal auditing life cycle. The objective is to plan, manage, and execute a federal audit; identify and evaluate program and financial risks; and identify and recommend enhancements to operations and technology. Topics include planning and executing a federal audit, communicating audit findings to stakeholders, providing advisory support, evaluating program and financial risks, identifying enhancements to technology, maximizing economy and efficiency through the audit process, and minimizing fraud waste and abuse. Discussion also covers the auditing of grants and contracts.

ACCT 486A Workplace Learning in Accounting (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

ACCT 486B Workplace Learning in Accounting (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

African American Studies

AASP 201 Introduction to African American Studies (3)
(Fulfills the general education requirement in behavioral and social sciences.) An interdisciplinary study of significant aspects of African American history and culture, emphasizing the development of African American communities from the Middle Passage to the present. The objective is to conduct research, apply critical thinking skills, and articulate diverse historical perspectives in the context of African American history and culture. Topics include definitions of African American identity, influences, and achievements within African American culture, as well as issues confronting African Americans. Students may receive credit for only one of the following courses: AASP 100 or AASP 201.

Anthropology

ANTH 101 Introduction to Biological Anthropology (3)
A survey of general patterns in the development of human culture, addressing the biological and morphological aspects of humans viewed in their cultural setting. The aim is to apply anthropological knowledge to understanding human origins and how human populations adapt to the environment. Discussion examines human evolution and adaptation, including biocultural patterns in humans and other primates. Students who complete both ANTH 101 and ANTH 102 may not receive credit for ANTH 340, BEHS 340, or BEHS 341.

ANTH 102 Introduction to Cultural Anthropology (3)
A survey of social and cultural principles inherent in ethnographic descriptions. The objective is to apply anthropological knowledge of human behavior to everyday situations and problems. Students
who complete both ANTH 101 and ANTH 102 may not receive credit for ANTH 340, BEHS 340, or BEHS 341.

ANTH 298 Special Topics in Anthropology (1–3)
A presentation of anthropological perspectives on selected topics of broad general interest. May be repeated to a maximum of 6 credits when topics differ.

ANTH 345 World Prehistory and Archaeology (3)
An intermediate-level exploration of world prehistory and archaeology. The goal is to analyze the cultural and subsistence patterns of prehistoric humans in order to relate these patterns to contemporary human societies and populations. Discussion includes archaeological theories and methods; subsistence strategies; and the application of archaeology to community, regional, and global issues and concerns.

ANTH 346 Anthropology of Language and Communication (3)
An intermediate-level anthropological study of language, communication, and culture. The aim is to understand language in a cultural context; assess how the concepts, approaches, and methods of linguistic anthropology explain communication in changing cultural environments; and recognize how language both shapes and is shaped by culture. Topics include the origin of human language, linguistic diversity, structural elements of verbal and nonverbal language, language as social action, research in anthropological linguistics, language and power hierarchies, gendered communications, and linguistic diversity in the contemporary world.

ANTH 350 Health, Illness, and Healing (3)
Recommended: ANTH 102. An overview of health, illness, and healing from a cross-cultural perspective. The objective is to apply the perspectives of medical anthropology to promote individual and public health in local, national, and global contexts. Topics include cultural and social influences on health and healing, the experience and meaning of illness, and current issues in public and global health.

ANTH 351 Anthropology in Forensic Investigations (3)
Recommended: BIOL 160 or BIOL 201. An introduction to the application of forensic anthropology, designed to provide a basic understanding of the analysis of human skeletal remains and how forensic anthropologists work as part of the forensic team. The aim is to understand how anthropologists apply scientific principles and processes to the collection and analysis of evidence and how they communicate their conclusions. Topics include the scope of anthropology within the context of forensic investigations, human skeletal biology, research methods, scientific reporting, crime scene protocols, and the application of professional standards and ethics. Specific examples of forensic anthropology cases are reviewed.

ANTH 398 Intermediate Special Topics in Anthropology (1–3)
A presentation of anthropological perspectives on selected topics of broad general interest. May be repeated to a maximum of 6 credits when topics differ.

ANTH 417 Peoples and Cultures of East Asia (3)
An advanced anthropological study of the peoples and cultures of East Asia, focusing on China, Japan, and Korea. The aim is to apply anthropological theories and methods to the interpretation of contemporary East Asian cultures, relate family structure to individual choices and social interactions in East Asian cultures, and analyze how ethnic and national identities and regional differences affect regional and global interactions. Topics include urbanization, social values, social change, and the role of East Asia in the modern world.

Art

ARTT 110 Introduction to Drawing (3)
A hands-on introduction to various drawing media and related techniques. The objective is to translate the three-dimensional world into two dimensions, communicate through a visual medium, and critique visual works of art. Projects are based on nature and still life.

ARTT 120 Design I: Arrangement and Color (3)
Prerequisite: GRCO 100. A project-driven study of the design elements of a composition as they relate to its overall expression. The aim is to apply elements and principles of design, including color theory, to create a variety of compositions that effectively communicate ideas and emotions.

ARTT 152 Basics of Photography (3)
(Contact to a digital camera with manual settings required.) An introduction to basic photographic procedures with an emphasis on composing, taking, and editing photographs. Discussion covers the historical development of photography. Students may receive credit for only one of the following courses: ARTT 152 or PHOT 198.

ARTT 210 Intermediate Drawing (3)
Prerequisite: ARTT 110. A continuing examination of materials and techniques of drawing. The objective is to apply drawing techniques and visual principles to various subjects, communicate through drawing, and critique works of art. More advanced media, compositions, techniques, and subjects are explored. Students may receive credit for only one of the following courses: ARTS 210 or ARTT 210.
ARTT 320 Painting (3)
Prerequisite: ARTT 110. Practice in the basic tools and vocabulary of painting. The goal is to apply an understanding of compositional strategies, visual principles, and basic materials and techniques to produce paintings using oil/watercolor/acrylic paints.

ARTT 428 Advanced Painting (3)
Prerequisite: ARTT 320. Creation of original compositions based on the figure, nature, and still life, as well as expressive painting. The goal is to paint in a variety of styles and techniques, work with more complex forms (including drapery, transparency, and reflections), and work in landscape and/or figure in space painting. Emphasis is on the development of personal directions. May be repeated to a maximum of 12 credits.

Art History

ARTH 204 Film and American Culture Studies (3)
An introductory study of the relationship between film and American culture. The objective is to improve one's ability to understand a film's message and to expand one's cultural awareness. Discussion covers the way one of our most popular media portrays American culture and influences our interpretation of cultural issues. Various films, filmmaking issues, and representative filmmakers' works are examined. Students may receive credit for only one of the following courses: ARTH 204, AMST 204, or HUMN 204.

ARTH 334 Understanding Movies (3)
(Formerly HUMN 334.) An analysis of one of the most important means of artistic expression of the 20th century. The goal is to acquire a deeper understanding of the aesthetic qualities of film by considering the stylistic elements of film as it has evolved throughout the century and by weighing the special relationship between cinema and literature. Students may receive credit for only one of the following courses: ARTH 334, HUMN 334, or HUMN 498D.

ARTH 372 History of Western Art I (3)
(Formerly ARTH 370.) A survey of the development of the Western tradition of visual art in its various forms that examines and compares the expression of cultural and aesthetic values in different parts of the Western world from prehistory through the Middle Ages. The objective is to apply principles of visual literacy; describe, analyze, and contextualize content and elements of art; and differentiate historic periods and styles of art. Students may receive credit for only one of the following courses: ARTH 370 or ARTH 372.

ARTH 373 History of Western Art II (3)
(Formerly ARTH 371.) A survey of the development of visual art of the Western world in its various forms that examines and compares the expression of cultural and aesthetic values in Europe and the United States from 1300 to the present day. The aim is to apply principles of visual literacy; describe, analyze, and contextualize content and elements of art; and differentiate historic periods and styles of art. Students may receive credit for only one of the following courses: ARTH 371 or ARTH 373.

ARTH 375 History of Graphic Art (3)
Recommended: ARTH 204. A survey of the development of graphic design with an emphasis on the historical, technological, and sociological influences on the production of typography and the aesthetics of visual media. The aim is to recognize the philosophy of graphic arts, identify various movements within the field, and analyze the impact of graphic arts on society. Topics include major works and artists and cultural, social, and religious movements and their impact on graphic arts.

ARTH 478 History of Women in the Visual Arts (3)
A survey of the work, roles, and representations of women in the visual arts, from the 16th century to the present. The aim is to evaluate the role of women artists and assess the impact of gender on visual arts as a way to understand the complexity and diversity of human experience and culture. Emphasis is on women working in the tradition of Western art in painting, sculpture, the decorative arts, performance art, photography, and other media and on how gender affected their art and their careers.

Asian Studies

ASTD 135 Introduction to Japanese Language and Culture (3)
(Formerly JAPN 105. Not open to students with substantial prior experience with Japanese language or culture; assumes no prior knowledge of Japanese. Students with prior experience with the Japanese language should take a placement test to assess appropriate level.) A hands-on, project-based introduction to Japanese language and culture. The goal is to develop cultural competency and familiarity with the history, geography, and culture of Japan and to use basic language skills to function effectively and appropriately in everyday life in Japan. Students may receive credit for only one of the following courses: ASTD 135 or JAPN 105.

ASTD 155 Introduction to Korean Language and Culture (3)
(Not open to students with substantial prior experience with Korean language or culture; assumes no prior knowledge of Korean. Students with prior experience with the Korean language should take a placement test to assess appropriate level.) A hands-on, project-based introduction to Korean language and culture. The goal is to develop cultural competence in personal
ASTD 160, ASTD 285, or HIST 285.

ASTD 198E Battle for Okinawa (1)
This is a field study course designed to capitalize on the historical resources in Okinawa, which is the Asia division's largest source of students. The course will offer newcomers to the UMGCC system as well as to Okinawa the opportunity to tour locations where some of the major components of the battle occurred. The course will also analyze how the reality of the battle compares with what the films of Hollywood often depict.

ASTD 284 Foundations of East Asian Civilization (3)
(Formerly HIST 284.) An interdisciplinary survey of the foundations of East Asian civilization from its beginnings to the 17th century. The goal is to analyze philosophical, religious, artistic, economic, and political aspects of the region's historical experience. Focus is on China, Korea, and Japan. Topics include East Asian belief systems (including Confucianism and Buddhism), the dynastic cycle, relations between steppe and agrarian societies, warrior and scholar-gentry cultures, technological change and economic development, and the role of class and gender in early East Asian society. Students may receive credit for only one of the following courses: ASTD 150, ASTD 284, or HIST 284.

ASTD 285 Introduction to Modern East Asia (3)
(Formerly HIST 285.) An interdisciplinary survey of East Asia from the late 17th century—beginning with Ming-Qing China, Tokugawa Japan, and Choson Korea—to the present. The objective is to trace how transformations on global, regional, and local levels led to the development of the modern nation-states of East Asia and to examine how those developments affected the culture of the areas. Topics include the rise of imperialism and colonialism; cross-cultural interactions; and issues of gender, class, and ethnicity in East Asian culture. Students may receive credit for only one of the following courses: ASTD 160, ASTD 285, or HIST 285.

ASTD 301 The Japanese: Adapting the Past, Building the Future
(Fulfills the general education requirement in the arts and humanities.) A study of modern Japanese society as it attempts to find its place in the post-Cold War international system after a century of imperial expansion, ruinous defeat, and renewal.

ASTD 302 The Two Koreas: Problems and Prospects (3)
Prerequisite: Any writing course. Recommended: ASTD 284 or ASTD 285. A thematic study of the two Koreas from historical, social, and foreign policy perspectives. The objective is to examine scholarly viewpoints on key issues of Korean history and division; articulate key factors that shape U.S. and regional policy toward North Korea; distinguish between different sources of information on the two Koreas; and interpret regional developments based on knowledge of Korean issues. Topics include the "hermit kingdom" myth; liberation, division, and war; the economic "miracle"; North Korean leadership; South and North Korean foreign relations; North Korea as a nuclear threat; and prospects for a unified Korea. Focus is on developing a stronger understanding of the two Koreas for practical and professional application. Assignments require research, analysis, and a written policy or strategy recommendation.

ASTD 370 Interpreting Contemporary China (3)
Prerequisite: Any writing course. Recommended: ASTD 285. A thematic study of contemporary China from political, economic, social, and foreign policy perspectives. The objective is to identify decision-making authorities, interpret major influences on the Chinese economy, appraise the impact of grass-roots social movements, and distinguish factors that drive China's foreign policy. Focus is on developing engagement strategies for various professional applications. Assignments require research, analysis, and a written policy or strategy recommendation (e.g., a policy paper or business strategy plan).

ASTD 398 Advanced Special Topics in Asian Studies (3)
An investigation of a special topic, problem, or issue of particular relevance to countries or peoples of the Pacific Rim or Indian Ocean. Typical investigations include historical or contemporary subjects focusing on cultural, economic, military, or political issues. Assignments include advanced reading and research.

ASTD 398F Korean Buddhist Practices (1)
A field study course exploring Korean Buddhism. The goal is to describe the arrival of Buddhism from China to Korea and its subsequent transmission to Japan, explain the role of Seon (Zen) Buddhism and how Korean Buddhism was unified into a single order. Devotional and meditative practices will be explored through site visits.

ASTD 485 Issues in East Asian Studies (3)
(Intended as a final, capstone course to be taken in a student's last 15 credits.) Prerequisites: ASTD 284 (or ASTD 150) and ASTD 285 (or ASTD 160). A project-based interdisciplinary study of East Asia that integrates knowledge gained through previous coursework and experience and builds on that conceptual foundation through integrative analysis, practical application, and critical thinking. Discussion covers emerging issues and current scholarship in East Asian studies.
Astronomy

ASTR 100 Introduction to Astronomy (3)
Prerequisite: MATH 105, STAT 200, or a higher MATH or STAT course. An examination of the major areas of astronomy. Topics include the solar system, stars and stellar evolution, and galaxies. Current topics in astronomy are also discussed. The objective is to use scientific and quantitative reasoning to make informed decisions about topics related to space science. Students may receive credit for only one of the following courses: ASTR 100, ASTR 101, ASTR 120, or GNSC 125.

Behavioral and Social Sciences

BEHS 103 Technology in Contemporary Society (3)
An interdisciplinary introduction to the role of technology in contemporary society. The aim is to apply principles and concepts from a variety of social science disciplines (e.g., anthropology, sociology, psychology, and gerontology) to explore the influence of technology on society and the effect of technological change on our social lives, including our interpersonal relationships, work, culture, and society. Topics include the way technology changes relationships, the cumulative advantages and disadvantages associated with technology, digital natives versus digital immigrants, the pace of technological change, changes to the nature of how people learn and think, and the meaning of technology in society.

BEHS 210 Introduction to Social Sciences (3)
Recommended: WRTG 112, WRTG 112 or equivalent. An interdisciplinary introduction to the study of society that addresses the issue of what it is to be a social scientist from a variety of social science perspectives. The objective is to use the empirical and theoretical contributions of the different social science disciplines to better understand the nature of society. Topics include research methods in the social science disciplines and the relationships among the different social science disciplines. Discussion surveys the various social sciences, including psychology, sociology, anthropology, and gerontology. A historical overview of the development of the social sciences is provided, and an analysis of social phenomena that integrates insights from the social sciences is presented. Students may receive credit for only one of the following courses: BEHS 201 or BEHS 210.

BEHS 220 Diversity Awareness (3)
An examination of the many dimensions of diversity within the framework of the social sciences. The aim is to learn how to interact and communicate effectively and appropriately within a diverse society. Emphasis is on using critical thinking to understand stereotypes, prejudice, and discrimination and how these phenomena affect society. Discussion explores how adopting a social science perspective on diversity can help address problems in the workplace, community, culture, and society.

BEHS 300 Research Methods in the Social Sciences (3)
Prerequisites: BEHS 210 and STAT 200. An introduction to the core concepts, research methods, and skills that apply to work in the social sciences. The goal is to begin the process of conducting social science research. Discussion covers the scientific method, as well as quantitative and qualitative research methods specific to the social science disciplines of psychology, sociology, anthropology, and gerontology. Topics also include reliability and validity of data, correlation versus causality, research ethics, institutional review boards, proposal writing, and the unique contribution of interdisciplinary approaches in social science research.

BEHS 250 Social Justice Movements (3)
An introductory study of movements for social justice from an interdisciplinary perspective. The objective is to use the theoretical approaches and concepts of the social sciences to explain the origin, development, evolution, and outcomes of movements both in the United States and around the world. Topics include individual and group motivations for engaging in social movements; the use of social media; and ways that movements affect culture, society, and government. Discussion explores justice in the areas of climate, race, and gender, among others.

BEHS 320 Disability Studies (3)
An interdisciplinary study of disability issues that focuses on understanding and evaluating traditional and current interpretations of the meaning of disability. The goal is to interact and communicate effectively and appropriately in situations relevant to issues of disability. Topics include the construction of images of people with disabilities, attitudes and actions toward those with disabilities, approaches taken by major social institutions (e.g., law, education, religion, the arts) toward disability, distinctions between different models of disability, and current issues in disability studies.

BEHS 343 Parenting Today (3)
An overview of critical issues in modern parenting in the United States and the world. Research and theory in family development are applied to practical decision making, using an interdisciplinary perspective and taking into account modern and historical trends.
such as gender roles, socioeconomic status, and single parenting and the impact of divorce on children. Topics include the role of race and ethnicity in parenting, LGBT parenting, and multigenerational and military families.

**BEHS 364 Alcohol in U.S. Society (3)**
An interdisciplinary examination of the use and abuse of the drug alcohol from the perspectives of psychology, physiology, sociology, medicine, counseling, law, and public health. The aim is to examine current research and trends in the treatment of alcohol abuse and dependence (including prevention, assessment, and intervention) and to explore the history, etiology, effects, and current treatment practices. The effects of alcohol throughout the lifespan are explored in relation to gender, families, race, age, the workplace, and public safety.

**BEHS 380 End of Life: Issues and Perspectives (3)**
(Formerly GERO 380.) An exploration of death, dying, and bereavement from social, cultural, psychological, biomedical, economic, and historical perspectives. The objective is to clarify one's personal perspective on death and dying, based on a better understanding of end-of-life planning issues, stages of death, and models of care for the dying. Topics include definitions of death, needs of the dying and their support systems, pain management, palliative and hospice care, end-of-life decision making, cultural meanings and rituals, suicide, euthanasia, homicide, natural disaster, the economics of death and life-sustaining care, family conflict and coping, bereavement, and grieving. Students may receive credit for only one of the following courses: BEHS 380 or GERO 380.

**BEHS 453 Domestic Violence (3)**
An examination of the complex phenomenon of domestic violence from a multidisciplinary perspective that integrates individual, social, political, cultural/ethnic, economic, legal, and medical viewpoints. The aim is to evaluate research and theoretical models of domestic violence; assess institutional, community, and individual responses to domestic violence; and locate effective resources. Topics include neglect and the physical, emotional, and sexual abuse of children, partners, and the elderly. Discussion also covers response systems and mechanisms to prevent and treat violence. Students may receive credit for only one of the following courses: BEHS 453 or BEHS 454.

**BEHS 486A Workplace Learning in Behavioral and Social Sciences (3)**
Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**BEHS 486B Workplace Learning in Behavioral and Social Sciences (6)**
Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**BEHS 495 Advanced Seminar in Social Sciences (3)**
(Intended as a final, capstone course to be taken in a student’s last 15 credits.) Prerequisite: BEHS 300 and completion of all requirements for the social science major. A study of the social sciences that integrates perspectives from various disciplines in the field. The aim is to apply theoretical perspectives and empirical evidence to address complex contemporary social problems and become better consumers and purveyors of knowledge and research. Topics include ethical and professional issues inherent in working in the social sciences and the role of advocacy in promoting social change.

**Biology**

**BIOL 101 Concepts of Biology (3)**
(Not open to students majoring in biotechnology or laboratory management.) An introduction to the structure and function of living organisms. The objective is to use knowledge about biological principles and scientific reasoning to make informed decisions about the natural world. Topics include the chemical foundations of life, cell biology, genetics, evolution, ecosystems, and the interdependence of living organisms. Discussion also covers the importance of the scientific method to biological inquiry and the impact of biological knowledge and technology on human societies. Students may receive credit for only one of the following courses: BIOL 101, BIOL 103, BIOL 105, or BSCI 105.

**BIOL 102 Laboratory in Biology (1)**
(Not open to students majoring in biotechnology or laboratory management. Fulfills the laboratory science requirement only with previous or concurrent credit for BIOL 101.) Prerequisite or corequisite: BIOL 101. A hands-on study of the structure and function of living organisms. The goal is to apply the scientific method and to use scientific and quantitative reasoning to make informed decisions about experimental results in the biological sciences. Laboratory exercises emphasize the scientific method and explore topics such as the chemical foundations of living organisms, cell structure and function, and the classification of organisms. Students may receive credit for only one of the following courses: BIOL 102, BIOL 103, BIOL 105, or BSCI 105.
BIOL 103 Introduction to Biology (4)
(Not open to students majoring in biotechnology or laboratory management or to students who have completed BIOL 101 or BIOL 102. Fulfills the laboratory science requirement.) An introduction to the structure and function of living organisms. The aim is to apply the scientific method and use scientific and quantitative reasoning to make informed decisions about experimental results in the biological sciences. Topics include the chemical foundations of life, cell biology, genetics, evolution, ecosystems, and interdependence of living organisms. Discussion also covers the importance of the scientific method to biological inquiry and the impact of biological knowledge and technology on human societies. Laboratory activities emphasize the scientific method. Students may receive credit for only one of the following: BIOL 101 BIOL 102, BIOL 103, BIOL 105, or BSCI 105.

BIOL 160 Human Biology (3)
(Science background not required.) A general introduction to human structure, functions, genetics, evolution, and ecology. The aim is to use scientific reasoning to make informed decisions about topics related to human biology. The human organism is examined from the basic cellular level and genetics, through organ systems, to interaction with the outside world. Discussion also covers pertinent health topics. Students may receive credit for only one of the following courses: BIOL 160 or GNSC 160.

BIOL 161 Laboratory in Human Biology (1)
(Fulfills the laboratory science requirement only with previous or concurrent credit for BIOL 160.) Prerequisite or corequisite: BIOL 160. A laboratory study that uses the human organism as an example to illustrate the concepts underlying the organization and interrelationships of all living organisms.

BIOL 164 Introduction to Human Anatomy and Physiology (3)
Prerequisite: BIOL 101, BIOL 103, or BIOL 160. An introduction to the anatomy and physiology of the human organism. Topics include basic concepts of physics and chemistry that are necessary for understanding biological functions and the structure and function of cells, tissues, and the major organ systems in the body. Students may receive credit for only one of the following courses: BIOL 164 or GNSC 161.

BIOL 181 Life in the Oceans (3)
An introductory study of the major groups of plants and animals in various marine environments, as well as their interactions with each other and the nonliving components of the ocean. The objective is to use scientific reasoning to make informed decisions about topics related to marine biology. Discussion covers the impact of human activity on life in the ocean and the potential uses and misuses of the ocean. Students may receive credit for only one of the following courses: BIOL 181 or ZOOL 181.

BIOL 201 Human Anatomy and Physiology I (4)
(Fulfills the laboratory science requirement.) Prerequisite: BIOL 101, BIOL 105, BIOL 160, or BSCI 105. A thorough introduction to the anatomy and physiology of the integumentary, skeletal, muscular, and nervous systems of human beings. An overview of cellular physiology is included. Students may receive credit for only one of the following courses: BIOL 201 or ZOOL 201.

BIOL 202 Human Anatomy and Physiology II (4)
(Fulfills the laboratory science requirement.) Prerequisite: BIOL 101, BIOL 105, BIOL 160, or BSCI 105. An introduction to the anatomy and physiology of the sensory, cardiovascular, endocrine, lymphatic, respiratory, digestive, excretory, immune, and reproductive systems. Intermediary metabolism and endocrine relationships are also studied. Students may receive credit for only one of the following courses: BIOL 202 or ZOOL 202.

BIOL 211 Environmental Science (3)
A survey of ecological principles as they apply to the interrelated dilemmas of sustainability. Topics include overpopulation, pollution, over-consumption of natural resources, and the ethics of land use. Students may receive credit for only one of the following courses: BIOL 211, BOTN 211, or PBIO 235.

BIOL 212 Environmental Science Laboratory (1)
(For students not majoring in science. Fulfills the laboratory science requirement only with previous or concurrent credit for BIOL 211.) Prerequisite or corequisite: BIOL 211. A laboratory study investigating human interactions with our environment. Scientific objectivity and methodology are employed to gather and analyze data pertaining to the varied and interrelated forms of human environmental impact. Topics explored include principles of ecology, population dynamics, food supply alternatives and impact, sustainable water supplies, energy alternatives, pollution control, greenhouse gases, recycling, and conservation technologies.

BIOL 220 Human Genetics (3)
An introduction to the role of genes in inheritance of traits and genetic diseases and disorders. The goal is to understand how genes affect physical appearance and behavior. Topics include Mendelian and non-Mendelian inheritance of human genetic diseases, human genetic variation, and mechanisms underlying human diseases. Students may receive credit for only one of the following courses: BIOL 220, BIOL 222, or BSCI 222.

BIOL 230 General Microbiology (4)
(For students majoring or minoring in a science. Fulfills the laboratory science requirement.) Prerequisite: BIOL 105 or other introductory biology course with laboratory. An investigation of fundamental concepts in morphology, physiology, genetics, immunology, ecology, and pathogenic microbiology. Applications of microbiology to medicine, the food industry, and biotechnology
are considered. Student may receive credit for only one of the following: BIOL 230, BIOL 302, BIOL 331, BIOL 398G, BSCI 223, MICB 200, or MICB 388A.

**BIOL 301 Human Health and Disease (3)**
(For students majoring in science or nonscience disciplines.)
A survey of the mechanisms of disease and their expression in major organ systems of the human body. The goal is to use scientific reasoning to make informed decisions about matters related to human biology and health. Topics include infections, cancer, heart disease, lung disease, diabetes, stroke, malnutrition, poisoning by environmental toxins, stress, inflammation, disorders of the immune system, and aging. Emphasis is on analysis of factors that cause disruption of healthy body functions, leading to disease, and on prevention of disease through control of risk factors and early detection. Students may receive credit for only one of the following courses: BIOL 301 or BIOL 398H.

**BIOL 302 Bacteria, Viruses, and Health (3)**
(For students majoring in science or nonscience disciplines.)
An introductory study of the basic structure, genetic and regulatory systems, and life cycles of bacteria and viruses and how they relate to health, infectious disease, and illness. The objective is to apply knowledge of cellular and molecular processes and communicate synthesized knowledge of microbial pathogenesis and disease prevention methods. Students may receive credit for only one of the following courses: BIOL 230, BIOL 302, BIOL 331, BIOL 398G, BSCI 223, MICB 200, or MICB 388A.

**BIOL 304 The Biology of Cancer (3)**
(For students majoring in science or nonscience disciplines.)
An overview of the biological basis of cancer. The goal is to apply knowledge of cancer biology to adopt appropriate lifestyle strategies and evaluate current treatments. The causes, development, and progression of cancer are considered at the level of cell structure and function. The roles of genes and proteins are also examined. Students may receive credit for only one of the following courses: BIOL 304 or GNSC 398C.

**BIOL 307 The Biology of Aging (3)**
(For students majoring in science or nonscience disciplines.)
An overview of the biological basis of aging. The goal is to apply knowledge of the aging process to influence personal lifestyle choices, public health policy, and economic decisions. Topics include typical changes that occur in cells, molecules, metabolism, and structure during the aging process. The development and progression of several diseases associated with aging (including cancer, neurodegenerative diseases such as Alzheimer’s and Parkinson’s diseases, osteoporosis, and loss of visual acuity and memory) are discussed with respect to the role of genes, proteins, and environmental influences. Students may receive credit for only one of the following courses: BIOL 307 or BIOL 398V.

**BIOL 320 Forensic Biology (3)**
Recommended: BIOL 101, BIOL 103, or BIOL 160. An introduction to the basic principles of biology as applied to the field of forensic science. The aim is to use scientific reasoning to draw conclusions and make decisions about forensic techniques, analyses, and results. Topics include the biological features and characteristics of evidentiary materials, as well as the basic principles of chemistry, cell biology, microbiology, and genetics that underlie forensic analyses.

**BIOL 325 Inquiries in Biological Science (3)**
Prerequisite: BIOL 101 or equivalent. An overview of biological principles and current trends in biological science. The goal is to apply knowledge of core biological principles, critically analyze current research, and use scientific reasoning to make evaluative decisions related to applications in the biological sciences. Topics include the scientific process, core biological concepts, careers in biology-related fields, and safety and health policies relevant to biological research.

**BIOL 328 Bioethics (3)**
Recommended: BIOL 101 and WRTG 112 or equivalent. An introduction to ethical decision making related to human life and health. The aim is to form defensible positions and carefully crafted arguments based on well-supported evidence. Discussion covers reproductive issues, biological research, and healthcare. Emphasis is on scientific and philosophical thinking.

**BIOL 350 Molecular and Cellular Biology (3)**
(For students majoring or minoring in a science.) Prerequisite: BIOL 325. A thorough examination of the basic structure and function of cells, with an emphasis on eukaryotic cell biology. The objective is to use knowledge of molecular biology to interpret results and draw conclusions about research findings and technological applications. Topics include cell-cycle growth and death; protein structure; DNA replication, repair, and recombination; gene expression; RNA processing; and molecular transport, traffic, and signaling. Discussion also covers the application of recombinant DNA, genetic engineering, and other current molecular biology technologies. Students may receive credit for only one of the following courses: BIOL 350 or BIOL 398S.

**BIOL 357 Bioinformatics (3)**
Prerequisite: BIOL 325 or another upper-level biology course. Recommended: IFSM 201 and MATH 105 (or a more advanced MATH or STAT course). An introduction to the use of computers in the analysis of nucleic acid and protein sequences and a study of the
significance of these analyses. The goal is to develop an understanding of the software used in bioinformatics and learn how to address specific questions in biotechnology and research. Topics include genome analysis, evolutionary relationships, structure-function identification, protein pattern recognition, protein-protein interaction, and algorithms.

BIOL 362 Neurobiology (3)
Prerequisite: BIOL 101, BIOL 103, or BIOL 160. An in-depth discussion of the biology and development of the nervous system. The goal is to apply knowledge of neurobiological principles to advanced studies or careers and be more informed healthcare consumers. Topics include neuronal structure and function; communication at the synapse; membrane receptors and intra-cellular signaling systems; gross organization of the brain and spinal cord; the processing of sensory information; the programming of motor responses; research techniques; ethics; brain development; plasticity; and higher functions such as learning, memory, cognition, and speech.

BIOL 398 Special Topics in Biology (3)
A study of topics in biology of special interest to students and faculty. May be repeated to a maximum of 6 credits when topics differ.

BIOL 398J The Role of Nutrition in Cancer and Heart Disease (1)
A study of the relationship between diet and the development of cancer and heart disease at the level of molecules, cells, and genes. The aim is to examine the scientific and epidemiological evidence supporting the roles of various foods, nutrients, antioxidants, fiber, fats, and genetics in the progression or prevention of these two major causes of mortality. Students may receive credit for only one of the following courses: BIOL 398J or GNSC 398F.

BIOL 398L Bacteria, Fungi, and Fermentation (1)
An introduction to the bacteria and fungi involved in food and beverage fermentation. The aim is to gain an appreciation for the ecological interdependence of microorganisms and humans. Discussion covers basic biological distinctions between bacteria and fungi, the fundamental biochemistry of fermentation, and conditions that promote desired growth for the production of edible fermented products.

BIOL 398N Wildlife Ecology (1)
Recommended: BIOL 101 or similar introductory biology course. An overview of the history, science, and public policy of wildlife ecology and management. The goals are to distinguish, analyze, and assess the basic characteristics of wildlife populations and habitats, the significance of wildlife biodiversity to natural and human communities, and the role of human perceptions and policies in protecting and restoring wildlife populations. Topics will include biodiversity, conservation, extirpation, extinction, habitat loss, invasive species, pollution, overharvesting, population dynamics, sustainability, and restoration.

BIOL 398P Pesticides and the Environment (1)
An overview of the history, science, and public policy of pesticide use and management. The goal is to distinguish, analyze, assess, and appraise the impact of pesticides on human health, wildlife populations, and ecosystem functions. Topics include biodiversity, mechanisms of action, genetic resistance, risk assessment, regulatory frameworks, toxicity testing, and social values.

BIOL 422 Epidemiology and Communicable Diseases (3)
Prerequisite: BIOL 230, BIOL 301, BIOL 302, or BIOL 398G. Recommended: WRTG 393. An investigation of factors contributing to the emergence of new infectious diseases and the resurgence of diseases once thought to have been controlled. The goal is to synthesize and apply knowledge of research methods, integrate epidemiological information, and communicate knowledge to scientific and nonscientific communities. Topics include socioeconomic and environmental factors that contribute to the inability to prevent or control malaria, tuberculosis, and AIDS. Disease symptoms, patterns of spread, and possible control measures are examined for new infectious diseases (such as Lyme disease and those caused by E. coli O157, the Ebola virus, hantaviruses, and cryptosporidia). Discussion also covers resurgent diseases such as anthrax, bubonic plague, dengue fever, influenza, and cholera. Students may receive credit for only one of the following courses: BIOL 422 or MICB 388E.

BIOL 486A Workplace Learning in Biology (3)
Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

BIOL 486B Workplace Learning in Biology (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

BIOL 495 Current Trends and Applications in the Life Sciences (3)
(Intended as a final, capstone course for biotechnology and laboratory management majors; to be taken in a student’s last 15 credits.) Prerequisite: BIOL 325. Recommended: A statistics course. An examination of current topics, trends, and applications in the life sciences. The aim is to be familiar with life science laboratory and industry environments, communicate scientific prin-
Bridge Program

UMEI 030 Basic Interpersonal Communication Skills Course
(Does not apply toward degree requirements. Yields institutional credit only.) An advanced study of spoken English as a second language focusing on American English. Opportunities to discuss and write about cultural similarities and differences are provided.

UMEI 020 Integrated Skills for College Literacy
(Does not apply toward degree requirements. Yields institutional credit only.) An advanced study of written English as a second language that builds on already acquired English communication skills.

EDCP 102 Integrated Skills for Academic Success
(Does not fulfill the general education requirement in communications. Enrollment restricted to students for whom English is a not a first language. Recommended as preparation for WRTG 101, WRTG 101X, or upper-level writing courses.) A review of basic writing skills. Topics include parts of speech; proper use of subordinate clauses, independent clauses, and phrases; the writing process; strategies for developing academic paragraphs and essays; and strategies for developing writing and editing skills in grammar, punctuation, and mechanics. Frequent opportunities to practice and refine skills are provided. Students may receive credit for only one of the following courses: EDCP 103, EDCP 103X, or ENGL 100.

WRTG 111X Academic Writing I
(The first course in the two-course series WRTG 111X-WRTG 112X. Fulfills the general education requirement in communications.) An introduction to reading, writing, and critical thinking with an emphasis on research and argumentation. The goal is to implement strategies for analyzing ideas and rhetorical techniques in academic texts and for conducting academic research. Focus is on writing an argumentative research paper that synthesizes information and ideas from multiple sources and demonstrates critical thinking, varied rhetorical strategies, proper source documentation, and effective language use. Students may receive credit for only one of the following courses: ENGL 101, ENGL 101X, WRTG 101, WRTG 101S, WRTG 101X, WRTG 112, or WRTG 112X.

