UNIVERSITY OF MARYLAND
GLOBAL CAMPUS | ASIA

MISSION

The mission of UMGC is to inspire hope, empower dreams, and transform lives . . . one student at a time.
We accomplish this by

- Operating as Maryland's open university, serving working adults, military servicemen and servicewomen and their families, and veterans who reside in Maryland, across the United States, and around the world
- Providing our students with affordable, open access to valued, quality higher education
- Serving as a recognized leader in career-relevant education, embracing innovation and change aligned with our purpose, and sharing our perspectives and expertise

VISION

The vision of UMGC is to be the school of choice for adults and business because we are learner-centric, data-driven, and skills-based.

VALUES

The core values of UMGC support its institutional vision for the future of learning and ensure the fidelity of the university's commitment to its learners and community.

- **Celebrate Diversity:** Our welcoming of diverse perspectives and ideas differentiates us and drives innovation
- **Optimize Agility:** Curiosity and adaptability—informed and guided by data—drive continuous improvement and transformation
- **Reach Beyond:** Courage and willingness to challenge boundaries lead to transformative solutions, for our institution and our learners alike
- **Embrace Collaboration:** Teamwork, effective communication, and clarity of purpose drive success

From the Chief Academic Officer

Dear Learner,

Welcome to University of Maryland Global Campus! On behalf of our more than 4,800 faculty and 1,500 staff members worldwide, we are delighted that you have chosen us to help you achieve your education, career, and broader life goals.

At UMGC, we recognize that each learner is on a unique and personal journey toward furthering their educa-

tion, advancing or changing their career, and acquiring the necessary knowledge, skills, abilities, and dispositions to prepare for success in the jobs of today and tomorrow. We have one goal: to enable you to realize your dreams and aspirations.

You join our learning community with a wealth of experiences from life, work, and previous educational endeavors. No matter where you stand in your academic journey, UMGC offers a range of options for you to earn credit for what you know and can do. We understand how important it is to complete your studies as quickly and affordably as possible while developing knowledge and skills you can apply immediately. This catalog is designed to guide you through a recommended course sequence in your chosen area of study to help you remove the guesswork and position you on the most efficient pathway to your goal.

Our dedicated faculty and staff at UMGC are committed to providing meaningful, high-quality educational experiences tailored to your objectives, offering exceptional support in and out of the classroom and working alongside you to overcome any obstacles you may encounter along the way. We are committed to understanding what is important to you, what you need from us, and how we can continue to fulfill our mission—improving the lives of adult learners—every day. Our greatest success is your success.

Congratulations on embarking on this journey. We are proud and excited to accompany you on this path.

Sincerely,

A handwritten signature in black ink, appearing to read "Blakely R. Pomietto".

Blakely R. Pomietto, EdD
Senior Vice President and Chief Academic Officer

POLICY STATEMENT

This publication and its provisions do not constitute and should not be regarded as a contract between UMGC and any party or parties, nor is it a complete statement of all policies, procedures, rules, regulations, academic requirements, or tuition and fees applicable to UMGC, its students, or its programs. UMGC reserves the right to make changes to the policies, procedures, rules, regulations, and academic requirements set out in this publication without prior notice. Such changes will be reflected on the university's website or other publication.

This catalog provides the degree requirements and recommended curriculum for students who begin continuous enrollment on or after August 1, 2024. When a curriculum or graduation requirement is changed, it is not made retroactive unless the change is to the student's advantage and can be accommodated within the span of years normally required for graduation. See additional policies on pp. 252–255.

Sources for any claims made throughout this catalog may be found on the UMGC website (asia.umgc.edu).

Welcome to UMGC

From its founding in 1947, University of Maryland Global Campus (UMGC) has had a single mission: to meet the educational needs of adult students like you—students who must balance study with the demands of work and family life.

Since then, the university has grown to be the largest public university in the nation, serving students throughout the state, the country, and the world. And although its name has changed more than once over the decades (from the College of Special and Continuation Studies to University College, from UMUC to UMGC), the university's mission (stated on inside front cover) and focus on providing open access to high-quality educational programs and services—eliminating the barriers that can keep you from achieving your educational goals—remains unchanged.

For information on UMGC's mission, history, and values, visit umgc.edu/mission.

CARRYING OUT THE MISSION

Students First

At UMGC, your success as a student is of paramount importance. The university seeks not only to help you fulfill your current education goals but also to create an educational partnership that will last throughout your life.

To that end, the university looks first for ways to ensure that you can easily access programs and services. Admission policies are designed to simplify the process (standardized tests are not generally required), making it possible for you to apply and register for most programs at the same time.

As a global university, UMGC makes it possible for you to take classes any time, any place, by offering a large selection of online programs—in addition to classes at sites throughout Maryland and the Washington, D.C., metropolitan area and at military sites all over the world. You

can also access student services online and by phone, as well as on-site at many locations.

Convenience and flexibility are not the only issues, however. UMGC seeks to create a learning environment that is respectful of diverse backgrounds, inclusive, responsive, and relevant.

Recognizing that financial concerns often present the biggest obstacle to higher education, UMGC also strives to keep tuition costs low and provides numerous financial aid opportunities, including scholarships for military and community college students.

Excellence

An institutionally accredited university, UMGC is dedicated to providing the highest quality programs and services and ensuring excellence in its online and on-site classes.

In providing these programs, UMGC relies on a renowned faculty of scholar-practitioners—teachers who bring real-world experience as well as advanced academic credentials to your courses—and the use of the latest technologies. UMGC also is able to provide you with a wealth of resources because of its place within the University System of Maryland.

The success of UMGC's efforts over the years is evident. UMGC has garnered awards from such notable organizations as the World Affairs Council, E-C Council, University Professional and Continuing Education Association, Online Learning Consortium (formerly the Sloan Consortium), and Maryland Distance Learning Association.

Innovation

UMGC has always looked for new and better ways to serve students. Long before the online revolution, the university was delivering courses to students at distant locations, using any and all available

technologies—from interactive television to voice mail. Today, you can access both courses and services online, using the university's learning management system and MyUMGC, its online gateway to services and information. Through its Office of Academic Quality, UMGC leads the search for next-generation learning models and best practices for online learning.

PROGRAMS AND FACILITIES

UMGC offers degree programs from the associate level to the doctorate. Most undergraduate and graduate programs are available online. These academic programs are administered by the School of Business, the School of Cybersecurity and Information Technology, and the School of Integrative and Professional Studies. In addition to online options, UMGC Asia offers courses on-site as well as hybrid, virtual, and live-streaming options at over 24 locations across Asia.

The university's administrative headquarters are located in Adelphi, Maryland, and also serve as home to a prestigious art collection and a conference facility, the College Park Marriott Hotel & Conference Center at UMGC. UMGC Asia's administrative headquarters are located outside of Tokyo on Yokota Airforce Base in Fussa, Japan.

Welcome to UMGC Asia

On behalf of the faculty and staff of University of Maryland Global Campus Asia, welcome to the 2024–2025 academic year.

Since arriving in Japan and the Republic of Korea in 1956, UMGC has been driven to ask students just like you the same two questions: what are your educational goals and how can we help? Our focus is on connecting with you, the learner, as you chart your educational path toward achieving your personal and professional goals. We know every one of you is on a unique journey, one that our skilled staff and attentive faculty can help you navigate. UMGC Asia offers you services at over 24 locations across Asia, at the headquarters outside Tokyo, Japan on Yokota Airforce Base, as well as in our virtual office (<https://umgc-edu.zoom.us/j/92507349784>). Our highly trained staff can advise you on how your prior work and educational experiences can earn you credit and allow you to attain your educational goals as quickly and affordably as possible.

The low student-to-teacher ratio of our on-site classes allows UMGC Asia faculty to really get to know you as a student, encouraging meaningful, tailored learning experiences that are accessible and interactive. Our professors and courses continue to be flexible with hybrid, live-streaming, and virtual options to meet you where you are. Through the university's online programs, the full breadth and depth of the curriculum of a large public university with more than 80,000 students is available to you. The Schools of Integrative and Professional Studies, Business, and Cybersecurity and Information Technology offer more than 125 degrees and certificates that are focused on helping you develop the knowledge, skills, abilities, and dispositions you can apply immediately. Whether you are an active duty servicemember, spouse, civilian, high school student, DoD contractor, recent graduate, veteran, retiree, or English language learner, UMGC Asia has the presence and expertise to help you achieve your educational goals.

As the first American university to educate U.S. servicemembers overseas, serving the military is embedded in our DNA, and we proudly carry on this heritage as one of the top military-trusted and veteran-friendly schools. We are honored to serve those who serve, one student at a time, and we never forget that it is a privilege to be on this journey with you.

Sincerely,

James B. Cronin
U.S. Army, Ret.

Accreditation

University of Maryland Global Campus (UMGC) is accredited by the Middle States Commission on Higher Education (MSCHE). MSCHE is recognized by the U.S. Secretary of Education to conduct accreditation and pre-accreditation activities for institutions of higher education, including distance learning, correspondence education, and direct assessment programs, throughout the United States. MSCHE's most recent action for UMGC was a reaffirmation of accreditation status on June 23, 2015.

UMGC is a constituent institution of the University System of Maryland and is governed by the USM Board of Regents. UMGC is certified to operate by the State Council of Higher Education for Virginia. UMGC at Quantico, Corporate Center, 525 Corporate Drive #101, Stafford, VA 22554

ABOUT STUDY AT UMGC

Admission

Eligibility

UMGC Asia

Members of the U.S. Armed Forces, U.S. DoD Civilians, and their family members may enroll in undergraduate courses at military installations within the INDOPACOM regions where the University of Maryland Global Campus Asia is contracted to provide educational services if they meet admission requirements. Other populations may be eligible depending upon local base command directives. U.S. military policy requires a valid identification privilege card issued by the military services. Card validation is required after completing the online application. In Japan, local citizens may take UMGC courses if deemed eligible by the Japanese government. All eligibility questions should be directed to the student services staff at the UMGC Asia Headquarters at studentservices-asia@umgc.edu.

General Information

Before the beginning of each academic term, UMGC holds various online events and on-site open houses for new and prospective students. These events offer an opportunity to learn about UMGC and its programs, student services, academic and career offerings, faculty members, and students. You can apply for admission and enroll in courses during the on-site open houses.

Local UMGC representatives and academic advisors stand ready in military communities to provide you with on-site assistance with admissions, registration, financial aid, advising appointments, and more.

Contact information for the UMGC location nearest you is available at asia.umgc.edu/locations.

Undergraduate Admission Requirements

General Requirements

To be considered for admission, you must have fulfilled one of the following conditions:

- You graduated from a state-approved U.S. high school
- You received passing scores on a state high school equivalency exam, such as the General Educational Development (GED) test (ged.com) or HiSET exam (hiset.org)
- You graduated from a homeschool or alternative high school program that meets the criteria set forth by state and local education regulations

- You graduated from a non-U.S. high school with a credential evaluated as equivalent to a U.S. high school diploma by a National Association of Credential Evaluation Services (NACES) member evaluation agency
- You did not graduate from high school, but you earned an associate degree or higher from a UMGC-approved accredited college or university or at least 60 college credits from a UMGC-approved accredited college or university with at least a 2.0 grade point average (GPA) on a 4.0 scale
- You served or are serving in the U.S. military and have training/experience documented by a Joint Services Transcript (JST) or Community College of the Air Force (CCAF) transcript (On a case-by-case basis, UMGC may accept other military records as proof of high school equivalency.)

High school students who meet certain criteria (described on p. 12) may also be considered for admission and concurrent enrollment.

In addition to meeting the academic criterion listed above, you must be at least 13 years old, meet UMGC's English proficiency requirement, and be in good standing at any institutions that you previously attended, as noted in UMGC Policy 210.00 Undergraduate Admission. Standardized test scores are not required.

Eligibility to enroll in UMGC overseas divisions may depend on citizenship and international residency. Additional admission requirements may apply if you are pursuing certain bachelor's or degree programs.

You must be admitted to the university before you can register for classes.

UMGC Policy 210.00 Undergraduate Admission is available online at umgc.edu/policies.

Requirements for the Associate Degree Program

To be eligible for admission into the Associate of Arts (AA) degree program, you must also provide documentation demonstrating that you belong to one of the following populations:

- Applicants with permanent and mailing addresses outside the state of Maryland
- Full-time active-duty servicemembers, selected reservists, National Guard members, and Commissioned Corps members of the U.S. Public Health Service or the National Oceanic and Atmospheric Administration
- Spouses or dependent children of any servicemember noted above
- Veterans

- Spouses or dependent children of veterans
- Applicants to the Europe or Asia divisions or students who began an AA degree program while admitted to UMGC's European or Asian division and subsequently relocated to the stateside division
- UMGC employees
- Spouses or children of UMGC employees
- Participants in a negotiated business-to-business agreement that includes the option of pursuing an AA degree with UMGC

Undergraduate Student Status

As an undergraduate student, you are assigned regular, provisional, or visiting status.

REGULAR

To be assigned regular student status, you must meet the general admission requirements. If you attended another institution of higher education within the last two years, you must also have a grade point average (GPA) of 2.0 or higher and be in good academic standing at the last institution of higher education you attended.

As a student in regular status, you are limited to enrolling in the number of credits set forth in UMGC Policy 215.00 Student Academic Load and Enrollment Status (available online at umgc.edu/policies). Course load is discussed on p. 40.

PROVISIONAL

You will be assigned provisional status if you meet the general admission requirements but one of the following conditions applies:

- You had a GPA lower than 2.0 at the last institution that you attended within the last two years.
- You were on academic probation for poor academic performance at the last institution that you attended within the last two years.
- You were dismissed for poor academic performance from the last institution that you attended within the last two years.
- You are currently a high school student who qualifies for concurrent enrollment. (See p. 11 for additional information about qualifying for concurrent enrollment.)

If you are a concurrently enrolled high school student, you maintain your provisional status until you submit proof of high school completion; until that time, you are allowed to take a maximum of 7 credits each term. Other provisional students may take more

than 7 credits per term, but they must complete 7 credits of graded coursework with a cumulative GPA of 2.0 or higher before being considered for regular student status.

VISITING

If you are attending an institution outside of the University System of Maryland (USM), you must apply for admission to UMGC.

If you are currently attending another institution of the USM as an undergraduate or a graduate student, you may take undergraduate courses without applying to UMGC. Instead, you must submit a letter or form from the USM institution you attend authorizing your enrollment at UMGC for the term in which you wish to attend.

Your previous coursework will be reviewed by the appropriate UMGC academic department to see if course prerequisites have been met. The number of credits you may take and the transferability of academic work completed at UMGC are determined by your home institution.

Graduate Admission Requirements

General Requirements for Graduate Certificates and Master's Degree Programs

To be considered for admission, you must have graduated from a UMGC-approved accredited college or university with a bachelor's degree (or higher). Graduates from other institutions may be considered on a case-by-case basis. Applicants who are not seeking a degree or certificate must meet the same criteria and are limited to taking a maximum of 12 credits.

In addition to the academic criteria listed above, you must meet UMGC's English proficiency requirement, as noted in UMGC Policy 170.10 Graduate Admission (available online at umgc.edu/policies). Standardized test scores, such as the Graduate Record Examination (GRE) or Graduate Management Admission Test (GMAT), are not required for most programs. Additional admission requirements, which may include standardized test scores, may apply if you are pursuing certain degree programs. See Graduate Program-Specific Requirements on p. 9.

Regardless of program, your eligibility for admission may be limited by foreign citizenship or international residency, in accordance with federal law. In such cases, additional admission procedures may apply.

You must be admitted to the university before you can register for classes.

ABOUT STUDY AT UMGC

Graduate Student Status

As a graduate student, you are assigned regular or visiting status.

REGULAR

To be assigned regular student status, you must meet the general admission requirements.

As a student in regular status, you are limited to enrolling in the number of credits set forth in UMGC Policy 215.00 Student Academic Load and Enrollment Status (available online at umgc.edu/policies). Course load is discussed on p. 40.

VISITING

If you are attending an institution outside the University System of Maryland, you must apply for admission to UMGC.

If you are a degree-seeking student in good academic standing in an approved graduate program at another University System of Maryland institution and wish to take courses at UMGC, you need not apply for admission to UMGC. Instead, you must obtain an interinstitutional enrollment form from your home institution, complete it, and submit it to admissions@umgc.edu.

Your previous coursework will be reviewed by the appropriate UMGC academic department to see if course prerequisites have been met. The number of credits you may take and the transferability of academic work completed at UMGC are determined by your home institution.

Graduate Program-Specific Requirements

TRANSFORMATIONAL LEADERSHIP

To be admitted to the Master of Science in Transformational Leadership program, you must meet the standard criteria for graduate admission and belong to one of the following military populations:

- Full-time active-duty members of the U.S. Armed Forces
- Members of the National Guard
- Reservists
- Veterans of the U.S. Armed Forces
- Commissioned Corps members of the U.S. Public Health Service
- Commissioned Corps members of the National Oceanic and Atmospheric Administration

Special Situations

Applicants Educated Outside the United States

If you were educated outside the United States and English is not your native language, you must demonstrate English proficiency. If you are providing test scores to do so, you must arrange to have the official score reports sent directly from the testing agency to UMGC and marked Incoming Transcripts. The Test of English as a Foreign Language (TOEFL) score recovery code for UMGC is 5804.

Test scores must be less than two years old. Alternative evidence may be accepted as demonstrating English proficiency. Contact Admissions at admissions@umgc.edu for more information.

Note: UMGC does not issue Form I-20 A-B Certificate of Eligibility for F-1 student status. However, you may be eligible to pursue a program online from outside the United States.

UNDERGRADUATE

If you are applying for admission to an undergraduate program and you graduated from a high school not located in the United States or one of the countries listed at umgc.edu/internationalstudent, you must demonstrate English language proficiency in one of the following ways:

- Certifying on the admission application that you earned a passing score on a U.S. GED test or HiSET exam
- Having earned at least 24 transferable credits from a UMGC-approved accredited college or university or from an institution in one of the countries listed at umgc.edu/internationalstudent
- Submitting a passing score on an approved English proficiency examination, as follows:
 - A minimum score of 71 on the internet-based version of the Test of English as a Foreign Language (TOEFL)
 - A minimum score of 525 on the paper-based version of the TOEFL and a minimum score of 4 on the Test of Written English (TWE)
 - A minimum overall score of 6 on the International English Language Testing System (IELTS), including the academic writing and academic reading modules
 - A minimum grade of Pre-1 on the Eiken Test in Practical English Proficiency
 - A score of 95 on the Duolingo English Proficiency Test

See Admission Procedures for information on required documentation related to high school completion.

GRADUATE

If you are applying for admission to a graduate (master's or doctoral degree) program and you obtained a bachelor's or master's degree from an institution not located in the United States or one of the countries listed at umgc.edu/internationalstudent, you must demonstrate English language proficiency in one of the following ways:

- Submitting transcript(s) indicating completion of at least 12 credits of graduate coursework taken within the last two years with a grade of B or higher from a UMGC-approved accredited college or university in the United States, which will be considered on a case-by-case basis
- Submitting a passing score on an approved English proficiency examination, as follows:
 - A minimum score of 79 on the internet-based version of the Test of English as a Foreign Language (TOEFL)
 - A minimum score of 550 on the paper-based version of the TOEFL and a minimum score of 4 on the Test of Written English (TWE)
 - A minimum overall score of 6.5 on the International English Language Testing System (IELTS), including the academic writing and academic reading modules
 - A minimum grade of Pre-1 on the Eiken Test in Practical English Proficiency
 - A score of 105 on the Duolingo English Proficiency Test.

BRIDGE PROGRAM FOR ACADEMIC ENGLISH

UMGC Asia offers the Bridge Program to English learners in Japan and Korea who have not achieved the required test scores to become standard students. For details, you should refer to p. 50 or visit asia.umgc.edu/bridge.

Applicants Expelled or Suspended from Another Institution

FOR ACADEMIC MISCONDUCT

If you were expelled for academic misconduct from any institution in the USM, you are not eligible for admission to UMGC. If you were suspended from any USM institution for that reason, you are not eligible for admission to UMGC during the period of your suspension.

If you were expelled or suspended for academic misconduct from an institution outside the USM, your application must be reviewed before an admission decision can be made.

FOR DISCIPLINARY MISCONDUCT

If you were suspended from a USM institution under USM's Event-Related Misconduct Policy, you will not be admitted to UMGC during the term of your suspension. If you were expelled under that policy, you will not be admitted to UMGC for one year from the effective date of the expulsion. After that time, you may be considered for admission on a case-by-case basis.

If you were expelled or suspended from a non-USM institution for any type of disciplinary misconduct or you were expelled or suspended from a USM institution for disciplinary misconduct that was not event-related, you may be considered for admission on a case-by-case basis.

High School Students Seeking Concurrent Enrollment

If you have not earned your high school diploma but are currently attending a U.S. state-approved high school, you may be admitted as a provisional student. With your application for admission, you must provide a letter of recommendation from the appropriate officials at your high school and a high school transcript. If UMGC determines after a review of this documentation that your record reflects superior scholarship and college readiness, you may be admitted with provisional status.

If you are currently being homeschooled or attending an alternative high school program, you may qualify for concurrent enrollment if your homeschool or alternative high school program complies with applicable state and local education regulations.

As a concurrently enrolled student, you are assigned provisional non-degree-seeking status and limited to 7 credits per term. Once you meet all the general admission requirements, you may contact an advisor to request to be changed to regular and degree-seeking status.

Admission Procedures

To apply for admission, you must complete an admission application online at umgc.edu/apply and pay the nonrefundable fee. Documentation required for proof of English proficiency is detailed under Applicants Educated Outside the United States. Other required documentation for various populations is detailed in the following sections.

If you are a former UMGC student and have not attended UMGC for at least two years, you must submit a new application before you will be allowed to register. However, you will not be required to pay another application fee unless you change degree level.

ABOUT STUDY AT UMGC

Applicants or current students who submit false information on their application may be subject to disciplinary action, as detailed in UMGC Policy V-1.03 Code of Student Conduct (available at umgc.edu/policies).

Applicants to Undergraduate Certificate and Associate and Bachelor's Degree Programs

Once you are admitted to UMGC, you will be assigned an admit term (the academic term in which you are officially admitted, e.g., fall 2024), which will be reflected in your MyUMGC student portal. You have until the end of the term following your admit term to submit documentation to verify your eligibility for admission to UMGC. If you do not submit the documentation by that deadline, you will not be permitted to register for subsequent terms until documentation is received and accepted by UMGC.

Appropriate documentation varies according to your situation, as follows:

- If you graduated from a state-approved high school, you must submit an official transcript from that school. You may be eligible to complete and submit a UMGC-issued attestation form certifying your graduation from high school. Contact Advising for more information.
- If you served or are currently serving in the U.S. Armed Forces, you may submit a Joint Services Transcript (JST) or Community College of the Air Force (CCAF) transcript as proof of high school equivalency.
- If you completed a state high school equivalency exam, such as the GED or HiSET, you must submit an official score report.
- If you graduated from a homeschool or alternative high school program, you must submit documentation showing high school completion and compliance with state and local education regulations for the state in which you were homeschooled or attended an alternative high school program.
- If you graduated from a non-U.S. high school, you must submit documentation of your education to a NACES member evaluation agency and have the evaluation agency submit its recommendations to UMGC. For a list of NACES members, visit naces.org/members.
- If you graduated from high school and have completed at least 30 college-level credits, you are not required to submit documentation of high school graduation if you submit official documentation of at least 30 completed college-level credits from one or more of the following sources:
 - UMGC-approved two- and four-year colleges and universities
 - Military occupational specialties and experience
 - Vocational and technical coursework

- Professional or technical coursework based on statewide agreements and alliances
- If you have not graduated from high school but have completed an associate degree or higher or at least 60 college-level credits, you may submit official documentation of the completed degree or at least 60 college-level credits from one or more of the sources listed above.

You need not submit proof of standard examinations.

Applicants to Graduate Certificate and Master's Degree Programs

To be admitted to most graduate programs or to take graduate courses without pursuing a degree, you must submit official transcripts demonstrating completion of a bachelor's degree from a UMGC-approved accredited college or university or from another institution (approved on a case-by-case basis) by the end of your admit term at UMGC.

Until the university receives your official transcript(s) and verifies your completion of a bachelor's degree, you are limited to enrolling in no more than 6 credits of graduate coursework. Failure to submit official transcripts by the last day of your first term of enrollment at UMGC will prevent you from enrolling in additional graduate courses at UMGC until such transcripts are received and verified by UMGC.

Military-Affiliated Students

Most military servicemembers may apply to all UMGC programs online at umgc.edu/apply.

Note: If you intend to use military TA benefits, you must contact your educational services officer or counselor within your branch of service for details on eligibility and your military branch's process for submitting TA forms *before* you submit an application for admission to UMGC.

RELOCATING BETWEEN UMGC DIVISIONS

It is important that you notify UMGC when you are relocating to a new duty station, so that residency classification and tuition rate may be accurately determined.

If you plan to relocate from one UMGC division (stateside, Europe, or Asia) to another and you have attended classes with UMGC within the last two years, you must amend the Student Information Update form before the start date of the term in which you intend to begin study at the new division. This form may be accessed via the MyUMGC student portal under Helpful Links. There is no fee for relocations. If you have not attended UMGC within the last two years, you will need to complete the regular UMGC admission application and indicate the division that you wish to attend by answering the questions presented.

Students Seeking Readmission

If you have not enrolled in classes at UMGC for a period of two years (six or eight terms, depending on the program) or more, you must reapply for admission before you will be allowed to resume enrollment. However, you need not pay another application fee unless you change degree level. Refer to the requirements section of the degree or certificate you plan to pursue for information on continuous enrollment and the requirements you must follow.

If you were academically dismissed, you may not register for classes. For more information on reinstatement after academic dismissal, see p. 36. Reinstatement is not guaranteed.

MILITARY SERVICEMEMBERS SEEKING READMISSION

If you discontinued your studies with UMGC because of your military service obligations and would like to return as a UMGC student, contact admissions-asia@umgc.edu within three years after completion of military service to seek readmission. The cumulative length of all absences for military service time may not exceed five years. If the program in which you were enrolled no longer exists, UMGC will enroll you in the most similar program, unless you request or agree to a different program.

Unless precluded by military necessity, you should provide oral or written notice of a service obligation to your local UMGC representative or academic advisor in as far in advance as possible. Contact information for the UMGC location nearest you is available at asia.umgc.edu/locations. Refer to UMGC Policy 210.12 Readmission for Military Servicemembers at umgc.edu/policies for more information.

Students Changing Programs

If you are considering a change to your major, minor, or certificate at the undergraduate level or a change from one master's degree program, concentration, or certificate program to another at the graduate level, you must first consult an advisor, who can help you determine the impact of changing degree programs.

The advisor can determine whether another application is required and whether any previous credit is likely to apply, as well as when you may begin to take classes in the new program. Generally, the requirements for completing your new program are those in place when you start study in the new program.

For more information on changing programs, please contact your local advisor (asia.umgc.edu/students/academic-advising.cfm). Please be prepared to provide your name, student ID, current program, and requested program.

If you are using veterans education benefits or transferred benefits, you are required to submit certain forms to the Veterans Administration. Refer to umgc.edu/major-change for more information.

Cross-Enrollment Between Programs

You may be admitted either as an undergraduate or graduate student, but you may not hold both classifications simultaneously. Generally, you are not eligible to enroll in courses outside your degree program. However, if UMGC has developed an accelerated pathway between undergraduate and graduate programs, specific courses may apply to both of the degree programs. In such cases, you are eligible to cross-enroll and will be charged the undergraduate rate for undergraduate courses and the graduate rate for graduate courses.

As a graduate student, you may be enrolled in only one master's degree program at a time, and you may not enroll in courses outside your degree program. If you change graduate degree programs, you may not enroll in courses in the new degree program until the current term is completed.

Enrollment Information

Ways to Register

Registration begins each session as soon as the course schedule becomes available on the web and continues until the deadline listed. Check the current online schedule of classes (asia.umgc.edu/currentschedule) and academic calendar (asia.umgc.edu/calendar) for registration information and deadlines.

UMGC offers a number of ways to register for most courses, including online (via MyUMGC) and on-site registration. Detailed information and instructions are available each session online at asia.umgc.edu/students/enrollment.

Schedule Adjustments

The university reserves the right to make changes to class sections to ensure that such sections are adequately sized to create an appropriate learning environment. Such class section changes include changing faculty members and moving students between course sections to balance enrollments.

Waiting List

If a hybrid/onsite/virtual class is already full at the time of registration, you can place your name on a waiting list for that class.

Regardless of how you register, the following procedures apply:

- You may not attend a hybrid/onsite/virtual class for which you are on the waiting list.
- If you are already enrolled in a different section of the same class for which you are waitlisted, you will not be enrolled in the waitlisted section even if space becomes available.

ABOUT STUDY AT UMGC

- If you are already enrolled in the maximum number of allowable credits and you are on a waiting list for another course, you will not be registered in the additional course even if space becomes available in the class.
- Faculty members and academic advisors are not authorized to add you to a closed class.
- If a space becomes available for an online and you are the next person on the waiting list, you will automatically be registered for that class, and the charge will appear on your account. You will be notified of the enrollment by email. For open spaces in hybrid/onsite/virtual class, you will be contacted to confirm your interest in enrolling. If you are ineligible for enrollment (because you have not met prerequisites or are enrolled in another class that conflicts in time), the space will go to the next person on the waiting list.

If you no longer want to enroll in the class, you should remove your name from the waiting list to prevent the possibility of being automatically enrolled.

The waiting list option is not available for online classes.

Dropping or Withdrawing from Classes

Procedures

To cancel your enrollment in a class without any mark on your transcript (dropping a class), you must access MyUMGC (my.umgc.edu) and follow the steps for dropping a class before the end of the drop period. The dates for the drop period are available on the UMGC website at <https://asia.umgc.edu/tuition-and-financial-assistance/course-withdrawal-refunds>.

When you drop a class, all tuition charges for that course are removed from your student account and no mark or record of the course will appear on your transcript.

If you wish to cancel enrollment in a class after the drop period ends (i.e., withdraw from a class), you must access MyUMGC and follow the steps for withdrawing from a class before the end of the withdrawal period. The dates for the withdrawal period are also available at asia.umgc.edu/services/course-withdrawal-refunds.

Withdrawing from a class will result in a mark of W (described on p. 34) on your academic transcript. You may be refunded a portion of your tuition based on the withdraw date and the refund schedule posted at asia.umgc.edu/services/course-withdrawal-refunds. You will be responsible for any remaining tuition due.

You should be careful to note deadlines according to your class format (online or hybrid/on-site) and division (stateside or Asia).

Failure to drop or withdraw from a class in the appropriate manner or by the posted deadlines may result in your receiving a failing grade and forfeiting any refund. The following actions do not constitute dropping or withdrawing from a course:

- Stopping payment on checks
- Nonpayment of tuition charges
- Never attending or participating in a class
- Ceasing to attend or participate in a class

If you have additional questions concerning withdrawing from or dropping a course, see UMGC Policy 170.72 Course Withdrawal at umgc.edu/policies.

Effect on Student Aid

If you are using financial aid and/or veterans benefits, you are strongly encouraged to contact the Financial Aid Office or Veterans Advising before you drop or withdraw from a class to fully understand the impact of such an action on your current and future financial aid awards and/or veterans benefits. Withdrawing from class could leave you responsible for a portion of the tuition. For more information, email studentservices-asia@umgc.edu or contact your local field office.

If you are using military tuition assistance, you must contact your military education counselor or education services officer for guidance on withdrawals related to emergencies or official duty requirements before dropping or withdrawing from a class to fully understand the impact of such an action on your current and future military tuition assistance benefits.

Ways of Earning Credit

UMGC excels in combining access with academic quality. It opens doors to learning by bringing education to you wherever you may be.

Because UMGC understands the importance of lifelong learning, it has established academic policies that encourage the appropriate use of transfer credit from other institutions as well as credit from less traditional sources. Recognizing that adult students bring to the university not only a willingness to learn but also an educational history informed by experiential learning, UMGC incorporates the assessment of nontraditional learning (i.e., learning gained outside the classroom) into the evaluation of student competencies and academic credit.

Transfer Credit from Outside Sources

Undergraduate Transfer Credit

UMGC accepts undergraduate credit from a variety of outside sources. Sources include:

- Institutionally accredited two- and four-year colleges and universities and other accredited institutions, including vocational and technical colleges, that have been approved by UMGC
- Other higher education institutions with which UMGC has an articulation agreement for acceptance of credit and/or a joint program
- Non-U.S. institutions, based on UMGC review of the report of a NACES member international credit evaluation agency
- High schools with which UMGC has an articulation agreement for acceptance of credit
- Corporate training or coursework; military occupational specialties, training, and experience; vocational and technical organizations; and industry certifications evaluated by nationally recognized credit evaluation agencies, such as the American Council for Education (ACE) or National College Credit Recommendation Service (NCCRS), or evaluated and approved by UMGC
- Standardized examinations (listed on p. 19)

Criteria for each type of credit are detailed in the following sections.

Be sure to discuss all previous experience and training with an advisor to ensure that you request evaluation from all the sources that are available to you.

CREDIT LIMITS

Credit transferred from outside sources is subject to maximum allowances, including

- 45 credits from two-year institutions toward the associate degree
- 45 credits from all sources combined toward the associate degree
- 70 credits from two-year institutions toward the bachelor's degree
- 90 credits from all sources combined toward the bachelor's degree

No more than half the credits required (usually 8 or 9 credits) from all sources combined may be applied to an undergraduate certificate program.

SOURCES, REQUIREMENTS, AND RESTRICTIONS

If you have earned credit at another college or university, you are responsible for determining whether courses you plan to take at UMGC would duplicate any previously earned credit and for submitting all official transcripts from colleges and universities you attended, as well as documentation of military and professional learning and pertinent test scores (CLEP, AP, etc.)—regardless of whether they appear on a previous college transcript or not.

UMGC does not accept transfer credits for remedial, precollege, or sectarian religious courses. If you plan to transfer credit from other institutions to UMGC, you may request an evaluation of your previous credit and experience to determine whether UMGC will accept transfer credit and how those credits may apply to a degree from UMGC. Official transcripts are required for UMGC to evaluate and award transfer credit. For nontraditional sources of credit, other documentation is required as set forth in the sections that follow. Transfer credit is granted only if it is applicable to your chosen program.

If you are in doubt about whether a UMGC course duplicates previous study, you should consult an advisor before registering.

More information on the process of transferring credit is provided on p. 15. UMGC Policy 210.18 Undergraduate Transfer Credit Evaluation and Appeal Process and UMGC Policy 210.17 Graduate Transfer Credit Evaluation and Appeal Process are available at umgc.edu/policies.

Credit from Other Colleges and Universities

Transfer credits from approved two- and four-year colleges and universities for courses in which you earned a grade of at least C (2.0) may be accepted for courses that apply to your undergraduate degree program and do not duplicate other courses for which credit has been awarded. Transfer credit for another institution's course challenge examinations and prior learning program may be accepted if it is listed on your transcript with a passing grade.

Credit from Community Colleges, Junior Colleges, and Vocational and Technical Colleges

A total of 70 credits from approved two-year institutions (community colleges, junior colleges, or vocational and technical colleges) may be applied toward a bachelor's degree at UMGC. If you have already completed 70 credits, you may not apply further credit from a two-year institution to a degree from UMGC.

If you initially enrolled in any of the public community colleges in Maryland, general education credit is transferred in conformance with the policy developed and approved by the Maryland Higher Education Commission, subject to any limitations under federal law. (Details are given on p. 27) If you have participated or are participating in one of the community college alliances with

ABOUT STUDY AT UMGC

UMGC and plan to enroll in courses at both institutions concurrently, you should consult with advisors at both institutions.

Credit from Military Institutions or Military Experience

UMGC may award credit for military experience, military service occupations, and military training offered by the U.S. Armed Forces or military institutions on the basis of the recommendations by the American Council on Education (ACE) in its Guide to the Evaluation of Educational Experiences in the Armed Services. Courses taken at accredited military institutions may also be accepted as part of an articulation agreement; they must meet other UMGC requirements for transfer credit, and they are subject to the same limitations as those placed on nonmilitary credit. UMGC generally accepts ACE recommendations for lower- and upper-level credit.

Credit from Community College of the Air Force

UMGC awards undergraduate credit for study at technical schools of the U.S. Air Force in accordance with recommendations from the Community College of the Air Force (CCAF). Up to 70 credits from CCAF may be accepted in transfer. Credits must be applicable to your chosen degree program at UMGC, must meet other UMGC requirements for transfer credit, and are subject to the same limitations as those placed on nonmilitary credit.

The following conditions apply:

- All credit from the CCAF is lower level.
- Since the CCAF records satisfactorily completed courses as S (satisfactory) and specifies that S equals a grade of C or higher, credit may be applied to your undergraduate UMGC degree program as determined by UMGC.
- Courses that are vocational or technical may be used only as electives in an undergraduate degree program.

Credit from Institutions Outside the United States

Study at institutions outside the United States must be evaluated by must be evaluated by a NACES member evaluation agency to be considered for transfer credit.

If you are seeking a review of potential transfer credit from a non-U.S. postsecondary educational institution, you must

- Mail your official international transcripts to a NACES member evaluation agency (listed at naces.org/members)
- Pay fees associated with the international evaluation

More details are available online at umgc.edu/internationalcredit.

Credit from Noncollegiate Courses and Training

UMGC may accept for credit noncollegiate courses and training applicable to your degree program that have been evaluated by either ACE (if the courses have been given credit recommendations in the *National Guide to Educational Credit for Training Programs*) or the National College Credit Recommendation Service (formerly PONSI).

INITIAL ESTIMATE OF TRANSFER CREDIT

You can have a review of your potential transfer credit done by an academic advisor. This review provides an estimate of the academic credit UMGC might accept toward a particular degree and of the requirements that would remain to be fulfilled. This review is not binding on either you or UMGC and is subject to change.

Graduate Transfer Credit

FOR MOST MASTER'S DEGREE AND GRADUATE CERTIFICATE PROGRAMS

Up to 12 credits of graduate coursework may be considered for transfer to UMGC graduate degree programs that do not require DCL 600M or DCL 600T, if they meet the criteria listed below.

Up to 6 graduate credits may be accepted in transfer for a graduate certificate program.

Graduate credits offered for transfer credit must be reviewed for approval and meet the following criteria:

- The credits must have been earned as graduate credit.
- The credits must have been completed within three years of your first term of enrollment in a graduate degree or certificate program at UMGC.
- You must have earned a grade of B (3.0) or higher in the courses considered for transfer. However, these grades are not included in the calculation of your grade point average.
- The academic department must have determined that the transfer courses are relevant to your program of study.
- For some programs, the credits must not have been applied to an earned degree. To determine if credits earned in a completed degree program are transferable, contact an advisor for details on any restrictions specific to your program.
- The credits must have been earned at a UMGC-approved accredited college or university and be equivalent to graduate-level coursework or recommended for graduate-level credit by the American Council on Education (ACE) or other nationally recognized bodies or as part of an approved articulation agreement.

UMGC may accept more than the usual maximum of 12 credits toward a degree program (or 6 credits for a certificate program) based on agreements with third parties. Decisions regarding your

eligibility to enter a graduate program and receive transfer credit based on agreements with third parties are made at the time of admission and may not be made retroactive after enrollment.

FOR MASTER'S DEGREE AND CERTIFICATE PROGRAMS THAT REQUIRE DCL 600M OR DCL 600T

Up to 6 credits of graduate coursework may be considered for transfer as replacement for DCL 600M or DCL 600T, if earned at a UMGC-approved accredited college or university.

If you have previously earned a master's degree from a UMGC-approved accredited college or university, you are eligible to receive transfer credit for DCL 600M or DCL 600T in recognition of the fundamental competencies essential for successful completion of a graduate degree program. If you have earned graduate credit but have not earned a master's degree, you may request a review of transfer credit for DCL 600M or DCL 600T.

All graduate credits offered for transfer credit in replacement of DCL 600M or DCL 600T are reviewed for approval and must meet the following criteria:

- Credits must have been earned as graduate credit.
- A grade of B or higher must have been earned in the courses considered for transfer. These grades, however, will not be included in the calculation of the grade point average at UMGC.
- Credits must have been earned at a UMGC-approved accredited college or university and be equivalent to graduate-level coursework or recommended for graduate-level credit by ACE.

Credit Options to Accelerate Degree Progress

Prior Learning

UNDERGRADUATE

Learning acquired outside the college classroom may be assessed for credit toward an undergraduate degree at UMGC if your work and life experience aligns to an undergraduate course at UMGC, as determined by UMGC. There are several methods to obtain credit for your work and life experience, including Course Challenge, Portfolio Assessment, and a variety of recognized external standardized assessments. Advisors can help you determine the best routes to use in fulfilling any academic plan.

Course Challenge

Course Challenge is a comprehensive assessment of the material that is normally presented through a full, term-length UMGC undergraduate course. The assessment provides the opportunity for you to establish academic credit for competencies gained

outside the classroom for which you have not already earned academic credit.

While some course challenges may consist of a final exam, the challenge can include other requirements based on the course chosen. These can include research papers, computer programs, language tapes, or other documents that exhibit the competency for which you are seeking credit. Requirements are set by the applicable academic department.

If you are an undergraduate degree- or certificate-seeking student at UMGC, have received an academic advisement report, and have a cumulative GPA of at least 2.0 in UMGC coursework, you may be eligible for course challenge. Students enrolled at other USM institutions are not eligible to take UMGC course challenge assessments.

Course Challenge is not intended as a substitute for independent study. Not all courses are available for course challenge. Advisors and Experiential Prior Learning office staff can inform you about specific courses that may not be challenged.

Only one course in a sequence may be challenged at a time, and you may not challenge a course that is prerequisite for a higher-level course you have already taken. In addition, you may not challenge CAPL 398A, EXCL 301, Workplace Learning courses (numbered 486A/B), or capstone courses (usually numbered 485 or 495).

You may not seek to challenge foreign language courses of your native language, except upper-level courses of your native language when those courses emphasize linguistics, literature, or written translation to and from English. You may not receive credit for 100- or 200-level courses in your native language.

Course challenge assessments may not be taken more than twice and may not be taken for courses for which you have previously enrolled. Other restrictions may apply.

Credit earned by course challenge is assigned a letter grade that is computed in your grade point average and may be applied toward a first or second bachelor's degree or toward a certificate.

Course challenges may only be canceled before you receive the assessment. Refunds are given only if a suitable assessment cannot be prepared.

Contact the Experiential Prior Learning office at priorlearning@umgc.edu for more information about eligibility and the challenge process.

ABOUT STUDY AT UMGC

Portfolio Assessment

Portfolio Assessment is a unique way for you to identify and articulate learning you have gained from work, community or political involvement, or other noncollegiate experiences and earn credit for it. To be eligible for Portfolio Assessment, you must:

- Have been admitted to UMGC as an undergraduate student
- Have a recent copy of your academic advisement report, updated in the last six months by an academic advisor
- Have completed an application for Portfolio Assessment

After you are accepted into the program, you must enroll in EXCL 301 Learning Analysis and Planning. EXCL 301 is a 3-credit course in which you prepare a portfolio describing and documenting the learning you have gained from past experiences and how it aligns to a particular UMGC course. Because EXCL 301 is a demanding and complex writing-intensive course, UMGC recommends that you not register for more than one other course during the session in which you are enrolled in EXCL 301 if you are enrolled part-time and that you complete a writing course before taking EXCL 301 to enhance your prospects for success in the course.

EXCL 301 is graded on an S/D/F basis (explained on p. 33). If the quality of your work in the portfolio merits a grade of C or higher, a grade of S is awarded and the portfolio is forwarded for credit evaluation. Faculty members from the appropriate disciplines assess the portfolio and recommend whether to award credits. Credit earned as a result of portfolio evaluation also earns a grade of S. The S grade is not computed in the grade point average and is not applicable toward honors.

If the quality of your work in the portfolio merits a grade of D or lower, the portfolio will not be forwarded for credit evaluation.

If you successfully complete EXCL 301 with a grade of S and submit a portfolio for evaluation, you may enroll in a supplemental class (EXCL X001) to complete additional portfolios. The supplemental class may be taken more than once. While the course confers no credit and may not be applied toward degree completion, it is graded on a S/D/F basis. If you take this option, you may not target courses for which you were previously denied credit in EXCL 301 or EXCL X001.

Portfolio Assessment credits may be awarded at both the upper and lower levels. Credits earned do not fulfill requirements for graded coursework and so may not exceed half the total credits for a major, minor, or certificate.

You may not request or receive credit through Portfolio Assessment for learning for which credit has been awarded by other

means. You may not request Portfolio Assessment for 100- and 200-level courses in your native language. In addition, certain specialized courses may not be available for credit via Portfolio Assessment.

Tuition for EXCL 301 is charged at the current undergraduate tuition rate for your residency or military status and covers evaluation of documentation for up to three courses. Tuition for EXCL X001 costs \$75 and does not include the cost for evaluation of documentation. Evaluations for courses/portfolios beyond the first three for EXCL 301 and any documentation submitted for EXCL X001 incur an additional fee, currently \$150 per portfolio/course. Course/portfolio assessment evaluation fees are applicable regardless of your Golden ID or financial aid status. Tuition and fees are subject to change. Visit umgc.edu/tuition-archive for information on additional fees.

You should carefully review the requirements, rules, and procedures for Portfolio Assessment. For more information, visit umgc.edu/priorlearning or contact the Experiential Prior Learning office by email at priorlearning@umgc.edu.

GRADUATE

You may be able to earn up to 12 graduate credits for prior learning, professional certifications, military and noncollegiate training, and training or coursework taken as part of an articulated agreement. For specific graduate programs, you may earn graduate credit for prior experiential learning through a portfolio process. Contact gradpriorlearning@umgc.edu for more information.

Workplace Learning

Workplace Learning offers an opportunity for you to gain experience and develop new knowledge and skills in your chosen discipline while you earn college credit through an integrated model that combines new learning opportunities with academic assignments, putting theory into practice and enabling you to accelerate progress on both your academic and career goals.

To participate in Workplace Learning, you must first apply to the program at least six weeks before you plan to enroll to determine whether credit may be applicable to your program. Deadlines are published in the MyUMGC student portal. Criteria for participating in the program are listed below. Once you are notified of your eligibility, you must develop a learning proposal that identifies project outcomes representing the new learning to be acquired during the work experience. A UMGC faculty member will review your learning proposal to ensure that it constitutes the appropriate level of learning. If your learning proposal is approved, you will be registered for the Workplace Learning class. The Workplace Learning class must be taken concurrently with your new learning experiences.

Throughout the Workplace Learning experience, you work under the supervision of your employer to complete your identified projects. During that time, you, your supervisor, and your faculty mentor are required to communicate regularly. Your project tasks constitute the course content. You also complete reflective academic assignments that complement your professional work and are reviewed and evaluated by your faculty mentor. For each credit, you must work a minimum of 45 hours.

Tuition for the Workplace Learning course is charged at the current rate per credit. See umgc.edu/tuition for current rates.

A standard letter grade is awarded for successful completion of Workplace Learning courses. It is strongly recommended that you consult with a UMGC advisor to determine whether Workplace Learning will fit into your program or how Workplace Learning credits may help you fulfill degree requirements.

Review the information, policies, and procedures detailed online at umgc.edu/wkpl or email workplacelearning@umgc.edu for assistance.

UNDERGRADUATE

If you are an undergraduate student at UMGC, you must meet the following criteria to be eligible for Workplace Learning:

- Have completed 30 credits, including transfer credit, toward a degree (if you are seeking a degree)
- Have completed at least 9 credits in the discipline in which you plan to do your Workplace Learning project
- Have completed at least 6 credits at UMGC
- Have a GPA of 2.0 or higher at UMGC
- Have submitted all official transcripts and contacted an advisor to request an official evaluation
- Be working in a position (paid or unpaid, part- or full-time) or have identified an opportunity to work in a position that allows you to apply classroom theory to practical projects that involve significant analysis and problem-solving and are directly related to a given academic discipline. The position should allow you to have new learning experiences; Workplace Learning will not be approved for day-to-day work tasks that have already been mastered.

As an undergraduate student, you may earn either 3 or 6 credits during the Workplace Learning session, which lasts 15 weeks. Undergraduate Workplace Learning projects may be developed in any discipline and may be applied to electives as well as to certain upper-level requirements in the major or minor. They may not be used to satisfy general education requirements or specific required academic coursework in your major. Courses are listed in the UMGC catalog with the designator of the discipline and numbered 486A (for 3 credits) or 486B (for 6 credits). For example, a

3-credit Workplace Learning course in business and management would be listed as BMGT 486A, a 6-credit course as BMGT 486B.

GRADUATE

If you are a graduate student at UMGC, you must meet the following criteria to be eligible for Workplace Learning:

- Be seeking a graduate degree or certificate
- Have completed 12 credits in the graduate program
- Have a cumulative GPA of 3.0 or higher
- Have submitted all official transcripts and confirmed remaining degree requirements with an academic advisor
- Be working in a position (paid or unpaid, part- or full-time) or have identified an opportunity to work in a position that allows you to apply classroom theory to practical projects that involve significant analysis and problem-solving and are directly related to a given academic discipline. The position should allow you to have new learning experiences; Workplace Learning will not be approved for day-to-day work tasks that have already been mastered.

As a graduate student, you may earn a total of 3 credits during the Workplace Learning session, which lasts eight weeks. Graduate Workplace Learning credit may be used only in programs that indicate Workplace Learning is an option. Courses are listed in the UMGC catalog with the designator of the discipline and numbered 686, such as DATA 686.

Credit by Examination

UMGC may award credit toward an undergraduate degree or certificate for various external standardized examinations, provided that there is no duplication of other academic credit and the scores presented meet UMGC standards.

Examinations may include

- Advanced Placement examinations administered by the College Board
- Cambridge International Examinations
- College-Level Examination Program (CLEP) examinations
- DANTES Subject Standardized Test (DSST) examinations
- Excelsior College Examinations (formerly called ACT/PEP and Regents examinations)
- International Baccalaureate exam
- Approved industry certification examinations (listed online at umgc.edu/creditbyexam)

UMGC also accepts credit for the following:

ABOUT STUDY AT UMGC

- Various professional examinations evaluated by the American Council on Education (ACE) or the National College Credit Recommendation Services (NCCRS)
- Examinations offered by other approved colleges and universities that appear on an official transcript, as approved on a case-by-case basis

If you intend to transfer exam credit that was awarded at another institution, you must have a transcript of those scores sent directly to UMGC from the examining body. When those scores have been received, an advisor will determine whether they meet the standards established at UMGC for granting credit and how much credit may be awarded. Credit earned through examinations may be used to fulfill major, minor, general education, or elective requirements, as applicable.

Consult your academic advisor or local representative for more information about credit by examination. Contact information for the UMGC location nearest you is available at asia.umgc.edu/students/academic-advising.

Accelerated Pathways Between UMGC Undergraduate and Graduate Degree Programs

Accelerated pathways between UMGC's undergraduate and graduate programs have been established in many academic areas to allow you to reduce your total coursework for certain related graduate degrees and certificate programs. Details on each of these pathways are provided on the following pages.

Unless otherwise stated under individual pathways, eligible credits for most pathways must have been completed no earlier than two years before the beginning of graduate studies at UMGC.

Graduate admission requirements and time limits for degree completion apply to all applicants.

ACCOUNTING

If you completed your undergraduate degree at UMGC with a major in accounting, an accelerated pathway between UMGC undergraduate and graduate programs in accounting allows you to reduce your total coursework for a related graduate degree by up to 6 credits.

The following undergraduate courses will be accepted as credit toward the courses listed below in the Master of Science in Accounting and Financial Management, CyberAccounting, or Management with a concentration in accounting for a maximum of 6 credits:

- ACCT 438 Fraud and Forensic Accounting and ACCT 440 Forensic and Investigative Accounting instead of ACCT 630 Fraud Examination

- ACCT 422 Auditing Theory and Practice and ACCT 436 Internal Auditing instead of ACCT 628 Auditing
- ACCT 323 Federal Income Tax I and ACCT 417 Federal Income Tax II instead of ACCT 613 Federal Income Taxation

The substitutions listed above are the only ones possible. Note that a minimum grade of B must be earned in each undergraduate course for the credits to be accepted at the graduate level.

CRIMINAL JUSTICE

If you completed your undergraduate degree at UMGC with a major in criminal justice within the last two years, an accelerated pathway between UMGC undergraduate and graduate programs allows you to reduce your total coursework for the concentration in criminal justice management within the Master of Science in Management by 6 credits (two courses).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for CJMS 600 Critical Analysis of the Criminal Justice System and CJMS 620 Issues in Correctional Administration.

CYBERSECURITY

If you completed your undergraduate degree at UMGC with a major in cybersecurity management and policy or in cybersecurity technology within the last two years, an accelerated pathway between UMGC undergraduate and graduate programs allows you to earn 6–9 credits toward a related graduate degree or certificate program. Individual program relationships are described below.

Cloud Computing and Cyber Operations

If you completed your undergraduate degree at UMGC with a major in cybersecurity technology within the last two years, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Science in Cloud Computing or the Master of Science in Cyber Operations, or a certificate in Cloud Computing and Networking or Cyber Operations by 6 credits.

If eligible, you may be awarded credit for DCL 600T Decisive Thinking, Communicating, and Leading in Technology Fields (6).

Cybersecurity Management and Policy

If you completed your undergraduate degree at UMGC with a major in cybersecurity management and policy within the last two years, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Science in Cybersecurity Management and

Policy or a certificate in Cybersecurity Management and Policy by 9 credits (three courses).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for CMAP 605 Foundations of Cybersecurity Management, CMAP 615 Cybersecurity Strategies, and CMAP 625 Cybersecurity Risk Management.

Cybersecurity Technology

If you completed your undergraduate degree at UMGC with a major in cybersecurity technology within the last two years, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for a master's degree in Cloud Computing Systems, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, or Digital Forensics and Cyber Investigation or a graduate certificate in Cloud Computing and Networking, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, or Digital Forensics and Cyber Investigation by 6–9 credits (two or three courses, depending on the program).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for CTCH 605 Introduction to Cybersecurity, CTCH 615 Cybersecurity Threats and Analysis, and CTCH 625 Cybersecurity for Systems and Networks.

Digital Forensics and Cyber Investigation

If you completed your undergraduate degree at UMGC with a major in cybersecurity technology within the last two years, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Science in Digital Forensics and Cyber Investigation or a certificate in Digital Forensics and Cyber Investigation by 9 credits (three courses).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for DFCS 605 Digital Forensic and Cybersecurity Investigation Foundations, DFCS 615 Collection and Examination of Digital Foundations, and DFCS 625 Windows Forensics and Security.

DATA ANALYTICS

If you completed your undergraduate degree at UMGC with a major in data science within the last three years, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of

Science in Data Analytics or a certificate program in Business Analytics by 6 credits (two courses).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for DATA 625 Data Visualization and DATA 635 Data Management.

HEALTH SERVICES MANAGEMENT

If you completed your undergraduate degree at UMGC with a major in health services management within the last two years, an accelerated pathway between UMGC's undergraduate and graduate degree programs allows you to reduce your total coursework for the Master of Science in Healthcare Administration or the Master of Science in Health Information Management and Technology by 6 credits (two courses).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for HCAD 600 Introduction to Healthcare Administration and HCAD 610 Information Technology for Healthcare Administration.

HOMELAND SECURITY

If you completed your undergraduate degree at UMGC with a major in homeland security within the last two years, an accelerated pathway between UMGC undergraduate and graduate programs allows you to reduce your total coursework for the concentration in homeland security management within the Master of Science in Management or the Master of Science in Information Technology by 6 credits (two courses).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for HSMN 610 Concepts in Homeland Security and HSMN 625 Critical Infrastructures.

HUMAN RESOURCE MANAGEMENT

If you completed your undergraduate degree at UMGC with a major in human resource management within the last two years, an accelerated pathway between UMGC undergraduate and graduate programs allows you to reduce your total coursework for the concentration in human resource management within the Master of Science in Management by 6 credits (two courses).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for HRMD 610 Issues and Practices in Human Resource Management and HRMD 630 Recruitment and Selection.

ABOUT STUDY AT UMGC

MANAGEMENT INFORMATION SYSTEMS

If you completed your undergraduate degree at UMGC with a major in management information systems within the last two years, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Science in Information Technology by 6 credits (two courses).

To be eligible for the pathway, you must complete the bachelor's degree with a cumulative GPA of 3.0 or higher.

If eligible for the pathway, you may be awarded credit for ITEC 630 Information Systems Analysis, Modeling, and Design and ITEC 640 Information Technology Project Management.

TEACHING

If you are pursuing a bachelor's degree from UMGC in an appropriate major (computer science, English, history, or social science or a general studies degree with a minimum of a 30-credit specialization in social studies) or have other appropriate coursework (including biology and mathematics coursework), you may reduce the total coursework for the Master of Arts in Teaching (MAT) by up to 12 credits (three courses, including the noncredit introductory course UCSP 615) and complete both degrees with a total of 138 credits of coursework. This accelerated program option allows you to take graduate-level coursework before you complete your undergraduate degree.

To be eligible for this accelerated MAT option, you must have completed the courses listed below before being accepted to the MAT program. The 500-level courses listed below are the only courses eligible for the 12 articulated credits available through this accelerated pathway. If completed with a grade of B or higher, the credits will apply to the MAT program. If successfully completed with a grade of C or lower, these credits apply toward the undergraduate degree only.

- EDTP 500 Professional Fundamentals of Teaching and Learning instead of EDTP 600 Professional Fundamentals of Teaching and Learning
- EDTP 535 Adolescent Development and Learning Needs instead of EDTP 635 Adolescent Development and Learning Needs

The substitutions listed above are the only ones possible.

Dual Master's Degree Programs

If you have earned a first master's degree within the last two years, you may be able to reduce the total credit required to earn a second master's degree by pursuing an approved dual degree program.

If you earned a Master of Business Administration from UMGC in the last two years, you may be able to reduce the total credits required to earn a second master's degree in management with a concentration in project management. To complete the second degree, you must complete 24 credits, including all concentration and capstone courses for that program.

If you are interested in pursuing a second degree through the dual degree program, contact an academic advisor or UMGC representative. Before beginning the second degree program, consult the catalog for the academic year in which you will begin study for the second degree for updates. Each degree must be completed within five years of beginning study for that degree.

Educational Relationships

Corporate Alliances

UMGC works to develop strong connections with local and national leaders in business and industry, government, and non-profit organizations and is an important partner in the region's economic development.

UMGC has developed customized programs for employers and organizations across the country and values employers' viewpoints. Consistent with its mission of bringing convenient and relevant learning opportunities to the workforce, UMGC has developed strong relationships with many prominent employers in the area and around the country, including Amazon, GEICO, and ManTech International.

Military Relationships

UMGC has a rich history of educating the armed forces that dates back to World War II. Through contracts with the Department of Defense, the university offers courses and services to servicemembers at military sites throughout Asia and Europe, including sites in combat zones. Courses and services are also available at numerous military sites stateside.

UMGC participates in the General Education Mobile program and the Air University Associate-to-Baccalaureate Cooperative program. UMGC also maintains a partnership with the U.S. Naval Community College for eligible active-duty enlisted sailors, marines, and coast guardsmen and Coast Guard reservists. For more information on these programs, see umgc.edu/military or speak to your education counselor.

At the graduate level, UMGC offers the Master of Science in Transformational Leadership, a specialized program designed for students with military experience who want to build on and maximize their leadership training to transition to civilian corporate, nonprofit, and government organizations. More information

on the Master of Science in Transformational Leadership is available on p. 236.

Community College and Other Higher Education Alliances

UMGC is dedicated to collaboration and cooperation with other Maryland educational institutions, both public and private, and actively seeks relationships with those institutions to benefit Maryland citizens. The university also reaches out through educational collaborations around the world.

UMGC is a charter member of MarylandOnline, a consortium of Maryland community colleges and universities formed to encourage collaboration among institutions across Maryland and to extend resources for the development and delivery of online courses.

In support of the university's mission to extend access to educational opportunities to Maryland's working adult students, UMGc has formed alliances with all 16 Maryland community colleges (listed in the Appendices), enabling students to earn an associate degree at an allied community college and finish a bachelor's degree by completing required coursework at UMGc. These Maryland alliances offer a seamless transition between curricula through linked degree programs. Each of the Maryland community colleges is visited regularly by UMGc representatives. In addition to online options, numerous class locations in Maryland and the Washington, D.C., area enable alliance students to complete bachelor's degrees conveniently close to home. Special UMGc scholarships are also available for graduates of Maryland community colleges.

In addition, UMGc has established alliance agreements with more than 60 community colleges across the United States.

More information on these alliances is available online at umgc.edu/alliances.

The university has also developed articulated programs with international secondary and postsecondary educational institutions.

Helping You Get Started

At UMGc, your success as a student is very important. The university seeks to help you fulfill your current education goals and to create an educational partnership with you that will last throughout your life.

To help you, UMGc looks first for ways to make it easy for you to get started. Admission policies are designed to simplify the admission process (standardized tests are not generally required), making it possible for you to apply and register for

most programs at the same time. Shorter terms and multiple start dates mean you don't have to wait to take that first class, which is geared to help you transition back to college-level study. Recognizing that financial concerns often present the most challenging obstacle to higher education, UMGc works hard to keep tuition costs low and provides numerous financial aid opportunities, including scholarships for military and community college students, to help you finance your education (described on p. 44). And to support you at every step—from finding the right program, applying for admission, registering for class, and getting academic and career assistance, to applying for your diploma and graduating—services and resources (described on pp. 26–23) are conveniently available online and by phone, as well as on-site at many locations.

Course Formats and Expectations

As a global university, UMGc makes it possible for you to take classes any time, any place. For your convenience, UMGc offers a large selection of online classes, as well as hybrid classes that combine on-site and online instruction and that are available at sites throughout Maryland and the Washington, D.C., metropolitan area and military and civilian sites all over the world.

Face-to-Face: Class meets face-to-face for in-person instruction. Work is done and instructional content is delivered all in the physical classroom. This class format utilizes LEO for access to OERs (Online Educational Resources) but logging into the LEO classroom is not necessary for students to complete any course work.

Hybrid: Hybrid classes typically meet on-site at a UMGc location for a number of sessions per term; the remainder of the teaching and learning in the course occurs in the online classroom. The schedule of on-site sessions is provided online at the beginning of the term. Classes offered in a hybrid format are identified by location in the schedule of classes.

Hybrid live-stream: The same format as hybrid, live-streaming sections are groups of students at different physical locations that are combined into a single learning group with one instructor who teaches the combined class. Students at the host location (A section) meet on-site in a classroom with the instructor while students at the other locations (S section) gather in a designated classroom with streamed live video and audio from the host classroom to the remote classroom.

Virtual (Two-way video): The Virtual format is similar to a Hybrid class, except for three notable differences:

1. Students and faculty do not physically meet in a classroom – they join class from home via Zoom at the scheduled day and time in a synchronous format. The remaining coursework is completed online in the LEO classroom, asynchronously.

ABOUT STUDY AT UMGC

2. Because the class is not tethered to a location, students from across the division may register for access this class format.

3. Lastly, because students join class meetings without being in a physical classroom, those using Veterans Benefits will have to certify as distance.

Online: Online courses maintain the same academic standards as hybrid courses. Course content, learning materials, requirements, assignments, and class participation are comparable for online and hybrid courses, and faculty members are engaged and supportive of students in either format.

Both online and hybrid course formats require that you have access to appropriate technology to participate in asynchronous, computer-based class discussions; study groups; online database searches; course evaluations; and other online activities.

Technology Requirements

GENERAL REQUIREMENTS

To be successful in online study, you must have some type of internet access. Barring individual course requirements, this access may be through use of a UMGC computer lab; university or public library; or other readily available, reliable source if you do not have internet access at home. In addition, you must have a current email address. You are responsible for your own internet access costs.

DISCIPLINE-SPECIFIC REQUIREMENTS

Some academic disciplines may have specific technology requirements, such as requiring you to download and install certain computer programs. To determine if such requirements apply to your coursework, you should consult the program and course descriptions. For more information about technology requirements, refer to umgc.edu/techreq.

Cybersecurity and Information Technology Courses

If you are taking upper-level coursework (beyond general education requirements) in a cybersecurity and information technology field, you will need equipment that meets the following specifications.

Hardware Requirements

- 64-bit processor, Intel Core i5 (7th generation or higher), or equivalent (e.g., AMD, M1)
- Processor Speed: 1.5 GHz or higher (2GHz recommended)
- Storage: At least 250GB (SSD [preferred] or HD), with at least 30–40 percent free space
- RAM: At least 4GB (8GB recommended)
- Display/Monitor: Minimum 13"

- Screen resolution: Minimum 1280 px x 1024 px
- Keyboard and mouse/trackpad
- High-speed internet connection (Ethernet or Wi-Fi)
- 32-bit video card

Operating System (one of the following)

- Windows 10 (recommended; version 1909 or higher required for any course using Adobe Creative Cloud)
- Mac OS X 10.15 or higher
- Ubuntu 18.04+ (or other Linux LTS)

Software

- Office 2019 or later (Office 365 Education is available for free with your student email address.)
- Most recent version/update of a web browser (Firefox, Safari, or Chrome)
- Antivirus software
- Adobe Acrobat PDF Reader

Additional Recommendations

- Built-in camera (or USB port for a webcam)
- Built-in microphone and speakers (or USB ports for external audio devices)

Note: Tablets, Chromebooks, and cell phones will not work with the virtual learning environment.

Graphics- or computing-intensive disciplines may require a higher processing speed, more RAM, and/or better screen resolution. For information specific to individual computing disciplines, see the course descriptions and umgc.edu/techreqs.

Expectations

Before registering, you may want to consider the following requirements to be successful as a student:

- You need to be prepared to write extensively, because nearly all communication is written. You need strong reading and writing skills in English.
- You need to be competent in the use of computers and commonly used software programs.
- Because the online classroom is asynchronous and you are expected to be an active participant, you are encouraged to log in frequently to check what has transpired in your online classroom.
- You will need disciplined work habits, effective time management skills, and the ability to work both alone and collaboratively.

First-Term Courses

An array of “first” and preparatory courses are managed by Student Affairs, which is committed to promoting your development and success as a student by providing programs and services that enable you to reach your educational goals. These courses are designed to provide a well-supported and productive start to your academic programs. Faculty members who teach these courses have been selected for their academic credentials as well as for their high degree of engagement and commitment to student success.

Since students come to UMGC with a wide range of academic preparedness and backgrounds in very different fields, the first courses focus on core skills that will prepare you to do well in your succeeding courses and program.

Required Introductory Courses

UNDERGRADUATE

Degree-seeking students starting with UMGC in our Asia or Europe overseas divisions are encouraged to take PACE 111 as their first course; however, if this is not possible, the student should work with their academic advisor or program coordinator to plan their degree and course requirements progression order. The three-credit PACE 111 course provides an orientation to UMGC and an exploration of how UMGC academic programs align to professional goals and career options. There are six models of the course to provide focused insight into the fields of business, communications and humanities, multi-disciplinary studies (e.g., any field), public safety, sciences and healthcare, and technology.

If you begin undergraduate study at UMGC with 60 or more transfer credits, you may be eligible to take PACE 100 Professional and Career Exploration for Transfer Students, which is a condensed orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. If you successfully complete this four-week course, you will earn 3 credits equivalent to PACE 111.

GRADUATE

There is no preparatory course for the MBA. For the Transformational Leadership program, you are required to take DCL 600M Decisive Thinking, Communicating, and leading in Multidisciplinary Fields, a 6-credit introductory course.

Undergraduate Preparatory Courses

If you are an undergraduate student, you may find a number of courses helpful to your success both during and after your undergraduate studies with UMGC. These include LIBS 150 Introduction to Research and CAPL 398A Career Planning Management.

SERVICES AND RESOURCES

Availability of Services

General Information

Local UMGC representatives are available to answer general questions and help you navigate UMGC's website. You can locate a representative at an office near you by visiting asia.umgc.edu/locations. Representatives also can make sure you are signed up to receive important announcements.

UMGC provides numerous services and resources to help you complete your educational program from anywhere in the world—through systems and resources available online; by phone, email, chat, and virtual meetings; and in-person at sites throughout Asia and worldwide. A number of offices are responsible for the delivery of these services, including Accessibility Services, Admissions, Advising Operations, Career Services, Global Military Operations, the Office of the Registrar, Office of Tuition Funding, and the UMGC Library.

Among these, Academic Advising, Student Services, and the Registrar respond to most of your academic needs throughout your college career, providing general information; admission assistance; academic advising; registration, graduation, and transcript services; and veterans benefits assistance.

MyUMGC

You may access many of your personal UMGC records online through MyUMGC (available online at my.umgc.edu). MyUMGC enables you to change personal information (such as home address, email address, or phone numbers); register and pay for courses; pay bills; check grades, financial aid, and student account status; apply for graduation; request certification for VA educational benefits and check the status of the request; and view and print reports (such as your class schedule, grade report, statement of account, and unofficial transcript). To access these services, you must enter your UMGC login credentials.

A glossary of terms frequently used in MyUMGC may be found in the appendices.

Accessibility Services

Reasonable accommodations are available to help you if you have a documented disability and are enrolled in any program offered at UMGC. Review our Reasonable Accommodation Policy at umgc.edu/policies for more information.

You can request disability-related accommodations by submitting a request to Accessibility Services.

You should make your request for accommodations as early as possible to allow sufficient time for staff to process your request, develop your accommodation plan, and coordinate your classroom accommodations. Once your request and accompanying documentation have been received and reviewed, Accessibility Services will notify you of the status of your request and schedule an intake appointment, which may be held over video conference, by phone, or via email. During the appointment, Accessibility Services will discuss with you your specific request for accommodations, your academic needs, available resources, and Accessibility Services' policies and procedures. Decisions regarding accommodations are based on an individualized assessment of program requirements and the need for accommodations. Once an accommodation plan is finalized, Accessibility Services will provide the plan to faculty members teaching your classes upon your written request.

You are under no obligation to disclose a disability unless an accommodation is being requested. A decision not to disclose is understood and respected; however, faculty members cannot provide individual accommodations if a formal accommodation plan is not received. All disability information provided to Accessibility Services is maintained separately from your academic information and is not considered part of your permanent academic record. Disability-related information is used solely for the purpose of establishing the existence of your disability and enabling UMGC to facilitate academic and supportive services related to your disability.

Visit asia.umgc.edu/students/student-life-and-support/accessibility-accommodations or contact Accessibility Services by phone at DSN (315)225-3680 or commercial +81-42-552-2510 ext. 5-3680 or by email at studentservices-asia@umgc.edu for more information.

Admission Assistance

If you are inquiring about becoming a UMGC student or are admitted but have not yet registered, admissions representatives can help you select the right program, apply for admission, identify the right payment option, plan your curriculum, and register for your first term of classes.

Contact a program coordinator at a location near you. Contact information for the UMGC location nearest you is available at asia.umgc.edu/locations. See p. 8 for information on admission.

Advising

Academic advisors help you develop the behaviors, skills, and habits you need to successfully navigate your academic program—from admission to degree completion. Their assistance can include reviewing potential transfer credit and helping you clarify education and career goals, develop learning strategies, and select appropriate courses. Advising services are available by phone or email at times that are convenient to you. If you are near one of UMGC's field locations, typically found in your local Education Center, you may schedule an advising appointment by contacting your local site.

Advisors will check in with you throughout the term, but you are also encouraged to keep track of your program requirements and seek advising. You should retain and refer to the catalog of the year you entered your program, as it contains all the degree requirements for which you will be held accountable as long as you maintain continuous enrollment. Archived catalogs are also available online at asia.umgc.edu/catalogs.

If you have not attended UMGC for a year or more, contact your local advisor for assistance in getting back on track. If it has been more than two years since your last enrollment, you must first reapply for admission. Once readmitted, you are required to fulfill the degree requirements detailed in the catalog of the year in which you resume study. More information on continuous enrollment is provided on the introductory pages describing each type of degree and certificate.

Whenever possible, you should get advising information in writing to help with future degree planning. You must meet all degree requirements to be cleared for graduation. Contact information for an Academic Advisor at a UMGC location nearest you is available at asia.umgc.edu/students/academic-advising.cfm.

Academic Advisement Report (Degree Plan)

An academic advisement report

- Includes all transfer credits applicable to your degree or certificate program
- Lists all courses you completed at UMGC
- Incorporates other types of academic credit
- Remains in effect only while you remain continuously enrolled

In the academic advisement report, courses (or other sources of credit) are applied to the most appropriate requirement remaining to be filled. Undergraduate courses that could apply to multiple requirements are assigned to the first relevant category in the following order: requirements for your academic major, general edu-

cation requirements, requirements for your academic minor (if you have one), and electives. Verification of other degree-wide requirements (such as minimum number of upper-level credits) follows and may affect the remaining credits needed for the degree.

Evaluated Military Degree Plans

UMGC will provide the necessary evaluated military degree plan as required by your military branch. When complete, your evaluated military degree plan is emailed to you so that you can upload it to your military portal.

Undergraduate

If you are an active-duty servicemember pursuing an associate or bachelor's degree, UMGC provides you with an evaluated military degree plan, as required by your military branch. The evaluated military degree plan documents any credit you have been awarded from other sources and lists all your remaining degree requirements, including the total number of credits needed for graduation and those required to fulfill general education, major, minor, and elective requirements.

To be eligible to receive an evaluated military degree plan, you must be an active-duty military servicemember and have a completed academic advisement report. You must submit all documentation for your academic advisement report as soon as possible so that it can be completed in a timely fashion.

Graduate

If you are an Army or Air Force servicemember pursuing a graduate certificate or degree, UMGC provides you with an evaluated military degree plan. If you are a Coast Guard, Marine Corps, or Navy servicemember pursuing a graduate certificate or degree, you do not require an evaluated military degree plan to be eligible for tuition assistance. The academic advisement report is sufficient documentation for that purpose.

Transfer Credit

To access information about progress in your chosen program, you need to submit official transcripts from all the colleges and universities you previously attended, including other institutions of the University System of Maryland, and any other potential source of credit, whether or not transfer credit will be requested or granted. UMGC may deny transfer credit from any institution not listed on the application for admission. Sources of transfer credit (described on p. 14) not listed at the time of admission or approved by an advisor after admission may not be applied toward your UMGC program.

You are responsible for submitting all pertinent academic documents (such as academic transcripts, confirmation of credit con-

SERVICES AND RESOURCES

ferred by examination, or records of credit from military service schools or sources) in a timely fashion to facilitate completion of your academic advisement report. To be considered official, documents must be sent directly from the issuer in either a sealed, unopened envelope or via an accepted secure electronic method. UMGC cannot accept official transcripts via fax or email, regardless of the source. For more information, visit asia.umgc.edu/submittranscripts.

Official documents should be mailed to the appropriate address:

Attn: Student Records
University of Maryland Global Campus
3501 University Boulevard East
Adelphi, MD 20783-8070

Alumni Association

The UMGC Alumni Association, founded in 1990, fosters and perpetuates lifelong relationships between alumni and their alma mater. Its mission is to support, enhance, and promote UMGC and its community of students, faculty, and alumni worldwide.

Membership in the Alumni Association is free for UMGC graduates. The association invites graduates to stay connected through volunteer service, social events, career networking, and other opportunities. Benefit programs and resources include career services, networking opportunities, affinity partner discounts, virtual alumni book club, and special alumni events—held both online and on-site.

Membership in the UMGC Alumni Association offers an exceptional opportunity to expand personal and professional networks. UMGC currently has more than 280,000 graduates in 47 states and 24 countries. UMGC alumni work in nearly all major international and Fortune 500 organizations, federal agencies, branches of the military, and private industry.

For more information on the Alumni Association and on how to activate your free membership, visit alumni.umgc.edu. You can also follow the Alumni Association on Facebook, LinkedIn, and Twitter.

Career Services

Career Services provides resources and services for UMGC students and alumni worldwide to inform them about, prepare them for, and connect them with their career and job-search needs. To access Career Services, activate your account on CareerQuest, UMGC's online career portal, at careerquest.umgc.edu using your UMGC login credentials.

Tools and Resources

Career Services offers a variety of tools and resources, available online 24 hours a day, that can be useful in the career planning and job-search process. Resources include résumé builders and critiques, online mock interviews, video job-search tips, LinkedIn profile critiques, mentor matching, and occupational information.

Job-Search Services

UMGC offers several services designed to support UMGC students and alumni who are seeking employment. Services include recruitment sessions and job fairs (held online and on-site); employability and job-seeking skills webinars, such as résumé writing and interview preparation; and job-search tutorials. CareerQuest enables you to register for recruiting events, search job listings and set job alerts, and post résumés for prospective employers.

Career Development and Planning

Career Services staff are available to provide personalized attention to help you clarify your skills, interests, and work-related values; make career/life-related decisions; research career options; plan for further study; and search for employment, whether you are new to your career field, making a career transition, or looking for guidance on how to climb the corporate ladder as an experienced professional.

Career advising services are available by appointment (on-site and by phone, video chat, and email) and can be scheduled via CareerQuest. Call 800-888-8682, ext. 2-2720, or visit umgc.edu/careerservices for more information.

Computer Labs and Services

Computer labs are available at many UMGC sites. You can check asia.umgc.edu/locations to see if a site near you has computing services. At some sites, use may be restricted to students taking classes at that site.

These labs are available primarily for you to complete coursework but are also open to faculty members, staff, and alumni with current single sign-on credentials on a first-come, first-served basis when computer-based testing is not in session, upon presentation of a valid UMGC ID. You must bring your own media to save required data or documents. Acceptable media include flash drives or thumb drives.

Local UMGC representatives are available during scheduled hours to help you with resident software programs but cannot provide tutoring.

Technical support for MyUMGC, the learning management system, and other learning applications is available 24 hours a day, seven days a week, at umgc.edu/help or 888-360-8682. For the most current information on technical requirements for online and hybrid courses, visit umgc.edu/techreq.

Course Materials

You can complete most UMGC degrees without purchasing textbooks, thanks to electronic resources that are free, up to date, and available in your online classroom. These open educational resources may include electronic textbooks, lectures, links to websites, and other selected documents and media.

Some courses do require the use of specific software or content that cannot be accessed for free. When you register for a course, check the required course materials listed in the interactive schedule of classes to determine whether you will need to buy any course materials. These materials are not included on your student account or added with your tuition and fees and must be paid for out-of-pocket.

For those few courses that require additional resources, you may order textbooks and software either through the vendor listed on the interactive schedule, from Barnes and Noble College (formerly MBS Direct) through the UMGC online bookstore (umgc.edu/bookstore), or by mail. In rare cases, your faculty member will provide information on special resources to purchase.

Graduation Clearance and Services

Application Deadlines

If you expect to complete the requirements for your program, you are responsible for making sure you have reviewed your academic advisement report with an academic advisor (details on p. 27), filed an application for graduation (available online through MyUMGC at my.umgc.edu) with Graduation Services, and paid the appropriate fee (currently \$50). For all undergraduate programs and most graduate programs, this may be done at the time you register for your final term or by the following deadlines:

December (fall term) graduation	October 15
May (spring term) graduation	February 15
August (summer term) graduation	June 15

If you are enrolled in the Transformational Leadership master's program, you may submit your application for graduation at the time you register for your final term or up to the following deadlines:

December graduation	October 15
March graduation	February 15
June graduation	April 1
September graduation	July 15

The same deadlines apply if you are completing a certificate program. The application form must be completed via MyUMGC at my.umgc.edu. Follow the links from the Student Center, to MyAcademics, and Apply for Graduation.

Clearance Process for Graduation

Once you have applied for graduation, Graduation Services will review your academic requirements and determine whether you are cleared for graduation. If you do not complete the degree requirements in the term in which you first applied for graduation, your graduation application will automatically be moved to the next term. You will not be required to reapply, and you do not need to pay the application fee again.

If you are taking courses or exams outside UMGC in your final term, make certain the credit is transferrable and fulfills your remaining requirement(s). Your transcript must reflect completion of such coursework or exams before the term's degree conferral date to be accepted for transfer toward that term's conferral. The Graduation Services team then certifies degree completion, awards the degrees or certificates, and orders the diploma(s). You will be issued a digital diploma after your degree or certificate has been awarded. Graduation Services also processes letters of completion and embassy letters.

Transcripts are not updated to show program completion, nor are diplomas and certificates ordered, until the degree has been awarded.

For more information on the clearance process for graduation, visit umgc.edu/graduationservices.

Commencement

Asia commencement ceremonies are held annually in April and May depending on your location. You will be invited to participate in commencement if you apply for a diploma in the same term as the ceremony (or have graduated since the last commencement). Visit asia.umgc.edu/commencement for more information about eligibility and details about the Asia commencement ceremonies.

If you invite guests from outside the United States, you may request up to 10 embassy letters up to five months in advance. Embassy letters for UMGC Asia students should be requested through the Office of Student Services at studentservices-asia@umgc.edu.

SERVICES AND RESOURCES

Library and Archives

The UMGC Library (umgc.edu/library) provides online access to scholarly and other materials on topics related to UMGC's academic programs. You can access full-text articles, electronic books, and subject- or course- specific resource guides that serve as starting points for your research.

Research assistance is available online 24/7 via the library's online chat service. Additionally, research and technical help is available via email and, telephone, and by appointment during posted hours. The UMGC Library also offers how-to videos, web pages, and other guides to help you conduct research for your assignments, as well as live webinars that can help you to learn more about academic research. Visit umgc.edu/library for more information.

Student Advisory Council

The Student Advisory Council provides input and feedback to the university administration on institutional initiatives. The council consists of 12 members, elected by the student body, who act in an advisory capacity to the university leadership on behalf of all students. The council does not have the authority to act on behalf of individual students but instead provides recommendations for the improvement of UMGC for the benefit of all.

If you would like to see certain issues addressed or have questions, you should contact your council representative by email at stac@umgc.edu.

More information on student governance is available online at umgc.edu/stac.

Student Organizations

Student organizations provide professional growth, leadership development, and academic recognition through career networking, service opportunities, and learning as part of a community. Most of UMGC's student organizations have virtual communities and enable you to participate regardless of your location. Visit umgc.edu/clubs for a list of active student organizations and instructions on becoming a member.

Transcript Services

Official academic records are maintained by the Office of the Registrar at UMGC and show all graded coursework taken through UMGC. A summary of your transfer credit from other institutions (including other institutions in the University System of Maryland) is also listed on your official transcript, if an official evaluation has been completed.

Your records are considered confidential. Therefore, UMGC releases transcripts only upon receiving an online transcript request from you and payment of the appropriate fee. Online requests are authenticated through your login credentials. An electronic release form is provided during the request process and serves as your official signature.

Various procedures for requesting transcripts are available online at umgc.edu/transcripts. A fee is charged for each UMGC transcript that is issued; additional fees are charged for rush overnight processing. You should allow at least three business days for transcript requests to be processed. All financial obligations to the university must be satisfied before a transcript may be released.

Tutoring and Writing Resources

Free online tutoring via Tutor.com or in group tutoring sessions offered via Zoom is available in select courses in accounting, biology, computer programming and information technology, economics, finance, statistics, mathematics, experiential learning, and other select general education study areas. Tutoring is not yet available for all subjects offered at UMGC. You are encouraged to first seek guidance from your faculty member, who is eager to help you master the material and concepts of the course. More information about tutoring services is available at umgc.edu/tutoring. If you need additional information or have any questions, email tutoring@umgc.edu.

Writing tutoring is available for all classes through various means. You can access *Tutor.com* through the online classroom and upload a draft of a paper to receive targeted assistance. You can also access writing-related services and resources through the Effective Writing Center, which is available online 24 hours a day, seven days a week. The center's experienced, trained tutors can help you develop key writing skills by providing specialized individual online tutoring, self-study modules, and other writing resources. You can schedule a session with a UMGC writing tutor via email to writingcenter@umgc.edu to set the day and time. There are also a number of additional resources hosted by the center, such as the "Online Guide to Writing and Research" and other multimedia materials. The center's goal is to help you become a more skilled and confident writer who understands the tasks before you, so that you are better pre-prepared for your next assignment, whether that is in the classroom or in your career. More information is available at umgc.edu/ewc.

Verification Services

Enrollment Verification

UMGC participates in the National Student Clearinghouse, which, in turn, supplies verification of enrollment to lending agencies. UMGC reports student enrollment data to the clearinghouse two times each month. Enrollment data are provided for all students who are enrolled in classes, whether they are attending full-time, half-time, or less than half-time, as well as for students who are considered to have withdrawn from the university. UMGC also reports degree information, including graduation date, for students who have completed an academic program.

If you are a current student, you may request enrollment verification through MyUMGC free of charge. If you are no longer enrolled at UMGC, you may request a transcript of your academic record to verify past enrollment.

All enrollment verifications requested via MyUMGC are processed in real time and available to print on the same day. An enrollment verification will not be processed until all financial obligations to the university have been satisfied.

Loan Deferment Form Certification

UMGC does not grant or deny deferment requests; any deferments are at the sole discretion of the lender. UMGC processes deferment forms, certifying your official dates of enrollment. If you are not enrolled in the current term, you are reported as having withdrawn, regardless of whether you plan to enroll or have already enrolled in a future term.

If you have a William D. Ford Federal Direct Loan and wish to apply for a deferment, you must complete the In-School Deferment Request (available at umgc.edu/finaidforms) and submit it to Academic Services and Quality by fax or email for certification. Forms should be faxed to 240-684-2005 or emailed to studentrecords@umgc.edu.

You should be aware of both your lender's deadlines for receiving deferment requests and UMGC's reporting schedule to avoid having deferment forms processed and forwarded to the lenders before enrollment data have been reported.

Degree Verification

UMGC has authorized the National Student Clearinghouse to provide degree verification. A degree verification will not be released until all financial obligations to the university have been satisfied.

Employers and background screening firms must contact the clearinghouse directly for this information, for which a fee is charged. For more information about this service, visit studentclearinghouse.org.

Veterans Resources

UMGC offers dedicated military and veterans advisors and a range of resources targeted specifically for veterans. These include Vet-Success on Campus and the Vessey Veterans Resource Center, a one-stop shop designed to give you the support you need to succeed in school and in your career. Learn more at asia.umgc.edu/military/veterans-affairs/veterans-benefits/index.cfm.

See p. 48 for information on using veterans benefits to pay for your education.

Wellness Resources

Explore available mental health and wellness resources online at umgc.edu/wellness. Chaplain offices on military bases in Asia also offer local counseling services to servicemembers and families stationed in Asia.

ACADEMIC AND ADMINISTRATIVE REQUIREMENTS

Academic Standards

UMGC standards for academic rigor assess the degree to which you demonstrate content mastery, application of critical-thinking skills, and adherence to UMGC's academic integrity policy.

Grading Methods

There are five grading methods at UMGC: standard, pass/fail, satisfactory/unsatisfactory, satisfactory/D/fail, and audit. The most commonly used is the standard method. Any course may be audited.

Some grading options and methods are limited to undergraduate or graduate courses as follows:

- The pass/fail grading method is available only at the undergraduate level and under limited conditions. The satisfactory/D/fail method is restricted to certain specified undergraduate courses. Both methods are described in the next section.
- The satisfactory/unsatisfactory method is available only for EXCL 001, graduate noncredit courses, and doctoral dissertation courses and may not be selected or changed.

The table at right defines the grades and marks; regulations and usage for each grading method are provided in the paragraphs that follow.

Grade or Mark	Interpretation	Quality Points
A	Exceeds standards Performance excels far above established standards and demonstrates high proficiency in the course subject matter.	4
B	Proficient Performance consistently meets standards and demonstrates proficiency in the course subject matter.	3
C	UNDERGRADUATE Meets standards Performance generally demonstrates proficiency in most course subject matter. GRADUATE Below standards Performance is insufficient to meet established standards.	2
D	UNDERGRADUATE Below standards Performance is insufficient to meet established standards. GRADUATE Not available	1
F	Failure Performance does not meet minimum standards.	0
FN	Failure for nonattendance	0
G	Grade pending	0
P	Passing (D or higher)	0
S	Satisfactory (C or higher)	0
I	Incomplete	0
AU	Audit	0
U	Unsatisfactory	0
W	Withdrawal	0

Standard

Unless you choose the pass/fail (for undergraduate courses only) or audit option for a particular course at the time of registration, you will be graded according to the standard grading method. Under the standard grading method, you earn a grade of A, B, C (for courses in which the grade of C is available), D (for undergraduate courses only), F, or FN on the basis of your performance in meeting the requirements of the course. All grades received under the standard grading method are included in calculating the grade point average (GPA).

Pass/Fail

If you are a degree-seeking undergraduate student, have earned 30 credits (including at least 15 credits at UMGC), and have a cumulative grade point average of 2.0, you may take one elective course each standard term (fall, spring, or summer) by the pass/fail method, up to a maximum of 18 credits.

This grading method is allowed only for electives. Courses that fulfill general education requirements, major or minor requirements, related requirements for the major, or certificate requirements may not be taken pass/fail, nor may pass/fail grading be used in retaking a course for which a letter grade was earned previously.

You must elect pass/fail grading at the time you register. This status may not be changed after the first week of classes.

If you register for pass/fail grading, you must still complete all the regular requirements of the course. The faculty member evaluates your work under the normal procedure for letter grades and submits a regular grade. Grades of A, B, C, or D are then converted to the grade of P, which is entered into the permanent record. A grade of F or FN remains unchanged.

Although a grade of P earns credit toward graduation, it is not included in calculating a grade point average. A grade of F or FN carries no credit toward graduation and is included in computing grade point averages.

This option is not available for graduate courses.

Satisfactory/Unsatisfactory

EXCL X001, UCSP 615, and doctoral dissertation courses are graded on a satisfactory/unsatisfactory basis. You may not choose to take other courses on a satisfactory/unsatisfactory basis. This grading method does not include an option for requesting a mark of Incomplete.

Satisfactory/D/Fail

This grading method is available only at the undergraduate level and on a limited basis, primarily for experiential learning courses. Although a grade of satisfactory (S) earns credit toward graduation, it is not included in calculating grade point averages. The grade of D earns credit and is included in computing grade point averages. While a grade of F or FN earns no credit toward graduation, it is included in computing grade point averages.

Grades and Marks

The Grade of F: Failure

The grade of F means you failed to satisfy the minimum requirements of a course. Although it carries no credit, it is included in calculating the GPA. If you earn a grade of F, you must register again for the course, pay all applicable tuition and fees, repeat the course, and earn a passing grade to receive credit for that course.

The Grade of FN: Failure for Nonattendance

The grade of FN is assigned if you register for a course and never attend or participate or if you cease to attend or participate within the first 60 percent of the course and do not officially drop or withdraw from the course. An FN grade results in zero quality points and no credit earned. It is included in calculating your GPA and may affect your academic standing. If you receive a grade of FN, you must register again for the course, pay all applicable tuition and fees, repeat the course, and earn a passing grade to receive credit for that course.

The Mark of G: Grade Pending

The mark of G is an exceptional and temporary administrative mark given only when the final grade in the course is under review. It is not the same as a mark of Incomplete.

The Grade of P: Passing

The grade of P is available only at the undergraduate level and is conferred after a faculty member has evaluated coursework under the normal procedure for letter grades and has submitted a standard grade (A, B, C, or D). Then the Office of the Registrar converts that standard grade into the grade of P.

A passing grade is recorded on the permanent record and confers credit toward graduation. However, courses graded P are not included in calculating grade point averages.

ACADEMIC AND ADMINISTRATIVE REQUIREMENTS

The Grade of S: Satisfactory

The grade of S is awarded only for select courses. Although the grade of S confers credit and appears on the permanent record, courses graded S are not included in calculating the GPA.

At the undergraduate level, the grade of S is equivalent to a grade of C or higher and is used to denote performance that meets standards in an experiential setting or practicum, such as EXCL 301.

At the graduate level, the grade of S is equivalent to a grade of B or higher and is used to denote performance that meets standards in noncredit and doctoral dissertation courses.

The Grade of U: Unsatisfactory

The grade of U indicates that work for the course was not completed at a satisfactory level. Although it appears on the permanent record, it carries no credit and is not included in calculating the GPA.

The Mark of I: Incomplete

The mark of I (Incomplete) is an exceptional mark, given only if your completed coursework has been qualitatively satisfactory, but you have been unable to complete all course requirements because of extenuating academic or personal circumstances beyond your control.

To be eligible for an I, you must have completed 60 percent or more of the course requirements with an overall grade of C or better for undergraduate courses or B or better for graduate courses.

You must request an I from your faculty member before the class ends. Faculty, however, are not required to approve the request. If your request for a mark of I is approved, you must arrange fulfillment of course responsibilities with your teacher by the assigned deadline to receive credit.

The mark of I is not available for courses graded on a satisfactory/unsatisfactory basis. Master's degree programs requiring DCL 600M or DCL 600 have additional parameters for the mark of I. Consult your course syllabus for detailed information.

The mark of I cannot be removed by means of credit by examination, nor can it be replaced by a mark of W (defined on the following page). If you elect to repeat an incomplete course, you must register again for the course, pay all applicable tuition and fees, and repeat the course. For purposes of academic progress, the course grade is counted as an F. The mark of I is not used in determining grade point averages.

You should be aware that a mark of I in your final semester may delay graduation.

Refer to UMGC Policy 170.71 Policy on Grade of Incomplete at umgc.edu/incomplete and your course syllabus for more information, particularly on deadlines.

The Mark of W: Withdrawal

The mark of W is assigned when you officially withdraw from a course. This mark will appear on your transcript but will not be included in calculating your GPA. For purposes of financial aid, the mark of W is counted as attempted hours. The mark of W can be posted only when you officially withdraw from the course through MyUMGC by the deadline for withdrawal according to the withdrawal process described on p. 14.

Audit

If you do not wish to receive credit, you may register for courses as an auditor once you are admitted. You may choose the audit method when you register or request a change from credit to audit status any time before the end of the first week of classes. As an auditing student, you do not have to complete course assignments, but you may choose to do so to receive faculty feedback on your work. Audited courses are listed on the permanent record, with the notation AU. No letter grade is given for audited courses, nor are credits earned.

The Grade Point Average

Your cumulative grade point average (GPA) is computed at the end of every term (fall, winter, spring, or summer), based on all your graded coursework at UMGC, using the quality points assigned to each grade or mark (detailed on the chart on p. 32). First, the quality-point value of each grade or mark is multiplied by the number of credits; then the sum of these quality points is divided by the total number of credits attempted for which a grade of A, B, C (for courses in which the grade of C is available), D (for undergraduate courses only), F, or FN was received.

Only courses applied toward a second bachelor's degree are computed in the GPA for that degree, even if you earned a first degree at UMGC.

Only courses applied toward a master's degree are computed in the GPA for that degree, even if you earned an undergraduate degree at UMGC.

Changes in Grade

Faculty members may revise a grade previously assigned only if your grade was miscalculated or a mark of I was submitted and must be changed. Any revision must be made no later than four months after the original grade was awarded.

Repeated Courses

Grading Repeated Courses

If you failed or withdrew from a course, you must repeat the course to establish credit in it. In such a case, you must register, pay the full tuition and fees, and repeat the entire course successfully.

When you repeat a course, only the higher grade earned is included in the calculation of your GPA. For purposes of financial aid and satisfactory academic progress, both attempts are counted toward your completion rate. Both grades are entered on the permanent record, with a notation indicating that the course was repeated. You cannot increase the total hours earned toward a degree by repeating a course for which you already earned a passing grade.

If you are enrolled in a second master's degree program, you may not repeat coursework from your first program, even if your second program requires one or more of the courses required in your first program. See p. 149 for more information on earning a second master's degree.

Limits on Repeating Courses

UNDERGRADUATE

If you are an undergraduate student, you may not register for the same course more than three times without first speaking to an advisor and submitting a course repeat petition form, which must be on file before the start of the term in which you wish to repeat the course. Your advisor can also explain how repeating the course affects your GPA, transcript notations, and progress toward degree completion. Note that the limit on repeating courses applies only to courses in which you have received a grade. Officially withdrawing from a class and receiving a mark of W is not counted as an attempt for repeat limits.

GRADUATE

If you are a graduate student and your term or cumulative GPA drops below 3.0, you will be placed on academic probation, and you must successfully (i.e., with a grade of B or better) repeat the course that caused the GPA to fall below 3.0 and earn no further grades of C, F, or FN during the probation period. For more information, see Graduate Academic Standing on p. 36.

Institutional Credit

A course that may not be applied toward graduation may be assigned a credit value for purposes of course load per session and tuition. This institutional credit is included in your GPA and in determining your eligibility for financial aid, tuition assistance, and veterans educational benefits. However, if you are required to take these courses, you do so in addition to the credit required for the degree.

Academic Standing and Levels of Progress

UMGC assesses your academic standing at the end of every term. Your GPA is computed for all UMGc graded coursework to make a determination of academic standing according to your level of progress as described below.

For details, see UMGc Policy 158.00 Undergraduate Academic Levels of Progress and UMGc Policy 158.01 Academic Standing Status for Graduate Students, both available online at umgc.edu/policies.

Undergraduate Students

UNDERGRADUATE LEVELS OF PROGRESS

At the undergraduate level, there are four levels of academic progress: satisfactory, warning, probation, and dismissal.

Satisfactory

If your cumulative grade point average is 2.0 or higher, you are considered to be making satisfactory progress.

Warning

If your cumulative GPA is less than 2.0, you will be placed on academic warning. You will remain on academic warning as long as your cumulative GPA is less than 2.0 but your GPA for the term is 2.0 or better.

Probation

If you are on academic warning and your GPA for the term is less than 2.0, you will be placed on probation.

If your GPA for the term is 2.0 or better while you are on probation, but your cumulative GPA is less than 2.0, you will return to academic warning or provisional admission status.

While on academic probation, you are limited to a maximum enrollment of 7 credits per standard term or 4 credits per session until your academic progress status returns to warning.

Dismissal

If you are on probation and your GPA for the term is less than 2.0, you will be dismissed. Once dismissed, you must apply for reinstatement if you wish to continue studies with UMGc. Your application for reinstatement must be approved before you are eligible to register again for UMGc courses.

If you are on probation and your GPA for the term is 2.0 or higher, you will not be dismissed, regardless of your cumulative GPA.

ACADEMIC AND ADMINISTRATIVE REQUIREMENTS

REINSTATEMENT AFTER DISMISSAL FROM AN UNDERGRADUATE PROGRAM

If you were academically dismissed from an undergraduate program at UMGC, you may submit a request to be reinstated by contacting your local academic advisor. You must explain the changes you have made in your academic preparation and the strategies you have adopted that will improve your potential for successfully completing your program. You are not eligible to register again for UMGC courses until you are reinstated.

If you attended another college or university since you were academically dismissed, you must ensure that transcripts from any such college or university are sent to UMGC. You may direct inquiries to the Office of Student Services at studentservices-asia@umgc.edu.

Staff know that these petitions for reinstatement are important and that you are eager to get back on track, so petitions will be reviewed as quickly as possible. The Office of Student Services will notify you of the decision.

If you are approved for reinstatement, you will be admitted and placed on academic warning. You may also be required to meet additional conditions, such as working with an advisor or tutor or enrolling in specific courses. You must earn a 2.0 or better to avoid academic probation.

If you have questions about the reinstatement process, speak with an academic advisor or email studentservices-asia@umgc.edu.

Master's Degree Students

GRADUATE ACADEMIC STANDING

At the graduate level, there are three levels of academic standing: good academic standing, academic probation, and academic dismissal.

As a graduate student, you must maintain a cumulative and term GPA of 3.0 or higher at all times to remain in good academic standing.

Good Academic Standing

If you have a term and cumulative GPA of 3.0 or higher, you are in good academic standing.

Academic Probation

If you have a term or cumulative GPA below 3.0, you will be placed on academic probation in your next term of enrollment. Academic probation is a temporary status. If you are placed on academic probation, you have up to two terms of enrollment in which to restore your GPA to 3.0. During that time, you must enroll only in

the course(s) for which you received a grade that caused your cumulative or term GPA to drop below 3.0. You may not attempt any other coursework until you earn a grade of B or better in the repeated course(s), unless an exception is granted under one of the following circumstances:

If you are required to enroll in one 3-credit course that caused your term or cumulative GPA to drop below 3.0, you may be permitted to enroll in a second 3-credit class in the same term. To be eligible, you must meet with an advisor and submit an exception request for a review of your specific academic circumstances.

If you are considering switching graduate programs while you are on academic probation, you may be permitted to enroll in coursework in the new program rather than repeating the course(s) that caused your term or cumulative GPA to drop below 3.0. To be eligible, you must meet with an advisor and submit an exception request for a review of your specific academic circumstances.

In both circumstances, failing to restore your GPA to 3.0 or higher or earning any grade below B while on probation will result in academic dismissal. If you restore your GPA to 3.0 or higher, you will be returned to good academic standing. You should seek guidance and advice from an advisor if you are placed on academic probation.

Academic Dismissal

If you are on academic probation and you fail to raise your GPA to 3.0 or higher or if you earn a grade below B during the probationary period, you will be dismissed. Once dismissed, you are ineligible to enroll in UMGC graduate courses and may be readmitted to UMGC only under the conditions for reinstatement or restart described in the following paragraphs.

REINSTATEMENT AFTER DISMISSAL FROM A GRADUATE PROGRAM

If you were academically dismissed from a graduate program at UMGC, you may submit one request for reinstatement. You must explain the changes you have made in your academic preparation and the strategies you have adopted that will improve your potential for successfully completing your program. You may direct inquiries to studentservices-asia@umgc.edu. Staff know that these petitions are important and that you are eager to get back on track, so petitions will be reviewed as quickly as possible. Student Services will notify you of the decision.

If you are approved for reinstatement, you will be admitted for one term and placed on academic probation. You may also be required to meet additional conditions, such as working with a coach or tutor or enrolling in specific courses. By the conclusion of this term, you must be in good academic standing to remain enrolled.

If you are reinstated to the same program in which you were last enrolled, you must immediately repeat the course(s) for which you received the grade(s) that caused your cumulative GPA to drop below 3.0. If you are reinstated to a different program, your previous coursework and credits will not apply.

If you fail to attain a cumulative GPA of 3.0 or higher or if you earn a term GPA below 3.0, you will be academically dismissed, and you will not be eligible to apply for reinstatement or a restart again.

If you have questions about the reinstatement process, speak with an academic advisor or email studentservices-asia@umgc.edu.

RESTART AFTER DISMISSAL FROM OR ACADEMIC PROBATION IN A GRADUATE PROGRAM

If you were academically dismissed from a graduate program, have not been approved for reinstatement (as described in the preceding section), and have not attended graduate classes for a period of at least five consecutive years, you may request a one-time restart. You may also request a one-time restart if you were on academic probation when you last attended and have not attended graduate classes for a period of at least five consecutive years. Grades and credits previously earned will not apply toward any program you pursue upon your return, and you must fulfill the program requirements in effect at the time you restart.

Program Completion Requirements

The award of degrees and certificates is conditional upon satisfactory completion of all program requirements, compliance with all UMGC policies, and satisfactory or good academic standing (described on pp. 35-36). Graduation clearance will not be granted if you are not in good academic standing, have outstanding debt to UMGC, or have any outstanding misconduct charges or unsatisfied sanction restrictions. Individual programs may have additional requirements that must be met before graduation clearance can be granted.

Scholastic Recognition

Honor Societies

Honor societies are national organizations that celebrate the scholarship and leadership of students in specific fields of study. The honor societies represented at UMGC meet our high academic standards, and membership is a privilege that can enhance your academic and professional stature. Contact information for each honor society chapter can be found online at umgc.edu/honor-societies. Many honor societies process new membership applications only once or twice a year. If you receive an invitation

to an honor society, you should first check that it is listed on the UMGC website or in this catalog before joining. The descriptions that follow indicate whether an honor society is open to undergraduate students, graduate students, or both.

Alpha Mu Alpha

Alpha Mu Alpha is the national marketing honor society for qualified undergraduate and graduate marketing students and marketing faculty. Alpha Mu Alpha is affiliated with the American Marketing Association and aims to acknowledge outstanding scholastic achievement on a highly competitive basis. To be eligible as an undergraduate student, you must be majoring or minoring in marketing; have completed at least 90 credits toward your bachelor's degree, with at least 9 credits in marketing coursework and 12 credits at UMGC; and have a cumulative UMGC GPA of 3.25 or higher. To be eligible as a graduate student, you must be enrolled in the Master of Science in Management program with a marketing concentration, have completed at least 6 credits of graduate marketing courses at UMGC, and have a UMGC GPA of 3.8.

Alpha Sigma Lambda

Alpha Sigma Lambda is a nationally recognized honor society that celebrates the scholarship and leadership of adult undergraduate students in higher education. Members of Alpha Sigma Lambda are highly motivated adult students who are pursuing their undergraduate education and managing the responsibilities of work and family while studying. To qualify for membership, you must be pursuing a first associate or bachelor's degree; have completed at least 24 credits at UMGC in courses graded A, B, C, D, or F; and maintained a GPA of 3.7 or higher in all UMGC courses.

Lambda Epsilon Chi

Lambda Epsilon Chi (LEX) is the national honor society founded by the American Association for Paralegal Education (AAfPE), which recognizes the scholarship and leadership of legal studies students in higher education. There are more than 150 chapters throughout the United States and thousands of inductees who have been honored for their outstanding academic achievements.

Membership is open to legal studies majors by invitation only. To be eligible for membership, you must complete a minimum of 24 credits (semester hours) of legal studies coursework and demonstrate superior academic performance, as evidenced by a GPA of at least 3.5 in UMGC legal studies classes and an overall UMGC GPA of at least 3.25.

ACADEMIC AND ADMINISTRATIVE REQUIREMENTS

National Society of Collegiate Scholars

The National Society of Collegiate Scholars (NSCS) is an honor society recognizing students who have completed fewer than 60 credits toward an associate or a bachelor's degree and have shown academic excellence. The honor society encourages members to participate in honor society, university, and community events and provides resources to enable them to focus on their professional and leadership development. To be eligible, you must be seeking a first associate or bachelor's degree. You must have completed at least 12 credits at UMGC in courses graded A, B, C, D, or F and have a cumulative GPA of 3.0 or higher. In addition, you must have completed between 12 and 59 credits toward your degree.

Phi Alpha Theta

Phi Alpha Theta is a nationally recognized honor society that brings together students and faculty who are interested in the field of history. If you are a student with UMGC stateside, you must have completed a minimum of 12 credits (four courses) in history, on-site, online, or through Advanced Placement testing or transfer credit (or a combination thereof), to qualify for membership. A minimum GPA of 3.1 in history and 3.0 overall are also required. To apply, email Phi Alpha Theta National at info@phialphatheta.org. If you are a student in UMGC Europe, you can find your chapter at phialphatheta.org. If you are a student in UMGC Asia, contact your local UMGC office to find out if there is an active local chapter and what the eligibility requirements are.

Phi Kappa Phi

The Honor Society of Phi Kappa Phi promotes the pursuit of excellence in all fields of higher education and recognizes outstanding achievement by students, faculty, and others through election to membership and through various awards for distinguished achievement. Admission is by invitation only. If you are an undergraduate student and have completed at least 72 credits toward your degree (including at least 24 credits at UMGC) and rank academically in the upper 10 percent of your class, you may be eligible. As a graduate student, you must have completed at least 18 credits in your program and be in the top 10 percent of all graduate students. Invitations are sent out to students who meet these eligibility requirements.

Pi Gamma Mu

Pi Gamma Mu is the international honor society for the social sciences and recognizes outstanding scholarship in that area at UMGC. Membership is offered to qualified undergraduate students interested in anthropology, criminology, economics, gerontology, history, legal studies, political science, social psychology, sociology, and women, gender, and sexuality studies. You must have completed at least 45 credits toward your degree to be eligible. If

you have earned at least 20 credits in social science coursework (including at least 9 credits at UMGC) and have a GPA in the top 35 percent of your class, you may be invited to join in the spring of each academic year. For inquiries about membership, contact marylandtheta@umgc.org. For more information about this honor society, visit pigammamu.org.

SALUTE

SALUTE (which stands for Service, Academics, Leadership, Unity, Tribute, Excellence) is the first national honor society established for student veterans and military servicemembers in two-year and four-year institutions of higher education. Members include retirees, disabled veterans, active-duty military, National Guard members, and reservists who are returning to higher education, starting second careers, or helping fund their college careers with military service.

To be eligible for SALUTE, you must be currently enrolled at UMGC; be currently serving in or have been honorably discharged from the military (including National Guard and reserves); have completed at least 12 credits with UMGC (or equivalent); have served as a mentor in the One2One mentoring program for at least one term, posted feedback on Vessey Veterans Student Union articles or to the social wall at least twice per month, or served as a volunteer in the past six months; display the highest ethical standards; and maintain a GPA of at least 3.0 as an undergraduate student or 3.5 as a graduate student. Documentation of volunteer activity is required.

If you meet the minimum standards stated above, you are encouraged to apply for membership. To learn more, visit umgc.edu/salute.

Sigma Phi Omega

Sigma Phi Omega is a national academic honor and professional society in gerontology that seeks to promote scholarship, professionalism, friendship, and services to older persons and to recognize exemplary attainment in gerontology and aging studies and related fields. Student membership is open to undergraduate students majoring or minoring in gerontology and aging services, social science (with a focus on gerontology), and related fields. You must be in at least your second term of enrollment, have completed a minimum of 12 credits at UMGC, and have a GPA of at least 3.3. Your eligibility will be confirmed through the chapter sponsor before membership is conferred.

Sigma Tau Delta

Membership in Sigma Tau Delta, the international English honor society, is open to qualified undergraduate UMGC students with a major in English. To be eligible, you must have earned at least 45 credits toward the bachelor's degree with an overall GPA of 3.5 or

higher. At least 18 credits must have been earned through UMGC and must include 9 credits of English, at least 6 credits of which must be upper level. You must also have earned a GPA of 3.6 or higher in English major coursework at UMGC.

Upsilon Phi Delta

Upsilon Phi Delta is a national academic honor society founded by the Association of University Programs in Health Administration for students in healthcare management and policy and designed to recognize, reward, and encourage academic excellence in the study of healthcare administration. To be eligible as an undergraduate student, you must have a cumulative GPA of 3.25 or higher and at least 18 credits of coursework in health services management with a GPA of 3.25 or higher in those courses. If you are a graduate student, you must have a cumulative GPA of 3.5 or higher and at least 18 credits of graduate coursework.

Upsilon Pi Epsilon

The Kappa Chapter of Upsilon Pi Epsilon, the international honor society for the computing and information disciplines, is open to undergraduate and graduate students. To be eligible as an undergraduate student, you must be pursuing a bachelor's degree with a major in the computing and information disciplines and must have completed at least 45 credits. You should have completed at least 30 credits at UMGC in courses graded A, B, C, D, or F, including at least 15 credits in the computing and information disciplines, and must have a GPA of at least 3.5 overall and in all computing and information systems coursework. If you transferred to UMGC in your senior year or are pursuing a second undergraduate degree, then you may be eligible after completing 15 credits of information technology and computer science courses at UMGC; in such a case, you need not have completed 30 credits at UMGC.

If you are a graduate student, you may be considered for membership if you are pursuing one of the following degrees: MS in Cloud Computing Systems, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, Data Analytics, Digital Forensics and Cyber Investigation, Information Technology (with a concentration in database systems technology, informatics, information assurance, software engineering, or systems engineering), or Management (with a concentration in information systems). To qualify for graduate-level membership, you must have completed at least 18 credits at UMGC toward your degree, with a cumulative GPA of 3.5 or higher.

Academic Honors and Awards

Latin Honors

Latin honors for excellence in scholarship are determined by cumulative GPA at UMGC for undergraduate students. The distinction of summa cum laude is conferred on those undergraduate students with a cumulative GPA of 4.000; magna cum laude honors are conferred on those with a cumulative GPA of 3.901 to 3.999; cum laude honors are conferred on those with a cumulative GPA of 3.800 to 3.900. To be eligible for any of these categories of recognition, you must have earned at least 30 credits at UMGC in courses for which a letter grade and quality points were assigned. For honors to be conferred with a second bachelor's degree, you are required to have a total of 30 new UMGC credits and the requisite GPA. (See p. 78 for more information on attaining a second bachelor's degree.)

Dean's List

The dean's list is calculated at the end of each term. To be eligible for the dean's list, you must have completed at least 6 credits (in courses graded A, B, C, D, or F) during the term, earned a GPA of at least 3.5 for the term, and maintained a cumulative GPA of 3.5 at UMGC.

All courses taken during the term are used in computing the GPA, even though the total number of credits may exceed 6. A term is designated as fall, spring, or summer.

If you make the dean's list, you will be notified via email of your achievement by the Office of the Dean of your school.

President's List

If you are graduating from either an undergraduate or graduate program with a cumulative GPA of 4.0, you are placed on the president's list at graduation.

If you make the president's list, you will be notified via email of your achievement by the Office of the President.

ACADEMIC AND ADMINISTRATIVE REQUIREMENTS

Responsibilities of the Student

Attendance and Participation

You are responsible for attending all on-site and online classes and any related activities regularly and punctually. Faculty members may base part of the final grade on class participation.

You are expected to achieve the same intended learning outcomes and do the same amount of work in an online course as you would in an on-site course. Active participation is required in all courses, whether they are online or on-site with an online component, and you should expect to log in to your courses several times a week.

Absence from class does not excuse you from missed coursework. You are responsible for completing any missed coursework, as indicated in the course syllabus, and obtaining detailed information about missed class sessions, including content, activities covered, and any announcements or assignments. Failure to complete any required coursework may adversely affect your grade. Faculty members are not expected to repeat material that you missed because of your absence from class.

You may not give permission to another person to accompany you to an on-site class meeting, to attend an on-site class meeting in your place, or to access or attend your online class, except as part of reasonable accommodations arranged through Accessibility Services.

Academic Integrity

Integrity in teaching and learning is a fundamental principle of a university. As a member of the International Center for Academic Integrity (academicintegrity.org), UMGC subscribes to the center's definition of academic integrity as "a commitment, even in the face of adversity, to six fundamental values: honesty, trust, fairness, respect, responsibility, and courage." UMGC believes that all members of the university community share the responsibility for academic integrity.

As a UMGC student, you are expected to conduct yourself in a manner that will contribute to the maintenance of academic integrity in accordance with the university's philosophy of academic integrity (umgc.edu/integrityphil). All forms of academic misconduct, defined as actions that create an unfair academic advantage, are a violation of the principles of academic integrity and will not be permitted. Attempts to engage in academic misconduct or to assist others in doing so are prohibited and may result in disciplinary actions that range from lower assignment grades to expulsion. Candor, the acknowledgement of error, and willingness to learn from mistakes are valued in the misconduct review process.

Resources to help you uphold the highest standards of academic integrity and a link to UMGC Policy 150.25 Academic Integrity are available at umgc.edu/academicintegrity. UMGC strongly encourages you to review the complete policy and to make use of available resources and support services.

Intellectual Property

The primary mission of universities is to create, preserve, and disseminate knowledge. When that knowledge takes the form of intellectual property, a university must establish a clear and explicit policy that will protect the interests of the creators and the university while ensuring that society benefits from the fair and full dissemination of that knowledge. UMGC's policy on intellectual property is available online at umgc.edu/intellectual-property.

Expected Time Commitment

According to the university's definition of a unit of credit (described in Policy 160.00 Credit Hour Definition), you should expect to spend 42 to 45 hours on coursework (online or on-site class discussions and activities, additional study, readings, and preparation of assignments) for each credit you earn. Typically, you should expect to spend at least three hours each week on completing outside academic work and study for every credit in which you are enrolled during a standard session. For example, you would need to devote at least nine hours per week to outside study for a 3-credit course held in an eight-week session.

Course Load

See UMGC's Policy 215.00 on Student Academic Load and Enrollment Status at umgc.edu/policies for more information.

Undergraduate

For undergraduate students, full-time enrollment is defined as 12 or more credits per term and half-time as 6 to 11 credits per term (fall, spring, or summer). Decisions on the number of courses you can successfully complete in any one session are normally left to your discretion.

Most UMGC students register for between 3 and 7 credits per term, and you are strongly advised not to exceed this limit. Carefully and realistically assess your other commitments before you register for more than 7 credits. You may not register for more than 18 credits in a 17-week period without written permission from the Office of Student Services.

To initiate the permission process, contact your academic advisor. Permission to register for more than 18 credits is at the university's discretion and is based on demonstrated academic excellence at UMGC. A minimum GPA of 3.5 and an enrollment history

indicating success in carrying a heavier-than-average course load at UMGC are required.

You may not register for on-site or hybrid courses whose scheduled meeting times overlap.

Graduate

FOR MASTER'S DEGREE PROGRAMS

If you are enrolled in a program that operates on a three-term calendar for the academic year, you are considered a full-time graduate student if you are registered for at least 9 credits of graduate coursework per term and half-time if you are enrolled for 6 credits per term.

If you are enrolled in a program that operates on a four-term calendar for the academic year, you are considered a full-time graduate student if you are registered for 6 credits per term.

Given the time commitment required for graduate study, the normal academic load is 6 credits per term. UMGC strongly recommends that you limit your academic load to conform with the demands of your employment and the time you have to prepare for class.

Taking more than 6 credits per term is not allowed in any program that operates on a four-term calendar.

If you have a compelling need to take more than 6 credits per term (and are enrolled in a program that allows course overloads), you may submit to your advisor a written request to take 6 additional credits of coursework (i.e., two additional courses) for a maximum total of 12 credits. You must have fulfilled the prerequisites for any additional courses you wish to take. In the request, you must indicate your acceptance of the academic risk entailed in adopting the course overload.

To be considered for a course overload, you must

- Be a degree- or certificate-seeking student in a program that operates on a three-term calendar
- Have a 3.0 GPA

Appealing a Grade

The established performance standards for a course grade are communicated in the syllabus and other course materials. If you reasonably believe that your grade was not based on such standards but was arbitrary and capricious, you may pursue the appeal process for arbitrary and capricious grading. Procedures for appealing a grade are detailed in UMGC Policy 130.80 Procedures for Review of Alleged Arbitrary and Capricious Grading, which is available online at umgc.edu/policies.

There is a time limit for appealing a grade; if you want to appeal a grade, you must initiate the process by requesting a conference with the faculty member to discuss how the grade was calculated within 30 calendar days of the posting of the grade. If you have conferenced with a faculty member with no resolution, contact dean-asia@umgc.edu with a detailed explanation of how you believe that your grade situation fits the definition of arbitrary and capricious grading as provided in the policy.

Grievance and Appeal Procedures

If you have legitimate complaints about faculty, staff members, academic departments, or administrative units, contact the Dean's Office at dean-asia@umgc.edu. Most academic issues about specific problems that have arisen can be resolved by contacting the faculty member teaching your class before they escalate further.

To file a formal complaint concerning the actions of members of the UMGC faculty or administrative staff, you must follow the procedures detailed in UMGC Policy 130.70 Student Grievance Procedures, which is available at umgc.edu/policies as well as from the Office of Academic Integrity and Accountability. If you wish to seek redress for the acts or omissions of a faculty or staff member, you must first request a conference with that person and attempt to resolve the complaint informally within 14 calendar days of the alleged act or omission. If you have attempted resolution within the academic program or department without a satisfactory outcome, email resolution.management@umgc.edu and include information required by the grievance policy.

If you are not satisfied with the outcome of your student grievance, you may submit your complaint to an applicable accreditor, state higher education agency, or other external entity. Contact information for external entities is available at umgc.edu/external-complaint.

If you wish to file a complaint about discrimination or harassment, you must follow the procedures detailed in UMGC Policy 040.30 Affirmative Action and Equal Opportunity, available at umgc.edu/eo. You can file a complaint regarding discrimination or harassment at fairpractices@umgc.edu. You may file a complaint regarding sexual misconduct at titleinvestigator-overseas@umgc.edu.

Connectivity and Technical Fluency

UMGC is committed to ensuring that you have access to up-to-date resources and acquire the level of fluency in information technology you need to participate actively in contemporary society.

As a UMGC student, you must own or have access to a personal computer, have access to the internet, and have a current email address. You must be prepared to participate in asynchronous, computer-based class discussions, study groups, online database

ACADEMIC AND ADMINISTRATIVE REQUIREMENTS

searches, course evaluations, and other online activities whether your course is held online or on-site. Although a mobile device is useful for keeping up with reading course materials and posting to discussion boards, a computer provides all the functionality needed for an online classroom.

You must also be able to reach fellow students, faculty, and the university via email. You will be assigned a UMGC account, which includes email, as soon as you register. While you are not required to use the UMGC email address, you must provide and maintain a current email address through MyUMGC (*my.umgc.edu*).

In addition, you are expected to have a working knowledge of and access to a basic word processing program, such as Microsoft Word; a spreadsheet program, such as Microsoft Excel; internet email services; Microsoft Windows; and the World Wide Web. As a UMGC student, you may use Microsoft Office 365, including Word, Excel, and PowerPoint, plus additional classroom tools at no cost. Office 365 can be accessed either via the web or by downloading applications to home or work computers.

Information on technology requirements for computing and IT courses is provided on p. 24. The most current technical requirements are available online at umgc.edu/online-degrees/technology-requirements

World Language Placement Testing

Proper placement in language courses helps ensure your success and allows you to advance more quickly toward your degree goals. If you have prior experience of a world language, you should take a complimentary placement test before enrolling in a language course. Placement testing will help determine the most appropriate course for which you should register in certain foreign languages.

Contact languages@umgc.edu for more information and to set up a placement exam. For learners interested in Korean language placement testing, please email dean-asia@umgc.edu.

Change of Address

If you move while enrolled at UMGC, you must notify UMGC by updating your personal information in MyUMGC.

Transfer of Credits from UMGC

To have credits earned through UMGC transferred to another institution, you must obtain authoritative guidance from the institution to which you intend to transfer—even if it is another institution in the University System of Maryland. The transferability of credits earned is always at the discretion of the receiving institution. Only that institution can answer specific questions about whether it will accept transfer credit, as well as whether any credits may satisfy its admission, residency, and degree requirements or apply to its curricula.

Code of Civility

To encourage the development and growth of a supportive and respectful academic environment for all students, faculty, and staff, UMGC has created the Code of Civility, which is available at umgc.edu/civility.

Code of Student Conduct

UMGC Policy 151.00 Code of Student Conduct outlines prohibited conduct and the procedures by which such conduct is addressed. The university reserves the right to take appropriate action to protect the safety and well-being of the UMGC community.

You may be accountable to both civil authorities and to UMGC for acts that constitute violations of law and of this code. Disciplinary action at UMGC normally will go forward pending criminal proceedings and will not be subject to challenge on the grounds that criminal charges involving the same incident have been dismissed or reduced.

In every case of alleged Code of Student Conduct violation, the burden of proof rests with the complainant, who must establish the responsibility of the person accused by a preponderance of evidence. In cases where the complainant wishes to remain anonymous, the burden of proof rests with the administrator.

See umgc.edu/student-conduct for additional information about the UMGC Code of Student Conduct.

FINANCIAL INFORMATION

Payment of Tuition and Fees

UMGC requires that you pay your tuition and fees on time. Due dates are provided at the time of registration and depend on how early you register for courses.

Current Tuition and Fees

Tuition rates and fees are available online at asia.umgc.edu/tuition. Information on student classification and residency is provided at usmd.edu/regents/bylaws/SectionVIII.

Review the fee schedule carefully to see which ones apply to you. Fees are commonly charged for admission and graduation applications, laboratory use (science and computer courses), field study, transcripts, and various options for earning credit (such as Workplace Learning, Prior Learning Portfolio Assessment, and credit by examination). A service charge is assessed for dishonored checks.

Payment Deadlines

UMGC requires that you pay your tuition and fees on time. Your payment due date is the first day of the course for which you have registered. Due dates are provided at the time of registration and are visible in the Account Balance panel in your Student Account Center in MyUMGC.

Note: All other charges, including application and diploma fees, are due the same day the charges are incurred.

All tuition and applicable fees must be paid by the deadline, unless you

- Applied for financial aid to cover tuition and fees for the session
- Confirmed your status as active-duty military or submitted your military tuition assistance documents
- Requested certification for your veterans education benefits
- Enrolled in UMGCC's interest-free monthly payment plan
- Provided confirmation that you will receive employer-provided tuition assistance

UMGC offers a variety of payment options. Payments can be made via

- Credit card (American Express, Discover, MasterCard, or Visa)
- Money order

- Check (made payable to University of Maryland Global Campus)
- Electronic debit from a checking or savings account

You are encouraged to make payments via your secured student portal.

Consult the appropriate sections of this chapter for further information about tuition assistance, financial aid, or veterans benefits. More information about different payment options, including the monthly payment plan, is available at umgc.edu/payoptions.

Refunds for Dropping or Withdrawing from a Course

Registering for a course obligates you to pay for it; however, if for any reason you are unable to take a course, you must officially drop or withdraw from the course. See p. 14 for procedures on how to drop or withdrawal from a course.

If you drop a course during the drop period, you will qualify for a full refund of tuition and fees, except for the admission application fee.

If you withdraw during the withdrawal period, you may be refunded a portion of the tuition as determined by the date of withdrawal and the refund schedule posted online at asia.umgc.edu/services/course-withdrawals-refunds. All refunds are computed from the date the withdrawal is formally initiated, not from the date of the last class you attended or the last participation date. Refunds are applicable for tuition only. Fees are not refundable.

If your tuition was paid directly through employer tuition assistance, the refund is returned to the employer. If the tuition assistance was only a partial payment, it is returned to the employer, and excess payment is refunded to you.

See the following sections for information on return of military tuition assistance, veterans benefits, and federal return of funds policy for financial aid students.

Dishonored Checks

For each paper or electronic check returned to UMGCC by the payer's bank (whether because of insufficient funds, stopped payment, postdating, or drawing against uncollected items), UMGCC assesses a service charge of \$30 (over and above any service charges levied by the financial institution).

If you stop payment on a check for tuition, you will be neither disenrolled nor relieved of responsibility for paying tuition and

FINANCIAL INFORMATION

fees. Anyone whose checks for tuition or fees remain dishonored may be barred from classes.

Indebtedness to the University

If you incur debts to UMGC, you must clear them to be permitted to register. Requests for diplomas may be denied until all debts have been paid. Outstanding debts are collected against refunds due to you. After a reasonable period, uncollected debts are forwarded to the Central Collection Unit of the Maryland Department of Budget and Management.

The Board of Regents has authorized UMGC to charge students' delinquent accounts for all collection costs incurred by UMGC. The normal collection fee is 17 percent plus attorney and/or court costs. Delinquent accounts are reported to a credit bureau.

Ways to Finance Your Education

Monthly Tuition Payment Plan

UMGC offers a cost-effective alternative for students who are budgeting for college tuition: an interest-free, monthly tuition payment plan. This plan allows you to spread all or part of your tuition bills into monthly installments on an academic session basis. All UMGC students are eligible to participate in the payment plan, regardless of financial need. If you are interested in the monthly payment plan, visit asia.umgc.edu/tuition-and-financial-assistance/tuition-assistance.

Employer-Provided Tuition Assistance

If an employer is going to pay for part or all of your tuition, at the time of registration you must submit two copies of a document (purchase order, tuition assistance form, or contract on company letterhead) containing the following information:

- A specific description of types of fees and charges (such as tuition, application fee, or books) and the amount to be assumed by the employer
- Your full name and student identification number or the last four digits of your Social Security number
- The session covered by the document
- The billing address
- The signature and phone number of the authorizing official

If you do not have an authorizing document at the time of registration, you must pay the bill in full and arrange for direct reimbursement from your employer. UMGC cannot issue refunds for authorizing documents submitted after registration.

Documents that restrict payment or are in any way conditional will not be accepted. If the employer does not pay UMGC, you are responsible for payment.

Financial Aid

UMGC's Financial Aid Office administers a variety of financial assistance programs—including grants, scholarships, and loans—to help you meet the costs of your educational goals. Aid is available for students who demonstrate financial need, academic merit, or both.