WRTG 112X Academic Writing II
(The second course in the two-course series WRTG 111X-WRTG 112X. Fulfills the general education requirement in communications.) Continued practice in reading, writing, and critical thinking with an emphasis on research and argumentation. The goal is to implement strategies for analyzing ideas and rhetorical techniques in academic texts and for conducting academic research. Focus is on writing an argumentative research paper that synthesizes information and ideas from multiple sources and demonstrates critical thinking, varied rhetorical strategies, proper source documentation, and effective language use. Students may receive credit for only one of the following courses: ENGL 101, ENGL 101X, WRTG 101, WRTG 101S, WRTG 101X, WRTG 112, or WRTG 112X.

SPCH 100X Foundations of Speech Communication
(Enrollment restricted to students for whom English is a second language.) An overview of the principles of communication. Verbal and nonverbal language, listening, group dynamics, and public speaking are highlighted. Emphasis is on applying communication principles to contemporary problems and preparing various types of oral discourse. Students may receive credit for only one of the following courses: SPCH 100, SPCH 100X, SPCH 101, SPCH 107, or SPCH 108.

Business and Management

BMGT 110 Introduction to Business and Management (3)
(For students with little or no business background. Recommended preparation for many other BMGT courses.) An introduction to the fundamental concepts of business management and leadership. The objective is to understand the interrelated dynamics of business, society, and the economy. Discussion covers business principles and practices in the contexts of everyday business events and human affairs and from a historical perspective.

BMGT 121A Solve Problems, Make Decisions (1)
An introduction to problem solving and decision making, focusing on the difference between them and the inherent bias we have in dealing with them. The aim is to differentiate problem solving and decision making, evaluate personal skill levels in solving problems, and develop a tailored approach toward solving complex problems and making complex decisions. Topics include common problem-solving methodologies and decision-making strategies and the individual skills needed to employ them effectively.

BMGT 121B Communication and Collaboration (1)
An in-depth evaluation and application of successful collaboration and communication skills. The aim is to identify successful personal communication practices and skills needed for successful collaboration with others in the workplace. Topics include
individual specific verbal and active listening skills, methods for interpreting nonverbal emotional intelligence cues, and techniques for troubleshooting daily communication.

**BMGT 160 Principles of Management (3)**
An introductory study of the skills required to effectively and efficiently manage employees and workflow within an organization. Focus is on the role of a manager to plan, organize, and control the workload through the development of effective relationships with employees. Topics include the role and function of a manager, motivation strategies, verbal and nonverbal communication skills, employee diversity, problem solving and decision making skills, and the influence of external organizational forces on work performance.

**BMGT 304 Managing E-Commerce in Organizations (3)**
A hands-on, project-based introduction to the management of e-commerce organizations. The objective is to identify and demonstrate the unique skills needed to manage a sustainable e-commerce organization. Topics include e-commerce management principles, human resource management, information systems, knowledge management principles, e-marketing, virtual customer and supplier relations, and potential international legal issues. Assignments include project-based case studies that apply skills to modern workday problems.

**BMGT 305 Knowledge Management (3)**
A practical approach to knowledge management. The aim is to understand the value of knowledge management and the roles of knowledge workers and knowledge managers. Discussion covers how organizations capture, acquire, and share knowledge to maintain corporate memory and to develop collaborative energy. Topics include both formal and informal approaches to knowledge sharing and ways in which organizations use knowledge management techniques for competitive advantage. Students may receive credit for only one of the following courses: BMGT 305 or BMGT 388C.

**BMGT 317 Methods of Decision Making and Problem Solving (3)**
A practical examination of decision making and problem solving. The goal is to use a proven framework to generate potential solutions for effective decision making and problem solving. Discussion covers the cultural impact of decision making, including stakeholders’ expectations. Topics include root cause analysis, risks and uncertainty, potential solutions and alternatives, key performance indicators, psychological traps, and the steps to assure effectiveness before and after decision implementation. Students may receive credit for only one of the following courses: BMGT 317 or TMGT 310.

**BMGT 330 Entrepreneurship and New Venture Planning (3)**
Recommended: BMGT 364. An overview of entrepreneurship and planning new business ventures for aspiring entrepreneurs and managers. The objective is to create and present a high-quality business plan for a new venture using marketing research and financial analytical techniques. Topics include profiles of entrepreneurs; benefits, risks, and challenges; financial management; access to capital; and franchising. Students may receive credit for only one of the following courses: BMGT 330, FINC 310, MGMT 330, or SBUS 200.

**BMGT 335 Small Business Management (3)**
Recommended: BMGT 317. A comprehensive review of the management principles underlying organizational development and growth and business life-cycle segments of emerging enterprises. The goal is to demonstrate an understanding of small business management in a global context, differentiate between micro- and macro-organizational structures, and identify the critical elements of business sustainability. Topics include entrepreneurship, financing/capitalization, innovation, and human resource and strategic planning. Core components of small business management are explored and evaluated through a multifaceted approach.

**BMGT 339 Introduction to Federal Contracting (3)**
An overview of the federal contracting process, including the requirements and techniques of federal contracting. The objective is to document needs in writing, develop evaluation criteria, and review and assess contractor performance. Activities include planning, evaluating award criteria, and assessing performance. Discussion also covers critical contract issues. Students may receive credit for only one of the following courses: BMGT 339, MGMT 220, or MGMT 339.

**BMGT 364 Management and Organization Theory (3)**
Recommended: BMGT 110. An examination of the four functions of management—planning, organizing, leading, and controlling—with emphasis on the application of management concepts and theories to achieve organizational goals. The aim is to develop strategies, goals, and objectives to enhance performance and sustainability. Topics include ethics, social responsibility, globalization, and change and innovation. Students may receive credit for only one of the following courses: BMGT 364, TEMN 202, TEMN 300, TMGT 301, or TMGT 302.

**BMGT 365 Organizational Leadership (3)**
Prerequisite: BMGT 110 or BMGT 364. An exploration of leadership as a critical skill for the 21st century, when change occurs rapidly and consistently. The objective is to use leadership theory and assessment tools to evaluate one’s own leadership skills. Focus is on the leadership skills needed to develop committed and productive individuals and high-performing organizations.
Topics include vision, values, culture, ethics, and the interaction between the organization and the external environment. Students may receive credit for only one of the following courses: BMGT 365, MGMT 300, MGST 310, or TEMN 310

BMGT 380 Business Law I (3)
(Strongly recommended for students seeking careers as CPAs, lawyers, or managers.) A conceptual and functional analysis and application of legal principles and concepts relevant to the conduct and understanding of commercial business transactions in the domestic and global environments. The aim is to evaluate sources of law, legal process, procedures, and remedies and to analyze tort, criminal, and contractual rights, obligations, liabilities, and remedies in the business environment. Topics include the legal, ethical, and social environments of business; civil and criminal law; agency; types of business organizations; and contracts and sales agreements.

BMGT 381 Business Law II (3)
(Strongly recommended for students seeking careers as CPAs, lawyers, or managers.) Prerequisite: BMGT 380. Further conceptual and functional analysis and application of legal principles relevant to the conduct and understanding of commercial business transactions in the domestic and global environment. The aim is to evaluate sources of law, legal process, procedures, and remedies and to analyze tort, criminal, and contractual rights, obligations, liabilities, and remedies in the business environment. Topics include personal and real property, leases, antitrust, business insurance, accountants' liability, negotiable instruments, secured transactions, government regulation affecting consumer protection, environmental protection, debtor/creditor relationships, and bankruptcy and reorganization.

BMGT 392 Global Business (3)
Recommended: BMGT 110. An overview of key concepts and issues relevant to conducting business in the global environment. Emphasis is on applying fundamental knowledge of global business and analyzing and evaluating global business variables for informed decision making. The objective is to analyze property rights, obligations, liabilities, and remedies; evaluate regulations in the business environment; and assess implications of transactions and negotiable instruments in the business environment. Topics include the nature and scope of global business; cultural, political, legal, and economic environments; marketing; trade; and foreign investments. Students may receive credit for only one of the following courses: BMGT 392, MGMT 305, or TMGT 390.

BMGT 398 Special Topics in Business and Management (1–3)
Intensive inquiry into special topics in business and management that reflect the changing needs and interests of students and faculty.

BMGT 411 Process Improvement (3)
A hands-on, project-based introduction to process improvement. The objective is to assess the root cause of a problem, gain buy-in for the improvement, map the process, establish internal controls, and apply a variety of metrics to improve processes, test improvement solutions, and implement the process improvement. Emphasis is on process improvements that are cost-effective and add value to organizational missions. Topics include meeting customer expectations, flowcharting, selecting approaches to change management, acquiring resources, and sustaining improvements. Students may receive credit for only one of the following courses: BMGT 411 or TMGT 411.

BMGT 456 Managing Across Cultures and Borders (3)
Recommended: BMGT 110. An examination and analysis of international management across cultures and borders. The aim is to apply critical thinking and analytical skills in global management settings. Focus is on the roles of business managers in today's complex global environment. Topics include cross-cultural strategic planning, multinational organizational structures, global leadership, cross-cultural communication, environmental factors, decision making, and negotiations. Students may receive credit for only one of the following courses: BMGT 456 or BMGT 498R.

BMGT 464 Organizational Behavior (3)
Prerequisite: BMGT 364. A study of how the manager uses knowledge of people's behavior in the workplace to develop best practices to build relationships that foster a more efficient and effective organization. The aim is to examine organizations and the way people behave in an organizational setting to develop the types of skills that encourage the organization's best workplace behavior. Topics include motivation, emotional intelligence, employee and organizational diversity, engagement in job performance, job commitment, and workplace culture.

BMGT 465 Organizational Change Management (3)
Prerequisite: BMGT 364. Recommended: BMGT 160. An examination of the systematic process of organizational change management, including data collection, diagnosis, action planning, intervention, and evaluation. The goal is to increase the effectiveness of an organization to develop the potential of all individuals. Activities include identifying and diagnosing organizational problems or opportunities utilizing management skills that support organizational change. Students may receive credit for only one of the following courses: BMGT 465, MGMT 398K, MGMT 465, or TMGT 350.

BMGT 466 Global Public Management (3)
Recommended: BMGT 110. A comprehensive study of public management. The aim is to analyze, design, and evaluate solutions to public-sector problems, both domestic and global, based on an understanding of public-sector management concepts.
and the different types of organizations involved. Topics include development and implementation of public-sector projects and the finance, human resources, and marketing activities that support them. Discussion also covers public management in diverse regions of the world, as well as the purpose and management of intergovernmental organizations and nongovernmental organizations. Students may receive credit for only one of the following courses: BMGT 366, BMGT 466, or TMGT 305.

**BMGT 484 Organizational Collaboration (3)**
Prerequisite: BMGT 364. A theoretical and practical investigation into organizational collaboration. The aim is to define the purpose, types, and use of collaboration by managers in modern organizations and the skills managers require for successful collaborations. Topics include development of skills in team dynamics, factors that foster team cohesion and performance, individual and group virtual collaboration, and decision making.

**BMGT 485 Applied Management (3)**
(Intended as the final, capstone course for management studies majors, to be taken in the last 15 credits, but appropriate for anyone who aspires to a management position.) Prerequisites: BMGT 317, BMGT 364, BMGT 464 (or BMGT 465), and BMGT 484. An integration and application of managerial skills used in successful organizations. The goal is to integrate previously learned management skills and to apply them to achieve individual and organizational excellence, including the four functions of management, applied decision making, team building, organizational behavior and organizational change.

**BMGT 486A Workplace Learning in Business and Management (3)**
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**BMGT 486B Workplace Learning in Business and Management (6)**
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**BMGT 487 Project Management I (3)**
(The first course in the two-course series BMGT 487–BMGT 488.) Recommended: FINC 330. An introduction to project management principles, concepts, and software applications. The goal is to manage a project through all phases of the project life cycle. Project management is examined in terms of practical applications and practices. Appropriate organizational structures, such as collegial and matrix types, are described and assessed. Discussion also covers the practical considerations of designing a project management system. Students may receive credit for only one of the following courses: BMGT 487 or TMGT 430.

**BMGT 488 Project Management II (3)**
(The second course in the two-course series BMGT 487–BMGT 488.) Prerequisite: BMGT 487. An examination of project management processes and applications beyond introductory principles and concepts. The goal is to manage a project through all phases of the project life cycle. Emphasis is on the practical applications of project management principles and processes. Projects depict real-world situations, such as information systems implementation; service business/e-commerce projects; and consulting projects that occur in research, information systems, manufacturing, and engineering firms. Students may receive credit for only one of the following courses: BMGT 488 or TMGT 430.

**BMGT 495 Strategic Management (3)**
(Access to spreadsheet, word processing, and presentation software required. Intended as a final, capstone course to be taken in a student's last 15 credits.) Prerequisites: BMGT 364, BMGT 365, FINC 330 (or BMGT 340), and MRKT 310. A study of strategic management that focuses on integrating management, marketing, finance/accounting, production/operations, services, research and development, and information systems functions to achieve organizational success. The aim is to apply integrative analysis, practical application, and critical thinking to the conceptual foundation gained through previous study and personal experience. Emphasis is on developing an organizational vision and mission, developing and implementing strategic plans, and evaluating outcomes. Students may receive credit for only one of the following courses: BMGT 495, HMGT 430, MGMT 495, or TMGT 380.

**BMGT 496 Business Ethics (3)**
A study of the relationship of business ethics and social responsibility in both domestic and global settings. The aim is to explore ethical and moral considerations of corporate conduct, social responsibilities, policies, and strategies. Emphasis is on the definition, scope, application, and analysis of ethical values as they relate to issues of public and organizational consequence and business decision making in the domestic and global business environments.

**Career Planning**

**CAPL 198A Effective Time Management (1)**
A hands-on exploration of effective time management strategies. The objective is to develop a personal time management plan. Topics include procrastination, how to use time productively, the myth of multitasking, and achieving a balance. Discussion include
personal tendencies for managing time and recognizing and planning for prioritizing one's tasks. Students may receive credit for only one of the following courses: CAPL 198A or MGST 198B.

**CAPL 198B Career Transitions (1)**

An exploration of career paths and skills. The goal is to assess one's prior education and experiences to determine possible career paths. Topics include the identification of skills gaps, strategies for preparing a résumé aligned with the career, and best practices for successful integration into the civilian workforce. Students may receive credit for only one of the following courses: CAPL 198B or MGST 198M.

**CAPL 198C Interviewing Skills (1)**

A comprehensive exploration of skills and strategies needed for successful interviews. The aim is to articulate personal skills, education, and experience as they relate to a target position. Topics include body language, nonverbal cues, and candidacy for various positions. Discussions explore previous interview experiences, strategies for success during interviews, and determining whether the position may be a good fit. Students may receive credit for only one of the following courses: CAPL 198C or MGST 198L.

**CAPL 398A Career Planning Management (1)**

A survey of strategies for managing career change. Focus is on examining, evaluating, and assessing individual skill sets; networking; and researching career and economic markets. The objective is to formulate a career path and develop the resources needed to enter that path. Topics include résumé and cover letter development, interviewing techniques, negotiation strategies, and tools for ongoing career planning.

**CAPL 495 General Studies Capstone (3)**

(Intended as a final, capstone course to be taken in a student’s last 15 credits.) The analysis and evaluation of knowledge and skills gained from previous study. A capstone project connects an area of study to a real-world scenario and includes the presentation of a portfolio linking one’s academic experience with personal and professional goals.

**Chemistry**

**CHEM 121 Chemistry in the Modern World (3)**

(For students not majoring or minoring in a science.) An exploration of chemistry as it relates to human life and the environment. The goal is to use a working knowledge of chemical principles, scientific reasoning, and quantitative reasoning to make informed decisions about health and safety matters. Discussion examines natural processes and human factors in the modern world using the principles of chemistry and the scientific method. Students may receive credit for only one of the following courses: CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 107, CHEM 121, CHEM 297, or GNSC 140.

**CHEM 297 Environmental Chemistry (3)**

Prerequisite(s): MATH 115 (or MATH 107 and MATH 108). An examination of the chemistry of environmental systems. The aim is to identify and evaluate fundamental principles of chemistry in relation to environmental systems. Discussion covers the nature of atoms, types of bonding, functional groups, chemical reactivity, and chemical interactions. Topics also include migration of chemicals through the environment, the role of basic chemistry in biogeochemical cycles, and human impact on biogeochemical cycles through the use of technology. Students may receive credit for only one of the following courses: CHEM 102, CHEM 103, CHEM 104, CHEM 105, CHEM 107, CHEM 121, CHEM 297, or GNSC 140.

**Communication Studies**

**COMM 200 Military Communication and Writing (3)**

(Fulfills the general education requirement in communications.) A study of business communication management in a military context. The objective is to develop appropriate and effective communication products for military audiences and within military environments through the application of accepted business communication practices. Topics include communication theories; research methods; organization of information; formats; writing and editing strategies; and techniques for guiding subordinate communication, conducting interviews, and managing meetings. Assignments may include making speech presentations; instructing a class; conducting interviews; managing meetings; and writing and editing reports, letters, emails, proposals, and personnel evaluations.

**COMM 202 Media and Society (3)**

(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112 or equivalent. An overview of the complex components and relationships involved in today's media. The goal is to understand the technical, political, economic, cultural, and organizational influences on mediated messages. Topics include visual rhetoric, legal and ethical issues, social media, the transactional model, advertising, security, and privacy concerns.

**COMM 207 Understanding Visual Communication (3)**

A study of the creation and interpretation of visual language. The aim is to understand how images are used to effectively communicate ideas in a variety of channels, including news, advertising, and public relations. Topics include aesthetics, principles of composition, color systems, content awareness, and historical and cultural perspectives. Emphasis is on critical thinking and analysis of images from both theoretical and practical perspectives.
COMM 300 Communication Theory (3)
(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112 or equivalent. An introduction to communication theory. The objective is to apply communication theory and evaluate communication situations. The basic theories of human communication, mass communication, and new media and technology are explored. Focus is on the relationships among communication theory, research, and practice. Topics include intra- and interpersonal communication, public communication, mass media, and contemporary issues associated with mediated communication.

COMM 302 Mass Communication and Media Studies (3)
(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112, WRTG 101, or WRTG 101S. A survey of mass communication designed to enhance media literacy. The goal is to interpret, evaluate, and produce media messages. Topics include media industries and the impact of the media, as well as regulation, policy, and ethical issues. Emphasis is on critical thinking and analysis of vital aspects of pervasive elements of popular culture, such as news, advertising, children's entertainment, and a free press. Students may receive credit for only one of the following courses: COMM 302 or COMM 379A.

COMM 390 Writing for Managers (3)
(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112, WRTG 101, or WRTG 101S. A practicum in the kinds of communication skills that managers need for the workplace. The goal is to develop persuasive managerial communication for organizational decision making and action. Students may receive credit for only one of the following courses: COMM 390, HUMAN 390, WRTG 390, or WRTG 490.

COMM 400 Mass Media Law (3)
(No previous study of law required. Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112 or equivalent. Recommended: WRTG 391, WRTG 393, or WRTG 394. An examination of important legal issues that affect mass media and communications professionals. The objective is to analyze mass media law, its evolution, and its relationship with society, culture, and politics. Topics include copyright, intellectual property, fair use, defamation, privacy, freedom of information, freedom of speech, and freedom of the press, as well as issues raised by the growth of the internet. Discussion also covers ethics in mass media, digital technologies, and the creation of media content. Students may receive credit for only one of the following courses: COMM 400 or JOUR 400.

COMM 459 Special Topics in Communication (1–3)
An exploration of special topics in communication. The objective is to attain specialized knowledge and skills in a particular area of communication, journalism, speech, or professional writing. Focus is on demonstrating new knowledge through an extended applied project. May be repeated to a maximum of 6 credits when topics differ.

COMM 480 Research Methods in Communication Studies (3)
Prerequisites: COMM 300 and COMM 302. A review of qualitative and quantitative research methods in communication studies. The objective is to define and explain research methods, concepts, and tools; apply research design, data collection, analysis, and reporting skills; and critically evaluate research in terms of rigor, relevance, and explanatory value. Practice is provided in finding, consuming, and analyzing research studies. Discussion covers the steps of the research process: articulating a question, developing a methodology, conducting a study, and reporting on findings.

COMM 486A Workplace Learning in Communication Studies (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

COMM 486B Workplace Learning in Communication Studies (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

COMM 492 Grant and Proposal Writing (3)
(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112 or equivalent. An advanced study of technical writing, focusing on composing competitive proposals in response to Requests for Proposal (RFPs) and other funding solicitations from the federal government and community and private sources. The aim is to apply skills needed in the proposal development process; assess an RFP to determine evaluation and competitive criteria; and synthesize the required elements into a successful proposal. Discussion covers stages of the proposal-development process, including researching the funding agency for its mission, target populations, and problems of interest; assessing the RFP to determine evaluation criteria; and assembling the required elements of a successful proposal. Assignments include writing a grant request and working in teams to prepare a competitive business proposal. Students may receive
credit for only one of the following courses: COMM 492, ENGL 489C, or WRTG 494.

**COMM 495 Senior Seminar in Communication Studies (3)**
(Intended as a final, capstone course to be taken in a student’s last 15 credits.) Prerequisites: COMM 300, COMM 302, and at least 9 additional credits of upper-level COMM, SPCH and/or JOUR courses. Recommended: COMM 390. A project-based capstone study of communication. The aim is to reflect on the knowledge and skills gained through previous coursework and experiences in the discipline.

## Computer and Information Science

### CMIS 102 Introduction to Problem Solving and Algorithm Design (3)
A study of techniques for finding solutions to problems through structured programming and stepwise refinement. The objective is to design programs using pseudocode and implement them in an appropriate programming language. Hands-on practice in debugging, testing, and documenting is provided. Topics include principles of programming, the logic of constructing a computer program, and the practical aspects of integrating program modules into a cohesive application. Algorithms are used to demonstrate programming as an approach to problem solving. Students may receive credit for only one of the following courses: CMIS 102, CMIS 102A, or CMSC 101.

### CMIS 111 Social Networking and Cybersecurity Best Practices (3)
A hands-on study of current social networking applications and approaches to protect against cyber attacks and enhance personal cybersecurity. The goal is to collaborate and interact through personal and professional social networking while developing and using computer security best practices. Discussion covers issues associated with the impact of social computing on individuals and society. Projects include creating and maintaining accounts on selected social networking sites.

### CMIS 141 Introductory Programming (3)
(Not open to students who have taken CMIS 340. The first in a sequence of courses in Java.) Prerequisite: CMIS 102 or prior programming experience. Recommended: MATH 107. A study of structured and object-oriented programming using the Java language. The goal is to design, implement, test, debug, and document Java programs, using appropriate development tools. Projects require the use of algorithms, simple data structures, and object-oriented concepts. Students may receive credit for only one of the following courses: CMIS 141, CMIS 141A, or CMSC 130.

### CMIS 242 Intermediate Programming (3)
Prerequisite: CMIS 141. Further study of the Java programming language. The objective is to design, implement, test, debug, and document Java programs, using appropriate development tools. Topics include object-oriented design, event-driven programming, exceptions, recursion, arrays, and data structures.

### CMIS 310 Computer Systems and Architecture (3)
(Not open to students who have completed CMSC 311.) Prerequisite: CMIS 115, CMIS 125, or CMIS 141. A study of the fundamental concepts of computer architecture and factors that influence the performance of a system. The aim is to apply practical skills to computer systems architecture. Topics include data representation, assembly language, central processing unit architecture, memory architecture, and input/output (I/O) architecture.

### CMIS 320 Relational Database Concepts and Applications (3)
Prerequisite: CMIS 102 or CMIS 141. A study of the functions, underlying concepts, and applications of enterprise relational database management systems (RDBMS) in a business environment. The aim is to appropriately use databases to meet business requirements. Discussion covers entity/relationship diagrams, relational theory, normalization, integrity constraints, the Structured Query Language (SQL), and physical and logical design. Business case studies and projects include hands-on work using an industry-standard RDBMS. Students may receive credit for only one of the following courses: CMIS 270, CMIS 310, CMSC 311, or IFSM 310.

### CMIS 330 Software Engineering Principles and Techniques (3)
Prerequisite: CMIS 115, CMIS 125, or CMIS 141. A study of software engineering from initial concept through design, development, testing, and maintenance of the product. Discussion covers software development life-cycle models. The goal is to analyze, customize, and document multiple processes to solve information technology problems. Topics include configuration management, quality, validation and verification, security, human factors, and organizational structures. Students may receive credit for only one of the following courses: CMIS 320 or IFSM 410.

### CMIS 420 Advanced Relational Database Concepts and Applications (3)
Prerequisite: CMIS 320, IFSM 410, or IFSM 411. A comprehensive study of the features and techniques of relational database management appropriate to the advanced end user, database designer, or database administrator. The goal is to complete hands-on work using an industry-standard enterprise relational
database management system. Topics include basic database administration functions, advanced SQL and complex data types, stored procedures, user-defined functions, triggers, and data warehousing. Students may receive credit for only one of the following courses: CMIS 420, IFSM 420, or IFSM 498I.

CMIS 440 Advanced Programming in Java (3)
Prerequisites: CMIS 242 and CMIS 320. An exploration of advanced Java programming, using the Java Enterprise edition. The objective is to analyze, design, develop, test, deploy, and document small- to medium-scale web applications. Hands-on projects in Java server pages, servlets, and Java database connectivity are included. Students may receive credit for only one of the following courses: CMIS 440 or CMIS 498A.

CMIS 486A Workplace Learning in Computer and Information Science (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMIS 486B Workplace Learning in Computer and Information Science (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMIS 498 Special Topics in Computer and Information Science (3)
Prerequisites: Vary according to topic. A seminar on topics in computer and information science. May be repeated to a maximum of 6 credits when topics differ.

Computer Information Technology

Courses in computer information technology (designated CMIT) have higher computing requirements than the minimum technical requirements stated on p. 23. They require an Intel Core i7 processor or higher, with speeds of 2GHz or faster, at least 6GB of available disk space, and at least 16GB RAM (32GB recommended). Display devices should have a resolution of 1920 X 1080 or better (PCs) or 1440 X 900 retina display (Mac).

CMIT 202 Fundamentals of Computer Troubleshooting (3)
(Designed to help prepare for the CompTIA A+ exams.) Prerequisite: IFSM 201. A thorough review of computer hardware and software, with emphasis on the application of current and appropriate computing safety and environmental practices. The goal is to evaluate, install, configure, maintain, and troubleshoot computer hardware components and operating systems.

CMIT 265 Fundamentals of Networking (3)
(Designed to help prepare for the CompTIA Network+ certification exam.) Prerequisite: IFSM 201. An introduction to networking technologies for local area networks, wide area networks, and wireless networks. The aim is to recognize the type of network design appropriate for a given scenario. Topics include the OSI (open system interconnection) model, security, and networking protocols. Students may receive credit for only one of the following courses: CMIT 265 or CMIT 265M.

CMIT 291 Introduction to Linux (3)
(Designed to help prepare for the Linux Professional Institute Certification 1 [LPIC-1] and the CompTIA Linux+ certification exams.) Prerequisite: CMIT 202. A study of the Linux operating system. The goal is to configure and manage processes, user interfaces, device files, print facilities, file systems, task automation, the boot-up/shutdown sequence, disk storage, network connectivity, system security, and users and groups. Students may receive credit for only one of the following courses: CMIT 291, CMIS 390, CMIT 391, or CMIS 398U.

CMIT 320 Network Security (3)
(Designed to help prepare for the CompTIA Security+ exam.) Prerequisite: CMIT 265, CSIA 302, or CompTIA Network+ certification. A study of the fundamental concepts of computer security and its implementation. The aim is to assess and mitigate risk, evaluate and select appropriate technologies, and apply proper security safeguards.

CMIT 321 Ethical Hacking (3)
(Formerly CMIT 398E. Designed to help prepare for the EC-Council Certified Ethical Hacker certifications.) Prerequisite: CMIT 320. Development of the structured knowledge base needed to discover vulnerabilities and recommend solutions for tightening network security and protecting data from potential attackers. Focus is on penetration-testing tools and techniques to protect computer networks. Students may receive credit for only one of the following courses: CMIT 321 or CMIT 398E.

CMIT 326 Cloud Technologies (3)
(Designed to help prepare for the CompTIA Cloud+ and AWS Certified Cloud Practitioner certification exams.) Prerequisite: IFSM 201. A hands-on study of basic cloud technologies. The aim is to apply the techniques and tools used in cloud environments,
especially the AWS (Amazon Web Services) cloud. Topics include the global infrastructure of the cloud, deployment and operation in various cloud environments, high availability, scalability, elasticity, security, and troubleshooting. AWS, Microsoft Azure, and Google Cloud are compared.

CMIT 336 Fundamentals of Microsoft Azure (3)
(Designed to help prepare for Exam AZ-900: Microsoft Azure Fundamentals.) Prerequisite: CMIT 326. A hands-on study of Microsoft Azure services. The aim is to demonstrate mastery of cloud concepts; the core services used in Azure; pricing and support models used for Azure; and fundamentals of cloud security, privacy, compliance, and trust for Microsoft Azure. Topics include high availability, scalability, agility, fault tolerance, and disaster recovery in the Microsoft Azure environment.

CMIT 350 Interconnecting Cisco Devices (3)
(Designed to help prepare for the Cisco Certified Network Associate [CCNA] certification examination.) Prerequisite: CMIT 265. A hands-on introduction to Cisco internetworking devices. The goal is to configure and manage Cisco switches within multiprotocol internetworks. Topics include VoIP (Voice over Internet Protocol), wireless network protocols, and routing protocols. Students may receive credit for only one of the following courses: CAPP 498E, CMIT 350, or CMIT 499D.

CMIT 351 Switching, Routing, and Wireless Essentials (3)
(Designed to help prepare for the Cisco Certified Network Associate [CCNA] certification examination. Course completion earns a Cisco-issued digital badge on the Acclaim credentials platform.) Prerequisite: CMIT 265. A hands-on introduction to Cisco internetworking devices. Focus is on switching technologies and router operations that support small-to-medium business networks, including wireless local area networks (WLAN) and security concepts. The goal is to perform basic network configuration and troubleshooting, identify and mitigate LAN security threats, and configure and secure a basic WLAN. Students may receive credit for only one of the following courses: CAPP 498E, CMIT 350, or CMIT 499D.

CMIT 352 Enterprise Networking, Security, and Automation (3)
(Designed to help prepare for the Cisco Certified Network Associate [CCNA] certification examination. Course completion earns a Cisco-issued digital badge on the Acclaim credentials platform.) Prerequisite: CMIT 351. A hands-on introduction to Cisco internetworking devices. Focus is on the architectures and considerations related to designing, securing, operating, and troubleshooting enterprise networks. Topics include wide area network (WAN) technologies and quality of service (QoS) mechanisms used for secure remote access along with the introduction of software-defined networking, virtualization, and automation concepts that support the digitalization of networks. Students may receive credit for only one of the following courses: CAPP 498E, CMIT 350, CMIT 352, or CMIT 499D.

CMIT 380 Managing Modern Microsoft Desktops (3)
(Designed to help prepare for the Microsoft 365 Certified: Modern Desktop Administrator Associate certification examination.) Prerequisites: CMIT 202 and CMIT 380. An introduction to installing, supporting, and configuring Windows 10 desktops in an organizational environment. The aim is to learn to install, customize, and update the Windows 10 Operating Systems (OS), including managing storage, files, and devices; gain knowledge on securing data and the Windows 10 OS; and learn how to troubleshoot Windows 10. Students may receive credit for only one of the following courses: CMIT 370 or CMIT 380.

CMIT 382 Managing Microsoft 365 Identity (3)
(Designed to help prepare for the Microsoft 365 Certified: Enterprise Administrator Expert certification examination.) Prerequisites: CMIT 320 and CMIT 380. An introduction to Microsoft 365 identity and services. The aim is to demonstrate the ability to design and implement Microsoft 365 services; manage user identity and roles, as well as access and authentication; and plan Microsoft 365 workloads and applications. Students may receive credit for only one of the following courses: CMIT 371 or CMIT 382.

CMIT 386 Penetration Testing and Cyber Red Teaming (3)
(Designed to help prepare for the CompTIA PenTest+ certification exam.) Prerequisite: CMIT 321. Recommended: CMIT 291, CMIT 391, or the CompTIA Linux+ or Linux Professional Institute LPIC-1 certifications. An introduction to the concepts and skills necessary to perform penetration testing and red teeming. The goal is to use penetration testing techniques focused on the Penetration Testing Execution Standard (PTES)—including preengagement interactions, intelligence gathering, threat modeling, vulnerability analysis, exploitation, postexploitation, and reporting—to perform a penetration test and present findings to management. Topics include overview of tools such as KALI Linux and the Metasploit Framework that can be used for penetration testing and strategies for red teeming.

CMIT 388 Red Hat Linux System Administration I (3)
(Designed to help prepare for the Red Hat Certified System Administrator [RHCSA] certification exam.) Prerequisite: CMIT 291 or CMIT 391. Development of the key foundational skills needed by an RHCSA-certified Red Hat Enterprise Linux system administrator. Focus is on the knowledge, skills, and abilities needed to become a Linux systems expert or Linux system administrator. Discussion covers advanced command line concepts and enterprise-level tools intended for cybersecurity professionals who need to perform essential Linux administration tasks, includ-
ing installation, configuring networking connectivity, managing physical storage, automation/programmability, and performing security administration tasks.

**CMIT 420 Managing Security on Modern Microsoft Desktops (3)**

(Designed to help prepare for the Microsoft 365 Certified: Modern Desktop Administrator Associate certification examination.) Prerequisite: CMIT 380. An introduction to implementation of a Windows 10 operating system strategy using modern deployment methods and an update strategy. Focus is on methods for deploying and managing apps and browser-based applications. Key concepts include security issues in modern management, such as authentication, identity, access, and compliance policies. Discussion also covers Azure Active Directory, Azure Information Protection, and Windows Defender Advanced Threat Protection, as well as ways to leverage these technologies to protect devices and data. Students may receive credit for only one of the following courses: CMIT 372 or CMIT 420.

**CMIT 421 Threat Management and Vulnerability Assessment (3)**

(Designed to help prepare for CompTIA Cybersecurity Analyst (CySA+) certification.) Prerequisite: CMIT 320. A study of the analysis of data in threat and vulnerability management. The goal is to properly utilize various cybersecurity tools and technologies. Discussion covers the analysis of threats and the impact on incident response, as well as the tools and equipment used in a forensic investigation. Various industry and government frameworks and regulatory compliance are highlighted.

**CMIT 422 Managing Microsoft 365 Security (3)**

(Designed to help prepare for the Microsoft 365 Certified: Enterprise Administrator Expert certification examination.) Prerequisites: CMIT 320 and CMIT 382. A study of the three key components of Microsoft 365 services: Microsoft 365 security management, Microsoft 365 compliance management, and Microsoft 365 device management. Examination covers threat vectors and data breaches facing today’s organizations and key elements of compliance management, such as data governance, data archiving and retention, and data loss prevention. The aim is to gain knowledge in managing all aspects of device management, including comanagement, Windows Autopilot, Windows Analytics, and Mobile Device Management. Students may receive credit for only one of the following courses: CMIT 373 or CMIT 422.

**CMIT 424 Digital Forensics Analysis and Application (3)**

(Designed to help prepare for the Certified Computer Examiner [CCE] certification exam.) Prerequisites: Either CMIT 202 (or CompTIA A+ certification) and CCJS 421 or CMIT 202, CMIT 320 (or CompTIA Security+ certification), and CCJS 321. A project-driven study of the digital forensic evaluation process. The objective is to build forensic workstations, collect evidence, extract artifacts, identify unknown files, and reassemble evidence from network packet captures.