General Eligibility Requirements

To be eligible for federal student aid and most UMGC need-based assistance, you must

- Complete and submit a Free Application for Student Aid (FAFSA) each year and have an official Student Aid Index (formerly known as Expected Family Contribution)
- Be admitted to UMGC as a degree-seeking or eligible certificate-seeking student
- Be a U.S. citizen or an eligible noncitizen
- Possess a valid Social Security number
- Have a high school diploma or General Education Development (GED) certificate
- Be enrolled in courses that are required for your degree or certificate program

Note: Courses not applicable to your degree or certificate program, audited courses, some repeated courses, credit by examination, and credits earned through portfolio assessment will not be included in determining eligibility for financial aid. See Program Applicability on p. 361.

- Be enrolled at least half-time for most federal programs
- Meet requirements for satisfactory academic progress toward a degree or certificate according to UMGC policy
- Not be in default on any federal student loans, nor have borrowed in excess of loan limits, nor owe a refund on any grant under Title IV federal financial aid programs

The Financial Aid Application Process

You must complete the Free Application for Federal Student Aid (FAFSA) to be considered for federal, most state, and institutional financial aid at UMGC. The FAFSA (which is available online at studentaid.gov) must also be completed if you wish to be considered for need-based Maryland state grants and scholarships. UMGC's school code is 011644. The FAFSA form must be submitted by the federal deadline each year; many states also set priority deadlines by which you must submit the form to be considered for aid programs they administer. UMGC encourages you to complete the FAFSA as soon as you have decided on your

academic career. For more information, visit asia.umgc.edu/tuition-and-financial-assistance/financial-aid

Financial Aid Programs

Financial Aid programs are available to both full- and part-time students. UMGC may offer the following types of financial aid: grants, scholarships, and loans. In most cases, at least half-time enrollment is required. (Full- and part-time status is explained on p. 40.)

Eligibility for federal financial aid is determined each year based on data submitted on the FAFSA. Following is a description of programs currently available at UMGC.

GRANTS AND SCHOLARSHIPS

UMGC offers and administers many different types of grants and scholarship programs from various funding sources. UMGC aims to offer scholarship funding to as many eligible students as possible each year based on available funding. For this reason, it is not common for students to receive more than one donor-funded or institutional scholarship in an aid year. The standard combined annual maximum award amount for most donor-funded and institutional awards is \$2,000. The following are the main categories of scholarships and grants that are available to eligible UMGC students. Additional annual maximum award limits and restrictions other than those listed below may apply. Contact the Financial Aid Office for details.

Note: This list is not exhaustive and is subject to change.

Federal Grants

The federal government provides grants for students attending college. Most types of grants are sources of money that generally do not have to be repaid.

- The **Federal Pell Grant** is a grant program for high-need, first-time undergraduate students. Award amounts vary by need level and enrollment status.
- The **Federal Supplemental Educational Opportunity Grant (SEOG)** offers need-based awards for high-need students who are seeking their first undergraduate degree. The amount and number of awards vary depending on the availability of funds allocated by the U.S. Department of Education.

More information is available at asia.umgc.edu/grants.

UMGC Institutional Scholarships and Grants

UMGC allocates a portion of its operating funds each year to help eligible students with demonstrated financial need afford their coursework. Most institutional funds are provided as part of the regular award packaging process and do not require a separate application. The most commonly provided institutional scholarships are described below.

The **UMGC President's Grant** offers up to \$1,400 per year to select students with demonstrated need who are enrolled in at least 3 credits of coursework per semester.

The **UMGC President's Scholarship** offers up to \$2,000 per year (fall and spring semesters only) to select students who have demonstrated need and a GPA of 3.0 or higher, have completed a minimum number of credits at UMGC, are enrolled in program-applicable courses, and maintain at least half-time enrollment status each term they receive the award.

Note: You may not receive both the President's Grant and the President's Scholarship in the same term.

The **Maryland Completion Scholarship** is offered to UMGC undergraduate students who meet the following criteria. You must

- Be a current Maryland resident receiving the in-state tuition rate, or an active-duty servicemember
- Have earned an associate degree from a Maryland alliance community college
- Be pursuing a first bachelor's degree with UMGC
- Maintain a term and cumulative GPA of 2.0 and meet the university's requirements for satisfactory academic progress
- Be enrolled in courses that are required for your degree program
- Successfully complete at least 3 credits every fall and spring semester (Summer courses are also eligible for Completion Scholarship funding; all regular requirements must be met in any optional summer registration.)

If you qualify, you can receive the Maryland Completion Scholarship for up to 60 credits attempted at UMGC or for up to five calendar years starting in the semester of the first award, whichever occurs first. You must provide an official transcript showing completion of a conferred associate degree from a Maryland community college before the end of your second semester of enrollment at UMGC.

Donor Scholarships

Generous donors to UMGC have provided many different scholarship funds, each with its own specific criteria. If you meet the general eligibility requirements for donor-funded scholarships, you will receive an invitation by email (and in the student portal) each spring semester. This application is the only one needed for consideration for nearly all donor-funded scholarships. An invitation to apply for these scholarships does not guarantee funding, as funds are limited.

In general, to be eligible for these scholarships you must

- Be enrolled as a degree-seeking student
- Have a current FAFSA on file, demonstrating financial need

FINANCIAL INFORMATION

- Have successfully completed 15 credits (if you are an undergraduate student) or 9 credits (if you are a graduate student) in courses taken at UMGC
- Meet satisfactory academic progress standards (described in a following section)
- Maintain a cumulative GPA of 3.0
- Maintain at least half-time registration each fall and spring semester

Maryland Higher Education Commission (MHEC) Programs

The state of Maryland offers many different grant and scholarship programs to eligible students. The MHEC website (mhec.state.md.us) is the best source for current information about the different programs available to UMGC students and application deadlines. Note that some deadlines are early. For more information, contact the Maryland Higher Education Commission Office of Student Financial Assistance at 410-767-3300 or 800-974-0203 or visit the website.

Private and Third-Party Scholarships

Outside agencies, such as social clubs or volunteer organizations, may offer scholarship funds to UMGC students to assist with education costs. These agencies provide funding either directly to you (the student) or directly to UMGC for processing and administration. The Financial Aid Office ensures that students receiving these funds maintain eligibility per the requirements of the individual agencies.

For more information on scholarships, visit asia.umgc.edu/scholarships.

LOANS

Loan programs are available to students enrolled in at least half-time status each semester. If you borrow funds to pay for college expenses, you must repay the principal and interest in accordance with the terms of the promissory note.

The **Federal Direct Loan program** offers two types of loans: subsidized and unsubsidized. Loan amounts vary based on your degree level (i.e., undergraduate or graduate), grade level, and dependency status. Repayment begins six months after you leave school or your attendance drops below half-time. For annual eligibility amounts and general repayment terms, visit umgc.edu/direct-loan.

- Federal Direct Subsidized Loans are available to eligible undergraduate students who demonstrate financial need. The U.S. Department of Education pays the interest on Federal Direct Subsidized Loans while you are in school at least half-time and for the first six months after you leave school.

- Federal Direct Unsubsidized Loans are available to eligible undergraduate and graduate students. There is no requirement to demonstrate financial need. Interest on an unsubsidized loan begins on the day the loan is disbursed and continues until the day that you repay the loan in full. You can pay the accumulating interest while you are in school, during the grace period, or during deferment, or you may capitalize the interest (i.e., add unpaid accumulated interest to the total unsubsidized amount borrowed) when you begin repayment.

The **Federal Direct PLUS Loan Programs** are loans for graduate students and parents of dependent undergraduate students to help pay for education expenses not covered by other financial aid. Eligibility is not based on financial need, but a credit check is required. Borrowers who have an adverse credit history must meet additional requirements to qualify. Repayment begins as soon as the loan is fully disbursed; however, there is an option to defer payments while you meet certain enrollment criteria.

For more information on federal loan repayment obligations, visit umgc.edu/loan-repayment.

Private student loans are made by private organizations—such as banks, credit unions, and state-based or state-affiliated organizations—and have terms and conditions that are set by the lender. If your financial aid does not meet your financial need, you may be able to borrow up to your cost of attendance through a private student loan program. These education loans are not federal loans; you borrow directly from and make payments to the lender. Private student loans usually have higher interest rates than federal loans. UMGC encourages you to apply for federal student aid before seeking alternative private loan options. If you are interested in a private student loan, contact the lender of your choice. For more information on federal financial aid programs, visit umgc.edu/financial-aid. More information on loan repayment is available at umgc.edu/loan-repayment.

Program Applicability

Federal and state regulations mandate that financial aid can only be disbursed for courses that are required for your degree or certificate program. If you enroll in courses that are not required for your degree or certificate, those courses will not be used to determine your financial aid eligibility. If you choose to remain in courses which are not applicable to your degree or certificate program, your financial aid may be negatively affected as a result. For more information, see umgc.edu/course-applicability.

UMGC Financial Aid Standards for Satisfactory Academic Progress

If you receive financial aid, federal regulations require you to maintain satisfactory academic progress toward your degree or certificate. If you fail to meet the minimum requirements, you are not eligible to receive financial aid. Review the complete Satisfactory Academic Progress policy for financial aid students, including details of the appeal process, at umgc.edu/sap.

Federal Return of Funds Policy

Federal financial aid is offered under the assumption that you will attend and participate in classes for the entire period for which the aid has been offered. If you receive Title IV funds and do not attend or participate for the entire period for which you have been given aid, the university is required by federal regulation 34 CFR 668.22 to perform a Return of Title IV Funds calculation. The requirement to perform such a calculation may be triggered by any of the following actions occurring during your enrollment period:

- Course cancellation
- Disenrollment
- Never participating in a class
- Ceasing to participate in a class
- Dropping a course
- Withdrawing from a course
- Ceasing enrollment for 45 calendar days or more between modules

You are not considered to have withdrawn

- If you certify your intent to return later within the same term in which you dropped or withdrew from class, unless you do not return as scheduled
- If you fulfill all the requirements for graduation from the program before completing the required number of days in the period for which you have received funds
- If you complete one or more modules that together cover at least 49 percent of the days in the payment period
- If you successfully complete credits equal to or greater than the credits required for half-time enrollment

When the Financial Aid Office performs a return of funds calculation, unearned funds are returned to the Department of Education. This can result in a balance owed to UMGC. You are then responsible for repaying the outstanding debt, or it will be transferred to the state Central Collection Unit.

If you are using federal financial aid, you are strongly encouraged to contact the Financial Aid Office before dropping or withdrawing

to fully understand the impact on your current and future financial aid.

Email studentservices-asia@umgc.edu for assistance.

For More Information

If you need additional information, visit the Financial Aid Office at asia.umgc.edu/tuition-and-financial-assistance/financial-aid/contact-financial-aid or contact your local representative.

Military Tuition Assistance

If you are serving in the Navy, Marine Corps, or Coast Guard, you must contact your education center to request a tuition assistance form. A tuition assistance form signed by the education coordinator must be submitted at the time of registration using one of the methods listed at umgc.edu/milta.

If you are serving on active duty in the U.S. Army or are a member of the Army National Guard or Army Selected Reserves and intend to use military tuition assistance benefits, the funds will be approved in the ArmyIgnitEd portal (armyignited.com) one business day after you have registered for classes with UMGC.

If you are serving in the Air Force, you may submit your tuition assistance forms via the Air Force Virtual Education Center (AFVEC) portal. If you are the spouse of a servicemember eligible to utilize MyCAA (My Career Advancement Account) benefits, you may also submit your tuition assistance via the AFVEC portal.

Return of Unearned Military Tuition Assistance Funds

Military tuition assistance funds are awarded under the presumption that you will attend and participate in classes over the entire period for which the funds have been awarded. If you receive military tuition assistance funds and do not attend or participate for the entire period for which funds were provided, the university is required by the Department of Defense to perform a Return of Unearned Military Tuition Assistance funds calculation. The requirement to perform such a calculation is triggered by any of the following actions occurring on or before the 60 percent point of your enrollment period:

- Course cancellation
- Disenrollment
- Never participating in a class
- Ceasing to participate in a class
- Dropping a course
- Withdrawing from a course

FINANCIAL INFORMATION

A return of funds calculation is based on the last documented date of attendance or participation in the class or the date the drop, withdrawal, cancellation, or disenrollment is initiated. When a return of funds calculation occurs, unearned funds are returned to the Department of Defense. This can result in you owing a balance, which is your responsibility to repay to UMGC. To learn more about course withdrawal and return of military tuition assistance, see UMGC Policy 170.72 Course Withdrawal at umgc.edu/policies.

Any requests for exceptions to UMGC Policy 170.72, including requests related to dropping or withdrawing from a class because of military service obligations, must be submitted within 90 days of the last day of the term during which you dropped or withdrew from the class. For more information, contact Student Resolution and Judicial Affairs at exception.request@umgc.edu.

If you are using military tuition assistance, you must contact your military education counselor or education services officer for guidance on drops or withdrawals related to emergencies or official duty requirements before dropping or withdrawing from a class to fully understand the impact of such an action on your current and future military tuition assistance benefits.

For more information about the return of military tuition assistance funds, visit umgc.edu/return-milta.

Veterans Benefits

You may apply for the following educational assistance programs administered by the U.S. Department of Veterans Affairs (VA):

- The Montgomery GI Bill—Active Duty Increased Educational Benefits (MGIB, Chapter 30)
- Veteran Readiness and Employment (Chapter 31)
- The Post–Vietnam Era Educational Assistance Program (Chapter 32)
- The Post-9/11 GI Bill (Chapter 33)
 - Yellow Ribbon Program
 - Transfer of Post-9/11 GI Bill Benefits to Dependents
 - Marine Gunnery Sergeant John David Fry Scholarship
- The Survivors' and Dependents' Educational Assistance Program (Chapter 35)
- Montgomery GI Bill—Selected Reserve Educational Assistance Program (Chapter 1606)

Detailed information on all assistance programs is available on the UMGC website at asia.umgc.edu/vabenefits or on the VA website at gibill.va.gov.

Application Procedures

If you are eligible for educational benefits from the VA, you should review the online information and application procedures at asia.umgc.edu/vabenefits. Every educational assistance program requires different paperwork and documentation to process a claim. Initial applications for benefits should be submitted online directly to the VA. You must also complete a UMGC request for certification form each session you wish to receive benefits.

The VA processes claims and issues payment six to eight weeks after the add/drop period of each enrollment session. VA claims may be submitted no earlier than 180 days before class starts for Chapter 33 enrollments and 120 days before class starts for Chapter 30, 35, and 1606 enrollments.

Amounts and Methods of Payment

The amount of money you may receive from the VA depends on the educational assistance program for which you are eligible, the number of credits for which you are registered, the length of the session, and (for certain programs) the number of dependents you have. The current monthly payment for each educational assistance program is available online at gibill.va.gov.

Benefit Provisions Related to Pending Payments

In accordance with Title 38 US Code 3679 subsection (e), UMGC adopts the following additional provisions for any students using VA Post-9/11 GI Bill (Ch. 33) or Veteran Readiness and Employment (Ch. 31) benefits. While payment to the university is pending from the VA, UMGC will not

- Prevent your enrollment
- Assess a late penalty fee
- Require you to secure alternative or additional funding
- Deny you access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution

However, to qualify for this provision, you may be required to

- Produce the VA Certificate of Eligibility by the first day of class
- Provide a written request to be certified
- Provide additional information needed to properly certify the enrollment as described in other institutional policies

Evaluation of Prior Training

When you file a claim for educational benefits, the VA requires your previous training and coursework to be evaluated so that you receive correct transfer credit.

If you are an undergraduate student, you must have an academic advisement report completed during your first session of enroll-

ment. If you do not comply, you may find future benefits delayed. After your first registration, you are provided with information on the necessary procedure. (Information about sources of credit, including types of training that qualify for undergraduate credit, begins on p. 17; these include military training and service schools, postsecondary education, certain correspondence courses, and credit by examination.)

If you have earned graduate credit from a UMGC-approved accredited institution, you must have an evaluation completed during the first session of enrollment. (Equivalent credit from other accredited institutions may be considered on a case-by-case basis. If you were educated abroad, see umgc.edu/internationalstudent for additional requirements.) Not complying with this evaluation may delay future benefits. For information on evaluation procedures for study abroad, visit umgc.edu/internationalcredit.

Students' Responsibilities

If you are receiving benefits, you are expected to follow all regulations and procedures of the VA while attending UMGC.

At UMGC, all regulations of the VA are enforced. You should be aware of the following requirements and consequences:

- You are expected to make satisfactory progress toward a degree or certificate; you must comply with the academic standards of UMGC.
- You must report all changes in enrollment—including drops, adds, withdrawals, changes to audit, and changes in degree objective.
- Registering for a course and then not attending, or ceasing to attend without officially withdrawing, is a misuse of federal funds that is punishable by law.
- Payment of benefits will be disallowed for any course in which a nonpunitive grade (i.e., a grade of I, W, or AU) is assigned.
- Payment of benefits will be disallowed for repeating a course for which transfer credit has been granted or for which a passing grade of A, B, C, D, P, or S was assigned.
- Payment of benefits will be disallowed for any course in which a grade of FN is assigned.
- Payment of benefits will be disallowed for any course that is not a requirement in your degree or certificate program.
- Payment of benefits will be disallowed for noncredit graduate courses.
- Payment of tuition and fees is required at time of registration, unless you are applying for Chapter 31 Vocational Rehabilitation or Chapter 33 Post-9/11 GI Bill benefits.
- You may be responsible for debts caused by overpayment of benefits resulting from reductions of your course load.

- If you are in a program that involves any internship, practicum, or work study, you are required to provide documentation to the Veterans Certification Office verifying the physical location and zip code where the work takes place.

Grievance Information for Virginia Students Using Veterans Educational Benefits

The Virginia State Approving Agency (SAA) is the approving authority of education and training programs for Virginia. The SAA investigates complaints of GI Bill beneficiaries residing in Virginia. While beneficiaries should initially follow the school grievance policy to address complaints, they should contact the SAA office via email at saa@dvs.virginia.gov if the situation cannot be resolved at the school.

Tutorial Assistance

You may qualify for tutorial assistance if you are a veteran, active-duty military servicemember, or reservist receiving funding assistance from the VA and you are enrolled at least half-time. Payments are allowed when you demonstrate deficiency in courses that are required for your degree program.

Work-Study Allowance

If you are registered at least three-quarters time (9 credits) and need money to attend school, you may participate in work-study. Recipients of benefits under the provisions of Chapters 30, 31, 32, 33, 35, and 1606 may be eligible. You may work up to 400 hours during a session and receive either the federal minimum wage or the state minimum wage, whichever is greater.

For Further Information

Information and applications are available from your advisor or at asia.umgc.edu/vabenefits on the UMGC website. For information on qualifying for the in-state tuition rate as a veteran or eligible dependent, see Determination of Residency for Tuition Purposes on p. 43.

BRIDGE PROGRAM

PROGRAM REQUIREMENTS AND CURRICULUM

Bridge Program

UMGC Asia offers the Bridge Program to English language learners who have had previous study in the English language but have not yet achieved the required test scores to become degree-seeking students. The five-course sequence, with an optional sixth course, is designed to help you improve fundamental oral and written skills in academic English. The Bridge Program provides a foundation for success in future classes to facilitate an academic transition into the U.S. higher education environment.

The Bridge Program is currently available at various locations in Japan (mainland and Okinawa) and Korea. This program is open to individuals with or without SOFA status, though different admission procedures apply.

Non-SOFA students must have an official certificate of English proficiency from TOEFL, EIKEN, or IELTS prior to admission to the Bridge Program.

Non-SOFA Japanese citizens who wish to take courses with UMGU must first be approved by their prefectural governmental agency. As a base employee (IHA/MLC), you must provide proof of English proficiency, high school completion documentation, and an endorsement letter from your supervisor to confirm eligibility. You should contact the Bridge Program Office for more information about the designated agency.

Non-native English speakers with SOFA status must provide proof of English proficiency and high school completion documentation.

Foreign educated students can be admitted as either Bridge or degree-seeking, dependent upon the English proficiency information provided. Acceptable test scores must be from exams taken within the last five years.

Upon successful completion of the program, Bridge Program completers may take additional undergraduate courses and have the option to pursue a UMGU degree as a degree-seeking student.

REQUIRED TEST SCORES

TEST	BRIDGE	REGULAR STUDENT
TOEFL iBT and TOEFL iBT Home Edition	45	71
TOEFL PBT	450 + score of 3 on Test of Written English (TWE)	525 + score of 4 on Test of Written English (TWE)
IELTS	4	6
Duolingo	75	95
EIKEN	Grade 2	Grade Pre-1
TOEIC Listening* TOEIC Reading* Combined	275 (minimum) 275 (minimum) 550 total	
TOEIC Speaking* TOEIC Writing* Combined	120 (minimum) 120 (minimum) 240 total	
<p>Combined scores of BOTH Listening/Reading and Speaking/Writing are required for admission. *TOEIC is only accepted for admission to the Bridge Program and is not an acceptable exam for regular student admission.</p>		

Bridge Course Sequence

Session 1

UMEI 030 Basic Interpersonal Communication Skills Course (3 institutional credits)

Session 2

UMEI 020 Integrated Skills for College Literacy (3 institutional credits)

Session 3

EDCP 102 Integrated Skills for Academic Success (3 elective credits)

Session 4

WRWG 111X Academic Writing I (3 credits toward the general education requirement in communications)

Session 5

WRWG 112X Academic Writing II (3 credits toward the general education requirement in communications)

Optional

SPCH 100X Foundations of Speech Communication (optional; 3 credits toward the general education requirement in communications)

Overview of Academic Schools

The School of Business

Pam E. Carter, PhD
Dean

Anna V. Seferian, PhD
Associate Dean

busdean@umgc.edu

Vision

The School of Business will be the school where learners acquire innovative business skills that enable them to reach their full potential today and in the future.

Mission

Our mission in the School of Business is to be a leader in career-focused learning that enhances evidence-based decision-making in diverse global environments.

The School of Cybersecurity and Information Technology

Calvin Nobles, PhD
Dean

S. K. Bhaskar, PhD
Associate Dean

citdean@umgc.edu

Vision

The School of Cybersecurity and Information Technology will be the preferred provider of career-enhancing higher education, preparing a modern workforce in cybersecurity, information technology, and related emerging technologies. Our courses and programs will be innovative and industry-relevant for all learners at the university.

Mission

The mission of the School of Cybersecurity and Information Technology is to

- provide career-enhancing, affordable, accessible, and streamlined educational pathways in cybersecurity, information technology, and related emerging technologies
- prepare students for career and industry growth in all its courses and degree programs
- use highly qualified scholar-practitioners to bring workplace needs and understanding to classrooms and innovative learning models and applications to its students

The School of Integrative and Professional Studies

Sharon Fross, PhD
Dean

Randall Hansen, EdD
Associate Dean

ipsdean@umgc.edu

Vision

The School of Integrative and Professional Studies is committed to empowering people to make the world a better place through educational advancement.

Mission

Our mission in the School of Integrative and Professional Studies is to be leaders in innovative, student-centered learning, providing high-quality liberal arts educational experiences to a global community.

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

To help you meet your educational goals, UMGC offers certificate programs that respond to current trends in today's demanding job market. Certificate programs offer working adults a convenient, flexible way to earn credentials for potential career advancement. All are available online.

Undergraduate certificate programs generally require 16-18 credits. All courses for the certificate programs carry college credit and may be applied toward a related degree.

More details about certificate programs is available online at umgc.edu/certificates.

Expectations

Within each academic certificate program, UMGC seeks to help you gain specific skills needed to advance in your career. Most certificates are fully stackable, that is, they are part of a more advanced degree program, such as one leading to a bachelor's or master's degree. However, each certificate may also be used as a stand-alone credential.

Requirements

Continuous Enrollment

In general, the UMGC degree requirements that apply to you are those that were in effect when you completed the first credit-bearing course in a given program at UMGC. If you cease to be continuously enrolled, the program requirements that apply to you are those in effect at UMGC when you return to UMGC and enroll in a credit-bearing course for the program you wish to pursue at that time.

To be considered continuously enrolled, you must have had no more than two sequential years of nonenrollment. After two years of nonenrollment, you must apply for admission to resume enrollment.

If you change your certificate program while continuously enrolled, then the program requirements that apply to you are those in effect at the time you enroll in the first required course for that program. Previously completed coursework may not apply to the new requirements.

Information about the catalog year that applies to you is provided in the MyUMGC student portal.

The individual certificate coursework requirements specified in the following section are applicable to students enrolling on or after August 1, 2024.

Overall Requirements

1. You must be admitted as a UMGC student.
2. You may pursue a degree and certificate simultaneously or pursue a degree after completing the certificate.
3. For undergraduate certificates, no more than half of the total credits for any certificate may be earned through credit by examination, prior-learning portfolio credit, internship/Workplace Learning credit, or transfer credit from other schools, under current policies for such credit. Additional limitations may apply to specific programs; see description of individual certificate programs for details.
4. For undergraduate certificate programs, you must complete all required coursework with a minimum grade of C (2.0) in all courses. For graduate certificate programs, you must complete all required coursework with a minimum grade of B (3.0) in all courses.
5. Certificate courses may not be taken pass/fail.
6. You may pursue up to four certificates at a time.
7. Undergraduate students may only complete certificates at the undergraduate level.

Second Certificate

If you have earned a certificate from UMGC and want to pursue an additional certificate at UMGC, you must complete at least 12 credits of new coursework to be eligible. No substitutions to the program are available. If the coursework required for one certificate program significantly overlaps with coursework for another certificate program, it may not be possible for you to earn both certificates. In such cases, you will need to choose an alternate program if you wish to complete another credential at UMGC.

Before beginning work toward or registering for a second certificate program, consult an advisor or local UMGC representative. Advisors will be glad to explain the requirements and restricted combinations.

Curricula

The following undergraduate certificate programs are available:

- Accounting Foundations
- Advanced Management
- American Government and Political Processes
- Applied Social Sciences
- Augmented and Virtual Reality Design
- Clinical Mental Health Care
- Cloud Computing and Networking
- Computer Networking
- Computer Studies
- Crime Scene Investigation
- Cyber Threat Hunting
- Data Analytics
- Decision Support for Business
- Digital Design
- Digital Marketing
- Fundamentals of Workplace Health and Safety
- Foreign Language Area Studies
 - Japanese
 - Korean
- Health Information Management and Data Analytics
- HR People Analytics
- Human Resource Management
- Leadership and Ethics
- Machine Learning
- Management
- Management Information Systems
- Project Management
- Public Safety Executive Leadership
- Spanish for Business and the Professions
- Vulnerability Assessment
- Watershed Management
- Web Design
- Women, Gender, and Sexuality Studies

Note: Not all programs and courses are offered on-site. Check the Schedule of Classes for offerings at asia.umgc.edu/schedule.

Accounting Foundations

The undergraduate certificate program in accounting foundations can help you develop the skills and knowledge needed for business transactions, including critical-thinking skills for analysis and reporting of the economic activities of an organization. It can also supplement an associate or bachelor's degree program.

Overall certificate requirements are listed on p. 52.

TWO REQUIRED COURSES (6):

- ACCT 220 Principles of Accounting I (3)
- ACCT 221 Principles of Accounting II (3)

FOUR COURSES CHOSEN FROM THE FOLLOWING:

Any ACCT course

Any FINC course

- BMGT 110 Introduction to Business and Management
- CMSC 105 Introduction to Problem Solving and Algorithm Design
- DATA 200 Data Literacy Foundation
- ECON 201 Principles of Macroeconomics
- ECON 203 Principles of Microeconomics
- IFSM 201 Concepts and Application of Information Technology
- STAT 200 Introduction to Statistics
- WRTG 112 Academic Writing

Total credits for certificate in Accounting Foundations: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Accounting. For details, contact your advisor.

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

Advanced Management

Successful managers today require a strong balance of managerial skills and the relationship-building soft skills to manage those who are completing the work. The certificate program in advanced management is designed to help you build expertise by applying best practices to decision making, problem solving, and relationship building in real workplace scenarios. The curriculum covers management principles and organizational dynamics for today's global, multicultural, and virtual organizations.

Overall certificate requirements are listed on p. 52.

FOUR REQUIRED COURSES:

- BMGT 160 Principles of Management (3)
- BMGT 364 Management and Organization Theory (3)
- BMGT 484 Organizational Collaboration (3)
- BMGT 317 Methods of Decision Making and Problem Solving (3)

TWO SUPPORTING ELECTIVES CHOSEN FROM THE FOLLOWING:

- ACCT 301 Accounting for Nonaccounting Managers
- BMGT 305 Knowledge Management
- BMGT 335 Small Business Management
- BMGT 365 Organizational Leadership
- BMGT 380 Business Law I
- BMGT 464 Organizational Behavior
- BMGT 465 Organizational Development and Transformation
- BMGT 496 Business Ethics
- DATA 200 Data Literacy Foundations
- FINC 330 Business Finance
- FINC 331 Finance for the Nonfinancial Manager
- HRMN 300 Human Resource Management
- HRMN 302 Organizational Communication
- HRMN 367 Organizational Culture
- IFSM 300 Information Systems in Organizations
- MRKT 310 Marketing Principles

Total credits for certificate in Advanced Management: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Management Studies. For details, contact your advisor.

American Government and Political Processes

The certificate program in American government and political processes provides an in-depth study and analysis of the U.S. government, including its history, structure, and political culture. In this program, you'll analyze the vertical and horizontal structure of the American government and its federal and republican foundations. You'll examine the three federal branches, bureaucracies, and the state governments in the context of the development of the American political system and its impact on the political landscape. In addition, the program compares American government and political economy to those of other nations for a comprehensive overview of political forces.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- GVPT 170 American Government (3)
- GVPT 280 Comparative Politics and Governments (3)
- GVPT 306 Global Political Economy (3)
- GVPT 444 American Political Theory (3)
- GVPT 457 American Foreign Policy (3)
- GVPT 475 The U.S. Presidency and Executive Branch (3)

Total credits for certificate in American Government and Political Processes: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Political Science. For details, contact your advisor.

Applied Social Sciences

The certificate program in applied social sciences helps prepare you to apply social science tools and concepts to practical problems. The program helps equip you with updated knowledge and skills for identifying and solving social problems in communities, families, and the workplace. You'll develop a deep understanding of social science concepts and learn to identify stakeholders, apply expert knowledge, communicate evidence, and present and defend solutions to relevant parties.

Overall certificate requirements are listed on p. 52.

TWO REQUIRED COURSES:

PSYC 100 Introduction to Psychology (3)
SOCY 100 Introduction to Sociology (3)

FOUR COURSES CHOSEN FROM THE FOLLOWING:

ANTH 350 Health, Illness, and Healing
ANTH 351 Anthropology in Forensic Investigations
GERO 427 Culture and Aging
PSYC 354 Cross-Cultural Psychology
PSYC 386 Psychology of Stress
SOCY 350 Contemporary Social Problems

Total credits for certificate in Applied Social Sciences: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Social Science. For details, contact your advisor.

Augmented and Virtual Reality Design

The augmented and virtual reality design certificate program helps provide you with entry-level skills for a career in these immersive technologies. In this project-centric program, you'll be exposed to virtual reality design and augmented reality design, 3D game engines, user experience and interface design, and immersive design techniques.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

CMST 290 Introduction to Interactive Design (3)
CMST 315 Game Design I (3)
CMST 330 Virtual Reality Design I (3)
CMST 331 Augmented Reality Design I (3)
CMST 390 3D Modeling (3)
CMST 490 Virtual World Building (3)

Total credits for certificate in Augmented and Virtual Reality Design: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Web and Digital Design. For details, contact your advisor.

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

Clinical Mental Health Care

The certificate in clinical mental healthcare is designed to help prepare you for mental health service jobs that do not require licensure or credentialing. It supports work in direct and indirect client care activities performed under the supervision of a licensed professional (e.g., psychologist, medical doctor, social worker, or rehabilitation therapist) across multiple clinical settings (e.g., hospitals, behavioral health agencies, government agencies, and nonprofit organizations). The curriculum provides foundational theoretical and practical coverage of human behavior, mental health, ethics, and current research in the field.*

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- PSYC 100 Introduction to Psychology (3)
- PSYC 300 Research Methods (3)
- PSYC 301 Biological Basis of Behavior (3)
- PSYC 335 Theories of Personality (3)
- PSYC 353 Abnormal Psychology (3)
- PSYC 436 Introduction to Clinical Psychology (3)

Total credits for certificate in Clinical Mental Health Care: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Psychology. For details, contact your advisor.

Cloud Computing and Networking

The undergraduate certificate in cloud computing and networking is designed to equip you with the technical skills and expertise required to analyze an organization's cloud needs and to secure and maintain the cloud computing infrastructure and systems of an organization. Through real projects aligned to industry certifications and hands-on training in the state-of-art cloud platforms, you'll learn cloud architectural principles and core cloud computing concepts that will help you plan, design, implement, deploy, configure, manage, and operate cloud systems and develop cloud-based applications. You'll also manage risk, policy, compliance, and security issues in AWS, Azure, and GCP cloud infrastructure and services.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- CMIT 202 Fundamentals of Computer Troubleshooting (3)
- CMIT 265 Fundamentals of Networking (3)
- CMIT 326 Cloud Technologies (3)
- CMIT 336 Fundamentals of Microsoft Azure (3)
- CMIT 426 Mastering the AWS Cloud (3)
- CMIT 436 Security in the Cloud (3)

Total credits for certificate in Cloud Computing and Networking: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Cybersecurity Technology. For details, contact your advisor.

* The Clinical Mental Health Care certificate is not a licensing credential and is not designed to help prepare you for any industry or state-regulated professional licensure.

Computer Networking

A certificate in computer networking can supplement a bachelor's degree or help you build knowledge and experience in this in-demand field. Ideal for those who want to work as network administrators for business, government, or nonprofit organizations, the undergraduate certificate program in computer networking at UMGC can provide you with hands-on training in state-of-the-art computer technology.

Through the computer networking certificate program, you'll learn about the fundamental aspects of computer troubleshooting, networking, network security, interconnected Cisco devices, and cloud technologies. Plus, you'll get a chance to choose from upper-level courses so you can tailor your degree to your career goals.

Overall certificate requirements are listed on p. 52.

FIVE REQUIRED COURSES:

- CMIT 202 Fundamentals of Computer Troubleshooting (3)
- CMIT 265 Fundamentals of Networking (3)
- CMIT 320 Network Security (3)
- CMIT 326 Cloud Technologies (3)
- CMIT 351 Switching, Routing, and Wireless Essentials (3)

A SUPPORTING ELECTIVE CHOSEN FROM ANY UPPER-LEVEL CMIT COURSES

Total credits for certificate in Computer Networking: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Cybersecurity Technology. For details, contact your advisor.

Computer Studies

(18 credits, at least 9 of which you must complete with UMGC)

COMPUTER STUDIES CORE COURSES (3 CREDITS)

- IFSM 201 Concepts and Applications of Information Technology (3)

DISCIPLINE-SPECIFIC COURSE SEQUENCE (9 CREDITS)

Choose one 9-credit sequence from the following:

PROGRAMMING FOCUS:

- CMIS 102 Introduction to Problem Solving and Algorithm Design (3)
- CMIS 141 Introductory Programming (3)
- CMIS 242 Intermediate Programming (3)

A+NET+ FOCUS:

- CMIT 202 Fundamentals of Computer Troubleshooting (3)
- CMIT 265 Fundamentals of Networking (3)
- CMIT 291 Introduction to Linux (3)
or CMIT 320 Network Security (3)

DIGITAL MEDIA/INTERACTIVE DESIGN FOCUS:

- CMST 290 Introduction to Interactive Design (3)
- CMST 295 Fundamentals of Digital Media (3)
- CMST 308 User Experience and Interface Design (3)
or DATA 200 Data Literacy Foundations (3)
or any lower-level computing course
or three 1-credit computing courses

COMPUTER STUDIES-RELATED COURSES (6 CREDITS)

Chosen from any CMIS, CMIT, CMSC, CMST, CSIA, IFSM, or SD courses.

Total credits for certificate in Computer Studies: 18

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

Crime Scene Investigation

The certificate in crime scene investigations is designed to provide the best practices associated with crime scene investigation, as well as the legal and ethical standards these practices are modeled after. In this program, you'll learn to identify and describe the relationships between crime scene investigations, forensic science, and criminal prosecutions. You'll have the opportunity to develop specialized skills, such as fingerprint analysis and classification, and become familiar with the manner in which death investigations are properly conducted. The curriculum is based on the expectations articulated by law enforcement employers and the critical knowledge, skills, and abilities identified by certifying bodies in the field of crime scene investigations.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- CCJS 101 Introduction to Investigative Forensics (3)
- CCJS 234 Criminal Procedure and Evidence (3)
- CCJS 320 Introduction to Criminalistics (3)
- CCJS 342 Crime Scene Investigation (3)
- CCJS 420 Medical and Legal Investigations of Death (3)
- CCJS 440 Fingerprint Analysis (3)

Total credits for certificate in Crime Scene Investigations: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Criminal Justice. For details, contact your advisor.

Cyber Threat Hunting

Organizations today must continuously hunt for cyber threats, since the threat scenario is constantly shifting and no software environment is secure from all threats. This certificate program provides an introduction to the concept of cyber threat hunting. In this program, you'll learn fundamental techniques and methods for uncovering threats.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- CMIT 202 Fundamentals of Computer Troubleshooting (3)
- CMIT 265 Fundamentals of Networking (3)
- CMIT 320 Network Security (3)
- CMIT 321 Ethical Hacking (3)
- CMIT 386 Penetration Testing and Cyber Red Teaming (3)
- CMIT 421 Threat Management and Vulnerability Assessment (3)

Total credits for certificate in Cyber Threat Hunting: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Cybersecurity Technology. For details, contact your advisor.

Data Analytics

Today, employers are looking to hire professionals who possess data analytics skills and can inform and enhance decision-making within corporations, nonprofit organizations, government agencies, or the military. The certificate program in data analytics provides a valuable introduction to data science and can enhance your career opportunities, regardless of your major. In this program, you'll learn how to manage and manipulate data, create data visualizations, and use cutting-edge technology to gain insights from traditional and emerging data sources to make strategic data-driven recommendations that influence managerial decision-making and organizational outcomes.

Overall certificate requirements are listed on p. 52.

FIVE REQUIRED COURSES:

STAT 200	Introduction to Statistics (3)
DATA 200	Data Literacy Foundations (3)
DATA 320	Introduction to Data Analytics (3)
DATA 330	Business Intelligence and Data Management (3)
DATA 335	Data Visualization (3)

AN UPPER-LEVEL COURSE CHOSEN FROM THE FOLLOWING:

CSIA 300	Cybersecurity for Leaders and Managers
DATA 300	Foundations of Data Science

Total credits for certificate in Data Analytics: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Data Science. For details, contact your advisor.

Decision Support for Business

The certificate program in decision support for business focuses on building leadership skills in thinking creatively and strategically about both business administration and information systems in the workplace to achieve organizational success. In this program, you'll explore the foundations of business administration, leadership, management, marketing, finance/accounting, and information systems to gain appropriate insights, improve operations, make on-target predictions, and achieve a competitive advantage in today's global business environment.

Overall certificate requirements are listed on p. 52.

ONE COURSE CHOSEN FROM THE FOLLOWING:

IFSM 300	Information Systems in Organizations
DATA 200	Data Literacy Foundations

FIVE REQUIRED COURSES (15):

BMGT 364	Management and Organization Theory (3)
BMGT 365	Organizational Leadership (3)
BMGT 495	Strategic Management (3)
FINC 330	Business Finance (3)
MRKT 310	Marketing Principles (3)

Total credits for certificate in Decision Support for Business: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Business Administration. For details, contact your advisor.

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

Digital Design

The digital design certificate program provides you with entry-level skills for a career in digital and computer graphics design. The project-centric program exposes you to elements of design, electronic publishing, image editing, illustration graphics, motion graphics, ethical and legal considerations, digital design applications, theories, industry best practices, and design techniques, as well as to various career paths.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- CMST 295 Fundamentals of Digital Design (3)
- CMST 310 Fundamentals of Electronic Publishing (3)
- CMST 311 Advanced Electronic Publishing (3)
- CMST 320 Illustration Graphics (3)
- CMST 325 Image Editing (3)
- CMST 341 Principles of Multimedia I (3)

Total credits for certificate in Digital Design: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Web and Digital Design. For details, contact your advisor.

Digital Marketing

The digital marketing certificate integrates a foundational understanding of marketing principles with practical applications of digital techniques. In this program, you'll learn how to create effective online content and use data visualization techniques to gain better insight into the customer experience.

In addition, you'll learn the skills to create an ad on Facebook that contributes to a social media campaign on that platform and understand the key metrics of optimization. You'll examine the role of marketing in specific business contexts; use consumer behavior and psychology in the design of marketing strategies; employ best practices in simulating cost-effective marketing designs and selecting delivery modalities; and analyze how to use social media, email, and other digital-based platforms for optimum marketing results.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- MRKT 311 Digital Marketing Principles (3)
- MRKT 354 Integrated Marketing Communications (3)
- MRKT 356 Email Marketing (3)
- MRKT 394 Managing Customer Relationships (3)
- MRKT 411 Consumer Behavior in Digital Media (3)
- MRKT 458 Social Media Marketing (3)

Total credits for certificate in Digital Marketing: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Marketing. For details, contact your advisor.

Fundamentals of Workplace Health and Safety

The certificate program in fundamentals of workplace health and safety introduces you to the field of environmental health and safety and provides continuing professional development opportunities for workers in related fields (e.g., business administration, health services, human resources, and laboratory management).

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

ENHS 310	Hazardous Substances and Toxicology (3)
ENHS 315	Risk Assessment in Environmental Health and Safety (3)
ENHS 320	Incident Response and Investigation (3)
ENHS 325	Fire Prevention and Protection (3)
ENHS 335	Occupational Health and Industrial Hygiene (3)
ENHS 400	Ergonomics and Human Factors (3)

Total credits for certificate in Fundamentals of Workplace Health and Safety: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Environmental Health and Safety. For details, contact your advisor.

Foreign Language Area Studies

(18 credits, at least 9 of which you must complete with UMGC). You may choose coursework from one of the following areas— all courses must be from same area.

Overall certificate requirements are listed on p. 52.

Japanese

CORE COURSES (6)

JAPN 111	Elementary Japanese I (3)
JAPN 112	Elementary Japanese II (3)

RELATED AREA STUDIES COURSES (12)

Choose from related courses in Japanese culture, history, language, literature, or government and politics. Some examples follow:

Any JAPN language course(s) (3)

ANTH 417	People and Cultures of East Asia (3)
ASTD 135	Introduction to Japanese Language and Culture (3)
ASTD 284	Foundations of East Asian Civilization (3)
ASTD 285	Introduction to Modern East Asia (3)
ASTD	– Other courses related to Japanese Studies (3)
GVPT 453	Recent East Asian Politics (3)
HIST 482	History of Japan to 1800 (3)
HIST 483	History of Japan Since 1800 (3)
JAPN 333	Society and Culture (3)

(Contact your academic advisor for additional approved courses)

Korean (Available only in Korea)

CORE COURSES (6)

KORN 111	Elementary Korean I (3)
KORN 112	Elementary Korean II (3)

RELATED AREA STUDIES COURSES (12)

Choose from related courses in Korean culture, history, language, literature, or government and politics. Some examples follow:

Any KORN language course(s) (3)

ANTH 417	People and Cultures of East Asia (3)
ASTD 155	Introduction to Korean Language and Culture (3)
ASTD 284	Foundations of East Asian Civilization (3)
ASTD 285	Introduction to Modern East Asia (3)

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

- ASTD 302 The Two Koreas: Problems and Prospects (3)
ASTD – Other courses related to Korean Studies (3)
GVPT 453 Recent East Asian Politics (3)
HIST 382 The Korean War (3)
KORN 333 Korean Society and Culture (3)

(Contact your academic advisor for additional approved courses)

Total credits for certificate in Foreign Language Area Studies: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Arts in East Asian Studies. For details, contact your advisor or local representative.

Health Information Management and Data Analytics

The certificate program in health information management and data analytics is designed to help equip you with knowledge of the U.S. healthcare system and the skills needed for healthcare organizational management. In this program, you'll learn methods of health information management and technologies for collecting, storing, retrieving, and processing healthcare data. In addition, you'll learn how to analyze, interpret, and present that data using appropriate statistical tools and techniques for healthcare decision-making. You'll apply managerial epidemiology tools and evidence in decision-making and acquire skills in planning and resolving diverse healthcare issues.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- HMGT 300 Introduction to the U.S. Healthcare Sector (3)
IFSM 305 Information Systems in Healthcare Organizations (3)
STAT 200 Introduction to Statistics (3)
HMGT 307 Managerial Epidemiology and Decision-Making in Healthcare (3)
HMGT 320 Management in Healthcare Organizations (3)
HMGT 400 Research and Data Analysis in Healthcare (3)

Total credits for certificate in Health Information Management and Data Analytics: 18

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the Certified Digital Health Professional (CDH-P) certification exam.

Program Accreditation

UMGC's undergraduate certificate in health information management and data analytics is accredited until 2030 by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM), 200 East Randolph Street, Suite 5100, Chicago, IL, 60601. CAHIIM is a specialized accrediting agency recognized by the Council for Higher Education Accreditation.

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Health Services Management. For details, contact your advisor.

HR People Analytics

The HR people analytics certificate program is designed to provide a comprehensive understanding of human resource functions—such as resource planning; recruitment, selection, placement, and orientation of employees; training and career development; labor relations; performance appraisal and rewards programs; and development of personnel policies and procedures—in private- and public-sector settings.

The program provides a data-driven approach toward human resource management that involves collecting, analyzing, and reporting HR data. In this program, you'll learn the skills you need to measure the impact of a range of HR metrics on overall business performance and make effective business decisions based on HR-related data.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

BMGT 364	Management and Organization Theory (3)
FINC 331	Finance for the Nonfinancial Manager (3)
HRMN 300	Introduction to Human Resource Management (3)
HRMN 400	Talent Acquisition and Management (3)
HRMN 410	Information Systems and Metrics Analysis (3)
IFSM 300	Information Systems in Organization (3)

Total credits for certificate in HR People Analytics: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Human Resource Management. For details, contact your advisor.

Human Resource Management

The human resource management certificate program at UMGC can help provide the theoretical and practical knowledge you need to advance and skills you can apply on the job right away.

In your HR management certificate program, you'll learn how to resolve problems in the workplace via conflict management, approach the workplace and employees with a sensitivity to cultural diversity, develop programs for rewarding employees, and help employees reach their full potential.

Overall certificate requirements are listed on p. 52.

FOUR REQUIRED COURSES:

BMGT 364	Management and Organization Theory (3)
HRMN 300	Human Resource Management (3)
HRMN 362	Labor Relations (3)
HRMN 400	Talent Acquisition and Management (3)

TWO SUPPORTING ELECTIVES CHOSEN FROM THE FOLLOWING:

BMGT 365	Organizational Leadership
BMGT 464	Organizational Behavior
BMGT 465	Organizational Development and Transformation
HRMN 302	Organizational Communication
HRMN 367	Organizational Culture
HRMN 395	The Total Awards Approach to Compensation Management
HRMN 406	Employee Training and Development
HRMN 495	Contemporary Issues in Human Resource Management Practice

Total credits for certificate in Human Resource Management: 18

Related Degree Program

Coursework for his certificate can be applied to a Bachelor of Science in Human Resource Management. For details, contact your advisor.

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

Leadership and Ethics

The certificate program in leadership and ethics is designed for business managers, organizational leaders, entrepreneurs, legal professionals, and individuals seeking to become effective leaders in public and private global organizations, both for-profit and not-for-profit. The program examines the qualities that make for thoughtful and responsible leadership and allows you to explore issues of morality related to business administration, leadership, and organizations. In this program, you'll learn ethical leadership, leadership theory and practice, executive decision making, corporate social responsibility, ethical leadership, conflicts of interest, and organizational culture.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- BMGT 364 Management and Organization Theory (3)
- BMGT 365 Organizational Leadership (3)
- BMGT 496 Business Ethics (3)
- HRMN 300 Human Resource Management (3)
- BMGT 110 Introduction to Business and Management (3)
- BMGT 380 Business Law I (3)

Total credits for certificate in Leadership and Ethics: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Business Administration. For details, contact your advisor.

Machine Learning

Machine learning impacts all industry sectors that generate significant amounts of data. The certificate program in machine learning combines study of methods and software tools to develop predictive models and artificial intelligence solutions. It can help prepare you for in-demand positions, such as machine learning engineer, applied machine learning scientist, artificial intelligence engineer, artificial intelligence specialist, and data scientist, among others.

The program can serve as an excellent supplement to a wide range of majors—including cybersecurity, environmental health and safety, computer science, and biotechnology—beyond data science.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- STAT 200 Introduction to Statistics (3)
- DATA 220 Introduction to Data Analytics (3)
- DATA 300 Foundations of Data Science (3)
- DATA 430 Foundations of Machine Learning (3)
- DATA 450 Data Ethics (3)
- DATA 460 Artificial Intelligence Solutions (3)

Total credits for certificate in Machine Learning: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Data Science. For details, contact your advisor.

Management

Today, many workplaces require knowledge of management principles from multiple disciplines. The certificate in management can help you gain knowledge and skills by focusing on fundamental concepts of business management and leadership, problem solving, and effective data communication strategies.

Overall certificate requirements are listed on p. 52.

TWO REQUIRED COURSES:

- BMGT 110 Introduction to Business and Management (3)
- BMGT 160 Principles of Management (3)

FOUR COURSES CHOSEN FROM THE FOLLOWING:

- ACCT 220 Principles of Accounting I
- ACCT 221 Principles of Accounting II
- ECON 201 Principles of Macroeconomics
- ECON 203 Principles of Microeconomics
- IFSM 201 Concepts and Applications of Information Technology
- STAT 200 Introduction to Statistics

Total credits for certificate in Management: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Management Studies. For details, contact your advisor.

Management Information Systems

The management information systems certificate program provides you with entry-level skills for a career in information systems. It is especially helpful if you are looking to move into a management position in information systems and bridge the gap between an organization's functional users and technical developers.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- CSIA 300 Cybersecurity for Leaders and Managers (3)
- IFSM 300 Information Systems in Organizations (3)
- FINC 331 Finance for the Nonfinancial Manager (3)
- IFSM 310 Software and Hardware Infrastructure Concepts (3)
- IFSM 370 Telecommunications in Information Systems (3)
- DATA 330 Business Intelligence and Data Management (3)

Total credits for certificate in Management Information Systems: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Management Information Systems. For details, contact your advisor.

Project Management

The undergraduate project management certificate program at UMGC can help prepare you for supervisory and midlevel management positions involving project management and team management. If you're a project manager, project team member, or otherwise assigned to project teams within a private- or public-sector organization, this certificate program can help you upgrade your skills with theoretical and practical knowledge to advance to a higher level.

In your project management courses, you'll learn to bring a project full cycle from development to completion. You'll also work with a variety of tools designed specifically for project management and work hands-on with federal contracts to become familiar with processes and issues.

Overall certificate requirements are listed on p. 52.

FOUR REQUIRED COURSES:

- BMGT 487 Project Management I (3)
- BMGT 488 Project Management II (3)

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

- IFSM 438 Information Systems Project Management (3)
- IFSM 441 Agile Project Management (3)

TWO SUPPORTING ELECTIVES CHOSEN FROM THE FOLLOWING:

- BMGT 317 Methods of Decision-Making and Problem-Solving
- BMGT 339 Introduction to Federal Contracting
- BMGT 365 Organizational Leadership
- BMGT 484 Organizational Collaboration
- IFSM 300 Information Systems in Organizations

Total credits for certificate in Project Management: 18

Related Degree Program

Public Safety Executive Leadership

Develop the executive leadership skills needed to succeed in the public safety professional environment. There is currently a high demand for leadership education for public safety officials at the federal, state, and local government levels, as well as throughout the private sector. This certificate should be of professional benefit to both current and future public safety officials employed in public safety planning, public safety legal issues, public policy, public safety research and technology, and public safety leadership.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- PSAD 304 Contemporary Public Safety Practices (3)
- PSAD 306 Public Safety Planning (3)
- PSAD 408 Public Safety Legal Issues and Public Policy (3)
- PSAD 410 Public Safety Research and Technology (3)
- PSAD 416 Public Safety Leadership (3)
- PSAD 414 Public Safety Administration Ethics (3)

Total credits for certificate in Public Safety Executive Leadership: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Public Safety Administration. For details, contact your advisor.

Spanish for Business and the Professions

Through the certificate program in Spanish for business and the professions at UMGC, you'll benefit from a combination of language and professional study that will build a foundation to enhance your résumé and prepare you to work and communicate in a variety of Spanish-speaking environments.

This program is ideal for those who are in a professional or social setting where Spanish is often spoken.

In your online Spanish classes, you'll not only learn the language but also explore contexts and practices specific to the Spanish-speaking world. You'll use your knowledge of diverse business cultures to communicate and interact effectively in a business environment.

Note: This certificate is not intended for students who already have native or near-native ability in Spanish. If you have prior experience in the Spanish language, you should contact the department at languages@umgc.edu about a placement test.

Overall certificate requirements are listed on p. 52

FOUR COURSES CHOSEN FROM THE FOLLOWING:

- SPAN 211 Intermediate Spanish I (3)
- SPAN 212 Intermediate Spanish II (3)
- Any 300- or 400-level SPAN course taught in Spanish

ONE OF THE FOLLOWING COURSES:

- SPAN 418 Business Spanish I (4)
- SPAN 419 Business Spanish II (4)

Total credits for certificate in Spanish for Business and the Professions: 16

CERTIFICATE PROGRAMS

REQUIREMENTS AND CURRICULA

Vulnerability Assessment

The vulnerability assessment certificate program is designed to provide you with the knowledge and skills needed to examine software for embedded vulnerabilities—whether they are accidental or malicious—that create weaknesses that may be exploited by hackers. In this program, you'll learn techniques to identify such flaws in software.

Overall certificate requirements are listed on p. 52.

REQUIRED COURSES:

- CMSC 105 Introduction to Problem-Solving and Algorithm Design (3)
or prior programming experience
- CMSC 115 Introductory Programming (3)
- CMSC 215 Intermediate Programming (3)
- CMSC 320 Relational Database Concepts and Applications (3)
- CYOP 300 Building Secure Python Applications (3)
- CYOP 325 Detecting Software Vulnerabilities (3)
- CYOP 360 Secure Software Engineering (3)

For more information about documenting your prior programming experience, contact your advisor.

Total credits for certificate in Vulnerability Assessment: 18–21

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Cyber Operations. For details, contact your advisor.

Watershed Management

Watershed management plays a crucial role in protecting water quality and aquatic ecosystems, preventing water pollution, decreasing flood risk, and minimizing other human and environmental health impacts related to polluted runoff. The certificate program in watershed management is designed to help prepare you for careers with local, state, and federal government, industry, consulting, and nongovernmental organizations implementing watershed and stormwater management programs with a focus on design principles. You'll learn about geospatial analyses and the biophysical and social impacts of human activities on watersheds. The program offers you an opportunity to practice designing best management practices, including collaborative and community-based approaches, to reduce stormwater impacts to watersheds. Activities emphasize how to effectively manage watersheds to reduce the impact of land development, industrial processes, and everyday human activities.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- ENHS 300 Environmental Systems (3)
- ENHS 305 Environmental Health and Safety Regulations (3)
- EHNS 340 Environmental Technology and Control (3)
- ENHS 350 Introduction to Geographic Information Systems (3)
- ENMT 360 Introduction to Watershed Management (3)
- ENHS 405 Pollution Prevention Strategies (3)

Total credits for certificate in Watershed Management: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Environmental Health and Safety. For details, contact your advisor.

Web Design

The web design certificate program provides you with entry-level skills for a career in web design. This project-centric program exposes you to responsive web design, industry best practices, cascading style sheets (CSS), HTML5 coding, content management systems, and JavaScript technologies, as well as ethical and legal considerations. Career paths are also explored.

Overall certificate requirements are listed on p. 52.

SIX REQUIRED COURSES:

- CMST 290 Introduction to Interactive Design (3)
- CMST 295 Fundamentals of Digital Design (3)
- CMST 385 Principles of Web Design and Technology I (3)
- CMST 386 Principles of Web Design and Technology II (3)
- CMST 388 Fundamentals of JavaScript (3)
- CMST 355 Content Management Systems (3)

Total credits for certificate in Web Design: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Web and Digital Design. For details, contact your advisor.

Women, Gender, and Sexuality Studies

The certificate program in women, gender, and sexuality studies provides an interdisciplinary study of gender and sexuality. You'll examine how these concepts differ across cultures and through time, with an eye toward understanding the diversity of expressions of gender and sexuality in contemporary society and applying that understanding to your personal, professional, and educational contexts.

Overall certificate requirements are listed on p. 52.

ONE REQUIRED COURSE:

- WMST 200 Introduction to Women, Gender, and Sexuality Studies (3)

FIVE COURSES CHOSEN FROM THE FOLLOWING:

- BEHS 220 Diversity Awareness
- BEHS 250 Social Justice Movements
- BEHS 343 Parenting Today
- BEHS 453 Domestic Violence
- ENGL 250 Introduction to Women's Literature
- GERO 311 Gender and Aging
- HIST 377 U.S. Women's History: 1870 to 2000
- PSYC 332 Psychology of Human Sexuality
- SOCY 325 The Sociology of Gender
- SOCY 443 Sociology of the Family
- SOCY 462 Women in the Military
- SPCH 324 Communication and Gender

Total credits for certificate in Women, Gender, and Sexuality Studies: 18

Related Degree Program

Coursework for this certificate can be applied to a Bachelor of Science in Social Science. For details, contact your advisor.

ASSOCIATE DEGREE PROGRAM

DEGREE REQUIREMENTS AND CURRICULUM

UMGC Asia offers a program of study leading to a UMGC associate degree. All requirements noted for the Associate of Arts (AA) degree involve lower-level courses, although appropriate upper-level courses may be substituted. You should consult with a UMGC academic advisor at your local education center about the program and to chart your degree plan to ensure you meet the necessary requirements.

Expectations

The Associate of Arts in General Studies allows you to pursue your own personal, educational, and career goals by developing an interdisciplinary course of study.

The associate degree incorporates core competencies that build toward and support both the associate and bachelor's degree. The following essential core competencies are emphasized across all programs:

- Effective writing and oral communication
- The use of information technology
- Information literacy
- Mathematical and quantitative reasoning
- Critical analysis, critical reasoning, and problem-solving
- Understanding of key concepts and principles of the natural, social, and behavioral sciences

Requirements

Continuous Enrollment

In general, the UMGC degree requirements that apply to you are those that were in effect when you completed the first credit-bearing course in a given program at UMGC. If you cease to be continuously enrolled, the program requirements that apply to you are those in effect at UMGC when you return to UMGC and enroll in a credit-bearing course for the program you wish to pursue at that time.

To be considered continuously enrolled, you must have had no more than two sequential years of nonenrollment. After two years of nonenrollment, you must apply for admission to resume enrollment.

If you change your degree program while continuously enrolled, then the program requirements that apply to you are those in effect at the time you enroll in the first required course for that program. Previously completed coursework may not apply to the new requirements.

Information about the catalog year that applies to you is provided in the MyUMGC student portal.

The following requirements for the Associate of Arts (AA) are applicable to students who begin continuous enrollment on or after August 1, 2024.

Overall Requirements

The Associate of Arts degree requires the completion of a minimum of 60 credits, at least 15 of which (normally the final 15) must be taken through UMGC. Of these 60 credits, 35 credits must be earned in courses that fulfill the general education requirements listed on the following page. The remaining 25 credits must satisfy elective area requirements, include 4 credits of required core coursework and 21 credits in eligible courses of interest. Eligible courses are those for which you have met prerequisites.

In addition to the general education requirements and elective requirements, the following overall requirements pertain to all associate degrees.

1. You must be admitted as an undergraduate UMGC student.
2. You must complete a minimum of 60 credits.
3. You must complete all general education and elective requirements listed on the following page.
4. You must maintain a minimum grade point average of 2.0 (C) overall in all courses taken through UMGC. See page p.p. 35 for information on maintaining satisfactory academic standing.

General Education Requirements (35 credits)

Credit applied to general education requirements may not be applied toward major, minor, or elective requirements. Courses applied to general education requirements may not be taken pass/fail.

	Credits
Communications	6
WRTG 111 or another writing course (3 credits)	
All 3-credit WRTG courses (except WRTG 288, WRTG 388, WRTG 486A, or WRTG 486B), COMM 390, COMM 492, ENGL 102, and JOUR 201 apply.	
WRTG 112 (3 credits)	
Must be completed with a grade of C- or better within the first 24 credits. May not be earned through Prior Learning (Portfolio or Course Challenge) assessment.	

No more than 3 credits in writing may be earned by examination.

Mathematics 3

MATH 105, MATH 107, MATH 115, MATH 140, STAT 200, or a mathematics course approved by the department.

Must be completed within the first 24 credits. Prerequisites must be fulfilled before taking MATH 108, MATH 140, or any higher-numbered MATH or STAT courses.

Note: Check individual curricula for recommended math courses.

Arts and Humanities 6

Two 3-credit courses chosen from the following disciplines: ARTH, ARTT, ASTD, ENGL (except ENGL 281 and ENGL 384), GRCO, HIST, HUMN, MUSC, PHIL, THET, dance, literature, or foreign language.

Behavioral and Social Sciences 6

Two 3-credit courses chosen from the following disciplines: AASP (AASP 201 only), ANTH, ASTD (depending on course content), BEHS, CCJS (CCJS 100, CCJS 105, CCJS 350, CCJS 360, and CCJS 461 only), ECON, GEOG, GERO (except GERO 342 and GERO 351), GVPT, PSYC, SOCY, or WMST (WMST 200 only).

Biological and Physical Sciences 7

A science lecture course (3 credits) with related laboratory course (1 credit) or a science course combining lecture and laboratory (4 credits).

Any other science course (3 credits)

Courses from the following disciplines apply: ASTR, BIOL, CHEM, GEOL, NSCI, NUTR, or PHYS. Science courses in other disciplines may also apply.

Research and Computing Literacy 7

Professional exploration course: (3 credits)

PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, and PACE 111T apply. To be taken as the first course.

Research skills and professional development course (1 credit)

LIBS 150, CAPL 398A, and any general education course apply.

Computing or information technology course (3 credits)

One 3-credit course or three 1-credit courses selected from IFSM 201, DATA 200, or courses designated CMIT, CMSC, CMST, CSIA, CYOP, and IFSM.

Total General Education Requirements 35

Elective Requirements (25 credits)

In addition to the general education requirements, you must take 25 credits of elective coursework related to your interests

and educational goals. Of these 25 credits, 4 must be taken in required core courses; the remaining 21 may be chosen from any eligible courses of interest. Eligible courses are those for which you have met prerequisites.

Required Core Courses (4 credits)

A course in communication, writing, or speech (3 credits)

ENGL 102; ENGL 281; JOUR 201; and all 3-credit COMM, SPCH, and WRTG courses (except those numbered 486A and 486B) apply.

CAPL 198A, CAPL 198B, CAPL 198C, or any 1-credit course (1 credit)

Interdisciplinary Elective Courses (21 credits)

Courses for which prerequisites have been met, from any discipline or from a focused elective option, listed below (21 credits).

The responsibility for developing a curriculum that meets your intended learning outcomes is yours. You can choose related courses from several disciplines, explore several interests at once, or follow one of seven focused elective options, including accounting and finance, business and management, computer studies, criminal justice, foreign language area studies, military history, and psychology. Suggestions for following a focused elective option follow.

If you anticipate completing a certificate or seeking a bachelor's degree, you should select courses that will advance that goal. You must earn a grade of C or better for a course to be applicable toward a major or minor in a bachelor's degree program.

You are encouraged to seek assistance from advisors or a local UMGC-Asia representative in arranging your curriculum as appropriate to your personal interests and future educational plans.

Total Elective Requirements 25

Focused Elective Options (21 credits)

If you wish to pursue a specific career or educational goal, you may decide to focus 21 credits of core/elective coursework in an area that aligns with your interests or prepares you for further study toward the bachelor's degree.

ACCOUNTING AND FINANCE

Accounting- and finance-related courses—Chosen from any ACCT or FINC courses for which you have met prerequisites

BUSINESS AND MANAGEMENT

Business- and management-related courses—Chosen from any ACCT, BMGT, ECON, FINC, HMG, HRMN, IFSM, or MRKT courses for which you have met prerequisites

ASSOCIATE DEGREE PROGRAM

DEGREE REQUIREMENTS AND CURRICULUM

COMPUTER STUDIES

Computer studies-related courses—Chosen from any CMIT, CMSC, CMST, CSIA, CYOP, DATA, or IFSM courses for which you have met prerequisites.

Courses in the computer studies curriculum area may have requirements beyond the minimum technology requirements found on p. 24. Review the appropriate course description sections to determine the technology requirements for the classes in which you are enrolling.

CRIMINAL JUSTICE

Any CCJS courses for which you have met prerequisites.

FOREIGN LANGUAGE AREA STUDIES

Language core courses—Sequential courses in a single language, usually numbered 111–112 and 114–115 (or 211–212).

Related foreign language area studies courses—Any courses in the culture, history, language, literature, or government and politics of the area (see specific courses for each language area). If you have previous experience in the foreign language you wish to study, contact the department at languages@umgc.edu about a placement test.

MILITARY HISTORY

Military history-related courses, including courses that may be applicable to the BA in History, such as the following:

HIST 202 Principles of War
HIST 381 America in Vietnam
HIST 462 The U.S. Civil War
HIST 464 World War I
HIST 465 World War II

PSYCHOLOGY

Any PSYC courses

AA IN GENERAL STUDIES

Second Associate Degree

If you have already received an associate degree from an approved institution other than UMGC, you can broaden your education by earning a second associate degree. The following conditions apply:

- You must have received the first associate degree to be eligible to begin the second.
- For a second associate degree, you must complete at least 15 credits of new coursework with UMGC. The combined credit must add up to at least 75 credits.
- The 15 new credits must be uniquely applicable to the second AA curriculum.
- Before beginning work toward a second associate degree, you must request an academic advisement report (discussed on p. 27).
- As with other degrees, continuous enrollment at UMGC is required.
- A minimum grade point average of 2.0 in all courses taken through UMGC is required for graduation.
- Consult an academic advisor for more information on earning a second associate degree.

Before beginning work or considering nontraditional options toward a second degree, consult an academic advisor. Advisors will be glad to explain the requirements for a second associate degree and clarify its limitations.

Curriculum

What You'll Learn

Through your coursework, you will learn how to

- Communicate orally and in writing in a clear, well-organized manner
- Conduct academic research
- Think critically

UMGC conducts learning outcomes assessments to measure and improve your learning in these general education areas.

Course Sequencing

Visit umgc.edu/aa for an optimal order for taking both required and recommended general education and elective courses for this program. Your plan will be unique to you, based on your previous education and credit earned. See pp. 28–30 for information on general education and overall requirements for completing an associate degree.

Contact an advisor for alternative course recommendations and answers to questions about your official plan.

BACHELOR'S DEGREE PROGRAMS

DEGREE REQUIREMENTS

At the undergraduate level, UMGC offers the Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Science in Nursing (BSN), and Bachelor of Technical and Professional Studies (BTPS) degrees. The BSN program is available only to students who have an associate degree in nursing or a diploma from a registered nursing education program that is recognized by the appropriate state board of nursing and who reside in and have an active, unencumbered nursing license in an approved state.* The BTPS degree is available only to students who have earned the Associate of Applied Science (AAS) degree from a community college with which UMGC has an appropriate articulation agreement. The BSN and BTPS degrees are restricted programs and are not available at UMGC Asia locations.

Except for those restricted programs, current UMGC degree programs are open to you from virtually anywhere in the world. However, offerings sufficient to complete every program may not be available at every location or in every format. You should consult your advisor, current schedules, and site-specific materials to determine which programs you may normally expect to complete from your geographic location.

Requirements for degrees vary according to the major and minor. The requirements you must meet to complete your bachelor's degree, regardless of your academic major, are summarized in the following sections.

Expectations

Within each academic major, a UMGC degree incorporates program-specific and core competencies. The following essential core competencies are emphasized across all programs:

- Effective writing and oral communication
- The use of information technology
- Information literacy
- Mathematical and quantitative reasoning
- Critical analysis, critical reasoning, and problem solving
- Understanding of key concepts and principles of the natural, social, and behavioral sciences

UMGC conducts learning outcomes assessments to measure and improve your learning in these areas as well as in specific disciplinary knowledge and skills.

Your academic major (and minor, if you choose one) allows you to master a considerable body of knowledge in a specific academic subject area or group of related subjects. Each major provides clearly articulated learning outcomes for the knowledge, skills, and abilities you are expected to acquire in completing the major.

Requirements

Continuous Enrollment

In general, the UMGC degree requirements that apply to you are those that were in effect when you completed the first credit-bearing course in a given program at UMGC. If you cease to be continuously enrolled, the program requirements that apply to you are those in effect at UMGC when you return to UMGC and enroll in a credit-bearing course for the program you wish to pursue at that time.

To be considered continuously enrolled, you must have had no more than two sequential years of nonenrollment. After two years of non-enrollment, you must apply for admission to resume enrollment.

If you change your degree program while continuously enrolled, then the program requirements that apply to you are those in effect at the time you enroll in the first required course for that program. Previously completed coursework may not apply to the new requirements.

Information about the catalog year that applies to you is provided in the MyUMGC student portal.

The following requirements for the BA, BS, and BSN are applicable to students who begin continuous enrollment on or after August 1, 2024.

Overall Bachelor's Degree Requirements

In addition to the general education requirements and the major, minor, and elective requirements, the overall requirements listed below pertain to all bachelor's degrees.

- You must be admitted as an undergraduate UMGC student.
- You must complete a minimum of 120 credits.
- You must maintain a minimum grade point average of 2.0 (C) overall and a minimum grade of C (2.0) for any course applied to the academic major or minor. See p. 347 for information on maintaining satisfactory academic standing.
- You must complete all general education requirements listed on the following page.
- You must complete all coursework required for an academic major, which typically requires from 30 to 39 credits of core coursework and may also include related requirements, as described in the following section.
- At least half the required number of credits for any academic major or minor must be earned through graded coursework. Credits earned by examination, industry certifications, portfolio assessment, and noncollegiate training do not count as graded coursework.

BACHELOR'S DEGREE PROGRAMS

DEGREE REQUIREMENTS

- At least 30 credits (normally the final 30) must be completed at UMGC.
- Half of the required number of credits within both the major (if you are not majoring in applied technology, described on p. 41, or general studies, described on p. 73) and the minor (if you choose a minor) must be completed at UMGC.
- At least 15 credits of upper-level coursework (i.e., earned in courses numbered 300 to 499) must be completed at UMGC.

Major Requirements

Requirements for the major include academic core coursework and, depending on the major, may also include related courses.

	Credits
Academic Core Requirements	30–39

The number of credits required to complete an academic major varies according to program. At least half the credits earned within the major must be earned through UMGC. No grade may be lower than C. Specific coursework is prescribed for each major and is described in the following section.

You may receive a double major; requirements and restrictions are described on the next page.

Related Requirements

Many majors require specific supporting coursework in other fields in addition to coursework in the major. These courses are required to complete the major and graduate. Coursework that fulfills related requirements may be applied to general education or elective requirements, which are described in the following sections.

Total Major Requirements	30–39
---------------------------------	--------------

General Education Requirements

Recommendations for fulfilling general education requirements are provided for each major in the recommended sequence. Many related requirements for the major may be applied to general education requirements.

Note: Any course that may be applied toward a general education requirement may not also be applied toward major, minor, or elective requirements. Courses applied to meet general education requirements may not be taken pass/fail.

	Credits
Communications	12

WRTG 111 or another writing course (3 credits)

All 3-credit WRTG courses (except WRTG 288, WRTG 388, WRTG 486A, or WRTG 486B), COMM 390, COMM 492, ENGL 102, and JOUR 201 apply.

WRTG 112 (3 credits)

Must be completed with a grade of C- or better within the first 24 credits. May not be earned through Prior Learning (Portfolio Assessment or Course Challenge) assessment.

A course in communication, writing, or speech (3 credits)

ENGL 102; ENGL 281; JOUR 201; and all 3-credit COMM, SPCH, and WRTG courses (except those numbered 486A and 486B) apply.

An upper-level advanced writing course (3 credits)

WRTG 391, WRTG 393, and WRTG 394 apply.

No more than 3 credits in writing may be earned by examination.

Mathematics	3
--------------------	----------

MATH 105, MATH 107, MATH 115, MATH 140, STAT 200, or a mathematics course approved by the department.

Must be completed within the first 24 credits. Prerequisites must be fulfilled before taking MATH 108, MATH 140, or any higher-numbered MATH or STAT courses.

Note: Check individual majors for recommended math courses and related requirements.

Arts and Humanities	6
----------------------------	----------

Two 3-credit courses chosen from the following disciplines: ARTH, ARTT, ASTD (depending on course content), ENGL (except ENGL 281 and ENGL 384), GRCO, HIST, HUMN, MUSC, PHIL, THET, dance, literature, or a foreign language

Behavioral and Social Sciences	6
---------------------------------------	----------

Two 3-credit courses chosen from the following disciplines: AASP (AASP 201 only), ANTH, ASTD (depending on course content), BEHS, CCJS (CCJS 100, CCJS 105, CCJS 350, CCJS 360, and CCJS 461 only), ECON, GEOG, GERO (except GERO 342 and GERO 351), GVPT, PSYC, SOCY, or WMST (WMST 200 only)

Biological and Physical Sciences **7**

A science lecture course (3 credits) with related laboratory course (1 credit) or a science course combining lecture and laboratory (4 credits)

Any other science course (3 credits)

Courses from the following disciplines apply: ASTR, BIOL, CHEM, GEOL, NSCI, NUTR, or PHYS. Science courses in other disciplines may also apply.

Research and Computing Literacy **7**

Professional exploration course (3 credits)

Should preferably be taken within the first 6 credits.

PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, and PACE 111T apply.

LIBS 150, CAPL 398A, or other general education course (1 credit)

One 3-credit course or three 1-credit courses in computing or information technology (3 credits)

Unless otherwise specified, upper- or lower-level courses designated CMIT, CMSC, CMST, CSIA, IFSM, and SDEV and ACCT 326 and DATA 200 apply. Refer to your specific major for requirements or recommendations.

Total General Education Requirements **41 Credits**

Minor and Elective Requirements

	Credits
Academic Minor	15–18

Choosing a minor is optional. You may not take a major and minor in the same area and may not receive a double minor. The number of credits required to complete an academic minor varies according to academic program. At least half the credits earned within the minor must be upper level (unless otherwise specified) and must be earned through UMGC.

No grade may be lower than C. Specific coursework is prescribed for each minor and is described in the following section.

Electives	24–34
------------------	--------------

Electives may be taken in any academic discipline. Pass/fail credit, up to a maximum of 18 credits, may be applied toward electives only. Many related requirements for the major may be applied to electives.

Total Minor and Elective Requirements	40–49
--	--------------

BACHELOR'S DEGREE REQUIREMENTS

	Credits
General Education Courses	41
Academic Major Core Courses	30–39
Academic Minor and Elective Courses	40–49
Total	120

Double Major

You can earn a double major upon completion of all requirements for both majors, including the required minimum number of credits for each major and all related requirements for both majors. The same course cannot be used to fulfill requirements for more than one major. Certain restrictions (including use of credit and acceptable combinations of majors) apply for double majors. You cannot major in two programs with excessive overlap of required coursework. Contact your academic advisor or local representative before selecting a double major.

BACHELOR'S DEGREE PROGRAMS

DEGREE REQUIREMENTS

Second Bachelor's Degree

If you have already received a bachelor's degree from UMGC or from another approved institution, you can broaden your education by earning a second bachelor's degree with a different major.

- You must have received the first bachelor's degree to be eligible to begin a second.
- For a second bachelor's degree, you need to complete at least 30 new credits through UMGC after completing the first degree. The combined number of credits in both degrees must add up to at least 150 credits.
- You may not earn a second bachelor's degree with a double major.
- You may not earn a second degree with a major in either applied technology or general studies.
- You may not obtain a second associate degree within the second bachelor's degree.
- To qualify for academic honors in a second bachelor's degree, you must complete at least 30 new credits through UMGC with the requisite grade point average.
- You must complete all requirements for the major. All course prerequisites apply.
- If any major requirements were satisfied in the previous degree, the remainder necessary to complete the minimum 30 credits of new coursework should be satisfied with courses related to the major. For purposes of determining what major requirements apply, the applicable date is the date you started coursework at UMGC after being admitted into the second undergraduate degree program.
- As with other degrees, continuous enrollment at UMGC is required.

A minimum grade point average of 2.0 in all courses taken through UMGC is required for graduation. Before beginning work or considering nontraditional options toward a second degree, consult an advisor. Advisors will be glad to explain the requirements for a second bachelor's degree and clarify its limitations.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Accounting

You may seek either an academic major or minor in accounting.

Major in Accounting

The major in accounting combines theory and practice to help prepare you to analyze and report on the economic activities of organizations. You'll develop skills in managerial accounting, budgeting, accounting systems, internal controls, financial analysis, financial reporting, internal and external auditing, taxation, and international accounting.

What You'll Learn

Through your coursework, you will learn how to

- Communicate with financial and nonfinancial audiences in a concise manner to facilitate financial decisions
- Create financial and business reports based on research and data analysis
- Apply accounting and business management principles to inform decision-making and risk management
- Evaluate current business technology designed to help personnel work collaboratively and to facilitate the decision-making process
- Exercise professional skepticism in the application of analytical, critical-thinking, and problem-solving skills
- Employ standards to identify, test, and validate processes, systems, and financial data
- Illustrate ethical decision-making models for addressing current and emerging business issues
- Present a framework and plan for fraud detection and deterrence analysis, implementation, and evaluation
- Perform a range of functions, including budgeting, reporting, and auditing, to manage federal agency finances
- Propose a plan for improved use of business intelligence, data management, and analytics

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- Certified Fraud Examiner (CFE)
- Certified Government Auditing Professional (CGAP)
- Certified Government Financial Manager (CGFM)
- Certified Information Systems Auditor (CISA)
- Certified Internal Auditor (CIA)

- Certified Management Accountant/Certified Financial Manager (CMA/CFM)
- Certified Public Accountant (CPA)*

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in accounting, an accelerated pathway between UMGC undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Accounting and Financial Management, CyberAccounting, or Management with a concentration in accounting at UMGC by 6 credits (two courses). Details are on p. 20.

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BS IN ACCOUNTING

	Credits
Required Major Core Courses	33
Required Major Capstone Course	3
Required Related Courses	27
Remaining General Education, Minor, and Elective Courses	57
Total	120

Major Requirements

To complete a major in accounting, you must take a total of 63 credits in required coursework, as follows:

REQUIRED MAJOR CORE COURSES (33 CREDITS)

ACCT 220	Principles of Accounting I (3)
ACCT 221	Principles of Accounting II (3)
ACCT 310	Intermediate Accounting I (3)
ACCT 311	Intermediate Accounting II (3)
ACCT 321	Cost Accounting Data Analytics (3)

* Requirements for CPA certification vary from state to state. See p. 383 or umgc.edu/professional-licensure for more information.

ACCT 323	Federal Income Tax I (3)
ACCT 326	Accounting Information Systems (3)
ACCT 410	Accounting for Government and Not-for-Profit Organizations (3) or any upper-level ACCT course
ACCT 422	Auditing Theory and Practice (3)
ACCT 424	Advanced Accounting (3)
ACCT 436	Internal Auditing (3) or any upper-level ACCT course
ACCT 438	Fraud and Forensic Accounting (3) or any upper-level ACCT course

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

ACCT 496	Advanced Accounting Capstone (3)
----------	----------------------------------

REQUIRED RELATED COURSES (27 CREDITS)

The following required courses (12 credits) may be applied to general education requirements:

ECON 201	Principles of Macroeconomics (3)
ECON 203	Principles of Microeconomics (3)
STAT 200	Introduction to Statistics (3)
WRTG 293	Introduction to Professional Writing (3) or COMM 390 <i>Writing for Managers</i> or WRTG 394 <i>Advanced Business Writing</i>

The following required courses (15 credits) may be applied to elective requirements:

BMGT 364	Management and Organization Theory (3)
BMGT 380	Business Law I (3)
FINC 330	Business Finance (3)
MRKT 310	Marketing Principles (3)
ACCT 411	Ethics and Professionalism in Accounting (3) or BMGT 496 <i>Business Ethics</i>

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education and credit earned. Contact an advisor if you have any questions about your academic advisement report.

Major core and related requirements are listed in **bold**.

Minor in Accounting

The accounting minor complements the skills you gain in your major discipline by providing a study of how the accounting environment measures and communicates the economic activities of organizations to enable stakeholders to make informed decisions regarding the allocation of limited resources.

Courses in the Minor (15 Credits)

A minor in accounting requires the completion of 15 credits of coursework in accounting. Any ACCT courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

African American Studies

You may seek an academic minor in African American studies.

Minor in African American Studies

The African American studies minor complements the skills you gain in your major discipline by offering an interdisciplinary approach to the study of the contemporary life, history, and culture of African Americans.

Courses in the Minor (15 Credits)

A minor in African American studies requires the completion of 15 credits of coursework focusing on African American issues, chosen from the following:

AASP 201	Introduction to African American Studies
ENGL 363	African American Authors from the Colonial Era to 1900
ENGL 364	African American Authors from 1900 to the Present
HIST 461	African American History: 1865 to the Present
SOCY 423	Race and Ethnicity: A Global Perspective
Any African American studies course	

It is recommended that you take AASP 201 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Course Sequencing

Contact an advisor if you have any questions about your academic advisement report.

Applied Technology

You may seek an academic major in applied technology.

Major in Applied Technology

The major in applied technology is designed to allow you to actively develop skills across different types of computing technologies. It offers great flexibility in credit options and course choices, allowing you to apply knowledge from prior work experience, as well as existing skills and abilities in multiple areas of technology. In this program, you are encouraged to cross-fertilize ideas, leading to a multidimensional and enriched approach to solving problems. You'll learn foundational skills in computer technology and be able to customize your learning plan based on your individual interests and market-aligned career needs.

What You'll Learn

Through your coursework, you will learn how to

- Apply critical thinking and quantitative reasoning skills while using computing technologies and methodologies
- Combine concepts and practices in modern information technology (IT) and information systems (IS) with fundamental concepts in other fields to develop computing-based multidimensional approaches to problem-solving
- Develop oral and written communication skills to present computing-based solutions to complex problems
- Analyze insights about personal and professional goals

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Overall requirements for a bachelor's degree in applied technology differ slightly from those listed on pp. 73–76. You must meet the 30-credit requirement for coursework taken at UMGC, but those credits may be earned in any combination across major, general education, and elective courses.

Major Requirements

To complete a major in applied technology, you must take a total of 30 credits in required coursework, as follows:

MAJOR CORE COURSES (27 CREDITS)

- 9 credits of coursework chosen from courses required for a single computer-related major (computer science, cyber operations, cybersecurity management and policy, cybersecurity technology, data science, management information systems, or web technology and digital design), including 3 credits of upper-level coursework
- 18 credits of coursework from any discipline areas (Credits may be earned in two or more disciplines.)

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

APTC 495 Applied Technology Capstone (3)

Course Sequencing

Contact an advisor if you have any questions about your academic advisement report.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Art

You may seek an academic minor in art.

Minor in Art

The art minor complements the skills you gain in your major discipline by offering an aesthetic and personal exploration of imagery, media, and composition through a balance of art theory and practice.

Courses in the Minor (15 Credits)

A minor in art requires the completion of the following courses:

ARTT 110	Introduction to Drawing (3)
ARTT 152	Basics of Photography (3)
ARTT 210	Intermediate Drawing (3)
ARTT 320	Painting I (3)
ARTT 428	Advanced Painting (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 6 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Art History

You may seek an academic minor in art history.

Minor in Art History

The art history minor complements the skills you gain in your major discipline by helping to develop skills in historical and cultural interpretation and critical analysis of works of architecture, sculpture, painting, and the applied arts.

Courses in the Minor (15 Credits)

A minor in art history requires the completion of the following courses:

ARTH 204	Film and American Culture Studies (3)
ARTH 334	Understanding Movies (3)
ARTH 372	History of Western Art I (3)
ARTH 373	History of Western Art II (3)
ARTH 375	History of Graphic Art (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor.

At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Biology

You may seek an academic minor in biology.

Minor in Biology

The biology minor complements the skills you gain in your major discipline by helping to provide an underlying scientific base on which to build a career in the life sciences, allied health fields, bioinformatics, environmental health and safety, science journalism, or science education.

Courses in the Minor (15 Credits)

A minor in biology requires the completion of 15 credits of coursework in biology. All BIOL courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Business Administration

You may seek either an academic major or minor in business administration.

Major in Business Administration

In the business administration major, you'll gain a well-rounded education that provides foundational, workplace-relevant management skills, organizational theory, and operational knowledge.

UMGC's career-focused bachelor's degree program in business administration is designed to help you compete for the jobs of today and tomorrow by building a comprehensive base of knowledge. This major will help you prepare for a variety of positions in for-profit, nonprofit, and public-sector organizations.

What You'll Learn

Through your coursework, you will learn how to

- Plan and communicate a shared vision for the organization that will drive strategy, assist with decision-making, and position the organization competitively
- Design and create management and leadership plans
- Evaluate qualitative and quantitative data
- Communicate effectively across all levels of an organization
- Develop, communicate, and implement policies and procedures to reduce cost and organizational risk and promote ethical practices
- Manage people, time, and resources by using effective employment practices, encouraging team building, and mentoring junior members of the staff
- Design and execute personal and employee development systems to enhance job performance and leadership skills

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Minor in Business Administration

The business administration minor complements the skills you gain in your major discipline by providing a study of principles and techniques used in organizing, planning, managing, and leading within various organizations.

Courses in the Minor (15 Credits)

A minor in business administration requires the completion of 15 credits of coursework in business administration. Any ACCT, BMGT, FINC, HMG, HRMN, and MRKT courses apply. It is recommended that you take BMGT 364 as the first course in the minor (if you have not already applied the course to other requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Communication Studies

You may seek either an academic major or minor in communication studies.

Major in Communication Studies

Whether you're interested in journalism, public relations, business, or digital communications, you can build a firm base of knowledge while you earn a bachelor's degree in communication studies at UMGC. In this major, you'll learn about and apply communication theories and best practices to communicate about events and ideas to various populations. In addition, you'll learn to work with individuals and groups professionally and manage communications within ethical, legal, and financial parameters.

What You'll Learn

Through your coursework, you will learn how to

- Interpret, evaluate, and apply conventions of communication scholarship
- Apply critical reasoning skills to finding, evaluating, interpreting, using, and delivering information
- Apply ethical communication principles and practices to finding, evaluating, interpreting, creating, and delivering messages
- Create written messages tailored to specific audiences, purposes, and contexts
- Create oral and multimedia presentations tailored to specific audiences, purposes, and contexts
- Access, analyze, evaluate, design, create, and act on messages in a variety of media contexts
- Demonstrate techniques for mindful hearing, attending, understanding, responding, and remembering in a variety of contexts
- Observe, analyze, and adapt cognitive, affective, and behavioral communication in a variety of contexts
- Leverage the principles of small-group communication to complete tasks
- Apply organizational communication frameworks to the management of upward, downward, and horizontal oral, visual, and written communication in workplace contexts

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Minor in Communication Studies

The communication studies minor complements the skills you gain in your major discipline by helping you develop specialized skills in workplace communication, including visual, written, and oral communication skills and a greater understanding of human interaction.

Courses in the Minor (15 Credits)

A minor in communication studies requires the completion of 15 credits of coursework in communication studies. All COMM, JOUR, SPCH, and WRTG courses apply. It is recommended that you take COMM 300 early in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Computer Science

You may seek either an academic major or minor in computer science.

Major in Computer Science

With a bachelor's degree in computer science, you'll be able to plan, design, and optimize computer software and hardware systems for commercial and government environments. This versatile major provides you with a foundation in programming languages, software development, complex algorithms, and graphics and visualization.

What You'll Learn

Through your coursework, you will learn how to

- Develop the analytical and problem-solving skills necessary to design, implement, test, and debug computer programs
- Apply mathematical principles, computer science theory, and software development fundamentals to design and build effective computing-based solutions
- Design and implement a computing-based solution to meet a given set of requirements, standards, and guidelines
- Evaluate alternative computing architectures, algorithms, and systems to make informed decisions that optimize system performance
- Communicate effectively with a range of audiences in a variety of professional contexts
- Recognize local, national, and international technical standards and legal, ethical, and intellectual property regulations in computing practice

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in computer science, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Arts in Teaching by 12 credits (three courses, including the noncredit introductory course UCSP 615). Details are on p. 20.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Minor in Computer Science

The computer science minor complements the skills you gain in your major discipline by providing the foundations for designing and programming computer applications in support of many occupations and developing a process for solving challenging computer problems.

Courses in the Minor (15 Credits)

A minor in computer science requires the completion of 15 credits in computer science coursework, including the following two-course sequence in programming:

- CMSC 115 Introductory Programming (3)
- CMSC 215 Intermediate Programming (3)

The remaining 9 credits may be chosen from any upper-level (i.e., numbered 300 or above) CMSC courses.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 7347576.

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the national academic honor society for the computing and information disciplines, is available on p. 37.

Technology Requirements

Courses in the computer science program may have computing needs beyond the minimum technology requirements found on p. 24. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

Criminal Justice

You may seek either an academic major or minor in criminal justice.

Major in Criminal Justice

The criminal justice curriculum at UMGC is uniquely designed to provide you with an understanding of crime and criminal behavior, the roles of practitioners within the criminal justice system, and the critical-thinking and ethical decision-making strategies necessary to meet the professional demands of the field of criminal justice.

What You'll Learn

Through your coursework, you will learn how to

- Evaluate the roles and responsibilities of police, courts, and corrections within the American criminal justice system
- Utilize ethical reasoning, analytical skills, and professional knowledge to investigate the implications of criminal justice policies or procedures on diverse social groups
- Articulate the importance of research in the social sciences
- Evaluate criminal justice public policies using analytical competencies
- Apply the principles of the various criminal bodies of law (i.e., substantive, procedural, and evidentiary) that currently regulate the American criminal justice system

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in criminal justice, an accelerated pathway between UMGC's undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Management with a specialization in criminal justice management at UMGC by 6 credits (two courses). Details are on p. 20.

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Minor in Criminal Justice

The criminal justice minor complements the skills you gain in your major discipline by providing a study of crime, law enforcement, courts, corrections, security, and investigative forensics.

Courses in the Minor (15 Credits)

A minor in criminal justice requires the completion of 15 credits of coursework in criminal justice. Any CCJS courses apply. It is recommended that you take CCJS 100 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Cyber Operations

You may seek an academic major in cyber operations.

Major in Cyber Operations

The cyber operations major is designed to prepare you to detect breaches and collect and process systems to exploit targets of interest. In this hands-on, lab-intensive degree program, you'll leverage hacking tools, customize computer scripts and applications, and employ techniques to conduct offensive and defensive cyberspace operations. The program will help enable you to detect and triage security alerts, assess risks, automate threat detection, and respond to adversary attacks while helping our country gain an advantage in cyberspace across all domains.

UMGC was named a National Center of Academic Excellence in Cyber Defense (CAE-CD) by the National Security Agency.

What You'll Learn

Through your coursework, you will learn how to

- Work individually or in a team-oriented, collaborative environment to develop and test scripts and processes and produce security documentation of cyberspace events
- Plan, manage, document, and communicate all phases of a secure software development project as part of a software development team
- Use appropriate cyberspace tools to assess, analyze, and exploit applications, networks, and other system vulnerabilities while emulating adversarial approaches
- Identify and respond to emerging threats, vulnerabilities, and exploits to defend and protect an organization's resources, assets, and privacy in cyberspace

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BS IN CYBER OPERATIONS	
	Credits
General Education Courses	41
Required Major Core Courses	30
Required Major Capstone Course	3
Minor and Elective Courses	46
Total	120

Major Requirements

To complete a major in cyber operations, you must take a total of 33 credits in required coursework, as follows:

REQUIRED MAJOR CORE COURSES (30 CREDITS)

CYOP 200	Foundations of Cyber Operations (3)
CYOP 310	Reverse Engineering and Malware Analysis (3)
CMIT 265	Fundamentals of Networking (3)
CYOP 300	Building Secure Python Applications (3)
CYOP 325	Detecting Software Vulnerabilities (3)
CYOP 350	Database Security (3)
CYOP 360	Secure Software Engineering (3)
CYOP 400	Secure Programming in the Cloud (3)
CYOP 425	Mitigating Software Vulnerabilities (3)
CYOP 460	Software Security Testing (3)

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

CYOP 495	Cyber Operations Capstone (3)
----------	-------------------------------

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. Contact an advisor if you have any questions about your academic advisement report.

Major core, capstone, and related requirements are listed in **bold**.

BS IN CYBER OPERATIONS

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the international honor society for the computing and information disciplines, is available on p. 351.

Technology Requirements

Courses in the cyber operations program may have computing needs beyond the minimum technology requirements found on p. 24. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

Cybersecurity

Minor in Cybersecurity

You may seek an academic minor in cybersecurity. The cybersecurity minor complements the skills you gain in your major discipline by providing a study of the principles, issues, and technologies pertinent to the cybersecurity field.

Courses in the Minor (15 Credits)

A minor in cybersecurity requires the completion of 15 credits of coursework in cybersecurity. All CSIA and CMIT courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Technology Requirements

Courses in the cybersecurity program may have computing needs beyond the minimum technology requirements found on p. 24. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Cybersecurity Management and Policy

You may seek an academic major in cybersecurity management and policy.

Major in Cybersecurity Management and Policy

In UMGC's bachelor's degree program in cybersecurity management and policy, you can prepare to become a leader in the protection of data. This innovative, world-class program uses a multidisciplinary approach—drawing from fields such as management, law, science, business, technology, and psychology—to provide you with the most current knowledge and skills for protecting critical cyber infrastructure and assets.

UMGC was named a National Center of Academic Excellence in Cyber Defense (CAE-CD) by the National Security Agency.

What You'll Learn

Through your coursework, you will learn how to

- Integrate cybersecurity best practices and guidance to formulate protection strategies for an organization's critical information and assets
- Apply ethical principles to the development of cybersecurity plans, policies, and programs in industry and government organizations
- Evaluate the applicability of laws, regulations, standards, and frameworks to improve organizational resilience and governance of cybersecurity capabilities
- Apply business analysis principles to identify, assess, and mitigate organizational risk, including acquisition and supply chain risk, arising from diverse sources
- Apply risk management frameworks to identify cybersecurity needs and integrate best practices to improve cybersecurity positions for municipal, state, federal, and international government agencies and organizations
- Integrate continuous monitoring and real-time security solutions to improve situational awareness and deployment of countermeasures within an organization
- Evaluate technology applications to support the cybersecurity goals and objectives of an organization
- Investigate the effects (good or bad) of emerging technology applications on cybersecurity
- Participate in the incident response and recovery process for an organization

- Apply the principles of professional communications and technical writing to effectively communicate about cybersecurity in organizational settings

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- CompTIA Network+
- CompTIA Security+
- EC-Council Certified Incident Handler (ECIH)
- EC-Council Certified Threat Intelligence Analyst (CTIA)
- EC-Council Information Security Manager (EISM)
- IAPP Certified Information Privacy Professional/US (CIPP/US)
- ISC2 Certified Authorization Professional (CAP)
- Professional Business Analyst (PMI-PBA®)*

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BS IN CYBERSECURITY MANAGEMENT AND POLICY

	Credits

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the international honor society for the computing and information disciplines, is available on pp. 38–39.

Technology Requirements

Courses in the cybersecurity management and policy program may have computing needs beyond the minimum technology requirements found on p. 24. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

Cybersecurity Technology

You may seek an academic major in cybersecurity technology.

Major in Cybersecurity Technology

In UMGC's award-winning program in cybersecurity technology, you'll learn the operational procedures and technologies to design, implement, administer, secure, and troubleshoot corporate networks while applying cybersecurity principles operationally.

Designed to combine the benefits of a traditional college education with hands-on training in state-of-the-art computer technology, the cybersecurity technology curriculum integrates technical skills with communication skills and superior general education knowledge.

UMGC was named a National Center of Academic Excellence in Cyber Defense Education (CAE-CDE) by the National Security Agency and the Department of Homeland Security. UMGC is also a designated National Center of Digital Forensics Academic Excellence (CDFAE) institution.

What You'll Learn

Through your coursework, you will learn how to

- Design, implement, and administer local-area and wide-area networks to satisfy organizational goals
- Resolve IT system problems and meet the needs of end users by applying troubleshooting methodologies
- Apply relevant policies and procedures to effectively secure and monitor IT systems

- Communicate IT knowledge effectively using a wide range of presentation styles
- Meet organizational goals using effective workforce skills, best practices, and ethical principles

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- AWS Certified Cloud Practitioner—Foundational
- AWS Certified Solutions Architect—Associate
- CERT Computer Security Incident Handler (CSIH)
- Cisco Certified Network Associate (CCNAv7)
- Cisco Certified Network Professional (CCNP-ENARSI)
- Cisco Certified Network Professional (CCNP-ENCOR)
- CompTIA A+
- CompTIA Cloud+
- CompTIA Cybersecurity Analyst (CySA+)
- CompTIA Linux+ and LPIC-1
- CompTIA Network+
- CompTIA PenTest+
- CompTIA Security+
- EC-Council Certified Ethical Hacker (CEH)
- (ISC)² Certified Cloud Security Professional (CCSP)
- ISFCE Certified Computer Examiner (CCE)
- Microsoft 365 Certified: Enterprise Administrator Expert
- Microsoft 365 Certified: Modern Desktop Administrator Associate
- Microsoft Certified: Azure Fundamentals (AZ-900)

The cybersecurity technology curriculum is closely aligned to industry standards and certifications. Changes related to leading industry certifications may lead to adjustments in course offerings. Visit the program web page for updates.

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in cybersecurity technology, an accelerated pathway between the undergraduate and graduate programs in this field allows you to earn 6 credits toward the Master of Science in Cloud Computing Systems, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, or Digital Forensics and Cyber Investigation and/or a certificate in Cloud Computing and Networking, Cyber Operations, Cybersecurity Management and Policy, Cybersecurity Technology, or Digital Forensics and Cyber Investigation. Details are on p. 20.

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the international honor society for the computing and information disciplines, is available on pp. 38–39.

Technology Requirements

Courses in the cybersecurity technology program may have computing needs beyond the minimum technology requirements found on p. 24. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

Data Science

You may seek either an academic major or minor in data science.

Major in Data Science

The major in data science is designed to meet the growing need for highly skilled professionals who can transform increasing amounts of data into actionable insights. The program provides hands-on experience with a number of the most frequently used analytical tools and methods, offering opportunities to manage and manipulate data; create data visualizations; build predictive models using different machine learning techniques; apply artificial intelligence (AI) and natural language processing techniques to gain insights from free text, images, and videos; and make strategic data-driven recommendations that directly affect business outcomes. You'll acquire fundamental knowledge and skills in data science that will help you adapt to future changes in tools, technology, and the marketplace.

What You'll Learn

Through your coursework, you will learn how to

- Communicate effectively orally and in writing, meeting expectations for content, purpose, organization, audience, and format
- Implement all stages of data science methodology, including data extraction, data cleaning, data load, and transformation
- Execute best practices, using diverse technologies, in data science, business intelligence, machine learning, and artificial intelligence
- Analyze social, global, and ethical issues and their implications as they relate to the use of existing and emerging data science, machine learning, and AI technologies
- Evaluate a business problem or opportunity to determine the extent data science can provide a viable solution, and translate the business problem into a viable project to meet organizational strategic and operational needs
- Incorporate data security, data privacy, and risk management best practices in the planning, development, and implementation of data science solutions
- Build and deploy the machine learning process throughout its life cycle in full compliance with best practices for tool evaluation, model selection, and model validation
- Leverage big data analytics and AI technology to create solutions for stream analytics, text processing, natural language understanding, AI, and cognitive applications

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- AWS Certified Machine Learning
- Microsoft Certified: Data Analyst Associate
- Tableau Desktop Certified Associate
- Tableau Desktop Specialist

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in data science, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Science in Data Analytics by 6 credits. Details are on p. 20.

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BS IN DATA SCIENCE

	Credits
Required Major Core Courses	36
Required Major Capstone Course	3

Technology Requirements

Courses in the data science program may have computing needs beyond the minimum technology requirements found on p. 24. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

Minor in Data Science

The data science minor complements the skills you gain in your major discipline by helping you develop specialized skills in data science, business intelligence, machine learning, and artificial intelligence.

Courses in the Minor (15 Credits)

The minor in data science requires the completion of 15 credits of coursework. Courses allowable for the major in data science apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

Technology requirements are the same as for the major (see above). For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Diversity Awareness

You may seek an academic minor in diversity awareness.

Minor in Diversity Awareness

The diversity awareness minor complements the skills you gain in your major discipline by providing an interdisciplinary perspective on diversity in contemporary society, conceptually grounded in social science, to promote and cultivate the intercultural awareness and effective communication skills that are necessary in today's professional and social settings.

Courses in the Minor (15 Credits)

A minor in diversity awareness requires the completion of 15 credits of coursework, chosen from the following courses:

ANTH 346	Anthropology of Language and Communication
BEHS 220	Diversity Awareness
BEHS 250	Social Justice Movements
BEHS 320	Disability Studies
BEHS 343	Parenting Today
ENGL 459	Contemporary Global Literatures
GERO 311	Gender and Aging
GERO 427	Culture and Aging
PSYC 338	Psychology of Gender
PSYC 354	Cross-Cultural Psychology
SOCY 325	The Sociology of Gender
SOCY 423	Race and Ethnicity: A Global Perspective
SOCY 426	Sociology of Religion
SPCH 324	Communication and Gender
SPCH 482	Intercultural Communication
WMST 200	Introduction to Women, Gender, and Sexuality Studies

It is recommended that you take BEHS 220 or BEHS 250 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

East Asian Studies

You may seek either an academic major or minor in East Asian studies.

Major in East Asian Studies

UMGC's East Asian studies major provides an overview of the history, economics, politics, culture, and languages of the East Asian region, including China, Korea, and Japan. In this program, you'll examine East Asia's rich past and continuing contributions to the global community.

This program is ideal for those who live or work in East Asia, know East Asian languages, or regularly interact with people from East Asian countries.

What You'll Learn

Through your coursework, you will learn how to

- Interpret, communicate, educate, and advise others based on your understanding, research, and analysis of the social, historical, and cultural contexts of East Asia
- Use your knowledge of East Asia to identify, create, facilitate, and promote opportunities for interaction and cooperation between East Asia and the global community
- Apply your knowledge of East Asian diversity, values, and expectations to perform in a culturally appropriate way in personal and professional settings
- Write and speak an East Asian language, integrating interpersonal skills and cultural knowledge

Degree Requirements

See pp. 3343676 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BA IN EAST ASIAN STUDIES

	Credits
General Education Courses	41
Required Major Core Courses	27
Required Major Capstone Course	3
Minor and Elective Courses	49
Total	120

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Major Requirements

To complete a major in East Asian studies, you must take a total of 30 credits in required coursework, as follows:

REQUIRED MAJOR CORE COURSES (27 CREDITS)

ASTD 284 Foundations of East Asian Civilization (3)

ASTD 285 Introduction to Modern East Asia (3)

PHIL 348 Religions of the East (3)

East Asian language courses (9)—Chosen from JAPN or KORN courses numbered 111, 112, 114, or higher

Upper-level East Asian content courses (9)—Chosen from ASTD, CHIN, JAPN, KORN, Asian HIST, and Asian GVPT courses and ANTH 417; focused study on Japan or Korea is recommended, as follows:

Japan

HIST 482 History of Japan to 1800

JAPN 333 Japanese Society and Culture

ANTH 417 Peoples and Cultures of East Asia

Korea

ASTD 302 The Two Koreas: Problems and Prospects

KORN 333 Korean Society and Culture

ANTH 417 Peoples and Cultures of Asia

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

ASTD 485 East Asian Studies Capstone (3)

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. Alternate options are available for this major based on academic and professional interests. Contact an advisor if you have any questions about your academic advisement report.

Major core, capstone, and related requirements are listed in **bold**.

Minor in East Asian Studies

The East Asian studies minor complements the skills you gain in your major discipline by providing an interdisciplinary study of the cultural, historical, political, and contemporary business realities of the Asian/Pacific world.

Courses in the Minor (15 Credits)

A minor in East Asian studies requires the completion of 15 credits of coursework in East Asian studies, which must include ASTD 284 and ASTD 285. Courses allowable for the major in East Asian studies apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Economics

You may seek an academic minor in economics.

Minor in Economics

The economics minor complements the skills you gain in your major discipline by providing a study of the forces that determine production and distribution, price levels, and income distribution, as well as other economic factors that influence the quality of life.

Courses in the Minor (15 Credits)

A minor in economics requires the completion of 15 credits of coursework in economics, chosen from the following courses:

ECON 201	Principles of Macroeconomics
ECON 203	Principles of Microeconomics
ECON 305	Intermediate Macroeconomic Theory and Policy
ECON 306	Intermediate Microeconomic Theory
ECON 330	Business and Economics of Sustainability
ECON 430	Money and Banking

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Emergency Management

You may seek an academic minor in emergency management.

Minor in Emergency Management

The emergency management minor complements the skills you gain in your major discipline by providing knowledge of emergency management, including disaster planning and operations, continuity of operations, risk management, and allocation of limited resources.

Courses in the Minor (15 Credits)

A minor in emergency management requires the completion of the following courses:

EMGT 302	Concepts of Emergency Management (3)
EMGT 304	Emergency Response Preparedness and Planning (3)
EMGT 312	Social Dimensions of Disaster (3)
EMGT 310	Continuity of Operations Planning and Implementation (3)
EMGT 314	Terrorism Issues in Emergency Management (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

English

You may seek either an academic major or minor in English.

Major in English

Like other liberal arts majors, a major in English at UMGC offers a solid base of critical thinking on which to build a career or further graduate study. In-demand skills in research and writing that have a wide application in the job market are also honed. If you are intrigued by literature, the English major may be right for you.

What You'll Learn

Through your coursework, you will learn how to

- Demonstrate knowledge of a range of English-language literary texts, genres, and terms
- Analyze literary texts to explain stylistic, historical, socio-cultural, and ethical significance
- Apply critical theory to literary texts to enhance interpretation and analysis
- Conduct effective research across a range of media
- Create writing that effectively argues, persuades, illuminates, and/or informs
- Create presentations in various media to demonstrate the results of academic inquiry

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in English, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Arts in Teaching at UMGC by 12 credits (three courses, including the noncredit introductory course UCSP 615). Details are on p. 20.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BA IN ENGLISH

	Credits
General Education Courses	41
Required Major Core Courses	30
Required Major Capstone Course	3
Minor and Elective Courses	46
Total	120

Major Requirements

To complete a major in English, you must take a total of 33 credits in required coursework, as follows:

REQUIRED MAJOR CORE COURSES (30 CREDITS)

ENGL 240	Introduction to Fiction, Poetry, and Drama (3)
ENGL 250	Introduction to Women's Literature (3)
ENGL 303	Critical Approaches to Literature (3)
ENGL 310	Renaissance Literature (3)
ENGL 430	Early American Literature (3)
ENGL 459	Contemporary Global Literatures (3)

Any upper-level ENGL courses (12)—Focused study in American literature or British literature is recommended, as follows:

American Literature

ENGL 363	African American Authors from the Colonial Era to 1900
ENGL 364	African American Authors from 1900 to the Present
ENGL 433	Modern American Literature
ENGL 441	Postmodern American Literature: 1945 to 1999

British Literature

ENGL 311	The Long 18th-Century British Literature
ENGL 312	19th-Century British Literature
ENGL 386	History of the English Language
ENGL 406	Shakespeare Studies

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

ENGL 495	English Literature Capstone (3)
----------	---------------------------------

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. Contact an advisor or a local

UMGC representative if you have any questions about your academic advisement report.

Major core and related requirements are listed in **bold**.

Minor in English

The English minor complements the skills you gain in your major discipline by providing exposure to literary analysis, critical thinking and reading, and the study of the relationship of literature to contemporary intellectual issues.

Courses in the Minor (15 Credits)

A minor in English requires the completion of the following courses:

ENGL 240 Introduction to Fiction, Poetry, and Drama (3)

ENGL 250 Introduction to Women's Literature (3)

ENGL 303 Critical Approaches to Literature (3)

Any upper-level ENGL courses (6)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Environmental Health and Safety

You may seek either an academic major or minor in environmental health and safety.

Major in Environmental Health and Safety

In UMGC's environmental health and safety program, you'll learn to implement evidence-based professional practices to support a safe and healthy work environment.

What You'll Learn

Through your coursework, you will learn how to

- Use information-gathering skills and professional judgment to recommend solutions for broadly defined technical or scientific problems in environmental health and safety
- Apply cognitive and technical skills to anticipate, recognize, and critically evaluate hazards and risk factors
- Select effective control methods to generate practical evidence-based solutions while following legislative and industry standards

- Develop strategies for ongoing professional development and learning to inform evidence-based practice in a continually changing global environment
- Model a range of written and oral communication formats to explain technical information and concepts to various audiences
- Choose collaborative and ethical practices to build the relationships necessary to address contemporary environmental health and safety issues

INDUSTRY CREDENTIALS

This program is designed to help prepare you for the following credentials, listed in alphabetical order:

- Graduate Safety Practitioner (GSP)
- Student Certified Hazardous Materials Manager (ST/CHMM)

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Minor in Environmental Health and Safety

The environmental health and safety minor complements the skills you gain in your major discipline by providing an interdisciplinary study of techniques and practices to support a safe and healthy work environment.

Courses in the Minor (15 Credits)

A minor in environmental health and safety requires the completion of the following courses:

- ENHS 300 Environmental Systems (3)
- ENHS 305 Environmental Health and Safety Regulations (3)
- ENHS 310 Hazardous Substances and Toxicology (3)
- ENHS 330 Safety and Security Management (3)
- ENHS 335 Occupational Health and Industrial Hygiene (3)

It is recommended that you take ENHS 300 Environmental Systems as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Finance

You may seek either an academic major or minor in finance.

Major in Finance

In UMGC's bachelor's degree program in finance, you'll develop the expertise to apply finance theory to real-world situations. Our program combines a foundation in the principles of business, economics, and accounting with an in-depth focus on financial tools and financial management through intensive case studies. It can also serve as a significant first step toward earning important certifications in the field.

What You'll Learn

Through your coursework, you will learn how to

- Examine and describe the impact of the legal, regulatory, and environmental influences on the monetary system on planning, forecasting, and making financial decisions
- Evaluate financial information such as financial statements, financial ratios, and cash flows and apply that information to the analysis of business problems
- Analyze and interpret financial concepts to make basic institutional and functional business decisions
- Apply the basic principles of security markets to create, evaluate, and manage security portfolios
- Demonstrate the ability to communicate business concepts professionally
- Recognize the inherent conflict of interest in many business decisions
- Synthesize financial data by applying appropriate technology tools to solve business problems

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- Certified Financial Planner (CFP)
- Certified Management Accountant (CMA)

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Minor in Finance

The finance minor complements the skills you gain in your major discipline by providing a study of the institutions, theory, and practice associated with the allocation of financial resources within the private sector.

Courses in the Minor (15 Credits)

A minor in finance requires the completion of 15 credits of coursework in finance. All FINC courses apply. It is recommended that you take FINC 330, FINC 335, and FINC 340 as the first courses in the minor (if you have not already applied the courses toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76

Fire Service Administration

You may seek an academic minor in fire service administration.

Minor in Fire Service Administration

The fire service administration minor complements the skills you gain in your major discipline by providing knowledge of disaster planning and the administration of fire-protection services, including organization, planning, operating procedures, management, and allocation of limited resources.

Courses in the Minor (15 Credits)

A minor in fire service administration requires the completion of the following courses:

FSCN 302	Fire and Emergency Services Administration (3)
FSCN 304	Personnel Management for Fire and Emergency Services (3)
FSCN 305	Fire Prevention Organization and Management (3)
FSCN 413	Community Risk Reduction for the Fire and Emergency Services (3)
FSCN 416	Emergency Services Training and Education (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

General Studies

You may seek an academic major in general studies.

Major in General Studies

The bachelor's degree program in general studies allows you to take an active role in designing your educational experience through a flexible curriculum while maximizing your ability to transfer previously earned credit. This personalized learning path, coupled with a focus on your specific interests and areas of study, provides a solid, well-rounded foundation in preparation for a variety of careers.

What You'll Learn

Through your coursework, you will learn how to

- Improve oral and written communication skills
- Apply critical-thinking and problem-solving skills
- Analyze insights about personal and professional goals
- Apply skills and knowledge from different academic disciplines
- Synthesize concepts and theories in core content courses and focus areas

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Overall requirements for a bachelor's degree in general studies differ slightly from those listed on pp. 3343676. You must meet the 30-credit requirement for coursework taken at UMGC, but those credits may be earned in any combination across major, general education, and elective courses.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Major Requirements

To complete a major in general studies, you must take a total of 30 credits in required coursework, as follows

MAJOR CORE COURSES (27 CREDITS)

- 6 credits of coursework in one discipline area (e.g., HRMN)
- 6 credits from a second discipline area (e.g., PSYC)
- 15 credits from any discipline area(s)

Note: No more than 21 credits of coursework in a single discipline area may be applied to the major.

MAJOR CAPSTONE COURSE (3 CREDITS)

CAPL 495 General Studies Capstone (3)

Graphic Communication

You may seek an academic major in graphic communication.

Major in Graphic Communication

UMGC's graphic communication major is a portfolio-intensive program that can help you master the skills and technology needed to compete in today's rapidly changing visual arts and communication environment. With a graphic communication degree, along with an updated portfolio aimed toward your ideal clients, you can apply your creative streak toward a career in business, government, or industry as a graphic designer, manager, or communications specialist.

What You'll Learn

Through your coursework, you will learn how to

- Produce effective visual communications by applying principles of composition, layout, color theory, and context
- Plan, design, and create interactive solutions, such as user interfaces, motion graphics, mobile applications, and web designs
- Use professional, analytical, collaborative, and technical design skills to support team goals, roles, and responsibilities
- Define and direct creative strategy in a business environment by combining scope, messaging, and evaluation of success in an overarching design campaign

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BA IN GRAPHIC COMMUNICATION

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Health Services Management

You may seek either an academic major or minor in health services management.

Major in Health Services Management

A major in health services management can provide you with grounding in the core knowledge and competencies for effective management in the dynamic healthcare environment, teaching you to think comprehensively and strategically about healthcare trends so you can lead innovation. It is ideal for entry-level and midcareer professionals.

What You'll Learn

Through your coursework, you will learn how to

- Exercise sound business and financial management principles in healthcare settings through process mapping and strategic planning
- Apply technological advances and emerging trends in the U.S. healthcare system to achieve organizational goals and practices
- Identify, analyze, and evaluate quantitative and qualitative healthcare data and information for effective decision-making in various healthcare settings
- Evaluate legal and ethical issues associated with the planning and delivery of healthcare services
- Analyze policies related to healthcare management

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the Certified Health Data Analyst (CHDA) exam.

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in health services management, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Science in Healthcare Administration or Health Information Management and Technology at UMGC by 6 credits (two courses). Details are on p. 20.

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BS IN HEALTH SERVICES MANAGEMENT

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Minor in Health Services Management

The minor in health services management complements the skills you gain in your major discipline by enhancing the knowledge, skills, and competencies required by the changing health services environment. The minor covers a wide range of topics designed to help you deal with the challenges of management and leadership in this dynamic field.

Courses in the Minor (15 Credits)

A minor in health services management requires the completion of 15 credits of coursework in health services management, chosen from any HMG T courses and GERO 342. It is recommended that you take HMG T 300 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Phi Delta, the national academic honor society of the Association of University Programs in Health Administration, is available on p. 351.

History

You may seek either an academic major or minor in history.

Major in History

Like other liberal arts majors, a major in history offers a solid base of critical thinking on which to build a career or further graduate study.

One of the very first schools to offer a degree program in history online, UMGC brings you nearly two decades of experience in teaching history in an online environment. Plus, if you're based in the Washington, D.C., area, you'll have myriad opportunities to find internships and part-time and full-time jobs in the field via public institutions and federal positions. Our alumni have gone on to work at such agencies as the National Archives and the National Park Service.

What You'll Learn

Through your coursework, you will learn how to

- Research, interpret, and present historical knowledge
- Write and speak clearly and appropriately about historical information for diverse audiences
- Engage in history as a moral and ethical practice, recognizing a wide range of backgrounds and perspectives
- Apply historical precedents to contemporary life and develop self-reflection
- Achieve a deep understanding of the different peoples, events, and cultures that have shaped human civilization

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in history, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Arts in Teaching at UMGC by 12 credits (three courses, including the noncredit introductory course UCSP 615). Details are on p. 20.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BA IN HISTORY

	Credits
General Education Courses	41
Required Major Core Courses	30
Required Major Capstone Course	3
Minor and Elective Courses	46
Total	120

Major Requirements

To complete a major in history you must take a total of 33 credits in required coursework, as follows:

REQUIRED MAJOR CORE COURSES (30 CREDITS)

HIST 115	World History I (3) <i>or HIST 141 Western Civilization I</i>
HIST 116	World History II (3) <i>or HIST 142 Western Civilization II</i>
HIST 156	History of the United States to 1865 (3)
HIST 157	History of the United States Since 1865 (3)
HIST 289	Historical Methods (3)
HIST 309	Historical Writing (3)

Any upper-level HIST courses (12)—Focused study in U.S. or world history recommended, as follows:

U.S. History

HIST 316L	The American West
HIST 365	Modern America
HIST 377	U.S. Women's History: 1870 to 2000
HIST 461	African American History: 1865 to the Present

World History

HIST 326	The Roman Republic
HIST 337	Europe and the World
HIST 392	History of the Contemporary Middle East
HIST 480	History of China to 1912

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

HIST 495	History Capstone (3)

Minor in History

The history minor complements the skills you gain in your major discipline by offering a historical perspective and by helping you develop critical-thinking skills and an appreciation of the major contributions of various events and individuals to human civilization.

Courses in the Minor (15 Credits)

A minor in history requires the completion of 15 credits of coursework in history, as follows:

A 100-level HIST course (3)

(Courses counted toward this requirement include HIST 115, HIST 116, HIST 141, HIST 142, HIST 156, and HIST 157.)

HIST 289 Historical Methods (3)

Any upper-level HIST courses (9)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Homeland Security

You may seek either an academic major or minor in homeland security.

Major in Homeland Security

The UMGC homeland security program is uniquely designed to provide you with an understanding of the homeland security sector. The curriculum covers international and domestic terrorism, emerging technologies, cyber threats, infrastructure protection, emergency preparedness and response, private-sector partnerships, global pandemics, natural disasters, strategic planning, policies, intelligence operations, and international engagement. In this program, you'll develop the necessary critical-thinking, ethical decision-making, risk analysis, and communication skills to meet the professional demands of leadership and management in the homeland security profession.

What You'll Learn

Through your coursework, you will learn how to

- Distinguish policies and procedures in the homeland security sector that demonstrate leadership and management
- Apply professional and ethical decision-making skills to increase knowledge of strategic and operational homeland security goals and interface with internal and external stakeholders
- Assess the critical technologies essential for the protection and recovery of critical infrastructure and for ensuring the nation's cybersecurity against all hostile threats
- Assess terrorist threats, cyber and insider threats, critical infrastructure vulnerabilities, and emerging asymmetric threats to U.S. national security
- Evaluate the roles and relationships of homeland security partners and stakeholders supporting homeland security operations

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in homeland security, an accelerated pathway between UMGC's undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Management or in Information Technology with a concentration in homeland security at UMGC by 6 credits (two courses). Details are on p. 20.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Humanities

You may seek an academic major in humanities.

Major in Humanities

Like other liberal arts majors, a major in humanities offers a solid base of critical thinking on which to build a career or further study. This major will broaden your understanding of yourself and your interaction with the world and provide a perspective on cultural and intellectual heritage while offering tools to use that knowledge in the real world.

You'll explore how individuals and groups understand their existence, their place within their cultures, and their responsibility to others and the physical world.

What You'll Learn

Through your coursework, you will learn how to

- Integrate theories, methods, and concepts from multiple humanities disciplines, such as philosophy, history, art, literature, music, and religious studies
- Evaluate the adequacy and justifiability of propositions, theories, assumptions, and arguments

- Communicate the results of critical reflection into personal positions on social, cultural, and ethical issues
- Apply sound ethical reasoning in contemporary contexts
- Develop cultural understanding by exploring the cultural heritage of sites, events, people, and communities

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Human Resource Management

You may seek either an academic major or minor in human resource management.

Major in Human Resource Management

With a degree in human resource management from UMGC, you'll find employment opportunities in nearly every industry. Our bachelor's degree program is ideal for those who have some experience in HR, as well as those who want to transition into the HR profession.

You'll gain a comprehensive understanding of human resource functions—such as resource planning; recruitment, selection, placement, and orientation of employees; training and career development; labor relations; performance appraisal and rewards programs; and development of personnel policies and procedures—in private- and public-sector settings. Additionally, you'll explore the ways that human behavior, laws, labor relations, and diversity issues can intersect and affect a company's culture and ultimately its progress.

What You'll Learn

Through your coursework, you will learn how to

- Apply business knowledge, best practices, and ethical leadership skills to make effective business decisions
- Apply knowledge of human behavior, labor relations, and current laws and regulations to evaluate whether a working environment is safe, fair, and compliant with regulations
- Develop a plan to create and implement a total rewards program that aligns employee and organizational goals and objectives
- Create, implement, and assess training, development, and rewards programs that foster employee and organizational learning and development
- Recognize the diversity of cultures and worldviews that inform human behavior and respond constructively to differences in workplaces, communities, and organizations
- Use technology to research, collect, analyze, and interpret data and effectively communicate information in a professional manner
- Evaluate current issues in talent acquisition, selection, strategic planning, and performance-appraisal systems

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- Global Professional in Human Resources (GPHR)
- Professional in Human Resources (PHR)
- SHRM-Certified Professional (SHRM-CP)

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in human resource management, an accelerated pathway between UMGC undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Management with a concentration in human resource management at UMGC by 6 credits (two courses). Details are on p. 20.

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BS IN HUMAN RESOURCE MANAGEMENT

	Credits
Required Major Core Courses	33
Required Major Capstone Course	3
Required Related Course	3
Remaining General Education, Minor, and Elective Courses	81
Total	120

Major Requirements

To complete a major in human resource management, you must take a total of 39 credits in required coursework, as follows:

REQUIRED MAJOR CORE COURSES (33 CREDITS)

- HRMN 300 Human Resource Management (3)
- HRMN 302 Organizational Communication (3)
- HRMN 362 Labor Relations (3)
- HRMN 367 Organizational Culture and Change (3)

- HRMN 395 The Total Rewards Approach to Compensation Management (3)
- HRMN 400 Talent Acquisition and Management (3)
- HRMN 406 Employee Training and Development (3) or HRMN 410 HR Information Systems and Metrics Analysis
- BMGT 364 Management and Organization Theory (3)
- FINC 331 Finance for the Nonfinancial Manager (3)
- HRMN 408 Employment Law for Business (3)
- HRMN 467 Global Human Resource Management (3)

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

- HRMN 495 Human Resource Management Capstone (3)

REQUIRED RELATED COURSE (3 CREDITS)

The following required course may be applied to general education requirements:

- IFSM 300 Information Systems in Organizations (3)

ALTERNATE CREDIT

If you are a Society for Human Resource Management (SHRM)-certified professional (SHRM-CP or SHRM-SCP) and your certification is current and valid, you may receive up to 9 credits for HRMN 300 Human Resource Management (3), HRMN 302 Organizational Communication (3), and HRMN 367 Organizational Culture and Change (3). Advisors can provide more information.

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. Contact an advisor if you have any questions about your academic advisement report.

Major core, capstone, and related requirements are listed in **bold**.

Minor in Human Resource Management

The human resource management minor complements the skills you gain in your major discipline by examining the human resource functions in a private- or public-sector organizational setting. These functions include human resource planning; recruitment, selection, and placement; employee appraisal and compensation; employee training and career development; management of labor relations; and development of a human resource department implementation plan.

Courses in the Minor (15 Credits)

A minor in human resource management requires the completion of 15 credits of coursework in human resource management. Any HRMN courses apply. It is recommended that you take HRMN 300 and HRMN 400 for the minor (if you have not already applied the courses elsewhere in the degree).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76

Law for Business

You may seek an academic minor in law for business.

Minor in Law for Business

The law for business minor complements the knowledge and skills you gain in your major discipline by providing opportunities to achieve substantive knowledge and practical skill competencies in selected areas of law relevant to business.

Courses in the Minor (15 Credits)

A minor in law for business requires the completion of 15 credits of coursework chosen from the following:

BMGT 380	Business Law I
BMGT 381	Business Law II
COMM 400	Mass Media Law
HRMN 408	Employment Law for Business
LGST 200	Techniques of Legal Research
LGST 201	Legal Writing
LGST 312	Torts
LGST 325	Litigation
LGST 327	Alternative Dispute Resolution
LGST 330	Administrative Law
LGST 340	Contract Law

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Legal Studies

You may seek an academic major in legal studies.

Major in Legal Studies

The legal studies curriculum at UMGC is designed to provide you with a background in contemporary American civil and criminal law, legal systems and institutions, and legal theory and practice. In this major, you'll be able to develop the knowledge and skills needed in the legal workplace, including fact identification and analysis, legal research and writing, and field-related digital competence.

What You'll Learn

Through your coursework, you will learn how to

- Analyze the relevant legal concepts, authorities, regulations, and ethical codes required to support the resolution of legal disputes
- Develop legal documents that incorporate critical thinking and legal reasoning to inform, evaluate, and advocate with respect to specific legal issues
- Determine how the application of the American civil and criminal justice systems can further social justice
- Research appropriate standard and internet-based legal resources to identify relevant, current, presiding legal authority

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Management Information Systems

You may seek either an academic major or minor in management information systems.

Major in Management Information Systems

Management information systems are a critical part of the strategic decision-making process in virtually all of today's public and private organizations. Managers who can lead the teams that integrate information systems with general business processes are in high demand.

Developed by chief information officers and other high-level IT professionals, the bachelor's degree program in management information systems at UMGC is well suited for those looking to move into a management position in information systems and bridge the gap between an organization's functional users and technical developers.

What You'll Learn

Through your coursework, you will learn how to

- Communicate effectively, orally and in writing, meeting expectations for content, purpose, organization, audience, and format
- Utilize diverse technologies to achieve project-level or organizational information systems objectives, within diverse areas, including cybersecurity, project management, software development, data analytics, and business process analysis
- Apply appropriate management, analysis, and measurement methods and tools for information systems and technology to meet organizational strategic and operational needs
- Utilize business intelligence and data analytics tools and techniques to generate actionable insights that support achievement of strategic or operational objectives
- Analyze recent and projected developments, implications, and applications of existing and emerging technologies, taking into

account ethical issues and global and multinational corporate perspectives

- Incorporate cybersecurity and risk management best practices in the planning, development, and use of information systems
- Develop clear and concise technical and functional requirements, including the use of data and process models, for information systems development and implementation
- Create information technology strategic and implementation plans that support organizational strategies and activities and improve processes and outcomes
- Develop organizational policies, standards, and communications to inform end users about relevant IT operations issues, including ethical issues and accountabilities
- Collaborate with team members to plan, evaluate, and document technology solutions

INDUSTRY CERTIFICATION

This program is designed to help prepare you for the following certification exams, listed in alphabetical order:

- Agile Certified Practitioner (PMI-ACP)®*
- Certified Associate in Project Management (CAPM)®*
- Project Management Professional (PMP)®*

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in management information systems, an accelerated pathway between UMGC's undergraduate and graduate programs in that field allows you to reduce your total coursework for the Master of Science in Information Technology at UMGC by 6 credits (two courses). Details are on p. 20.