**CMIT 425 Advanced Information Systems Security (3)**

(Formerly CMIT 499S. Designed to help prepare for the (ISC)2 Certified Information System Security Professional [CISSP] certification exam.) Prerequisite: CMIT 320 or CompTIA Network+ and Security+ certifications. Recommended: BMGT 110, IFSM 300, or two years of business and management experience. A comprehensive study of information systems security to enhance organizational security. The goal is to manage risks by identifying and mitigating them. Students may receive credit for only one of the following courses: CMIT 425 or CMIT 499S.

**CMIT 426 Mastering the AWS Cloud (3)**

(Designed to help prepare for the AWS Certified Solutions Architect Associate exam.) Prerequisite: CMIT 326. A hands-on study of Amazon Web Services (AWS). The goal is to understand the computing, networking, storage, and database services in AWS, apply best practices in building secure and reliable applications in the AWS cloud environment; and identify the appropriate AWS service to meet an organization’s technical requirements.

**CMIT 436 Security in the Cloud (3)**

(Designed to help prepare for the (ISC)2 Certified Cloud Security Professional exam.) Prerequisite: CMIT 326. A hands-on study of cybersecurity and means for securing critical assets in cloud environments. The goal is to apply the principles of confidentiality, integrity, and availability (CIA) of digital resources in cloud environments.

**CMIT 440 Mobile Forensics (3)**

(Designed to help prepare for the IACIS Certified Mobile Device Examiner [ICMDE] certification exam.) Prerequisite: CMIT 424. A project-driven study of mobile devices from a forensic perspective. The aim is to implement various techniques to collect and analyze information from mobile devices used in forensic investigations.

**CMIT 445 Implementing and Operating Cisco Enterprise Network Core Technologies (3)**

(Designed to help prepare for the Cisco Certified Network Professional [CCNP] Implementing and Operating Cisco Enterprise Network Core Technologies [ENCOR] certification examination. Course completion earns a Cisco-issued Networking Academy badge on the Acclaim credentials platform.) Prerequisite: CMIT 350 or CMIT 352. A comprehensive study designed to broaden the architectural understanding and deepen the implementation
skills required in today’s enterprise networks. Discussion covers switching, routing, wireless, and related security topics, along with the technologies that support software-defined programmable networks. Students may receive credit for only one of the following courses: CMIT 451 or CMIT 455.

CMIT 456 Implementing Cisco Enterprise Advance Routing and Services (3)
(Designed to help prepare for the Cisco Certified Network Professional [CCNP] Implementing Cisco Enterprise Advanced Routing and Services [ENARSI] certification examination. Course completion earns a Cisco-issued Networking Academy badge on the Acclaim credentials platform.) Prerequisite: CMIT 455. Development of the architectural understanding and implementation skills required in today’s enterprise networks. The aim is to implement and troubleshoot advanced routing technologies and services including Layer 3, VPN services, infrastructure security, infrastructure services, and infrastructure automation. Students may receive credit for only one of the following courses: CMIT 452 or CMIT 456.

CMIT 460 Network Forensics (3)
(Designed to help prepare for the Computer Security Incident Handler [CSIH] certification.) Prerequisites: CMIT 320, CMIT 350, CMIT 369, and CMIT 424. A project-driven study of networks from a forensics perspective. The goal is to implement various techniques that are used in forensic investigations in response to network intrusions to collect and analyze information from computer networks.

CMIT 486A Workplace Learning in Computer Information Technology (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMIT 486B Workplace Learning in Computer Information Technology (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMIT 495 Current Trends and Projects in Computer Networks and Cybersecurity (3)
(Intended as a final capstone course to be taken in a student’s last 9 credits.) Prerequisites: CMIT 320, CMIT 326 (or CMIT 368 or CMIT 369), CMIT 351 (or CMIT 350), and an additional 15 credits in CMIT coursework. A comprehensive project-driven study of network design and security, with an emphasis on the integration of knowledge, practical applications, and critical thinking. The objective is to implement a secure and scalable network to meet organizational needs. Topics include advanced concepts in network and security design.

CMIT 499 Special Topics in Computer Networks and Security (1–5)
An inquiry into special topics in computer networks and security that reflect the changing field. May be repeated when topics differ.

Computer Science

CMSC 150 Introduction to Discrete Structures (3)
Prerequisite or corequisite: MATH 140. A survey of fundamental mathematical concepts relevant to computer science. The objective is to address problems in computer science. Proof techniques presented are those used for modeling and solving problems in computer science. Discussion covers functions, relations, infinite sets, and propositional logic. Topics also include graphs and trees, as well as selected applications. Students may receive credit for only one of the following courses: CMSC 150 or CMSC 250.

CMSC 307 Artificial Intelligence Applications (3)
(No programming or math background required.) An interactive, hands-on study of current artificial intelligence (AI) applications spanning multiple disciplines and domains, including business, science, communications, and computing. The goal is to use data-sets with AI and machine learning applications from leading cloud vendors, including Amazon and Microsoft. Projects and laboratory exercises demonstrate how AI can be used to solve problems across a wide variety of disciplines.

CMSC 325 Game Design and Development (3)
Prerequisite: CMSC 230 or CMIS 242. A project-driven study of the theory and practice of game design and development. The aim is to build realistic graphical 3D worlds, animate characters, and add special effects to games. Discussion covers critical mathematical concepts and real-time game physics. Projects include collaborative development of interactive games.

CMSC 330 Advanced Programming Languages (3)
Prerequisite: CMSC 230 or CMSC 350. A comparative study of programming languages. The aim is to write safe and secure computer programs. Topics include the syntax and semantics of programming languages and run-time support required for various programming languages. Programming projects using selected languages are required.
CMSC 335 Object-Oriented and Concurrent Programming (3)
Prerequisite: CMSC 230 or CMSC 350. A study of object-oriented and concurrent programming using features of Java. The goal is to design, implement, test, debug, and document complex robust programs in an object-oriented language. Concepts of object-oriented programming (such as composition, classification, and polymorphism) are explored. Topics include the principles of concurrent programming (such as task synchronization, race conditions, deadlock, threads, and event-driven graphic user interface programs). Programming projects are implemented in Java. Students may receive credit for only one of the following courses: CMSC 300 or CMSC 335.

CMSC 350 Data Structures and Analysis (3)
Prerequisite: CMIS 242. A study of user-defined data structures and object-oriented design in computer science. The aim is to develop secure Java programs. Topics include linked lists, stacks, queues, arrays, maps, vectors, and trees. Algorithms that perform sorting, searching, and recursion are discussed and analyzed.

CMSC 405 Computer Graphics (3)
Prerequisite: CMSC 325 or CMSC 350. A hands-on, project-based introduction to computer graphics. The goal is to develop projects that render graphic images and animate three-dimensional objects. Topics include programming in OpenGL and transforming, viewing, and modeling 2D and 3D objects.

CMSC 412 Operating Systems (3)
Prerequisite: CMIS 310 or CMSC 311. A study of the fundamental principles underlying modern operating systems. The objective is to design and implement a small-scale operating system and design a virtual memory management system. Discussion covers the essential components of a typical operating system and the interactions among them. Topics also include methods of managing processes and resources in computer systems. A programming project that implements part of an operating system is required.

CMSC 427 Artificial Intelligence Foundations (3)
Prerequisite: SDEV 300. A study of the theoretical foundations and practical applications of artificial intelligence. The objective is to develop algorithms and systems to demonstrate intelligent behavior. Topics include intelligent agents, searching algorithms, knowledge representation, probability, logic, and learning.

CMSC 430 Compiler Theory and Design (3)
Prerequisites: CMSC 330 and programming experience in C or C++. An examination of the formal translation of programming languages, syntax, and semantics. The goal is to write programs that are constructed using program generators. Topics include evaluation of finite-state grammars and recognizers; context-free parsing techniques, such as recursive descent, precedence, LL(K), LR(K), and SLR(K); and improvement and generation of machine-independent code and syntax-directed translation schema. Programming projects that implement parts of a compiler are required.

CMSC 451 Design and Analysis of Computer Algorithms (3)
Prerequisites: CMSC 150 and CMSC 350 (or CMSC 230). A presentation of fundamental techniques for designing and analyzing computer algorithms. The aim is to apply big-O estimates of algorithms and proof-of-correctness techniques and to design algorithms. Basic methods include divide-and-conquer techniques, search and traversal techniques, dynamic programming, greedy methods, and induction. Programming projects are included.

CMSC 465 Image and Signal Processing (3)
Prerequisites: MATH 141 and CMSC 350. A project-driven study of image and signal processing. The goal is to apply spectral analysis techniques to analyze time series data for the purpose of recognizing and classifying signals and to apply image segmentation, representation, and description techniques to recognize and classify objects. Topics include discrete Fourier transforms, fast Fourier transforms, sampling and filtering, and image transformations and enhancements.

CMSC 486A Workplace Learning in Computer Science (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMSC 486B Workplace Learning in Computer Science (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMSC 495 Current Trends and Projects in Computer Science (3)
(Intended as a final, capstone course to be taken in a student’s last 9 credits.) Prerequisite(s): CMSC 330 and CMSC 335, CMIS 320 and CMIS 330, or SDEV 425. An overview of computer technologies, with an emphasis on integration of concepts, practical
application, and critical thinking. The goal is to research, plan, conduct, and complete collaborative computer-related projects in compliance with schedule deadlines. Analysis covers innovative and emerging issues in computer science. Assignments include working in teams throughout the analysis, design, development, implementation, testing, and documentation phases of the projects, including periodic peer reviews.

CMSC 498 Special Topics in Computer Science (1–3)
Prerequisites: Vary according to topic. A seminar on topics in computer science. May be repeated to a maximum of 6 credits when topics differ.

**Computer Studies**

CMST 100B Word Processing (1)
(Not open to students who have completed CMST 303.) An introduction to word processing. The goal is to use word processing applications effectively to produce professional documents for business and personal communication. Topics include creating, formatting, and editing word-processing documents. Hands-on practice with industry-standard word-processing software is provided. Students may receive credit for only one of the following courses: CAPP 100B, CAPP 103, CMST 100B, or CMST 103.

CMST 100D Presentation Graphics (1)
(Not open to students who have completed CMST 303.) An introduction to the principles of presentation graphics. The goal is to use presentation graphics applications effectively to produce electronic presentations for professional and personal communication. Topics include planning and creating effective presentations. Hands-on practice with industry-standard presentation graphics software is provided. Students may receive credit for only one of the following courses: CAPP 100D, CAPP 103, CMST 100D, or CMST 103.

CMST 100F Database Applications (1)
(Not open to students who have completed CMST 303.) An introduction to database systems, their terminology, and the principles of database management. The goal is to use database management applications effectively to create professional databases. Topics include how to best organize, manage, and access stored data; how to protect databases; and how to extract useful information. Hands-on practice with industry-standard database software is provided. Students may receive credit for only one of the following courses: CAPP 100F, CAPP 103, CMST 100F, or CMST 103.

CMST 100G Spreadsheet Applications (1)
(Not open to students who have completed CMST 303.) An introduction to the use of electronic spreadsheets to analyze numerical data, including basic terminology, formats, and other applications. The goal is to use spreadsheet applications to produce professional electronic spreadsheets effectively for business and personal use. Hands-on practice with industry-standard spreadsheet software is provided. Students may receive credit for only one of the following courses: CAPP 100G, CMST 100G, CAPP 103, or CMST 103.

CMST 290 Introduction to Interactive Design (3)
An introduction to the principles, practices, techniques, and theories that govern the use of scripting and programming languages in the design and development of interactive digital media. The objective is to effectively use proven scripting and programming theory to support digital media design for print, web, and mobile devices. Projects involve modifying existing scripting languages and HTML code as well as conducting a usability review.

CMST 295 Fundamentals of Digital Design (3)
An overview of the principles, practices, techniques, and theories that govern web and digital design. The goal is to effectively follow proven design theory in creating digital design for print, web, and mobile devices. Topics include usability, accessibility, ethics, extended reality, and emerging technologies. Career paths in the web and digital design industry are analyzed.

CMST 301 Digital Media and Society (3)
A survey of technological advancements in the field of digital media and their impact. The objective is to explain how digital media has transformed the communication of ideas in society and to make responsible choices in the creation and consumption of digital media based on awareness of global, social, ethical, and legal contexts. Topics include social media, the visual display of information, ethics and privacy, participatory media, and the impact of digital media on culture.

CMST 303 Advanced Application Software (3)
Prerequisite: Extensive experience with office application software, including word processing, spreadsheet, presentation, and database programs. A hands-on, project-based survey of advanced features of office application software. The aim is to use advanced application features to produce documents for professional and personal communication. Topics include information systems, application integration, computer hardware and software, storage, and networking. Students may receive credit for only one of the following courses: CAPP 303 or CMST 303.

CMST 308 User Experience and Interface Design (3)
A hands-on, project-based introduction to user experience (UX) and interface design (ID), including design thinking and the basic practices of user experience, interface, and interaction design. Focus is on a systematic, user-centric, data-driven design process that includes research, concept generation, prototyping, and refinement. The goal is to evaluate user interfaces and create a
working prototype using industry-standard techniques guided by usability data. Topics include human/computer interaction, measurement and evaluation of interface quality, user research, wireframing, prototyping, designing virtual experiences, storyboarding, and career paths.

CMST 310 Fundamentals of Electronic Publishing (3)
Recommended: CMST 295. A hands-on, project-based introduction to the tools, concepts, processes, and methods of electronic (desktop) publishing. The aim is to use Adobe InDesign (or another professional electronic publishing software program) to create electronic publications for various media formats following fundamental design principles. Topics include the history and evolution of publishing, working with color, incorporating graphics, principles and elements of design, publication workflow, emerging technologies, careers in the field, ethical and legal considerations, and collaborative design. Students may receive credit for only one of the following courses: CAPP 310, CAPP 398B, or CMST 310.

CMST 311 Advanced Electronic Publishing (3)
Prerequisite: CMST 310. A hands-on, project-based study of the advanced concepts, tools, processes, and methods of electronic (desktop) publishing. The goal is to use Adobe InDesign to create engaging electronic publications following fundamental design principles for print, online, and mobile devices. Topics include motion and interactivity, PDF (portable document format) publishing, emerging technologies, design issues related to mobile devices, ethical and legal considerations, collaborative work, and print and web-ready files. Students may receive credit for only one of the following courses: CAPP 310 or CMST 311.

CMST 315 Game Design I (3)
A hands-on, project-based introduction to 3D video game design and programming fundamentals. The aim is to use an industry standard 3D game engine to create a game from concept to final product. Topics include 3D game engines, 3D game design, gameplay mechanics, sound effects, C# programming, project management, 3D physics, and user interface design.

CMST 320 Illustration Graphics (3)
Recommended: CMST 295. A hands-on, project-based introduction to illustration graphics using Adobe Illustrator. The goal is to apply fundamental concepts of vector–image composition to create professional digital media for delivery across multiple platforms, including print, web, and video, following ethical principles and legal guidelines. Topics include terminology, tools, theory, and processes from concept to completion. Discussion covers Bezier curves, shading, depth, paths, drawing tools, vector vs. raster images, and color theory.

CMST 325 Image Editing (3)
An introduction to digital image editing using Adobe Photoshop. The aim is to identify established digital image editing tools, techniques, and best practices; create new images; and edit existing images. Topics include terminology, tools, theory, and processes from concept to completion. Discussion covers fundamental concepts and practical techniques, as well as ethical and legal issues. Emphasis is on applying these concepts and techniques to produce high-quality digital works for multiple platforms, including print, web, and other electronic media.

CMST 330 Virtual Reality Design I (3)
Prerequisites: CMST 308 and CMST 315. A hands-on, project-based introduction to the theories, best practices, aesthetics, techniques, and workflows used to create immersive virtual reality. The goal is to develop, test, and deploy virtual reality experiences following design theory and industry-standard best practices. Topics include human perception, 3D modeling, game design, design considerations, limitations, storytelling, mobile app development, and 360-degree video.

CMST 331 Augmented Reality Design I (3)
Prerequisites: CMST 308 and CMST 315. A hands-on, project-based introduction to the theories, best practices, aesthetics, techniques, and workflows used to create immersive augmented reality (AR). The goal is to develop, test, and deploy augmented reality experiences following design theory and industry-standard best practices. Topics include human-computer interaction and user experience, design principles, 3D modeling, game design, storytelling, and augmented reality application development.

CMST 341 Principles of Multimedia I (3)
Recommended: CMST 290 and CMST 295. A hands-on, project-based introduction to multimedia development. The aim is to create interactive products that integrate images, sound, video, and animation following sound media design principles for optimal display in multiple media formats using Adobe Animate. Topics include storyboarding, web design, animation, motion-tweening, project management, and ethical design.

CMST 351 Motion Graphics I (3)
Prerequisites: CMST 320 and CMST 325. A hands-on introduction to the basic concepts, techniques, and principles of digital video and motion graphics effects using Adobe After Effects. The objective is to describe digital video compositing techniques; create digital composites that combine video, text, digital images, and audio; and apply visual special effects to create professional results for use on multiple platforms, such as film, video, multimedia, and the web. Topics include techniques such as basic storyboarding, key framing, transformations, and rendering, as well as effects (including levels, curves, color correction, blur, glow, fractal noise, keying, masking, and cartoon effects).

CMST 385 Principles of Web Design and Technology I (3)
Prerequisite: CMST 290. Recommended: CMST 295. A study of web design, tools, and technology principles. The goal is to plan
and produce a professional website. Topics include internet protocols; usability; accessibility; and social, ethical, and legal issues related to website production. Focus is on hypertext markup language version 5 (HTML5) and cascading style sheets (CSS). Students may receive credit for only one of the following courses: CAPP 385 or CMST 385.

**CMST 386 Principles of Web Design and Technology II (3)**
Prerequisite: CMST 385. Continuation of the study of web design, tools, and technology principles. The objective is to create a website promotion strategy, with search engine optimization, and produce a professional website that incorporates multimedia and scripting. Topics include website marketing, performance, privacy, and security issues related to website production. Focus is on extensible hypertext markup language (XHTML), cascading style sheets (CSS), and JavaScript. Students may receive credit for only one of the following courses: CAPP 386 or CMST 386.

**CMST 388 Fundamentals of JavaScript (3)**
Prerequisite: CMST 386. Recommended: CMST 290. A hands-on, project-based study of JavaScript using a structured programming approach to build dynamic, interactive web pages. The goal is to use client-side JavaScript to create interactive, cross-browser-compatible web pages that minimize security and privacy vulnerabilities. Topics include form validation, web development tools, documentation, dynamic HTML, event handling, cross-browser compatibility, cookies, and security issues. Programming projects are included. Students may receive credit for only one of the following courses: CMST 388 or CMST 398J.

**CMST 425 Advanced Image Editing (3)**
Prerequisite: CMST 325. Continued hands-on, project-based study of digital image editing using Adobe Photoshop. The objective is to identify and apply advanced design concepts, adjustments, and batch-processing techniques to creating new images and editing existing ones. Topics include more advanced terminology, tools, considerations, and processes from concept to completion. Emphasis is on advanced concepts and practical techniques to create professional images for print, web, and other electronic media. Discussion also covers ethical and legal issues.

**CMST 450 Web Development Using XML (3)**
Prerequisite: CMST 386. A study of the concepts and techniques essential to web development. The aim is to create, validate, and transform data into multiple formats to create digital and web-based media. Topics include document creation, validation, transformation, and security principles. Focus is on extensible markup language (XML). Students may receive credit for only one of the following courses: CAPP 498D or CMST 450.

**CMST 486A Workplace Learning in Web and Digital Design (3)**
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**CMST 486B Workplace Learning in Web and Digital Design (6)**
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**CMST 488 Advanced JavaScript (3)**
Prerequisite: CMST 388. A hands-on, project-based study of web application development using advanced JavaScript technologies. The aim is to create cross-browser-compatible web applications that adhere to industry standards and minimize security risks. Topics include JavaScript libraries, user interfaces, accessibility, usability, and security. Web development projects using advanced JavaScript are included.

**CMST 495 Current Trends and Projects in Web and Digital Design (3)**
(Intended as a final, capstone course to be taken at the end of the student's program.) Prerequisites: CMST 290, CMST 295, and 15 credits in the major. An overview of current trends, technologies, theories, and practices in the web and digital design fields. The aim is to integrate concepts, practical application, and critical thinking acquired through previous study and apply them to professional and postgraduate objectives. Analysis covers innovative and emerging issues in web and digital design. Assignments include industry analysis, résumé design, and portfolio creation.

**Criminology/Criminal Justice**

**CCJS 100 Introduction to Criminal Justice (3)**
(Fulfills the general education requirement in behavioral and social sciences.) An introduction to the three primary components of the criminal justice system: law enforcement, courts, and corrections. The objective is to identify the components of the system, the practitioners within the system and their role in policy formation and implementation, and the major theoretical tenets of criminal behavior. Topics include community relations, the impact of criminal behavior, and the importance of research in the field of criminal justice.
**CCJS 101 Introduction to Investigative Forensics (3)**
A survey of the practical applications of forensic science. The aim is to learn to apply the scientific method to forensic evidence and distinguish between reality and popular misperceptions of the roles and importance of forensic science and its practitioners. Discussion covers the "CSI effect," the scientific method as it applies to forensic evidence, ethical practices, and legal aspects of the field. Topics include the definition of forensic science and how it has evolved, disciplines within the field, ethical codes, and case law.

**CCJS 105 Introduction to Criminology (3)**
(Fulfills the general education requirement in behavioral and social sciences.) An exploration of the nature and causes of crime and criminal behavior. Topics include what we rationally know about crime, theoretical explanations of criminal behavior, and how to conduct research to explore the nature and extent of crime and criminal behavior.

**CCJS 230 Criminal Law in Action (3)**
Prerequisite: CCJS 100. An exploration of how criminal cases are handled, including factors related to how a case is charged and criminal liability. Focus is on the substantive elements of criminal law and on the historical development of criminal law in the United States. Topics include the basic elements of and defenses to criminal liability, crimes against people, crimes against property, and the defenses and justifications commonly used to negate criminal responsibility.

**CCJS 234 Criminal Procedure and Evidence (3)**
A study of the general principles of criminal procedure. Emphasis is on the history and evolution of criminal procedure in the United States and the fundamental components of criminal procedure, including privacy, reasonableness, probable cause, search and seizure, search warrants, interrogations, and the trial process. Topics include the criminal justice process and the connections between the law, the criminal justice process, criminal procedure, and evidence.

**CCJS 301 Criminalistics I: The Comparative Disciplines (4)**
Prerequisite: CCJS 100, CCJS 101, or CCJS 105. Recommended: CCJS 234. An intensive study of the analysis of physical evidence in the crime laboratory, with practical laboratory exercises. The objective is to apply skills expected of an entry-level criminalist to the practical analysis of evidence in a criminal investigation. Topics include the applications of the scientific disciplines, including bloodstain pattern analysis, questioned document analysis, controlled dangerous substances analysis, and DNA analysis.

**CCJS 311 Intelligence-Led Policing (3)**
Prerequisite: CCJS 100. An examination of intelligence-related processes as they apply to domestic law enforcement. The aim is to identify, collect, and assess data and process that information into intelligence that can support strategic and tactical planning. Intelligence reports are reviewed and assessed. Discussion covers the legal and ethical licenses and constraints that provide a framework for intelligence development.

**CCJS 321 Digital Forensics in the Criminal Justice System (3)**
(For students not majoring in criminal justice; does not satisfy prerequisites for other criminal justice courses. This course is not open to students who have completed CCJS 421.) An overview of the criminal justice system and the application of digital forensic evidence in criminal justice cases. The objective is to apply Constitutional and caselaw to the search and seizure of digital evidence, determine the most effective and appropriate forensic response strategies to digital evidence, and provide effective courtroom testimony in a case involving digital evidence. Topics include crime scene procedures and the collection of digital evidence, procedures performed in a digital forensics lab, and the preparation of courtroom testimony by the digital forensic investigator.

**CCJS 340 Law Enforcement Administration (3)**
Prerequisite: CCJS 100. An introduction to organization and management in law enforcement. The objective is to communicate effectively and apply research skills and management and administrative principles to a law enforcement agency. Topics include structure, process, policy and procedure, communication and authority, division of work and organizational controls, the human element in the organization, and informal interaction in the context of bureaucracy. Students may receive credit for only one of the following courses: CCJS 340 or CJUS 340.

**CCJS 341 Criminal Investigation (3)**
Prerequisite: CCJS 100. Recommended: CCJS 230. An exploration of criminal investigation as it relates to the framework of the law that governs such investigations. Emphasis is on crime scene response, the collection and evaluation of crime scene evidence, the complexity of investigative interviews, and the application of current strategies and technology to further criminal investigations.
CCJS 342 Crime Scene Investigation (3)
Prerequisite: CCJS 100 or CCJS 105. Recommended: CCJS 234. An examination of the investigation of crime scenes. The objective is to apply skills expected of an entry-level professional in the investigative forensics field. Topics include the crime scene, crime scene documentation, evidence, and post-crime scene activities.

CCJS 345 Introduction to Security Management (3)
(Formerly CCJS 445.) Prerequisite: CCJS 100. A study of the history, concepts, principles, and methods of organizing and administering security management and loss prevention activities in industry, business, and government. The objective is to manage security duties, evaluate and apply risk management principles, and evaluate administrative and operational issues. Discussion covers both private and governmental risk assessment and management and the protection of assets, personnel, and facilities. Students may receive credit for only one of the following courses: CCJS 345, CCJS 445, or CCJS 498G.

CCJS 350 Juvenile Delinquency (3)
(Fulfills the general education requirement in behavioral and social sciences.) Prerequisite: CCJS 100. Recommended: CCJS 105. An examination of juvenile delinquency in relation to the general problem of crime. The aim is to apply theories and identify statutory parameters related to juvenile delinquency, analyze prevention measures, and assess the effectiveness of treatment measures. Topics include factors underlying juvenile delinquency, prevention of criminal acts by youths, and the treatment of delinquents. Students may receive credit for only one of the following courses: CCJS 350 or CRIM 450.

CCJS 352 Drugs and Crime (3)
Prerequisite: CCJS 100. An analysis of the role of criminal justice in controlling the use and abuse of drugs. The objective is to apply effective enforcement strategies, demonstrate case management skills, and analyze the effect of drug policy. Students may receive credit for only one of the following courses: CCJS 352 or CJUS 352.

CCJS 360 Victimology (3)
(Fulfills the general education requirement in behavioral and social sciences.) Prerequisite: CCJS 100. Recommended: CCJS 105. An overview of the history and theory of victimology in which patterns of victimization are analyzed, with emphasis on types of victims and of crimes. The aim is to identify and apply appropriate preventative measures and responses to victimization. Discussion covers the interaction between victims of crime and the system of criminal justice in terms of the role of the victim and the services that the victim is offered. Students may receive credit for only one of the following courses: CCJS 360 or CRIM 360.

CCJS 380 Ethical Behavior in Criminal Justice (3)
Prerequisite: CCJS 100. A survey of the standards for ethical behavior that guide criminal justice professionals in different roles and responsibilities. The aim is to make ethical decisions based on informed personal and accepted professional standards. Rules, laws, and codes of conduct are explored as a foundation for discussing individual ethical responsibilities.

CCJS 390 Cybercrime and Security (3)
Prerequisite: CCJS 321. An examination of crimes involving the use of computers. Topics include federal and state laws and investigative and preventive methods used to secure computers. Case studies emphasize security. Students may receive credit for only one of the following courses: CCJS 390, CCJS 496, or CCJS 498C.

CCJS 416 Analytical Strategies for Law Enforcement (3)
Prerequisite: CCJS 100 or CCJS 105. An examination of the authenticity, accuracy, viability, and reliability of intelligence reports as they relate to the application of intelligence to public safety problem solving. The goal is to evaluate intelligence reports to formulate plans, policies, and procedures that ensure effective and efficient agency operations. Focus is on developing critical thinking and problem-solving skills through role-playing in a simulated environment, working with near-genuine intelligence reports and public safety issues. Practice is provided in analyzing the strategies and activities detailed in intelligence reports, identifying and implementing responsive actions, and determining appropriate redistribution of such reports.

CCJS 420 Medical and Legal Investigations of Death (3)
Prerequisite: CCJS 100, CCJS 101, or CCJS 105. Recommended: CCJS 234. An intensive look at medical and legal investigations into causes of death. The objective is to perform investigative functions at a death scene, determine and apply forensic testing, and analyze and effectively communicate investigative information. Topics include the difference between the medical (or pathological) and legal (or criminal) components of investigations into causes of death, medical and investigative terminology, and the impact of ethics on prosecutions and convictions. Case studies illustrate practical applications of various forms of forensic styles and parameters.
CCJS 421 Principles of Digital Analysis (3)
Prerequisite: CCJS 321. A hands-on exploration of digital analysis based on the overarching principles of data integrity and search and comparison as they relate to digital evidence. Focus is on the data and forensic tools and methodologies used to explore these overarching principles critical to digital evidence and analysis. The comparison and correlation of digital artifacts provide a solid introduction to all facets of digital analysis.

CCJS 440 Fingerprint Analysis (3)
Prerequisite: CCJS 301. A comprehensive study of friction ridge analysis in fingerprints. Emphasis is on the practical analysis of evidence in a criminal investigation. The objective is to apply skills expected of an entry-level fingerprint professional, including assessing surfaces for viable latent fingerprints; evaluating how to process and collect latent fingerprints; analyzing, comparing, evaluating, and verifying fingerprint evidence; and conveying findings. Topics include processing and comparison methodologies, historical and biological foundations of impressions, and legal aspects.

CCJS 441 Firearms and Toolmarks Analysis (3)
Prerequisite: CCJS 301. A comprehensive study of toolmark evidence, including toolmarks imparted by firearms. Discussion covers the practical analysis of evidence in a criminal investigation. The aim is to assess toolmarks; examine, compare, evaluate, and verify firearm and toolmark evidence; and convey findings. Topics include comparison methodologies, historical and mechanical foundations of toolmarks, and legal aspects. Focus is on developing the foundational knowledge and applied skills expected of an entry-level professional in the firearms and toolmarks field.

CCJS 461 Psychology of Criminal Behavior (3)
Prerequisite: CCJS 100. Recommended: CCJS 105. An overview of delinquent and criminal behavior from a developmental, cognitive-behavioral perspective. The aim is to apply theoretical perspectives (behavioral, emotional, and cognitive) to analyze real or hypothetical criminal scenarios; to identify factors that encourage or discourage criminal behavior; and to explain the use of risk assessment tools at various stages of the criminal justice process. Factors that influence the development of adults and juveniles on the road to crime are examined to assess culpability for criminal behavior. Students may receive credit for only one of the following courses: CCJS 461 or CRIM 455.

CCJS 486A Workplace Learning in Criminal Justice (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CCJS 486B Workplace Learning in Criminal Justice (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CCJS 495 Issues in Criminal Justice (3)
(/intended as a final, capstone course for criminal justice degree majors; to be taken in a student’s last 15 credits). Prerequisites: CCJS 230, CCJS 340, CCJS 341, CCJS 345, and CCJS 380. An integrative study of the various components of the American criminal justice system. The goal is to apply principles of inter-agency cooperation, critical thinking, and systems approaches to solve practical problems in a criminal justice environment. Topics include problem solving, case study analysis, strategic planning, teamwork, and professional writing.

CCJS 497 Correctional Administration (3)
Prerequisites: CCJS 230, CCJS 340, CCJS 341, CCJS 345, and CCJS 380. An examination of prison administration, including theories of management and institutional structure and purpose. Objectives include the application of organizational concepts, leadership, and effective administrative approaches to the management of correctional institutions and offender populations. Emphasis is on concepts of organizational structure, communication, self-assessment, short- and long-term strategic operational planning, decision making, and human resources.

Cybersecurity and Information Assurance

CSIA 300 Cybersecurity for Leaders and Managers (3)
(Designed in part to help prepare for the EC-Council Secure Computer User [CSCU] certification.) Prerequisite: Any CMIS, CMIT, CMSC, CMST, CSIA, IFSM, or SDEV course. Recommended: IFSM 201. A survey of the cybersecurity principles, practices, and strategies required by leaders and managers to become strategic partners in the establishment, management, and governance of an enterprise's cybersecurity program. The aim is to develop both an understanding of how cybersecurity supports key business goals and objectives and the "soft skills" necessary for success in a leadership or managerial role. Topics include the fundamentals of cybersecurity practices and principles; enterprise IT governance processes and security controls; data security; the information life cycle; intellectual property protections; privacy laws and regulations; security education, training, and awareness; and the need for cooperation and collaboration between business units and the organization's cybersecurity program.)
CSIA 310 Cybersecurity Processes and Technologies (3)
(Includes content designed to help in preparing for EC-Council Certified Incident Handler [EICHI] certification.) Prerequisites: IFSM 201 and WRTG 112 or equivalent. A study of the processes and technologies used to implement and manage enterprise IT security operations. The goal is to apply and integrate cybersecurity concepts and best practices with the principles of IT operations and management and to prepare for a government- and industry-recognized intermediate-level cybersecurity certification (Certified Incident Handler). Topics include the essential management and operational activities (acquisition, deployment, and operations) required to secure IT technologies and business operations against a wide variety of threats and attacks.

CSIA 350 Cybersecurity in Business and Industry (3)
Prerequisites: CSIA 310 and WRTG 112 or equivalent. A study of the application and integration of cybersecurity principles, frameworks, standards, and best practices to the management, governance, and policy development processes for businesses. Discussion covers the organization, management, and governance of cybersecurity for enterprise IT in business settings; risk and risk management practices; and development and implementation of industry-wide cybersecurity initiatives and programs.

CSIA 360 Cybersecurity in Government Organizations (3)
Prerequisite: CSIA 350. A study of cybersecurity management and governance in the context of the missions, functions, and operations of federal, state, and municipal government agencies, departments, and programs. Discussion covers the policy life cycle and the mechanisms used by governments to formulate and implement laws, policies, regulations, and treaties to protect and defend government operations and society as a whole against cyber attacks and crimes, both foreign and domestic.

CSIA 413 Cybersecurity Policy, Plans, and Programs (3)
(Includes content designed to help in preparing for the IAPP Certified Information Privacy Professional/US certification exam.) Prerequisite: CSIA 360. A study of the application of cybersecurity principles, frameworks, standards, and best practices to organization-level strategies, policies, programs, plans, procedures, and processes. The aim is to prepare to take an internationally recognized information privacy certification exam. Projects include writing security policies and plans, developing metrics and measures for information security programs, planning audits of compliance practices and processes, and developing organization-level security policies for enterprise IT governance. Discussion covers principles and best practices for protecting privacy and ensuring compliance with laws and regulations.

CSIA 459 Evaluating Emerging Technologies (3)
Prerequisites: CMIT 320 and CSIA 350. A survey of emerging and leading technologies in the cybersecurity field. The aim is to research, evaluate, and recommend emerging technologies and determine secure implementation strategies for best-fit business solutions. Topics include evolutionary technology development and adoption in organizations.

CSIA 485 Practical Applications in Cybersecurity Management and Policy (3)
(Intended as a final, capstone course to be taken in a student’s last 6 credits; includes content designed to help in preparing for the EC-Council Certified Chief Information Security Officer [CCISO] and Information Security Manager [EISM] certification exams.) Prerequisites: CMIT 320 and CSIA 413. A study of cybersecurity management and policy that integrates knowledge gained from previous coursework and experience. Focus is on developing security strategies, plans, policies, and processes for the protection of an organization’s critical information and assets. The goal is to enhance professional skills in cybersecurity management and leadership. Topics also include the ethical integration of cybersecurity best practices and risk management throughout an enterprise.