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the national academic honor society for the computing and information disciplines, is available on p. 351.

Minor in Management Information Systems

The management information systems minor complements the skills you gain in your major discipline by helping you develop your

abilities to conceptualize and manage the design and implementation of high-quality information systems.

Courses in the Minor (15 Credits)

A minor in management information systems requires the completion of 15 credits of coursework in information systems management. All IFSM courses apply.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Management Studies

You may seek an academic major in management studies.

Major in Management Studies

Today, many business, government, public service, and technical environments require knowledge of management principles from multiple disciplines. UMGC's program in management studies can help you gain that expertise through a course of study focused on decision-making, problem-solving, and leadership.

What You'll Learn

Through your coursework, you will learn how to

- Apply leadership skills to promote communication, ethical behavior, and quality performance
- Implement employment practices, encourage team building, and mentor staff members
- Communicate effectively with culturally diverse audiences using a variety of formats and technologies
- Assess and develop performance measures, feedback, and coaching that facilitate employee development
- Employ self-reflection and mindfulness of individual and cultural differences when interacting with others
- Research, plan, and develop processes and procedures that ensure organizational performance

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Marketing

You may seek either an academic major or minor in marketing.

Major in Marketing

The major in marketing offers an introduction to the fundamental concepts and strategies that constitute successful marketing management. It is designed to provide a thorough understanding of how to identify, retain, and grow profitable customer segments; create effective promotional programs; and develop integrated marketing communication tools, both in domestic and global markets. The program incorporates digital marketing strategies to meet the requirements of the modern marketplace.

What You'll Learn

Through your coursework, you will learn how to

- Apply strategic marketing skills, such as scenario planning, market intelligence, customer profiles, and digital planning, to successfully market products or services
- Develop marketing insights with data derived from internal and external sources
- Design effective integrated marketing communication plans using traditional, digital, and social media channels
- Develop multichannel campaigns for nonprofit organizations through fundraising, recruiting volunteers, and promoting alliances using traditional and digital marketing channels
- Create consumer-driven marketing strategies for a consistent consumer experience across multiple marketing channels
- Develop successful customer relationships and enhance customer loyalty using appropriate marketing technologies
- Create marketing strategies to meet the challenges of a competitive global market

Minor in Marketing

The marketing minor complements the skills you gain in your major discipline by enhancing the knowledge and skills related to marketing situations and processes and the emerging global marketplace.

Courses in the Minor (15 Credits)

A minor in marketing requires the completion of 15 credits of coursework in marketing. All MRKT courses apply. It is recommended that you take MRKT 310 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Mathematical Sciences

You may seek an academic minor in mathematical sciences.

Minor in Mathematical Sciences

The mathematical sciences minor complements the skills you gain in your major discipline by helping you develop skills in solving mathematical problems and addressing complex and technical materials and by providing a mathematical background to support study in other areas, such as business and management, computer and information technology, and the biological and social sciences.

Courses in the Minor (18 Credits)

A minor in mathematical sciences requires the completion of 18 credits of coursework, including 15 credits in MATH courses numbered 140 or higher and at least 3 credits in MATH or STAT courses at the 300 or 400 level.

No more than two courses may satisfy requirements for both the academic major and the minor. Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Natural Science

You may seek an academic minor in natural science.

Minor in Natural Science

The natural science minor complements the skills you gain in your major by providing an underlying scientific basis on which to build a career in natural science, life science, physical science, and the allied health fields, as well as bioinformatics, environmental management, science journalism, and science education.

Courses in the Minor (17 Credits)

A minor in natural science requires the completion of 17 credits of coursework in natural science, chosen from any courses in astronomy, biology, chemistry, geology, natural science, and physics.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Personal Financial Planning

You may seek an academic minor in personal financial planning.

Minor in Personal Financial Planning

The personal financial planning minor complements the skills you gain in your major discipline by providing a study of financial management and planning designed to help prepare you for the Certified Financial Planner (CFP) exam.*

This minor is designed primarily for students majoring in finance. If you are majoring in another field, you may need to take several courses to fulfill prerequisites. Consult an advisor for more information.

Courses in the Minor (15 Credits)

A minor in personal financial planning requires the completion of the following courses:

FINC 321	Fundamentals of Building Wealth (3)
FINC 352	Life and Health Insurance (3)
ACCT 323	Federal Income Tax I (3)
FINC 355	Retirement and Estate Planning (3)
FINC 490	Financial Plan Development (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Philosophy

You may seek an academic minor in philosophy.

Minor in Philosophy

The philosophy minor complements the skills you gain in your major discipline by providing a study of the relationships between personal opinions and real-world issues faced by members of a pluralistic, open society.

Courses in the Minor (15 Credits)

A minor in philosophy requires the completion of the following courses:

PHIL 100	Introduction to Philosophy (3)
PHIL 110	Practical Reasoning (3)
PHIL 304	Contemporary Social Justice Issues (3)
PHIL 336	Ideas Shaping the 21st Century (3)
PHIL 348	Religions of the East (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

* The two-part education requirement for CFP certification includes both completing coursework on financial planning through a CFP Board Registered Program, such as the UMGC personal financial planning minor, and holding a bachelor's degree or higher in any discipline from an accredited college or university. You must complete the coursework before you can take the CFP exam. You have five years from the date you pass the CFP exam to complete the bachelor's degree requirement.

Political Science

You may seek either an academic major or minor in political science.

Major in Political Science

With a major in political science, you'll be given the opportunity to develop a comprehensive understanding of U.S. government and global politics. By analyzing political structures, theory, and problems, you'll learn to interpret complex political problems in both the public and private sectors and propose potential solutions. You'll also have an opportunity to enhance your professionalism and fine-tune your communication and organizational skills.

What You'll Learn

Through your coursework, you will learn how to

- Distinguish between major concepts, theories, and research methods of political science
- Examine key domestic and international political systems, institutions, and organizations, including their purposes, functions, and impact on domestic and global politics, policies, and people
- Explain how diversity, equity, and inclusion affects and is affected by policies and politics within various sociopolitical, economic, and cultural contexts, both domestically and internationally
- Evaluate reports and articles for validity, applicability, and authoritative conclusions
- Produce arguments supporting or opposing a position on domestic or global practices or policies, applying supportive research within the major theories/conceptual framework of political science

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

Minor in Political Science

The political science minor complements the skills you gain in your major discipline by providing a systematic study of politics and government. It exposes you to the basic concepts, theories, policies, and roles of government at local, state, and national levels in domestic and foreign settings.

Courses in the Minor (15 Credits)

A minor in political science requires the completion of 15 credits of coursework in government and politics. All GVPT courses apply. It is recommended that you take GVPT 100, GVPT 101, or

GVPT 170 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Psychology

You may seek either an academic major or minor in psychology.

Major in Psychology

UMGC's bachelor's degree program in psychology will help prepare you for graduate study or a multitude of careers in the field. While acquiring a knowledge base of theory, research, and practice in psychological sciences, you'll hone your quantitative skills, written and oral communication proficiencies, analytical and scientific reasoning, and ability to analyze human behavior.

What You'll Learn

Through your coursework, you will learn how to

- Apply relevant concepts, theories, empirical findings, and historical trends to personal, organizational, and social issues
- Model scientific reasoning by designing, participating in, and evaluating psychological research
- Implement critical and creative thinking, skeptical inquiry, technology-based information literacy, and the scientific approach to solve problems related to current and emerging trends in psychology
- Use ethical principles of psychology to evaluate psychological science and practice within professional and personal settings
- Communicate ideas, concepts, arguments, and perspectives during effective interactions with diverse groups in a variety of contexts
- Analyze the complexity of human diversity and how it influences our understanding of behavior
- Apply psychology content and skills to career readiness, lifetime learning goals, and workforce contributions

Minor in Psychology

The psychology minor complements the skills you gain in your major discipline by investigating the nature of the mind and behavior, including the biological basis of behavior; perception, memory, and cognition; the influence of environmental and social forces on the individual, personality, and lifespan development and adjustment; research methods; and statistical analysis.

Courses in the Minor (15 Credits)

A minor in psychology requires the completion of 15 credits of coursework in psychology, as follows.

One of the following foundation courses (3):

- PSYC 100 Introduction to Psychology
- PSYC 300 Research Methods in Psychology
- STAT 200 Introduction to Statistics

One course from each of the following groupings:

- Biological (3): PSYC 301, PSYC 310, PSYC 341
- Social (3): PSYC 220, PSYC 251, PSYC 354
- Professional (3): PSYC 335, PSYC 353, PSYC 436

An additional PSYC course (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Public Safety Administration

You may seek either an academic major or minor in public safety administration.

Major in Public Safety Administration

The public safety administration curriculum at UMGC is designed to provide you with a foundation of knowledge and expand your understanding of the unique aspects of administration in the field of public safety. In this program, you'll study public safety's professional and legal frameworks as well as administrators' responsibilities related to risk management, mitigation, and liability. You'll also examine ethical decision-making processes and distinguish the attributes of exceptional public safety leaders.

What You'll Learn

Through your coursework, you will learn how to

- Analyze the unique aspects and best professional practices associated with the field of public safety administration within the United States
- Analyze the legal framework within the United States that outlines the obligations and limitations of public safety entities with respect to their employees, constituents, and the public at large
- Evaluate the challenges associated with the professional obligation to address concurrent public safety emergencies and the challenges associated with the development of effective corresponding mitigation plans

- Evaluate the unique ethical framework associated with the field of public safety administration and the corresponding decision-making process required of public safety professionals
- Assess the leadership attributes most commonly associated with exceptional professionals within the field of public safety administration

Minor in Public Safety Administration

The public safety administration minor complements the skills you gain in your major discipline by providing a background in the field of public safety. The minor exposes you to the principles of strategic planning, risk management, public policy, and ethics as related to public safety administration.

Courses in the Minor (15 Credits)

A minor in public safety administration requires the completion of 15 credits of coursework in public safety administration. All PSAD courses apply. It is recommended that you take PSAD 302 as your first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Small Business Management and Entrepreneurship

You may seek an academic minor in small business management and entrepreneurship.

Minor in Small Business Management and Entrepreneurship

The small business management and entrepreneurship minor complements the skills you gain in your major discipline by helping you develop your ability to start and operate a successful small business and look for opportunities to create patterns of innovation within your organization. If you are planning to start or manage a small business, such as a family-owned business, a franchise, a virtual business, or a home enterprise, you'll find this minor helpful.

Courses in the Minor (15 Credits)

A minor in small business management and entrepreneurship requires the completion of the following courses:

BMGT 304	Managing E-Commerce in Organizations (3)
BMGT 330	Entrepreneurship and New Venture Planning (3)
BMGT 335	Small Business Management (3)
BMGT 364	Management and Organization Theory (3)
FINC 328	Small Business Finance (3)

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Social Science

You may seek an academic major in social science.

Major in Social Science

In UMGC's bachelor's degree program in social science, you'll gain a breadth of knowledge through interdisciplinary study that encompasses perspectives from the fields of anthropology, behavioral sciences, gerontology, psychology, and sociology. You'll also have the opportunity to drill down and focus closely on one of these fields.

What You'll Learn

Through your coursework, you will learn how to

- Analyze how quantitative and qualitative methods are used in social science research
- Communicate social science concepts and research findings effectively to a variety of audiences
- Examine how micro- and macro-level factors are linked in the social lives of individuals, communities, and societies
- Analyze complex social issues using theoretical approaches, critical-thinking skills, information literacy, technology, or interdisciplinary perspectives
- Evaluate social science research using ethical principles and standards for professional conduct
- Apply concepts of diversity, social factors, and global multicultural perspectives to examine practical problems in the workplace and society

Accelerated Pathway

If you complete your undergraduate degree at UMGC with a major in social science, an accelerated pathway between UMGC's undergraduate and graduate programs allows you to reduce your total coursework for the Master of Arts in Teaching by 12 credits (three courses, including the noncredit introductory course UCSP 615). Details are on p. 20.

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BS IN SOCIAL SCIENCE

	Credits
Required Major Core Courses	27
Required Major Capstone Course	3
Required Related Course	3
Remaining General Education, Minor, and Elective Courses	87
Total	120

Major Requirements

To complete a major in social science, you must take a total of 33 credits in required coursework, as follows:

REQUIRED MAJOR CORE COURSES (30 CREDITS)

Two of the following introductory (100-level) social science courses (6):

ANTH 102	Introduction to Cultural Anthropology
GERO 100	Contemporary Issues in Aging
PSYC 100	Introduction to Psychology
SOCY 100	Introduction to Sociology

The following courses:

BEHS 210	Introduction to Social Sciences (3)
BEHS 300	Research Methods in Social Sciences (3)

One of the following courses (3):

BEHS 220	Diversity Awareness
BEHS 250	Social Justice Movements

Four upper-level ANTH, BEHS, GERO, PSYC, and SOCY courses (12)—Focused study in anthropology, gerontology, psychology, or sociology is recommended, as follows:

Anthropology

ANTH 345	World Prehistory and Archaeology
ANTH 346	Anthropology of Language and Communication
ANTH 350	Health, Illness, and Healing
ANTH 351	Anthropology in Forensic Investigations

Gerontology

GERO 302	Health and Aging
GERO 311	Gender and Aging
GERO 427	Culture and Aging
GERO 320	Psychosocial Aspects of Aging

Psychology

PSYC 338	Psychology of Gender
PSYC 354	Cross-Cultural Psychology
PSYC 386	Psychology of Stress
PSYC 437	Positive Psychology

Sociology

SOCY 313	The Individual and Society
SOCY 325	The Sociology of Gender
SOCY 423	Race and Ethnicity: A Global Perspective
SOCY 350	Contemporary Social Problems

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

BEHS 495	Social Sciences Capstone (3)
----------	------------------------------

REQUIRED RELATED COURSE (3 CREDITS)

The following required course may be applied to general education requirements:

STAT 200	Introduction to Statistics (3)
----------	--------------------------------

Course Sequencing

The following table is designed to provide an optimal order for taking both required and recommended general education, major, and elective courses for this program. Your plan will be unique to you, based on your previous education. Contact an advisor if you have any questions about your academic advisement report.

Major core, capstone, and related requirements are listed in **bold**.

Sociology

You may seek an academic minor in sociology.

Minor in Sociology

The sociology minor complements the skills you gain in your major discipline by providing a study of contemporary sociological theory and research and applying it to social issues, including globalization, social inequality, diversity, healthcare, education, family, work, and religion.

Courses in the Minor (15 Credits)

A minor in sociology requires the completion of 15 credits of coursework in sociology. All SOCY courses apply. It is recommended that you take SOCY 100 as the first course in the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Speech Communication

You may seek an academic minor in speech communication if you are not completing a major in communication studies.

Minor in Speech Communication

The minor in speech communication complements the skills you gain in your major discipline by helping you develop communication skills, particularly oral communication, as well as providing a greater understanding of human interaction in a variety of personal and professional contexts.

Courses in the Minor (15 Credits)

A minor in speech communication requires the completion of 15 credits of coursework in speech communication. All SPCH and COMM courses apply, but at least 9 credits must be earned in SPCH courses. It is recommended that you take COMM 300 and SPCH 100 as the first courses for the minor (if you have not already applied the courses toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Terrorism and Critical Infrastructure

You may seek an academic minor in terrorism and critical infrastructure.

Minor in Terrorism and Critical Infrastructure

The terrorism and critical infrastructure minor complements the knowledge and skills you develop in your major discipline by offering you an understanding of the principal components of protecting both public and private critical infrastructure from acts of terrorism.

Courses in the Minor (15 Credits)

A minor in terrorism and critical infrastructure requires the completion of 15 credits of coursework focusing on terrorism and critical infrastructure, chosen from the following courses:

CCJS 341	Criminal Investigation
CCJS 390	Cybercrime and Security
GVPT 406	Global Terrorism
GVPT 407	State Terrorism
GVPT 408	Counterterrorism
GVPT 409	Terrorism, Antiterrorism, and Homeland Security
HIST 392	History of the Contemporary Middle East
HMLS 302	Introduction to Homeland Security
HMLS 406	Legal and Political Issues of Homeland Security
HMLS 408	Infrastructure in Homeland Security

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

BACHELOR'S DEGREE PROGRAMS

CURRICULA

Web and Digital Design

You may seek either an academic major or minor in web and digital design.

Major in Web and Digital Design

You can follow your interests and prepare for a career in digital design with UMGC's bachelor's degree program in web and digital design, which allows you to explore design using various digital media and web technologies. In this major, you'll learn how to create digital works using industry-standard software and incorporating design theory and efficient workflows. Through your coursework, you can gain hands-on experience in web design, virtual reality, augmented reality, electronic publishing, motion graphics, multimedia, animation, and graphic design.

What You'll Learn

Through your coursework, you will learn how to

- Create digital products, such as graphics, interactive digital media, and web applications, that utilize current or emerging technologies to meet customer requirements and usability standards
- Apply sound business principles and project management techniques to manage a digital media or web design project from conceptualization to deployment
- Utilize scripting and programming languages to develop interactive digital media or web applications that meet technical specifications and quality standards
- Assess the cultural, ethical, and legal implications of producing and distributing interactive digital media, products, or platforms
- Communicate clearly and effectively with diverse stakeholders about technology and digital media

Related Certificate Program

Depending on your choice of electives, you may be able to earn a related certificate within your program. Contact your academic advisor for more information.

Degree Requirements

See pp. 73–76 for information on major, general education, and minor and elective requirements, as well as overall requirements for completing a bachelor's degree.

BS WEB AND DIGITAL DESIGN

	Credits
General Education Courses	41
Required Major Core Courses	27
Required Major Capstone Course	3
Minor and Elective Courses	49
Total	120

Major Requirements

To complete a major in web and digital design, you must take a total of 30 credits in required coursework, as follows:

REQUIRED MAJOR CORE COURSES (27 CREDITS)

- CMST 290 Introduction to Interactive Design (3)
- CMST 295 Fundamentals of Digital Design (3)

Any upper-level CMST courses (21)—Focused study in web design, digital design, or augmented/virtual reality is recommended, as follows:

Web Design

- CMST 385 Principles of Web Design and Technology I
- CMST 386 Principles of Web Design and Technology II
- CMST 325 Image Editing
- CMST 355 Content Management Systems
- CMST 387 Principles of Web Design and Technology III
- CMST 388 Fundamentals of JavaScript
- CMST 488 Advanced JavaScript

Digital Design

- CMST 310 Fundamentals of Electronic Publishing
- CMST 311 Advanced Electronic Publishing
- CMST 325 Image Editing
- CMST 320 Illustration Graphics
- CMST 425 Advanced Image Editing
- CMST 341 Principles of Multimedia I
- CMST 351 Motion Graphics I

Augmented/Virtual Reality

- CMST 308 User Experience and Interface Design
- CMST 315 Game Design I
- CMST 330 Virtual Reality Design I
- CMST 331 Augmented Reality Design I
- CMST 390 3D Modeling
- CMST 490 Virtual World Building

REQUIRED MAJOR CAPSTONE COURSE (3 CREDITS)

CMST 495 Web and Digital Design Capstone (3)

Honor Society

Information on eligibility for membership in the UMGC chapter of Upsilon Pi Epsilon, the international honor society for the computing and information disciplines, is available on p. 351.

Technology Requirements

Courses in the web and digital design program may have computing needs beyond the minimum technology requirements found on p. 26. Review the course descriptions to determine the technology requirements for the classes in which you are enrolling.

Minor in Web and Digital Design

The web and digital design minor complements the skills you gain in your major discipline by providing a study of the principles, best practices, and technologies that govern the design of digital media.

Courses in the Minor (15 Credits)

A minor in web and digital design requires the completion of 15 credits of coursework in computer studies. You must complete either CMST 290 or CMST 295. The remaining credits may be chosen from any CMST courses.

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

Technology requirements are the same as for the major (see above). For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

Women, Gender, and Sexuality Studies

You may seek an academic minor in women, gender, and sexuality studies.

Minor in Women, Gender, and Sexuality Studies

The women, gender, and sexuality studies minor complements the skills you gain in your major discipline by providing an interdisciplinary study of the history, status, and experiences of women.

Courses in the Minor (15 Credits)

A minor in women, gender, and sexuality studies requires the completion of 15 credits of coursework in women, gender, and sexuality studies, chosen from the following courses:

Any WMST courses

BEHS 220	Diversity Awareness
BEHS 250	Social Justice Movements
BEHS 343	Parenting Today
BEHS 453	Domestic Violence
ENGL 250	Introduction to Women's Literature
GERO 311	Gender and Aging
HIST 377	U.S. Women's History: 1870 to 2000
PSYC 332	Psychology of Human Sexuality
PSYC 338	Psychology of Gender
SOCY 325	The Sociology of Gender
SOCY 443	Sociology of the Family
SOCY 462	Women in the Military
SPCH 324	Communication and Gender

It is recommended that you take WMST 200 as the first course for the minor (if you have not already applied the course toward other degree requirements).

Courses already applied toward other degree requirements (e.g., major or general education) may not be applied toward the minor. At least 9 credits must be earned in upper-level courses (numbered 300 or above). Prerequisites apply for all courses.

For a listing of all the requirements for the bachelor's degree, refer to your major and pp. 73–76.

MASTER'S DEGREE PROGRAMS

DEGREE REQUIREMENTS

At the master's degree level, UMGC Asia offers the Master of Business Administration (MBA) and Master of Science in Transformational Leadership (MSTL).

Expectations

Each UMGC master's degree incorporates program-specific and core competencies. The following essential core competencies are emphasized across all programs:

- Effective writing and oral communication
- Teamwork/collaboration/leadership
- Quantitative reasoning
- Critical analysis, critical thinking, and problem solving

UMGC conducts learning outcomes assessments to measure and improve your learning in these areas as well as in specific disciplinary knowledge and skills.

Requirements

Continuous Enrollment

In general, the UMGC degree requirements that apply to you are those that were in effect when you completed the first credit-bearing course in a given program at UMGC. If you cease to be continuously enrolled, the program requirements that apply to you are those in effect at UMGC when you return to UMGC and enroll in a credit-bearing course for the program you wish to pursue at that time.

At present, to be considered continuously enrolled, you must have had no more than two sequential years of nonenrollment. After two years of nonenrollment, you must reapply for admission to resume enrollment. The existing rules and standards for continuous enrollment are subject to change.

If you change your degree program while continuously enrolled, then the program requirements that apply to you are those in effect at the time you enroll in the first required course for the new program. Previously completed coursework may not apply to the new requirements.

Information about the catalog year that applies to you is provided in the MyUMGC student portal.

The following requirements for the master's degree are applicable to students who begin continuous enrollment on or after August 1, 2024.

Overall Requirements

More is expected at the graduate level than what is normally required at the undergraduate level. In addition, you usually must complete special requirements at the end of your graduate program. UMGC's master's degree programs require you to complete an integrative end-of-program capstone course in which you must demonstrate mastery of content covered throughout the program.

All master's degrees require completion of at least 30 credits, with specific requirements listed on the following pages. Information on the requirements for maintaining good academic standing may be found on p. 36.

Initial Requirement

There is no initial requirement for the MBA. The MSTL requires that DCL 600M be taken as a first foundation course.

Time Limits

All requirements established for the completion of a master's degree listed in this publication must be fulfilled within five consecutive years. The time limit is calculated from the term in which you successfully complete the first credit course that applies to the program. It does not include the introductory course DCL 600M, but does include courses transferred from other institutions and courses transferred from UMGC undergraduate programs as part of an accelerated pathway.

Second Master's Degree

If you have earned a master's degree from UMGC and want to pursue an additional master's degree at UMGC, you must complete at least 30 credits of new coursework to be eligible, unless an approved dual master's degree program exists. No substitutions to the program are available. If the coursework required for one degree program significantly overlaps with coursework for another degree program, it may not be possible for you to earn both degrees. In such cases, you will need to choose an alternate program if you wish to complete another credential at UMGC.

Before beginning work toward or registering for a second master's degree, consult an advisor. Advisors can explain the requirements and restrictions on combinations.

Note: Not all programs and courses are offered on-site. Check the Schedule of Classes for offerings at asia.umgc.edu/schedule.

MASTER'S DEGREE PROGRAMS

CURRICULA

Business Administration

You may earn a Master of Business Administration.

Master of Business Administration

The MBA program can help you gain the skills and abilities desired by today's employers and learn how to strategically manage an organization for growth and success. In this program, you can develop and advance your competencies in finance, marketing, human resources, strategy, and leadership. You'll be able to apply your learning from multiple disciplines and specializations to real-life business problems.

What You'll Learn

Through your coursework, you'll learn how to

- Apply knowledge of business administration and management by integrating and applying principles from key functional disciplines of business
- Exemplify ethical leadership by making ethical business decisions while demonstrating leadership skills, teamwork, and a commitment to diversity, equity, and inclusion
- Create business strategy by conducting research, analyzing and interpreting findings, and implementing a business plan
- Engage in innovative and critical thinking by generating and evaluating entrepreneurial ideas and formulating, evaluating, and implementing business solutions
- Make decisions and solve problems in a global context by framing business decisions in the context of a global environment
- Transform data into insights by using data analytics and technological approaches to analyze information and make evidence-based decisions
- Formulate and deliver communications by communicating effectively in a variety of settings to diverse stakeholders

Related Certificate Program

While you are pursuing the MBA, you may not pursue a certificate at the same time.

FIN 630	Investment Valuation
FIN 640	International Financial Management
FIN 645	Behavioral Finance
FIN 660	Strategic Financial Management

Human Resource Management Specialization

HRMD 610 Issues and Practices in Human Resource Management

Take two of the following 3-credit courses:

HRMD 620 Employee and Labor Relations
HRMD 630 Recruitment and Selection
HRMD 640 Job Analysis, Assessment, and Compensation
HRMD 651 Current Perspectives in Training and Development
HRMD 665 Managing Virtual and Global Teams

Global Business Specialization

MRKT 605 International Marketing Management
FIN 640 International Financial Management
HRMD 665 Managing Virtual and Global Teams

Nonprofit Management Specialization

NPMN 601 Fundamentals of Nonprofit Management
NPMN 604 Strategic Leadership and Management in Nonprofit Organizations

Take one of the following 3-credit courses:

NPMN 602 Fundraising and Integrated Marketing Communication in Nonprofits
NPMN 603 Grants and Financial Management in Nonprofits

General Management Specialization

Take three 3-credit courses from those listed under any elective specialization.

Dual Degree Option

If you complete the MBA program, you may then participate in a dual degree option that allows you to complete the MS in Management with a concentration in project management for 24 credits. More information on dual degree programs is available on p. 22.

Program Accreditation

UMGC has received specialized accreditation for its MBA program through the International Accreditation Council for Business Education (IACBE), located at 11960 Quivira Road in Overland Park, Kansas, USA. IACBE is a specialized accrediting agency recognized by the Council for Higher Education Accreditation.

Transformational Leadership

You may earn a Master of Science in Transformational Leadership.

Master of Science in Transformational Leadership

The Master of Science in Transformational Leadership has program-specific admission requirements (listed on p. 10) that you must meet before enrolling in any program courses.

The Master of Science in Transformational Leadership program is designed for students with military experience who want to build on and maximize their leadership training and skills to prepare them to transition to corporate, nonprofit, or government organizations. Each course offers you practical experience by using workplace scenarios to apply your strategic-thinking and decision-making skills in both group and individual activities with civilian organizations. You “learn by doing” and graduate better prepared for workplace opportunities. The program provides hands-on experience with transformational leadership strategies and techniques that will enable you to effect change at the individual, group, and organizational levels and prepare you for positions in civilian organizations. You’ll utilize theories and concepts in leadership in a civilian context, focusing on the dynamics of leadership and building skills in communication, strategic planning and management, team building, conflict resolution and mediation, fiscal and performance-based decision-making, change management, project management, and organizational learning.

What You’ll Learn

Through your coursework, you will learn how to

- Analyze your strengths and weaknesses as a leader and leverage them to accomplish strategic goals
- Manage civilian employees and help them perform at higher levels
- Analyze the performance of an organization through metrics and formulate strategies to improve that performance
- Manage change in the organization’s environment
- Collaborate with an organization to address an internal business challenge

Preparation Recommended for Success

You are expected to have leadership experience from serving as an officer (noncommissioned or commissioned) in the U.S. Armed Forces.

TLP 670 Leadership Capstone (6)

COURSE SEQUENCING

Courses must be taken in the order listed.

Criteria for Program Progression

You must complete each course with a grade of B or better to advance to the next course. The grade of C is not available for these courses. Your course syllabus will explain options for and consequences of requesting an Incomplete.

COURSE INFORMATION

Course Numbering System

The following entries describe courses offered through University of Maryland Global Campus. Requirements pertain only to degrees conferred at UMGC. To determine how these courses may transfer and be applied toward degrees offered by other institutions, you should consult those institutions. Transferability is determined by the receiving institution. In transferring to UMGC—particularly from a community college—you should be careful not to enroll in courses that duplicate your previous studies.

Courses are arranged alphabetically by academic discipline or subject. The number of credits is shown by an Arabic numeral in parentheses—e.g., (3)—after the title of the course.

Course numbers are designated as follows:

000–099	Noncredit and institutional credit courses (which do not count toward any degree or certificate)
100–199	Primarily freshman-level courses
200–299	Primarily sophomore-level courses
300–399	Upper-level, primarily junior-level courses
400–499	Upper-level, primarily senior-level courses
500–599	Senior-level courses acceptable for credit toward some graduate degrees
600–898	Graduate-level credit
899	Continuing doctoral thesis credit

Unit of Credit

The unit of credit defines the amount of university-level credit to be awarded for course completion, transfer of coursework from another institution, or evaluation of college-level prior learning. One credit is awarded on the basis of one of the following, according to the Title 13B of the Code of Maryland Regulations of the Maryland Higher Education Commission:

- At least 15 hours (50 minutes each) of actual class meeting or the equivalent in guided learning activity (exclusive of registration, study days, and holidays)
- At least 30 hours (50 minutes each) of supervised laboratory or studio work (exclusive of registration, study days, and holidays)
- At least 45 hours (50 minutes each) of instructional situations, such as practica, internships, and cooperative education placements, when supervision is ensured and learning is documented
- Instruction delivered by electronic media based on the equivalent outcomes in student learning, including tele-lessons, classroom instruction, student consultation with instructors, and readings, when supervision is ensured and learning is documented

COURSE INFORMATION

Prerequisites

Prerequisites, normally stated in terms of numbered courses, represent the level of knowledge you are expected to have before enrolling in a given course. You may be barred from enrolling in or may be removed from courses for which you do not have the necessary prerequisites. Courses listed as corequisite are required and should be taken at the same time as the course described. Taking courses listed as recommended is advisable but not absolutely required.

It is your responsibility to check the prerequisites listed in the course description and make certain that you are academically prepared to take a course. If you did not take the prerequisite course recently, you should consult an advisor or the academic department about whether you are sufficiently prepared to perform well in a given course. Faculty members are not expected to repeat material listed as being prerequisite.

For undergraduate courses, prerequisites may also be fulfilled by Prior Learning credit for the appropriate course, earned through course challenge assessments or portfolio assessments (described on pp. 17–18). Advisors can explain the procedures for seeking this credit. Some courses are not eligible for challenge examination or portfolio assessment, and you may not take course challenge assessments or seek Portfolio Assessment credit for lower-level courses that are prerequisite to courses for which you have already received credit.

WRWG 112 Academic Writing II is prerequisite to any higher-level course in English, communication studies, and writing, as well as many other advanced courses. MATH 107 College Algebra is prerequisite to any higher-level course in mathematics. Many other prerequisites for advanced courses may be found in the course descriptions.

Placement tests are not required for introductory writing (English composition) or mathematics courses (e.g., MATH 105, MATH 107, MATH 115, or STAT 200), nor do these courses require completion of prerequisite coursework. If you have prior experience in a foreign language, you should take a placement test to assess appropriate level. For information on language placement tests, email the department at languages@umgc.edu.

Key to Course Descriptions

Subject	Course Number	Title	Number of Credits
PSYC	335	Theories of Personality	(3)

(Formerly PSYC 435.)¹ Prerequisite: PSYC 100.² Recommended: PSYC 300. A study of major theories and perspectives on personality. The goal is to explain and evaluate major concepts in personality. Topics include trait, psychodynamic, behavioral, and humanistic theories. Methods of personality research and relevant findings are also introduced.³ Students may receive credit for only one of the following courses: PSYC 335 or PSYC 435.⁴

1. Explanatory information, if needed, may
 - Explain course sequence, purpose, or audience.
 - Identify courses fulfilling general education requirements (listed on pp. 1741876).
 - Identify courses requiring a special fee, equipment, or materials.
 - Identify courses that lead to certification, badging, or other professional credential.
2. Prerequisites represent the level of knowledge a student should have acquired before enrolling in this course. A prerequisite is usually stated as a specific numbered course; sometimes the prerequisite calls for a specific course, number of credits, "or equivalent experience."
3. The course description describes the focus and learning objectives of the course.
4. Statements beginning "Students may receive credit for only one of the following courses" are designed to avoid course duplication and, therefore, loss of credit. The courses listed are courses that duplicate or significantly overlap content. If a course in the list is not described elsewhere in the catalog, that means that the course has changed designator or number over the years or that the course is not offered at all UMGC locations.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

Accounting

ACCT 220 Principles of Accounting I (3)

An introduction to the basic theory and techniques of contemporary financial accounting. The objective is to identify the fundamental principles of accounting, identify and analyze business transactions, prepare financial statements, and communicate this information to users with different needs. Topics include the accounting cycle, transactions, and the preparation of financial statements for single-owner business organizations that operate as service companies or merchandisers. Students may receive credit for only one of the following courses: ACCT 220 or BMGT 220.

ACCT 221 Principles of Accounting II (3)

Prerequisite: ACCT 220. Further study of contemporary accounting practices, with an emphasis on data analysis for financial and managerial accounting. The goal is to analyze business transactions, define the characteristics of business entities, explain the interdependency of financial statements, employ managerial accounting techniques, and communicate this information to users with unique needs. Financial accounting topics include liabilities, equities, investments, and business entities. Managerial accounting topics include job order and process costing, cost-volume-profit analysis, and budgets. Students may receive credit for only one of the following courses: ACCT 221 or BMGT 221.

ACCT 301 Accounting for Nonaccounting Managers (3)

(May not be applied toward a major in accounting.) A survey of accounting principles relevant to making business decisions based on financial information. The aim is to apply critical-thinking skills and ethical principles to accounting issues. Topics include internal controls, financial reporting, financial statements analysis, managerial accounting, and budgeting elements. Students may receive credit for only one of the following courses: ACCT 301, MGMT 301, or MGST 301.

ACCT 310 Intermediate Accounting I (3)

(Students should be cautious about enrolling in ACCT 310 or ACCT 311. These are professional courses requiring intensive study and analysis and are not to be undertaken casually. Students who have not taken ACCT 221 within the last two years may have difficulty.) Prerequisite: ACCT 221. A comprehensive analysis of financial accounting topics related to preparing financial statements for external reporting. The objective is to analyze complex business transactions and their impact on financial statements. Focus is on researching and analyzing emerging issues in accounting, business transactions, and financing issues. Students may receive credit for only one of the following courses: ACCT 310 or BMGT 310.

ACCT 311 Intermediate Accounting II (3)

(A continuation of ACCT 310. Students should be cautious about enrolling in ACCT 310 or ACCT 311. These are professional courses requiring intensive study and analysis and are not to be undertaken casually. Students who have not taken ACCT 310 within the last two years may have difficulty.) Prerequisite: ACCT 310. A comprehensive analysis of financial accounting topics, including preparation of financial statements and external reports. The aim is to analyze complex business transactions and their impact on financial statements. Focus is on researching and analyzing emerging issues in accounting, business transactions, and financing. Students may receive credit for only one of the following courses: ACCT 311 or BMGT 311.

ACCT 320 Fraud Detection and Deterrence (3)

Prerequisite: ACCT 220 or ACCT 301. A study of the principles behind and standards for examining, identifying, detecting, and deterring fraud. The objective is to differentiate types of fraud, assess organizational characteristics conducive to fraud, and develop a plan to detect and deter fraud. Topics include the fraud triangle, cash larceny, check tampering, skimming, register disbursement schemes, cash receipts schemes, billing schemes, payroll and expense reimbursement issues, asset misappropriations, corruption, accounting principles and fraud, fraudulent financial statements, whistleblowing, interviewing witnesses, and writing reports. Focus is on creating and communicating meaningful data visualization communications for stakeholders.

ACCT 321 Cost Accounting Data Analytics (3)

Prerequisite: ACCT 221. A study of basic cost accounting concepts. The goal is to apply basic cost accounting concepts, use technology to prepare financial deliverables, evaluate business and financial data, and communicate financial information. Topics include ethics, corporate social responsibility, and the evaluation of business and financial data to make profit-maximizing decisions. Discussion also covers the role of accountants in decision-making; cost behavior; cost planning and control; and costing methods, such as standard costing, budgeting, and inventory valuation. Focus is on using data analytics and creating and communicating meaningful data visualizations for decision-making.

ACCT 323 Federal Income Tax I (3)

Prerequisite: ACCT 220 or FINC 321. A study of data and processes related to the preparation of federal income tax for individuals and other entities. The objective is to explain the legislative process, conduct tax research, evaluate tax implications, and complete an individual tax return. Topics include the legislative process, tax policy, research, and the evaluation of transactions and decisions for planning and compliance. Emphasis is on ethics and professional responsibilities.

ACCT 326 Accounting Information Systems (3)

Prerequisite: ACCT 221. An introduction to accounting information systems (AIS) concepts. The objective is to evaluate how AIS tools are used to record, process, and analyze financial data; determine how best to integrate AIS tools and processes in a given organization; review and recommend controls to secure AIS applications and processes; and evaluate how technology can be used in AIS applications. Topics include transactional processing concepts and core AIS transactional cycles, basic control frameworks used to secure AIS applications and processes, strategies for implementing or upgrading AIS applications, information technology and accounting standards, and e-commerce and e-business. Students may receive credit for only one of the following courses: ACCT 326, BMGT 320, or BMGT 326.

ACCT 350 Federal Financial Management (3)

Prerequisite: ACCT 220 or ACCT 301. Analysis and discussion of issues relating to federal financial management. The objective is to apply knowledge of the federal process to accounting practice, administer federal grants and contracts, and research federal laws and regulations. Topics include the CFO Act, the federal budget, federal contracts and grants, data visualization presentations, and federal financial and information systems. Discussion also covers detection and deterrence of fraud, waste, and abuse.

ACCT 410 Accounting for Government and Not-for-Profit Organizations (3)

Prerequisite: ACCT 310. An introduction to the theory and practice of accounting as applied to governmental entities and not-for-profit organizations. The objective is to evaluate transactions, prepare and analyze financial statements, write financial briefings, prepare data visualization presentations, and apply accounting rules and procedures. Topics include the evaluation and preparation of reports required for governmental and not-for-profit entities. Students may receive credit for only one of the following courses: ACCT 410 or BMGT 410.

ACCT 411 Ethics and Professionalism in Accounting (3)

Prerequisite: ACCT 311. An examination of ethical behavior in organizations and for the accounting and auditing professions. The goal is to identify ethical dilemmas, research regulations, and apply problem-solving methodology to resolve unethical situations. Discussion covers the AICPA Code of Professional Conduct and the ethical codes and requirements of other standard-setting organizations. Corporate governance, sustainability, and legal and regulatory obligations are explored within an ethical framework, including philosophical models and ethical theories, as well as within environmental, social, and governance (ESG) criteria.

ACCT 417 Federal Income Tax II (3)

(Strongly recommended for students seeking careers as CPAs.) Prerequisites: ACCT 311 and ACCT 323. Continuing study of federal income taxation as applied to different business entities, including corporations, flow-through entities, estates, and trusts. The aim is to analyze tax planning and compliance issues; conduct tax research; and analyze, evaluate, and communicate tax implications and data. Discussion covers tax research, planning, procedure, compliance, ethics, and professional responsibility. Topics also include the tax implications of various entities' financial and business decisions and transactions. Students may receive credit for only one of the following courses: ACCT 417 or BMGT 417.

ACCT 422 Auditing Theory and Practice (3)

Prerequisite: ACCT 311. A study of the auditing profession, audit process, and other assurance and nonassurance services related to the CPA profession. The objective is to design an audit plan, apply audit procedures, evaluate audit findings, and assess the impact of standards and emerging issues. Topics include generally accepted auditing standards, tests of controls and substantive tests, statistical sampling, data analytics, report forms, and opinions. Various techniques are used to study auditing concepts and practices; these may include the use of problem sets, case studies, computer applications, and other materials. Students may receive credit for only one of the following courses: ACCT 422 or BMGT 422.

ACCT 425 International Accounting (3)

Prerequisite: ACCT 311. A study of accounting in a multinational context covering historical developments and international financial reporting standards. The objective is to recognize the influence of politics and culture on the development of accounting systems, prepare financial statements according to international financial reporting standards, and analyze the financial statements of a multinational enterprise. Strategies to manage and hedge against foreign currency exposure are developed. Topics include sustainability, foreign exchange and taxation, inter-company transfer pricing, data analytics, and emerging issues in international accounting. Students may receive credit for only one of the following courses: ACCT 425 or ACCT 498A.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

ACCT 436 Internal Auditing (3)

(Designed to align with the standards of the Institute of Internal Auditors and help prepare for the Certified Internal Auditor examination.) Prerequisite: ACCT 311. An exploration of the consultative role in the management of risk. The aim is to identify the standards that apply to internal auditors, audit processes, and procedures and to assess internal control deficiencies. Topics include internal auditing standards, scope, responsibilities, ethics, controls, techniques, and reporting practices. Data analytics and practice involve the use of software such as Excel, Power BI, Tableau, ACL, and IDEA. Students may receive credit for only one of the following courses: ACCT 436, ACCT 498E, or BMGT 498E.

ACCT 438 Fraud and Forensic Accounting (3)

Prerequisite: ACCT 311. An analysis and discussion of issues relating to fraud and forensic accounting. The objective is to identify the resources for detecting fraud, evaluate the conditions that encourage fraud, and design effective fraud detection and deterrence plans. Discussion covers the principles and standards for proactive and reactive investigation, as well as detection and control of fraud. Focus is on using data analytics and creating and communicating meaningful data visualizations for stakeholders from the perspective of public, internal, and private accountants.

ACCT 440 Forensic and Investigative Accounting (3)

Prerequisite: ACCT 320 or ACCT 438. An analysis and discussion of issues relating to forensic and investigative accounting. The goal is to research and describe the use of forensic accounting evidence, identify the role of the forensic accountant, apply investigative and forensic accounting practices, and present forensic accounting evidence as an expert witness. Forensic and investigative methods, including the use of data analytics, auditing, and technology, are demonstrated. Topics include criminal and civil litigation support, rules of evidence, and accreditation of expert witnesses.

ACCT 452 Federal Auditing (3)

Prerequisite: ACCT 221. An overview of the federal auditing life cycle. The objective is to plan, manage, and execute a federal audit; identify and evaluate the program and financial risks; and identify and recommend enhancements to operations and technology. Topics include federal audits; data visualization; communicating audit findings to stakeholders; providing advisory support; evaluating program and financial risks; managing technology; increasing economy and efficiency; and minimizing fraud, waste, and abuse. Discussions also cover the auditing of grants and contracts.

ACCT 486A Workplace Learning in Accounting (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

ACCT 486B Workplace Learning in Accounting (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

ACCT 496 Advanced Accounting Capstone (3)

(Formerly ACCT 424.) Prerequisite: ACCT 311. A study of advanced accounting theory, applied to specialized topics and contemporary problems. The aim is to prepare, present, and explain financial statements in five sectors—consolidated, international, partnership, not-for-profit, and state and local governments—and analyze a firm's dissolution or reorganization. Emphasis is on consolidated statements and partnership accounting. Various techniques are used to study accounting theory and practice; these may include the use of data analytics, problem sets, case studies, computer applications, and other materials. Students may receive credit for only one of the following courses: ACCT 424, ACCT 496, or BMGT 424.

African American Studies

AASP 201 Introduction to African American Studies (3)

(Fulfills the general education requirement in behavioral and social sciences.) An interdisciplinary study of significant aspects of African American history and culture, emphasizing the development of African American communities from the Middle Passage to the present. The objective is to conduct research, apply critical-thinking skills, and articulate diverse historical perspectives in the context of African American history and culture. Topics include definitions of African American identity, influences, and achievements within American culture, as well as issues confronting African Americans. Students may receive credit for only one of the following courses: AASP 100 or AASP 201.

Anthropology

ANTH 101 Introduction to Biological Anthropology (3)

A survey of general patterns in the development of human culture, addressing the biological and morphological aspects of humans viewed in their cultural setting. The aim is to apply anthropological knowledge to understanding human origins and how human populations adapt to the environment. Discussion examines human evolution and adaptation, including biocultural patterns in humans and other primates. Students who complete both ANTH 101 and ANTH 102 may not receive credit for ANTH 340, BEHS 340, or BEHS 341.

ANTH 102 Introduction to Cultural Anthropology (3)

A survey of social and cultural principles inherent in ethnographic descriptions. The objective is to apply anthropological knowledge of human behavior to everyday situations and problems. Students who complete both ANTH 101 and ANTH 102 may not receive credit for ANTH 340, BEHS 340, or BEHS 341.

ANTH 298 Special Topics in Anthropology (1–3)

A presentation of anthropological perspectives on selected topics of broad general interest. May be repeated to a maximum of 6 credits when topics differ.

ANTH 345 World Prehistory and Archaeology (3)

An intermediate-level exploration of world prehistory and archaeology. The goal is to analyze the cultural, technological, and subsistence patterns of prehistoric humans and relate these patterns to contemporary human societies and populations. Discussion covers archaeological theories and methods; subsistence strategies; and the applications of archaeological knowledge to modern community, regional, and global issues.

ANTH 346 Anthropology of Language and Communication (3)

An intermediate-level anthropological study of language, communication, and culture. The aim is to understand language in a cultural context; assess how the concepts, approaches, and methods of linguistic anthropology explain communication in changing cultural environments; and recognize how language both shapes and is shaped by culture. Topics include the origin of human language, linguistic diversity, structural elements of verbal and nonverbal language, language as social action, research in anthropological linguistics, language and power hierarchies, gendered communications, and linguistic diversity in the contemporary world.

ANTH 350 Health, Illness, and Healing (3)

An overview of health, illness, and healing from a cross-cultural perspective. The objective is to apply the perspectives of medical anthropology to promote individual and public health in local, national, and global contexts. Topics include cultural and social influences on health and healing, the experience and meaning of illness, and current issues in public and global health.

ANTH 351 Anthropology in Forensic Investigations (3)

An overview of forensic anthropology, an applied field of anthropology that seeks to recover, identify, and evaluate human skeletal remains within a medico-legal context. The aim is to explore the processes and methods used by forensic anthropologists to identify a cause and manner of death and determine an approximate postmortem interval. Topics include the forensic context, the human skeletal system, methods of identification, cause and manner of death, assessment of trauma, and analysis of evidence to draw conclusions about a case.

ANTH 398 Intermediate Special Topics in Anthropology (1–3)

A presentation of anthropological perspectives on selected topics of broad general interest. May be repeated to a maximum of 6 credits when topics differ.

ANTH 417 Peoples and Cultures of East Asia (3)

An advanced anthropological study of the peoples and cultures of East Asia, focusing on China, Japan, and Korea. Anthropological theories and methods are used to understand the social changes brought about by rapid modernization. Topics include family structure and its importance to individual choice and the larger society, the evolution of belief systems, changing gender roles, problems of aging and demographically declining societies, and the recent global influence of East Asian popular culture.

Applied Technology

APTC 495 Applied Technology Capstone (3)

Prerequisites: 27 credits of major coursework. The culminating experience for the applied technology major. A project-based application of computing knowledge and skills to solve problems. Focus is on researching, planning, and implementing a computing-based solution to an approved business and disciplinary-based problem outside the primary area of technology or computing focus. Assignments include working in teams through the planning, analysis, design, implementation, testing, and documentation phases. A presentation of the applied solutions constitutes a final learning demonstration.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

Art

ARTT 110 Introduction to Drawing (3)

A hands-on introduction to various drawing media and related techniques. The objective is to translate the three-dimensional world into two dimensions, communicate through a visual medium, and critique visual works of art. Projects are based on nature and still life.

ARTT 120 Design I: Arrangement and Color (3)

Prerequisite: GRCO 100. A project-driven study of the design elements of a composition as they relate to its overall expression. The aim is to apply elements and principles of design, including color theory, to create a variety of compositions that effectively communicate ideas and emotions.

ARTT 152 Basics of Photography (3)

Access to a digital camera with manual settings required. An introduction to basic photographic procedures with an emphasis on composing, taking, and editing photographs. Discussion covers the historical development of photography. Students may receive credit for only one of the following courses: ARTT 152 or PHOT 198.

ARTT 210 Intermediate Drawing (3)

Prerequisite: ARTT 110. A continuing examination of materials and techniques of drawing. The objective is to apply drawing techniques and visual principles to various subjects, communicate through drawing, and critique works of art. More advanced media, compositions, techniques, and subjects are explored. Students may receive credit for only one of the following courses: ARTS 210 or ARTT 210.

ARTT 320 Painting (3)

Prerequisite: ARTT 110. Practice in the basic tools and vocabulary of painting. The goal is to apply an understanding of compositional strategies, visual principles, and basic materials and techniques to produce paintings using oil/watercolor/acrylic paints.

ARTT 428 Advanced Painting (3)

Prerequisite: ARTT 320. Creation of original compositions based on the figure, nature, and still life, as well as expressive painting. The goal is to paint in a variety of styles and techniques, work with more complex forms (including drapery, transparency, and reflections), and work in landscape and/or figure in space painting. Emphasis is on the development of personal directions. May be repeated to a maximum of 12 credits.

Art History

ARTH 204 Film and American Culture Studies (3)

An introductory study of the relationship between film and American culture. The objective is to improve one's ability to understand a film's message and to expand one's cultural awareness. Discussion covers the way one of our most popular media portrays American culture and influences our interpretation of cultural issues. Various films, filmmaking issues, and representative filmmakers' work are examined. Students may receive credit for only one of the following courses: AMST 204, ARTH 204, or HUMN 204.

ARTH 334 Understanding Movies (3)

(Formerly HUMN 334.) An analysis of one of the most important means of artistic expression of the 20th century. The goal is to acquire a deeper understanding of the aesthetic qualities of film by considering the stylistic elements of film as it has evolved throughout the century and weighing the special relationship between cinema and literature. Students may receive credit for only one of the following courses: ARTH 334, HUMN 334, or HUMN 498D.

ARTH 372 History of Western Art I (3)

(Formerly ARTH 370.) A survey of the development of the Western tradition of visual art in its various forms that examines and compares the expression of cultural and aesthetic values in different parts of the Western world from prehistory through the Middle Ages. The objective is to apply principles of visual literacy; describe, analyze, and contextualize content and elements of art; and differentiate historic periods and styles of art. Students may receive credit for only one of the following courses: ARTH 370 or ARTH 372.

ARTH 373 History of Western Art II (3)

(Formerly ARTH 371.) A survey of the development of visual art of the Western world in its various forms that examines and compares the expression of cultural and aesthetic values in Europe and the United States from 1300 to the present day. The aim is to apply principles of visual literacy; describe, analyze, and contextualize content and elements of art; and differentiate historic periods and styles of art. Students may receive credit for only one of the following courses: ARTH 371 or ARTH 373.

ARTH 375 History of Graphic Art (3)

A survey of the development of graphic design with an emphasis on the historical, technological, and sociological influences on the production of typography and the aesthetics of visual media. The aim is to recognize the philosophy of graphic arts, identify various movements within the field, and analyze the impact of graphic arts on society. Topics include major works and artists and cultural, social, and religious movements and their impact on graphic arts.

ARTH 478 History of Women in the Visual Arts (3)

A survey of the work, roles, and representations of women in the visual arts, from the 16th century to the present. The aim is to evaluate the role of women artists and assess the impact of gender on visual arts as a way to understand the complexity and diversity of human experience and culture. Emphasis is on women working in the tradition of Western art in painting, sculpture, the decorative arts, performance art, photography, and other media and on how gender affected their art and their careers.

Asian Studies

ASTD 135 Introduction to Japanese Language and Culture (3)

(Formerly JAPN 105. Not open to students with substantial prior experience with Japanese language or culture; assumes no prior knowledge of Japanese. Students with prior experience with the Japanese language should take a placement test to assess appropriate level.) A hands-on, project-based introduction to Japanese language and culture. The goal is to develop cultural competency and familiarity with the history, geography, and culture of Japan and to use basic language skills to function effectively and appropriately in everyday life in Japan. Students may receive credit for only one of the following: ASTD 135 or JAPN 105.

ASTD 155 Introduction to Korean Language and Culture (3)

(Not open to students with substantial prior experience with Korean language or culture; assumes no prior knowledge of Korean. Students with prior experience with the Korean language should take a placement test to assess appropriate level.) A hands-on, project-based introduction to Korean language and culture. The goal is to develop cultural competence in personal interactions; demonstrate knowledge of the history, geography, and culture of Korea; and use basic language skills to function effectively and appropriately in everyday activities in Korea. Students may receive credit for only one of the following courses: ASTD 155 or KORN 105.

ASTD 198 Special Topics in Asian Studies (1)

An investigation of a special topic, problem, or issue of particular relevance to countries or peoples of the Pacific Rim or Indian Ocean. Typical investigations include historical or contemporary subjects focusing on cultural, economic, military, or political issues.

ASTD 198E Battle for Okinawa (1)

This is a field study course designed to capitalize on the historical resources in Okinawa, which is the Asia division's largest source of students. The course will offer newcomers to the UMGC system as well as to Okinawa the opportunity to tour locations where some of the major components of the battle occurred. The course will also analyze how the reality of the battle compares with what the films of Hollywood often depict.

ASTD 284 Foundations of East Asian Civilization (3)

(Formerly HIST 284.) An interdisciplinary survey of the foundations of East Asian civilization from its beginnings to the 17th century. The goal is to analyze philosophical, religious, artistic, economic, and political aspects of the region's historical experience. Focus is on China, Korea, and Japan. Topics include East Asian belief systems (including Confucianism and Buddhism), the dynastic cycle, relations between steppe and agrarian societies, warrior and scholar-gentry cultures, technological change and economic development, and the role of class and gender in early East Asian society. Students may receive credit for only one of the following courses: ASTD 150, ASTD 284, or HIST 284.

ASTD 285 Introduction to Modern East Asia (3)

(Formerly HIST 285.) An interdisciplinary survey of East Asia from the late 17th century—beginning with Ming-Qing China, Tokugawa Japan, and Choson Korea—to the present. The objective is to trace how transformations on global, regional, and local levels led to the development of the modern nation-states of East Asia and to examine how those developments affected the culture of the areas. Topics include the rise of imperialism and colonialism; cross-cultural interactions; and issues of gender, class, and ethnicity in East Asian culture. Students may receive credit for only one of the following courses: ASTD 160, ASTD 285, or HIST 285.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

ASTD 302 The Two Koreas: Problems and Prospects (3)

Prerequisite: Any writing course. A thematic study of the two Koreas from historical, social, and foreign policy perspectives. The objective is to examine scholarly viewpoints on key issues of Korean history and division; articulate key factors that shape U.S. and regional policy toward North Korea; distinguish between different sources of information on the two Koreas; and interpret regional developments based on knowledge of Korean issues. Topics include the “hermit kingdom” myth; liberation, division, and war; the economic “miracle”; North Korean leadership; South and North Korean foreign relations; North Korea as a nuclear threat; and prospects for a unified Korea. Focus is on developing a stronger understanding of the two Koreas for practical and professional application. Assignments require research, analysis, and a written policy or strategy recommendation.

ASTD 370 Interpreting Contemporary China (3)

Prerequisite: Any writing course. A thematic study of contemporary China from political, economic, social, and foreign policy perspectives. The objective is to identify decision-making authorities, interpret major influences on the Chinese economy, appraise the impact of grassroots social movements, and distinguish factors that drive China’s foreign policy. Focus is on developing engagement strategies for various professional applications. Assignments require research, analysis, and a written policy or strategy recommendation (e.g., a policy paper or business strategy plan).

ASTD 398 Advanced Special Topics in Asian Studies (3)

An investigation of a special topic, problem, or issue of particular relevance to countries or peoples of the Pacific Rim or Indian Ocean. Typical investigations include historical or contemporary subjects focusing on cultural, economic, military, or political issues. Assignments include advanced reading and research.

ASTD 398F Korean Buddhist Practices (1)

A field study course exploring Korean Buddhism. The goal is to describe the arrival of Buddhism from China to Korea and its subsequent transmission to Japan, explain the role of Seon (Zen) Buddhism and how Korean Buddhism was unified into a single order. Devotional and meditative practices will be explored through site visits.

ASTD 485 East Asian Studies Capstone (3)

Prerequisite: Completion of 24 credits of major coursework, including ASTD 284 and ASTD 285. A project-based interdisciplinary study of East Asia that integrates knowledge gained through previous coursework and experience and builds on that conceptual foundation through integrative analysis, practical application, and critical thinking. Discussion covers emerging issues and current scholarship in East Asian studies.

Astronomy

ASTR 100 Introduction to Astronomy (3)

Prerequisite: MATH 105, STAT 200, or a higher MATH or STAT course. An examination of the major areas of astronomy. Topics include the solar system, stars and stellar evolution, and galaxies. Current topics in astronomy are also discussed. The objective is to use scientific and quantitative reasoning to make informed decisions about topics related to space science. Students may receive credit for only one of the following courses: ASTR 100, ASTR 101, ASTR 120, or GNSC 125.

Behavioral and Social Sciences

BEHS 103 Technology in Contemporary Society (3)

An interdisciplinary introduction to the role of technology in contemporary society. The aim is to apply principles and concepts from a variety of social science disciplines (e.g., anthropology, sociology, psychology, and gerontology) to explore the influence of technology on society and the effect of technological change on our social lives, including our interpersonal relationships, work, culture, and society. Topics include the way technology changes relationships, the cumulative advantages and disadvantages associated with technology, digital natives versus digital immigrants, the pace of technological change, changes to the nature of how people learn and think, and the meaning of technology in society.

BEHS 210 Introduction to Social Sciences (3)

An interdisciplinary introduction to the study of society. The objective is to use the combined perspectives of the different social science disciplines to better understand the nature of society. Topics include research methods, ethical considerations in research, and the relationships among the different social sciences. Discussion surveys a range of social sciences. An analysis of social phenomena that integrates insights from the social sciences is also presented. Students may receive credit for only one of the following courses: BEHS 201 or BEHS 210.

BEHS 220 Diversity Awareness (3)

An examination of the many dimensions of diversity within the framework of the social sciences. The aim is to learn how to interact and communicate effectively and appropriately within a diverse society. Emphasis is on using critical thinking to understand stereotypes, prejudice, and discrimination and how these phenomena affect society. Discussion explores how adopting a social science perspective on diversity can help to address problems in the workplace, community, culture, and society.

BEHS 250 Social Justice Movements (3)

An introductory study of movements for social justice from an interdisciplinary perspective. The objective is to use the theoretical approaches and concepts of the social sciences to explain the origin, development, evolution, and outcomes of movements both in the United States and around the world. Topics include individual and group motivations for engaging in social movements; the use of social media; and ways that movements affect culture, society, and government. Discussion explores justice in the areas of climate, race, and gender, among others.

BEHS 300 Research Methods in the Social Sciences (3)

Prerequisites: BEHS 210 and STAT 200. An introduction to the core concepts, research methods, and skills that apply to work in the social sciences. The goal is to begin the process of conducting social science research. Discussion covers the scientific method, as well as quantitative and qualitative research methods specific to the social science disciplines of psychology, sociology, anthropology, and gerontology. Topics also include reliability and validity of data, correlation versus causality, research ethics, institutional review boards, proposal writing, and the unique contribution of interdisciplinarity in social science research.

BEHS 320 Disability Studies (3)

An interdisciplinary study of disability issues that focuses on understanding and evaluating traditional and current interpretations of the meaning of disability. The goal is to interact and communicate effectively and appropriately in situations relevant to issues of disability. Topics include the construction of images of people with disabilities; attitudes and actions toward those with disabilities; approaches taken by major social institutions (e.g., law, education, religion, the arts) toward disability; distinctions between different models of disability; and current issues in disability studies.

BEHS 343 Parenting Today (3)

An overview of critical issues in modern parenting in the United States and the world. The objective is to use an interdisciplinary perspective to apply research and theory in family development to practical decision-making, taking into account modern and historical trends such as gender roles, socioeconomic status, and single parenting and the impact of divorce on children. Discussion examines the role of race and ethnicity in parenting, LGBTQ parenting, and multigenerational and military families.

BEHS 364 Alcohol in U.S. Society (3)

An interdisciplinary examination of the use and abuse of the drug alcohol from the perspectives of psychology, physiology, sociology, medicine, counseling, law, and public health. The aim is to examine current research and trends in the treatment of alcohol abuse and dependence (including prevention, assessment, and intervention) and to explore the history, etiology, and effects of alcohol abuse and current treatment practices. The effects of alcohol throughout the lifespan are explored in relation to gender, families, race, age, the workplace, and public safety.

BEHS 380 End of Life: Issues and Perspectives (3)

(Formerly GERO 380.) An exploration of death, dying, and bereavement from social, cultural, psychological, biomedical, economic, and historical perspectives. The objective is to clarify one's personal perspective on death and dying, based on a better understanding of end-of-life planning issues, stages of death, and models of care for the dying. Topics include definitions of death, needs of the dying and their support systems, pain management, palliative and hospice care, end-of-life decision-making, cultural meanings and rituals, suicide, euthanasia, homicide, natural disaster, the economics of death and life-sustaining care, family conflict and coping, bereavement, and grieving. Students may receive credit for only one of the following courses: BEHS 380 or GERO 380.

BEHS 453 Domestic Violence (3)

An examination of the complex phenomenon of domestic violence from a multidisciplinary perspective that integrates individual, social, political, cultural/ethnic, economic, legal, and medical viewpoints. The aim is to evaluate research and theoretical models of domestic violence; assess institutional, community, and individual responses to domestic violence; and locate effective resources. Topics include neglect and the physical, emotional, and sexual abuse of children, partners, and the elderly. Discussion also covers response systems and mechanisms to prevent and treat violence. Students may receive credit for only one of the following courses: BEHS 453 or BEHS 454.

BEHS 486A Workplace Learning in Behavioral and Social Sciences (3)

Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

BEHS 486B Workplace Learning in Behavioral and Social Sciences (6)

Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

BEHS 495 Social Science Capstone (3)

Prerequisite: Completion of all required major coursework. A capstone study of the social sciences that integrates perspectives from various disciplines in the field. The aim is to apply theoretical perspectives and empirical evidence to address complex contemporary social problems and become better consumers and purveyors of knowledge and research. Topics include ethical and professional issues inherent in working in the social sciences and the role of advocacy in promoting social change.

Biology

BIOL 101 Concepts of Biology (3)

(Not open to students majoring in biotechnology or laboratory management.) An introduction to the structure and function of living organisms. The objective is to use knowledge about biological principles and scientific reasoning to make informed decisions about the natural world. Topics include the chemical foundations of life, cell biology, genetics, evolution, ecosystems, and the interdependence of living organisms. Discussion also covers the importance of the scientific method to biological inquiry and the impact of biological knowledge and technology on human societies. Students may receive credit for only one of the following courses: BIOL 101 or BIOL 103.

BIOL 102 Laboratory in Biology (1)

(Not open to students majoring in biotechnology or laboratory management. Fulfills the laboratory science requirement only with previous or concurrent credit for BIOL 101.) Prerequisite or corequisite: BIOL 101. A hands-on study of the structure and function of living organisms. The goal is to apply the scientific method and to use scientific and quantitative reasoning to make informed decisions about experimental results in the biological sciences. Laboratory exercises emphasize the scientific method and explore topics such as the chemical foundations of living organisms, cell structure and function, and the classification of organisms. Students may receive credit for only one of the following courses: BIOL 102 or BIOL 103.