CSIA 486A Workplace Learning in Cybersecurity (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CSIA 486B Workplace Learning in Cybersecurity (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

Data Science
Courses in data analytics (except DATA 200, DATA 300, DATA 320, and DATA 335) have higher computing requirements than the minimum technical requirements stated on p. 23. They require an Intel Core i7 processor or higher, with speeds of 2GHz and at least 8GB RAM (16GB recommended).

DATA 200 Data Literacy Foundations (3)
An introduction to data and data literacy designed to enhance one’s ability to understand and work in today’s data-driven world. The aim is to collect, manage, evaluate, and apply data in a critical manner and examine the role, significance, and implications of data, including ethical issues within a society, in organizations, or for individuals. Focus is on developing skills in data manipulation, analysis, and visualization to generate insights from data, build
knowledge, and make decisions. Topics include the effective use of cloud-based data storage, collaboration, and communication techniques.

DATA 300 Foundations of Data Science (3)
Prerequisite: STAT 200. An examination of the role of data science within business and society. The goal is to identify a problem, collect and analyze data, select the most appropriate analytical methodology based on the context of the business problem, build a model, and understand the feedback after model deployment. Emphasis is on the process of acquiring, cleaning, exploring, analyzing, and communicating data obtained from a variety of sources. Assignments require working with data in programming languages such as Python, wrangling data programmatically and preparing data for analysis, and using libraries like NumPy and Pandas.

DATA 320 Introduction to Data Analytics (3)
(Formerly DATA 220.) Prerequisite: STAT 200. A practical introduction to the methodology, practices, and requirements of data science to ensure that data is relevant and properly manipulated to solve problems and address a variety of real-world projects and business scenarios. Focus is on the foundational statistical concepts applied to describing data sets with summary statistics, simple data visualizations, statistical inference, and predictive analytics. The objective is to use data to draw conclusions about the underlying patterns that drive everyday problems through probability, hypothesis testing, and linear model building.

DATA 335 Data Visualization (3)
Prerequisite: DATA 320. An overview of the fundamentals of data visualization principles in the context of business and data science. Practical focus is on data visualization of different data types, including time series and multidimensional data, and on creating dynamic tables, heatmaps, infographs, and dashboards. Hands-on projects require exploring data visually at multiple levels to find insights to create a compelling story and incorporating visual design best practices to better communicate insights to the intended audience, such as business stakeholders. Projects are selected from a wide range of content areas, such as retail, marketing, healthcare, government, basic sciences, and technology.

DATA 430 Foundations of Machine Learning (3)
Prerequisite: DATA 300. A hands-on introduction to machine learning principles and methods that can be applied to solve practical problems. Topics include supervised and unsupervised, especially linear regression, logistic regression, decision tree, naïve Bayes, and clustering analysis. Focus is on using data from a wide range of domains, such as healthcare, finance, marketing, and government, to build predictive models for informed decision making. Discussion also covers handling missing data, performing cross-validation to avoid overtraining, evaluating classifiers, and measuring precision.

DATA 440 Advanced Machine Learning (3)
Prerequisites: DATA 430 and MATH 140. A project-based study of advanced concepts and applications in machine learning (ML), such as neural networks, support vector machines (SVM), ensemble models, deep learning, and reinforced learning. Emphasis is on building predictive models for practical business and social problems, developing complex and explainable predictive models, assessing classifiers, and comparing their performance. All stages of the machine learning life cycles are developed, following industry best practices for selecting methods and tools to build ML models, including Auto ML.

DATA 445 Advanced Data Science (3)
Prerequisites: DATA 335 and DATA 430. A project-based introduction to the concepts, approaches, techniques, and technologies for managing and analyzing large data sets in support of improved decision making. Activities include using technologies such as Spark, Hive, Pig, Kafka, Hadoop, HBase, Flume, Cassandra, cloud analytics, container architectures, and streaming real-time platforms. Discussion covers how to identify the kinds of analyses to use with big data and how to interpret the results.

DATA 450 Data Ethics (3)
Prerequisite: DATA 430. Recommended: CSIA 300. A study of ethics within the context of data science, machine learning, and artificial intelligence. Emphasis is on examining data and model bias; building explainable, fair, trustable, and accurate predictive modeling systems; and reporting responsible results. Topics include the technology implications of human-centered machine learning and artificial intelligence on decision making in organizations and government and the broader impact on society, including multinational and global effects.

DATA 460 Artificial Intelligence Solutions (3)
(Designed to help prepare for the AWS Certified Machine Learning or Microsoft Designing and Implementing an Azure AI Solution exam.) Prerequisite: DATA 430. A hands-on, project-based study of artificial intelligence and machine-learning solutions to complex problems. Topics include natural language processing, computer vision, and speech recognition.

DATA 495 Data Science Capstone (3)
Prerequisites: DATA 440, DATA 445, and DATA 450. A project-based, practical application of the knowledge, technical skills, and critical-thinking skills acquired during previous study designed to showcase one’s data science expertise. Individually selected projects include all phases of machine-learning life cycles and a peer-reviewed final report and presentation. Topics are selected from student-affiliated organizations or employers, special government/private agency requests, or other faculty-approved sources in a wide range of domains, such as healthcare, financial services, marketing, sciences, and government.
Economics

ECON 103 Economics in the Information Age (3)
A survey of basic concepts and principles in micro- and macro-economics and how the economy has been affected by technology. The aim is to define and explain the key terms and concepts in economics and determine how technology has affected consumers, producers, and markets, as well as economic growth and policy. Topics include how innovation affects labor markets, the value of information, and the role of technological change in the economy.

ECON 201 Principles of Macroeconomics (3)
An introductory study of the macroeconomy. The objective is to apply select macroeconomic theories to real-world situations. Discussion covers economic growth, technological innovation, unemployment, inflation, and the roles of monetary policy and fiscal policy in determining macroeconomic performance. Students may receive credit for only one of the following courses: ECON 201 or ECON 205.

ECON 203 Principles of Microeconomics (3)
An analysis of the economic principles underlying the behavior of individual consumers and business firms. The goal is to apply select microeconomic theories to real-world situations. Emphasis is on market theory. Topics include the implications of government intervention, technological innovation, the advantages and disadvantages of different market structures, and income distribution and poverty.

ECON 305 Intermediate Macroeconomic Theory and Policy (3)
Prerequisite: ECON 201. An analysis of the forces that determine a nation's income, employment, and price levels. The aim is to analyze macroeconomic indicators and trends and evaluate their impact. Topics include consumption, investment, inflation, and governmental fiscal and monetary policy. Students may receive credit for only one of the following courses: ECON 305, ECON 403, or ECON 405.

ECON 306 Intermediate Microeconomic Theory (3)
Prerequisite: ECON 203. An analysis of the principles underlying the behavior of individual consumers and business firms. The objective is to analyze microeconomic indicators and trends and evaluate their impact. Discussion covers theories of welfare, taxation, marketing systems, and income distribution. Students may receive credit for only one of the following courses: ECON 306 or ECON 403.

ECON 330 Business and Economics of Sustainability (3)
An introduction to natural resource and environmental economics. Focus is on applying basic economic literacy to environmental issues important to business and developing appropriate responses to help enterprises, government agencies, or advocacy organizations gain strategic advantage in the business environments in which they operate. Topics include benefit-cost analysis, valuation, market failure, pollution control, sustainable development, market-based environmental policy, and the economics of renewable and nonrenewable resource management. Business issues related to the environment, such as recycling, the circular economy, environmental offsets, corporate social responsibility, and green certification, are explored.

ECON 430 Money and Banking (3)
Prerequisites: ECON 201 and ECON 203. An examination of the structure of financial institutions and their role in providing money and near money. The goal is to evaluate how the banking and business environment has changed, describe the functions and measurement of money, discuss and evaluate the money supply creation process, and analyze the impact of the Federal Reserve's policies on both the U.S. economy and the economies of other nations. Topics include the composition of the Federal Reserve, the money supply creation process, the tools of monetary policy, the term structure of interest rates, the demand for and supply of money, and interest rate theories. Students may receive credit for only one of the following courses: ECON 430 or ECON 431.

ECON 440 International Economics (3)
Prerequisites: ECON 201 and ECON 203. An examination of international trade and finance theory and their application to contemporary economic issues. The aim is to use economic frameworks to explain international trade and financial flows and analyze information and data on economic policy and institutions. Topics include the costs and benefits of trade, exchange rate markets, global financial imbalances, regional trading blocks, and the role of international economic institutions. Students may receive credit for only one of the following courses: BEHS 440, ECON 440, or ECON 441.
Emergency Management

EMGT 302 Concepts of Emergency Management (3)
Prerequisite: WRTG 112 or equivalent. An introduction to emergency management at the global, national, regional, state, and local levels. The objective is to identify and analyze forces that formulate policy, apply the principles of policy and law to real-world situations, and analyze emerging political, legal, and policy issues to improve organizational preparedness. Topics include preparedness, mitigation, response, and recovery. The history of emergency management is reviewed, and its future in government and industry is discussed.

EMGT 304 Emergency Response Preparedness and Planning (3)
Prerequisite: EMGT 302. A study of the planning process, format, and response procedures for disasters and emergency events. The goal is to evaluate risk vulnerabilities and capabilities, design an emergency plan, and evaluate and critically assess an emergency plan. Topics include risk assessment, modeling, hazard analysis, vulnerability assessment, and response capability assessment. Discussion also covers the evaluation of plans and the use of exercises to improve and implement plans.

EMGT 308 Exercise and Evaluation Programs (3)
Prerequisite: EMGT 304. An examination of the role of disaster exercises in emergency management and business crisis management programs. The objective is to develop exercises in all four phases of emergency management, analyze emergency management capabilities, and use exercises to enhance strategic planning. Focus is on designing, conducting, and evaluating disaster exercises. Topics include the current federal focus on both response and intelligence exercises. Best practices are used to understand the application of “lessons learned,” and after-action reports are employed to support continuous improvement.

EMGT 312 Social Dimensions of Disaster (3)
Prerequisite: EMGT 304. An examination of the response of the public and individuals to disaster-related issues, such as disaster warnings, evacuations, relocations, civil unrest, loss of family and property, and recovery activities. The aim is to evaluate social factors that contribute to increased risk of disaster, design plans and processes that consider social factors, and design strategies and plans to enable communication with diverse social groups. Emphasis is on preparing the community through effective programs and public information. Discussion also covers the impact of disasters on response organizations and personnel.

EMGT 314 Terrorism Issues in Emergency Management (3)
Prerequisite: EMGT 304. A study of the role and responsibilities of the emergency manager in preparing for, responding to, mitigating, and recovering from situations related to terrorism. The objective is to devise and prepare plans, follow appropriate guidelines, and make use of interagency dynamics in planning for and responding to terrorism. Discussion covers the role of first responder groups and other stakeholders and links the protection of critical infrastructure to national, state, and local guidelines.

EMGT 486A Workplace Learning in Emergency Management (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.eduwkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

EMGT 486B Workplace Learning in Emergency Management (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.eduwkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

English

ENGL 102 Composition and Literature (3)
(Fulfills the general education requirements in communications or arts and humanities.) Prerequisite: WRTG 112 or equivalent. Further practice in writing using readings in literature. Focus is on academic writing forms, especially critical analysis of literature, through a variety of modes, such as comparison and contrast, classification, and causal analysis. Students may receive credit for only one of the following courses: ENGL 102 or ENGL 292.

ENGL 103 Introduction to Mythology (3)
(Formerly HUMN 103.) A foundation in ancient mythology, focusing on Greek and Roman myths. Discussion may also cover Norse, Irish, Chinese, Arabic, and Hindu myths, among others. Emphasis is on examining various classical myths as expressed through plays, poems, and stories. The objective is to demonstrate an understanding of the differences between myths, legends, and other similar genres and show how classical world mythology still influences contemporary society. Students may receive credit for only one of the following courses: ENGL 103 or HUMN 103.

ENGL 240 Introduction to Fiction, Poetry, and Drama (3)
Prerequisite: WRTG 112 or equivalent. An introduction to fiction, poetry, and drama, with an emphasis on developing critical read-
ENGL 250 Introduction to Women's Literature (3)
Prerequisite: WRTG 112. Recommended: ENGL 102. An overview of multiple forms of writings by and about women from various periods and cultures. The aim is to read critically, understand diverse perspectives, and write effectively about women's literature.

ENGL 281 Standard English Grammar (3)
(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112 or equivalent. An overview of standard edited English, a standard central to academic and professional communications. The aim is to write clear, effective prose consistent with the writer's goals. Topics include applying advanced grammatical and linguistic descriptions and prescriptions and attending to the needs of diverse audiences while making writing and editing decisions. Tasks focus on parts of speech, sentence patterns, and sentence transformations. Students may receive credit for only one of the following courses: ENGL 281, ENGL 281X, or WRTG 288.

ENGL 294 Introduction to Creative Writing: Poetry, Creative Nonfiction, and Fiction (3)
Prerequisite: WRTG 112, WRTG 101, or WRTG 101S. An introductory survey and practical study of key aspects of literary writing in poetry, creative nonfiction, and fiction. The objective is to write original poetry, creative nonfiction, and fiction and to critique, revise, and edit that writing. Emphasis is on reading and thinking critically and analytically from a writer's perspective as a means to better understand the art and craft of creative writing. Discussion may cover publishing. Peer review of manuscripts may be included.

ENGL 303 Critical Approaches to Literature (3)
(Designed as a foundation for other upper-level literature courses.) Prerequisite: WRTG 112 or equivalent. A study of the techniques of literary criticism, emphasizing close reading, critical thinking, and critical writing. The goal is to apply a variety of theoretical approaches to literature, analyze texts, and create professional written communications.

ENGL 310 Renaissance Literature (3)
Prerequisite: WRTG 112 or equivalent. A study of major British authors and literary works from the English Renaissance period. The goal is to gain historical perspective and discern contemporary relevance by exploring social and cultural contexts.

ENGL 311 The Long 18th-Century British Literature (3)
Prerequisite: WRTG 112 or equivalent. A study of major British authors and literary works from the period known as the long 18th century, roughly from the Restoration through the Age of Sensibility (1660–1830s). The goal is to gain historical perspective and discern contemporary relevance by exploring social and cultural contexts.

ENGL 312 19th-Century British Literature (3)
Prerequisite: WRTG 112 or equivalent. A study of major British authors and literary works from the historical eras known as the Romantic Age and the Victorian Age. The goal is to gain historical perspective and discern contemporary relevance by exploring social and cultural contexts.

ENGL 363 African American Authors from the Colonial Era to 1900 (3)
Prerequisite: WRTG 112 or equivalent. An examination of African American authors before 1900, including Phillis Wheatley, Frances Harper, Maria W. Stewart, David Walker, Frederick Douglass, William Wells Brown, Charles Chesnutt, and Paul Laurence Dunbar. The goal is to research historical issues; integrate findings into discussion; and articulate, develop, and advance a persuasive argument in written form.

ENGL 364 African American Authors from 1900 to the Present (3)
Prerequisite: WRTG 112 or equivalent. An examination of early 20th-century to early 21st-century African American authors, including James Weldon Johnson, Zora Neale Hurston, Richard Wright, James Baldwin, Ann Petry, Helene Johnson, Dorothy West, and Langston Hughes. The goal is to research historical issues; integrate findings into discussion; and articulate, develop, and advance a persuasive argument in written form. Students may receive credit for only one of the following courses: ENGL 364 or HUMN 364.

ENGL 381 Special Topics in Creative Writing (3)
Prerequisite: WRTG 112 or equivalent. Recommended: ENGL 294 or other creative writing course. A study of special creative writing topics. The goal is to develop creative writing skills within the scope of the special topic. Focus may be on a specific format (such as the novella, novel, or screenplay) or genre (such as mystery, horror, or teen fiction; travel writing; or epic poetry). May be repeated to a maximum of 6 credits when topics differ.

ENGL 384 Advanced Grammar and Style (3)
(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112 or equivalent. An examination of the basic units of grammatical descriptions, the nature of grammatical categories and structure, the methods and
reasons for creating and using those structures, and the application of grammatical concepts to editorial and written style. The focus is on creating dynamic texts that convey complex subject matter to diverse audiences. Students may receive credit for only one of the following courses: ENGL 384 or WRTG 388.

ENGL 386 History of the English Language (3)
Prerequisite: WRTG 112 or equivalent. An examination of the development and usage of the English language. The objective is to explore various texts and research tools to examine the linguistic heritage and continuing evolution of English. Discussion traces the history of English from its origins and examines contemporary issues and controversies.

ENGL 389 Special Topics in English Literature (1–3)
An in-depth introduction to literary works written by a specific author or authors, representative of a literary movement or produced in a specific time or place. Assignments include advanced reading and research. Students may receive credit for a given topic in either ENGL 289 or ENGL 389 only once.

ENGL 406 Shakespeare Studies (3)
Prerequisite: WRTG 112 or equivalent. An intensive study of Shakespeare's work and its continuing relevance with reference to historically specific social and cultural contexts. The objective is to evaluate and synthesize source materials, apply critical theory, and demonstrate understanding of dramatic text. Histories, comedies, tragedies, romances, and sonnets may be examined. Students may receive credit for only one of the following courses: ENGL 406 or HUMN 440.

ENGL 418 Major British Writers Before 1800 (3)
Prerequisite: WRTG 112 or equivalent. A comprehensive and intensive study of one or two British writers from the period before 1800. The aim is to apply critical reading and thinking skills to analyze and interpret major British works before 1800 from various perspectives (social, historical, political, intellectual, and biographical). Authors studied may include Chaucer, Spenser, Marlowe, Jonson, Milton, Defoe, Richardson, Fielding, Pope, Swift, or Johnson. May be repeated to a maximum of 6 credits when topics differ.

ENGL 430 American Literature: Discovery to 1914 (3)
Prerequisite: WRTG 112 or equivalent. A comprehensive study of literature in America from European discovery until 1914. The aim is to examine literary periods, movements, and styles; interpret literature as a reflection of national and world events; recognize the differences among types of American literary works; and apply critical methodology. Topics include settlement and exploitation, revolution and government, American romanticism, slavery, women's rights, the Civil War and Reconstruction, and naturalism.

ENGL 433 Modern American Literature: 1914–1945 (3)
Prerequisite: WRTG 112 or equivalent. A study of the uniqueness of modern American fiction, poetry, nonfiction, and drama. The goal is to interpret and analyze literature by applying critical theory. Focus is on the major social and historical changes that occurred between World War I and World War II and the effects on literature. Major authors may include Ernest Hemingway, William Faulkner, F. Scott Fitzgerald, Langston Hughes, and Hilda Doolittle (H. D.).

ENGL 439 Major American Writers (1–3)
Prerequisite: WRTG 112 or equivalent. A study of works by selected American authors from the colonial period to the present. The goal is to understand the place these authors and their works hold in the canon of American literature. Emphasis is on the impact of historical and social events, as well as biographical influences, on the literature. May be repeated to a maximum of 6 credits when topics differ.

ENGL 441 Postmodern American Literature: 1945 to 1999 (3)
Prerequisite: WRTG 112 or equivalent. A comprehensive study of literature in America from 1945 till the end of the 20th century. The objective is to interpret American literature as a reflection of national and world events, recognize the differences among types of American literary works, and apply critical methodology. Topics include the American Dream; war; fear and paranoia; rebellion and counterculture; civil rights, feminist, and gay movements; postmodernism; and multiculturalism.

ENGL 459 Contemporary Global Literatures (3)
Prerequisite: WRTG 112. An advanced examination of contemporary literary texts written by diverse writers that address the connections between geographical regions, history, and social justice. Various genres, including poetry, fiction, memoir, and some multimedia, are covered. Canonical and emerging writers are studied to understand established and current discourse in the field. The goal is to demonstrate critical, interpretive, and analytical skills in reading and writing and to apply contemporary theory. Writers covered may vary from term to term.

ENGL 495 Advanced Seminar in English Language, Literature, and Writing (3)
(Intended as a final, capstone course to be taken in a student's last 15 credits.) Prerequisites: ENGL 240, ENGL 303, and at least 9 additional credits of upper-level ENGL coursework. A synthesis and application of knowledge and skills developed by previous study in the discipline. The goal is to refine skills and explore ways that they may be applied after graduation. Focus is on reviewing and revising previously written papers and/or projects to create a
Environmental Management

ENMT 301 Environment and Ecosystems Principles (3)
An overview of the scientific principles governing ecosystems, particularly as they relate to the environmental consequences of resource development and industrial processes. The objective is to identify and apply scientific reasoning and knowledge of ecological principles to make informed decisions about environmental management issues and other issues that affect the ecosystem. Topics include Earth's ecosphere, atmosphere, hydrosphere, and lithosphere. Discussion also covers the current state of the environment, the historical development of environmental management issues and approaches, and concepts of risk assessment and management.

ENMT 303 Environmental Regulations and Policy (3)
An analysis of the development and implementation of the principles of constitutional and administrative law that are fundamental to both environmental management and health and safety management. The goal is to use information literacy skills to locate applicable policies, laws, and regulations and to apply knowledge of process and regulatory communication systems for effective environmental management. Emphasis is on federal legislation and the use of the Federal Register and Code of Federal Regulations. Discussion covers the relationship between regulations and public policy at local, state, and federal levels. Students may receive credit for only one of the following courses: ENMT 303 or ENMT 493.

ENMT 306 Risk Assessments in Environmental Health and Safety (3)
(Formerly ENMT 390.) An overview of the scientific principles and government guidelines for the conduct of environmental health and safety risk assessments. Activities include conducting risk assessments; collecting, analyzing, and interpreting data; and characterizing potential adverse effects of chemical, physical, and biological agents. Students may receive credit for only one of the following courses: ENMT 306 or ENMT 390.

ENMT 307 Introduction to Geographic Information Systems (3)
An introduction to the basic concepts of geographic information systems (GIS). The aim is to apply critical thinking and problem-solving skills to address current environmental challenges using GIS software and develop skills in framing problems; selecting data; creating and building databases; editing, analyzing and presenting data in a spatial context; and interpreting results.

ENMT 310 Hazard Management in Emergency Response Operations (3)
An overview of emergency planning and the management of disaster response operations. The objective is to work safely in a hazardous environment and to prepare hazardous substances for transportation, processing, and disposal. Regulations, laws, and practices related to human-made and natural hazards and emergency preparedness are examined. Topics include the relationships between industrial processes and hazardous substances and elements of hazardous substances emergency planning, such as direction and control of emergency preparedness, response, and remediation. Review also covers preparation of emergency plans, methodology of disaster response, and performance of emergency operations. Practical exercises demonstrate how to prepare emergency plans for handling emergencies.

ENMT 315 Environmental Audits and Permits (3)
A study of the principles of environmental impact assessment and an in-depth look at laws, regulations, and methods of performing due diligence audits. The goal is to conduct environmental health and safety audits that reduce the potential for harmful or hazardous environmental or health incidents. Emphasis is on regulations and various audits and permits, such as property transfer audits, waste contractor audits, waste minimization/pollution prevention evaluations, Title V air permits, and National Pollutant Discharge Elimination System (NPDES) permits. Discussion also covers management systems and their influence on environmental health and safety audits. Audit systems covered include ISO 14000 and CERES principles.

ENMT 321 Environmental Health (3)
Prerequisites: CHEM 297, ENMT 301, and BIOL 301 (or a health-related biology course). Recommended: STAT 200. A study of the effects of biological, chemical, and physical hazards on human health. The aim is to anticipate, recognize, evaluate, and control environmental hazards. Topics include the impact of contamination and pollution of air, soil, and water on human health, as well as the potential impact of physical hazards on human well-being.
ENMT 322 Occupational Health and Safety (3)
Prerequisite: ENMT 301. A study of the principles of health and safety management in the workplace. The objective is to evaluate occupational hazards and formulate strategies to control occupational health and safety hazards and minimize injury. Topics include anticipation, recognition, evaluation, and control of occupational hazards. The strategies used by industrial hygienists and safety professionals to prevent or minimize the exposure to occupational hazards are explored. Discussion also covers the role of regulatory processes in occupational health and safety management.

ENMT 340 Environmental Technology (3)
Prerequisites: ENMT 301 and CHEM 297 (or an environmental chemistry course). Recommended: STAT 200. An introduction to technology for multimedia (i.e., air, water, land) environmental management, control, and remediation. The objective is to recognize and apply appropriate technological solutions to prevent, detect, treat, and remediate air, water, and land pollution. Discussion covers existing, modified, new, and emerging technologies. Case studies of real-world environmental challenges demonstrate the evaluation and selection of the appropriate technology for specific uses. Factors in making technology application decisions—such as technical integrity, cost effectiveness, and environmental soundness—are explained.

ENMT 360 Introduction to Urban Watersheds (3)
An overview of basic watershed processes and the impact of urbanization. The aim is to effectively manage urban watersheds to reduce the impact of land development. Topics include watershed characterization; hydrologic processes; stream characteristics; and the effects of the development process on watersheds, specifically on the hydrology, physical structure, water quality, and biodiversity of aquatic systems.

ENMT 365 Stewardship and Global Environmental Challenges (3)
Recommended: WRTG 112 or equivalent and a more advanced writing course. An interdisciplinary approach to environmental stewardship. The aim is to critically examine the role of the individual and society in global environmental sustainability. Emphasis is on approaches that identify barriers to personal and public participation in behaviors that support environmental sustainability and possible pathways to overcome those barriers.

ENMT 380 Air Quality Management (3)
Prerequisites: ENMT 301 and CHEM 297 (or an environmental chemistry course). Recommended: STAT 200 and BIOL 301 (or a health-related biology course). An overview of air quality management principles and strategies. The goal is to identify the risk and possible causes of air pollution and evaluate air quality management strategies. Discussion covers atmospheric processes and mechanisms, pollutants and sources of air pollution, dispersion, effects, regulations, air pollution control technology and management, indoor air quality pollution, and noise control. Indoor air pollution topics include the study of sick buildings, causes and risk factors, diagnostic protocols, contamination measurement, and problem mitigation.

ENMT 398 Special Topics in Environmental Management (1)
Specialized study in topics of particular interest in environmental management. May be repeated when topics differ.

ENMT 405 Pollution Prevention Strategies (3)
Prerequisite: ENMT 301. An overview of alternative environmental strategies to minimize, reduce, and prevent pollution. The goal is to integrate knowledge about environmental systems and environmental regulations to minimize, reduce, and prevent pollution. Topics include source reduction, recovery, reuse, recycling, and conservation; material substitution; process modifications; quality assurance, quality control, and good housekeeping; waste minimization; zero discharge; and pollution prevention, processing, treatment, and disposal. Emphasis is on pollution prevention techniques, practices, and case studies. Review also covers economic analysis and regulatory compliance related to these strategies.

ENMT 486A Workplace Learning in Environmental Management (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

ENMT 486B Workplace Learning in Environmental Management (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.
ENMT 495 Global Environmental Management Issues (3)
(Intended as a final, capstone course to be taken as the student's last ENMT course.) Prerequisites: ENMT 303, ENMT 307, ENMT 321, ENMT 322, and ENMT 340. Recommended: MATH 115 (or MATH 107 and MATH 108), STAT 200, and WRTG 112 (or a more advanced writing course). A study of global environmental management that integrates knowledge gained through previous coursework and experience and builds on that conceptual foundation through integrative analysis, practical application, and critical thinking. The goal is to develop and evaluate environmental management projects and plans based on effective, practical approaches. Topics include economic development and environmental pollution, remediation, and conservation within a multi-faceted scientific, legal, political, and global context. Discussion covers national and international events concerning environmental issues. Case studies and an advanced management project apply principles and concepts to environmental perspectives, sustainability, research issues, and innovative technology solutions.

Experiential Learning

EXCL 301 Prior Learning Portfolio (3)
(Students should visit umgc.edu/priorlearning or contact prior-learning@umgc.edu for complete requirements.) Prerequisite: Formal admission to the program. Instruction in the preparation of a portfolio documenting college-level learning gained through life experiences. The aim is to translate prior life experiences into college credit by developing a portfolio that documents and presents learning specific to targeted courses. Faculty evaluators assess completed portfolios to recommend credit award.

EXCL X001 Supplement to Prior Learning Portfolio (0)
(Students should visit umgc.edu/priorlearning or contact prior-learning@umgc.edu for complete requirements.) Prerequisite: EXCL 301. An opportunity to prepare additional portfolios for courses not previously targeted. The aim is to translate prior life experiences into college credit by developing a portfolio that documents and presents learning specific to targeted courses. Faculty evaluators assess completed portfolios to recommend credit award.

Field Study

UMGC field study courses enable you to earn university credit while traveling to sites of historical or cultural significance throughout the world. Field study courses are available in a variety of subject areas and credit can be awarded at both the lower- and upper-levels.

Before enrolling, you should contact a UMGC academic advisor to determine how a course may apply toward a specific degree program.

Field study courses include the same number of contact hours as equivalent on-site or online courses, with the main difference being that the majority of coursework is done in an accelerated format. You may register for a field study course at any time during the academic year prior to the registration deadline for the course.

Finance

FINC 321 Fundamentals of Building Wealth (3)
(Formerly BMGT 342. For students majoring in both business and nonbusiness disciplines.) A practical overview of personal finance management and wealth creation that blends financial theory and application. The goal is to develop personal financial management skills (e.g., budgeting income and expenditures and planning for financial security and retirement) and understand elements of the U.S. financial structure (including savings and investment alternatives, financing and credit sources, and the role of insurance in protecting income and assets). These skills are utilized in the development of a personal financial plan. Students may receive credit for only one of the following courses: BMGT 342, BMGT 388F, BMGT 388N, FINC 321, or FINC 322.

FINC 328 Small Business Finance (3)
A project-driven study of small business and entrepreneurial finance that emphasizes the financial knowledge and tools needed to develop a successful venture from start-up through growth and maturity. The goal is to identify, assess, and explain the key decision-making processes required of a small business entrepreneur or financial manager. Topics include financial statement analysis, capital acquisition, legal and regulatory compliance, budgeting, forecasting, and client and vendor relationships. Projects include creation of a financial plan and completion of a loan application. Discussion also covers contemporary issues related to finance.

FINC 330 Business Finance (3)
Prerequisites: ACCT 221 and STAT 200. An overview of the theory, principles, and practices of financial management in a business environment. Topics include financial analysis and financial risk, characteristics and valuations of securities, capital investment analysis and decision making, the capital structure of the firm, financial leverage, and international finance. The aim is to examine financial information, identify issues and solve business
problems, and make sound business decisions. Emphasis is on the application of financial theory and methods for solving the problems of financial policy that managers face. Students may receive credit for only one of the following courses: BMGT 340, FINC 330, MGMT 398D, or TMGT 320.

FINC 331 Finance for the Nonfinancial Manager (3)
Development of the financial skills needed by functional experts in human resources, marketing, production, and general management. The objective is to interpret finance and accounting documents and apply that information to sound business decision making. Topics include financial statements and forecasting, capital budgeting, project evaluation, working capital management, stocks and bonds, time value of money, and international financial management. Emphasis is on practical applications to facilitate informed discussions with business professionals for financial decision making. Students may receive credit for only one of the following courses: BMGT 341 or FINC 331.

FINC 335 Fintech, Financial Institutions, and Markets (3)
An overview of the interplay of financial markets, financial institutions, and technology. Topics include the characteristics and roles of financial markets and institutions. Focus is on evaluating what drives the term structure of interest rates. The aim is to be able to discuss how emerging technologies are used in the financial services industry and how they impact delivery of financial products and services, such as insurance, investment advising, and wealth management.

FINC 340 Investments (3)
(Formerly BMGT 343.) Prerequisites: FINC 330 and FINC 335. An introduction to financial investments and portfolio management. The goal is to evaluate and critically analyze asset selection and allocation and perform basic portfolio management activities. Topics include types of securities and securities markets; investment risks, returns, and constraints; portfolio policies and management; and institutional investment policies. Theories, practices, and real-world examples are examined and analyzed. Students may receive credit for only one of the following courses: BMGT 343 or FINC 340.

FINC 351 Risk Management (3)
(Formerly BMGT 346.) Prerequisites: FINC 330 and FINC 340. A study focused on recognizing and evaluating pure risk facing organizations. The aim is to identify risks to cost control and develop risk management strategies. Discussion covers guides for risk-management decisions concerning the retention, control, and transfer of risk (including insurance). Students may receive credit for only one of the following courses: BMGT 346 or FINC 351.

FINC 352 Life and Health Insurance (3)
A study of the tools and principles of life and health insurance in financial planning for businesses and individuals. The goal is to assess personal needs in order to determine which types of life and health insurance plans fit best. Topics include pension planning strategies, such as deferred-compensation and profit-sharing plans; use of trusts in business and in planning individual estates; and comprehensive analysis of the effects of income taxes, estate taxes, and gift taxes on life insurance and estate planning. Students may receive credit for only one of the following courses: BMGT 347 or FINC 352.

FINC 355 Retirement and Estate Planning (3)
(Content aligned with the Certified Financial Planner [CFP] curriculum.) Recommended: FINC 321, ACCT 220, and ACCT 323 or experience in financial planning. A comprehensive study of retirement and estate planning techniques for individuals, families, and businesses. The aim is to evaluate retirement plans, analyze regulatory considerations of retirement planning, and apply estate planning techniques for businesses and families. Topics include retirement planning and estate planning, as well as regulations relevant to the financial services industry. Discussion covers processes of retirement planning (retirement need, investments, taxes, Social Security, Medicare, qualified versus nonqualified plans, and tax-advantage plans) and estate planning (wills, trusts, asset protection, and life insurance).

FINC 421 Financial Analysis (3)
(For students with general business interests, as well as those majoring or minoring in accounting or finance.) Prerequisites: FINC 330 and FINC 340. An analysis and interpretation of financial statements directed at the decision-making needs of managers, stockholders, and creditors. The aim is to analyze and interpret financial information, apply financial information directly to valuation models, and evaluate growth strategies to maximize company value. Topics include assessment of business performance, projection of financial requirements, analysis of capital investment decisions and financing choices, risk assessment, and valuation. Students may receive credit for only one of the following courses: BMGT 498Q or FINC 421.

FINC 430 Financial Management (3)
Prerequisites: FINC 330 and FINC 340. A study of financial management. The objective is to apply financial principles and concepts to assess and solve financial problems and make financial and corporate policy at the executive level. Topics include assessments of the financial health of the organization, company valuation, cost of capital, risk analysis, investment decisions, and financial systems and capital markets. Students may receive credit for only one of the following courses: BMGT 440 or FINC 430.
FINC 440 Security Analysis and Valuation (3)
Prerequisites: FINC 330 and FINC 340. A comprehensive and quantitative examination of financial investments and portfolio management. The aim is to quantitatively evaluate and value assets, critically analyze asset selection and allocation, and apply financial statistics and other evaluation methods to perform basic portfolio management activities and functions. Topics include the analysis, valuation, and selection of securities; investment risks, returns, and constraints; portfolio policies and management; institutional investment policies; and the operation and efficiency of financial markets. Theory, practice, and real-world examples are analyzed to value financial assets and compare alternatives. Students may receive credit for only one of the following courses: BMGT 443 or FINC 440.

FINC 450 Commercial Bank Management (3)
Prerequisites: FINC 330 and FINC 340. An analysis of commercial bank management. The aim is to examine how the changing commercial banking environment has affected profitability and evaluate bank business strategies. Discussion covers the loan function and the management of liquidity reserves, investments for income, and sources of funds. The objectives, functions, policies, organization, structure, services, and regulations of banks are considered. Students may receive credit for only one of the following courses: BMGT 445 or FINC 450.

FINC 460 International Finance (3)
Prerequisites: FINC 330 and FINC 340. An analysis and discussion of financial management issues for the multinational enterprise. The aim is to use financial and economic strategies in quantitative decision making. Topics include the organization and functions of the foreign exchange market and international capital markets; financing foreign trade; and identifying, analyzing, and evaluating the globalization strategies of the multinational enterprise. Students may receive credit for only one of the following courses: BMGT 446 or FINC 460.

FINC 486A Workplace Learning in Finance (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

FINC 486B Workplace Learning in Finance (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

FINC 490 Financial Plan Development (3)
(Content aligned with the Certified Financial Planner [CFP] curriculum.) Prerequisites: ACCT 323, FINC 321, FINC 340, FINC 352, and FINC 355. A thorough review of financial planning principles and applications, based on case studies. The objective is to gather and analyze data, evaluate the impact of governmental regulations and economic changes, and effectively communicate a comprehensive financial plan to clients. Topics include taxes, estates, asset protection, debt, credit, investments, insurance, economic theories, the financial planning process, ethics, and risk.

FINC 495 Contemporary Issues in Finance Practice (3)
(Intended as a final, capstone course to be taken in the student’s last 15 credits.) Prerequisites: FINC 330 and FINC 340. A study of finance that integrates knowledge gained through previous coursework and experience and builds on that conceptual foundation through integrative analysis, academic research, practical application, and critical thinking. The objective is to apply financial theories and contemporary financial practices to business issues. Emerging issues in finance and business are considered. Individual and group case studies and research papers are used to integrate key financial knowledge in the areas of financial analysis, investments, business valuation, risk, and international finance. Students may receive credit for only one of the following courses: BMGT 495 or FINC 495.

Fire Science

FSCN 302 Fire and Emergency Services Administration (3)
Prerequisite: WRTG 112 or equivalent. A presentation of modern management and planning techniques that apply to organizing a fire department. The objective is to apply management concepts to fire service administration and analyze the community approach to risk reduction. Discussion covers procedures for evaluation and control of budgeting, personnel, communications, and planning. Topics also include the traditional and evolving roles of the fire department in protection, prevention, and community service.

FSCN 304 Personnel Management for Fire and Emergency Services (3)
Prerequisite: FSCN 302. An examination of personnel practices, including management procedures, collective bargaining, binding arbitration, and applicable legislative and administrative procedures. The aim is to manage emergency service personnel; develop, communicate, and implement organizational goals and objectives; and lead personnel in compliance with regulations and within an ethical framework. Topics include promotion, personnel development, career and incentive systems, validation of physical requirements, and managerial and supervisory procedures.
FSCN 305 Fire Prevention Organization and Management (3)
Prerequisite: FSCN 302. An examination of prevention as the primary community-based strategy for fire protection. The objective is to design, implement, and manage programs addressing community risks; administer prevention programs; and influence change and development of legislation, regulation, and policy. Emphasis is on applying principles to anticipate problems and develop strategies for fire prevention. Topics include community risk reduction, codes and standards, inspections and plans review, incident investigation, fire-prevention research, and the relationship of master planning to fire prevention. The cultural, economic, governmental, nongovernmental, and departmental influences on fire prevention are also explored.

FSCN 413 Community Risk Reduction for the Fire and Emergency Services (3)
Prerequisites: FSCN 304 and FSCN 305. An examination of the ethical, sociological, organizational, political, and legal components of community risk reduction. The goal is to analyze environments, design and develop a community risk reduction plan, and implement that plan. A framework for understanding these issues and a methodology for developing a comprehensive community risk reduction plan are provided.

FSCN 416 Emergency Services Training and Education (3)
Prerequisites: FSCN 304 and FSCN 305. An examination of the management and administration of training and education in fire and emergency services. The objective is to manage and administer development programs, integrate concepts in training programs, and analyze and assess programs. Discussion explores how higher education/training contributes to the professional development of fire-service personnel. Topics include the many systems of training and education available and professional development on both individual and organizational levels. Focus is on safety, especially understanding and preventing training deaths and injuries.

Geology

GEOL 100 Physical Geology (3)
An introductory study of geology, encompassing the Earth, the materials that constitute its makeup, the structure of those materials, and the processes acting on them. The goal is to understand geological principles and how humans affect geological processes. Topics include the rocks and minerals composing Earth, the movement within Earth, and its surface features and the agents that form them and our environment. Discussion also covers energy and mineral resources. Students may receive credit for only one of the following courses: GEOL 100 or GEOL 101.

Gerontology

GERO 100 Contemporary Issues in Aging (3)
(Fulfills the general education requirement in the behavioral and social sciences.) A multidisciplinary exploration of aging in the 21st century, with an emphasis on the policies, evidence-based approaches, and attitudes that promote healthful aging. Activities include skill-building exercises. The objective is to locate and read scholarly sources, create effective presentations in different modalities, and communicate with and on behalf of older people.

GERO 301 Service/Program Management (3)
(Fulfills the general education requirement in behavioral and social sciences.) Recommended: GERO 100. An exploration and analysis of the managerial aspects of providing health and human services in the field of gerontology through an integrated delivery system. The aim is to integrate concepts, strategies, and best practices for the management of health and human services. Topics include planning, strategic management, marketing, financing, legal issues, and capacity building.

GERO 302 Health and Aging (3)
Recommended: GERO 100. An exploration of the physiological processes of aging that covers normal aging and chronic illness. The goal is to distinguish normal aging from disease and evaluate factors that affect the health of older adults. Topics include biological processes and theories of aging, bodily changes normally associated with aging, long-term and healthcare systems, and related medical terminology. Review also covers substance abuse; environmental factors affecting aging; and ways of promoting health, preventing disease, and assessing health risks.

GERO 306 Programs, Services, and Policies (3)
Recommended: GERO 100 and GERO 302. An overview of the impact of policy related to older adults on U.S. society. The aim is to examine the role of legislative mandates on older adults at both societal and individual levels. Topics include Social Security, Medicare, and the Older Americans Act. Students may receive credit for only one of the following courses: GERO 304 or GERO 306.

GERO 311 Gender and Aging (3)
(Fulfills the general education requirement in behavioral and social sciences.) Recommended: GERO 100. An analysis and discussion of issues related to gender and the aging process. The goal is to evaluate and challenge negative, socially constructed assumptions associated with gender and aging, as well as to examine gender-relevant issues in health and well-being after midlife. Discussion covers life transitions, socioeconomic status, culture, family and social relationships, ageism, and sexuality and health as each relates to gender. The impact of public policy and services on gender and aging is also addressed. Students may
receive credit for only one of the following courses: GERO 311 or GERO 497E.

**GERO 320 Psychosocial Aspects of Aging (3)**
(Fulfills the general education requirement in behavioral and social sciences.) Recommended: GERO 100. An advanced multi-disciplinary examination of the psychosocial forces that affect the aging process. Aspects of aging are analyzed from a number of theoretical perspectives found in psychology, sociology, and social gerontology. The goal is to articulate the impact of biological, sociocultural, and life-cycle forces on psychological and social well-being in post-midlife. Topics include normative and atypical psychological and social functioning in post-midlife; the social construction of aging; and the impact of aging, ageism, and longevity on social structures such as the family, work, retirement, and healthcare. Students may receive credit for only one of the following courses: GERO 220, GERO 320, or PSYC 357.

**GERO 338 Health Promotion in Older Adults (3)**
Recommended: GERO 100. A project-based exploration of health promotion for an aging population. The objective is to articulate different models of health promotion for older adults and design a health promotion campaign.

**GERO 342 Long-Term Care Administration (3)**
Recommended: GERO 100. An overview of the administrative and operational issues of long-term care facilities. The aim is to identify common forms of long-term care and articulate the responsibilities of a long-term care administrator. Relationships with personnel and administrative structure are examined. Topics include policy, procedures, insurance, and financing. Discussion also covers the ethical and legal concerns of long-term care.

**GERO 390 The Business of Aging (3)**
Recommended: GERO 100 and ECON 201 (or ECON 203). A comprehensive study of the sources of economic security for older adults, the problems encountered in retirement, and the impact of an aging population on the nation's economy. The goal is to outline the key sources of economic security received by older adults (including Social Security, pensions, personal savings, Medicare, and Medicaid); examine how economic security varies by race, ethnicity, gender, and social status as people age; evaluate how longevity and the "graying" of society impact the nation's economy; and explore potential solutions to the problems posed by entitlement programs. Topics include retirement planning; financing longevity; health, disability, and long-term-care costs; economic disparities by social group; and the international economics of aging.

**GERO 427 Culture and Aging (3)**
(Fulfills the general education requirement in behavioral and social sciences.) Recommended: GERO 100. An interdisciplinary exami-
Government and Politics

GVPT 100 Introduction to Political Science (3)
A survey of the basic principles of political science. The objective is to define the main features of primary systems of political economy, understand differing methods of governance and articulate consequences of government actions in a globally interdependent system. Topics include the relationship of political science to the other social sciences; modern democracy, political ideology, and political socialization; the function of public opinion, mass media, interest groups, and political parties; the basic institutions of government and the separation of powers; and the role of international relations and globalization.

GVPT 101 Introduction to Political Theory (3)
An overview of the main schools of political theory, including democracy, authoritarianism, and alternative theories. The aim is to demonstrate familiarity with important thinkers and major works in the history of political theory; use theoretical language to analyze and critique political behavior and events; identify the strengths and weaknesses of different forms of government; and demonstrate knowledge of crucial concepts (justice, power, authority, the state, social contract, etc.) and their history. Topics include the philosophical foundations of liberalism, socialism, and conservatism and the core political concepts of justice, power, and authority.

GVPT 125 Understanding 21st-Century Global Challenges (3)
An examination of the changing face of international affairs in a post–Cold War world and the role of the United States in the evolving international order. The aim is to recognize and explain trends in international affairs, apply theoretical frameworks in international relations, and analyze world events to explain and evaluate global developments. Focus is on the roles of key international institutions, states, nonstate actors, and globalization in the evolution of global relations since the collapse of the Soviet Union. Discussion also covers various influences on contemporary affairs, including technology, migration, disease, economic development, and terrorism. Students may receive credit for only one of the following courses: GVPT 125 or GVPT 401.

GVPT 170 American Government (3)
A comprehensive study of government in the United States, including the basic principles of American government and political culture. The aim is to explain the vertical and horizontal structure of the American government and the roles of the three federal branches, bureaucracies, and the state governments; describe the development of the American political system and its impact on the political landscape; and explain the processes of the electoral system, political parties, and interest groups to persuade and influence. Institutions, processes, and public policies are examined from a cross-cultural perspective.

GVPT 200 International Political Relations (3)
A study of the major factors underlying international relations, the methods of conducting foreign relations, and the means of avoiding or alleviating international conflicts. The objective is to interact with global communities, contribute to policy formation, analyze differing worldviews, and apply historical and cultural contexts to identify probable outcomes of disputes. Students may receive credit for only one of the following courses: GVPT 200 or GVPT 300.

GVPT 210 Introduction to Public Policy and Public Administration (3)
Prerequisite: GVPT 100. An introduction to the study of the administrative process in the executive branch and the structure and function of the federal system. The aim is to apply the mechanisms of policy formulation to the budgetary process, analyze the nature of public personnel policy and the fundamentals of organization theory, and evaluate the impact of new technologies on public organizations. Topics include the organizational structure, the political cultural environment, intergovernmental relations, performance management, social equity, and public administration and public finance administration.

GVPT 280 Comparative Politics and Government (3)
An introductory study of institutional patterns and trends in a variety of countries with dissimilar governmental styles. The goal is to compare the stages of political development in the modern state system on a spectrum ranging from liberal democracies to authoritarian regimes. Discussion covers ethnic conflict and economic inequality in relation to the success and failure of governmental approaches in solving compelling issues.

GVPT 306 Global Political Economy (3)
A study of the relationship between political and economic processes in international affairs. Discussion covers the effect of globalization on the global environment, the economy, world peace, the power of the nation-state, and inequality between nation-states.

GVPT 308 International Human Rights (3)
Recommended: GVPT 100. An examination of the principles and practices governing human rights from ancient times to contemporary international conventions and U.N. declarations. The aim is to analyze, evaluate, and discuss present national/international pushes for human rights and emancipation. Students may receive credit for only one of the following courses: GVPT 308 or GVPT 399Y.
GVPT 399O Seminar in National Security (1)
An overview of the different components of U.S. national security, including policy and organization. Internal and external factors affecting national security are covered.

GVPT 403 Law, Morality, and War (3)
Prerequisite: WRTG 112 or equivalent. A study of “just war” traditions. The objective is to make informed decisions and analyze conflict. Discussion covers the theoretical and practical connections between law, war, and morality.

GVPT 406 Global Terrorism (3)
Prerequisite: WRTG 112 or equivalent. An examination of the development of global terrorism and its impact on the international community. The goal is to participate in strategy and policy formulation and implementation, evaluate threats, and assess infrastructures that support global terrorist organizations. Students may receive credit for only one of the following courses: GVPT 401A or GVPT 406.

GVPT 407 State Terrorism (3)
An examination of the use of force and power (terrorism) by states against various populations to advance the interests of their civilization or state. The objective is to apply knowledge of culture, tradition, ideology, and methodology to comprehend state terrorism; analyze risk to national security; and explain how domestic climates and international relationships interact to support state terrorism. Topics include state behavior and norms; state interests, power, and force; application of power and force; and coercion within and among civilizations. Students who have completed GVPT 401B or GVPT 401C may not receive credit for GVPT 407.

GVPT 408 Counterterrorism (3)
An investigation of counterterrorism (including its historical context), focusing on the evaluation of threats and the formulation of defeat strategies. The aim is to evaluate response strategies, help improve offensive and defensive planning, and construct a defeat strategy for a terrorist threat. Students may receive credit for only one of the following courses: GVPT 399H or GVPT 408.

GVPT 409 Terrorism, Antiterrorism, and Homeland Security (3)
An advanced examination of the impact of terrorism on the homeland security of the United States since the attacks of September 11, 2001. The objective is to more fully understand the concepts of homeland security within a federal system. Topics include the National Strategy for Homeland Security and the Patriot Act, their effect on civil liberties and civil rights, the changing face of terrorism in the United States, intelligence systems, and critical infrastructure protection. Students may receive credit for only one of the following courses: GVPT 409 or GVPT 498X.

GVPT 444 American Political Theory (3)
Prerequisite: WRTG 112 or equivalent. A study of the development and growth of American political concepts from the colonial period to the present. The objective is to apply the rule of law to the decision-making process; interpret, apply, and synthesize the concepts of individual rights and collective responsibilities; and evaluate the interconnection among war, peace, and diplomacy.

GVPT 457 American Foreign Relations (3)
Prerequisite: WRTG 112 or equivalent. A study of the principles and machinery of American foreign relations. The goal is to apply historical themes of American foreign policy to contemporary international relations, incorporate tenets of international law into American diplomatic approaches, and inform and influence policy making. Emphasis is on the conduct of the U.S. Department of State and the Foreign Service. Analysis covers the major foreign policies of the United States.

GVPT 475 The Presidency and the Executive Branch (3)
Prerequisite: WRTG 112 or equivalent. A study of the president’s influence on legislative matters, the president’s function in the executive branch (including domestic and foreign policy), and the president’s role in his or her political party. The aim is to analyze contemporary uses of the presidency, evaluate an election strategy, and communicate realities of the presidential office.

GVPT 486A Workplace Learning in Government and Politics (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

GVPT 486B Workplace Learning in Government and Politics (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

GVPT 495 Advanced Seminar in Political Science (3)
(Intended as a capstone course to be taken in a student’s last 15 credits.) Prerequisites: WRTG 112 or equivalent and 9 upper-level credits in GVPT coursework. A study of political science that integrates knowledge gained through previous coursework and experience. The aim is to build on that conceptual foundation through integrative analysis, practical application, and critical thinking. Concepts and methods of political science are applied in producing a political, policy, or position paper for a project organization.
GVPT 498 Advanced Topics in Government and Politics (1–3)
Recommended: GVPT 100. In-depth study of topics of specialized interest. May be repeated to a maximum of 6 credits when topics differ.

Graphic Communication

GRCO 100 Introduction to Graphic Communication (3)
(Access to Adobe Photoshop and Illustrator required.) An introduction to graphic communication and the various roles and responsibilities of the profession. The aim is to demonstrate the skills and knowledge necessary for graphic communication professionals. Design theories and content are explored through hands-on projects. Topics include industry standards, portfolios, and research and assessment practices.

GRCO 230 Typography and Layout (3)
Prerequisites: GRCO 100 and ARTT 120. An introduction to typography and layout as compositional tools to construct graphic communications. The goal is to analyze and determine appropriate typefaces and apply typographical skills to layout design. Emphasis is on the individual aspects of the letterform and the interrelationship of letters on the page. Discussion covers the process of design, from research to comprehensive mock-up, to produce portfolio-quality designs.

GRCO 350 Intermediate Graphic Communication: Portfolio Development (3)
Prerequisite: GRCO 230. The development of a professional graphic communications portfolio. The goal is to assemble a select body of work for web presentation that demonstrates knowledge of color, typography, composition, and design. Projects are designed to synthesize and refine basic design skills. Emphasis is on gathering the elements of a cohesive portfolio and presenting a personal body of work. Students may receive credit for only one of the following courses: ARTT 250 or GRCO 350.

GRCO 354 Digital Media (3)
(Formerly ARTT 354.) Prerequisite: GRCO 230. An introduction to digital media and design. The objective is to use current technologies in raster and vector image creation, two-dimensional animation, and the integration of text with graphics in cohesive layouts and to develop and oversee static and animated digital media projects through all stages of production. Focus is on advanced illustrative techniques for animated digital media, web graphics, and social media on a commercial level. Students may receive credit for only one of the following courses: ARTT 354 or GRCO 354.

GRCO 355 Digital Media II (3)
Prerequisite: GRCO 354. Further examination of design for interactive media that incorporate raster- and vector-based visuals, video files, and brand generation. The goal is to use current technologies to develop functional static and responsive multimedia layouts for a range of platforms, including desktop, hand-held, and mobile devices. Discussion covers strategies for developing work for a variety of output applications. Focus is on production of portfolio-caliber projects that simulate real-world work experience.

GRCO 450 Advanced Graphic Communication: Professional Branding (3)
Prerequisites: GRCO 350 and GRCO 355. A review of professional branding and development of a portfolio and personal branding package. The objective is to synthesize, refine, and expand an existing portfolio to reflect personal branding. Focus is on refining a portfolio through peer review, critique, and assessment. Projects include creating a personal mission statement, identity package, and video component.

GRCO 479 Motion Graphics (3)
(Formerly ARTT 479.) Prerequisite: GRCO 354 or ARTT 354. A study of media production. Discussion covers the aesthetic and practical aspects of creating moving images in a short movie or documentary. The goal is to understand the principles of preproduction, production, and postproduction. Students may receive credit for only one of the following courses: ARTT 479 or GRCO 479.

GRCO 486A Workplace Learning in Graphic Communication (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

GRCO 486B Workplace Learning in Graphic Communication (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.
GRCO 495 Graphic Communication Portfolio (3)
(Formerly ARTT 495. Intended as a final, capstone course to be taken in a student’s last 15 credits.) Prerequisite: GRCO 450, GRCO 458, or GRCO 479. A portfolio-driven study of business and professional practices in the field of graphic communication. The goal is to prepare for a career in graphic communication. Activities include review of existing work, creation of portfolio projects, and production of a professional portfolio (including a résumé). Focus is on applying skills (in areas such as motion graphics, typography, digital media, illustration, and commercial design) acquired through previous study. Students may receive credit for only one of the following courses: ARTT 495 or GRCO 495.

The objective is to chart major societal changes; identify major conflicts and wars; describe the evolution of religions; and recognize how philosophy and the arts reflect and influence peoples’ lives, cultures, and societies. The political, social, and intellectual developments that formed the values and institutions of the Western world are examined.

HIST 142 Western Civilization II (3)
Recommended: WRTG 112 or equivalent. A survey of the history of Western civilization from the Reformation to modern times. The goal is to chart major societal changes; identify major conflicts and wars; describe the evolution of religions; and recognize how philosophy and the arts reflect and influence peoples’ lives, cultures, and societies.

HIST 141 Western Civilization I (3)
Recommended: WRTG 112 or equivalent. A survey of the history of Western civilization from antiquity through the Reformation.

History

HIST 115 World History I (3)
Recommended: WRTG 112 or equivalent. A survey of global civilizations from prehistory to the 1500s. The aim is to explain the impact of environmental conditions on the development of civilizations using basic geographical knowledge; describe how human contacts, global connections, and migrations contribute to the development of civilizations; and compare the development of institutions (social, political, familial, cultural, and religious) to explain their impact on societal transformations. Focus is on examining what history is and thinking critically about history by analyzing historical approaches and methods.

HIST 116 World History II (3)
Recommended: WRTG 112 or equivalent. A survey of global civilizations from the 1500s to the present. The aim is to explain the development of new political and economic systems using basic geographical knowledge; describe how human contacts, global connections, and migrations contribute to the development of nations and global systems; and compare the development of institutions (social, political, familial, cultural, and religious) to explain their impact on societal transformations. Focus is on examining what history is and thinking critically about history by analyzing historical approaches and methods.

HIST 125 Technological Transformations (3)
A focused survey of the intersection of technology and history and the evolutionary process that marks what we call progress. The objective is to apply historical precedent to everyday responsibilities and relationships in order to advance the goals and ideals of contemporary society; compare and contrast historical eras; and describe how events influence our sense of time, space, and technology.

HIST 141 Western Civilization I (3)
Recommended: WRTG 112 or equivalent. A survey of the history of Western civilization from antiquity through the Reformation.

HIST 156 History of the United States to 1865 (3)
A survey of the United States from colonial times to the end of the Civil War. The establishment and development of national institutions are traced. The aim is to locate, evaluate, and use primary and secondary sources and interpret current events and ideas in a historical context. Students may receive credit for only one of the following courses: HIST 156 or HUMN 119.

HIST 157 History of the United States Since 1865 (3)
A survey of economic, intellectual, political, and social developments since the Civil War. The objective is to use primary and secondary sources to describe U.S. historical events and interpret current events and ideas in a historical context. Discussion covers the rise of industry and the emergence of the United States as a world power. Students may receive credit for only one of the following courses: HIST 157 or HUMN 120.

HIST 202 Principles of War (3)
A study of the nine classic principles that guide the conduct of war at the strategic, operational, and tactical levels and form the foundation of the art and science of the military profession. The aim is to use primary and secondary historical resources to explore how past theory and practice have shaped the underlying policy, strategic planning, and operational procedures of today’s military and national security agencies.

HIST 289 Historical Methods (3)
Prerequisite: A 100-level HIST course. An introduction to historical methods, approaches, and techniques. The goal is to explain what history is and why it matters, identify historical paradigms, and employ the moral and ethical standards of the historical profession. Focus is on the philosophical and practical skills employed by historians.
HIST 309 Historical Writing (3)
Prerequisite: HIST 289. A study of the historical research and writing process. The goal is to construct a framework for an original historical research project, locate and evaluate source materials, and demonstrate proficiency in research methods.

HIST 316L The American West (3)
An examination of the exploration, settlement, development, and mythology of the American West, from 1490 to 1990, including the role of the West as a key factor in the formation of national identity. Assignments include advanced reading and research.

HIST 326 The Roman Republic (3)
Prerequisite: Any writing course. A study of ancient Rome during the period 753 to 44 BC, from its founding to the assassination of Julius Caesar. The goal is to use primary and secondary historical resources to explore Roman thought, demonstrate its influence in the modern Western world, and apply it to modern contexts. Focus is on Rome’s conquest of the Mediterranean world, the social and political pressures that led to that conquest, and the consequent transformation and decline of the republic. Students may receive credit for only one of the following courses: HIST 326 or HIST 421.

HIST 337 Europe and the World (3)
An analysis of how European powers shaped and were shaped by global events between 1884 and 1989 from the Conference of Berlin to the fall of the Berlin Wall. Emphasis is on the reciprocal relationships between great cities and the outposts of European culture worldwide. The objective is to examine the interplay between Europe and colonial regions, subjects, cultures, politics, economies, and immigration.

HIST 365 Modern America (3)
A comprehensive survey of the history of the United States from 1933 to 2001. Discussion covers the expanding federal government; the Cold War and its legacy; the struggle over constitutional rights; and the changing landscape of American culture, society, and politics. The goal is to understand the impact of domestic and global issues on American society.

HIST 373 African American History (3)
Prerequisite: Any writing course. An examination of the history of African Americans in the United States from the colonial period to the end of the 20th century. The relationship between race and significant developments in American history (including slavery, war, industrialization, urbanization, technology, and culture) is evaluated. The goal is to examine primary and secondary sources to explore and analyze the historical experiences of African Americans and the ways in which race has shaped U.S. society.

HIST 377 U.S. Women's History: 1870 to 2000 (3)
An examination of the history of women in the United States from 1870 to the eve of the 21st century. The goal is to examine primary and secondary sources and documents to comprehend and articulate the impact of gender on the historical experiences of American women. Historical methodologies that focus on the ways in which race, class, ethnicity, and sexuality have shaped these experiences are used to analyze the varied experiences of U.S. women. The relationship between these experiences and the larger historical forces of the era, including social movements, technology, and changing family roles and structure, is evaluated. Students may receive credit for only one of the following courses: HIST 211, HIST 367, or HIST 377.

HIST 381 America in Vietnam (3)
Prerequisite: A writing course. Recommended: WRTG 291. An examination of the complexity of the lengthy involvement of the United States in Vietnam. The goal is to engage in divergent historical interpretations and develop personal conclusions and perspectives about America’s role in Vietnam and its legacy. Discussion covers the social, cultural, political, and military dimensions of the Vietnam War, beginning with the declaration of Vietnamese independence at the conclusion of World War II. Emphasis is on the influence of the media in shaping government policy and public opinion. Students may receive credit for only one of the following courses: BEHS 337 or HIST 381.

HIST 382 The Korean War (3)*
Prerequisite: A writing course. Recommended: WRTG 291. An exploration of the Korean War, including the origins of the conflict on the peninsula and the reasons for Soviet, American, and Chinese involvement. Military strategy and campaigns are discussed, as are U.S. domestic politics and the consequences of the war for the nations and peoples involved. Students may receive credit for only one of the following courses: HIST 382 or HIST 318O. * On-site format available only in Asia.

HIST 391 History of the Contemporary Middle East (3)
Prerequisite: A writing course. Recommended: WRTG 291. A survey of the history of the Middle East from the late 19th century to the present. The aim is to identify the important events of the last century in the Middle East; understand the sources of contention in that area; and examine the ideology, politics, and culture of the area and how they impact U.S.-Middle East relations. Focus is on major political, economic, social, and cultural trends that inform current events in the region. Topics include the late Ottoman Empire, European colonialism, the rise of nationalism and nation-states, the Arab-Israeli conflict, political Islam, the role of the United States in the region, and contemporary approaches to modernity in the Middle East.
HIST 461 African American History: 1865 to the Present (3)
Prerequisite: A writing course. Recommended: WRTG 291. An examination of experience of African Americans in the United States since the Civil War. The objective is to examine the significance of the emancipation of African Americans and various leadership and philosophical perspectives within the African American community. Topics include emancipation and Reconstruction; segregation, accommodationism, and institution building; migration and urbanization; resistance and the birth and growth of the civil rights movement; and the problem of race and racism as a national issue with global impact in the modern world.

HIST 462 The U.S. Civil War (3)
An examination of the origins, conduct, and impact of the American Civil War and Reconstruction (1850–77). The goal is to apply historical methodology to issues of the Civil War and Reconstruction; assess Civil War strategies, tactics, and operations; and evaluate how race, culture, politics, and technology affected the course of the Civil War and Reconstruction.

HIST 464 World War I (3)
Prerequisite: Any writing course. An intensive study of the First World War. Topics include the development of nationalism and socialism in late 19th-century Europe, the causes of the First World War, trench warfare on the western front, war in the Balkans, total war on the home fronts, the Russian Revolution of 1917, the collapse of the Central Powers, the 1918 settlements, the postwar conflicts that continued to haunt Europe until 1923, and the concept of the Lost Generation.

HIST 465 World War II (3)
An investigation of the global issues and events that led to the Second World War. Emphasis is on analyzing the factors that contributed to the competing ideologies, as well as the social, political, and economic conditions that ignited the most lethal conflict in human history. The goal is to understand the causes, nature, and outcome of the Second World War and the impact on the world in which we live.

HIST 480 History of China to 1912 (3)
A study of the history of China from Confucius (around 500 BC) to the demise of the Qing Dynasty in 1912. The objectives are to interpret, educate, and advise others based on a historical, cultural, and social awareness of traditional China. Emphasis is on the changes within Chinese political, social, cultural, and philosophical structures that have molded the history of China and its peoples.

HIST 482 History of Japan to 1800 (3)
Prerequisite: A writing course. Recommended: WRTG 291. An examination of traditional Japanese civilization from the age of Shinto mythology to the late Edo period. The aim is to interpret, educate, and advise others based on a historical, cultural, and social awareness of traditional Japan.

HIST 483 History of Japan Since 1800 (3)
Prerequisite: A writing course. Recommended: WRTG 291. An examination of Japan's emergence as an industrial society and world power. The goal is to interpret, educate, and advise others based on a historical, cultural, and social awareness of modern Japan. Discussion covers Japan's role in World War II, postwar recovery, and re-emergence as an exporter of cultural goods.

HIST 486A Workplace Learning in History (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HIST 486B Workplace Learning in History (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HIST 495 Senior Thesis in History (3)
(Intended as a final, capstone course to be taken in a student's last 15 credits, preferably a year after completing HIST 309.) Prerequisites: At least 21 credits in HIST courses, including HIST 289 and HIST 309. Intensive research into a specific topic in history of the student's choice. The objective is to produce a substantial, original historical research project suitable for presentation or publication.

Homefront Security

HMLS 302 Introduction to Homeland Security (3)
Prerequisite: WRTG 112 or equivalent. An introduction to the theory and practice of homeland security in both the public and private sector at national, regional, state, and local levels. The objective is to apply management concepts to homeland security, identify legal and policy issues related to homeland security, and compare the four phases of homeland security. An overview of the administrative, legislative, and operational elements of homeland security programs and processes (including a review of homeland security history, policies, and programs) is provided. Topics include the threat of terrorism and countermeasures, including intelligence, investigation, and policy that support U.S. homeland security objectives.
HMLS 304 Strategic Planning in Homeland Security (3)
Prerequisite: HMLS 406. A study of the fundamentals of strategic planning necessary for the maintenance of domestic security and the operation of the homeland security organization in the public and private sectors. The goal is to develop and analyze homeland security strategic plans. Topics include organizational priorities, planning documents, policy development, legislation, financial operations, and the evaluation process. Analysis covers threat, risk, vulnerability, probability, and impact as parameters for decision making and resource allocation.

HMLS 310 Homeland Security Response to Critical Incidents (3)
Prerequisites: HMLS 302 and HMLS 406. A real-world assessment of the issues involved in responding to homeland security critical incidents. The aim is to prepare for future challenges, integrate critical incident responses at all levels, and analyze the effect of regulations and laws on critical incident response. Discussion covers historical and potential incidents as they relate to resources, cooperation, politics, regulations, operations, and postincident response.

HMLS 406 Legal and Political Issues of Homeland Security (3)
Prerequisite: HMLS 302. A study of the legal aspects of public policy in homeland security. The aim is to analyze governmental and private-sector roles and form a model homeland security policy. The development of public policy in homeland security is examined at local, regional, national, and international levels. Topics include surveillance, personal identity verification, personal privacy and redress, federal legislation passed in the aftermath of the terrorist attacks of 2001, the rights of foreign nationals, the rights of U.S. citizens, the governmental infrastructure for decisions concerning legal rights, and the difficulties of prosecuting terrorist suspects (such as jurisdictional issues, rules of evidence, and prosecution strategies).

HMLS 408 Infrastructure in Homeland Security (3)
Prerequisite: HMLS 406. An examination of infrastructure protection at international, national, regional, state, and local levels. The objective is to assess threat, risk, and vulnerabilities and recommend protective measures. Topics include critical infrastructure at all levels of government, the private sector, and the international community. An overview of U.S. homeland security policy as it relates to the protection of critical infrastructures and key assets (including the roles of the federal, state, and local governments and the private sector in the security of these resources) is provided. Focus is on risk reduction and protection of critical infrastructures using available resources and partnerships between the public and private sectors.

HMLS 414 Homeland Security and Intelligence (3)
Prerequisite: HMLS 406. A study of the role of intelligence in homeland security. The objective is to interpret the concepts of information; analyze the production of intelligence; and recognize the U.S. intelligence and law enforcement communities, as well as other agencies and organizations that have a part in the nation’s homeland security intelligence activities. Topics include the various steps of the intelligence process: the collection, analysis, sharing, and dissemination of information between governments and between government and the private sector. Emphasis is on evaluating current intelligence and enforcement efforts. Discussion also covers future challenges and opportunities for intelligence operations.

HMLS 416 Homeland Security and International Relations (3)
Prerequisite: HMLS 406. An examination of the relationship of international institutions to U.S. homeland security policy, intelligence, and operations. The aim is to incorporate a global perspective in the development of U.S. homeland security, analyze international institutions that influence U.S. homeland security, and integrate international information sharing in public- and private-sector approaches to security. Domestic security operations abroad are compared to U.S. policy, laws, and procedures. Topics include the commonality of global approaches to domestic security everywhere and the value of information sharing between governments and international institutions.

HMLS 495 Public Safety Policies and Leadership (3)
(Intended as a final, capstone course to be taken in a student’s last 15 credits.) Prerequisites: At least 15 credits in upper-level EMGT, FSCN, HMLS, or PSAD courses (numbered 300 or 400). A study of leadership theories, skills, and techniques used in the public safety professions. The interdisciplinary perspective—encompassing criminal justice, emergency management, fire science, and homeland security—is designed to support integrated public safety management. A review of current issues and contemporary leadership styles in the public safety professions integrates knowledge and principles gained through previous coursework. Case studies and exercises are used to address challenges in strategic planning. Other tools focus on evaluation of personal leadership styles and techniques.

Humanities

HUMN 100 Introduction to Humanities (3)
An introduction to the humanities through a review of some of the major developments in human culture. The goal is to analyze how societies express their ideas through art, literature, music, religion, and philosophy and to consider some of the underlying assumptions about the way societies are formed and run. Focus
COURSE INFORMATION
UNDERGRADUATE COURSE DESCRIPTIONS

BMGT 360, HRMN 300, or TMGT 360. may receive credit for only one of the following courses:  

HUMN 301 Human Behavior in Organizations (3)  
Recommended: HUMN 100. A study of the strategic role of human resource management. The objective is to apply knowledge of human behavior, labor relations, and current laws and regulations to a working environment. Topics include employment laws and regulations, diversity in a global economy, total rewards management, and training and development for organizational success. Students may receive credit for only one of the following courses: BMGT 360, HRMN 300, or TMGT 360.

HUMAN RESOURCE MANAGEMENT  
HRMN 300 Human Resource Management (3)  
A basic study of the strategic role of human resource management. The objective is to apply knowledge of human behavior, labor relations, and current laws and regulations to a working environment. Topics include employment laws and regulations, diversity in a global economy, total rewards management, and training and development for organizational success. Students may receive credit for only one of the following courses: BMGT 360, HRMN 300, or TMGT 360.