BIOL 103 Introduction to Biology (4)

(Not open to students majoring in biotechnology or laboratory management or to students who have completed BIOL 101 or BIOL 102. Fulfills the laboratory science requirement.) An introduction to the structure and function of living organisms. The aim is to apply the scientific method and use scientific and quantitative reasoning to make informed decisions about experimental results in the biological sciences. Topics include the chemical foundations of life, cell biology, genetics, evolution, ecosystems, and the interdependence of living organisms. Discussion also covers the importance of the scientific method to biological inquiry and the impact of biological knowledge and technology on human societies. Laboratory activities emphasize the scientific method. Students may receive credit for only one of the following: BIOL 101–BIOL 102 or BIOL 103.

BIOL 105 Principles of Biology I (4)

(For students majoring or minoring in science. Fulfills the laboratory science requirement.) An introduction to the basic principles of biology. The goal is to apply knowledge about biological principles, the scientific method, and quantitative reasoning to effectively communicate an understanding of biological topics and research. Topics include the scientific method and biological processes and functions, with a special emphasis on cellular and molecular biology.

BIOL 160 Human Biology (3)

(Science background not required.) A general introduction to human structure, functions, genetics, evolution, and ecology. The aim is to use scientific reasoning to make informed decisions about topics related to human biology. The human organism is examined from the basic cellular level and genetics, through organ systems, to interaction with the outside world. Discussion also covers pertinent health topics. Students may receive credit for only one of the following courses: BIOL 160 or GNSC 160.

BIOL 161 Laboratory in Human Biology (1)

(Fulfills the laboratory science requirement only with previous or concurrent credit for BIOL 160.) Prerequisite or corequisite: BIOL 160. A laboratory study that uses the human organism as an example to illustrate the concepts underlying the organization and interrelationships of all living organisms.

BIOL 164 Introduction to Human Anatomy and Physiology (3)

Prerequisite: BIOL 101, BIOL 103, or BIOL 160. An introduction to the anatomy and physiology of the human organism. Topics include basic concepts of physics and chemistry that are necessary for understanding biological functions and the structure and function of cells, tissues, and the major organ systems in the body. Students may receive credit for only one of the following courses: BIOL 164 or GNSC 161.

BIOL 181 Life in the Oceans (3)

An introductory study of the major groups of plants and animals in various marine environments, as well as their interactions with each other and the nonliving components of the ocean. The objective is to use scientific reasoning to make informed decisions about topics related to marine biology. Discussion covers the impact of human activity on life in the ocean and the potential uses and misuses of the ocean. Students may receive credit for only one of the following courses: BIOL 181 or ZOO 181.

BIOL 201 Human Anatomy and Physiology I (4)

(Fulfills the laboratory science requirement.) Prerequisite: BIOL 101, BIOL 105, BIOL 160, or BSCI 105. A thorough introduction to the anatomy and physiology of the integumentary, skeletal, muscular, and nervous systems of human beings. An overview of cellular physiology is included. Students may receive credit for only one of the following courses: BIOL 201 or ZOO 201.

BIOL 202 Human Anatomy and Physiology II (4)

(Fulfills the laboratory science requirement.) Prerequisite: BIOL 101, BIOL 105, BIOL 160, or BSCI 105. An introduction to the anatomy and physiology of the sensory, cardiovascular, endocrine, lymphatic, respiratory, digestive, excretory, immune, and reproductive systems. Intermediary metabolism and endocrine relationships are also studied. Students may receive credit for only one of the following courses: BIOL 202 or ZOO 202.

BIOL 211 Environmental Science (3)

A survey of ecological principles as they apply to the interrelated dilemmas of sustainability. Topics include overpopulation, pollution, over-consumption of natural resources, and the ethics of land use. Students may receive credit for only one of the following courses: BIOL 211, BOTN 211, or PBIO 235.

BIOL 212 Environmental Science Laboratory (1)

(For students not majoring in science. Fulfills the laboratory science requirement only with previous or concurrent credit for BIOL 211.) Prerequisite or corequisite: BIOL 211. A laboratory study investigating human interactions with our environment. Scientific objectivity and methodology are employed to gather and analyze data pertaining to the varied and interrelated forms of human environmental impact. Topics explored include principles of ecology, population dynamics, food supply alternatives and impact, sustainable water supplies, energy alternatives, pollution control, greenhouse gases, recycling, and conservation technologies.

BIOL 220 Human Genetics (3)

An introduction to the role of genes in inheritance of traits and genetic diseases and disorders. The goal is to understand how genes affect physical appearance and behavior. Topics include Mendelian and non-Mendelian inheritance of human genetic diseases, human genetic variation, and mechanisms underlying human diseases. Students may receive credit for only one of the following courses: BIOL 220, BIOL 222, or BSCI 222.

BIOL 230 General Microbiology (4)

(For students majoring or minoring in a science. Fulfills the laboratory science requirement.) Prerequisite: BIOL 103 or other introductory biology course with laboratory. An investigation of fundamental concepts in morphology, physiology, genetics, immunology, ecology, and pathogenic microbiology. Applications of microbiology to medicine, the food industry, and biotechnology are considered. Student may receive credit for only one of the following courses: BIOL 230, BIOL 302, BIOL 331, BIOL 398G, BSCI 223, MICB 200, or MICB 388A.

BIOL 301 Human Health and Disease (3)

(For students majoring in both science and nonscience disciplines.) A survey of the mechanisms of disease and their expression in major organ systems of the human body. The goal is to use scientific reasoning to make informed decisions about matters related to human biology and health. Topics include infections, cancer, heart disease, lung disease, diabetes, stroke, malnutrition, poisoning by environmental toxins, stress, inflammation, disorders of the immune system, and aging. Emphasis is on analysis of factors that cause disruption of healthy body functions, leading to disease, and on prevention of disease through control of risk factors and early detection. Students may receive credit for only one of the following courses: BIOL 301 or BIOL 398H.

BIOL 302 Bacteria, Viruses, and Health (3)

(For students majoring in both science and nonscience disciplines.) An introductory study of the basic structure, genetic and regulatory systems, and life cycles of bacteria and viruses and how they relate to health, infectious disease, and illness. The objective is to apply knowledge of cellular and molecular processes and communicate synthesized knowledge of microbial pathogenesis and disease prevention methods. Students may receive credit for only one of the following courses: BIOL 230, BIOL 302, BIOL 331, BIOL 398G, BSCI 223, MICB 200, or MICB 388A.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

BIOL 304 The Biology of Cancer (3)

(For students majoring in both science and nonscience disciplines.) An overview of the biological basis of cancer. The goal is to apply knowledge of cancer biology to adopt appropriate lifestyle strategies and evaluate current treatments. The causes, development, and progression of cancer are considered at the level of cell structure and function. The roles of genes and proteins are also examined. Students may receive credit for only one of the following courses: BIOL 304 or GNSC 398C.

BIOL 307 The Biology of Aging (3)

(For students majoring in both science and nonscience disciplines.) An overview of the biological basis of aging. The goal is to apply knowledge of the aging process to influence personal lifestyle choices, public health policy, and economic decisions. Topics include typical changes that occur in cells, molecules, metabolism, and structure during the aging process. The development and progression of several diseases associated with aging (including cancer, neurodegenerative diseases such as Alzheimer's and Parkinson's diseases, osteoporosis, and loss of visual acuity and memory) are discussed with respect to the role of genes, proteins, and environmental influences. Students may receive credit for only one of the following courses: BIOL 307 or BIOL 398V.

BIOL 318 Biology and the Climate Crisis (3)

An examination of the causes and effects of climate change and its impact on people, the environment, and the ecosystems we all depend on. The goal is to connect food and water security, health, equity, and urban living conditions to the changing global climate, changes in temperatures, precipitation patterns, sea levels, and ocean chemistry. Discussion covers how ecological systems support a stable climate and how wild flora, fauna, and ecological communities are threatened by rapid anthropogenic climate change. Topics include biologically based solutions that protect human health and well-being, especially for vulnerable populations, and preserve and restore the ecosystem diversity and stability that assure long-term persistence of life on Earth.

BIOL 320 Forensic Biology (3)

An introduction to the basic principles of biology as applied to the field of forensic science. The aim is to use scientific reasoning to draw conclusions and make decisions about forensic techniques, analyses, and results. Topics include the biological features and characteristics of evidentiary materials, as well as the basic principles of chemistry, cell biology, microbiology, and genetics that underlie forensic analyses.

BIOL 325 Inquiries in Biological Science (3)

Prerequisite: BIOL 105. An overview of biological principles and current trends in biological science. The goal is to apply knowledge of core biological principles, critically analyze current research, and use scientific reasoning to make evaluative decisions related to applications in the biological sciences. Topics include the scientific process, core biological concepts, careers in biology-related fields, and safety and health policies relevant to biological research.

BIOL 328 Bioethics (3)

An introduction to ethical decision-making related to human life and health. The aim is to form defensible positions and carefully crafted arguments based on well-supported evidence. Discussion covers reproductive issues, biological research, and healthcare. Emphasis is on scientific and philosophical thinking.

BIOL 350 Molecular and Cellular Biology (3)

(For students majoring or minoring in a science.) Prerequisite: BIOL 325. A thorough examination of the basic structure and function of cells, with an emphasis on eukaryotic cell biology. The objective is to use knowledge of molecular biology to interpret results and draw conclusions about research findings and technological applications. Topics include cell-cycle growth and death; protein structure; DNA replication, repair, and recombination; gene expression; RNA processing; and molecular transport, traffic, and signaling. Discussion also covers the application of recombinant DNA, genetic engineering, and other current molecular biology technologies. Students may receive credit for only one of the following courses: BIOL 350 or BIOL 398S.

BIOL 357 Bioinformatics (3)

Prerequisite: BIOL 325 or another upper-level biology course. An introduction to the use of computers in the analysis of nucleic acid and protein sequences and a study of the significance of these analyses. The goal is to develop an understanding of the software used in bioinformatics and learn how to address specific questions in biotechnology and research. Topics include genome analysis, evolutionary relationships, structure-function identification, protein pattern recognition, protein-protein interaction, and algorithms.

BIOL 362 Neurobiology (3)

Prerequisite: BIOL 101, BIOL 103, or BIOL 160. An in-depth discussion of the biology and development of the nervous system. The goal is to apply knowledge of neurobiological principles to advanced studies or careers and be more informed healthcare consumers. Topics include neuronal structure and function; communication at the synapse; membrane receptors and intra- and intercellular signaling systems; gross organization of the brain and spinal cord; the processing of sensory information; the programming of motor responses; research techniques; ethics; brain development; plasticity; and higher functions such as learning, memory, cognition, and speech.

BIOL 398 Special Topics in Biology (3)

A study of topics in biology of special interest to students and faculty. May be repeated to a maximum of 6 credits when topics differ.

BIOL 398J The Role of Nutrition in Cancer and Heart Disease (1)

A study of the relationship between diet and the development of cancer and heart disease at the level of molecules, cells, and genes. The aim is to examine the scientific and epidemiological evidence supporting the roles of various foods, nutrients, antioxidants, fiber, fats, and genetics in the progression or prevention of these two major causes of mortality. Students may receive credit for only one of the following courses: BIOL 398J or GNCS 398F.

BIOL 398L Bacteria, Fungi, and Fermentation (1)

An introduction to the bacteria and fungi involved in food and beverage fermentation. The aim is to gain an appreciation for the ecological interdependence of microorganisms and humans. Discussion covers basic biological distinctions between bacteria and fungi, the fundamental biochemistry of fermentation, and conditions that promote desired growth for the production of edible fermented products.

BIOL 422 Epidemiology and Communicable Diseases (3)

Prerequisite: BIOL 230, BIOL 301, BIOL 302, or BIOL 398G. An investigation of factors contributing to the emergence of new infectious diseases and the resurgence of diseases once thought to have been controlled. The goal is to synthesize and apply knowledge of research methods, integrate epidemiological information, and communicate knowledge to scientific and nonscientific communities. Topics include socioeconomic and environmental factors that contribute to the inability to prevent or control malaria, tuberculosis, and AIDS. Disease symptoms, patterns of spread, and possible control measures are examined for new infectious diseases (such as Lyme disease and those caused by *E. coli* O157, the Ebola virus, hantaviruses, and cryptosporidia). Discussion also covers resurgent diseases such as anthrax, bubonic plague, dengue, influenza, and cholera. Students may receive credit for only one of the following courses: BIOL 422 or MICB 388E.

BIOL 486A Workplace Learning in Biology (3)

Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

BIOL 486B Workplace Learning in Biology (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

BIOL 495 Life Sciences Capstone (3)

Prerequisite/corequisite: Completion of all required major courses and a statistics course; may be taken concurrently with BIOL 486A/B. An examination of current topics, trends, and applications in the life sciences. The aim is to be familiar with life science laboratory and industry environments, communicate scientific principles effectively, practice professional ethics, and demonstrate knowledge of safe laboratory operations. Topics include current research, ways to recognize future trends, strategies to solve current challenges, and creative solutions for developing products and services in the life sciences. Students may receive credit for only one of the following courses: BIOL 400 or BIOL 495.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

Business and Management

BMGT 110 Introduction to Business and Management (3)

(For students with little or no business background. Recommended preparation for many other BMGT courses.) An introduction to the fundamental concepts of business management and leadership. The objective is to understand the interrelated dynamics of business, society, and the economy. Discussion covers business principles and practices in the context of everyday business events and human affairs and from a historical perspective.

BMGT 121A Solve Problems, Make Decisions (1)

An introduction to problem-solving and decision-making, focusing on the difference between them and the inherent bias we have in dealing with them. The aim is to differentiate problem-solving and decision-making, evaluate personal skill levels in solving problems, and develop a tailored approach toward solving complex problems and making complex decisions. Topics include common problem-solving methodologies and decision-making strategies and the individual skills needed to employ them effectively.

BMGT 121B Communication and Collaboration (1)

An in-depth evaluation and application of successful collaboration and communication skills. The aim is to identify successful personal communication practices and skills needed for successful collaboration with others in the workplace. Topics include individual specific verbal and active listening skills, methods for interpreting nonverbal emotional intelligence cues, and techniques for troubleshooting daily communication.

BMGT 160 Principles of Management (3)

(Formerly MGST 160.) An introductory study of the skills required to effectively and efficiently manage employees and workflow within an organization. Focus is on the role of a manager to plan, organize, and control the workload through the development of effective relationships with employees. Topics include the role and function of a manager, motivation strategies, verbal and non-verbal communication skills, employee diversity, problem-solving and decision-making skills, and the influence of external organizational forces on work performance.

BMGT 304 Managing E-Commerce in Organizations (3)

A hands-on, project-based introduction to the management of e-commerce organizations. The objective is to identify and demonstrate the unique skills needed to manage a sustainable e-commerce organization. Topics include e-commerce management principles, human resource management, information systems, knowledge management principles, e-marketing, virtual customer and supplier relations, and potential international legal issues. Assignments include project-based case studies that apply skills to modern workday problems.

BMGT 305 Knowledge Management (3)

A practical approach to knowledge management. The aim is to understand the value of knowledge management and the roles of knowledge workers and knowledge managers. Discussion covers how organizations capture, acquire, and share knowledge to maintain corporate memory and to develop collaborative energy. Topics include both formal and informal approaches to knowledge sharing and ways in which organizations use knowledge management techniques for competitive advantage. Students may receive credit for only one of the following courses: BMGT 305 or BMGT 388C.

BMGT 317 Methods of Decision-Making and Problem-Solving (3)

A practical examination of decision-making and problem-solving. The goal is to use a proven framework to generate potential solutions for effective decision-making and problem-solving. Discussion covers the cultural impact of decision-making, including stakeholders' expectations. Topics include root cause analysis, risks and uncertainty, potential solutions and alternatives, key performance indicators, psychological traps, and the steps to assure effectiveness before and after decision implementation. Students may receive credit for only one of the following courses: BMGT 317 or TMGT 310.

BMGT 330 Entrepreneurship and New Venture Planning (3)

An overview of entrepreneurship and planning new business ventures for aspiring entrepreneurs and managers. The objective is to create and present a high-quality business plan for a new venture using marketing research and financial analytical techniques. Topics include profiles of entrepreneurs; benefits, risks, and challenges; financial management; access to capital; and franchising. Students may receive credit for only one of the following courses: BMGT 330, FINC 310, MGMT 330, or SBUS 200.

BMGT 335 Small Business Management (3)

A comprehensive review of the management principles underlying organizational development and growth and business life-cycle segments of emerging enterprises. The goal is to demonstrate an understanding of small business management in a global context, differentiate between micro- and macro-organizational structures, and identify the critical elements of business sustainability. Topics include entrepreneurship, financing/capitalization, innovation, and human resource and strategic planning. Core components of small business management are explored and evaluated through a multifaceted approach.

BMGT 339 Introduction to Federal Contracting (3)

An overview of the federal contracting process, including the requirements and techniques of federal contracting. The objective is to document needs in writing, develop evaluation criteria, and review and assess contractor performance. Activities include planning, evaluating award criteria, and assessing performance. Discussion also covers critical contract issues. Students may receive credit for only one of the following courses: BMGT 339, MGMT 220, or MGMT 339.

BMGT 364 Management and Organization Theory (3)

An examination of the four functions of management—planning, organizing, leading, and controlling—with emphasis on the application of management concepts and theories to achieve organizational goals. The aim is to develop strategies, goals, and objectives to enhance performance and sustainability. Topics include ethics, social responsibility, globalization, and change and innovation. Students may receive credit for only one of the following courses: BMGT 364, TEMN 202, TEMN 300, TMGT 301, or TMGT 302.

BMGT 365 Organizational Leadership (3)

Prerequisite: BMGT 110 or BMGT 364. An exploration of leadership as a critical skill for the 21st century, when change occurs rapidly and consistently. The objective is to use leadership theory and assessment tools to evaluate one's own leadership skills. Focus is on the leadership skills needed to develop committed and productive individuals and high-performing organizations. Topics include vision, values, culture, ethics, and the interaction between the organization and the external environment. Students may receive credit for only one of the following courses: BMGT 365, MGMT 300, MGST 310, or TEMN 310.

BMGT 380 Business Law I (3)

(Strongly recommended for students seeking careers as CPAs, lawyers, or managers.) A conceptual and functional analysis and application of legal principles and concepts relevant to the conduct and understanding of commercial business transactions in the domestic and global environments. The aim is to evaluate sources of law, legal process, procedures, and remedies and to analyze tort, criminal, and contractual rights, obligations, liabilities, and remedies in the business environment. Topics include the legal, ethical, and social environments of business; civil and criminal law; agency; types of business organizations; and contracts and sales agreements.

BMGT 381 Business Law II (3)

(Strongly recommended for students seeking careers as CPAs, lawyers, or managers.) Prerequisite: BMGT 380. Further conceptual and functional analysis and application of legal principles relevant to the conduct and understanding of commercial business transactions in the domestic and global environment. The aim is to evaluate sources of law, legal process, procedures, and remedies and to analyze tort, criminal, and contractual rights, obligations, liabilities, and remedies in the business environment. Topics include personal and real property, leases, antitrust, business insurance, accountants' liability, negotiable instruments, secured transactions, government regulation affecting consumer protection, environmental protection, debtor/creditor relationships, and bankruptcy and reorganization.

BMGT 392 Global Business (3)

An overview of key concepts and issues relevant to conducting business in the global environment. Emphasis is on applying fundamental knowledge of global business and analyzing and evaluating global business variables for informed decision-making. The objective is to analyze property rights, obligations, liabilities, and remedies; evaluate regulations in the business environment; and assess implications of transactions and negotiable instruments in the business environment. Topics include the nature and scope of global business; cultural, political, legal, and economic environments; marketing; trade; and foreign investments. Students may receive credit for only one of the following courses: BMGT 392, MGMT 305, or TMGT 390.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

BMGT 398 Special Topics in Business and Management (1–3)

Intensive inquiry into special topics in business and management that reflect the changing needs and interests of students and faculty.

BMGT 411 Process Improvement (3)

A hands-on, project-based introduction to process improvement. The objective is to assess the root cause of a problem, gain buy-in for the improvement, map the process, establish internal controls, and apply a variety of metrics to improve processes, test improvement solutions, and implement the process improvement. Emphasis is on process improvements that are cost-effective and add value to organizational missions. Topics include meeting customer expectations, flowcharting, selecting approaches to change management, acquiring resources, and sustaining improvements. Students may receive credit for only one of the following courses: BMGT 411 or TMGT 411.

BMGT 456 Managing Across Cultures and Borders (3)

An examination and analysis of international management across cultures and borders. The aim is to apply critical-thinking and analytical skills in global management settings. Focus is on the roles of business managers in today's complex global environment. Topics include cross-cultural strategic planning, multinational organizational structures, global leadership, cross-cultural communication, environmental factors, decision-making, and negotiations. Students may receive credit for only one of the following courses: BMGT 456 or BMGT 498R.

BMGT 464 Organizational Behavior (3)

Prerequisite: BMGT 364. A study of how the manager uses knowledge of people's behavior in the workplace to develop best practices to build relationships that foster a more efficient and effective organization. The aim is to examine organizations and the way people behave in an organizational setting to develop the types of skills that encourage the organization's best workplace behavior. Topics include motivation, emotional intelligence, employee and organizational diversity, engagement in job performance, job commitment, and workplace culture.

BMGT 465 Organizational Change Management (3)

Prerequisite: BMGT 364. An examination of the systematic process of organizational change management, including data collection, diagnosis, action planning, intervention, and evaluation. The goal is to increase the effectiveness of an organization to develop the potential of all individuals. Activities include identifying and diagnosing organizational problems or opportunities utilizing management skills that support organizational change. Students may receive credit for only one of the following courses: BMGT 465, BMGT 398K, BMGT 465, or TMGT 350.

BMGT 466 Global Public Management (3)

A comprehensive study of public management. The aim is to analyze, design, and evaluate solutions to public-sector problems, both domestic and global, based on an understanding of public-sector management concepts and the different types of organizations involved. Topics include development and implementation of public-sector projects and the finance, human resources, and marketing activities that support them. Discussion also covers public management in diverse regions of the world, as well as the purpose and management of intergovernmental organizations and nongovernmental organizations. Students may receive credit for only one of the following courses: BMGT 366, BMGT 466, or TMGT 305.

BMGT 484 Organizational Collaboration (3)

Prerequisite: BMGT 364. A theoretical and practical investigation into organizational collaboration. The aim is to define the purpose, types, and use of collaboration by managers in modern organizations and the skills managers require for successful collaborations. Topics include development of skills in team dynamics, factors that foster team cohesion and performance, individual and group virtual collaboration, and decision-making.

BMGT 485 Applied Management (3)

(Intended as the final, capstone course for management studies majors, to be taken in the last 15 credits, but appropriate for anyone who aspires to a management position.) Prerequisites: BMGT 317, BMGT 364, BMGT 464 (or BMGT 465), and BMGT 484. An integration and application of managerial skills used in successful organizations. The goal is to integrate previously learned management skills and to apply them to achieve individual and organizational excellence, including within the four functions of management—applied decision-making, team building, organizational behavior, and organizational change.

BMGT 486A Workplace Learning in Business and Management (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

BMGT 486B Workplace Learning in Business and Management (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

BMGT 487 Project Management I (3)

(The first course in the two-course series BMGT 487–BMGT 488.) An introduction to the terminology, principles, concepts, and practices of project management. The goal is to demonstrate the skills required to manage a project through all project phases, such as scope, scheduling, and cost. Traditional, agile, and hybrid project management approaches are compared to present key considerations of each method. The importance of soft skills like communication and stakeholder engagement is also underscored. Students may receive credit for only one of the following courses: BMGT 487 or TMGT 430.

BMGT 488 Project Management II (3)

(The second course in the two-course series BMGT 487–BMGT 488.) Prerequisite: BMGT 487. An examination of project management processes and applications beyond introductory principles and concepts. The goal is to manage a project through all phases of the project life cycle. Emphasis is on the practical applications of project management principles and processes in real-world situations. Projects depict real-world situations, such as information systems implementations; service business/e-commerce projects; and consulting projects that occur in research, information systems, manufacturing, and engineering firms. Students may receive credit for only one of the following courses: BMGT 488 or TMGT 430.

BMGT 495 Strategic Management (3)

Access to spreadsheet, word processing, and presentation software required. (Intended as a final, capstone course to be taken in a student's last 15 credits.) Prerequisites: BMGT 364, BMGT 365, FINC 330 (or BMGT 340), and MRKT 310. A study of strategic management that focuses on integrating management, marketing, finance/accounting, production/operations, services, research and development, and information systems functions to achieve organizational success. The aim is to apply integrative analysis, practical application, and critical thinking to the conceptual foundation gained through previous study and personal experience. Emphasis is on developing an organizational vision and mission, developing and implementing strategic plans, and evaluating outcomes. Students may receive credit for only one of the following courses: BMGT 495, HMG 430, MGMT 495, or TMGT 380.

BMGT 496 Business Ethics (3)

A study of the relationship of business ethics and social responsibility in both domestic and global settings. The aim is to explore ethical and moral considerations of corporate conduct, social responsibilities, policies, and strategies. Emphasis is on the definition, scope, application, and analysis of ethical values as they relate to issues of public and organizational consequence and business decision-making in the domestic and global business environments.

Career Planning

CAPL 198A Effective Time Management (1)

A hands-on exploration of effective time management strategies. The objective is to develop a personal time management plan. Topics include procrastination, ways to use time productively, the myth of multitasking, and achieving a balance. Discussion includes personal tendencies for managing time and recognizing them and planning for prioritizing one's tasks. Students may receive credit for only one of the following courses: CAPL 198A or MGST 198B.

CAPL 198B Career Transitions (1)

An exploration of career paths and skills. The goal is to assess one's prior education and experiences to determine possible career paths. Topics include the identification of skills gaps, strategies for preparing a résumé aligned with the career, and best practices for successful integration into the civilian workforce. Students may receive credit for only one of the following courses: CAPL 198B or MGST 198M.

CAPL 198C Interviewing Skills (1)

A comprehensive exploration of skills and strategies needed for successful interviews. The aim is to articulate personal skills, education, and experience as they relate to a target position. Topics include body language, nonverbal cues, and candidacy for various positions. Discussions explore previous interview experiences, strategies for success during interviews, and determining whether the position may be a good fit. Students may receive credit for only one of the following courses: CAPL 198C or MGST 198L.

CAPL 398A Career Planning Management (1)

A survey of strategies for managing career change. Focus is on examining, evaluating, and assessing individual skill sets; networking; and researching career and economic markets. The objective is to formulate a career path and develop the resources needed to enter that path. Topics include résumé and cover letter development, interviewing techniques, negotiation strategies, and tools for ongoing career planning.

CAPL 495 General Studies Capstone (3)

(To be taken in a student's last 15 credits.) The analysis and evaluation of knowledge and skills gained from previous study.

A capstone project connects an area of study to a real-world scenario and includes the presentation of a portfolio linking one's experience with personal and professional goals.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

Chemistry

CHEM 121 Chemistry in the Modern World (3)

(For students not majoring or minoring in science.) An exploration of chemistry as it relates to human life and the environment. The goal is to use a working knowledge of chemical principles, scientific reasoning, and quantitative reasoning to make informed decisions about health and safety matters. Discussion examines natural processes and human factors in the modern world using the principles of chemistry and the scientific method. Students may receive credit for only one of the following courses: CHEM 102, CHEM 104, CHEM 105, CHEM 107, CHEM 121, or GNSC 140.

CHEM 297 Environmental Chemistry (3)

Prerequisite(s): MATH 115 (or MATH 107 and MATH 108). An examination of the chemistry of environmental systems. The aim is to identify and evaluate fundamental principles of chemistry in relation to environmental systems. Discussion covers the nature of atoms, types of bonding, functional groups, chemical reactivity, and chemical interactions. Topics also include migration of chemicals through the environment, the role of basic chemistry in biogeochemical cycles, and human impact on biogeochemical cycles through the use of technology.

Communication Studies

COMM 200 Military Communication and Writing (3)

(Fulfills the general education requirement in communications.) A study of business communication management in a military context. The objective is to develop appropriate and effective communication products for military audiences and within military environments through the application of accepted business communication practices. Topics include communication theories; research methods; organization of information; formats; writing and editing strategies; and techniques for guiding subordinate communication, conducting interviews, and managing meetings. Assignments may include making speech presentations; instructing a class; conducting interviews; managing meetings; and writing and editing reports, letters, emails, proposals, and personnel evaluations.

COMM 202 Media and Society (3)

(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112. An overview of the complex components and relationships involved in today's media. The goal is to understand the technical, political, economic, cultural, and organizational influences on mediated messages. Topics include visual rhetoric, legal and ethical issues, social media, the transactional model, advertising, security, and privacy concerns.

COMM 207 Understanding Visual Communication (3)

A study of the creation and interpretation of visual language. The aim is to understand how images are used to effectively communicate ideas in a variety of channels, including news, advertising, and public relations. Topics include aesthetics, principles of composition, color systems, content awareness, and historical and cultural perspectives. Emphasis is on critical thinking and analysis of images from both theoretical and practical perspectives.

COMM 300 Communication Theory (3)

(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112. An introduction to communication theory. The objective is to apply communication theory and evaluate communication situations. The basic theories of human communication, mass communication, and new media and technology are explored. Focus is on the relationships among communication theory, research, and practice. Topics include intra- and interpersonal communication, public communication, mass media, and contemporary issues associated with mediated communication.

COMM 302 Mass Communication and Media Studies (3)

(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112, WRTG 101, or WRTG 101S. A survey of mass communication designed to enhance media literacy. The goal is to interpret, evaluate, and produce media messages. Topics include media industries and the impact of the media, as well as regulation, policy, and ethical issues. Emphasis is on critical thinking and analysis of vital aspects of pervasive elements of popular culture, such as news, advertising, children's entertainment, and a free press. Students may receive credit for only one of the following courses: COMM 302 or COMM 379A.

COMM 390 Writing for Managers (3)

(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112, WRTG 101, or WRTG 101S. A practicum in the kinds of communication skills that managers need for the workplace. The goal is to develop persuasive managerial communication for organizational decision-making and action. Students may receive credit for only one of the following courses: COMM 390, HUMN 390, WRTG 390, or WRTG 490.

COMM 400 Mass Media Law (3)

(No previous study of law required. Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112. An examination of important legal issues that affect mass media and communications professionals. The objective is to analyze mass media law, its evolution, and its relationship with society, culture, and politics. Topics include copyright, intellectual property, fair use, defamation, privacy, freedom of information, freedom of speech, and freedom of the press, as well as issues raised by the growth of the internet. Discussion also covers ethics in mass media, digital technologies, and the creation of media content. Students may receive credit for only one of the following courses: COMM 400 or JOUR 400.

COMM 459 Special Topics in Communication (1–3)

An exploration of special topics in communication. The objective is to attain specialized knowledge and skills in a particular area of communication, journalism, speech, or professional writing. Focus is on demonstrating new knowledge through an extended applied project. May be repeated to a maximum of 6 credits when topics differ.

COMM 495 Communications Studies Capstone (3)

Prerequisites: COMM 300, COMM 302, and at least 9 additional credits of upper-level COMM, SPCH, and/or JOUR courses. A project-based capstone study of communication. The aim is to reflect on the knowledge and skills gained through previous coursework and experiences in the discipline.

Computer Information Technology

Courses in computer information technology (designated CMIT) have higher computing requirements than the minimum technical requirements stated on p. 26. They require an Intel Core i7 processor or higher, with speeds of 2GHz or faster, at least 6GB of available disk space, and at least 16GB RAM (32GB recommended). Display devices should have a resolution of 1920 X 1080 or better (PCs) or 1440 X 900 retina display (Mac).

CMIT 202 Fundamentals of Computer Troubleshooting (3)

(Designed to help prepare for the CompTIA A+ exams.) A thorough review of computer hardware and software, with emphasis on the application of current and appropriate computing safety and environmental practices. The goal is to evaluate, install, configure, maintain, and troubleshoot computer hardware components and operating systems.

CMIT 265 Fundamentals of Networking (3)

(Designed to help prepare for the CompTIA Network+ certification exam.) Prerequisite: CMIT 202, CMSC 115 (or CMIS 141), or CYOP 200. An introduction to networking technologies for local area networks, wide area networks, and wireless networks. The aim is to recognize the type of network design appropriate for a given scenario. Topics include the OSI (open system interconnection) model, security, and networking protocols. Students may receive credit for only one of the following courses: CMIT 265 or CMIT 265M.

CMIT 291 Introduction to Linux (3)

(Designed to help prepare for the Linux Professional Institute Certification 1 [LPIC-1] and the CompTIA Linux+ certification exams.) Prerequisite: CMIT 202 or CMIT 265. A study of the Linux operating system. The goal is to configure and manage processes, user interfaces, device files, print facilities, file systems, task automation, the boot-up/shutdown sequence, disk storage, network connectivity, system security, and users and groups. Students may receive credit for only one of the following courses: CMIS 390, CMIS 398U, CMIT 291, or CMIT 391.

CMIT 320 Network Security (3)

(Designed to help prepare for the CompTIA Security+ exam.) Prerequisite: CMIT 265 or CompTIA Network+ certification. A study of the fundamental concepts of computer security and its implementation. The aim is to assess and mitigate risk, evaluate and select appropriate technologies, and apply proper security safeguards.

CMIT 321 Ethical Hacking (3)

(Formerly CMIT 398E. Designed to help prepare for the EC-Council Certified Ethical Hacker certifications.) Prerequisite: CMIT 320. Development of the structured knowledge base needed to discover vulnerabilities and recommend solutions for tightening network security and protecting data from potential attackers. Focus is on penetration-testing tools and techniques to protect computer networks. Students may receive credit for only one of the following courses: CMIT 321 or CMIT 398E.

CMIT 326 Cloud Technologies (3)

(Designed to help prepare for the CompTIA Cloud+ and AWS Certified Cloud Practitioner certification exams.) A hands-on study of basic cloud technologies. The aim is to apply the techniques and tools used in cloud environments, especially the AWS (Amazon Web Services) cloud. Topics include the global infrastructure of the cloud, deployment and operation in various cloud environments, high availability, scalability, elasticity, security, and troubleshooting. AWS, Microsoft Azure, and Google Cloud are compared.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

CMIT 336 Fundamentals of Microsoft Azure (3)

(Designed to help prepare for Exam AZ-900: Microsoft Azure Fundamentals.) Prerequisite: CMIT 326. A hands-on study of Microsoft Azure services. The aim is to demonstrate mastery of cloud concepts; the core services used in Azure; pricing and support models used for Azure; and fundamentals of cloud security, privacy, compliance, and trust for Microsoft Azure. Topics include high availability, scalability, agility, fault tolerance, and disaster recovery in the Microsoft Azure environment.

CMIT 351 Switching, Routing, and Wireless Essentials (3)

(Designed to help prepare for the Cisco Certified Network Associate [CCNA] certification examination.) Prerequisite: CMIT 265. A hands-on introduction to Cisco internetworking devices. Focus is on switching technologies and router operations that support small-to-medium business networks, including wireless local area networks (WLAN) and security concepts. The goal is to perform basic network configuration and troubleshooting, identify and mitigate LAN security threats, and configure and secure a basic WLAN. Students may receive credit for only one of the following courses: CAPP 498E, CMIT 350, CMIT 351, or CMIT 499D.

CMIT 352 Enterprise Networking, Security, and Automation (3)

(Designed to help prepare for the Cisco Certified Network Associate [CCNA] certification examination. Course completion earns a Cisco-issued digital badge on the Acclaim credentials platform.) Prerequisite: CMIT 351. A hands-on introduction to Cisco internetworking devices. Focus is on the architectures and considerations related to designing, securing, operating, and troubleshooting enterprise networks. Topics include wide area network (WAN) technologies and quality of service (QoS) mechanisms used for secure remote access along with the introduction of software-defined networking, virtualization, and automation concepts that support the digitalization of networks. Students may receive credit for only one of the following courses: CAPP 498E, CMIT 350, CMIT 352, or CMIT 499D.

CMIT 380 Managing Modern Microsoft Desktops (3)

(Designed to help prepare for the Microsoft 365 Certified: Modern Desktop Administrator Associate certification examination. Passing the MD-100 examination earns the Microsoft-issued MD-100 Windows 10 digital badge on the Acclaim credentials platform.) Prerequisites: CMIT 202 and CMIT 320. An introduction to installing, supporting, and configuring Windows 10 desktops in an organizational environment. The aim is to learn to install, customize, and update the Windows 10 Operating System (OS), including managing storage, files, and devices, and secure data and the Windows 10 OS, as well as troubleshoot Windows 10. Students may receive credit for only one of the following courses: CMIT 370 or CMIT 380.

CMIT 382 Managing Microsoft 365 Identity (3)

(Designed to help prepare for the Microsoft 365 Certified: Enterprise Administrator Expert certification examination.) Prerequisite: CMIT 380. An introduction to Microsoft 365 identity and services. The aim is to demonstrate ability to design and implement Microsoft 365 services, manage user identity and roles, manage access and authentication, and plan Microsoft 365 workloads and applications. Students may receive credit for only one of the following courses: CMIT 371 or CMIT 382.

CMIT 386 Penetration Testing and Cyber Red Teaming (3)

(Designed to help prepare for the CompTIA PenTest+ certification exam.) Prerequisite: CMIT 291 or CMIT 391 (or CompTIA Linux+ or Linux Professional Institute LPIC-1 certification) and CMIT 321 (or EC-Council Certified Ethical Hacker certification). An introduction to the concepts and skills necessary to perform penetration testing and red teaming. The goal is to use penetration testing techniques focused on the Penetration Testing Execution Standard (PTES)—including pre-engagement interactions, intelligence gathering, threat modeling, vulnerability analysis, exploitation, postexploitation, and reporting—to perform a penetration test and present findings to management. Topics include tools, such as KALI Linux and the Metasploit Framework, that can be used for penetration testing and strategies for red teaming.

CMIT 388 Red Hat Linux System Administration I (3)

(Designed to help prepare for the Red Hat Certified System Administrator [RHCSA] certification exam.) Prerequisite: CMIT 291 or CMIT 391. Development of the key foundational skills needed by an RHCSA-certified Red Hat Enterprise Linux system administrator. Focus is on the knowledge, skills, and abilities needed to become a Linux systems expert or Linux system administrator. Discussion covers advanced command line concepts and enterprise-level tools intended for cybersecurity professionals who need to perform essential Linux administration tasks including installation, configuring networking connectivity, managing physical storage, automation/programmability, and performing security administration tasks.

CMIT 420 Managing Security on Modern Microsoft Desktops (3)

(Designed to help prepare for the Microsoft 365 Certified: Modern Desktop Administrator Associate certification examination.) Prerequisites: CMIT 320 and CMIT 382. An introduction to implementation of a Windows 10 operating system strategy using modern deployment methods and an update strategy. Focus is on methods for deployment and management of apps and browser-based applications. Key concepts include security in modern management, including authentication, identity, access, and compliance policies. Topics such as Azure Active Directory, Azure Information Protection, and Windows Defender Advanced Threat Protection, as well as how to leverage these technologies to protect devices and data, are covered.

CMIT 421 Threat Management and Vulnerability Assessment (3)

(Designed to help prepare for the CompTIA Cybersecurity Analyst [CySA+] certification.) Prerequisite: CMIT 320. A study of the analysis of data in threat and vulnerability management. The goal is to properly utilize various cybersecurity tools and technologies. Discussion covers the analysis of threats and the impact on incident response, as well as the tools and equipment used in a forensic investigation. Various industry and government frameworks and regulatory compliance are highlighted.

CMIT 422 Managing Microsoft 365 Security (3)

(Designed to help prepare for the Microsoft 365 Certified: Enterprise Administrator Expert certification examination.) Prerequisites: CMIT 320 and CMIT 382. A study of the three key components of Microsoft 365 services: Microsoft 365 security management, Microsoft 365 compliance management, and Microsoft 365 device management. Examination covers threat vectors and data breaches facing today's organizations and key elements of compliance management, such as data governance, data archiving and retention, and data loss prevention. The aim is to gain knowledge in managing all aspects of device management, including comanagement, Windows Autopilot, Windows Analytics, and Mobile Device Management. Students may receive credit for only one of the following courses: CMIT 373 or CMIT 422.

CMIT 424 Digital Forensics Analysis and Application (3)

(Designed to help prepare for the Certified Computer Examiner [CCE] certification exam.) Prerequisites: CMIT 202 (or CompTIA A+ certification), CMIT 320 (or CompTIA Security+ certification), and CCJS 321. A project-driven study of the digital forensic evaluation process. The objective is to build forensic work-stations, collect evidence, extract artifacts, identify unknown files, and reassemble evidence from network packet captures.

CMIT 425 Advanced Information Systems Security (3)

(Designed to help prepare for the ISC2 Certified Information System Security Professional [CISSP] certification exam.) Prerequisite: CMIT 320 or CompTIA Network+ and Security+ certifications. A comprehensive study of information systems security to enhance organizational security. The goal is to manage risks by identifying and mitigating them. Students may receive credit for only one of the following courses: CMIT 425 or CMIT 499S.

CMIT 426 Mastering the AWS Cloud (3)

(Designed to help prepare for the AWS Certified Solutions Architect–Associate exam.) Prerequisite: CMIT 326. A hands-on study of Amazon Web Services (AWS). The goal is to understand the computing, networking, storage, and database services in AWS; apply best practices in building secure and reliable applications in the AWS cloud environment; and identify the appropriate AWS service to meet an organization's technical requirements.

CMIT 436 Security in the Cloud (3)

(Designed to help prepare for the ISC2 Certified Cloud Security Professional exam.) Prerequisite: CMIT 326. A hands-on study of cybersecurity and means for securing critical assets in cloud environments. The goal is to apply the principles of confidentiality, integrity, and availability (CIA) of digital resources in cloud environments.

CMIT 440 Mobile Forensics (3)

(Designed to help prepare for the IACIS Certified Mobile Device Examiner [ICMDE] certification exam.) Prerequisite: CMIT 424. A project-driven study of mobile devices from a forensic perspective. The aim is to implement various techniques to collect and analyze information from mobile devices used in forensic investigations.

CMIT 455 Implementing and Operating Cisco Enterprise Network Core Technologies (3)

(Designed to help prepare for the Cisco Certified Network Professional [CCNP] Implementing and Operating Cisco Enterprise Network Core Technologies [ENCOR] certification examination. Course completion earns a Cisco-issued digital badge on the Acclaim credentials platform.) Prerequisite: CMIT 350 or CMIT 352. A comprehensive study designed to broaden the architectural understanding and deepen the implementation skills required in today's enterprise networks. Discussion covers switching, routing, wireless, and related security topics, along with the technologies that support software-defined programmable networks. Students may receive credit for only one of the following courses: CMIT 451 or CMIT 455.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

CMIT 456 Implementing Cisco Enterprise Advanced Routing and Services (3)

(Designed to help prepare for the Cisco Certified Network Professional [CCNP] Implementing Cisco Enterprise Advanced Routing and Services [ENARSI] certification examination. Course completion earns a Cisco-issued digital badge on the Acclaim credentials platform.) Prerequisite: CMIT 455. An in-depth study of the architectural understanding and implementation skills required in today's enterprise networks. The aim is to implement and troubleshoot advanced routing technologies and services including Layer 3, VPN services, infrastructure security, infrastructure services, and infrastructure automation. Students may receive credit for only one of the following courses: CMIT 452 or CMIT 456.

CMIT 460 Network Forensics (3)

(Designed to help prepare for the Computer Security Incident Handler [CSIH] certification.) Prerequisites: CMIT 320 and CMIT 424. A project-driven study of networks from a forensics perspective. The goal is to implement various techniques that are used in forensic investigations in response to network intrusions to collect and analyze information from computer networks.

CMIT 486A Workplace Learning in Computer and Information Technology (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMIT 486B Workplace Learning in Computer Information Technology (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMIT 495 Cybersecurity Technology Capstone (3)

Prerequisite: Completion of at least 27 credits of CMIT coursework. A comprehensive project-driven study of network design and security, with an emphasis on the integration of knowledge, practical applications, and critical thinking. The objective is to implement a secure and scalable network to meet organizational needs. Topics include advanced concepts in network and security design.

CMIT 499 Special Topics in Computer Networks and Security (1–5)

An inquiry into special topics in computer networks and security that reflect the changing field. May be repeated when topics differ.

Computer Science

Courses in computer science (except CMSC 150) have higher computing requirements than the minimum technical requirements stated on p. 2624. They require an Intel Core i7 processor or higher, with speeds of 2GHz and at least 8GB RAM (16GB recommended).

CMSC 100 Social Networking and Cybersecurity Best Practices (3)

(Formerly CMIS 111.) A hands-on study of current social networking applications and approaches to protect against cyberattacks and enhance personal cybersecurity. The goal is to collaborate and interact through personal and professional social networking while developing and using computer security best practices. Discussion covers issues associated with the impact of social computing on individuals and society. Projects include creating and maintaining accounts on selected social networking sites. Students may receive credit for only one of the following courses: CMIS 111 or CMSC 100.

CMSC 105 Introduction to Problem-Solving and Algorithm Design (3)

(Formerly CMIS 102.) A study of techniques for finding solutions to problems through structured programming and step-wise refinement. The objective is to design programs using pseudocode and implement them in an appropriate programming language. Hands-on practice in debugging, testing, and documenting is provided. Topics include principles of programming, the logic of constructing a computer program, and the practical aspects of integrating program modules into a cohesive application. Algorithms are used to demonstrate programming as an approach to problem-solving. Students may receive credit for only one of the following courses: CMIS 102, CMIS 102A, CMSC 101, or CMSC 105.

CMSC 115 Introductory Programming (3)

(Formerly CMIS 141.) Prerequisite: CMSC 105 (or CMIS 102). A study of structured and object-oriented programming using the Java language. The goal is to design, implement, test, debug, and document Java programs, using appropriate development tools. Projects require the use of algorithms, simple data structures, and object-oriented concepts. Students may receive credit for only one of the following courses: CMIS 141, CMIS 141A, or CMSC 115.

CMSC 150 Introduction to Discrete Structures (3)

Prerequisite or corequisite: MATH 140. A survey of fundamental mathematical concepts relevant to computer science. The objective is to address problems in computer science. Proof techniques presented are those used for modeling and solving problems in computer science. Discussion covers functions, relations, infinite sets, and propositional logic. Topics also include graphs and trees, as well as selected applications. Students may receive credit for only one of the following courses: CMSC 150 or CMSC 250.

CMSC 215 Intermediate Programming (3)

(Formerly CMIS 242.) Prerequisite: CMSC 115 (or CMIS 141). Further study of the Java programming language. The objective is to design, implement, test, debug, and document Java programs, using appropriate development tools. Topics include object-oriented design, event driven programming, exceptions, recursion, arrays, and data structures. Students may receive credit for only one of the following courses: CMIS 242 or CMSC 215.

CMSC 307 Artificial Intelligence Applications (3)

(No programming or math background required.) An interactive, hands-on study of current artificial intelligence (AI) applications spanning multiple disciplines and domains, including business, science, communications, and computing. The goal is to use datasets with AI and machine learning applications from leading cloud vendors, including Amazon and Microsoft. Projects and laboratory exercises demonstrate how AI can be used to solve problems across a wide variety of disciplines.

CMSC 310 Computer Systems and Architecture (3)

(Formerly CMIS 310.) Prerequisite: CMSC 115 (or CMIS 141). A study of the fundamental concepts of computer architecture and factors that influence the performance of a system. The aim is to apply practical skills to computer systems architecture. Topics include data representation, assembly language, central processing unit architecture, memory architecture, and input/output (I/O) architecture. Students may receive credit for only one of the following courses: CMIS 270, CMIS 310, CMSC 310, CMSC 311, or IFSM 310.

CMSC 315 Data Structures and Analysis (3)

(Formerly CMSC 350.) Prerequisite: CMSC 215 (or CMIS 242). A study of user-defined data structures and object-oriented design in computer science. The aim is to develop secure Java programs. Topics include linked lists, stacks, queues, arrays, maps, vectors, and trees. Algorithms that perform sorting, searching, and recursion are discussed and analyzed. Students may receive credit for only one of the following courses: CMSC 315 or CMSC 350.

CMSC 320 Relational Database Concepts and Applications (3)

(Formerly CMIS 320.) Prerequisite: CMSC 115 (or CMIS 141). A study of the functions, underlying concepts, and applications of enterprise relational database management systems (RDBMS) in a business environment. The aim is to appropriately use databases to meet business requirements. Discussion covers entity/relationship diagrams, relational theory, normalization, integrity constraints, the Structured Query Language (SQL), and physical and logical design. Business case studies and projects include hands-on work using an industry-standard RDBMS. Students may receive credit for only one of the following courses: CMIS 320, CMSC 320, or IFSM 410.

CMSC 325 Game Design and Development (3)

Prerequisite: CMSC 215 (or CMIS 242). A project-driven study of the theory and practice of game design and development. The aim is to build realistic graphical 3D worlds, animate characters, and add special effects to games. Discussion covers critical mathematical concepts and real-time game physics. Projects include collaborative development of interactive games.

CMSC 330 Advanced Programming Languages (3)

Prerequisite: CMSC 315 (or CMSC 350). A comparative study of programming languages. The aim is to write safe and secure computer programs. Topics include the syntax and semantics of programming languages and run-time support required for various programming languages. Programming projects using selected languages are required.

CMSC 335 Object-Oriented and Concurrent Programming (3)

Prerequisite: CMSC 315 (or CMSC 350). A study of object-oriented and concurrent programming using features of Java. The goal is to design, implement, test, debug, and document complex robust programs in an object-oriented language. Concepts of object-oriented programming (such as composition, classification, and polymorphism) are explored. Topics include the principles of concurrent programming (such as task synchronization, race conditions, deadlock, threads, and event-driven graphic user interface programs). Programming projects are implemented in Java. Students may receive credit for only one of the following courses: CMSC 300 or CMSC 335.

CMSC 340 Web Programming (3)

Prerequisite: CMSC 115 (or CMIS 141). A study of how to develop web applications. The objective is to understand and implement networking protocols, system design, and web security. Topics include basic web architecture, core web standards (such as HTTP, HTML, and CSS), client-side scripting with JavaScript, and server-side programming with PHP.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

CMSC 345 Software Engineering Principles and Techniques (3)

(Formerly CMIS 330.) Prerequisite: CMSC 115 (or CMIS 141). A study of software engineering from initial concept through design, development, testing, and maintenance of the product. Discussion covers software development life-cycle models. The goal is to analyze, customize, and document multiple processes to solve information technology problems. Topics include configuration management, quality, validation and verification, security, human factors, and organizational structures. Students may receive credit for only one of the following courses: CMIS 330, CMIS 388A, or CMSC 345.

CMSC 405 Computer Graphics (3)

Prerequisite: CMSC 325 or CMSC 315 (or CMSC 350). A hands-on, project-based introduction to computer graphics. The goal is to develop projects that render graphic images and animate three-dimensional objects. Topics include programming in OpenGL and transforming, viewing, and modeling 2D and 3D objects.

CMSC 412 Operating Systems (3)

Prerequisite: CMIS 310 or CMSC 311. A study of the fundamental principles underlying modern operating systems. The objective is to design and implement a small-scale operating system and design a virtual memory management system. Discussion covers the essential components of a typical operating system and the interactions among them. Topics also include methods of managing processes and resources in computer systems. A programming project that implements part of an operating system is required.

CMSC 415 Distributed Database Systems (3)

Prerequisite: CMSC 320 or CMIS 320. An examination of the fundamental concepts of distributed databases. Discussion covers distributed database architecture and distributed database design, as well as relevant topics of big data management and distributed NoSQL databases.

CMSC 420 Advanced Relational Database Concepts and Applications (3)

Prerequisite: CMSC 320 (or CMIS 320), IFSM 410, or IFSM 411. A comprehensive study of the features and techniques of relational database management appropriate to the advanced end user, database designer, or database administrator. The goal is to complete hands-on work using an industry-standard enterprise relational database management system. Topics include basic database administration functions, advanced SQL and complex data types, stored procedures, user-defined functions, triggers, and data warehousing. Students may receive credit for only one of the following courses: CMIS 420, CMSC 420, IFSM 420, or IFSM 498I.

CMSC 425 Mobile App Development (3)

Prerequisite: CMSC 215 or CMIS 242. A study of techniques for designing and developing mobile applications using the Android operating system. Topics include mobile architecture, operating systems, programming languages, user interface design, and security and privacy issues related to mobile apps.

CMSC 427 Artificial Intelligence Foundations (3)

Prerequisite: CMSC 315 (or CMSC 350) or CYOP 300 (or SDEV 300). A study of the theoretical foundations and practical applications of artificial intelligence. The objective is to develop algorithms and systems to demonstrate intelligent behavior. Topics include intelligent agents, searching algorithms, knowledge representation, probability, logic, and learning.

CMSC 430 Compiler Theory and Design (3)

Prerequisite: CMSC 330. An examination of the formal translation of programming languages, syntax, and semantics. The goal is to write programs that are constructed using program generators. Topics include evaluation of finite-state grammars and recognizers; context-free parsing techniques, such as recursive descent, precedence, LL(K), LR(K), and SLR(K); and generation and improvement of machine-independent code and syntax-directed translation schema. Programming projects that implement parts of a compiler are required.

CMSC 440 Advanced Programming in Java (3)

(Formerly CMIS 440.) Prerequisites: CMSC 215 (or CMIS 242) and CMSC 320 (or CMIS 320). An exploration of advanced Java programming, using the Java Enterprise edition. The objective is to analyze, design, develop, test, deploy, and document small- to medium-scale web applications. Hands-on projects in Java server pages, servlets, and Java database connectivity are included. Students may receive credit for only one of the following courses: CMIS 440, CMIS 498A, or CMSC 440.

CMSC 451 Design and Analysis of Computer Algorithms (3)

Prerequisites: CMSC 150 and CMSC 315 (or CMIS 350). A presentation of fundamental techniques for designing and analyzing computer algorithms. The aim is to apply big-O estimates of algorithms and proof-of-correctness techniques and to design algorithms. Basic methods include divide-and-conquer techniques, search and traversal techniques, dynamic programming, greedy methods, and induction. Programming projects are included.

CMSC 465 Image and Signal Processing (3)

Prerequisites: MATH 141 and CMSC 315 (or CMSC 350). A project-driven study of image and signal processing. The goal is to apply spectral analysis techniques to analyze time series data for the purpose of recognizing and classifying signals and to apply image segmentation, representation, and description techniques to recognize and classify objects. Topics include discrete Fourier transforms, fast Fourier transforms, sampling and filtering, and image transformations and enhancements.

CMSC 486A Workplace Learning in Computer Science (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMSC 486B Workplace Learning in Computer Science (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMSC 495 Capstone in Computer Science (3)

Prerequisite(s): Either CMSC 330 and CMSC 335, CMSC 320 (or CMIS 320) and CMSC 345, or SDEV 425. An overview of computer technologies, with an emphasis on integration of concepts, practical application, and critical thinking. The goal is to research, plan, conduct, and complete collaborative computer-related projects in compliance with schedule deadlines. Analysis covers innovative and emerging issues in computer science. Assignments include working in teams throughout the analysis, design, development, implementation, testing, and documentation phases of the projects, including periodic peer reviews.

CMSC 498 Special Topics in Computer Science (1–3)

Prerequisites: Vary according to topic. A seminar on topics in computer science. May be repeated to a maximum of 6 credits when topics differ.

Computer Studies

Certain computer studies courses (CMST 308, CMST 310, CMST 311, CMST 315, CMST 320, CMST 325, CMST 330, CMST 331, CMST 341, and CMST 351) have higher computing requirements than the minimum technical requirements stated on p. 26. They require an Intel Core i7 processor or higher, with speeds of 2GHz or faster, at least 6GB of available disk space, and at least 16GB RAM (32GB recommended). Display devices should have a resolution of 1920 X 1080 or better (PCs) or 1440 X 900 retina display (Mac).

CMST 100B Word Processing (1)

(Not open to students who have completed CMST 303.) An introduction to word processing. The goal is to use word processing applications effectively to produce professional documents for business and personal communication. Topics include creating, formatting, and editing word-processing documents. Hands-on practice with industry-standard word-processing software is provided. Students may receive credit for only one of the following courses: CAPP 100B, CAPP 103, CMST 100B, or CMST 103.

CMST 100D Presentation Graphics (1)

(Not open to students who have completed CMST 303.) An introduction to the principles of presentation graphics. The goal is to use presentation graphics applications effectively to produce electronic presentations for professional and personal communication. Topics include planning and creating effective presentations. Hands-on practice with industry-standard presentation graphics software is provided. Students may receive credit for only one of the following courses: CAPP 100D, CAPP 103, CMST 100D, or CMST 103.

CMST 100F Database Applications (1)

(Not open to students who have completed CMST 303.) An introduction to database systems, their terminology, and the principles of database management. The goal is to use database management applications effectively to create professional databases. Topics include how best to organize, manage, and access stored data; how to protect databases; and how to extract useful information. Hands-on practice with industry-standard database software is provided. Students may receive credit for only one of the following courses: CAPP 100F, CAPP 103, CMST 100F, or CMST 103.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

CMST 100G Spreadsheet Applications (1)

(Not open to students who have completed CMST 303.) An introduction to the use of electronic spreadsheets to analyze numerical data, including basic terminology, formats, and other applications. The goal is to use spreadsheet applications to produce professional electronic spreadsheets effectively for business and personal use. Hands-on practice with industry-standard spreadsheet software is provided. Students may receive credit for only one of the following courses: CAPP 100G, CAPP 103, CMST 100G, or CMST 103.

CMST 290 Introduction to Interactive Design (3)

An introduction to the principles, practices, techniques, and theories that govern the use of scripting and programming languages in the design and development of interactive digital media. The objective is to effectively use proven scripting and programming theory to support digital media design for print, web, and mobile devices. Projects involve modifying existing scripting languages and HTML code as well as conducting a usability review.

CMST 295 Fundamentals of Digital Design (3)

An overview of the principles, practices, techniques, and theories that govern web and digital design. The goal is to effectively follow proven design theory in creating digital design for print, web, and mobile devices. Topics include usability, accessibility, ethics, extended reality, and emerging technologies. Career paths in the web and digital design industry are analyzed.

CMST 301 Digital Media and Society (3)

A survey of technological advancements in the field of digital media and their impact. The objective is to explain how digital media has transformed the communication of ideas in society and to make responsible choices in the creation and consumption of digital media based on awareness of global, social, ethical, and legal contexts. Topics include social media, the visual display of information, ethics and privacy, participatory media, and the impact of digital media on culture.

CMST 303 Advanced Application Software (3)

Prerequisite(s): CMST 100B, CMST 100D, CMST 100F, and CMST 100G; Microsoft Office Specialist (MOS) certifications in Word, Excel, PowerPoint, and Access; or an introductory course in Microsoft Office. A hands-on, project-based survey of advanced features of office application software. The aim is to use advanced application features to produce documents for professional and personal communication. Topics include information systems, application integration, computer hardware and software, storage, and networking. Students may receive credit for only one of the following courses: CAPP 303 or CMST 303.

CMST 308 User Experience and Interface Design (3)

A hands-on, project-based introduction to user experience (UX) and user interface (UI) design. Focus is on a user-centric, systematic, data-driven design process that includes research, concept generation, prototyping, and refinement. The goal is to evaluate user interfaces and create a working prototype using industry-standard techniques guided by usability data. Topics include human-computer interaction, user research, and career paths, as well as measuring and evaluating interface quality, wireframing, prototyping, designing virtual experiences, and storyboarding.

CMST 310 Fundamentals of Electronic Publishing (3)

A hands-on, project-based introduction to the tools, concepts, processes, and methods of electronic (desktop) publishing. The aim is to use Adobe InDesign (or another professional electronic publishing software program) to create electronic publications for various media formats following fundamental design principles. Topics include the history and evolution of publishing, working with color, incorporating graphics, principles and elements of design, publication workflow, emerging technologies, careers in the field, ethical and legal considerations, and collaborative design. Students may receive credit for only one of the following courses: CAPP 310, CAPP 398B, or CMST 310.

CMST 311 Advanced Electronic Publishing (3)

Prerequisite: CMST 310. A hands-on, project-based study of the advanced concepts, tools, processes, and methods of electronic (desktop) publishing. The goal is to use Adobe InDesign to create engaging electronic publications following fundamental design principles for print, online, and mobile devices. Topics include motion and interactivity, PDF (portable document format) publishing, emerging technologies, design issues related to mobile devices, ethical and legal considerations, collaborative work, and print and web-ready Adobe Flash files. Students may receive credit for only one of the following courses: CAPP 311 or CMST 311.

CMST 315 Game Design I (3)

A hands-on, project-based introduction to 3D video game design and programming fundamentals. The aim is to use an industry-standard 3D game engine to create a game from concept to final product. Topics include 3D game engines, 3D game design, gameplay mechanics, sound effects, C# programming, project management, 3D physics, and user interface design.

CMST 320 Illustration Graphics (3)

A hands-on, project-based introduction to illustration graphics using Adobe Illustrator. The goal is to apply fundamental concepts of vector image composition to create professional digital media for delivery across multiple platforms, including print, web, and video, following ethical principles and legal guidelines. Topics include terminology, tools, theory, and processes from concept to completion. Discussion covers Bezier curves, shading, depth, paths, drawing tools, vector versus raster images, and color theory.

CMST 325 Image Editing (3)

An introduction to digital image editing using Adobe Photoshop. The aim is to identify established digital image editing tools, techniques, and best practices; create new images; and edit existing images. Topics include terminology, tools, theory, and processes from concept to completion. Discussion covers fundamental concepts and practical techniques, as well as ethical and legal issues. Emphasis is on applying these concepts and techniques to produce high-quality digital works for multiple platforms, including print, web, and other electronic media.

CMST 330 Virtual Reality Design I (3)

Prerequisite: CMST 315. A hands-on, project-based introduction to the theories, best practices, aesthetics, techniques, and workflows used to create immersive virtual reality. The goal is to develop, test, and deploy virtual reality experiences following design theory and industry-standard best practices. Topics include human perception, 3D modeling, game design, design considerations, limitations, storytelling, mobile app development, and 360-degree video.

CMST 331 Augmented Reality Design I (3)

Prerequisite: CMST 315. A hands-on, project-based introduction to the theories, best practices, aesthetics, techniques, and workflows used to create immersive augmented reality (AR). The goal is to develop, test, and deploy AR experiences following design theory and industry-standard best practices. Topics include human-computer interaction and user experience, design principles, 3D modeling, game design, storytelling, and AR application development.

CMST 341 Principles of Multimedia I (3)

A hands-on, project-based introduction to multimedia development. The aim is to create interactive products that integrate images, sound, video, and animation following sound media design principles for optimal display in multiple media formats using Adobe Animate. Topics include storyboarding, web design, animation, motion-tweening, project management, and ethical design.

CMST 351 Motion Graphics I (3)

A hands-on introduction to the basic concepts, techniques, and principles of digital video and motion graphics effects using Adobe After Effects. The objective is to describe digital video compositing techniques; create digital composites that combine video, text, digital images, and audio; and apply visual special effects to create professional results for use on multiple platforms, such as film, video, multimedia, and the web. Topics include techniques such as basic storyboarding, key framing, transformations, and rendering, as well as effects (including levels, curves, color correction, blur, glow, fractal noise, keying, masking, and cartoon effects).

CMST 355 Content Management Systems (3)

A hands-on, project-based introduction to website development using content management systems (CMS). The goal is to use CMSs to quickly create engaging, interactive, and dynamic websites following industry-standard best practices. Topics include content publishing workflows, cross-browser compatibility, security and privacy vulnerabilities, plug-ins, themes, and templates.

CMST 385 Principles of Web Design and Technology I (3)

A study of web design, tools, and technology principles. The goal is to plan and produce a professional website. Topics include internet protocols; usability; accessibility; and social, ethical, and legal issues related to website production. Focus is on HyperText Markup Language version 5 (HTML5) and cascading style sheets (CSS). Students may receive credit for only one of the following courses: CAPP 385 or CMST 385.