HRMN 395 The Total Rewards Approach to Compensation Management (3)  
Prerequisite: HRMN 300. An exploration of alternative compensation philosophies that define total rewards as everything that employees value in the employment relationship. The objective is to design a total rewards program that ensures organizational success. Topics include building and communicating a total rewards strategy, compensation fundamentals, the conduct and documentation of a job analysis, linking pay to performance, employee motivation, and performance appraisal. Strategies such as incentive cash and/or stock compensation programs, employee ownership, benefits, and nonmonetary rewards are discussed and evaluated. The interrelationships among compensation, motivation, performance appraisal, and performance within the workplace. The aim is to design and implement strategies to reduce the impact of stress in the workplace. Topics include building and communicating a total rewards program that ensures organizational success. Students may receive credit for only one of the following courses: BMGT 360, HRMN 300, or TMGT 360.

HRMN 362 Labor Relations (3)  
A survey of contemporary labor relations practices. The aim is to research and analyze labor relations issues and support the labor relations process. Discussion covers the history of organized labor in the United States, the role of third parties, organizing campaigns, the collective bargaining process, and the resolution of employee grievances. Students may receive credit for only one of the following courses: BMGT 398N, HRMN 392, MGMT 320, MGST 315, or TEMN 315.

HRMN 395 The Total Rewards Approach to Compensation Management (3)  
Prerequisite: HRMN 300. An exploration of alternative compensation philosophies that define total rewards as everything that employees value in the employment relationship. The objective is to design a total rewards program that ensures organizational success. Topics include building and communicating a total rewards strategy, compensation fundamentals, the conduct and documentation of a job analysis, linking pay to performance, employee motivation, and performance appraisal. Strategies such as incentive cash and/or stock compensation programs, employee ownership, benefits, and nonmonetary rewards are discussed and evaluated. The interrelationships among compensation, motivation, performance appraisal, and performance within the workplace. The aim is to design and implement strategies to reduce the impact of stress in the workplace. Topics include building and communicating a total rewards program that ensures organizational success. Students may receive credit for only one of the following courses: BMGT 360, HRMN 300, or TMGT 360.

HRMN 367 Organizational Culture and Change (3)  
An examination of the nature, definitions, theories, and aspects of organizational culture. The goal is to apply knowledge of organizational culture to develop a change-management plan. Analysis covers patterns of behavior and their relationship to organizational culture, especially the impact of the organization's business on employee behavior and culture. Topics include the role of nationality, gender, and race within organizational culture; implications of addressing organizational challenges; theory versus practice; and the relative roles of the individual, groups, and the organization in a cultural context. Students may receive credit for only one of the following courses: BMGT 398T or HRMN 367.

HRMN 392 Stress Management in the Workplace (1)  
An overview of the impact of stress in the workplace. The aim is to identify and apply strategies to reduce the impact of stress in the workplace. Students may receive credit for only one of the following courses: BMGT 398Y, HRMN 392, MGMT 398Y, or MGST 398H.

HRMN 395 The Total Rewards Approach to Compensation Management (3)  
Prerequisite: HRMN 300. An exploration of alternative compensation philosophies that define total rewards as everything that employees value in the employment relationship. The objective is to design a total rewards program that ensures organizational success. Topics include building and communicating a total rewards strategy, compensation fundamentals, the conduct and documentation of a job analysis, linking pay to performance, employee motivation, and performance appraisal. Strategies such as incentive cash and/or stock compensation programs, employee ownership, benefits, and nonmonetary rewards are discussed and evaluated. The interrelationships among compensation, motivation, performance appraisal, and performance within the workplace. The aim is to design and implement strategies to reduce the impact of stress in the workplace. Topics include building and communicating a total rewards program that ensures organizational success. Students may receive credit for only one of the following courses: BMGT 360, HRMN 300, or TMGT 360.
the organization are examined. Discussion also covers the design and implementation of a total rewards program, including organizational compatibility. Students may receive credit for only one of the following courses: BMGT 388L, HRMN 390, or HRMN 395.

HRMN 400 Human Resource Management: Issues and Problems (3)
Prerequisite: HRMN 300. A study of the role of human resource management in the strategic planning and operation of organizations, performance appraisal systems, and compensation and labor/management issues. The goal is to research and evaluate issues and present strategic solutions. The influence of federal regulations (including equal opportunity, sexual harassment, discrimination, and other employee-related regulations) is analyzed. A review of research findings, readings, discussions, case studies, and applicable federal regulations supports the critical evaluation of human resource problems. Students may receive credit for only one of the following courses: BMGT 460, HRMN 400, or TMGT 360.

HRMN 406 Employee Training and Development (3)
Prerequisite: HRMN 300. An examination of employee training and human resource development in various organizations. Topics include the development, administration, and evaluation of training programs; employee development; career development; and organizational change. Issues in employee development (including assessment of employee competencies, opportunities for learning and growth, and the roles of managers in employee development) are explored. Students may receive credit for only one of the following courses: BMGT 498I, HRMN 406, or MGMT 498I.

HRMN 408 Employment Law for Business (3)
(Designed for managers and human resource professionals.) Recommended: HRMN 300. A conceptual and functional analysis of the legal framework of employment relations. The aim is to understand employment law; comply with laws and regulations; and evaluate rights, obligations, and liabilities in the employment process, from hiring and staffing to compensation and layoff. Topics include ethical considerations; discrimination based on race, national origin, religion, sex, affinity and sexual orientation, age, and disability; the hiring process, testing, and performance appraisal; employee privacy; wrongful discharge; employee benefits; health and safety; independent contractors; and labor unions. Students may receive credit for only one of the following courses: BMGT 468, BMGT 498G, HRMN 408, or MGMT 498G.

HRMN 410 HR Information Systems and Metrics Analysis (3)
Prerequisites: HRMN 300 and HRMN 400. A study of human resource metrics associated with performance management, talent acquisition, retention, and employee engagement in the strategic planning and operation of organizations. The goal is to research and evaluate HR information systems for the collection, mining, dissemination, and analysis of data related to HR issues and present strategic solutions. A review of research findings and case studies supports the critical evaluation of human resource problems. Common HR metrics are applied to people analytics for problem solving.

HRMN 467 Global Human Resource Management (3)
Prerequisite: HRMN 300. Recommended: HRMN 367. A comprehensive study of global human resource management. The objective is to demonstrate intercultural competencies; identify trends in the globalized workforce; and analyze policies, practices, and functions in global human resources. Topics include global staffing, training, compensation, and evaluation.

HRMN 486A Workplace Learning in Human Resource Management (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HRMN 486B Workplace Learning in Human Resource Management (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HRMN 495 Contemporary Issues in Human Resource Management Practice (3)
(Designed as a final, capstone course to be taken in a student’s last 15 credits). Prerequisite: HRMN 400. A study of human resource management that integrates knowledge gained through previous coursework and experience and builds on that conceptual foundation through integrative analysis, practical application, and critical thinking. The goal is to consider and analyze emerging issues in human resource management. Students may receive credit for only one of the following courses: BMGT 388K, HRMN 494, or HRMN 495.

Japanese

JAPN 111 Elementary Japanese I (3)
(Not open to native speakers of Japanese; assumes no prior knowledge of Japanese. Students with prior experience with the Japanese language should take a placement test to assess appropriate level.) An introduction to spoken and written Japanese language. The objective is to communicate in Japanese in some concrete, real-life situations using culturally appropriate language; read and write hiragana, and read some katakana words in context.
JAPN 112 Elementary Japanese II (3)
(Not open to native speakers of Japanese.) Prerequisite: JAPN 111 or appropriate score on a placement test. A continued introduction to spoken and written Japanese. The goal is to communicate in Japanese in concrete, real-life situations using culturally appropriate language; read and write katakana; and recognize some kanji characters in context. Practice is provided in improving pronunciation and developing the oral and written skills used in everyday communication.

JAPN 114 Elementary Japanese III (3)
(Not open to native speakers of Japanese.) Prerequisite: JAPN 112 or appropriate score on a placement test. Further study of spoken and written Japanese. The aim is to communicate in Japanese in a variety of concrete, real-life situations using culturally appropriate language and to expand recognition of kanji characters in context. Practice is provided in improving pronunciation and developing the oral and written skills used in everyday communication.

JAPN 115 Elementary Japanese IV (3)
(Not open to native speakers of Japanese.) Prerequisite: JAPN 114 or appropriate score on a placement test. Further development of skills in elementary spoken and written Japanese. The aim is to interact effectively with native speakers of Japanese in a variety of real-life situations using culturally appropriate language and to recognize and distinguish more commonly used kanji characters in context. Practice is provided in fine-tuning pronunciation and applying language skills to a range of contexts.

JAPN 221 Intermediate Japanese I (3)
(Not open to native speakers of Japanese.) Prerequisite: JAPN 115 or appropriate score on a placement test. Development of skills in intermediate spoken and written Japanese. The aim is to interact effectively with native speakers of Japanese in a range of personal and professional situations and to recognize and read approximately 275 Japanese characters in context. Focus is on using culturally appropriate language in a variety of contexts.

JAPN 222 Intermediate Japanese II (3)
(Not open to native speakers of Japanese.) Prerequisite: JAPN 221 or appropriate score on a placement test. Further development of skills in intermediate spoken and written Japanese. The aim is to communicate effectively with native speakers of Japanese in a broad range of personal and professional situations and to recognize and read approximately 320 Japanese characters in context. Practice is provided in interacting with others in a variety of interpersonal contexts.

JAPN 333 Japanese Society and Culture (3)
(Formerly ASTD 333. Fulfills the general education requirement in the arts and humanities. Conducted in English.) A study of the origin and historical background of contemporary Japanese society and culture. Students may receive credit for only one of the following courses: ASTD 333 or JAPN 333.

**Journalism**

JOUR 201 Introduction to News Writing (3)
(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112 or equivalent. An introduction to writing news articles for print and electronic media. The aim is to evaluate the newsworthiness of information and events and write in journalistic style. Emphasis is on writing, from mechanics (grammar, spelling, punctuation, and journalistic style) to content (accuracy, completeness, audience, and readability) and reporting.

JOUR 330 Public Relations Theory (3)
Prerequisite: JOUR 201. A study of the evolution, scope, and contemporary practice of public relations and its strategic value in business, nonprofits, government, associations, and other organizations. The goal is to apply legal, ethical, and professional standards to the everyday practice of public relations. Topics include communication theory, social science, and audience dimensions as they are applied to a four-step process: research, planning, communication, and evaluation.

JOUR 486A Workplace Learning in Journalism (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

JOUR 486B Workplace Learning in Journalism (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**Korean**

Courses in Korean (designated KORN) may be applied as appropriate (according to individual program requirements) toward

- The general education requirement in the arts and humanities
- A major or minor in East Asian studies
- An AA General Studies with foreign language area studies curriculum
- A certificate in foreign language area studies
- Electives
For further information, students should refer to Foreign Languages.

KORN 111 Elementary Korean I (3)
(Assumes no prior knowledge of Korean.) An elementary study of Korean. Emphasis begins with oral communication skills, and leads to balanced proficiency in the four communication skills of listening, speaking, reading, and writing. Topics include basic structures, vocabulary, pronunciation, and writing, as well as elements of culture, history, and geography. Authentic text from native speakers is used as much as possible.

KORN 112 Elementary Korean II (3)
(Prerequisite: KORN 111. Continued basic study of Korean, emphasizing oral communication and leading to a balanced development of proficiency in the four communication skills of listening, speaking, reading, and writing. Basic structures, vocabulary, pronunciation, and writing are practiced along with continued familiarity with culture, history, and geography. Oral and written authentic text from native speakers is used as much as possible.

KORN 114 Elementary Korean III (3)
Prerequisite: KORN 112. Further development of speaking and listening skills and study of linguistic structure. Writing skills are cultivated.

KORN 115 Elementary Korean IV (3)
Prerequisite: KORN 114. Further development of speaking and listening skills and study of linguistic structure. Writing skills are cultivated.

KORN 221 Intermediate Korean I (3)
Prerequisite: KORN 115. Advanced integrated study of Korean. Emphasis is on reading and writing.

KORN 222 Intermediate Korean II (3)
Prerequisite: KORN 221. Advanced integrated study of Korean. Emphasis is on reading and writing.

KORN 333 Korean Society and Culture (3)
(Formerly ASTD 353. Fulfills the general education requirement in the arts and humanities. Conducted in English.) Recommended: Any writing class and either ASTD 284 or ASTD 285. An interdisciplinary study of contemporary Korea from a variety of socio-historical and cultural perspectives. Topics include the Korean diaspora, the Korean Wave (Hallyu), Korea as a conduit between China and Japan, social and religious practices, Korean women, the Japanese occupation, and Korea's global impact. The aim is to articulate the key historic developments that have shaped contemporary Korean society, recognize and distinguish unique Korean influences and contributions, and assess key aspects of traditional and contemporary Korean society and culture. Focus is on developing a stronger understanding of Korean society and culture for practical and professional application. Students may receive credit for only one of the following courses: ASTD 353 or KORN 333.

Legal Studies

LGST 101 Introduction to Law (3)
A survey of the U.S. legal system and the roles and responsibilities of the various personnel who work in that environment. The objective is to evaluate situations and make recommendations for action based on an understanding of law, legal institutions, and court procedures. Topics include the organization and powers of federal and state lawmakers, court procedures, legal analysis, and careers in the legal environment. Students may receive credit for only one of the following courses: LGST 101 or PLGL 101.

LGST 200 Techniques of Legal Research (3)
An introduction to common research methods used to locate primary and secondary authority relevant to given topics and issues. The goal is to find valid, relevant, mandatory primary authority. Topics include the analysis, publication, and citation of judicial opinions and statutory law, the features and use of secondary sources; and various computer-assisted research tools to find and validate primary authority. Students may receive credit for only one of the following courses: LGST 200 or PLGL 200.

LGST 201 Legal Writing (3)
Prerequisite: LGST 200. An introduction to the principles of writing clearly and effectively in the legal environment. The objective is to draft writings that synthesize law, analyze legal issues, and explain law and legal analysis to a nonlegal audience. Assignments include a legal synthesis memo, case law and statutory analysis memos, and a client letter. Students may receive credit for only one of the following courses: LGST 201 or PLGL 201.

LGST 204 Legal Ethics (3)
Prerequisite: LGST 200. An introduction to the principles of writing clearly and effectively in the legal environment. The objective is to draft writings that synthesize law, analyze legal issues, and explain law and legal analysis to a nonlegal audience. Assignments include a legal synthesis memo, case law and statutory analysis memos, and a client letter. Students may receive credit for only one of the following courses: LGST 204 or PLGL 204.
LGST 300 Advanced Legal Research and Analysis (3)
Prerequisite: LGST 200. An in-depth examination of research methods to identify primary authority relevant to legal issues. The goal is to identify legal issues, implement research strategies to find relevant primary authority, and use this authority to analyze the issues. Topics include the use of computer-assisted legal research systems to locate case law, statutory law, administrative law, and rules of procedure and evidence and methods to identify and analyze legal issues. Students may receive credit for only one of the following courses: LGST 400 or PLGL 400.

LGST 301 Advanced Legal Writing (3)
Prerequisite: LGST 201. A focused study of the principles and techniques for drafting legal advocacy writings. The objective is to analyze legal issues and advocate for results based on that analysis. Assignments include a complex office memorandum, a demand letter, and an external advocacy memorandum. Students may receive credit for only one of the following courses: LGST 301, LGST 401, or PLGL 401.

LGST 312 Torts (3)
Prerequisite: LGST 201. A study of the causes of action, defenses, and remedies in the major categories of tort law, as well as tort-litigation procedures and writings. The goal is to investigate and evaluate tort claims in order to develop litigation strategies and to research law in order to draft legal writings that support a legal conclusion. Topics include intentional torts, negligence, strict liability, damages, and civil procedure. Students may receive credit for only one of the following courses: LGST 312 or PLGL 312.

LGST 314 Workers’ Compensation Law (1)
A thorough study of the Maryland Workers’ Compensation Act and the practice of workers’ compensation law in Maryland. The goal is to apply knowledge of legal systems, concepts, and methodologies to support client objectives efficiently and ethically. Topics include employer/employee relationships, injuries, defenses, compensation benefits, vocational rehabilitation, and appeals. Assignments include legal and factual research and the composition of legal documents or completion of forms. Students may receive credit for only one of the following courses: LGST 314 or PLGL 398H.

LGST 315 Domestic Relations (3)
Prerequisite: LGST 201. A study of the processes, procedures, and writings of family law practice. The aim is to identify, analyze, and apply the rules of professional conduct to domestic issues; research applicable law and factual information related to domestic relations issues and draft legal writings; and complete standardized forms to resolve domestic issues. Topics include divorce, separation, and annulment and alimony; child custody and visitation; child support; disposition of property; and the legal rights of children. Relevant aspects of civil procedures, enforcement, and the modification of orders and agreements are covered. Students may receive credit for only one of the following courses: FMCD 487, LGST 315, or PLGL 315.

LGST 316 Estates and Probate (3)
Prerequisite: LGST 201. A fundamental study of the legal concepts required to draft and prepare simple wills and administer estates. The goal is to construct an estate plan supporting the creation and administration of a simple estate. Topics include preliminary and practical considerations of administering an estate; the appraisal of estate assets and probate inventory; inheritance taxes; claims against the estate; management of debts, accounting, and distribution considerations; the drafting and execution of wills; and guardianships. Assignments include legal research and written analysis that reflect the processes and procedures required by law. Students may receive credit for only one of the following courses: LGST 316, PLGL 216, or PLGL 316.

LGST 320 Criminal Law and Procedures (3)
Prerequisite: LGST 201. A study of the substantive and procedural aspects of the criminal justice system. The objective is to identify, analyze, and apply the rules of professional conduct to develop ethical strategies, research law, and draft legal writings to support the prosecution or defense of crimes. Topics include crimes and defenses, penalties, and court procedures. Students may receive credit for only one of the following courses: LGST 320 or PLGL 320.

LGST 325 Litigation (3)
Prerequisite: LGST 201. A comprehensive study of the Federal Rules of Civil Procedure and the process of civil litigation. The aim is to use technology and administrative best practices to collect, track, retrieve, and prepare evidence during the litigation process; interpret and apply the rules to develop case strategies; and interact with individuals within the legal system to effectively and ethically support the litigation process. Students may receive credit for only one of the following courses: LGST 325 or PLGL 325.
LGST 327 Alternative Dispute Resolution (3)
An overview of the various processes and techniques to settle disputes without court adjudication. Topics include alternatives to litigation and their advantages, characteristics of effective mediation, ethics, and virtual dispute resolution techniques. The objective is to become familiar with various methods of dispute resolution and potential career opportunities in alternative dispute resolution. Students may receive credit for only one of the following courses: LGST 327, PLGL 327, or PLGL 398G.

LGST 330 Administrative Law (3)
Prerequisite: LGST 201. An overview of the functions and procedures of federal and state administrative agencies. The goal is to monitor and analyze administrative agency actions in order to make recommendations to proposed and final agency rules and administrative decisions. Topics include rulemaking, adjudication, the use and control of agency discretion, and disclosure of information. Focus is on researching relevant law and writing effective and persuasive communications for use in administrative adjudications or to obtain information held by government agencies. Students may receive credit for only one of the following courses: LGST 330 or PLGL 330.

LGST 340 Contract Law (3)
Prerequisite: LGST 201. A comprehensive study of the major areas of contract law. The objective is to identify and analyze contractual precedent and statutory authority; develop litigation strategies; and explain contract concepts, remedies, and procedures that support a legal conclusion. Topics include formation, interpretation and enforcement, discharge, breach, and remedies for breach. Students may receive credit for only one of the following courses: LGST 340 or PLGL 340.

LGST 486A Workplace Learning in Legal Studies (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

LGST 486B Workplace Learning in Legal Studies (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

LGST 495 Advanced Legal Practices (3)
( Intented as a capstone course, to be taken in a student's last 9 credits of coursework for the major.) Prerequisite: LGST 301. A portfolio-driven study of professional practices in the legal field. The goal is to integrate the competencies gained through previous coursework and experience. Assignments include projects relevant to work in the legal environment.

Library Skills and Information Literacy

LIBS 150 Introduction to Research (1)
An introduction to the research process and methods for retrieving information in a library or through online sources. The aim is to identify an information need and locate, evaluate, and use appropriate resources in keeping with academic integrity and ethical standards. Focus is on implementing effective strategies for finding relevant information—including selecting appropriate print and electronic sources and effectively using web search engines and the UMGC Library's electronic resources to find information—and evaluating and correctly citing the information found. Students may not earn credit for LIBS 150 through challenge exam or portfolio credit and may receive credit for only one of the following courses: COMP 111, LIBS 100, or LIBS 150.

Management Information Systems

IFSM 201 Concepts and Applications of Information Technology (3)
( Access to a standard office productivity package, i.e., word processing, spreadsheet, database, and presentation software, required.) An introduction to data and the range of technologies (including hardware, software, databases, and networking and information systems) that provide the foundation for the data-centric focus of modern organizations. The objective is to apply knowledge of basic technical, ethical, and security considerations to select and use information technology (and the data that arises from technology) effectively in one's personal and professional lives. Discussion covers issues related to technology as a vehicle for collecting, storing, and sharing data and information, including privacy, ethics, security, and social impact. Applied exercises focus on the manipulation, analysis, and visualization of data and effective data communication strategies. Students may receive credit for only one of the following courses: BMGT 301, CAPP 101, CAPP 300, CMST 300, IFSM 201, or TMGT 201.
IFSM 300 Information Systems in Organizations (3)
Prerequisite: WRTG 112 or equivalent. Recommended: IFSM 201 (or another computing course appropriate to the academic major) and WRTG 293. An overview of information systems and how they provide value by supporting organizational objectives. The goal is to analyze business strategies to recognize how technology solutions enable strategic outcomes and to identify information system requirements by analyzing business processes. Discussion covers concepts of business processes and alignment of information systems solutions to strategic goals.

IFSM 301 Foundations of Management Information Systems (3)
Prerequisite: IFSM 300. An overview of information technology management and governance. The goal is to be familiar with IT organizations, management of IT strategy, and factors in IT decision making. Topics include strategic alignment, portfolio management, risk management, business continuity, compliance, and organizational relationships.

IFSM 304 Ethics in Information Technology (3)
Recommended: IFSM 201. A comprehensive study of ethics and personal and organizational ethical decision making in the use of information systems in a global environment. The aim is to identify ethical issues raised by existing and emerging technologies, apply a structured framework to analyze risk and decision alternatives, and understand the impact of personal ethics and organizational values on an ethical workplace.

IFSM 305 Information Systems in Healthcare Organizations (3)
An overview of how information systems provide value by supporting organizational objectives in the healthcare sector. The goal is to evaluate how technology solutions support organizational strategy in the healthcare environment and improve quality of care, safety, and financial management. Topics include the flow of data among disparate health information systems and the ethical, legal, and regulatory policy implications.

IFSM 310 Software and Hardware Infrastructure Concepts (3)
Prerequisite: IFSM 301. A study of the hardware, software, and network components of computer systems and their interrelationships. The objective is to select appropriate components for organizational infrastructures. Discussion covers the application of system development life-cycle methodology to build secure integrated systems that meet business requirements. Students may receive credit for only one of the following courses: CMIS 270, CMIS 310, CMSC 311, or IFSM 310.

IFSM 311 Enterprise Architecture (3)
Prerequisite: IFSM 310. A study of enterprise architecture and frameworks, including the transition of current business processes and functional systems to an enterprise solution. The aim is to analyze how enterprise architecture and resulting enterprise systems support an organization's ability to adapt and respond to a continually changing business and competitive environment.

IFSM 330 Business Intelligence and Data Analytics (3)
Prerequisite: CMIS 102 or prior programming experience. A hands-on, project-based introduction to databases, business intelligence, and data analytics. The aim is to design secure industry-standard databases and utilize business intelligence and data analytics techniques and technologies to support decision making. Topics include data and relational databases, SQL queries, business intelligence tools and alignment with business strategy, data analytics, and visualization techniques.

IFSM 370 Telecommunications in Information Systems (3)
(Formerly CSIA 302.) Prerequisite: CSIA 301 or IFSM 300. An introduction to telecommunication infrastructure. The goal is to plan, analyze, and design a secure telecommunication infrastructure that meets business needs and protects information assets. Topics include cybersecurity, data communication protocols and standards, networks, and trends in telecommunications. Students may receive credit for only one of the following courses: CMIS 370, CMSC 370, CSIA 302, IFSM 370, or IFSM 450.

IFSM 380 Managing and Leading in Information Technology (3)
Prerequisite: IFSM 201 or IFSM 300. A foundation in leadership skills for the fast-paced information technology environment. The goal is to expand interpersonal communication skills, think critically, solve problems, and apply basic management principles to complete tasks effectively. Topics include effective communication in customer-facing and managerial environments, critical thinking and problem solving, time management, and the application of leadership and management concepts in the workplace of today and tomorrow. Students may receive credit for only one of the following courses: IFSM 380 or IFSM 250.

IFSM 432 Business Continuity Planning (3)
Prerequisite: IFSM 311. An analysis of the requirements for business continuity and disaster recovery planning related to mission-critical business information systems. The goal is to assess the risk to continuity of business processes, develop a business continuity/disaster recovery plan according to industry standards and best practices, and develop a test plan. Topics include risk assessment and organizational requirements for maintaining systems. A group project is designed to produce and validate a comprehensive business continuity and disaster recovery plan.
Students may receive credit for only one of the following courses: IFSM 432 or IFSM 498N.

IFSM 438 Information Systems Project Management (3)
Prerequisite: IFSM 300 or CSIA 350. A practical application of project management principles and procedures. The objective is to manage and control IT projects in alignment with organizational strategic goals and within resource constraints and to manage high-performing project teams to implement IT solutions. Topics include the development, control, and execution of plans to manage information systems projects as part of a team and the use of Microsoft Project to develop project schedules and related components. Students may receive credit for only one of the following courses: IFSM 438 or TMGT 430.

IFSM 441 Agile Project Management (3)
Prerequisite: IFSM 438. An advanced study of agile project management methods for software development. The objective is to apply agile practices to better manage projects characterized by complexity and uncertainty with responsiveness and adaptability and to consider alternative approaches to managing projects by matching the approach to the characteristics of a project. Topics include estimation techniques; the scrum (software development process, i.e., inspect, adapt, and improve; and dealing with organizational impediments to adoption.

IFSM 461 Systems Analysis and Design (3)
Prerequisites: IFSM 311 and either IFSM 330 or CMIS 320. A project-driven study of tools and techniques for translating business requirements into operational systems. The goal is to plan, build, and maintain systems that meet organizational strategic goals by applying enterprise architecture and enterprise governance principles and practices. Topics include processes and system development life-cycle methodologies, data modeling methods, and the importance of stakeholder involvement. Students may receive credit for only one of the following courses: IFSM 436, IFSM 460, or IFSM 461.

IFSM 486A Workplace Learning in Management Information Systems (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

IFSM 486B Workplace Learning in Management Information Systems (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

IFSM 495 Trends and Practical Applications in Management Information Systems (3)
(Intended as a capstone course to be taken in a student's last 6 credits of major coursework.) Prerequisites: IFSM 438 and IFSM 461. A practical application of the knowledge and experience gained from previous study in management information systems. The aim is to demonstrate a mastery of management information systems concepts. Emerging issues and trends in management information systems are considered.

Marketing

MRKT 310 Marketing Principles (3)
A foundation in the principles of marketing used to manage profitable customer relationships. The objective is to understand the pivotal role of marketing within both an organization's strategic plan and the marketing process and determine marketing strategies and tactics. Topics include consumer behavior, competitive analysis, segmentation, target marketing, positioning, branding, new product development, pricing, value chains, and marketing communications. Students may receive credit for only one of the following courses: BMGT 350, MGMT 322, MRKT 310, or TMGT 322.

MRKT 311 Digital Marketing Principles (3)
An introduction to the various types of digital marketing and the skills needed for each type. The aim is to recognize the various stages in the customer journey and marketing funnel. Discussions explore developing a unique value proposition and assessing the contribution of a SWOT (strengths, weaknesses, opportunities, threats) analysis to a marketing plan. Projects involve developing a digital marketing plan that includes a digital strategy to create and deliver value to consumers in a digital world.

MRKT 314 Nonprofit Marketing (3)
Prerequisite: MRKT 310. An overview of the key issues of marketing in a nonprofit organization. The aim is to develop marketing plans that maximize exchange relationships with multiple stakeholders. Topics include the application of marketing-mix principles. Projects include researching and writing a grant proposal. Students may receive credit for only one of the following courses: BMGT 398B or MRKT 314.
MRKT 354 Integrated Marketing Communications (3)  
Prerequisite: MRKT 310 or MRKT 311. A study of the integration of marketing communication strategies to coordinate the marketing mix's components and achieve harmony in messages to customers and other stakeholders. Emphasis is on leveraging various digital tools to achieve customer-centered marketing communications objectives. Topics include various communication modalities, e.g., digital media (including search, display, and social media), traditional advertising, personal selling, sales promotion, public relations, and direct marketing.

MRKT 356 Email Marketing (3)  
Prerequisite: MRKT 311. An introduction to various aspects of an effective email marketing campaign using segmentation, personalization, automation, and data analysis strategies. Topics include techniques to incorporate triggers in automated campaigns and generate Mailchimp email campaign reports. A final project entails presentation of a plan to execute an effective email campaign.

MRKT 394 Manage Customer Relationships in Digital Marketing (3)  
Prerequisite: MRKT 310 or MRKT 311. The analysis of digital marketing strategies in order to promote and retain customer relationships. Topics include identifying potential customers and analyzing data to improve the results of marketing campaigns. Hands-on experience in using Google Analytics and conducting A/B tests is provided through course projects. Data visualization techniques are used to gain better insights into customer experience.

MRKT 410 Consumer Behavior (3)  
Prerequisite: MRKT 310. A study of the increasing importance of understanding consumers in the marketing system. The objective is to assess internal, external, and situational factors in developing marketing strategies; apply internal factors to market segmentation; and formulate marketing-mix strategies. Discussion covers the foundations of consumer behavior (such as economic, social, psychological, and cultural factors) and the influence of well-directed communications. Consumers are analyzed in marketing situations as buyers and users of products and services and in relation to the various social and marketing factors that affect their behavior. Students may receive credit for only one of the following courses: BMGT 451, CNEC 437, or MRKT 410.

MRKT 411 Consumer Behavior in Digital Media (3)  
Prerequisite: MRKT 311. A study of consumer motivation and consumer behavior in a digital environment. The aim is to synthesize consumer research in order to develop insights into the target audience. Topics include branding, content development, and channel management strategy and their contribution to the consumer experience. Discussion also covers effective blog writing and developing optimum visual designs to influence consumer behavior.

MRKT 412 Marketing Research (3)  
Prerequisites: MATH 105 and MRKT 310. A study of the specialized field of marketing research as it is used to identify market needs, profile target markets, test promotional efforts, and measure the effectiveness of marketing plans. The goal is to assess marketing research needs, design and implement a marketing research plan, and use results to formulate marketing strategies. Discussion covers procedures for planning survey projects, designing statistical samples, tabulating data, and preparing reports. Emphasis is on managing the marketing research function. Students may receive credit for only one of the following courses: BMGT 452 or MRKT 412.

MRKT 454 Global Marketing (3)  
Prerequisite: MRKT 310. An in-depth study of marketing principles as they relate to the global marketplace. The aim is to apply marketing principles and strategies to a global organization and markets. Discussion covers the influence of internationalization on the U.S. economy, the competitive pressures on the intensifying global markets, and the development of marketing plans tailored to reach international and global markets. Topics also include the political, economic, legal, regulatory, and sociocultural trends affecting international marketing; the dynamic environments in which global marketing strategies are formulated; and the challenge of implementing marketing programs leading to competitive advantage.

MRKT 458 Social Media Marketing (3)  
Prerequisite: MRKT 311. A study of the effective use of social media tools and network to market products and services. The objective is to develop an optimal social media strategy that simulates a digital ad campaign. Topics include techniques to plan and create digital content. Project assignments involve creating ads in Facebook using Facebook's Ads Manager tools. Discussion also covers reporting on and analyzing online advertisements and managing social media communities.

MRKT 486A Workplace Learning in Marketing (3)  
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

MRKT 486B Workplace Learning in Marketing (6)  
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.
MRKT 495 Strategic Marketing Management (3)
(Intended as a final, capstone course to be taken in a student’s last 15 credits.) Prerequisites: MRKT 354, MRKT 410, and MRKT 412. A study of marketing that integrates knowledge gained through previous coursework and experience in marketing and builds on those concepts through integrative analysis, practical application, and critical thinking. The aim is to manage the marketing process, perform root cause analysis, formulate alternative solutions, and propose marketing strategies and tactics. Emphasis is on the use of appropriate decision models. Topics include the analysis of consumers and markets. Discussion also covers emerging issues. Students may receive credit for only one of the following courses: BMGT 457 or MRKT 495.

Mathematics

MATH 105 Topics for Mathematical Literacy (3)
(For students who do not need a college algebra, statistics, or higher-level mathematics course. Meets the general education requirement in mathematics.) An investigation of contemporary topics in mathematics. The aim is to apply mathematical processes to solve problems involving exponential and logarithmic modeling, personal finance, probability, basic logical thinking, and statistical reasoning.

MATH 107 College Algebra (3)
(The first course in the two-course series MATH 107–MATH 108. An alternative to MATH 115.) An introduction to equations and inequalities and a study of functions and their properties, including the development of graphing skills with polynomial, rational, exponential, and logarithmic functions. The objective is to apply appropriate technology and demonstrate fluency in the language of algebra; communicate mathematical ideas; perform operations on real numbers, complex numbers, and functions; solve equations and inequalities; analyze and graph circles and functions; and use mathematical modeling to translate, solve, and interpret applied problems. Technology is used for data modeling. Discussion also covers applications. Students may receive credit for only one of the following courses: MATH 107 or MATH 115.

MATH 108 Trigonometry and Analytical Geometry (3)
(The second course in the two-course series MATH 107–MATH 108. An alternative to MATH 115.) Prerequisite: MATH 107. An introduction to trigonometric functions, identities, and equations and their applications. The goal is to demonstrate fluency in the language of trigonometry, analytic geometry, and selected mathematical topics; communicate mathematical ideas appropriately; apply and prove trigonometric identities; solve triangles and trigonometric equations; and perform vector operations. Discussion covers analytical geometry and conic sections, systems of linear equations, matrices, sequences, and series. Students may receive credit for only one of the following courses: MATH 108 or MATH 115.

MATH 115 Pre-Calculus (3)
(Not open to students who have completed MATH 140 or any course for which MATH 140 is a prerequisite.) An explication of equations, functions, and graphs. The goal is to demonstrate fluency in pre-calculus; communicate mathematical ideas appropriately; solve equations and inequalities; analyze and graph functions; and use mathematical modeling to translate, solve, and interpret applied problems. Topics include polynomials, rational functions, exponential and logarithmic functions, trigonometry, and analytical geometry. Students may receive credit for only one of the following courses: MATH 107, MATH 108, or MATH 115.

MATH 140 Calculus I (4)
Prerequisite: MATH 108 or MATH 115. An introduction to calculus. The goal is to demonstrate fluency in the language of calculus; discuss mathematical ideas appropriately; and solve problems by identifying, representing, and modeling functional relationships. Topics include functions, the sketching of graphs of functions, limits, continuity, derivatives and applications of the derivative, definite and indefinite integrals, and calculation of area. Students may receive credit for only one of the following courses: MATH 130, MATH 131, or MATH 140.

MATH 141 Calculus II (4)
(A continuation of MATH 140.) Prerequisite: MATH 140. A study of integration and functions. The aim is to demonstrate fluency in the language of calculus; discuss mathematical ideas appropriately; model and solve problems using integrals and interpret the results; and use infinite series to approximate functions to model real-world scenarios. Focus is on techniques of integration, improper integrals, and applications of integration (such as volumes, work, arc length, and moments); inverse, exponential, and logarithmic functions; and sequences and series. Students may receive credit for only one of the following courses: MATH 131, MATH 132, or MATH 141.