CMST 386 Principles of Web Design and Technology II (3)

Prerequisite: CMST 385. Continuation of the study of web design, tools, and technology principles. The objective is to create a website promotion strategy, with search engine optimization, and produce a professional website that incorporates multimedia and scripting. Topics include website marketing, web analytics, performance, privacy, and security issues related to website production. Focus is on Extensible HyperText Markup Language (XHTML), cascading style sheets (CSS), and JavaScript. Students may receive credit for only one of the following courses: CAPP 386 or CMST 386.

CMST 387 Principles of Web Design and Technology III (3)

Prerequisite: CMST 386. A comprehensive, project-focused exploration of the techniques, tools, workflows, and industry best practices used in advanced web development. The goal is to create professional websites. Topics include web security, accessibility, inclusive design, and web performance optimization.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

CMST 388 Fundamentals of JavaScript (3)

Prerequisite: CMST 385. A hands-on, project-based study of JavaScript using a structured programming approach to build dynamic, interactive web pages. The goal is to use client-side JavaScript to create interactive, cross-browser-compatible web pages that minimize security and privacy vulnerabilities. Topics include form validation, web development tools, documentation, dynamic HTML, event handling, cross-browser compatibility, cookies, and security issues. Programming projects are included. Students may receive credit for only one of the following courses: CMST 388 or CMST 398J.

CMST 390 3D Modeling (3)

(Formerly CMST 429.) A hands-on, project-based introduction to the fundamental concepts, tools, and techniques used in 3D modeling. The aim is to use industry-standard software to design and manipulate models in three-dimensional space and to create 3D assets for virtual and augmented reality, games, animation, architecture, cinematics, and 3D printing. Topics include texturing, lighting, animation, rendering, sculpting, 3D printing, extended reality design, and career paths. Students may receive credit for only one of the following courses: CMST 390 or CMST 429.

CMST 425 Advanced Image Editing (3)

Prerequisite: CMST 325. Continued hands-on, project-based study of digital image editing using Adobe Photoshop. The objective is to identify and apply advanced design concepts, adjustments, and batch-processing techniques to creating new images and editing existing ones. Topics include more advanced terminology, tools, considerations, and processes from concept to completion. Emphasis is on advanced concepts and practical techniques to create professional images for print, web, and other electronic media. Discussion also covers ethical and legal issues.

CMST 486A Workplace Learning in Web and Digital Design (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMST 486B Workplace Learning in Web and Digital Design (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CMST 488 Advanced JavaScript (3)

Prerequisite: CMST 388. A hands-on, project-based study of web application development using advanced JavaScript technologies. The aim is to create cross-browser-compatible web applications that adhere to industry standards and minimize security risks. Topics include JavaScript libraries, user interfaces, accessibility, usability, and security. Web development projects using advanced JavaScript are included.

CMST 490 Virtual World-Building (3)

Prerequisite: CMST 315. A comprehensive, project-focused exploration of the techniques, tools, workflows, and industry best practices used in virtual reality (VR) metaverse world building. The goal is to create immersive and engaging virtual spaces and environments. Topics include 3D modeling, user interaction design and experience, aesthetics, narrative crafting, spatial audio effects, lighting, accessibility, and performance optimization.

CMST 495 Web and Digital Design Capstone (3)

Prerequisite: 24 credits of major coursework. An overview of current trends, technologies, theories, and practices in the web and digital design fields. The aim is to integrate concepts, practical application, and critical thinking acquired through previous study and apply them to professional and postgraduate objectives. Analysis covers innovative and emerging issues in web and digital design. Assignments include industry analysis, résumé design, and portfolio creation.

Criminology/ Criminal Justice

CCJS 100 Introduction to Criminal Justice (3)

(Fulfills the general education requirement in behavioral and social sciences.) An introduction to the three primary components of the criminal justice system: law enforcement, courts, and corrections. The objective is to identify the components of the system, the practitioners within the system and their role in policy formation and implementation, and the major theoretical tenets of criminal behavior. Topics include community relations, the impact of criminal behavior, and the importance of research in the field of criminal justice.

CCJS 101 Introduction to Investigative Forensics (3)

A survey of the practical applications of forensic science. The aim is to learn to apply the scientific method to forensic evidence and distinguish between reality and popular misperceptions of the roles and importance of forensic science and its practitioners. Discussion covers the “CSI effect,” the scientific method as it applies to forensic evidence, ethical practices, and legal aspects of the field. Topics include the definition of forensic science and how it has evolved, disciplines within the field, ethical codes, and case law.

CCJS 105 Introduction to Criminology (3)

(Fulfills the general education requirement in behavioral and social sciences.) An exploration of the nature and causes of crime and criminal behavior. Topics include what we rationally know about crime, theoretical explanations of criminal behavior, and how to conduct research to explore the nature and extent of crime and criminal behavior.

CCJS 230 Criminal Law in Action (3)

Prerequisite: CCJS 100. An exploration of how criminal cases are handled, including factors related to how a case is charged and criminal liability. Focus is on the substantive elements of criminal law and on the historical development of criminal law in the United States. Topics include the basic elements of and defenses to criminal liability, crimes against people, crimes against property, and the defenses and justifications commonly used to negate criminal responsibility.

CCJS 234 Criminal Procedure and Evidence (3)

A study of the general principles of criminal procedure. Emphasis is on the history and evolution of criminal procedure in the United States and the fundamental components of criminal procedure, including privacy, reasonableness, probable cause, search and seizure, search warrants, interrogations, and the trial process. Topics include the criminal justice process and the connections between the law, the criminal justice process, criminal procedure, and evidence.

CCJS 301 Criminalistics I: The Comparative Disciplines (4)

Prerequisite: CCJS 100, CCJS 101, or CCJS 105. An intensive study of the analysis of physical evidence in the crime laboratory, with practical laboratory exercises. The objective is to apply skills expected of an entry-level professional in the investigative forensics field that are necessary for the practical analysis of evidence in a criminal investigation. Topics include the comparative disciplines, including impression evidence analysis, trace evidence analysis, and firearms analysis.

CCJS 302 Criminalistics II: The Scientific Disciplines (4)

Prerequisite: CCJS 301. Further intensive study of the analysis of physical evidence in the crime laboratory, with practical laboratory exercises. The goal is to apply the skills expected of an entry-level criminalist to the practical analysis of evidence in a criminal investigation. Topics include the applications of the scientific disciplines, including bloodstain pattern analysis, questioned document analysis, controlled dangerous substances analysis, and DNA analysis.

CCJS 311 Intelligence-Led Policing (3)

Prerequisite: CCJS 100. An examination of intelligence-related processes as they apply to domestic law enforcement. The aim is to identify, collect, and assess data and process that information into intelligence that can support strategic and tactical planning. Intelligence reports are reviewed and assessed. Discussion covers the legal and ethical licenses and constraints that provide a framework for intelligence development.

CCJS 321 Digital Forensics in the Criminal Justice System (3)

(For students not majoring in criminal justice; not open to students who have completed CCJS 421; does not satisfy prerequisites for other criminal justice courses.) An overview of the criminal justice system and the application of digital forensic evidence in criminal justice cases. The objective is to apply constitutional and case law to the search and seizure of digital evidence, determine the most effective and appropriate forensic response strategies to digital evidence, and provide effective courtroom testimony in a case involving digital evidence. Topics include crime scene procedures and the collection of digital evidence, procedures performed in a digital forensics lab, and the preparation of courtroom testimony by the digital forensic investigator.

CCJS 340 Law Enforcement Administration (3)

Prerequisite: CCJS 100. An introduction to organization and management in law enforcement. The objective is to communicate effectively and apply research skills and management and administrative principles to a law enforcement agency. Topics include structure, process, policy and procedure, communication and authority, division of work and organizational controls, the human element in the organization, and informal interaction in the context of bureaucracy. Students may receive credit for only one of the following courses: CCJS 340 or CJUS 340.

CCJS 341 Criminal Investigation (3)

Prerequisite: CCJS 100. An exploration of criminal investigation as it relates to the framework of the law that governs such investigations. Emphasis is on crime scene response, the collection and evaluation of crime scene evidence, the complexity of investigative interviews, and the application of current strategies and technology to further criminal investigations.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

CCJS 342 Crime Scene Investigation (3)

Prerequisite: CCJS 100, CCJS 101, or CCJS 105. An examination of the investigation of crime scenes. The objective is to apply skills expected of an entry-level professional in the investigative forensics field. Topics include the crime scene, crime scene documentation, evidence, and post-crime scene activities.

CCJS 345 Introduction to Security Management (3)

(Formerly CCJS 445.) Prerequisite: CCJS 100. A study of the history, concepts, principles, and methods of organizing and administering security management and loss prevention activities in industry, business, and government. The objective is to manage security duties, evaluate and apply risk management principles, and evaluate administrative and operational issues. Discussion covers both private and governmental risk assessment and management and the protection of assets, personnel, and facilities. Students may receive credit for only one of the following courses: CCJS 345, CCJS 445, or CCJS 498G.

CCJS 350 Juvenile Delinquency (3)

(Fulfills the general education requirement in behavioral and social sciences.) Prerequisite: CCJS 100. An examination of juvenile delinquency in relation to the general problem of crime. The aim is to apply theories and identify statutory parameters related to juvenile delinquency, analyze prevention measures, and assess the effectiveness of treatment measures. Topics include factors underlying juvenile delinquency, prevention of criminal acts by youths, and the treatment of delinquents. Students may receive credit for only one of the following courses: CCJS 350 or CRIM 450.

CCJS 352 Drugs and Crime (3)

Prerequisite: CCJS 100. An analysis of the role of criminal justice in controlling the use and abuse of drugs. The objective is to apply effective enforcement strategies, demonstrate case management skills, and analyze the effect of drug policy. Students may receive credit for only one of the following courses: CCJS 352 or CJUS 352.

CCJS 360 Victimology (3)

(Fulfills the general education requirement in behavioral and social sciences.) Prerequisite: CCJS 100. Recommended CCJS 105. An overview of the history and theory of victimology in which patterns of victimization are analyzed, with emphasis on types of victims and of crimes. The aim is to identify and apply appropriate preventative measures and responses to victimization. Discussion covers the interaction between victims of crime and the system of criminal justice in terms of the role of the victim and the services that the victim is offered. Students may receive credit for only one of the following courses: CCJS 360 or CRIM 360.

CCJS 380 Ethical Behavior in Criminal Justice (3)

Prerequisite: CCJS 100. A survey of the standards for ethical behavior that guide criminal justice professionals in different roles and responsibilities. The aim is to make ethical decisions based on informed personal and accepted professional standards. Rules, laws, and codes of conduct are explored as a foundation for discussing individual ethical responsibilities.

CCJS 390 Cybercrime and Security (3)

An examination of crimes involving the use of computers. Topics include federal and state laws and investigative and preventive methods used to secure computers. Case studies emphasize security. Students may receive credit for only one of the following courses: CCJS 390, CCJS 496, or CCJS 498C.

CCJS 416 Analytical Strategies for Law Enforcement (3)

Prerequisite: CCJS 100 or CCJS 105. An examination of the authenticity, accuracy, viability, and reliability of intelligence reports as they relate to the application of intelligence to public safety problem-solving. The goal is to evaluate intelligence reports to formulate plans, policies, and procedures that ensure effective and efficient agency operations. Focus is on developing critical-thinking and problem-solving skills through role-playing in a simulated environment, working with near-genuine intelligence reports and public safety issues. Practice is provided in analyzing the strategies and activities detailed in intelligence reports, identifying and implementing responsive actions, and determining appropriate redistribution of such reports.

CCJS 420 Medical and Legal Investigations of Death (3)

Prerequisite: CCJS 100, CCJS 101, or CCJS 105. An intensive look at medical and legal investigations into causes of death. The objective is to perform investigative functions at a death scene, determine and apply forensic testing, and analyze and effectively communicate investigative information. Topics include the difference between the medical (or pathological) and legal (or criminal) components of investigations into causes of death, medical and investigative terminology, and the impact of ethics on prosecutions and convictions. Case studies illustrate practical applications of various forms of forensic styles and parameters.

CCJS 421 Principles of Digital Analysis (3)

Prerequisite: CCJS 321. A hands-on exploration of digital analysis based on the overarching principles of data integrity and search and comparison as they relate to digital evidence. Focus is on the data and forensic tools and methodologies used to explore these overarching principles critical to digital evidence and analysis. The comparison and correlation of digital artifacts provide a solid introduction to all facets of digital analysis.

CCJS 440 Fingerprint Analysis (3)

Prerequisite: CCJS 301 or CCJS 320. A comprehensive study of friction ridge analysis in fingerprints. Emphasis is on the practical analysis of evidence in a criminal investigation. The objective is to apply skills expected of an entry-level fingerprint professional, including assessing surfaces for viable latent fingerprints; evaluating how to process and collect latent fingerprints; analyzing, comparing, evaluating, and verifying fingerprint evidence; and conveying findings. Topics include processing and comparison methodologies, historical and biological foundations of impressions, and legal aspects.

CCJS 441 Firearms and Toolmarks Analysis (3)

Prerequisite: CCJS 301. A comprehensive study of toolmark evidence, including toolmarks imparted by firearms. Discussion covers the practical analysis of evidence in a criminal investigation. The aim is to assess toolmarks; examine, compare, evaluate, and verify firearm and toolmark evidence; and convey findings. Topics include comparison methodologies, historical and mechanical foundations of toolmarks, and legal aspects. Focus is on developing the foundational knowledge and applied skills expected of an entry-level professional in the firearms and toolmarks field.

CCJS 461 Psychology of Criminal Behavior (3)

Prerequisite: CCJS 100. An overview of delinquent and criminal behavior from a developmental, cognitive-behavioral perspective. The aim is to apply theoretical perspectives (behavioral, emotional, and cognitive) to analyze real or hypothetical criminal scenarios; to identify the various factors that encourage or discourage criminal behavior; and to explain the use of risk assessment tools at various stages of the criminal justice process. Factors that influence the development of adults and juveniles on the road to crime are examined to assess culpability for criminal behavior. Students may receive credit for only one of the following courses: CCJS 461 or CRIM 455.

CCJS 486A Workplace Learning in Criminal Justice (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CCJS 486B Workplace Learning in Criminal Justice (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CCJS 495 Criminal Justice Capstone (3)

(Intended as a final, capstone course for criminal justice majors; to be taken in a student's last 15 credits.) Prerequisites: CCJS 230, CCJS 340, CCJS 341, CCJS 345, and CCJS 380. An integrative study of the various components of the American criminal justice system. The goal is to apply principles of interagency cooperation, critical thinking, and systems approaches to solve practical problems in a criminal justice environment. Topics include problem-solving, case-study analysis, strategic planning, teamwork, and professional writing.

CCJS 497 Correctional Administration (3)

Prerequisites: CCJS 230, CCJS 340, CCJS 341, CCJS 345, and CCJS 380. An examination of prison administration, including theories of management and institutional structure and purpose. Objectives include the application of organizational concepts, leadership, and effective administrative approaches to the management of correctional institutions and offender populations. Emphasis is on concepts of organizational structure, communication, self-assessment, short- and long-term strategic operational planning, decision-making, and human resources.

Cyber Operations

Courses in cyber operations (designated CYOP) have higher computing requirements than the minimum technical requirements stated on p. 2624. They require an Intel Core i7 processor or higher, with speeds of 2GHz and at least 8GB RAM (16GB recommended).

CYOP 200 Foundations of Cyberspace Operations (3)

A hands-on introduction to the principles of cyberspace operations that support defensive and offensive processes. The objective is to navigate, integrate, and use popular cybersecurity tools and functions in a safe environment to detect and reduce system threats and vulnerabilities. Topics include strategic and tactical planning and guidance, security objectives for information systems, cybersecurity frameworks, security design principles, vulnerabilities and exploits, network and application security techniques, and automated tools for testing and security assessment.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

CYOP 300 Building Secure Python Applications (3)

(Formerly SDEV 300.) Prerequisite: CMSC 215 or CYOP 200. A hands-on study of best practices and strategies for building secure Python desktop and web applications. The objective is to design and build Python applications that are resistant to common security threats. Topics include syntax, data structures, style guides, data munging, web application frameworks, and the use of secure coding tools and processes to guard against application vulnerabilities. Students may receive credit for only one of the following courses: CYOP 300 or SDEV 300.

CYOP 310 Reverse Engineering and Malware Analysis (3)

A lab-intensive study of reverse engineering and malware analysis techniques. The objective is to recognize, dissect, and remediate infections caused by malicious code and malware using modern tools and methodologies. Topics include malware analysis, reverse engineering, common malware patterns, assembly language, debuggers and obfuscation, and packing techniques.

CYOP 325 Detecting Software Vulnerabilities (3)

(Formerly SDEV 325.) Prerequisite: CYOP 300 or SDEV 300. An in-depth, practical application of techniques and tools for detecting and documenting software vulnerabilities and risks. The goal is to research, select, and use software to analyze code and isolate and prioritize application code and processes that could lead to failure or compromise data integrity or privacy. Topics include the top 25 software vulnerabilities, secure coding guidelines, static code analysis, and software assurance metrics. Students may receive credit for only one of the following courses: CYOP 325 or SDEV 325.

CYOP 350 Database Security (3)

(Formerly SDEV 350.) Prerequisite: CMSC 320 or CYOP 200. A study of processes and techniques for securing databases. The objective is to design, build, and maintain databases to minimize risks and security attacks. Topics include privileges and roles, user accounts, encryption, authentication methods, and auditing. Students may receive credit for only one of the following courses: CYOP 350 or SDEV 350.

CYOP 355 Securing Mobile Apps (3)

(Formerly SDEV 355.) Prerequisite: CYOP 325 or SDEV 325. A hands-on study of best practices for designing and building secure mobile applications. The aim is to formulate proper defenses and processes to mitigate common attacks. Focus is on mobile device infrastructure, security models, and mobile applications. Topics include code analysis, risk modeling, native and web mobile applications security, secure mobile communication, and back-end application attacks and counterattacks. Students may receive credit for only one of the following courses: CYOP 355 or SDEV 355.

CYOP 360 Secure Software Engineering (3)

(Formerly SDEV 360.) Prerequisite: CMSC 215 or CYOP 200. An in-depth study of the processes, standards, and regulations associated with secure software engineering. The objective is to plan, manage, document, and communicate all phases of a secure software development cycle. Topics include security requirements, secure software life-cycle development, threat modeling, and Security Technical Implementation Guides (STIGs). Students may receive credit for only one of the following courses: CYOP 360 or SDEV 360.

CYOP 400 Secure Programming in the Cloud (3)

(Formerly SDEV 400.) Prerequisite: CYOP 300 or SDEV 300. A hands-on study of programming secure applications in the cloud. The goal is to design and build applications in the cloud while implementing appropriate security policies. Topics include cloud computing models, risks and security challenges of programming in the cloud, and data security. Students may receive credit for only one of the following courses: CYOP 400 or SDEV 400.

CYOP 425 Mitigating Software Vulnerabilities (3)

(Formerly SDEV 425.) Prerequisites: CYOP 325 (or SDEV 325) and CYOP 360 (or SDEV 360). An in-depth analysis and evaluation of the mitigation of software vulnerabilities. The aim is to detect and mitigate software vulnerabilities by evaluating code. Topics include language-specific software vulnerabilities, mitigation, and input validation. Students may receive credit for only one of the following courses: CYOP 425 or SDEV 425.

CYOP 455 Risk Analysis and Threat Modeling (3)

(Formerly SDEV 455.) Prerequisite: CYOP 360 or SDEV 360. An examination of the risks and threats associated with application development. The objective is to identify valuable assets, create system architecture diagrams, decompose applications, identify and prioritize threats, and document results in a threat model. Topics include security requirements and objectives, threat identification and mitigation, and calculating risk. Students may receive credit for only one of the following courses: CYOP 455 or SDEV 455.

CYOP 460 Software Security Testing (3)

(Formerly SDEV 460.) Prerequisite: CYOP 425 or SDEV 425. A hands-on study of exploits, attacks, and techniques used to penetrate application security defenses and strategies for mitigating such attacks. The objective is to apply appropriate methodologies for software penetration testing to identify application weaknesses and logic flaws and to test and create scripts for exploitation and discovery. Topics include web architecture, application infrastructure, reconnaissance, discovery, mapping, and exploitation. Students may receive credit for only one of the following courses: CYOP 460 or SDEV 460.

CYOP 486A Workplace Learning in Software Development (3)

(Formerly SDEV 486A.) Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at *umgc.edu/wkpl*). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CYOP 486B Workplace Learning in Software Development (6)

(Formerly SDEV 486B.) Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at *umgc.edu/wkpl*). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CYOP 495 Cyber Operations Capstone (3)

Prerequisite: 27 credits of major coursework. A comprehensive project-driven study of cyber operations, network collection tactics, techniques, and procedures and reverse engineering and malware analysis with an emphasis on the proactive response to triggers or unusual activity. The objective is to use appropriate tools and techniques to monitor cyber operations. Topics include wireless and virtual networks, cryptography, network monitoring and intrusion analysis, threat hunting, and secure software engineering.

Cybersecurity and Information Assurance

CSIA 300 Cybersecurity for Leaders and Managers (3)

(Designed in part to help prepare for the EC-Council Secure Computer User [CSCU] certification.) Prerequisite: Any CMIS, CMIT, CMSC, CMST, CSIA, CYOP, DATA, IFSM, or SDEV course. A survey of the cybersecurity principles, practices, and strategies required by leaders and managers to become strategic partners in the establishment, management, and governance of an enterprise's cybersecurity program. The aim is to develop both an understanding of how cybersecurity supports key business goals and objectives and the "soft skills" necessary for success in a leadership or managerial role. Topics include the fundamentals of cybersecurity practices and principles; enterprise IT governance processes and security controls; data security; the information life cycle; intellectual property protections; privacy laws and regulations; security education, training, and awareness; and the need for cooperation and collaboration between business units and the organization's cybersecurity program.

CSIA 310 Cybersecurity Processes and Technologies (3)

(Includes content designed to help in preparing for EC-Council Certified Incident Handler [ECIH] certification.) A study of the processes and technologies used to implement and manage enterprise IT security operations. The goal is to apply and integrate cybersecurity concepts and best practices with the principles of IT operations and management and to prepare for a government- and industry-recognized intermediate-level cybersecurity certification (Certified Incident Handler). Topics include the essential management and operational activities (acquisition, deployment, and operations) required to secure IT technologies and business operations against a wide variety of threats and attacks.

CSIA 350 Cybersecurity in Business and Industry (3)

(Designed to help prepare for the Program Management Institute Professional Business Analyst [PMI-PBA] certification exam.) Prerequisite: CSIA 310. A study of the application and integration of cybersecurity principles, frameworks, standards, and best practices to the management, governance, and policy development processes for businesses. The aim is to apply business analysis principles and methods to cybersecurity problems in business and industry. Discussion covers the organization, management, and governance of cybersecurity for enterprise IT in business settings; risk and risk management practices; and development and implementation of industry-wide cybersecurity initiatives and programs.

CSIA 360 Cybersecurity in Government Organizations (3)

Prerequisite: CSIA 350. A study of cybersecurity management and governance in the context of the missions, functions, and operations of federal, state, and municipal government agencies, departments, and programs. Discussion covers the policy life cycle and the mechanisms used by governments to formulate and implement laws, policies, regulations, and treaties to protect and defend government operations and society as a whole against cyberattacks and crimes, both foreign and domestic.

CSIA 413 Cybersecurity Policy, Plans, and Programs (3)

(Includes content designed to help in preparing for IAPP Certified Information Privacy Professional/US certification.) Prerequisite: CSIA 360. A study of the application of cybersecurity principles, frameworks, standards, and best practices to organization-level strategies, policies, programs, plans, procedures, and processes. The aim is to prepare to take an internationally recognized information privacy certification. Projects include writing security policies and plans, developing metrics and measures for information security programs, planning audits of compliance practices and processes, and developing organization-level security policies for enterprise IT governance. Discussion covers principles and best practices for protecting privacy and ensuring compliance with laws and regulations.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

CSIA 459 Evaluating Emerging Technologies (3)

Prerequisites: CMIT 320 and CSIA 350. A survey of emerging and leading technologies in the cybersecurity field. The aim is to research, evaluate, and recommend emerging technologies and determine secure implementation strategies for best-fit business solutions. Topics include evolutionary technology development and adoption in organizations.

CSIA 485 Cyber Management and Policy Capstone (3)

(Intended as a final, capstone course to be taken in a student's last 6 credits; includes content designed to help in preparing for the EC-Council Certified Chief Information Security Officer [CCISO] and Information Security Manager [EISM] certifications.) Prerequisites: CMIT 320 and CSIA 413. A study of cybersecurity management and policy that integrates knowledge gained from previous coursework and experience. Focus is on developing security strategies, plans, policies, and processes for the protection of an organization's critical information and assets. The goal is to enhance professional skills in cybersecurity management and leadership. Topics also include the ethical integration of cybersecurity best practices and risk management throughout an enterprise.

CSIA 486A Workplace Learning in Cybersecurity (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

CSIA 486B Workplace Learning in Cybersecurity (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experience.

Data Analytics

Courses in data analytics (except DATA 200, DATA 300, DATA 320, and DATA 335) have higher computing requirements than the minimum technical requirements stated on p. 26. They require an Intel Core i7 processor or higher, with speeds of 2GHz and at least 8GB RAM (16GB recommended).

DATA 200 Data Literacy Foundations (3)

An introduction to data and data literacy designed to enhance one's ability to understand and work in today's data-driven world. The aim is to collect, manage, evaluate, and apply data in a critical manner and examine the role, significance, and implications of data, including ethical issues within a society, in organizations, or for individuals. Focus is on developing skills in data manipulation, analysis, and visualization to generate insights from data, build knowledge, and make decisions. Topics include the effective use of cloud-based data storage, collaboration, and communication techniques.

DATA 230 Mathematics for Data Science (3)

Prerequisites: STAT 200 and MATH 115 (or MATH 107 and MATH 108) or higher. A practical introduction to the mathematical principles applied within the context of data science. The aim is to understand the mathematical basis of data science and increase awareness of machine learning algorithm assumptions and limitations. Machine learning topics include linear regression, dimensionality reduction, and classification. Projects involve application of linear algebra, probability, vector calculus, and optimization to build data science solutions.

DATA 300 Foundations of Data Science (3)

Prerequisite: STAT 200. An examination of the role of data science within business and society. The goal is to identify a problem, collect and analyze data, select the most appropriate analytical methodology based on the context of the business problem, build a model, and understand the feedback after model deployment. Emphasis is on the process of acquiring, cleaning, exploring, analyzing, and communicating data obtained from variety of sources. Assignments require working with data in programming languages such as Python, wrangling data programmatically, and preparing data for analysis, using libraries like NumPy and Pandas.

DATA 320 Introduction to Data Analytics (3)

Formerly DATA 220. Prerequisite: STAT 200. A practical introduction to the methodology, practices, and requirements of data science to ensure that data is relevant and properly manipulated to solve problems and address a variety of real-world projects and business scenarios. Focus is on the application of foundational statistical concepts to describing datasets with summary statistics, simple data visualizations, statistical inference, and predictive analytics. The objective is to use data to draw conclusions about the underlying patterns that drive everyday problems through probability, hypothesis testing, and linear model building.

DATA 330 Business Intelligence and Data Management (3)

A hands-on, project-based introduction to databases, business intelligence, and data management. The aim is to design secure industry-standard databases and utilize business intelligence and data management techniques and technologies to support decision-making. Topics include data and relational databases, SQL queries, business intelligence tools, and overall alignment with business strategy. Students may receive credit for only one of the following courses: DATA 330 or IFSM 330.

DATA 335 Data Visualization (3)

Prerequisite: DATA 320. An overview of the fundamentals of data visualization principles in the context of business and data science. Practical focus is on data visualization of different data types, including time series and multidimensional data, and on creating dynamic tables, heatmaps, infographs, and dashboards. Hands-on projects require exploring data visually at multiple levels to find insights to create a compelling story and incorporating visual design best practices to better communicate insights to the intended audience, such as business stakeholders. Projects are selected from a wide range of content areas, such as retail, marketing, healthcare, government, basic sciences, and technology.

DATA 430 Foundations of Machine Learning (3)

Prerequisite: DATA 300. A hands-on introduction to machine learning principles and methods that can be applied to solve practical problems. Topics include supervised and unsupervised learning, especially linear regression, logistic regression, decision tree, naïve Bayes, and clustering analysis. Focus is on using data from a wide range of domains, such as healthcare, finance, marketing, and government, to build predictive models for informed decision-making. Discussion also covers handling missing data, performing cross-validation to avoid overtraining, evaluating classifiers, and measuring precision.

DATA 440 Advanced Machine Learning (3)

Prerequisites: DATA 230 and DATA 430. A project-based study of advanced concepts and applications in machine learning (ML), such as neural networks, support vector machines (SVM), ensemble models, deep learning, and reinforced learning. Emphasis is on building predictive models for practical business and social problems, developing complex and explainable predictive models, assessing classifiers, and comparing their performance. All stages of the ML life cycle are developed, following industry best practices for selecting methods and tools to build ML models, including Auto ML.

DATA 445 Advanced Data Science (3)

Prerequisites: DATA 335 and DATA 430. A project-based introduction to the concepts, approaches, techniques, and technologies for managing and analyzing large datasets in support of improved decision-making. Activities include using technologies such as Spark, Hive, Pig, Kafka, Hadoop, HBase, Flume, Cassandra, cloud analytics, container architectures, and streaming real-time platforms. Discussion covers how to identify the kinds of analyses to use with big data and how to interpret the results.

DATA 450 Data Ethics (3)

Prerequisite: DATA 430. A study of ethics within the context of data science, machine learning, and artificial intelligence. Emphasis is on examining data and model bias; building explainable, fair, trustable, and accurate predictive modeling systems; and reporting responsible results. Topics include the technology implications of human-centered machine learning and artificial intelligence on decision-making in organizations and government and the broader impact on society, including multinational and global effects.

DATA 460 Artificial Intelligence Solutions (3)

(Designed to help prepare for the AWS Certified Machine Learning or Microsoft Designing and Implementing an Azure AI Solution exam.) Prerequisite: DATA 430. A hands-on, project-based study of artificial intelligence and machine learning solutions to complex problems. Topics include natural language processing, computer vision, and speech recognition.

DATA 495 Data Science Capstone (3)

Prerequisites: DATA 440, DATA 445, and DATA 450. A project-based, practical application of the knowledge, technical skills, and critical-thinking skills acquired during previous study designed to showcase one's data science expertise. Individually selected projects include all phases of the machine learning life cycle and a peer-reviewed final report and presentation. Topics are selected from student-affiliated organizations or employers, special government/private agency requests, or other faculty-approved sources in a wide range of domains, such as healthcare, financial services, marketing, sciences, and government.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

Economics

ECON 103 Economics in the Information Age (3)

A survey of basic concepts and principles in micro- and macro-economics and how the economy has been affected by technology. The aim is to define and explain the key terms and concepts in economics and determine how technology has affected consumers, producers, and markets, as well as economic growth and policy. Topics include how innovation affects labor markets, the value of information, and the role of technological change in the economy.

ECON 201 Principles of Macroeconomics (3)

An introductory study of the macroeconomy. The objective is to apply select macroeconomic theories to real-world situations. Discussion covers economic growth, technological innovation, unemployment, inflation, and the roles of monetary policy and fiscal policy in determining macroeconomic performance. Students may receive credit for only one of the following courses: ECON 201 or ECON 205.

ECON 203 Principles of Microeconomics (3)

An analysis of the economic principles underlying the behavior of individual consumers and business firms. The goal is to apply select microeconomic theories to real-world situations. Emphasis is on market theory. Topics include the implications of government intervention, technological innovation, the advantages and disadvantages of different market structures, and income distribution and poverty.

ECON 305 Intermediate Macroeconomic Theory and Policy (3)

Prerequisite: ECON 201. An analysis of the forces that determine a nation's income, employment, and price levels. The aim is to analyze macroeconomic indicators and trends and evaluate their impact. Topics include consumption, investment, inflation, and governmental fiscal and monetary policy. Students may receive credit for only one of the following courses: ECON 305, ECON 403, or ECON 405.

ECON 306 Intermediate Microeconomic Theory (3)

Prerequisite: ECON 203. An analysis of the principles underlying the behavior of individual consumers and business firms. The objective is to analyze microeconomic indicators and trends and evaluate their impact. Discussion covers theories of welfare, taxation, marketing systems, and income distribution. Students may receive credit for only one of the following courses: ECON 306 or ECON 403.

ECON 330 Business and Economics of Sustainability (3)

An introduction to natural resource and environmental economics. The objective is to apply basic economic literacy to environmental issues important to business and develop appropriate responses to help enterprises, government agencies, or advocacy organizations gain strategic advantage in the business environments in which they operate. Topics include benefit-cost analysis, valuation, market failure, pollution control, sustainable development, market-based environmental policy, and the economics of renewable and nonrenewable resource management. Business issues related to the environment, such as recycling, the circular economy, environmental offsets, corporate social responsibility, and green certification, are explored.

ECON 430 Money and Banking (3)

Prerequisites: ECON 201 and ECON 203. An examination of the structure of financial institutions and their role in providing money and near money. The goal is to evaluate how the banking and business environment has changed, describe the functions and measurement of money, discuss and evaluate the money supply creation process, and analyze the impact of the Federal Reserve's policies on both the U.S. economy and the economies of other nations. Topics include the composition of the Federal Reserve, the money supply creation process, the tools of monetary policy, the term structure of interest rates, the demand for and supply of money, and interest rate theories. Students may receive credit for only one of the following courses: ECON 430 or ECON 431.

ECON 440 International Economics (3)

Prerequisites: ECON 201 and ECON 203. An examination of international trade and finance theory and their application to contemporary economic issues. The aim is to use economic frameworks to explain international trade and financial flows and analyze information and data on economic policy and institutions. Topics include the costs and benefits of trade, exchange rate markets, global financial imbalances, regional trading blocks, and the role of international economic institutions. Students may receive credit for only one of the following courses: BEHS 440, ECON 440, or ECON 441.

EDCP

EDCP 102 Integrated Skills for Academic Success

(Does not fulfill the general education requirement in communications. Enrollment restricted to students for whom English is a not a first language. Recommended as preparation for WRTG 101, WRTG 101X, or upper-level writing courses.) A review of basic writing skills. Topics include parts of speech; proper use of subordinate clauses, independent clauses, and phrases; the writing process; strategies for developing academic paragraphs and essays; and strategies for developing writing and editing skills in grammar, punctuation, and mechanics. Frequent opportunities to practice and refine skills are provided. Students may receive credit for only one of the following courses: EDCP 103, EDCP 103X, or ENGL 100.

Emergency Management

EMGT 302 Concepts of Emergency Management (3)

Prerequisite: WRTG 112 or equivalent. An introduction to emergency management at global, national, regional, state, and local levels. The objective is to identify and analyze forces that formulate policy; apply the principles of policy and law to real-world situations; and analyze emerging political, legal, and policy issues to improve organizational preparedness. Topics include preparedness, mitigation, response, and recovery. The history of emergency management is reviewed, and its future in government and industry is discussed.

EMGT 304 Emergency Response Preparedness and Planning (3)

Prerequisite: EMGT 302. A study of the planning process, format, and response procedures for disasters and emergency events. The goal is to evaluate risk vulnerabilities and capabilities, design an emergency plan, and evaluate and critically assess an emergency plan. Topics include risk assessment, modeling, hazard analysis, vulnerability assessment, and response capability assessment. Discussion also covers the evaluation of plans and the use of exercises to improve and implement plans.

EMGT 310 Continuity of Operations Planning and Implementation (3)

An exploration of the process for developing, implementing, exercising, and evaluating continuity of operations for both government and industry. The goal is to introduce continuity planning in the public and private sectors of our society, specifically the role continuity planning plays in building community resiliency and how it interacts with emergency management programs and planning. Topics include the role of continuity planning in the nation's enduring constitutional government; ways that continuity planning makes communities and organizations more disaster resilient; the planning and operational components of continuity plans and programs; and the roles of continuity planning in mitigating the effects of cyberattacks and pandemic events.

EMGT 312 Social Dimensions of Disaster (3)

An examination of the response of the public and individuals to disaster-related issues such as disaster warnings, evacuations, relocations, civil unrest, loss of family and property, and recovery activities. The aim is to evaluate social factors that contribute to increased risk of disaster, design plans and processes that consider social factors, and design strategies and plans to enable communication with diverse social groups. Emphasis is on preparing the community through effective programs and public information. Topics include the impact of disasters on response organizations and personnel.

EMGT 314 Terrorism Issues in Emergency Management (3)

A comprehensive study of the role and responsibilities of the emergency manager in preparing for, responding to, mitigating, and recovering from situations related to terrorism. The aim is to devise and prepare plans, follow appropriate guidelines, and make use of interagency dynamics in planning for and responding to terrorism. Discussion covers the role of first responder groups and other stakeholders and links the protection of critical infrastructure to national, state, and local guidelines.

EMGT 486A Workplace Learning in Emergency Management (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

EMGT 486B Workplace Learning in Emergency Management (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

English

ENGL 102 Composition and Literature (3)

(Fulfills the general education requirements in communications or arts and humanities.) Prerequisite: WRTG 112. Further practice in writing using readings in literature. Focus is on academic writing forms, especially critical analysis of literature, through a variety of modes, such as comparison and contrast, classification, and causal analysis. Students may receive credit for only one of the following courses: ENGL 102 or ENGL 292.

ENGL 103 Introduction to Mythology (3)

(Formerly HUMN 103.) A foundation in ancient mythology, focusing on Greek and Roman myths. Discussion may also cover Norse, Irish, Chinese, Arabic, and Hindu myths, among others. Emphasis is on examining various classical myths as expressed through plays, poems, and stories. The objective is to demonstrate an understanding of the differences between myths, legends, and other similar genres and show how classical world mythology still influences contemporary society. Students may receive credit for only one of the following courses: ENGL 103 or HUMN 103.

ENGL 240 Introduction to Fiction, Poetry, and Drama (3)

Prerequisite: WRTG 112 or ENGL 102. An introduction to fiction, poetry, and drama, with an emphasis on developing critical reading and writing skills. The objective is to identify and define elements of literature and literary genres, analyze literary texts using principles of close reading, and demonstrate skill in academic writing. Students may receive credit for only one of the following courses: ENGL 240 or ENGL 340.

ENGL 250 Introduction to Women's Literature (3)

Prerequisite: WRTG 112 or ENGL 102. An overview of multiple forms of writings by and about women from various periods and cultures. The aim is to read critically, understand diverse perspectives, and write effectively about women's literature.

ENGL 281 Standard English Grammar (3)

(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112 or ENGL 102. An overview of standard edited English, a standard central to academic and professional communications. The aim is to write clear, effective prose consistent with the writer's goals. Topics include applying advanced grammatical and linguistic descriptions and prescriptions and attending to the needs of diverse audiences while making writing and editing decisions. Tasks focus on parts of speech, sentence patterns, and sentence transformations. Students may receive credit for only one of the following courses: ENGL 281, ENGL 281X, or WRTG 288.

ENGL 294 Introduction to Creative Writing (3)

Prerequisite: WRTG 112 or ENGL 102. An introductory survey and practical study of key aspects of literary writing. The objective is to produce original creative writing and to critique, revise, and edit that writing from a writer's perspective. Constructive, collaborative processes are employed to better understand the art and craft of creative writing. Topics may include poetry, fiction, creative nonfiction, or drama.

ENGL 303 Critical Approaches to Literature (3)

(Designed as a foundation for other upper-level literature courses.) Prerequisite: WRTG 112 or ENGL 102. A study of the techniques of literary criticism, emphasizing close reading, critical thinking, and critical writing. The goal is to apply a variety of theoretical approaches to literature, analyze texts, and create professional written communications.

ENGL 310 Renaissance Literature (3)

Prerequisite: WRTG 112 or ENGL 102. A study of major British authors and literary works from the English Renaissance period. The goal is to gain historical perspective and discern contemporary relevance by exploring social and cultural contexts.

ENGL 311 The Long 18th-Century British Literature (3)

Prerequisite: WRTG 112 or ENGL 102. A study of major British authors and literary works from the period known as the long 18th century, roughly from the Restoration through the Age of Sensibility (1660–1830s). The goal is to gain historical perspective and discern contemporary relevance by exploring social and cultural contexts.

ENGL 312 19th-Century British Literature (3)

Prerequisite: WRTG 112 or ENGL 102. A study of major British authors and literary works from the historical eras known as the Romantic Age and the Victorian Age. The goal is to gain historical perspective and discern contemporary relevance by exploring social and cultural contexts.

ENGL 363 African American Authors from the Colonial Era to 1900 (3)

Prerequisite: WRTG 112 or ENGL 102. An examination of African American authors before 1900, including Phillis Wheatley, Frances Harper, Maria W. Stewart, David Walker, Frederick Douglass, William Wells Brown, Charles Chesnutt, and Paul Laurence Dunbar. The goal is to research historical issues; integrate findings into discussion; and articulate, develop, and advance a persuasive argument in written form.

ENGL 364 African American Authors from 1900 to Present (3)

Prerequisite: WRTG 112 or ENGL 102. An examination of early 20th-century to early 21st-century African American authors, including James Weldon Johnson, Zora Neale Hurston, Richard Wright, James Baldwin, Ann Petry, Helene Johnson, Dorothy West, and Langston Hughes. The goal is to research historical issues; integrate findings into discussion; and articulate, develop, and advance a persuasive argument in written form. Students may receive credit for only one of the following courses: ENGL 364 or HUMN 364.

ENGL 381 Special Topics in Creative Writing (3)

Prerequisite: WRTG 112 or ENGL 102. A study of special creative writing topics. The goal is to develop creative writing skills within the scope of the special topic. Focus may be on a specific format (such as the novella, novel, or screenplay) or genre (such as mystery, horror, or teen fiction; travel writing; or epic poetry). May be repeated to a maximum of 6 credits when topics differ.

ENGL 384 Advanced Grammar and Style (3)

(Fulfills the general education requirement in communications but is not a writing course.) Prerequisite: WRTG 112 or ENGL 102. An examination of the basic units of grammatical descriptions, the nature of grammatical categories and structure, the methods and reasons for creating and using those structures, and the application of grammatical concepts to editorial and written style. The focus is on creating dynamic texts that convey complex subject matter to diverse audiences. Students may receive credit for only one of the following courses: ENGL 384 or WRTG 388.

ENGL 386 History of the English Language (3)

Prerequisite: WRTG 112 or ENGL 102. An examination of the development and usage of the English language. The objective is to explore various texts and research tools to examine the linguistic heritage and continuing evolution of English. Discussion traces the history of English from its origins and examines contemporary issues and controversies.

ENGL 389 Special Topics in English Literature (1–3)

An in-depth introduction to literary works written by a specific author or authors, representative of a literary movement or produced in a specific time or place. Assignments include advanced reading and research. Students may receive credit for a given topic in either ENGL 289 or ENGL 389 only once.

ENGL 406 Shakespeare Studies (3)

Prerequisite: WRTG 112 or ENGL 102. An intensive study of Shakespeare's work and its continuing relevance with reference to historically specific social and cultural contexts. The objective is to evaluate and synthesize source materials, apply critical theory, and demonstrate understanding of dramatic text. Histories, comedies, tragedies, romances, and sonnets may be examined. Students may receive credit for only one of the following courses: ENGL 406 or HUMN 440.

ENGL 418 Major British Writers Before 1800 (3)

Prerequisite: WRTG 112 or ENGL 102. A comprehensive and intensive study of one or two British writers from the period before 1800. The aim is to apply critical reading and thinking skills to analyze and interpret major British works before 1800 from various perspectives (social, historical, political, intellectual, and biographical). Authors studied may include Chaucer, Spenser, Marlowe, Jonson, Milton, Defoe, Richardson, Fielding, Pope, Swift, or Johnson. May be repeated to a maximum of 6 credits when topics differ.

ENGL 430 Early American Literature (3)

Prerequisite: WRTG 112 or ENGL 102. A study of early American literature. The aim is to examine literary periods, movements, and styles; interpret literature as a reflection of national and world events; recognize the differences among types of American literary works; and apply critical methodology. Topics include Indigenous narratives, revolution and government, American romanticism, slavery, women's rights, the Civil War and Reconstruction, and naturalism and realism.

ENGL 433 Modern American Literature (3)

Prerequisite: WRTG 112 or ENGL 102. A study of modernist American fiction, poetry, nonfiction, and drama. The goal is to interpret and analyze literature in its social and historical contexts. Topics include the literary movement of modernism and application of critical theory.

ENGL 439 Major American Writers (1–3)

Prerequisite: WRTG 112 or equivalent. A study of works by selected American authors from the colonial period to the present. The goal is to understand the place these authors and their works hold in the canon of American literature. Emphasis is on the impact of historical and social events, as well as biographical influences, on the literature. May be repeated to a maximum of 6 credits when topics differ.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

ENGL 441 Postmodern American Literature: 1945 to 1999 (3)

Prerequisite: WRTG 112 or ENGL 102. A comprehensive study of literature in America from 1945 till the end of the 20th century. The objective is to interpret American literature as a reflection of national and world events, recognize the differences among types of American literary works, and apply critical methodology. Topics include the American Dream; war; fear and paranoia; rebellion and counterculture; civil rights, feminist, and gay movements; post-modernism; and multiculturalism.

ENGL 459 Contemporary Global Literatures (3)

Prerequisite: WRTG 112 or ENGL 102. An advanced examination of contemporary literary texts by diverse writers that addresses the connections between geographical regions, history, and social justice. The goal is to demonstrate critical, interpretative, and analytical skills in reading and writing as well as apply contemporary theory. Literature studied covers various genres, including poetry, fiction, and memoir, some in multimedia form. Works by canonical and emerging writers are examined to understand established and current discourse in the field. Writers covered may vary from term to term.

ENGL 495 English Literature Capstone (3)

Prerequisites: ENGL 250, ENGL 303, and at least 9 additional credits of upper-level ENGL courses. A synthesis and application of knowledge and skills developed by previous study in the discipline. The goal is to refine skills and explore ways that they may be applied after graduation. Focus is on reviewing and revising previously written papers and/or projects to create a comprehensive portfolio. Assignments include the creation of the portfolio and writing original papers on one's professional postgraduate objectives and the current status of the discipline.

Environmental Health and Safety

ENHS 300 Environmental Systems (3)

Prerequisite: CHEM 297. An introduction to environmental systems and the impact of human activities on the environment. The goal is to explore the Earth's systems, including the biosphere, lithosphere, hydrosphere, and atmosphere, and recognize the complex interconnections of natural and human systems to gain a deeper understanding of human drivers of environmental change and environmental health and safety concerns. Topics include systems thinking, impacts of resource development and use, and general scientific principles and concepts related to environmental systems (e.g., biogeochemical cycles, flow of energy, biodiversity, soil, water, and air). Students may receive credit for only one of the following courses: ENHS 300 or ENMT 301.

ENHS 305 Environmental Health and Safety Regulations (3)

Prerequisite or corequisite: ENHS 300. An analysis of the development, use, and implementation of constitutional and administrative law in environmental health and safety management. The goal is to practice information literacy skills to locate applicable policies, laws, and regulations and to apply knowledge of process and regulatory communication systems for effective environmental health and safety management. The emphasis is on federal legislation and the use of the *Federal Register* and *Code of Federal Regulations*. Discussion explores the relationship between regulations and public policy at local, state, and federal levels. Students may receive credit for only one of the following courses: ENHS 305, ENMT 303, or ENMT 493.

ENHS 310 Hazardous Substances and Toxicology (3)

An exploration of hazardous substances and their effects on human health and the environment. The aim is to examine hazards and risk factors to determine mechanisms leading to injury and damaging health outcomes. Topics include hazard identification and communication, fundamentals of toxicology, task safety analysis, and occupational and environmental exposure science.

ENHS 315 Risk Assessment in Environmental Health and Safety (3)

An examination of the general concepts of risk assessment as applied to environmental health and safety practice. The aim is to incorporate best practices for risk assessment, analysis, and mitigation recommendations for effective management of change. Topics include ecological and human risk assessment; risk perception; risk transfer options; and identification of methods, databases, and tools to characterize risk.

ENHS 320 Incident Response and Investigation (3)

An introduction to incident planning, response, investigation, analysis, and management. The objective is to synthesize data and evidence to develop recommendations for prevention or mitigation of future incidents. Topics include the incident command system, hazardous substances emergency response, incident analysis and investigation methods, and workplace violence prevention.

ENHS 325 Fire Prevention and Protection (3)

An overview of fire prevention and protection as applied to environmental health and safety. The objective is to implement evidence-based practices and strategies to address physical and chemical hazards that may result in a fire or explosion event. Topics include fire science, chemical and electrical hazards, detection and suppression systems, hot work, life safety, and chemical process safety.

ENHS 330 Safety and Security Management (3)

Prerequisite: ENHS 305. A detailed exploration of safety and security management systems applied to the occupational environment. The aim is to implement evidence-based workplace interventions to clarify issues and contributing factors and to evaluate the effectiveness of interventions. Topics include hazard control methods, performance indicators, construction safety practices, fleet safety, inspections and audits, change management, safety culture, and voluntary consensus standards.

ENHS 335 Occupational Health and Industrial Hygiene (3)

Prerequisite: ENHS 310. An investigation of work-related impacts on human health and the environment. The goal is to anticipate, recognize, evaluate, control, and confirm effectiveness of controls for occupational health hazards and risk factors through the practice of industrial/occupational hygiene. Topics include exposure assessment and management, indoor environmental quality, ventilation, return-to-work programs, susceptible worker protection, and worker privacy.

ENHS 340 Environmental Technology and Control (3)

Prerequisite: ENHS 300. An introduction to technology for environmental health and safety management, control, and remediation. The objective is to apply appropriate technological solutions to air, land, and water to prevent, treat, detect, and remediate pollution. Discussion covers existing, modified, new, and emerging technologies, as well as factors in making technology application decisions for waste removal, treatment, and disposal. Students may receive credit for only one of the following courses: ENHS 340 or ENMT 340.

ENHS 350 Introduction to Geographic Information Systems (3)

An introduction to the basic concepts of geographic information systems (GIS). The aim is to apply critical-thinking and problem-solving skills to address current environmental and watershed challenges using GIS software and develop skills in framing problems effectively and ethically. Activities include selecting data; creating and building databases; editing, analyzing, and presenting data in a spatial context; and interpreting and communicating results. Students may receive credit for only one of the following courses: ENHS 350 or ENMT 307.

ENHS 360 Introduction to Watershed Management (3)

Prerequisite or corequisite: ENHS 300. A comprehensive examination of watershed management with a focus on design practices. The aim is to apply critical thinking and build the professional skills in science, management practice, regulatory processes, and stakeholder engagement required to implement watershed and stormwater management in the United States. Topics include watershed characterization, hydrologic processes, land use impacts on watersheds, water quality and quantity, and the design of structural and nonstructural best management practices. Students may receive credit for only one of the following courses: ENHS 360 or ENMT 360.

ENHS 400 Ergonomics and Human Factors (3)

A foundation in ergonomics, human factors, and best practices for worker training. The aim is to apply basic principles of anthropometry, human factors engineering, biomechanics, and work practice controls to prevent injuries and illnesses. Topics include descriptive statistics, qualitative and quantitative data analysis, assessment of worker competency and fitness for duty, and adult learning theory. Assignments include performing a needs and gap analysis for worker learning and development.

ENHS 405 Pollution Prevention Strategies (3)

Prerequisite: ENHS 300. An overview of alternative environmental strategies to prevent, reduce, and minimize pollution. The goal is to integrate knowledge about environmental management systems and regulations. Topics include source reduction, conservation, material substitution, process modifications, quality assurance/control, water minimization, and economic analysis for regulatory compliance related to these strategies. Students may receive credit for only one of the following courses: ENHS 405 or ENMT 405.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

ENHS 495 Environmental Health and Safety Capstone (3)

Prerequisites: ENHS 300, ENHS 305, ENHS 310, ENHS 315, ENHS 330, ENHS 335, and ENHS 340. A project-driven study of core competencies in environmental health and safety professional practice. The objective is to propose, conduct, and report on an applied project activity to demonstrate depth of technical knowledge in at least one hazard or risk factor area. Topics include legal liability, evidence-based professional and ethical practice, leadership, communication and consultation, collaborative project management, and conflict management.

Experiential Learning

EXCL 301 Prior Learning Portfolio (3)

(Students should visit umgc.edu/priorlearning or contact priorlearning@umgc.edu for complete requirements.) Prerequisite: Formal admission to the program. Instruction in the preparation of a portfolio documenting college-level learning gained through life experiences. The aim is to translate prior life experiences into college credit by developing a portfolio that documents and presents learning specific to targeted courses. Faculty evaluators assess completed portfolios to recommend credit award.

EXCL X001 Supplement to Prior Learning Portfolio (0)

(Students should visit umgc.edu/priorlearning or contact priorlearning@umgc.edu for complete requirements.) Prerequisite: EXCL 301. An opportunity to prepare additional portfolios for courses not previously targeted. The aim is to translate prior life experiences into college credit by developing a portfolio that documents and presents learning specific to targeted courses. Faculty evaluators assess completed portfolios to recommend credit award.

Field Study

UMGC field study courses enable you to earn university credit while traveling to sites of historical or cultural significance throughout the world. Field study courses are available in a variety of subject areas and credit can be awarded at both the lower- and upper-levels. Before enrolling, you should contact a UMGc academic advisor to determine how a course may apply toward a specific degree program.

Field study courses include the same number of contact hours as equivalent on-site or online courses, with the main difference being that the majority of coursework is done in an accelerated format. You may register for a field study course at any time during the academic year prior to the registration deadline for the

course. Note that some field study courses may have a separate fee to cover transportation, lodging, or site entry fees.

Finance

FINC 321 Fundamentals of Building Wealth (3)

(Formerly BMGT 342. For students majoring in both business and nonbusiness disciplines.) A practical overview of personal finance management and wealth creation that blends financial theory and application. The goal is to develop personal financial management skills (e.g., budgeting income and expenditures and planning for financial security and retirement) and understand elements of the U.S. financial structure (including savings and investment alternatives, financing and credit sources, and the role of insurance in protecting income and assets). These skills are utilized in the development of a personal financial plan. Students may receive credit for only one of the following courses: BMGT 342, BMGT 388F, BMGT 388N, FINC 321, or FINC 322.

FINC 328 Small Business Finance (3)

A project-driven study of small business and entrepreneurial finance that emphasizes the financial knowledge and tools needed to develop a successful venture from start-up through growth and maturity. The goal is to identify, assess, and explain the key decision-making processes required of a small business entrepreneur or financial manager. Topics include financial statement analysis, capital acquisition, legal and regulatory compliance, budgeting, forecasting, and client and vendor relationships. Projects include creation of a financial plan and completion of a loan application. Discussion also covers contemporary issues related to finance.

FINC 330 Business Finance (3)

Prerequisites: ACCT 221 and STAT 200. An overview of the theory, principles, and practices of financial management in a business environment. Topics include financial analysis and financial risk, characteristics and valuations of securities, capital investment analysis and decision-making, the capital structure of the firm, financial leverage, and international finance. The aim is to examine financial information, identify issues and solve business problems, and make sound business decisions. Emphasis is on the application of financial theory and methods for solving the problems of financial policy that managers face. Students may receive credit for only one of the following courses: BMGT 340, FINC 330, MGMT 398D, or TMGT 320.

FINC 331 Finance for the Nonfinancial Manager (3)

Development of the financial skills needed by functional experts in human resources, marketing, production, and general management. The objective is to interpret finance and accounting documents and apply that information to sound business decision-making. Topics include financial statements and forecasting, capital budgeting, project evaluation, working capital management, stocks and bonds, time value of money, and international financial management. Emphasis is on practical applications to facilitate informed discussions with business professionals for financial decision-making. Students may receive credit for only one of the following courses: BMGT 341 or FINC 331.

FINC 335 FinTech, Financial Institutions, and Markets (3)

An overview of the interplay of financial markets, financial institutions, and technology. Topics include the characteristics and roles of financial markets and institutions. Focus is on evaluating what drives the term structure of interest rates. The aim is to be able to discuss how emerging technologies are used in the financial services industry and how they affect delivery of financial products and services such as insurance, investment advising, and wealth management.

FINC 340 Investments (3)

(Formerly BMGT 343.) Prerequisites: FINC 330 and FINC 335. An introduction to financial investments and portfolio management. The goal is to evaluate and critically analyze asset selection and allocation and perform basic portfolio management activities. Topics include types of securities and securities markets; investment risks, returns, and constraints; portfolio policies and management; and institutional investment policies. Theories, practices, and real-world examples are examined and analyzed. Students may receive credit for only one of the following courses: BMGT 343 or FINC 340.

FINC 351 Risk Management (3)

(Formerly BMGT 346.) A study focused on recognizing and evaluating pure risk facing organizations. The aim is to identify risks to cost control and develop risk management strategies. Discussion covers guides for risk-management decisions concerning the retention, control, and transfer of risk (including insurance). Students may receive credit for only one of the following courses: BMGT 346 or FINC 351.

FINC 352 Life and Health Insurance (3)

A study of the tools and principles of life and health insurance in financial planning for businesses and individuals. The goal is to assess personal needs in order to determine which types of life and health insurance plans fit best. Topics include pension planning strategies, such as deferred-compensation and profit-sharing plans; use of trusts in business and in planning individual estates; and comprehensive analysis of the effects of income taxes, estate taxes, and gift taxes on life insurance and estate planning. Students may receive credit for only one of the following courses: BMGT 347 or FINC 352.

FINC 355 Retirement and Estate Planning (3)

(Content aligned with the Certified Financial Planner [CFP] curriculum.) A comprehensive study of retirement and estate planning techniques for individuals, families, and businesses. The aim is to evaluate retirement plans, analyze regulatory considerations of retirement planning, and apply estate planning techniques for businesses and families. Topics include retirement planning and estate planning, as well as regulations relevant to the financial services industry. Discussion covers processes of retirement planning (retirement need, investments, taxes, Social Security, Medicare, qualified versus nonqualified plans, and tax-advantage plans) and estate planning (wills, trusts, asset protection, and life insurance).

FINC 421 Financial Analysis (3)

(For students with general business interests, as well as those majoring or minoring in accounting or finance.) Prerequisite: FINC 340. An analysis and interpretation of financial statements directed at the decision-making needs of managers, stockholders, and creditors. The aim is to analyze and interpret financial information, apply financial information directly to valuation models, and evaluate growth strategies to maximize company value. Topics include assessment of business performance, projection of financial requirements, analysis of capital investment decisions and financing choices, risk assessment, and valuation. Students may receive credit for only one of the following courses: BMGT 498Q or FINC 421.

FINC 430 Financial Management (3)

Prerequisite: FINC 340. A study of financial management. The objective is to apply financial principles and concepts to assess and solve financial problems and make financial and corporate policy at the executive level. Topics include assessments of the financial health of the organization, company valuation, cost of capital, risk analysis, investment decisions, and financial systems and capital markets. Students may receive credit for only one of the following courses: BMGT 440 or FINC 430.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

FINC 440 Security Analysis and Valuation (3)

Prerequisites: FINC 340. A comprehensive and quantitative examination of financial investments and portfolio management. The aim is to quantitatively evaluate and value assets, critically analyze asset selection and allocation, and apply financial statistics and other evaluation methods to perform basic portfolio management activities and functions. Topics include the analysis, valuation, and selection of securities; investment risks, returns, and constraints; portfolio policies and management; institutional investment policies; and the operation and efficiency of financial markets. Theory, practice, and real-world examples are analyzed to value financial assets and compare alternatives. Students may receive credit for only one of the following courses: BMGT 443 or FINC 440.

FINC 450 Commercial Bank Management (3)

Prerequisites: FINC 330 and FINC 340. An analysis of commercial bank management. The aim is to examine how the changing commercial banking environment has affected profitability and evaluate bank business strategies. Discussion covers the loan function and the management of liquidity reserves, investments for income, and sources of funds. The objectives, functions, policies, organization, structure, services, and regulations of banks are considered. Students may receive credit for only one of the following courses: BMGT 445 or FINC 450.

FINC 460 International Finance (3)

Prerequisite: FINC 340. An analysis and discussion of financial management issues for the multinational enterprise. The aim is to use financial and economic strategies in quantitative decision-making. Topics include the organization and functions of the foreign exchange market and international capital markets; financing foreign trade; and identifying, analyzing, and evaluating the globalization strategies of the multinational enterprise. Students may receive credit for only one of the following courses: BMGT 446 or FINC 460.

FINC 486A Workplace Learning in Finance (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

FINC 486B Workplace Learning in Finance (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at www.umuc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

FINC 490 Financial Plan Development (3)

(Content aligned with the Certified Financial Planner [CFP] curriculum.) Prerequisites: ACCT 323, FINC 321, FINC 340, FINC 352, and FINC 355. A thorough review of financial planning principles and applications, based on case studies. The objective is to gather and analyze data, evaluate the impact of governmental regulations and economic changes, and effectively communicate a comprehensive financial plan to clients. Topics include taxes, estates, asset protection, debt, credit, investments, insurance, economic theories, the financial planning process, ethics, and risk.

FINC 495 Finance Capstone (3)

(Intended as a final, capstone course to be taken in the student's last 15 credits.) Prerequisites: FINC 330 and FINC 340. A study of finance that integrates knowledge gained through previous coursework and experience and builds on that conceptual foundation through integrative analysis, academic research, practical application, and critical thinking. The objective is to apply financial theories and contemporary financial practices to business issues. Emerging issues in finance and business are considered. Individual and group case studies and research papers are used to integrate key financial knowledge in the areas of financial analysis, investments, business valuation, risk, and international finance. Students may receive credit for only one of the following courses: BMGT 495 or FINC 495.

Fire Science

FSCN 302 Fire and Emergency Services Administration (3)

A presentation of modern management and planning techniques that apply to organizing a fire department. The objective is to apply management concepts to fire service administration and analyze the community approach to risk reduction. Discussion covers procedures for evaluation and control of budgeting, personnel, communications, and planning. Topics also include the traditional and evolving roles of the fire department in protection, prevention, and community service.

FSCN 304 Personnel Management for Fire and Emergency Services (3)

Prerequisite: FSCN 302. An examination of personnel practices, including management procedures, collective bargaining, binding arbitration, and applicable legislative and administrative procedures. The aim is to manage emergency service personnel; develop, communicate, and implement organizational goals and objectives; and lead personnel in compliance with regulations and within an ethical framework. Topics include promotion, personnel development, career and incentive systems, validation of physical requirements, and managerial and supervisory procedures.

FSCN 305 Fire Prevention Organization and Management (3)

Prerequisite: FSCN 302. An examination of prevention as the primary community-based strategy for fire protection. The objective is to design, implement, and manage programs addressing community risks; administer prevention programs; and influence change and development of legislation, regulation, and policy. Emphasis is on applying principles to anticipate problems and develop strategies for fire prevention. Topics include community risk reduction, codes and standards, inspections and plans review, incident investigation, fire-prevention research, and the relationship of master planning to fire prevention. The cultural, economic, governmental, nongovernmental, and departmental influences on fire prevention are also explored.

FSCN 413 Community Risk Reduction for the Fire and Emergency Services (3)

Prerequisites: FSCN 304 and FSCN 305. An examination of the ethical, sociological, organizational, political, and legal components of community risk reduction. The goal is to analyze environments and design and develop a community risk reduction plan and implement that plan. A framework for understanding these issues and a methodology for developing a comprehensive community risk reduction plan are provided.

FSCN 416 Emergency Services Training and Education (3)

Prerequisites: FSCN 304 and FSCN 305. An examination of the management and administration of training and education in fire and emergency services. The objective is to manage and administer development programs, integrate concepts in training programs, and analyze and assess programs. Discussion explores how higher education/training contributes to the professional development of fire-service personnel. Topics include the many systems of training and education available and professional development on both individual and organizational levels. Focus is on safety, especially understanding and preventing training deaths and injuries.