MATH 241 Calculus III (4)
Prerequisite: MATH 141. An introduction to multivariable calculus. Exposition covers vectors and vector-valued functions; partial derivatives and applications of partial derivatives (such as tangent planes and Lagrangian multipliers); multiple integrals; volume; surface area; and the classical theorems of Green, Stokes, and Gauss. The objective is to use multivariate calculus to solve real-world problems.

MATH 246 Differential Equations (3)
Prerequisite: MATH 141 or MATH 132. An introduction to the basic methods of solving differential equations. The goal is to demonstrate fluency in the language of differential equations;
communicate mathematical ideas; solve boundary-value problems
for first- and second-order equations; and solve systems of linear
differential equations. Topics include solutions of boundary-value
problems for first- and second-order differential equations; solu-
tions of systems of linear differential equations; series solutions,
existence, and uniqueness; and formulation and solution of dif-
ferential equations for physical systems.

MATH 301 Concepts of Real Analysis I (3)
Prerequisite: MATH 141. A study of real analysis. The aim is to
construct formal mathematical proofs and solve problems. Topics
include sequences and series of numbers, continuity and differ-
entiability of real-valued functions of one variable, the Riemann
integral, sequences of functions, and power series. Students may
receive credit for only one of the following courses: MATH 301 or
MATH 410.

MATH 340 Linear Algebra (4)
Prerequisite: MATH 140. An examination of linear algebra. The
aim is to demonstrate applications of various concepts in linear
algebra. Topics include abstract vector spaces, linear transforma-
tions, algebra of matrices, determinants, similarity, eigenvalues
and eigenvectors, and applications to systems of equations.
Discussion also covers solutions of problems in physics, engineer-
ing, and the sciences. Students may receive credit for only one of
the following courses: MATH 240, MATH 340, MATH 400, or MATH
461.

MATH 402 Algebraic Structures (3)
Prerequisite: MATH 141. An overview of algebraic structures.
The aim is to construct mathematically correct and concise
proofs. Set theory, techniques of proofs, and the application of
those techniques are introduced. Topics include groups, sub-
groups, isomorphisms, rings, integral domains, and fields.

MATH 463 Complex Analysis (3)
Prerequisite: MATH 141. An overview of the theory and practice
of complex variables to enrich the study of differential equations,
real analysis, and numerical analysis. The aim is to use complex
variables to analyze problems that have direct application to
physical problems. Topics include complex numbers, functions,
inverse functions, mappings, integrals, series, and poles in the
complex numbers.

Music

MUSC 210 Music as Cultural Expression (3)
A study of the role of music in various cultures. The objective is
to identify key features that define various genres of world music,
articulate the roles and functions of music in world cultures, use
the medium of music to explore intercultural relationships, and
consciously define personal musical perspectives. Discussion
covers music from various cultural traditions and the contexts
in which composers and musicians practice their craft. Students
may receive credit for only one of the following courses: HUMN
211 or MUSC 210.

Natural Science

NSCI 100 Introduction to Physical Science (3)
Prerequisite: MATH 105, STAT 200, or a more advanced MATH
or STAT course. An introduction to the basic principles of phys-
ics and chemistry, with applications to geology, oceanography,
meteorology, and astronomy. The objective is to use scientific and
quantitative reasoning to make informed decisions about topics
related to physical science. Discussion covers the development of
scientific thinking, the scientific method, the relationships among
the various physical sciences, the role of the physical sciences in
interpreting the natural world, and the integrated use of technol-
y. Students may receive credit for only one of the following
courses: GNSC 100, NSCI 100, or NSCI 103.

NSCI 101 Physical Science Laboratory (1)
(Fulfills the laboratory science requirement.) Prerequisite: MATH
105, STAT 200, or a more advanced MATH or STAT course. Pre-
requisite or corequisite: NSCI 100. A laboratory study of the basic
principles of physics and chemistry, with applications to geology,
oceanography, meteorology, and astronomy. The objective is to
apply the scientific method and use scientific and quantitative rea-
soning to make informed decisions about experimental results in
the physical sciences. Discussion and laboratory activities cover
the development of scientific thinking, the scientific method, the
relationships among the various physical sciences, and the role of
the physical sciences in interpreting the natural world.

NSCI 103 Fundamentals of Physical Science (4)
(Fulfills the laboratory science requirement.) Prerequisite: MATH
105, STAT 200, or a more advanced MATH or STAT course. An
introduction to the basic principles of physics and chemistry,
with applications to geology, oceanography, meteorology, and
astronomy. The objective is to apply the scientific method and use
scientific and quantitative reasoning to make informed decisions
about experimental results in the physical sciences. Discussion
and laboratory activities cover the development of scientific think-
ing, the scientific method, the relationships among the various
physical sciences, the role of the physical sciences in interpreting
the natural world, and the integrated use of technology. Students
may receive credit for only one of the following courses: GNSC
100, NSCI 100, or NSCI 103.

NSCI 120 Natural Sciences Laboratory (1)
(Fulfills the laboratory science requirement.) Prerequisite: MATH
105, STAT 200, or a more advanced MATH or STAT course. A
study of the basic principles of science investigation and observa-
tion. The objective is to apply knowledge of the natural world and experimental design to address questions about physical, chemical, geological, and ecological phenomena. Activities include observation of the natural world, experiments, measurements, data collection, and quantitative reasoning exercises.

**NSCI 170 Weather and Climate (3)**
An introduction to the basic principles of atmospheric science. The goal is to use scientific and quantitative reasoning to make informed decisions about topics related to atmospheric science. Topics include the effect of different weather elements (such as temperature, pressure, winds, and humidity) on weather patterns and climate. Discussion also covers weather phenomena such as El Niño, thunderstorms, tornados, tropical cyclones, and midlatitude cyclones, as well as the impact of humans on Earth’s atmosphere. Students may receive credit for only one of the following courses: GNSC 170, GNSC 398D, or NSCI 170.

**NSCI 171 Weather and Climate Laboratory (1)**
(Fulfills the laboratory science requirement.) Prerequisite or corequisite: NSCI 170. An introduction to the basic concepts of meteorology. The aim is to apply the scientific method and use scientific and quantitative reasoning to make informed decisions about experimental results in meteorology. Focus is on the observation, measurement, and analysis of weather data, including the interpretation of weather patterns and conditions found on weather maps, satellite images, radar imagery, and atmosphere diagrams. Students may receive credit for only one of the following courses: GNSC 171 or NSCI 171.

**NSCI 301 Laboratory Management and Safety (3)**
Recommended: WRTG 112, WRTG 101, or WRTG 101S. An overview of the role of scientific methodology, data handling, and management practices in research and manufacturing laboratories. The aim is to examine scientific principles; research and development practices; safety and health compliance; and management of laboratory personnel, space, inventory, and equipment. Assignments address laboratory operating systems, finances and recordkeeping, safety regulations and procedures, data management, project planning, problem solving, procurement, personnel training, and communication with a broad array of stakeholders. Students may receive credit for only one of the following courses: GNSC 301, MEDT 301, or NSCI 301.

**NSCI 362 Our Environment: Human Impact and Sustainable Choices (3)**
A scientific examination of the impact humans have had on the global environment in the current era, the Anthropocene. The goal is to apply scientific reasoning to evaluate human impact on the environment and strategies to mitigate this impact. Topics address sustainability as it relates to individual choices, collective responsibility, environmental stewardship, energy use, diet, and consumer behavior. Current scientific research is used to explore environmental issues such as population growth, climate change, resource depletion, biodiversity losses, food security, and the economic implications of making sustainable choices. Students may receive credit for only one of the following courses: BEHS 361, BEHS 365, ENMT 365, GNSC 361, HUMN 360, NSCI 361, or NSCI 362.

**NSCI 398 Special Topics in Natural Science (3)**
A study of topics in the sciences of special interest to students and faculty.

**Nutrition**

**NUTR 100 Elements of Nutrition (3)**
A study of the scientific and quantitative foundations of the applied science of human nutrition. The goal is to understand how nutrition reflects an integration of scientific disciplines and how foods provide important nutrients that supply substance and energy for healthy living. Topics include scientific reasoning, healthy meal planning, and weight management. Students may receive credit for only one of the following courses: NUTR 100 or NUTR 200.

**NUTR 101 Nutrition Laboratory (1)**
(For students not majoring in biotechnology or laboratory management. Fulfills the laboratory science requirement only with previous or concurrent credit for NUTR 100.) Prerequisite or corequisite: NUTR 100. A hands-on study of human nutrition. The goal is to use an experimental approach to questions in nutrition science. Laboratory exercises emphasize critical thinking in the analysis of quantitative data derived from investigations into various areas of nutrition science, including energy balance, macro and micronutrients, food guidelines, and food safety.

**Philosophy**

**PHIL 100 Introduction to Philosophy (3)**
An introduction to the literature, problems, and methods of philosophy. The goal is to identify and consider central, recurring problems of philosophy. Emphasis is on developing awareness of the significance of philosophical problems and learning to offer rationally justifiable solutions. Students may receive credit for only one of the following courses: HUMN 125 or PHIL 100.
PHIL 110 Practical Reasoning (3)
An examination of methods for thinking analytically about real-world problems and solving them. The goal is to apply logical arguments to practical decision making. Topics include inductive and deductive reasoning, the properties of arguments; methods of logical analysis; synthesis of ideas; informal fallacies; and the role of presuppositions and other factors in scientific, social, ethical, and political problems.

PHIL 140 Introduction to Moral Philosophy and Ethical Reasoning (3)
An introductory exploration of the foundational theories of Eastern and Western moral philosophy and an examination of methods for thinking clearly about ethical issues. The objective is to employ a knowledge of moral theory and the methods of ethical reasoning to address contemporary ethical issues and dilemmas in areas such as business, medicine, information technology, and personal ethics. Students may receive credit for only one of the following courses: HUMN 300 or PHIL 140.

PHIL 304 Contemporary Social Justice Issues (3)
Recommended PHIL 100 and PHIL 140. An exploration of the political and ethical writings of philosophers who shaped contemporary ideas of social justice and individual rights. The objective is to evaluate political theories and philosophies; defend ethical reasoning on issues of justice; and communicate critical reflections on contemporary social justice issues such as environmental justice, healthcare, racial justice, women's rights, immigration, and religious freedom. Topics include freedom and the social contract, individual and human rights, distributive and economic justice, gender and racial justice, and internationalism and theories of war.

PHIL 336 Ideas Shaping the 21st Century (3)
Recommended: PHIL 100 or PHIL 110. An exploration of the philosophival arguments concerning the ideas shaping human knowledge in the 21st century. The objective is to evaluate the ideas and arguments that shape human understanding of reality from antiquity to the 21st century, develop critical reflection of these ideas utilizing the tools of analytical philosophy, and communicate the results of philosophical and critical reflection in writing and oral presentation. Topics include an introduction to analytical philosophy, the human mind, consciousness, materialism, naturalism, and the limits of scientific realism. Students may receive credit for only one of the following courses: HUMN 336 or PHIL 336.

PHIL 348 Religions of the East (3)
An examination of the religions of the East, including Jainism, Sikhism, Hinduism, Buddhism, Chinese religions, and Shinto. The aim is to gain a historical perspective on world events and understand the interrelationships of these religious traditions, historically and doctrinally. Students may receive credit for only one of the following courses: HUMN 348, HUMN 350, or PHIL 348.

PHIL 349 Religions of the West (3)
An examination of the religions of the West, including the Zoroastrian, Judaic, Christian, and Islamic traditions. The aim is to gain a historical perspective on world events and to understand the interrelationships of these religious traditions, both historically and doctrinally. Students may receive credit for only one of the following courses: HUMN 349, HUMN 350, or PHIL 349.

Professional Exploration

PACE 100 Professional and Career Exploration for Transfer Students (3)
(Fulfills the general education requirement in professional exploration for eligible transfer students with 45 or more credits in transfer.) A condensed orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on exploring ways to develop and enhance career opportunities, becoming familiar with program options, and reflecting on personal goals. Students may receive credit for only one of the following courses: PACE 100, PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111B Program and Career Exploration in Business (3)
(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university’s academic culture and expectations; learn about UMGC resources for success; reflect on academic and professional goals; and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111C Program and Career Exploration in Communication/Humanities (3)
(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university’s academic culture and expectations; learn about UMGC resources for success; reflect
on academic and professional goals; and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111M Program and Career Exploration in Multidisciplinary Studies (3)
(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations; learn about UMGC resources for success; reflect on academic and professional goals; and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111P Program and Career Exploration in Public Safety (3)
(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations; learn about UMGC resources for success; reflect on academic and professional goals; and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111S Program and Career Exploration in Health and Sciences (3)
(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations; learn about UMGC resources for success; reflect on academic and professional goals; and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111T Program and Career Exploration in Technology (3)
(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations; learn about UMGC resources for success; reflect on academic and professional goals; and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

Public Safety Administration

PSAD 302 Introduction to Public Safety Administration (3)
Prerequisite: WRTG 112 or equivalent. An introduction to public safety organizations and the functions of administrators within these organizations. The objective is to identify key functions of public safety administration and describe the history and current forces and trends facing public safety administrators. The history, development, growth, and future of various interdependent public safety entities is examined from an interdisciplinary perspective. Topics include key responsibilities of administrators in public safety administration.

PSAD 304 Contemporary Public Safety Practices (3)
Recommended: PSAD 302. An investigation of contemporary strategic public safety practices. The goal is to explore several best practices generally associated with successful organizations and apply them to the field of public safety. Topics include the role of hazard and risk management, quality control, and customer service in public safety organizations. Discussion also covers contemporary views of public safety integration and consolidation, as well as public and private partnerships.

PSAD 306 Public Safety Planning (3)
Recommended: PSAD 304. An examination of strategic, operational, and tactical planning in public safety administration with an emphasis on the planning process. The aim is to demonstrate key skills in public safety planning by successfully developing a hazards mitigation plan. Topics include strategic, operational, and tactical planning, as well as resource allocation and hazards mitigation.
PSAD 408 Public Safety Legal Issues and Public Policy (3)
Recommended: PSAD 304. A review of the U.S. legal system and an analysis of the law as it relates to the administration of public safety organizations. Principles of legal obligations, limitations, liabilities, and immunities are examined and discussed, both in general terms and, where applicable, in terms of how they differ in the treatment of public employers and employees. The objective is to develop an appreciation of the legal responsibilities of a public safety administrator to their employees and the public at large.

PSAD 410 Public Safety Research and Technology (3)
Recommended: PSAD 304. An examination of research and the applications of technology in public safety administration. The goal is to describe the principles of scientific research; evaluate existing research and technology; and apply the methods and resources of research, science, and technology to public safety administration. Topics include scientific research, research methodology, technology, and the evaluation and use of research and technology in public safety administration.

PSAD 414 Public Safety Administration Ethics (3)
Recommended: PSAD 304. An in-depth examination of ethics and ethical issues in public safety administration. The aim is to recognize the principles of ethical decision making and those factors that tend to undermine their application and those that tend to support it. Topics include the most well-known ethical systems, values and empathy, moral disengagement, ethical decision making and ethical leadership, and deception as viewed through the lens of ethical responsibility.

PSAD 416 Public Safety Leadership (3)
Recommended: PSAD 304. A study of leadership theories, skills, and techniques used in public safety administration. The objective is to define and explain basic concepts of leadership; analyze personal leadership knowledge, skills, and abilities; and evaluate leadership performance in the current public safety environment. Topics include leadership, leadership theories and styles, leadership roles, leadership performance, individual leadership skills and plans, effective leadership, and future trends.

PSAD 486A Workplace Learning in Public Safety Administration (3)
Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl).
The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

PSAD 486B Workplace Learning in Public Safety Administration (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl).
The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

PSAD 495 Public Safety Issues and Challenges (3)
(Intended as a final, capstone course to be taken in a student’s last 15 credits.) Prerequisites: PSAD 306, PSAD 408, PSAD 410, PSAD 414, and PSAD 416. An intensive study of public safety administration that integrates knowledge gained through previous coursework and builds on that foundation through integrative analysis, practical application, and critical thinking. Focus is on using these skills to address the challenges of current and future issues in public safety administration. The aim is to integrate leadership, administration, and management concepts and apply them to current public safety issues. Assignments include the development of a comprehensive case study related to a current public safety issue.

Psychology

PSYC 100 Introduction to Psychology (3)
A survey of the basic principles, research concepts, and problems in psychological science. Biological, cognitive, and social perspectives of human thought and behavior are addressed. The goal is to apply major concepts and use the scientific method to enhance the understanding of individual, community, and organizational life experiences. Topics include neuroscience, sensation and perception, learning and conditioning, memory, motivation, language and intelligence, personality and social behavior, and psychopathology and therapy. Applications of psychology are also presented. Students may receive credit for only one of the following courses: BEHS 101 or PSYC 100.

PSYC 300 Research Methods in Psychology (3)
Prerequisites: PSYC 100 and STAT 200. A survey of research methods focusing on the fundamentals of research design and behavior. The aim is to apply research methodologies critically and creatively to communicate effectively about the domains of psychology. Topics include scientific writing using APA style, evaluation of research literature, and ethical issues in research. Practice is provided in asking research questions, formulating research hypotheses, designing and conducting a simulated research study, and presenting results. Students may receive credit for only one of the following courses: PSYC 300 or PSYC 305.
PSYC 301 Biological Basis of Behavior (3)
Prerequisite: PSYC 100. Recommended: PSYC 300. An introduction to the anatomical structures and physiological processes that determine behavior. The objective is to use scientifically valid resources to communicate effectively about the biological basis of behavior. Topics include the acquisition and processing of sensory information, the neural control of movement, and the biological bases of complex behaviors (such as sleep, learning, memory, sex, and language), as well as the basic functioning of the nervous system.

PSYC 306 Special Topics in Psychology (1–3)
Seminar discussion of topics of current interest. Areas explored may extend or augment those covered in more general topical courses. May be repeated to a maximum of 6 credits when topics differ.

PSYC 307 Special Topics in Biological Psychology (1–3)
Seminar discussion of topics of current interest. Areas explored may extend or augment those covered in more general topical courses. May be repeated to a maximum of 6 credits when topics differ.

PSYC 307H Sleep & Dreams (1)
An introduction to the clinical, cultural, and research aspects of sleep and dreams. The aim is to understand the various scientific theories on the nature of sleep and dreams. Topics include historical and theoretical approaches to sleep and dreams, sleep deprivation and disorders, biological rhythms, typical dreams, and dream interpretation.

PSYC 308 Special Topics in Social Psychology (1–3)
Seminar discussion of topics of current interest. Areas explored may extend or augment those covered in more general topical courses. May be repeated to a maximum of 6 credits when topics differ.

PSYC 308H Motivating People at Work (1)
An examination of successful strategies for motivating people in work settings. The objective is to apply knowledge of the evolutionary, learning, social, and cognitive theories of motivation in the workplace. Topics include managerial and personal motivational strategies in organizations.

PSYC 309 Special Topics in Professional Psychology (1–3)
Seminar discussion of topics of current interest. The goal is to attain specialized knowledge in a particular area of professional psychology. Topics may extend or augment those covered in more general courses. May be repeated to a maximum of 6 credits when topics differ.

PSYC 309BP Stress & Stress Management (1)
This course is an exploration of the nature and causes of stress and techniques for its management. The aim is to identify a variety of techniques to mitigate stress. The biopsychosocial perspective is examined in relation to the stresses produced in a variety of contexts. The four main areas of study are the physiological effects of stressors, the impact of cognitive appraisal, interpersonal relationships, and techniques for the management of personal stress.

PSYC 309K Managing Interpersonal Stress (1)
An exploration of the nature and causes of stress and techniques for its management. The aim is to identify a variety of techniques to mitigate stress. Topics include psychological processes that cause interpersonal conflict and those that can bring about its reduction, as well as interpersonal and group factors, such as cooperation and negotiation.

PSYC 309KL Psychology of Grief & Loss (1)
Life and grieving are ongoing processes. The experience of grief and loss varies with individuals and can result in a multitude of outcomes ranging from threatening to transformative. This course is designed to equip students with a deeper understanding of variations in individuals¿ paths through grief and loss as they relate to the type of losses, coping styles, cultural contexts, and worldviews. Through an examination of perspectives on death, dying, grief, and loss, students can gain a greater appreciation for life, living, and posttraumatic growth.

PSYC 309O Cyberpsychology (1)
An examination of the psychology of human and computer interaction. The aim is to apply knowledge of psychological principles and research to emerging technologies and evaluate the appropriateness of delivery modality. Topics include e-therapy, online identities and interaction, and artificial intelligence. Emphasis is on the analysis of human-computer interactions and the application of technology in multiple settings.

PSYC 309VG Emotional Well-Being (1)
This course provides an overview of emotional well-being and concepts that can promote an understanding of personal emotions and overall psychological health. In this course, students will learn information pertaining to emotional IQ, or EQ, and developing self-regulated, emotional wellness and happiness. Students will explore the science behind emotion, self-management techniques, as well as methods to address healthy relationships. The course also looks at different strategies for building emotional intelligence, such as taking ownership of emotions, becoming emotionally self-aware, and identifying emotions. This one credit hour seminar consists of a combination of classroom lecture and online work.
PSYC 310 Sensation and Perception (3)
Prerequisite: PSYC 100. Recommended: PSYC 300 and PSYC 301. A survey of theories and historical and contemporary research in how the auditory, visual, gustatory, olfactory, kinesthetic, and tactile senses acquire information and how psychological, anatomical, physiological, and environmental factors help us perceive the world. The objective is to apply an understanding of complex neural and behavioral processes to evaluate research and analyze variations within and between species.

PSYC 321 Social Psychology (3)
Prerequisite: PSYC 100. Recommended: PSYC 300. An examination of the influence of social factors on individual and interpersonal behaviors. The objective is to analyze the underlying causes of individual and group behavior and the ways in which group attitudes and behaviors are related. Topics include conformity, attitudinal change, personal perception, and group behavior. Students may receive credit for only one of the following courses: BEHS 221, BEHS 421, BEHS 450, PSYC 221, or PSYC 321.

PSYC 332 Psychology of Human Sexuality (3)
Prerequisite: PSYC 100. An examination of human sexuality and sexual behavior. The objective is to apply knowledge of the physiology and psychology of human sexuality. Topics include sexual anatomy, intimate relationships, sexual health, and sexual identity across the lifespan. Students may receive credit for only one of the following courses: BEHS 363, HLTH 377, or PSYC 332.

PSYC 335 Theories of Personality (3)
(Formerly PSYC 435.) Prerequisite: PSYC 100. Recommended: PSYC 300. A study of major theories and perspectives on personality. The goal is to explain and evaluate major concepts in personality. Topics include trait, psychodynamic, behavioral, and humanistic theories. Methods of personality research and relevant findings are also introduced. Students may receive credit for only one of the following courses: PSYC 335 or PSYC 435.

PSYC 338 Psychology of Gender (3)
Prerequisite: PSYC 100. A survey of the biology, lifespan development, socialization, personality attributes, mental health factors, and special considerations associated with gender. The aim is to apply knowledge of cultural and historical influences relating to gender. Topics include conceptions of gender, gender roles, and gender similarities and differences.

PSYC 341 Memory and Cognition (3)
Prerequisite: PSYC 100. Recommended: PSYC 300. An introduction to basic models, methods of research, and findings in the fields of memory, problem solving, and language. The objective is to apply knowledge of cognitive processes to a variety of situations, including organizational and educational settings. Both applications and theory are explored.

PSYC 351 Lifespan Development (3)
Prerequisite: PSYC 100. Recommended: PSYC 300. An integrated study of the biological, socioemotional, and cognitive development of humans from conception through death. The aim is to apply knowledge of lifespan development to interpersonal, community, and organizational relationships. Emphasis is on the interaction of nature and nurture on one’s physiology, capability, and potential at each progressive stage of development.

PSYC 353 Abnormal Psychology (3)
Prerequisite: PSYC 100. Recommended: PSYC 300. An examination of mental disorders across the lifespan. The goal is to evaluate emerging issues in abnormal psychology. Topics include the identification and diagnosis of specific disorders and the evolution of treatment protocols. Students may receive credit for only one of the following courses: PSYC 331, PSYC 353, or PSYC 431.

PSYC 354 Cross-Cultural Psychology (3)
Prerequisite: PSYC 100. Recommended: PSYC 300. An examination of the interplay of individual, ethnic, and cultural factors in psychosocial growth and well-being. The aim is to apply analysis of cultural factors to make decisions, solve problems, and communicate effectively. Issues of globalization, diversity, cultural bias, and cross-ethnic communication are addressed.

PSYC 386 Psychology of Stress (3)
Prerequisite: PSYC 100. An examination of the forces that define and determine the stress response. The aim is to apply stress management techniques to remediate the negative impact of stress. Stress is studied as the product of the interactions among one’s social structure, occupational status, and psychological and physiological levels of well-being. The psychological perspective is examined in relation to the stresses produced in a variety of contexts, such as families and work organizations. Students may receive credit for only one of the following courses: BEHS 463, HLTH 285, or PSYC 386.

PSYC 432 Introduction to Counseling Psychology (3)
Prerequisite: PSYC 100. Recommended: PSYC 300 and PSYC 335. A survey and critical analysis of research and intervention strategies developed and used by counseling psychologists. The goal is to evaluate current trends in content and methodology. Topics include counseling protocols in various applied settings.

PSYC 436 Introduction to Clinical Psychology (3)
Prerequisite: PSYC 100. Recommended: PSYC 300 and PSYC 353. A survey of diagnostic and therapeutic strategies employed by clinical psychologists. The objective is to evaluate current trends in content and methodology. Topics include the identification, diagnosis, and treatment of mental health disorders. Emphasis is on the scientist-practitioner model and the critical analysis of theories and empirical research.
### Sociology

**PSYC 437 Positive Psychology (3)**  
Prerequisite: PSYC 100. A survey of the science of positive psychology. The aim is to analyze and evaluate theories and applications of positive psychology. Focus is on the unique characteristics of the human experience that contribute to health and well-being. Topics include hope, optimism, human strengths, happiness, flow, and attachment.

**PSYC 495 Senior Seminar in Psychology (3)**  
(Intended as a final, capstone course to be taken in a student’s last 15 credits.) Prerequisites: PSYC 100, PSYC 300, and completion of all requirements for the psychology major. A study of psychology that integrates knowledge gained through previous coursework and experience. The aim is to build on that conceptual foundation through case study, reflective essays, and portfolio development.

**SOCY 309 Social Demography (3)**  
(Formerly SOCY 410.) Prerequisite: SOCY 100. A study of social demography. The goal is to identify, evaluate, and interpret key demographic concepts and develop an understanding of global population dynamics. Topics include types of demographic analysis, demographic data, population characteristics, migration, mortality, fertility, population theories, world population growth, and population policy. Students may receive credit for only one of the following courses: SOCY 309 or SOCY 410.

**SOCY 310 Introduction to Sociology (3)**  
An introduction to the basic concepts, theoretical perspectives, and research methods in sociology. The objective is to apply sociological imagination, perspectives, and research to uncover patterns of social behavior. Topics include culture, socialization, groups, deviance, stratification, institutions, and social change. Students may receive credit for only one of the following courses: BEHS 102 or SOCY 100.

**SOCY 300 American Society (3)**  
Prerequisite: SOCY 100. An intermediate-level survey of the structure and organization of American society, with special reference to recent social changes. The aim is to describe trends and patterns of social change in American society; compare American and global perspectives of American social values; and apply sociological theories to examine the character, structure, values, and ideology of contemporary American social thought. Topics include individualism, community commitment, and improving tolerance and equity in American society.

**SOCY 309 Social Demography (3)**  
(Formerly SOCY 410.) Prerequisite: SOCY 100. A study of social demography. The goal is to identify, evaluate, and interpret key demographic concepts and develop an understanding of global population dynamics. Topics include types of demographic analysis, demographic data, population characteristics, migration, mortality, fertility, population theories, world population growth, and population policy. Students may receive credit for only one of the following courses: SOCY 309 or SOCY 410.

**SOCY 313 The Individual and Society (3)**  
Prerequisite: SOCY 100. An examination of how individuals shape and are shaped by society. Activities include analyzing and communicating how the individual self is modeled through social forces and how individuals contribute to the continuous creation of society, using micro-level sociological theories and concepts. Discussions apply sociological concepts and theories to examine interpersonal relations, group processes, identity, and social changes. Topics include the influence of social inequality on identity, the social aspects of emotion management, interpersonal conflict and cooperation, and workplace interactions. Students may receive credit for only one of the following courses: BEHS 312, SOCY 311, or SOCY 313.

**SOCY 325 The Sociology of Gender (3)**  
Prerequisite: SOCY 100. An inquiry into how gender is socially constructed and reconstructed in contemporary society. The aim is to assess the interaction between gender and other social identities.

**SOCY 350 Contemporary Social Problems (3)**  
Prerequisite: SOCY 100. An advanced examination of various personal, institutional, cultural, historical, and global problems that confront American society today. Problems discussed range from crime, domestic violence, and alienation in modern society to the environment and political conflict. Emphasis is on issues of technology and social change. Students may receive credit for only one of the following courses: SOCY 105, SOCY 210, or SOCY 350.

**SOCY 398 Special Topics in Sociology (3)**  
Prerequisite: SOCY 100. A study of topics of special interest. May be repeated to a maximum of 6 credits when topics differ.

**SOCY 423 Race and Ethnicity: A Global Perspective (3)**  
Prerequisite: SOCY 100. An analysis of race, ethnicity, and human relations in global society. The goal is to analyze, communicate, and project future trends in racial and ethnic relations in the United States and abroad. Discussion covers factors that affect race and ethnic relations, such as inequality, prejudice, discrimination, power, and privilege. Topics include theories of race relations; the historical emergence, demographic projections, development, and institutionalization of racism; effects of racism; conflicts that are racially and ethnically based; and contemporary issues.

**SOCY 426 Sociology of Religion (3)**  
Prerequisite: SOCY 100. Recommended: BEHS 220 or HUMN 350. An advanced examination of religion from a sociological perspective. The aim is to evaluate the influence of social location on religious beliefs and attitudes; examine relationships between church and state; and analyze current religious conflicts and controversies. Topics include fundamentalism versus extremism; modernity; religious conflicts; and the relationship of religion with race, class, gender, sexuality, and politics.
**SOCY 428 Migrants and Refugees (3)**
Prerequisite: SOCY 100. An advanced sociological study of international, global, and economic issues regarding migrants and refugees, addressing population movements to and from countries. The objective is to analyze data and historical evidence and assess the role of globalization on migration. Topics include migrants and refugees, immigration, the role of conflict in migration, politics and laws regarding migrants and refugees, and the role of globalization in generating population flows.

**SOCY 443 Sociology of the Family (3)**
An advanced examination of the family in society. The goal is to analyze, communicate, and project trends regarding family structures and outcomes through the application of major sociological perspectives. Sociological research is used to describe changing definitions of family, demographic trends in marriage and family patterns, social dynamics within families, and the effects of technology on family relationships. Topics include single parenting, blended families, cultural differences among families, changes in families over the life course, and governmental policies regarding families.

**SOCY 462 Women in the Military (3)**
Prerequisite: SOCY 100. An advanced examination of women in the military from a sociological perspective. The objective is to understand gender, power, and the changing roles of women in the military; assess how policies affect women in the military; examine military, community, and family support systems for military women; and compare the roles and duties of women in the U.S. armed forces in war and peacetime with those of military women in other countries. Topics include the social construction of gender and sexuality of the armed forces; the history of women in the military; violence against women in the military; rank, status, and advancement of women in the military; and postmilitary transitions and career options for women.

**SOCY 473 Cities and Communities (3)**
Prerequisite: SOCY 100. An advanced sociological study of cities and the urban landscape. The aim is to apply major sociological theories to investigate interdependencies between social action, urbanization, and the environment. Focus is on current issues relevant to the challenge of building livable and sustainable cities. Topics include urban social networks, suburbanization, social problems of urbanization, and urban planning and policies.

**SOCY 486A Workplace Learning in Sociology (3)**
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**SOCY 486B Workplace Learning in Sociology (6)**
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

**Software Development and Security**
Courses in software development and security (designated SDEV) have higher computing requirements than the minimum technical requirements stated on p. 23. They require an Intel Core i7 processor or higher, with speeds of 2GHz and at least 8GB RAM (16GB recommended).

**SDEV 300 Building Secure Python Applications (3)**
Prerequisite: CMIS 242, CMIS 215, or CMIS 225. A hands-on study of best practices and strategies for building secure Python desktop and web applications. The objective is to design and build Python applications that are resistant to common security threats. Topics include syntax, data structures, style guides, data munging, web application frameworks, and the use of secure coding tools and processes to guard against application vulnerabilities.

**SDEV 325 Detecting Software Vulnerabilities (3)**
Prerequisites: CMIS 320 and SDEV 300. An in-depth, practical application of techniques and tools for detecting and documenting software vulnerabilities and risks. The goal is to research, select, and use software to analyze code and isolate and prioritize application code and processes that could lead to failure or compromise data integrity or privacy. Topics include the top 25 software vulnerabilities, secure coding guidelines, static code analysis, and software assurance metrics.

**SDEV 350 Database Security (3)**
Prerequisite: CMIS 320. A study of processes and techniques for securing databases. The objective is to design, build, and maintain databases to minimize risks and security attacks. Topics include privileges and roles, user accounts, encryption, authentication methods, and auditing.
SDEV 355 Securing Mobile Apps (3)
Prerequisite: SDEV 325. A hands-on study of best practices for designing and building secure mobile applications. The aim is to formulate proper defenses and processes to mitigate common attacks. Focus is on mobile device infrastructure, security models, and mobile applications. Topics include code analysis, risk modeling, native and web mobile applications security, secure mobile communication, and back-end application attacks and counterattacks.

SDEV 360 Secure Software Engineering (3)
Prerequisite: CMIS 242. An in-depth study of the processes, standards, and regulations associated with secure software engineering. The objective is to plan, manage, document, and communicate all phases of a secure software development cycle. Topics include security requirements, secure software life cycle development, threat modeling, and Security Technical Implementation Guides (STIGs).

SDEV 400 Secure Programming in the Cloud (3)
Prerequisite: SDEV 300. A hands-on study of programming secure applications in the cloud. The goal is to design and build applications in the cloud while implementing appropriate security policies. Topics include cloud computing models, risks and security challenges of programming in the cloud, and data security.

SDEV 425 Mitigating Software Vulnerabilities (3)
Prerequisites: SDEV 325 and SDEV 360. An in-depth analysis and evaluation of the mitigation of software vulnerabilities. The aim is to detect and mitigate software vulnerabilities by evaluating code. Topics include language-specific software vulnerabilities, mitigation, and input validation.

SDEV 455 Risk Analysis and Threat Modeling (3)
Prerequisite: SDEV 360. An examination of the risks and threats associated with application development. The objective is to identify valuable assets, create system architecture diagrams, decompose applications, identify and prioritize threats, and document results in a threat model. Topics include security requirements and objectives, threat identification and mitigation, and calculating risk.

SDEV 460 Software Security Testing (3)
Prerequisite: SDEV 425. A hands-on study of exploits, attacks, and techniques used to penetrate application security defenses and strategies for mitigating such attacks. The objective is to apply appropriate methodologies for software penetration testing to identify application weaknesses and logic flaws and to test and create scripts for exploitation and discovery. Topics include web architecture, application infrastructure, reconnaissance, discovery, mapping, and exploitation.

SDEV 486A Workplace Learning in Software Development (3)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

SDEV 486B Workplace Learning in Software Development (6)
Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

Speech Communication

SPCH 100 Foundations of Oral Communication (3)
(Fulfills the prerequisite for all upper-level SPCH courses.) An introduction to oral communication, with emphasis on interpersonal communication, small-group communication, and public speaking. The objective is to prepare speeches, provide feedback to others, and participate in group activities. Students may receive credit for only one of the following courses: SPCH 100, SPCH 100X, SPCH 101, SPCH 107, or SPCH 108.

SPCH 125 Introduction to Interpersonal Communication (3)
(Fulfills the prerequisite for all upper-level SPCH courses.) An exploration of the role interpersonal communication plays in our personal and professional lives. The aim is to apply theoretical frameworks and key concepts in communication to personal behavior and personal and professional contexts. Topics include self-identity, perception, listening, verbal and nonverbal communication, relationship development, and conflict management.

SPCH 324 Communication and Gender (3)
Prerequisite: Any SPCH course or COMM 300. An investigation of how communication influences gender and how gender affects communication. The objective is to apply theoretical frameworks and key concepts of gender to contexts, situations, and messages. Discussion covers gender roles, gender variation across communication styles, and the role gender plays in personal and professional relationships, as well as its role in culture and the media.
SPCH 470 Effective Listening (3)
Prerequisite: Any SPCH course or COMM 300. An exploration of the complexities of message reception and interpretation as related to personal growth, social relationships, and professional development. The goal is to assess and modify listening practices. Topics include the role of listening in communication, types of listening, and listening skills for specific contexts.

SPCH 472 Nonverbal Communication (3)
Prerequisite: Any SPCH course or COMM 300. A comprehensive investigation of nonverbal communication in human interaction. The aim is to analyze the impact of nonverbal messages on interpersonal, organizational, and public communication. Emphasis is on hands-on application of principles and practices to real-world situations. Topics include foundations of interpersonal attraction, use and abuse of personal space, and cross-cultural and gendered behaviors.

SPCH 482 Intercultural Communication (3)
Prerequisite: Any SPCH course or COMM 300. An examination of the major variables of communication in an intercultural context. The objective is to develop and apply communication strategies. Topics include cultural, racial, and national differences; stereotypes; values; cultural assumptions; and verbal and nonverbal channels.

Statistics

STAT 200 Introduction to Statistics (3)
An introduction to statistics. The objective is to assess the validity of statistical conclusions; organize, summarize, interpret, and present data using graphical and tabular representations; and apply principles of inferential statistics. Focus is on selecting and applying appropriate statistical tests and determining reasonable inferences and predictions from a set of data. Topics include methods of sampling; percentiles; concepts of probability; probability distributions; normal, t, and chi-square distributions; confidence intervals; hypothesis testing of one and two means; proportions; binomial experiments; sample size calculations; correlation; regression; and analysis of variance (ANOVA). Students may receive credit for only one of the following courses: BEHS 202, BEHS 302, BMGT 230, ECON 321, GNST 201, MATH 111, MGMT 316, PSYC 200, SOCY 201, STAT 100, STAT 200, STAT 225, or STAT 230.

STAT 400 Applied Probability and Statistics (3)
Prerequisite: MATH 141. An intermediate study of statistical and probabilistic theory. The aim is to apply quantitative tools for decision making and interpret statistical results in professional literature and the media. Topics include random variables, standard distributions, sampling methods, law of large numbers and the Central Limit Theorem, moments, estimations of parameters, and testing of hypotheses.

Theatre

THET 110 Introduction to the Theatre (3)
An introduction to the experience of the theatre. The objective is to gain a historical perspective and critically appraise dramatic content in performing arts. Emphasis is on engaging with theatrical performances as informed audience members and assessing one's role within the script-performance-audience dynamic. Assignments include attendance at two live professional performances. Students may receive credits for only one of the following courses: HUMN 110 or THET 110.

Women’s Studies

WMST 200 Introduction to Women’s Studies: Women and Society (3)
An interdisciplinary study of the status, roles, and experiences of women in contemporary society. The aim is to recognize the impact of gender in all academic disciplines; analyze political, economic, social, and cultural issues through a feminist lens; and apply knowledge of local and global issues to affect positive change in women’s lives. Discussion covers women’s experiences across geography and history. Topics include gender and other identities, systems of privilege and inequality, sexuality, and power relations.

Writing

WRTG 111 Academic Writing I (3)
(The first course in the two-course series WRTG 111–WRTG 112. Fulfills the general education requirement in communications.) An introduction to reading, writing, and critical thinking in an academic setting. The goal is to practice strategies for understanding academic texts and for developing one's ideas in relation to those texts. Focus is on writing thesis-driven essays that incorporate ideas and information from sources and demonstrate critical thinking, proper attribution, and effective language use. Students may receive credit for only one of the following courses: WRTG 100A, WRTG 111, or WRTG 111X.
WRTG 112 Academic Writing II (3)
(The second course in the two-course series WRTG 111–WRTG 112. Fulfills the general education requirement in communications.) Continued practice in reading, writing, and critical thinking with an emphasis on research and argumentation. The goal is to implement strategies for analyzing ideas and rhetorical techniques in academic texts and for conducting academic research. Focus is on writing an argumentative research paper that synthesizes information and ideas from multiple sources and demonstrates critical thinking, varied rhetorical strategies, proper source documentation, and effective language use. Students may receive credit for only one of the following courses: ENGL 101, ENGL 101X, WRTG 101, WRTG 101S, WRTG 101X, WRTG 112, or WRTG 112X.

WRTG 291 Research Writing (3)
(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112 or equivalent. Continued practice in critical reading, thinking, and writing skills. The objective is to analyze, evaluate, and synthesize diverse sources and viewpoints to develop persuasive and academic writing projects. Assignments include prewriting exercises, an annotated bibliography, a synthesis research essay, and a reflective paper. Students may receive credit for only one of the following courses: ENGL 291, ENGL 291H, or WRTG 291.

WRTG 293 Introduction to Professional Writing (3)
(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112 or equivalent. An overview of professional writing. The goal is to analyze professional communication scenarios to develop effective workplace writing. Topics include the standards, conventions, and technologies of professional writing; communicating to a variety of audiences; and developing appropriate written responses to workplace challenges. Students may receive credit for only one of the following courses: COMM 293, ENGL 293, or WRTG 293.

WRTG 391 Advanced Research Writing (3)
(Fulfills the general education requirement in upper-level advanced writing.) Prerequisite: WRTG 112 or equivalent. Instruction and practice in academic research skills. The objective is to critically analyze scholarly and other credible sources and effectively integrate source material into a complex argument. Emphasis is on synthesizing multiple sources in producing a literature review on a focused topic. Students may receive credit for only one of the following courses: ENGL 391, ENGL 391X, WRTG 391, or WRTG 391X.

WRTG 393 Advanced Technical Writing (3)
(Fulfills the general education requirement in upper-level advanced writing.) Prerequisite: WRTG 112 or equivalent. Recommended: WRTG 291 or WRTG 293. A comprehensive, project-based study of applied technical writing. The aim is to design and develop appropriate and effective technical documents using strategies and technologies for a variety of audiences. Students may receive credit for only one of the following courses: COMM 393/393X, ENGL 393/393X, or WRTG 393/393X.

WRTG 394 Advanced Business Writing (3)
(Fulfills the general education requirement in upper-level advanced writing.) Prerequisite: WRTG 112 or equivalent. A comprehensive, project-based study of applied business writing. The aim is to develop documents appropriate to audience and purpose that are well argued and conform to standards of business writing. Topics include context, purpose, audience, style, organization, format, results, technologies, and strategies for persuasion in typical workplace messages. In addition to shorter assignments, a substantial formal report that incorporates research and support for conclusions or recommendations is required. Students may receive credit for only one of the following courses: COMM 394/394X, ENGL 394/394X, or WRTG 394/394X.
Index to Graduate Course Descriptions

The courses summarized on the following pages are listed alphabetically by discipline or subject, as follows.

Business Administration ................................................. 228
Decisive Communication and Leadership ....................... 228
Professional Communication and Leadership .................. 229
Transformational Leadership ........................................... 229

Business Administration—
Master’s Level

MBA 610 Leading Organizations and People (6)
Prerequisite: PRO 600. Assess and develop leadership skills by creating personal leadership and professional development plans that are refined during the program. Develop a strategic understanding of your organization by analyzing its mission, vision, goals, and values. Evaluate your organization’s culture, climate, and approach to decision making and assess leadership effectiveness, governance structure, and processes. Explore how high-performing work teams can be a source of competitive advantage.

MBA 620 Financial Decision Making (6)
Prerequisite: MBA 610. Apply concepts behind financial statements, pricing, cost analysis, and capital budgeting in decisions. Propose solutions in real-world scenarios by using published financial reports and data from well-known national and international brands. Apply concepts from managerial economics to make pricing decisions for a business. Review business performance by analyzing the cash flow statement, income statement, and balance sheet. Make cost allocation, financing, and investment decisions by applying knowledge of corporate valuation. Determine the cost of capital, and make capital budgeting decisions.

MBA 630 Leading in the Multicultural
Global Environment (6)
Prerequisite: MBA 620. Enhance cultural competence and evaluate opportunities and risks for operations in a global market. Expand the ability to apply ethical decision-making models. Assess issues of culture, business ethics, employment law, contracts, and criminal law in the context of a global business. Analyze political, legal, economic, and cultural forces that impact multinational businesses. Recommend the legal form and organizational structure of a business.

MBA 640 Innovation Through Marketing
and Technology (6)
Prerequisite: MBA 630. Apply principles of market research and branding to innovative offering. Use web analytics to make decisions in digital marketing. Organize tasks in a marketing plan, assess market risk and opportunity, and collect data required to implement the marketing plan. Develop financial projections and suitable metrics for tracking the marketing plan.

MBA 670 Strategic Decision Making (6)
Prerequisite: MBA 640. Assume the role of a strategy officer who reports to the CEO. Develop an understanding of strategic leadership. Identify activities in the value chain of an organization and propose a plan to relocate one or more activities to another geographical region. Prepare a project management plan for the opening of a facility in a new country. Develop a business plan that includes an entry strategy, marketing plan, competitive strategy, and financial statements.

Decisive Communication
and Leadership

DCL 600M Decisive Thinking, Communicating, and Leading in Multidisciplinary Fields (6)
(Applicable to the Acquisition and Contract Management, Learning Design and Technology, Strategic Communications, and Transformational Leadership programs.) Prepare for academic and professional success by developing skills that employers want in their employees. Explore your area of study to learn how it connects with your career aspirations, create a professional social network presence, and use critical thinking to inform decisions. Improve and refine your skills in communication, critical thinking, quantitative reasoning, and team leadership. Hone your professional writing and oral communication skills to produce effective presentations, and become proficient with spreadsheets, collaboration tools, and other professional software. Students may receive credit for only one of the following courses: CBR 600, DCL 600M, DCL 600T, or PRO 600.
Professional Communication and Leadership

**PRO 600 Communicating, Problem Solving, and Leading in Professional Fields (6)**
Make yourself more valuable to an employer by gaining and improving skills in communication and problem solving. Explore your field by developing connections to your career path, creating a professional social network presence, and using critical thinking to inform decisions. Improve and refine your skills in communication, critical thinking, quantitative reasoning, and team leadership as you hone your professional writing and oral communication skills and proficiency with analytical software programs, collaboration tools, and other professional software. Students may receive credit for only one of the following courses: CBR 600, DCL 600M, DCL 600T, or PRO 600.

Transformational Leadership

**TLP 610 Repositioning Your Leadership Skills (6)**
Prerequisite: DCL 600M. Master the ways in which leadership takes place within organizations and the most effective leadership styles for directing individuals, projects, and groups to success. Demonstrate the differences between managing and leading, focusing on motivating and inspiring individuals in preparation for future challenges and opportunities. Explore the various roles that leaders take on in domestic and global markets and the ways leaders influence events that can drive success through individual and collaborative efforts. Create your own personal brand as you begin a journey to becoming a transformational leader.

**TLP 620 Leading in the Organization (6)**
Prerequisite: TLP 610. Analyze the dynamics involved in leading a workforce of multigenerational and diverse talent. Develop strategies for facilitating an inclusive work culture and maximizing the varied skill sets and experiences of employees. Weigh the impact of workforce change on organizations, and consider the potential challenges that run counter to respectful, civil, and ethical work environments. Create retention and succession planning strategies and techniques for coaching and mentoring emerging leaders.

**TLP 630 Leading with Strategy and Performance Measures (6)**
Prerequisite: TLP 620. Gain the tools to assess the organization's bottom line and action steps for growth and sustainability. Apply strategic management theories and practice to measure and motivate organizational performance, identify trends, and direct the different stages of the organization's life cycle. Become proficient using tools to review and interpret analytics, market research, and financial data that can drive short- and long-range strategic decisions, and identify potential deficiencies that run counter to the organization's mission and goals.

**TLP 640 Leading Through Change and Uncertainty (6)**
Prerequisite: TLP 630. Apply change management techniques for leading and maintaining stability during unplanned, turbulent events within the organization. Analyze and implement strategic planning and decision-making approaches to diagnose the symptoms and predictors of organizational challenges and obstacles to change. Use change management models to assess organizational performance and process reengineering and to forecast outcomes and resistance to change at the individual, group, and organization levels.

**TLP 670 Leadership Capstone (6)**
Prerequisite: TLP 640. Lead a real-world consulting project. Apply the techniques of project management as you collaborate with a partnering organization to develop a strategic and financial plan to address an organizational issue. Use client-relationship management, organizational diagnosis models, and coaching and presentation skills to complete your consulting project and showcase your solutions and plans to your partner organization.
University System of Maryland

Board of Regents (2021–2022)
Linda R. Gooden, Chair
Robert R. Neall, Vice Chair
Gary L. Attman, Treasurer
William T. “Bill” Wood, Assistant Treasurer
Michelle A. Gourdine, MD, Secretary
Robert D. Rauch, Assistant Secretary
Joseph Bartenfelder, Ex Officio
Mike Gill, Ex Officio
Hugh Breslin
Ellen Fish
Gary Gill
Geoff J. Gonella
Robert Hur
D’Ana Johnson
Isiah “Ike” Leggett
Douglas J.J. Peters
Louis Pope
Andy Smarick
Robert L. Wallace
Ada Beams, Student Regent
Ayotola Oludayo, Student Regent

Officers
Jay A. Perman, MD, Chancellor
Joann Boughman, Senior Vice Chancellor for Academic and Student Affairs
Ellen Herbst, Vice Chancellor for Administration and Finance
Leonard Raley, Vice Chancellor for Advancement/Chief Executive Officer of the USM Foundation
Tim McDonough, Vice Chancellor for Communications and Marketing
Peter Goodwin, Vice Chancellor for Environmental Sustainability
Patrick N. Hogan, Vice Chancellor for Government Relations
David Mosca, Director of Internal Audit

UMGC

The President’s Cabinet
Gregory Fowler, President
M. J. Bishop, Vice President, Digital Teaching and Learning
Pam E. Carter, Vice President and Dean, School of Business
Tony Cho, Vice President and Director, UMGC Europe
James Cronin, Vice President and Director, UMGC Asia
Heather Date, Vice President, Communications and Engagement
Christopher M. Davis, Vice President, Academic Quality
Nicholas Eremita, Chief of Staff and Senior Vice President, Strategy
Jennifer Frank, Deputy Chief Academic Officer
Michael Freedman, Senior Vice President and Journalist in Residence
Sharon Fross, Vice President and Dean, School of Arts and Sciences
JulieAnn Garcia, Vice President and Chief Human Resources Officer
Chinitra Graham, Vice President, Information Security
Martina Hansen, Senior Vice President and Chief Student Affairs Officer
Douglas Harrison, Vice President and Dean, School of Cybersecurity and Information Technology
Blair H. Hayes, Ombudsman, Vice President, and Chief Diversity Officer
Lisa Henkel, Vice President, Student Affairs Operations
Jamie Jaynes, Vice President, Admissions
Eugene D. Lockett Jr., Vice President and Chief Financial Officer
Kristophyre McCall, Chief Transformation Officer
Lloyd (Milo) Miles, Senior Vice President, Global Military Operations
Chris Motz, Vice President, Academic Outreach and Corporate Alliances
Blakely Pomietto, Senior Vice President and Chief Academic Officer
Frank J. Principe Jr., Senior Vice President, Government Affairs and Strategic Partnerships
Sherri Sampson, Vice President and General Counsel
Joseph Sergi, Senior Vice President and Chief Operating Officer
Cathy Sweet, Vice President, Institutional Advancement
Kelly Wilmeth, Vice President, Stateside Military Operations
Academic Affairs
Blakely Pomietto, Senior Vice President and Chief Academic Officer
Jennifer Frank, Deputy Chief Academic Officer
Pam E. Carter, Vice President and Dean, School of Business
Sharon Fross, Vice President and Dean, School of Arts and Sciences
Douglas Harrison, Vice President and Dean, School of Cybersecurity and Information Technology
M. J. Bishop, Vice President, Digital Teaching and Learning
Christopher M. Davis, Vice President, Academic Quality
Insiya Bream, Registrar

School of Arts and Sciences
Office of the Dean
Sharon Fross, Vice President and Dean
Randall Hansen, Associate Dean
Brogan Hetrick, Senior Director, Academic Initiatives
Liz Enriquez, Manager, School Administration

Department of Arts and Humanities
MaryBeth Matthews, Department Chair
Tracy Chung, Program Director, English
Sarah Felber, Program Director, Writing Across the Curriculum
Damon Freeman, Program Director, History
Steve Killings, Program Director, Humanities and Philosophy
Hyomi Kim, Program Director, World Languages and Cultures
Mitchell Marovitz, Program Director, Communications, Journalism, and Speech
Richard Vosseller, Program Director, Art and Graphic Communications

Department of Education and Public Service
Alison Goodrich, Department Chair
Patrick Bradley, Program Director, Legal Studies
Reynaldo Garcia, Program Director, Community College Policy and Administration
Michael Hill, Program Director, Public Safety Administration
Kristin Kubik, Director, MAT Student Support
Brian Powers, Program Director, Homeland Security, Intelligence, and Emergency Management
Brandie Shatto, Program Director, Educational Technology

Monica Simonsen, Program Director, Education
Chris Swain, Program Director, Criminal Justice and Investigative Forensics

Department of Sciences
Jennifer Thompson, Department Chair
Emma Bate, Program Director, Social Sciences
John Beyers, Program Director, Mathematics and Statistics
Shannon Edward, Internship and Clinical Placement Coordinator, Sciences
Sabrina Fu, Program Director, Environmental Science and Management
Katherine Im, Program Director, Behavioral Science and Gerontology
Mary Frances Lebamoff, Program Director, Political Science
Debra McLaughlin, Program Director, Natural Sciences
Phyllis Medina, Acting Program Director, Psychology
Mary Schroeder, Program Director, Nursing
Robin Searles-Adenegan, Program Director, Biological Sciences and Biotechnology

School of Business
Office of the Dean
Pam E. Carter, Vice President and Dean
Anna Seferian, Associate Dean
Ryan Kienstra, Senior Director, Academic Initiatives
Gia’Donna Nichols-Holmes, Manager, School Administration

Department of Accounting and Finance
Peter Munger, Department Chair
Kathleen Sindell, Program Director, Finance and Economics
Kathleen Sobieralski, Program Director, Accounting

Department of Business Administration
Ravi Mittal, Department Chair
Kimberly Holiday-Udeh, Program Director, Undergraduate Business Administration
LEADERSHIP

Department of Business Management
Rudy Watson, Department Chair
Elizabeth Brunn, Program Director, Management Foundations and Nonprofit and Association Management
James Bryant, Program Director, Acquisition and Contract Management
Sandeep Patnaik, Program Director, Marketing
Freda Powell-Bell, Program Director, Human Resources
Liliya Roberts, Program Director, Global Health Services and Administration
Harriet Smith, Program Director, Transformational Leadership and Project Management

School of Cybersecurity and Information Technology

Office of the Dean
Douglas Harrison, Vice President and Dean
S. K. Bhaskar, Associate Dean
Chad Whistle, Senior Director, Academic Initiatives
Elexis DeGale, Manager, School Administration

Department of Cybersecurity
Helen Barker, Department Chair
Patrick Appiah-Kubi, Program Director, Cloud Computing and Computer Networking
Valorie King, Program Director, Cybersecurity Management and Policy
Loyce Pailen, Senior Director, Center for Security Studies
James Robertson, Program Director, Cyber DevOps and Cybersecurity Technology

Department of Information Technology
Daniel Mintz, Department Chair
Chandra Bajracharya, Program Director, Computer Science
Barry Douglass, Program Director, Information Systems Management
Elena Gortcheva, Program Director, Data Analytics
David P. Johnson, Program Director, Web and Digital Design
# Faculty

The university has a large and distinguished faculty. UMGC faculty consistently win awards, publish scholarly works, and contribute to the intellectual understanding of their fields. They are well respected by both practitioner and academic peers. In keeping with UMGC’s mission, UMGC faculty are as nontraditional as their students, bringing practical as well as academic experience in their fields of expertise. Because of this, they are uniquely qualified to teach and guide students toward a richer and more robust understanding of how their academic learning translates into practice. To view a full list of our diverse faculty community visit the Asia Faculty Listing at: asia.umgc.edu/about-our-faculty.

UMGC provides numerous services and resources to help you complete your educational program from anywhere in the world—through systems and resources available online; by e-mail and telephone communication; and in person at sites throughout the Maryland area, as well as at many military sites stateside and worldwide. A number of offices are responsible for the delivery of these services, including Accessibility Services, Admissions, Advising, Career Services, Student Financial Services, Information Technology, the UMGC Library, and the Office of the Registrar.

Among these, the Offices of Advising and the Registrar respond to most of your academic needs throughout your college career, providing general information; admission assistance; academic advising; registration, graduation, and transcript services; and veterans benefits assistance.

In the Maryland/national capital area, services are available at the following locations. A complete list of stateside class and service locations is available online at umgc.edu/locations.

### UMGC Stateside

#### Adelphi Headquarters

**Address**

University of Maryland Global Campus  
3501 University Boulevard East  
Adelphi, MD 20783-8085

**Telephone**

800-888-8682  
Fax  
301-985-7977  
**Email**

studentsfirst@umgc.edu  
**Web**

umgc.edu  
**Service Locations**

A complete list of stateside class and service locations and contact information is available online at umgc.edu/locations.
The information contained in this catalog reflects the policies of both UMGC and the University System of Maryland (USM). The complete list and text of UMGC’s policies can be found at umgc.edu/policies. USM policies can be found at usmd.edu/regents/bylaws.

**Annual Security Report and Consumer Disclosures**

In accordance with U.S. Department of Education regulations, University of Maryland Global Campus distributes an Annual Safety and Security Report to all current students, staff, and faculty. It is also available to prospective students, staff, and faculty, upon request.

The annual report provides important information about rights and responsibilities on the following topics:

- Campus safety and security policies and services
- Sexual misconduct policy
- Emergency procedures
- Peer-to-peer file sharing
- Drug prevention program
- Clery Act crime statistics by location for the previous three calendar years

You can read the Annual Safety and Security Report at umgc.edu/inform. If you have questions or wish to receive a copy of the current annual report, contact the UMGC director of security at 301-985-7471.

In addition, the annual notice to current students provides information about accessing the Family Educational Rights and Privacy Act (FERPA) Notification and the Peer-to-Peer File Sharing Notification, as well as the following mandated consumer disclosures:

- Institutional information including, but not limited to, cost of attendance, refunds, withdrawal procedures, academic programs, transfer credit, complaint procedures, and accessibility services
- Financial assistance available to students
- Student outcomes including, but not limited to, retention and completion rates
- Types of graduate and professional education in which UMGC undergraduate alumni enroll

To help you stay informed, additional consumer disclosures can be found at umgc.edu/disclosures.

**Disclosure of Student Records**

UMGC complies with the Family Educational Rights and Privacy Act (FERPA), a federal law that protects the privacy of students’ education records. In accordance with FERPA, you have the right to inspect and review your education records; seek an amendment of your education records, where appropriate; limit disclosure to third parties of directory information (student information that may be released without your prior written consent); and file formal complaints alleging a violation of FERPA with the Department of Education Family Policy Compliance Office. In addition, FERPA provides that most of your student information may not be released to third parties without your prior consent.

UMGC’s Policy 210.14 Disclosure of Student Records contains an explanation of information that may be disclosed with and without prior consent, as well as procedures for requesting amendments to records, requests for nondisclosure, and filing of complaints. Requests for inspection of your student records may be sent to UMGC Academic Operations at studentrecords@umgc.edu. For another person to act on your behalf, a power of attorney is required. More information on FERPA, including disclosures to third parties, can be found at umgc.edu/current-students/finances/financial-aid/financial-aid-policies/ferpa.

**Nondiscrimination Statement**

UMGC is committed to ensuring that all individuals have equal access to programs, facilities, admission, and employment and that no person shall be excluded from participation in, be denied the benefit of, or otherwise be subjected to unlawful discrimination in this institution’s programs and activities. In accordance with federal, state, and local laws and regulations, UMGC does not discriminate against any person on the basis of race, religion, color, creed, sex, gender, gender identity or expression, marital status, sexual orientation, age, national origin, ancestry, political affiliation, mental or physical disability, genetic information, veteran status (including Vietnam-Era veterans), or any other legally protected characteristic. Specifically, under Title IX of the Education Amendments of 1972, UMGC prohibits discrimination on the basis of sex in its programs and activities. UMGC will take steps to eliminate prohibited conduct, prevent its recurrence, and remedy its effects.
Peer-to-Peer File Sharing

Unauthorized use of copyrighted materials may bring civil and criminal penalties to the user. UMGC is committed to combating the unauthorized use of copyrighted materials on UMGC’s network (including the online classroom) and therefore has established a written plan to achieve this goal. The intent of this plan is to inform UMGC students, faculty, and staff members of the appropriate use of copyrighted material on the network and to deter, detect, and discipline prohibited use, while reasonably maintaining the educational use of UMGC’s network. More information on UMGC’s policy on intellectual property is available online at umgc.edu/intellectual-property.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than $750 and not more than $30,000 per work infringed. For willful infringement, a court may award up to $150,000 per work infringed. A court can, at its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense.

More information is available on the U.S. Copyright Office website at copyright.gov.

UMGC Procedures for Handling Unauthorized Distribution

UMGC implements an active protocol to respond to copyright infringement allegations. In accordance with the Digital Millennium Copyright Act (DMCA), UMGC has designated the following individual to receive and respond to reports of alleged copyright infringement on UMGC’s website:

**Sherri Sampson**

General Counsel
Office of Legal Affairs
University of Maryland Global Campus
3501 University Boulevard East
Adelphi, MD 20783
301-985-7080
legal-affairs@umgc.edu

To be effective under the DMCA, a notification of claimed infringement must be in writing and include the following information:

1. A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.
2. Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site.
3. Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit the service provider to locate the material.
4. Information reasonably sufficient to permit the service provider to contact the complaining party, such as an address, telephone number, and, if available, an electronic mail address at which the complaining party may be contacted.
5. A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law.

6. A statement that the information in the notification is accurate, and under penalty of perjury, that the complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

Once an effective DMCA takedown request is submitted, UMGC will act expeditiously to remove or block access to the infringing material.

Religious Observance

So that academic programs and services of UMGC shall be available to all qualified students who have been admitted to its programs, regardless of their religious beliefs, students shall not be penalized because of observances of their religious holidays. More information on UMGC Policy 051.00 Religious Observances may be found at umgc.edu/policies/academicpolicies/aa05100.cfm.

Retention of Student Records

UMGC maintains records of students’ admission, enrollment, grades, transfer of credits, transcripts, graduation, and degree(s) while the student is enrolled and permanently after graduation. For information regarding UMGC Policy X-1.03 Records and Information Management, visit umgc.edu/administration/policies-and-reporting/policies/info-governance-security-technology.

Sexual Misconduct

UMGC is committed to creating and maintaining an environment in which all persons who participate in university programs and activities, perform work, and provide services can learn and work together in an atmosphere free from sexual misconduct, a form of sex-based discrimination. UMGC provides training, education, prevention programs, and policies and procedures that promote prompt reporting; prohibit retaliation; and promote timely, fair, and impartial investigation and resolution of sexual misconduct cases.

Inquiries concerning the application of Title IX may be referred to the UMGC’s Title IX coordinator or the U.S. Department of Education, Office for Civil Rights. If you have any questions regarding sexual misconduct or need to report a complaint, contact Title IX coordinator at titleixinvestigator-overseas@umgc.edu. For details on UMGC’s sexual misconduct policy, see UMGC Policy 041.00 Sexual Misconduct at https://www.umgc.edu/administration/policies-and-reporting/policies/administration-policies sexual-misconduct.cfm.

Smoking

In accordance with USM policy, UMGC seeks to promote a healthy, smoke-free environment for the UMGC community. More information on Policy 640.00 UMGC Policy on Smoking may be found at umgc.edu/policies/adminpolicies/admin64000.cfm.

Student Classification for Admission and Tuition

For information on student classification and residency, see USM Policy VIII-2.70 at usmd.edu/regents/bylaws/SectionVIII. Also see UMGC Policy 210.20 Student Residency Classification for Admission, Tuition, and Charge-Differential Purposes at umgc.edu/policies/fiscpolicies/fisc21020.cfm.

Student Drug and Alcohol Awareness

UMGC complies with all federal, state, and local laws that regulate or prohibit the possession, use, or distribution of alcohol or illicit drugs. Violations of such laws that come to the attention of UMGC officials will be addressed through UMGC procedures, through prosecution in the courts, or both.

All UMGC students are prohibited by UMGC from unlawfully possessing, using, manufacturing, distributing, or dispensing alcohol or any controlled substance on UMGC premises or at UMGC-sponsored activities. UMGC expects all students to comply with applicable federal, state, and local laws and regulations pertaining to possession, use, manufacture, distribution, or dispensation of alcohol and/or controlled substances.

Any student who violates any of the applicable standards of conduct is subject to corrective disciplinary actions and penalties up to and including expulsion from UMGC academic programs and referral to the appropriate federal, state, and/or local authorities for prosecution in the courts. Students should see the drug prevention program section of the most current UMGC Annual Safety and Security Report (umgc.edu/inform) for additional information.
Transfer of General Education Requirements

UMGC conforms with the general education requirements as laid out by the Code of Maryland Regulations (COMAR) 13B.02.02.16D(2)(b)-(c) regulation. Up to 36 general education credits earned at another Maryland public institution will transfer to UMGC as general education credits. UMGC’s general education requirements may be found on p. 14 of this catalog.

A student who has satisfactorily completed a course identified as a general education requirement at a Maryland community college will receive credit toward UMGC’s general education requirements, as stated in COMAR Title 13B, Subtitle 06, Chapters 1–10. For other students, courses are evaluated on a case-by-case basis. UMGC has included its evaluation of many Maryland community college courses in its section of the University System of Maryland’s computerized articulation system (ARTSYS). This software is available at all two- and four-year Maryland public institutions and online at artsy.usmd.edu. Consult an advisor for details.
CPA Requirements

UMGC's programs in accounting may help prepare you to sit for the Uniform Certified Public Accountant Exam and/or obtain initial licensure as a Certified Public Accountant (CPA) in Maryland. To sit for the CPA Exam in Maryland, a candidate is required to have successfully completed 120 credits toward an accounting degree. Many other states, however, require candidates to successfully complete 150 credits prior to sitting for the CPA Exam.

To obtain initial licensure as a CPA in Maryland and most other states, a candidate is required to have successfully completed 150 credits. UMGC graduate accounting programs help prepare you to become licensed as a CPA in Maryland.

If you intend to request transfer credits from a nonregionally accredited institution, a third-party provider or facility, or an institution located outside the United States, or you intend to request transfer of ACE-evaluated credit, be aware that doing so may impact your ability to become licensed as a CPA. For information regarding licensure in other states and transfer credit, visit umgc.edu/professional-licensure.

MyUMGC Terminology

The following is an explanation of terms students may encounter when using MyUMGC.

**Academic Advisement Report (Degree Plan):** A review of the academic progress that a student has made within his or her UMGC program.

**Activation:** The automated process of verifying a student’s record for enrollment eligibility each term based on certain criteria. This process enables a student to register for courses.

**Admission:** The process of being admitted to the university, which includes completing an application and paying the fees required for entrance.

**Campus:** The UMGC division where a student is located. UMGC has three major campuses—UMGC Asia, UMGC Europe, and UMGC Stateside. Within those “campuses” are additional locations where classes are held or staff and academic advisors may be reached.

**Career:** Graduate or undergraduate level of study.

**Class Number:** The unique five-digit number assigned to each class at UMGC.

**Drop:** To cancel your enrollment in a class before the end of the drop period posted on the UMGC website for your division.

**eApp:** An abbreviation for electronic application, which is an application to the university that is filled out and submitted online.

**EmplID (or Student ID):** A system-generated identification number for student use. Students should record their EmplID in a safe, secure place, as it will be needed to access various services.

**Lower-Level (LL) Courses:** Courses that are numbered 100–299.

**Official Evaluation (or Academic Advisement Report):** A review of the academic progress that a student has made within his/her UMGC program.

**Portal:** A website that integrates online applications, such as email, databases, references to other websites, and proprietary applications, under one unique URL, often allowing secure access with one unique login and password.

**Real-Time:** This means that transactions are implemented at the moment a user makes them, regardless of time zone. There is no time delay; all information is current up to the moment users access it.

**Semester:** Also known as a term, divided into individual sessions.

**Session:** Usually an eight-week period within a term (number of weeks may vary), during which classes are offered.

**Subject and Catalog Number:** The four-letter abbreviation and three-digit number for UMGC classes. For example, in COMM 300, COMM stands for communication studies and 300 is the catalog number.

**Term:** A full semester, which may be subdivided into sessions. Student finance and financial aid offices use this time period for instructional accounting.

**Third-Party Payment:** A payment made by a third party, such as tuition assistance (TA), Army Emergency Relief (AER), and scholarships. (Note: Loans and federal grants are not third-party payments.)

**Units:** The credit value the university assigns to a course.

**Upper-Level (UL) Courses:** Courses that are numbered 300–499.

**UserID:** A student’s user name for logging into MyUMGC. Students will need both their userID and password to log in.

**Withdraw:** To cancel your enrollment in a class after the end of the drop period posted on the UMGC website for your division.

// Spring 2023
Intersession 14 December–10 January
Session 1 11 January–7 March
Session 1 (7wks) 18 January–7 March
Session 2 15 March–9 May

// Summer 2023
Session 1 (7wks) 10 May–27 June
Session 2 28 June–15 August

GRADUATE CLASSES

// Fall 2022 5 October–20 December
// Winter 2023 11 January–28 March
// Spring 2023 12 April–27 June
// Summer 2023 12 July–26 September

ONLINE CLASSES

// Fall 2022
Session 1 17 August–11 October
Session 2 21 September–15 November
Session 3 19 October–13 December

// Spring 2023
Session 1 11 January–7 March
Session 2 15 February–11 April
Session 3 15 March–9 May

// Summer 2023
Session 1 17 May–11 July
Session 2 14 June–8 August

Registration deadlines for all classes are one day before the session start date.

This schedule is tentative and subject to change. Visit asia.umgc.edu/calendar for most recent calendar.
ABOUT UMGC

University of Maryland Global Campus was founded 75 years ago specifically to serve the higher education needs of working adults and servicemembers. Today, UMGC continues its global tradition with online and hybrid courses, more than 175 classroom and service locations worldwide, and more than 125 degrees and certificates backed by the reputation of a state university and the University System of Maryland. For more information, visit asia.umgc.edu.