Geology

GEOL 100 Physical Geology (3)

An introductory study of geology, encompassing the Earth, the materials that constitute its makeup, the structure of those materials, and the processes acting on them. The goal is to understand geological principles and how humans affect geological processes. Topics include the rocks and minerals composing Earth, the movement within Earth, and its surface features and the agents that form them and our environment. Discussion also covers energy and mineral resources. Students may receive credit for only one of the following courses: GEOL 100 or GEOL 101.

Gerontology

GERO 100 Contemporary Issues in Aging (3)

(Fulfills the general education requirement in the behavioral and social sciences.) A multidisciplinary exploration of aging in the 21st century with an emphasis on the policies, evidence-based approaches, and attitudes that promote healthful aging. Activities include skill-building exercises. The objective is to locate and read scholarly sources, create effective presentations in different modalities, and communicate with and on behalf of older people.

GERO 301 Service/Program Management (3)

(Fulfills the general education requirement in behavioral and social sciences.) An exploration and analysis of the managerial aspects of providing health and human services in the field of gerontology through an integrated delivery system. The aim is to integrate concepts, strategies, and best practices for the management of health and human services. Topics include planning, strategic management, marketing, financing, legal issues, and capacity building.

GERO 302 Health and Aging (3)

An exploration of the physiological processes of aging that covers normal aging and chronic illness. The goal is to distinguish normal aging from disease and evaluate factors that affect the health of older adults. Topics include biological processes and theories of aging, bodily changes normally associated with aging, long-term and healthcare systems, and related medical terminology. Review also covers substance abuse; environmental factors affecting aging; and ways of promoting health, preventing disease, and assessing health risks.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

GERO 306 Programs, Services, and Policies (3)

An overview of the impact of policy related to older adults on U.S. society. The aim is to examine the role of legislative mandates on older adults at both societal and individual levels. Topics include Social Security, Medicare, and the Older Americans Act. Students may receive credit for only one of the following courses: GERO 304 or GERO 306.

GERO 311 Gender and Aging (3)

(Fulfills the general education requirement in behavioral and social sciences.) An analysis and discussion of issues related to gender and the aging process. The goal is to evaluate and challenge negative, socially constructed assumptions associated with gender and aging, as well as examine gender-relevant issues in health and well-being after midlife. Discussion covers life transitions, socioeconomic status, culture, family and social relationships, ageism, and sexuality and health as each relates to gender. The impact of public policy and services on gender and aging is also addressed. Students may receive credit for only one of the following courses: GERO 311 or GERO 497E.

GERO 320 Psychosocial Aspects of Aging (3)

(Fulfills the general education requirement in behavioral and social sciences.) An advanced multidisciplinary examination of the psychosocial forces that affect the aging process. Aspects of aging are analyzed from a number of theoretical perspectives found in psychology, sociology, and social gerontology. The goal is to articulate the impact of biological, sociocultural, and life-cycle forces on psychological and social well-being in post-midlife. Topics include normative and atypical psychological and social functioning in post-midlife; the social construction of aging; and the impact of aging, ageism, and longevity on social structures such as the family, work, retirement, and healthcare. Students may receive credit for only one of the following courses: GERO 220, GERO 320, or PSYC 357.

GERO 338 Health Promotion in Older Adults (3)

A project-based exploration of health promotion for an aging population. The objective is to articulate different models of health promotion for older adults and design a health promotion campaign.

GERO 342 Long-Term Care Administration (3)

An overview of the administrative and operational issues of long-term care facilities. The aim is to identify common forms of long-term care and articulate the responsibilities of a long-term care administrator. Relationships with personnel and administrative structure are examined. Topics include policy, procedures, insurance, and financing. Discussion also covers the ethical and legal concerns of long-term care.

GERO 390 The Business of Aging (3)

A comprehensive study of the sources of economic security for older adults, the problems encountered in retirement, and the impact of an aging population on the nation's economy. The goal is to outline the key sources of economic security received by older adults (including Social Security, pensions, personal savings, Medicare, and Medicaid); examine how economic security varies by race, ethnicity, gender, and social status as people age; evaluate how longevity and the "graying" of society affect the nation's economy; and explore potential solutions to the problems posed by entitlement programs. Topics include retirement planning; financing longevity; health, disability, and long-term-care costs; economic disparities by social group; and the international economics of aging.

GERO 427 Culture and Aging (3)

(Fulfills the general education requirement in behavioral and social sciences.) An interdisciplinary examination of how different cultures interpret and deal with aging and the life cycle. Focus is on the increasingly heterogeneous aging population in the United States. The goal is to raise critical awareness of how aging is experienced across cultures. Topics include cross-cultural theory and research on aging; global demographics of aging; cross-cultural perspectives of norms and values regarding work, family, and community roles for older adults; the social and economic status of older adults; intergenerational relationships; ethical caregiving; end-of-life issues; social services; and social policy. Health disparities among older adults of certain ethnicities within the United States are also addressed. Students may receive credit for only one of the following courses: GERO 327, GERO 410, or GERO 427.

GERO 486A Workplace Learning in Gerontology (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

GERO 486B Workplace Learning in Gerontology (6)

Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

GERO 495 Special Topics in Development and Health (1–3)

Specialized study in gerontology and related topics focusing on issues in development and health. May be repeated to a maximum of 6 credits when topics differ.

GERO 496 Special Topics in Social and Family Relations (1–3)

Specialized study in gerontology and related topics focusing on social and family relations. May be repeated to a maximum of 6 credits when topics differ.

GERO 497 Special Topics in Administration and Planning (1–3)

Specialized study in gerontology and related topics focusing on administration and planning. May be repeated to a maximum of 6 credits when topics differ.

Government and Politics

GVPT 100 Introduction to Political Science (3)

A survey of the basic principles of political science. The objective is to define the main features of primary systems of political economy to understand differing methods of governance and articulate consequences of government actions in a globally interdependent system. Topics include the relationship of political science to the other social sciences; modern democracy, political ideology, and political socialization; the function of public opinion, mass media, interest groups, and political parties; the basic institutions of government and the separation of powers; and the role of international relations and globalization.

GVPT 101 Introduction to Political Theory (3)

An overview of the main schools of political theory, including democracy, authoritarianism, and alternative theories. The aim is to demonstrate familiarity with important thinkers and major works in the history of political theory; use theoretical language to analyze and critique political behavior and events; identify the strengths and weaknesses of different forms of government; and demonstrate knowledge of crucial concepts (justice, power, authority, the state, social contract, etc.) and their history. Topics include the philosophical foundations of liberalism, socialism, and conservatism and the core political concepts of justice, power, and authority.

GVPT 170 American Government (3)

A comprehensive study of government in the United States, including the basic principles of American government and political culture. The aim is to explain the vertical and horizontal structure of the American government and the roles of the three federal branches, bureaucracies, and the state governments; describe the development of the American political system and its impact on the political landscape; and explain the processes of the electoral system, political parties, and interest groups to persuade and influence. Institutions, processes, and public policies are examined from a cross-cultural perspective.

GVPT 200 International Political Relations (3)

A study of the major factors underlying international relations, the methods of conducting foreign relations, and the means of avoiding or alleviating international conflicts. The objective is to interact with global communities, contribute to policy formation, analyze differing worldviews, and apply historical and cultural contexts to identify probable outcomes of disputes. Students may receive credit for only one of the following courses: GVPT 200 or GVPT 300.

GVPT 210 Introduction to Public Policy and Public Administration (3)

Prerequisite: GVPT 100. An introduction to the study of the administrative process in the executive branch and the structure and function of the federal system. The aim is to apply the mechanisms of policy formulation to the budgetary process, analyze the nature of public personnel policy and the fundamentals of organization theory, and evaluate the impact of new technologies on public organizations. Topics include the organizational structure, the political cultural environment, intergovernmental relations, performance management, social equity, and public administration and public finance administration.

GVPT 280 Comparative Politics and Government (3)

An introductory study of institutional patterns and trends in a variety of countries with dissimilar governmental styles. The goal is to compare the stages of political development in the modern state system on a spectrum ranging from liberal democracies to authoritarian regimes. Discussion covers ethnic conflict and economic inequality in relation to the success and failure of governmental approaches in solving compelling issues.

GVPT 306 Global Political Economy (3)

A study of the relationship between political and economic processes in international affairs. Discussion covers the effect of globalization on the global environment, the economy, world peace, the power of the nation-state, and inequality between nation-states.

GVPT 308 International Human Rights (3)

An examination of the principles and practices governing human rights from ancient times to contemporary international conventions and U.N. declarations. The aim is to analyze, evaluate, and discuss present national/international pushes for human rights and emancipation. Students may receive credit for only one of the following courses: GVPT 308 or GVPT 399Y.

GVPT 403 Law, Morality, and War (3)

A study of just war traditions. The objective is to make informed decisions and analyze conflict. Discussions cover the theoretical and practical connections between law, war, and morality.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

GVPT 406 Global Terrorism (3)

An examination of the development of global terrorism and its impact on the international community. The goal is to participate in strategy and policy formulation and implementation, evaluate threats, and assess infrastructures that support global terrorist organizations. Students may receive credit for only one of the following courses: GVPT 401A or GVPT 406.

GVPT 407 State Terrorism (3)

An examination of the use of force and power (terrorism) by states against various populations to advance the interests of their civilization or state. The objective is to apply knowledge of culture, tradition, ideology, and methodology to comprehend state terrorism; analyze risk to national security; and explain how domestic climates and international relationships interact to support state terrorism. Topics include state behavior and norms; state interests, power, and force; application of power and force; and coercion within and among civilizations. Students who have completed GVPT 401B or GVPT 401C may not receive credit for GVPT 407.

GVPT 408 Counterterrorism (3)

An investigation of counterterrorism (including its historical context), focusing on the evaluation of threats and the formulation of defeat strategies. The aim is to evaluate response strategies, help improve offensive and defensive planning, and construct a defeat strategy for a terrorist threat. Students may receive credit for only one of the following courses: GVPT 399H or GVPT 408.

GVPT 409 Terrorism, Antiterrorism, and Homeland Security (3)

An expanded study of global terrorism and the impact on the homeland security of the United States in the 21st century. The objective is to investigate the relationship between the evolving terrorism threat environment and its impact on the U.S. homeland. Topics include partners and approaches to detect, defeat, or mitigate terrorism and various ways the nation readies its diverse communities to identify threats, respond, and protect critical infrastructure. Students may receive credit for only one of the following courses: GVPT 409 or GVPT 498X.

GVPT 444 American Political Theory (3)

A study of the development and growth of American political concepts from the colonial period to the present. The objective is to apply the rule of law to the decision-making process; interpret, apply, and synthesize the concepts of individual rights and collective responsibilities; and evaluate the interconnection between war, peace, and diplomacy.

GVPT 457 American Foreign Relations (3)

A study of the principles and machinery of American foreign relations. The goal is to apply historical themes of American foreign policy to contemporary international relations, incorporate tenets of international law into American diplomatic approaches, and inform and influence policy making. Emphasis is on the conduct of the U.S. Department of State and the Foreign Service. Analysis covers the major foreign policies of the United States.

GVPT 475 The Presidency and the Executive Branch (3)

A study of the president's influence on legislative matters, the president's function in the executive branch (including domestic and foreign policy), and the president's role in his or her political party. The aim is to analyze contemporary uses of the presidency, evaluate an election strategy, and communicate realities of the presidential office.

GVPT 486A Workplace Learning in Government and Politics (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

GVPT 486B Workplace Learning in Government and Politics (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

GVPT 495 Political Science Capstone (3)

Prerequisites: WRTG 112 and 9 upper-level credits of GVPT coursework. A study of political science that integrates knowledge gained through previous coursework and experience. The aim is to build on that conceptual foundation through integrative analysis, practical application, and critical thinking. Concepts and methods of political science are applied in producing a political, policy, or position paper for a project organization.

Graphic Communication

GRCO 100 Introduction to Graphic Communication (3)

(Access to Adobe Photoshop and Illustrator required.) An introduction to graphic communication and the various roles and responsibilities of the profession. The aim is to demonstrate the skills and knowledge necessary for graphic communication professionals. Design theories and content are explored through hands-on projects. Topics include industry standards, portfolios, and research and assessment practices.

GRCO 230 Typography and Layout (3)

Prerequisites: GRCO 100 and ARTT 120. An introduction to typography and layout as compositional tools to construct graphic communications. The goal is to analyze and determine appropriate typefaces and apply typographical skills to layout design. Emphasis is on the individual aspects of the letterform and the interrelationship of letters on the page. Discussion covers the process of design, from research to comprehensive mock-up, to produce portfolio-quality designs.

GRCO 350 Intermediate Graphic Communication: Portfolio Development (3)

Prerequisite: GRCO 230. The development of a professional graphic communications portfolio. The goal is to assemble a select body of work for web presentation that demonstrates knowledge of color, typography, composition, and design. Projects are designed to synthesize and refine basic design skills. Emphasis is on gathering the elements of a cohesive portfolio and presenting a personal body of work. Students may receive credit for only one of the following courses: ARTT 250 or GRCO 350.

GRCO 354 Digital Media (3)

(Formerly ARTT 354.) Prerequisite: GRCO 230. An introduction to digital media and design. The objective is to use current technologies in raster and vector image creation, two-dimensional animation, and the integration of text with graphics in cohesive layouts and to develop and oversee static and animated digital media projects through all stages of production. Focus is on advanced illustrative techniques for animated digital media, web graphics, and social media on a commercial level. Students may receive credit for only one of the following courses: ARTT 354 or GRCO 354.

GRCO 355 Digital Media II (3)

Prerequisite: GRCO 354. Further examination of design for interactive media that incorporate raster- and vector-based visuals, video files, and brand generation. The goal is to use current technologies to develop functional static and responsive multimedia layouts for a range of platforms, including desktop, handheld, and mobile devices. Discussion covers strategies for developing work for a variety of output applications. Focus is on production of portfolio-caliber projects that simulate real-world work experience.

GRCO 450 Advanced Graphic Communication: Professional Branding (3)

Prerequisites: GRCO 350 and GRCO 355. A review of professional branding and development of a portfolio and personal branding package. The objective is to synthesize, refine, and expand an existing portfolio to reflect personal branding. Focus is on refining a portfolio through peer review, critique, and assessment. Projects include creating a personal mission statement, identity package, and video component.

GRCO 479 Motion Graphics (3)

(Formerly ARTT 479.) Prerequisite: GRCO 354 or ARTT 354. A study of media production. Discussion covers the aesthetic and practical aspects of creating moving images in a short movie or documentary. The goal is to understand the principles of preproduction, production, and postproduction. Students may receive credit for only one of the following courses: ARTT 479 or GRCO 479.

GRCO 486A Workplace Learning in Graphic Communication (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

GRCO 486B Workplace Learning in Graphic Communication (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

GRCO 495 Graphic Communication Capstone (3)

Prerequisites: GRCO 479 and completion of 24 credits in the graphic communication major. A portfolio-driven study of business and professional practices in the field of graphic communication. The goal is to be prepared for a career in graphic communication. Activities include review of existing work, creation of portfolio projects, and production of a professional portfolio (including a résumé). Focus is on applying skills (in areas such as motion graphics, typography, digital media, illustration, and commercial design) acquired through previous study. Students may receive credit for only one of the following courses: ARTT 495 or GRCO 495.

Health Services Management

HMGT 300 Introduction to the U.S. Healthcare Sector (3)

Prerequisite: WRTG 112 or WRTG 101. An overview of healthcare organizations in the United States and current and emerging concepts, trends, policies, and issues in healthcare. The aim is to explain the structure of the U.S. healthcare sector, understand the role of healthcare managers in meeting industry standards of care, and apply knowledge of healthcare workforce issues to solve management challenges. Students may receive credit for only one of the following courses: BMGT 361, HMGT 100, or HMGT 300.

HMGT 307 Managerial Epidemiology and Decision-Making in Healthcare (3)

Prerequisites: HMGT 300 and STAT 200. An overview of epidemiologic principles and tools applicable to decision-making in healthcare. The objective is to apply the basic principles of descriptive epidemiology to healthcare planning, directing, controlling, organizing, staffing, and financial management; critically evaluate the factors that influence the health status of populations served; and distinguish among study designs in terms of causal inference and sources of bias. Focus is on applying epidemiological and decision-making tools to integrative decision-making in healthcare.

HMGT 310 Healthcare Policies (3)

Prerequisite: HMGT 307. An overview and analysis of public policies that govern the organization, delivery, and financing of health services in the United States. The aim is to evaluate national, state, and local policies to determine their impact on the delivery of healthcare services.

HMGT 320 Management in Healthcare Organizations (3)

Prerequisite: HMGT 307. An introduction to management in the healthcare services field. The aim is to explain key management concepts and apply them to the management of health services organizations. Discussion covers the management skills and capabilities that are essential for effective supervision and leadership. An overview of the unique requirements of healthcare organizations and their management is provided. Focus is on the application of essential management and leadership skills in a healthcare environment. Students may receive credit for only one of the following courses: BMGT 367 or HMGT 320.

HMGT 322 Healthcare Financial Management (3)

Prerequisites: HMGT 300 (or BMGT 361) and HMGT 310. An overview of the acquisition, allocation, and management of the financial resources of healthcare organizations. Economic and accounting practices are discussed in terms of budget administration, cost analysis, financial strategies, and internal controls. The goal is to examine financial information and regulatory requirements and policies, identify issues and solve problems, and make sound financial decisions in the healthcare field. Students may receive credit for only one of the following courses: HMGT 322 or HMGT 440.

HMGT 335 Healthcare Marketing (3)

Prerequisite: HMGT 307. An examination of the makeup of the healthcare market, the role of marketing in the delivery of healthcare, and relevant consumer behavior. Topics include basic principles and key concepts related to the design and implementation of marketing efforts in health services organizations. The goal is to develop and evaluate healthcare marketing plans. Discussion covers the marketing process and the development and analysis of strategic healthcare marketing plans.

HMGT 372 Legal and Ethical Issues in Healthcare (3)

Prerequisite: HMGT 300 or NURS 300. An examination of legal and ethical issues encountered in healthcare management and the ramifications of those issues on the delivery of health services and patient care. The aim is to apply ethical principles and practice within legal and ethical standards of healthcare.

HMGT 400 Research and Data Analysis in Healthcare (3)

Prerequisites: HMGT 320 and STAT 200. An introduction to research methods and the process of data identification and analysis in the healthcare field. The objective is to inform healthcare decision-making and formulate research hypotheses. Emphasis is on the analytic process, especially in the presentation and interpretation of results. Topics include the use of healthcare databases, the analysis of problems and issues, and evaluation of research in healthcare settings. Students may receive credit for only one of the following courses: HMGT 398C or HMGT 400.

HMGT 420 Healthcare Facilities Management (3)

Prerequisite: HMGT 320. An examination of the organization and operation of hospitals and freestanding ambulatory care centers, with a focus on the manager's role in internal operations and external relations. The objective is to understand the key issues driving healthcare facilities management and apply sound management principles to ensure successful operations. Discussion covers managed care programs and their impact on healthcare facilities management.

HMGT 435 Healthcare Economics (3)

Prerequisites: HMGT 300 (or BMGT 361) and HMGT 310. A comprehensive and analytical study of basic economics and its relationship to the delivery of healthcare. The aim is to apply the principles of economics to healthcare management and to anticipate the impact of economics on the outcomes of healthcare management decisions. Topics include the microeconomic aspects of the organization and delivery of healthcare, financing and other major components of the healthcare system, and economic factors that influence the delivery of healthcare.

HMGT 486A Workplace Learning in Health Services Management (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HMGT 486B Workplace Learning in Health Services Management (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HMGT 495 Strategic Planning and Leadership in Healthcare (3)

(Intended as a final, capstone course to be taken in a student's last 15 credits.) Prerequisite: HMGT 320. A study of strategic planning and leadership within a healthcare organization. The aim is to integrate the knowledge and experience gained from previous study and build on that conceptual framework through analysis, practical application, and critical thinking. Leadership qualities and skills are also covered.

History

HIST 115 World History I (3)

A survey of global civilizations from prehistory to the 1500s. The aim is to explain the impact of environmental conditions on the development of civilizations using basic geographical knowledge; describe how human contacts, global connections, and migrations contribute to the development of civilizations; and compare the development of institutions (social, political, familial, cultural, and religious) to explain their impact on societal transformations. Focus is on examining what history is and thinking critically about history by analyzing historical approaches and methods.

HIST 116 World History II (3)

A survey of global civilizations from the 1500s to the present. The aim is to explain the development of new political and economic systems using basic geographical knowledge; describe how human contacts, global connections, and migrations contribute to the development of nations and global systems; and compare the development of institutions (social, political, familial, cultural, and religious) to explain their impact on societal transformations. Focus is on examining what history is and thinking critically about history by analyzing historical approaches and methods.

HIST 125 Technological Transformations (3)

A focused survey of the intersection of technology and history and the evolutionary process that marks what we call progress. The objective is to apply historical precedent to everyday responsibilities and relationships in order to advance the goals and ideals of contemporary society; compare and contrast historical eras; and describe how events influence our sense of time, space, and technology.

HIST 141 Western Civilization I (3)

A survey of the history of Western civilization from antiquity through the Reformation. The objective is to chart major societal changes; identify major conflicts and wars; describe the evolution of religions; and recognize how philosophy and the arts reflect and influence peoples' lives, cultures, and societies. The political, social, and intellectual developments that formed the values and institutions of the Western world are examined.

HIST 142 Western Civilization II (3)

A survey of the history of Western civilization from the Reformation to modern times. The goal is to chart major societal changes; identify major conflicts and wars; describe the evolution of religions; and recognize how philosophy and the arts reflect and influence peoples' lives, cultures, and societies.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

HIST 156 History of the United States to 1865 (3)

A survey of the United States from colonial times to the end of the Civil War. The establishment and development of national institutions are traced. The aim is to locate, evaluate, and use primary and secondary sources and interpret current events and ideas in a historical context. Students may receive credit for only one of the following courses: HIST 156 or HUMN 119.

HIST 157 History of the United States Since 1865 (3)

A survey of economic, intellectual, political, and social developments since the Civil War. The objective is to use primary and secondary sources to describe U.S. historical events and interpret current events and ideas in a historical context. Discussion covers the rise of industry and the emergence of the United States as a world power. Students may receive credit for only one of the following courses: HIST 157 or HUMN 120.

HIST 202 Principles of War (3)

A study of the nine classic principles that guide the conduct of war at the strategic, operational, and tactical levels and form the foundation of the art and science of the military profession. The aim is to use primary and secondary historical resources to explore how past theory and practice have shaped the underlying policy, strategic planning, and operational procedures of today's military and national security agencies.

HIST 289 Historical Methods (3)

Prerequisite: A 100-level HIST course. An introduction to historical methods, approaches, and techniques. The goal is to explain what history is and why it matters, identify historical paradigms, and employ the moral and ethical standards of the historical profession. Focus is on the philosophical and practical skills employed by historians.

HIST 309 Historical Writing (3)

Prerequisite: HIST 289. A study of the historical research and writing process. The goal is to construct a framework for an original historical research project, locate and evaluate source materials, and demonstrate proficiency in research methods.

HIST 316L The American West (3)

An examination of the exploration, settlement, development, and mythology of the American West, from 1490 to 1990, with attention paid to the role of the West as a key factor in the formation of national identity. Assignments include advanced reading and research.

HIST 326 The Roman Republic (3)

Prerequisite: Any writing course. A study of ancient Rome during the period 753 to 44 BC, from its founding to the assassination of Julius Caesar. The goal is to use primary and secondary historical resources to explore Roman thought, demonstrate its influence in the modern Western world, and apply it to modern contexts. Focus is on Rome's conquest of the Mediterranean world, the social and political pressures that led to that conquest, and the consequent transformation and decline of the republic. Students may receive credit for only one of the following courses: HIST 326 or HIST 421.

HIST 337 Europe and the World (3)

An analysis of how European powers shaped and were shaped by global events between 1884 and 1989 from the Conference of Berlin to the fall of the Berlin Wall. Emphasis is on the reciprocal relationships between great cities and the outposts of European culture worldwide. The objective is to examine the interplay between Europe and colonial regions, subjects, cultures, politics, economies, and immigration.

HIST 365 Modern America (3)

A comprehensive survey course that examines the history of the United States from 1933 to 2001. Discussion covers the expanding federal government; the Cold War and its legacy; the struggle over constitutional rights; and the changing landscape of American culture, society, and politics. The goal is to understand the impact of domestic and global issues on American society.

HIST 377 U.S. Women's History: 1870 to 2000 (3)

An examination of the history of women in the United States from 1870 to the eve of the 21st century. The goal is to examine primary and secondary sources and documents to comprehend and articulate the impact of gender on the historical experiences of American women. Historical methodologies that focus on the ways in which race, class, ethnicity, and sexuality have shaped these experiences are used to analyze the varied experiences of U.S. women. The relationship between these experiences and the larger historical forces of the era, including social movements, technology, and changing family roles and structure, is evaluated. Students may receive credit for only one of the following courses: HIST 211, HIST 367, or HIST 377.

HIST 381 America in Vietnam (3)

Prerequisite: A writing course. An examination of the complexity of the lengthy involvement of the United States in Vietnam. The goal is to engage in divergent historical interpretations and develop personal conclusions and perspectives about America's role in Vietnam and its legacy. Discussion covers the social, cultural, political, and military dimensions of the Vietnam War, beginning with the declaration of Vietnamese independence at the conclusion of World War II. Emphasis is on influence of the media in shaping government policy and public opinion. Students may receive credit for only one of the following courses: BEHS 337 or HIST 381.

HIST 392 History of the Contemporary Middle East (3)

Prerequisite: A writing course. A survey of the history of the Middle East from the late 19th century to the present. The aim is to identify the important events of the last century in the Middle East; understand the sources of contention in that area; and examine the ideology, politics, and culture of the area and how they impact U.S.–Middle East relations. Focus is on major political, economic, social, and cultural trends that inform current events in the region. Topics include the late Ottoman Empire, European colonialism, the rise of nationalism and nation-states, the Arab-Israeli conflict, political Islam, the role of the United States in the region, and contemporary approaches to modernity in the Middle East.

HIST 461 African American History: 1865 to the Present (3)

Prerequisite: A writing course. An examination of African Americans in the United States since the Civil War. The objective is to examine the significance of the emancipation of African Americans and various leadership and philosophical perspectives within the African American community. Topics include emancipation and Reconstruction; segregation, accommodationism, and institution building; migration and urbanization; resistance and the birth and growth of the civil rights movement; and the problem of race and racism as a national issue with global impact in the modern world.

HIST 462 The U.S. Civil War (3)

An examination of the origins, conduct, and impact of the American Civil War and Reconstruction (1850–77). The goal is to apply historical methodology to issues of the Civil War and Reconstruction; assess Civil War strategies, tactics, and operations; and evaluate how race, culture, politics, and technology affected the course of the Civil War and Reconstruction.

HIST 464 World War I (3)

Prerequisite: Any writing course. An intensive study of the First World War. Topics include the development of nationalism and socialism in late 19th-century Europe, the causes of the First World War, trench warfare on the western front, war in the Balkans, total war on the home fronts, the Russian Revolution of 1917, the collapse of the Central Powers, the 1918 settlements, the postwar conflicts that continued to haunt Europe until 1923, and the concept of the Lost Generation.

HIST 465 World War II (3)

An investigation of the global issues and events that led to the Second World War. Emphasis is on analyzing the factors that contributed to the competing ideologies, as well as the social, political, and economic conditions that ignited the most lethal conflict in human history. The goal is to understand the causes, nature, and outcome of the Second World War and the impact on the world in which we live.

HIST 480 History of China to 1912 (3)

A study of the history of China from Confucius (around 500 BC) to the demise of the Qing dynasty in 1912. The objectives are to interpret, educate, and advise others based on a historical, cultural, and social awareness of traditional China. Emphasis is on the changes within Chinese political, social, cultural, and philosophical structures that have molded the history of China and its peoples.

HIST 482 History of Japan to 1800 (3)

Prerequisite: A writing course. An examination of traditional Japanese civilization from the age of Shinto mythology to the late Edo period. The aim is to interpret, educate, and advise others based on a historical, cultural, and social awareness of traditional Japan.

HIST 483 History of Japan Since 1800 (3)

Prerequisite: A writing course. An examination of Japan's emergence as an industrial society and world power. The goal is to interpret, educate, and advise others based on a historical, cultural, and social awareness of modern Japan. Discussion covers Japan's role in World War II, postwar recovery, and reemergence as an exporter of cultural goods.

HIST 486A Workplace Learning in History (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

HIST 486B Workplace Learning in History (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HIST 495 History Capstone (3)

Prerequisites: HIST 289, HIST 309, and 21 credits in HIST courses. Intensive research into a specific topic in history of the student's choice. The objective is to produce a substantial, original historical research project suitable for presentation or publication.

Homeland Security

HMLS 302 Introduction to Homeland Security (3)

Prerequisite: WRTG 112 or equivalent. An introduction to the theory and practice of homeland security in both the public and private sectors at national, regional, state, and local levels. The objective is to apply management concepts to homeland security, identify legal and policy issues related to homeland security, and compare the four phases of homeland security. An overview of the administrative, legislative, and operational elements of homeland security programs and processes (including a review of homeland security history, policies, and programs) is provided. Topics include the threat of terrorism and countermeasures, including intelligence, investigation, and policies that support U.S. homeland security objectives.

HMLS 304 Strategic Planning in Homeland Security (3)

Prerequisite: HMLS 406. An examination of the fundamentals of strategic planning, necessary for the maintenance of domestic security and the operation of the homeland security organization in the public and private sectors. The goal is to develop and analyze homeland security strategic plans. Topics include organizational priorities, planning documents, policy development, legislation, financial operations, and the evaluation process. Analysis covers threat, risk, vulnerability, probability, and impact as parameters for decision-making and resource allocation.

HMLS 310 Homeland Security Response to Critical Incidents (3)

Prerequisites: HMLS 302 and HMLS 406. A real-world assessment of the issues involved in responding to homeland security critical incidents. The aim is to prepare for future challenges, integrate critical incident responses at all levels, and analyze the effect of regulations and laws on critical incident response. Discussion covers historical and potential incidents as they relate to resources, cooperation, politics, regulations, operations, and postincident response.

HMLS 406 Legal and Political Issues of Homeland Security (3)

Prerequisite: HMLS 302. A study of the legal aspects of and public policy in homeland security. The aim is to analyze governmental and private-sector roles and form a model homeland security policy. The development of public policy in homeland security is examined at local, regional, national, and international levels. Topics include surveillance, personal identity verification, personal privacy and redress, federal legislation passed in the aftermath of the terrorist attacks of 2001, the rights of foreign nationals, the rights of U.S. citizens, the governmental infrastructure for decisions concerning legal rights, and the difficulties of prosecuting terrorist suspects (such as jurisdictional issues, rules of evidence, and prosecution strategies).

HMLS 408 Infrastructure in Homeland Security (3)

Prerequisite: HMLS 406. An examination of infrastructure protection at international, national, regional, state, and local levels. The objective is to assess threat, risk, and vulnerabilities and recommend protective measures. Topics include critical infrastructure at all levels of government, the private sector, and the international community. An overview of U.S. homeland security policy as it relates to the protection of critical infrastructures and key assets (including the roles of the federal, state, and local governments and the private sector in the security of these resources) is provided. Focus is on risk reduction and protection of critical infrastructures using available resources and partnerships between the public and private sectors.

HMLS 414 Homeland Security and Intelligence (3)

Prerequisite: HMLS 406. A study of the role of intelligence in homeland security. The objective is to interpret the concepts of information; analyze the production of intelligence; and recognize the U.S. intelligence and law enforcement communities, as well as other agencies and organizations that have a part in the nation's homeland security intelligence activities. Topics include the various steps of the intelligence process: the collection, analysis, sharing, and dissemination of information between governments and between government and the private sector. Emphasis is on evaluating current intelligence and enforcement efforts. Discussion also covers future challenges and opportunities for intelligence operations.

HMLS 416 Homeland Security and International Relations (3)

Prerequisite: HMLS 406. An examination of the relationship of international institutions to U.S. homeland security policy, intelligence, and operations. The aim is to incorporate a global perspective in the development of U.S. homeland security, analyze international institutions that influence U.S. homeland security, and integrate international information sharing in public- and private-sector approaches to security. Domestic security operations abroad are compared to U.S. policy, laws, and procedures. Topics include the commonality of global approaches to domestic security everywhere and the value of information sharing between governments and international institutions.

HMLS 495 Homeland Security Capstone (3)

Prerequisites: At least 15 credits in upper-level EMGT, FSCN, HMLS, or PSAD courses (numbered 300 or 400). A study of leadership theories, skills, and techniques used in the public safety professions. The interdisciplinary perspective—encompassing criminal justice, emergency management, fire science, and homeland security—is designed to support integrated public safety management. A review of current issues and contemporary leadership styles in the public safety professions integrates knowledge and principles gained through previous coursework. Case studies and exercises are used to address challenges in strategic planning. Other tools focus on evaluation of personal leadership styles and techniques.

Humanities

HUMN 100 Introduction to Humanities (3)

An introduction to the humanities through a review of some of the major developments in human culture. The goal is to analyze how societies express their ideas through art, literature, music, religion, and philosophy and to consider some of the underlying assumptions about the way societies are formed and run. Focus is on developing the conceptual tools to understand cultural phenomena critically.

HUMN 344 Technology and Culture (3)

An interdisciplinary survey examining the impact technology has on human culture. The objective is to evaluate the influence technology has on the human experience, employ interdisciplinary knowledge on issues of technology and culture, and communicate in writing and oral presentation the results of critical reflection and cultural criticism. Topics include technology and history, misinformation and disinformation, social media, ethics, the arts, race and gender, transhumanism, and technology and the self.

HUMN 351 Myth in the World (3)

An interdisciplinary survey of myths from around the world. The objective is to evaluate the influences of myth on culture and society; develop critical reflection using the methods of interdisciplinary study; discuss how myths shape cultural, individual, and national identities; and communicate in writing and oral presentation the influence of world myths on their material and nonmaterial culture. Topics include origin myths, comparative mythology, gender, the archetypes, heroes, tricksters, material and nonmaterial culture, ritual, and sacred place.

HUMN 495 Humanities Capstone (3)

(Intended as a final, capstone course to be taken in a student's last 15 credits.) Prerequisites: HUMN 100, an upper-level ARTH, an upper-level ENGL, an upper-level HUMN, and an upper-level PHIL. A study of humanities that synthesizes knowledge gained through previous study. An individually chosen research project is used to examine the nature of human responsibility to self, others, and the environment; the role of intellectual inquiry in human life; and the role of creativity in human life. Career options are also explored.

Human Resource Management

HRMN 300 Human Resource Management (3)

A basic study of the strategic role of human resource management. The objective is to apply knowledge of human behavior, labor relations, and current laws and regulations to a working environment. Topics include employment laws and regulations, diversity in a global economy, total rewards management, and training and development for organizational success. Students may receive credit for only one of the following courses: BMGT 360, HRMN 300, or TMGT 360.

HRMN 302 Organizational Communication (3)

A study of the structure of communication in organizations. The goal is to apply theory and examples to improve managerial effectiveness in communication and negotiation. Problems, issues, and techniques of organizational communication are analyzed through case histories, exercises, and projects. Students may receive credit for only one of the following courses: BMGT 398N, HRMN 302, MGMT 320, MGST 315, or TEMN 315.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

HRMN 362 Labor Relations (3)

A survey of contemporary labor relations practices. The aim is to research and analyze labor relations issues and support the labor relations process. Discussion covers the history of organized labor in the United States, the role of third parties, organizing campaigns, the collective bargaining process, and the resolution of employee grievances. Students may receive credit for only one of the following courses: BMGT 362 or HRMN 362.

HRMN 367 Organizational Culture and Change (3)

An examination of the nature, definitions, theories, and aspects of organizational culture. The goal is to apply knowledge of organizational culture to develop a change-management plan. Analysis covers patterns of behavior and their relationship to organizational culture, especially the impact of the organization's business on employee behavior and culture. Topics include the role of nationality, gender, and race within organizational culture; implications of addressing organizational challenges; theory versus practice; and the relative roles of the individual, groups, and the organization in a cultural context. Students may receive credit for only one of the following courses: BMGT 398T or HRMN 367.

HRMN 395 The Total Rewards Approach to Compensation Management (3)

Prerequisite: HRMN 300. An exploration of alternative compensation philosophies that define total rewards as everything that employees value in the employment relationship. The objective is to design a total rewards program that ensures organizational success. Topics include building and communicating a total rewards strategy, compensation fundamentals, the conduct and documentation of a job analysis, linking pay to performance, employee motivation, and performance appraisal. Strategies such as incentive cash and/or stock compensation programs, employee ownership, benefits, and nonmonetary rewards are discussed and evaluated. The interrelationships among compensation, motivation, performance appraisal, and performance within the organization are examined. Discussion also covers the design and implementation of a total rewards program, including organizational compatibility. Students may receive credit for only one of the following courses: BMGT 388L, HRMN 390, or HRMN 395.

HRMN 400 Talent Acquisition and Management (3)

Prerequisite: HRMN 300. A study of the role of human resource management in the strategic planning and operation of organizations, including staffing, onboarding, recruiting, performance appraisal systems, and compensation and labor/management issues. The goal is to research and evaluate issues and present strategic solutions related to talent acquisition and management. The influence of federal regulations (including equal opportunity, sexual harassment, discrimination, and other employee-related regulations) is analyzed. A review of research findings, readings, discussions, case studies, and applicable federal regulations supports the critical evaluation of human resource problems as they relate to the employment life cycle. Students may receive credit for only one of the following courses: BMGT 460 or HRMN 400.

HRMN 406 Employee Training and Development (3)

Prerequisite: HRMN 300. An examination of employee training and human resource development in various organizations. Topics include the development, administration, and evaluation of training programs; employee development; career development; and organizational change. Issues in employee development (including assessment of employee competencies, opportunities for learning and growth, and the roles of managers in employee development) are explored. Students may receive credit for only one of the following courses: BMGT 498I, HRMN 406, or MGMT 498I.

HRMN 408 Employment Law for Business (3)

(Designed for managers and human resource professionals.) Prerequisite: HRMN 300. A conceptual and functional analysis of the legal framework of employment relations. The aim is to understand employment law; comply with laws and regulations; and evaluate rights, obligations, and liabilities in the employment process, from hiring and staffing to compensation and layoff. Topics include discrimination based on race, national origin, religion, sex, affinity and sexual orientation, age, and disability; the hiring process, testing, and performance appraisal; employee privacy; wrongful discharge; employee benefits; health and safety; independent contractors; and labor unions. Students may receive credit for only one of the following courses: BMGT 468, BMGT 498G, HRMN 408, or MGMT 498G.

HRMN 410 HR Information Systems and Metrics Analysis (3)

A study of human resource metrics associated with performance management, talent acquisition, retention, and employee engagement in the strategic planning and operation of organizations. The goal is to research and evaluate HR information systems for the collection, mining, dissemination, and analysis of data related to HR issues and present strategic solutions. A review of research findings and case studies supports the critical evaluation of human resource problems. Common HR metrics are applied to people analytics for problem-solving.

HRMN 467 Global Human Resource Management (3)

Prerequisite: HRMN 300. A comprehensive study of global human resource management. The objective is to demonstrate intercultural competencies; identify trends in the globalized workforce; and analyze policies, practices, and functions in global human resources. Topics include global staffing, training, compensation, and evaluation.

HRMN 486A Workplace Learning in Human Resource Management (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HRMN 486B Workplace Learning in Human Resource Management (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

HRMN 495 Contemporary Issues in Human Resource Management Practice (3)

(Intended as a final, capstone course to be taken in a student's last 15 credits.) Prerequisite: HRMN 400. A study of human resource management that integrates knowledge gained through previous coursework and experience and builds on that conceptual foundation through integrative analysis, practical application, and critical thinking. The goal is to consider and analyze emerging issues in human resource management. Students may receive credit for only one of the following courses: BMGT 388K, HRMN 494, or HRMN 495.

Information Systems Management

IFSM 201 Concepts and Applications of Information Technology (3)

(Access to a standard office productivity package, i.e., word processing, spreadsheet, database, and presentation software, required.) An introduction to data and the range of technologies (including hardware, software, databases, and networking and information systems) that provide the foundation for the data-centric focus of modern organizations. The objective is to apply knowledge of basic technical, ethical, and security considerations to select and use information technology (and the data that arises from technology) effectively in one's personal and professional lives. Discussion covers issues related to technology as a vehicle for collecting, storing, and sharing data and information, including privacy, ethics, security, and social impact. Applied exercises focus on the manipulation, analysis, and visualization of data and effective data communication strategies. Students may receive credit for only one of the following courses: BMGT 301, CAPP 101, CAPP 300, CMST 300, IFSM 201, or TMGT 201.

IFSM 300 Information Systems in Organizations (3)

An overview of information systems and how they provide value by supporting organizational objectives. The goal is to analyze business strategies to recognize how technology solutions enable strategic outcomes and to identify information system requirements by analyzing business processes. Discussion covers concepts of business processes and alignment of information systems solutions to strategic goals.

IFSM 301 Foundations of Management Information Systems (3)

Prerequisite: IFSM 300. An overview of information technology management and governance. The goal is to be familiar with IT organizations, management of IT strategy, and factors in IT decision-making. Topics include strategic alignment, portfolio management, risk management, business continuity, compliance, and organizational relationships.

IFSM 304 Ethics in Information Technology (3)

A comprehensive study of ethics and of personal and organizational ethical decision-making in the use of information systems in a global environment. The aim is to identify ethical issues raised by existing and emerging technologies, apply a structured framework to analyze risk and decision alternatives, and understand the impact of personal ethics and organizational values on an ethical workplace.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

IFSM 305 Information Systems in Healthcare Organizations (3)

An overview of how information systems provide value by supporting organizational objectives in the healthcare sector. The goal is to evaluate how technology solutions support organizational strategy in the healthcare environment and improve quality of care, safety, and financial management. Topics include the flow of data among disparate health information systems and the ethical, legal, and regulatory policy implications.

IFSM 310 Software and Hardware Infrastructure Concepts (3)

A study of the hardware, software, and network components of computer systems and their interrelationships. The objective is to select appropriate components for organizational infrastructures. Discussion covers the application of system development life-cycle methodology to build secure integrated systems that meet business requirements. Students may receive credit for only one of the following courses: CMIS 270, CMIS 310, CMSC 311, or IFSM 310.

IFSM 311 Enterprise Architecture (3)

Prerequisite: IFSM 310. A study of enterprise architecture and frameworks, including the transition of current business processes and functional systems to an enterprise solution. The aim is to analyze how enterprise architecture and resulting enterprise systems support an organization's ability to adapt and respond to a continually changing business and competitive environment.

IFSM 370 Telecommunications in Information Systems (3)

Prerequisite: IFSM 300. An introduction to telecommunication infrastructure. The goal is to plan, analyze, and design a secure telecommunication infrastructure that meets business needs and protects information assets. Topics include cybersecurity, data communication protocols and standards, networks, and trends in telecommunications. Students may receive credit for only one of the following courses: CMIS 370, CMSC 370, CSIA 302, IFSM 370, or IFSM 450.

IFSM 380 Managing and Leading in Information Technology (3)

Prerequisite: IFSM 201 or IFSM 300. A foundation in leadership skills for the fast-paced information technology environment. The goal is to expand interpersonal communication skills, think critically, solve problems, and apply basic management principles to complete tasks effectively. Topics include effective communication in customer-facing and managerial environments, critical thinking and problem-solving, time management, and the application of leadership and management concepts in the workplace of today and tomorrow. Students may receive credit for only one of the following courses: IFSM 250 or IFSM 380.

IFSM 432 Business Continuity Planning (3)

Prerequisite: IFSM 311. An analysis of the requirements for business continuity and disaster recovery planning related to mission critical business information systems. The goal is to assess the risk to continuity of business processes, develop a Business Continuity/Disaster Recovery Plan according to industry standards and best practices, and develop a test plan. Topics include risk assessment and organizational requirements for maintaining systems. A group project is designed to produce and validate a comprehensive business continuity and disaster recovery plan. Students may receive credit for only one of the following courses: IFSM 432 or IFSM 498N.

IFSM 438 Information Systems Project Management (3)

Prerequisite: IFSM 300 or CSIA 350. A practical application of project management principles and procedures. The objective is to manage and control IT projects in alignment with organizational strategic goals and within resource constraints and to manage high-performing project teams to implement IT solutions. Topics include the development, control, and execution of plans to manage information systems projects as part of a team and the use of Microsoft Project to develop project schedules and related components. Students may receive credit for only one of the following courses: IFSM 438 or TMGT 430.

IFSM 441 Agile Project Management (3)

Prerequisite: IFSM 438. An advanced study of agile project management methods for software development. The objective is to apply agile practices to better manage projects characterized by complexity and uncertainty with responsiveness and adaptability and to consider alternative approaches to managing projects by matching the approach to the characteristics of a project. Topics include estimation techniques; the scrum (software development) process, i.e., inspect, adapt, and improve; and dealing with organizational impediments to adoption.

IFSM 461 Systems Analysis and Design (3)

Prerequisites: IFSM 311 and either IFSM 330 or CMIS 320. A project-driven study of tools and techniques for translating business requirements into operational systems. The goal is to plan, build, and maintain systems that meet organizational strategic goals by applying enterprise architecture and enterprise governance principles and practices. Topics include processes and system development life-cycle methodologies, data modeling methods, and the importance of stakeholder involvement. Students may receive credit for only one of the following courses: IFSM 436, IFSM 460, or IFSM 461.

IFSM 486A Workplace Learning in Management Information Systems (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

IFSM 486B Workplace Learning in Management Information Systems (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

IFSM 495 Management Information Systems Capstone (3)

Prerequisites: IFSM 438 and IFSM 461. A practical application of the knowledge and experience gained from previous study in management information systems. The aim is to demonstrate a mastery of management information systems concepts. Emerging issues and trends in management information systems are considered.

Japanese

Courses in Japanese (designated JAPN) may be applied as appropriate (according to individual program requirements) toward

- The general education requirement in the arts and humanities
- A major or minor in East Asian studies
- A certificate in foreign language area studies
- Electives

JAPN 111 Elementary Japanese I (3)

For online sections, sound card, microphone, speakers, and occasional synchronous work required. (Not open to native speakers of Japanese; assumes no prior knowledge of Japanese. Students with prior experience with the Japanese language should take a placement test to assess appropriate level.) An introduction to spoken and written Japanese language. The objective is to communicate in Japanese in some concrete, real-life situations using culturally appropriate language; read and write hiragana; and read some katakana words in context.

JAPN 112 Elementary Japanese II (3)

For online sections, sound card, microphone, speakers, and occasional synchronous work required. (Not open to native speakers of Japanese.) Prerequisite: JAPN 111 or appropriate score on a placement test. A continued introduction to spoken and written Japanese. The goal is to communicate in Japanese in concrete, real-life situations using culturally appropriate language; read and write katakana; and recognize some kanji characters in context. Practice is provided in improving pronunciation and developing the oral and written skills used in everyday communication.

JAPN 114 Elementary Japanese III (3)

For online sections, microphone, speakers, and occasional synchronous work required. (Not open to native speakers of Japanese.) Prerequisite: JAPN 112 or appropriate score on a placement test. Further study of spoken and written Japanese. The aim is to communicate in Japanese in a variety of concrete, real-life situations, using culturally appropriate language and to expand recognition of kanji characters in context. Practice is provided in improving pronunciation and developing the oral and written skills used in everyday communication.

JAPN 115 Elementary Japanese IV (3)

For online sections, microphone, speakers, and occasional synchronous work required. (Not open to native speakers of Japanese.) Prerequisite: JAPN 114 or appropriate score on a placement test. Further development of skills in elementary spoken and written Japanese. The aim is to interact effectively with native speakers of Japanese in a variety of real-life situations using culturally appropriate language and to recognize and distinguish more commonly used kanji characters in context. Practice is provided in fine-tuning pronunciation and applying language skills to a range of contexts.

JAPN 221 Intermediate Japanese I (3)

For online sections, microphone, speakers, and occasional synchronous work required. (Not open to native speakers of Japanese.) Prerequisite: JAPN 115 or appropriate score on a placement test. Development of skills in intermediate spoken and written Japanese. The aim is to interact effectively with native speakers of Japanese in a range of personal and professional situations and to recognize and read approximately 275 Japanese characters in context. Focus is on using culturally appropriate language in a variety of contexts.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

JAPN 222 Intermediate Japanese II (3)

For online sections, microphone, speakers, and occasional synchronous work required. (Not open to native speakers of Japanese.) Prerequisite: JAPN 221 or appropriate score on a placement test. Further development of skills in intermediate spoken and written Japanese. The aim is to communicate effectively with native speakers of Japanese in a broad range of personal and professional situations and to recognize and read approximately 320 Japanese characters in context. Practice is provided in interacting with others in a variety of interpersonal contexts.

JAPN 224 Intermediate Japanese III

Prerequisite: JAPN 222. Continued advanced integrated study of Japanese. Emphasis is on reading, writing, and cultural phrases.

JAPN 225 Intermediate Japanese IV

Prerequisite: JAPN 224. Continued advanced integrated study of Japanese. Emphasis on reading, writing, and cultural phrases.

JAPN 333 Japanese Society and Culture (3)

(Formerly ASTD 333. Fulfills the general education requirement in the arts and humanities. Conducted in English.) A study of the origin and historical background of contemporary Japanese society and culture. Students may receive credit for only one of the following courses: ASTD 333 or JAPN 333.

Journalism

JOUR 201 Introduction to News Writing (3)

(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112. An introduction to writing news articles for print and electronic media. The aim is to evaluate the news-worthiness of information and events and write in journalistic style. Emphasis is on writing, from mechanics (grammar, spelling, punctuation, and journalistic style) to content (accuracy, completeness, audience, and readability) and reporting.

JOUR 330 Public Relations Theory (3)

Prerequisite: JOUR 201. A study of the evolution, scope, and contemporary practice of public relations and its strategic value in business, nonprofits, government, associations, and other organizations. The goal is to apply legal, ethical, and professional standards to the everyday practice of public relations. Topics include communication theory, social science, and audience dimensions as they are applied to a four-step process: research, planning, communication, and evaluation.

JOUR 486A Workplace Learning in Journalism (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

JOUR 486B Workplace Learning in Journalism (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

Korean

Courses in Korean (designated KORN) may be applied as appropriate (according to individual program requirements) toward

- The general education requirement in the arts and humanities
- A major or minor in East Asian studies
- A certificate in foreign language area studies
- Electives

KORN 111 Elementary Korean I (3)

(Assumes no prior knowledge of Korean.) An elementary study of Korean. Emphasis begins with oral communication skills, and leads to balanced proficiency in the four communication skills of listening, speaking, reading, and writing. Topics include basic structures, vocabulary, pronunciation, and writing, as well as elements of culture, history, and geography. Authentic text from native speakers is used as much as possible.

KORN 112 Elementary Korean II (3)

(Prerequisite: KORN 111. Continued basic study of Korean, emphasizing oral communication and leading to a balanced development of proficiency in the four communication skills of listening, speaking, reading, and writing. Basic structures, vocabulary, pronunciation, and writing are practiced along with continued familiarity with culture, history, and geography. Oral and written authentic text from native speakers is used as much as possible.

KORN 114 Elementary Korean III (3)

Prerequisite: KORN 112. Further development of speaking and listening skills and study of linguistic structure. Writing skills are cultivated.

KORN 115 Elementary Korean IV (3)

Prerequisite: KORN 114. Further development of speaking and listening skills and study of linguistic structure. Writing skills are cultivated.

KORN 221 Intermediate Korean I (3)

Prerequisite: KORN 115. Advanced integrated study of Korean. Emphasis is on reading and writing.

KORN 222 Intermediate Korean II (3)

Prerequisite: KORN 221. Advanced integrated study of Korean. Emphasis is on reading and writing.

KORN 333 Korean Society and Culture (3)

(Formerly ASTD 353. Fulfills the general education requirement in the arts and humanities. Conducted in English.) Recommended: Any writing class and either ASTD 284 or ASTD 285. An interdisciplinary study of contemporary Korea from a variety of socio-historical and cultural perspectives. Topics include the Korean diaspora, the Korean Wave (Hallyu), Korea as a conduit between China and Japan, social and religious practices, Korean women, the Japanese occupation, and Korea's global impact. The aim is to articulate the key historic developments that have shaped contemporary Korean society, recognize and distinguish unique Korean influences and contributions, and assess key aspects of traditional and contemporary Korean society and culture. Focus is on developing a stronger understanding of Korean society and culture for practical and professional application. Students may receive credit for only one of the following courses: ASTD 353 or KORN 333.

Legal Studies

LGST 101 Introduction to Law (3)

A survey of the U.S. legal system and the roles and responsibilities of the various personnel who work in that environment.

The objective is to evaluate situations and make recommendations for action based on an understanding of law, legal institutions, and court procedures. Topics include the organization and powers of federal and state lawmaking institutions, court procedures, legal analysis, and careers in the legal environment. Students may receive credit for only one of the following courses: LGST 101 or PLGL 101.

LGST 200 Techniques of Legal Research (3)

An introduction to common research methods used to locate primary and secondary authority relevant to given topics and issues. The goal is to find valid, relevant, mandatory primary authority. Topics include the analysis, publication, and citation of judicial opinions and statutory law; the features and use of secondary sources; and various computer-assisted research tools to find and validate primary authority. Students may receive credit for only one of the following courses: LGST 200 or PLGL 200.

LGST 201 Legal Writing (3)

Prerequisite: LGST 200. An introduction to the principles of writing clearly and effectively in the legal environment. The objective is to draft writings that synthesize law, analyze legal issues, and explain law and legal analysis to a nonlegal audience. Assignments include a legal synthesis memo, case law and statutory analysis memos, and a client letter. Students may receive credit for only one of the following courses: LGST 201 or PLGL 201.

LGST 204 Legal Ethics (3)

A survey of basic principles relating to the ethical practice of law. The objective is to identify ethical problems, draft writings that apply ethical rules and interpretations to legal ethical dilemmas, and avoid and resolve legal ethical problems through appropriate use of office procedures. Rules and guidelines governing the ethical conduct of lawyers and nonlawyers are covered, as are law office management principles relevant to ethical requirements. Students may receive credit for only one of the following courses: LGST 204 or PLGL 204.

LGST 300 Advanced Legal Research and Analysis (3)

Prerequisite: LGST 200. An in-depth examination of research methods to identify primary authority relevant to legal issues. The goal is to identify legal issues, implement research strategies to find relevant primary authority, and use this authority to analyze the issues. Topics include the use of computer-assisted legal research systems to locate case law, statutory law, administrative law, and rules of procedure and evidence and methods to identify and analyze legal issues. Students may receive credit for only one of the following courses: LGST 400 or PLGL 400.

LGST 301 Advanced Legal Writing (3)

Prerequisite: LGST 201. A focused study of the principles and techniques for drafting legal advocacy writings. The objective is to analyze legal issues and advocate for results based on that analysis. Assignments include a complex office memorandum, a demand letter, and an external advocacy memorandum. Students may receive credit for only one of the following courses: LGST 301, LGST 401, or PLGL 401.

LGST 312 Torts (3)

Prerequisite: LGST 201. A study of the causes of action, defenses, and remedies in the major categories of tort law, as well as tort-litigation procedures and writings. The goal is to investigate and evaluate tort claims in order to develop litigation strategies and to research law in order to draft legal writings that support a legal conclusion. Topics include intentional torts, negligence, strict liability, damages, and civil procedure. Students may receive credit for only one of the following courses: LGST 312 or PLGL 312.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

LGST 314 Workers' Compensation Law (1)

A thorough study of the Maryland Workers' Compensation Act and the practice of workers' compensation law in Maryland. The goal is to apply knowledge of legal systems, concepts, and methodologies to support client objectives efficiently and ethically. Topics include employer/employee relationships, injuries, defenses, compensation benefits, vocational rehabilitation, and appeals. Assignments include legal and factual research and the composition of legal documents or completion of forms. Students may receive credit for only one of the following courses: LGST 314 or PLGL 398H.

LGST 315 Domestic Relations (3)

Prerequisite: LGST 201. A study of the processes, procedures, and writings of family law practice. The aim is to identify, analyze, and apply the rules of professional conduct to domestic issues; research applicable law and factual information related to domestic relations issues and draft legal writings; and complete standardized forms to resolve domestic issues. Topics include divorce, separation, and annulment and alimony; child custody and visitation; child support; disposition of property; and the legal rights of children. Relevant aspects of civil procedures, enforcement, and the modification of orders and agreements are covered. Students may receive credit for only one of the following courses: FMCD 487, LGST 315, or PLGL 315.

LGST 316 Estates and Probate (3)

Prerequisite: LGST 201. A fundamental study of the legal concepts required to draft and prepare simple wills and administer estates. The goal is to construct an estate plan supporting the creation and administration of a simple estate. Topics include preliminary and practical considerations of administering an estate; the appraisal of estate assets and probate inventory; inheritance taxes; claims against the estate; management of debts, accounting, and distribution considerations; the drafting and execution of wills; and guardianships. Assignments include legal research and written analysis that reflect the processes and procedures required by law. Students may receive credit for only one of the following courses: LGST 316, PLGL 216, or PLGL 316.

LGST 320 Criminal Law and Procedures (3)

Prerequisite: LGST 201. A study of the substantive and procedural aspects of the criminal justice system. The objective is to identify, analyze, and apply the rules of professional conduct to develop ethical strategies, research law, and draft legal writings to support the prosecution or defense of crimes. Topics include crimes and defenses, penalties, and court procedures. Students may receive credit for only one of the following courses: LGST 320 or PLGL 320.

LGST 325 Litigation (3)

Prerequisite: LGST 201. A comprehensive study of the Federal Rules of Civil Procedure and the process of civil litigation. The aim is to use technology and administrative best practices to collect, track, retrieve, and prepare evidence during the litigation process; interpret and apply the rules to develop case strategies; and interact with individuals within the legal system to effectively and ethically support the litigation process. Students may receive credit for only one of the following courses: LGST 325 or PLGL 325.

LGST 327 Alternative Dispute Resolution (3)

An overview of the various processes and techniques to settle disputes without court adjudication. Topics include alternatives to litigation and their advantages, characteristics of effective mediation, ethics, and virtual dispute resolution techniques. The objective is to become familiar with various methods of dispute resolution and potential career opportunities in alternative dispute resolution. Students may receive credit for only one of the following courses: LGST 327, PLGL 327, or PLGL 398G.

LGST 330 Administrative Law (3)

Prerequisite: LGST 201. An overview of the functions and procedures of federal and state administrative agencies. The goal is to monitor and analyze administrative agency actions in order to make recommendations to proposed and final agency rules and administrative decisions. Topics include rulemaking, adjudication, the use and control of agency discretion, and disclosure of information. Focus is on researching relevant law and writing effective and persuasive communications for use in administrative adjudications or to obtain information held by government agencies. Students may receive credit for only one of the following courses: LGST 330 or PLGL 330.

LGST 340 Contract Law (3)

Prerequisite: LGST 201. A comprehensive study of the major areas of contract law. The objective is to identify and analyze contractual precedent and statutory authority; develop litigation strategies; and explain contract concepts, remedies, and procedures that support a legal conclusion. Topics include formation, interpretation and enforcement, discharge, breach, and remedies for breach. Students may receive credit for only one of the following courses: LGST 340 or PLGL 340.

LGST 486A Workplace Learning in Legal Studies (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

LGST 486B Workplace Learning in Legal Studies (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

LGST 495 Legal Studies Capstone (3)

Prerequisite: Completion of at least 24 credits of required major coursework, including LGST 301. A portfolio-driven study of professional practices in the legal field. The goal is to integrate the competencies gained through previous coursework and experience. Assignments include projects relevant to work in the legal environment.

Library Skills and Information Literacy

LIBS 150 Introduction to Research (1)

An introduction to the research process and methods for retrieving information in a library or through online sources. The aim is to identify an information need and locate, evaluate, and use appropriate resources in keeping with academic integrity and ethical standards. Focus is on implementing effective strategies for finding relevant information—including selecting appropriate print and electronic sources and effectively using web search engines and the UMGC library's electronic resources to find information—and evaluating and correctly citing the information found. Students may not earn credit for LIBS 150 through challenge exam or portfolio credit and may receive credit for only one of the following courses: COMP 111, LIBS 100, or LIBS 150.

Marketing

MRKT 310 Marketing Principles (3)

A foundational study of the marketing principles followed to create, communicate, and deliver value for customers. Focus is on the pivotal role of value and customer satisfaction in marketing. Discussion covers strategies, tactics, and all the major components of the marketing process. Students may receive credit for only one of the following courses: BMGT 350, MGMT 322, MRKT 310, or TMGT 322.

MRKT 311 Digital Marketing Principles (3)

An introduction to the various types of digital marketing and the skills needed for each type. The aim is to recognize the various stages in the customer journey and marketing funnel. Discussions explore developing a unique value proposition and assessing the contribution of a SWOT (strengths, weaknesses, opportunities, threats) analysis to a marketing plan. Projects involve developing a digital marketing plan that includes designing a digital strategy to create and deliver value to consumers in a digital world.

MRKT 314 Nonprofit Marketing (3)

Prerequisite: MRKT 310 or MRKT 311. An exploration of the unique challenges and opportunities of marketing within nonprofit organizations. Discussion covers how to apply marketing principles, including strategic planning, branding, public relations, fundraising, and volunteer recruitment, to the nonprofit sector. Topics include the importance of creating a strong brand identity, effectively communicating the organization's mission and values to the public, utilizing various techniques for raising funds, and building relationships with donors.

MRKT 354 Integrated Marketing Communications (3)

Prerequisite: MRKT 310 or MRKT 311. A study of the integration of marketing communication strategies to coordinate the marketing mix's components and achieve harmony in messages to customers and other stakeholders. Emphasis is on leveraging various digital tools to achieve customer-centered marketing communications objectives. Topics include the variety of communication modalities encompassed in an integrated marketing communications plan, digital media (including search, display, and social media), traditional advertising, personal selling, sales promotion, public relations, and direct marketing.

MRKT 356 Email Marketing (3)

Prerequisite: MRKT 310 or MRKT 311. A study of email marketing techniques as essential components of an effective marketing strategy. The goal is to design email marketing campaigns. Topics include the fundamental concepts of email marketing, legal and privacy regulations, email automation, and the evaluation of success in email campaigns.

MRKT 394 Managing Customer Relationships in Digital Marketing (3)

Prerequisite: MRKT 310 or MRKT 311. An examination of customer relationship management (CRM) from strategic, operational, and analytical perspectives through the engagement of marketing, sales, and customer service functions with prospective and acquired customers. The goal is to build customer relationships and business processes through effective CRM strategy development and execution. Topics include integrating people, technology, and analytics to effectively bring valued solutions and knowledge to customers and profitable relationships to organizations.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

MRKT 410 Consumer Behavior (3)

Prerequisite: MRKT 310 or MRKT 311. A study of the increasing importance of understanding consumers in the marketing system. The objective is to assess internal, external, and situational factors in developing marketing strategies; apply internal factors to market segmentation; and formulate marketing-mix strategies. Discussion covers the foundations of consumer behavior (such as economic, social, psychological, and cultural factors) and the influence of well-directed communications. Consumers are analyzed in marketing situations as buyers and users of products and services and in relation to the various social and marketing factors that affect their behavior. Students may receive credit for only one of the following courses: BMGT 451, CNEC 437, or MRKT 410.

MRKT 411 Consumer Behavior in Digital Media (3)

Prerequisite: MRKT 310 or MRKT 311. A study of consumer behavior covering what happens before, during, and after the point of purchase, with an emphasis on the role of digital media. The objective is to gain insight into how digital media affects consumer choices and behavior. Discussion examines how consumers interpret information received from different sources and how the opinions of other people and groups influence purchase decision-making. Topics include consumer behavior, persuasive communications in digital formats, data privacy, and consumer rights.

MRKT 412 Marketing Research (3)

Prerequisite: MRKT 310 or MRKT 311. A study of the specialized field of marketing research as it is used to identify market needs, profile target markets, test promotional efforts, and measure the effectiveness of marketing plans. The goal is to assess marketing research needs, design and implement a marketing research plan, and use results to formulate marketing strategies. Discussion covers procedures for planning survey projects, designing statistical samples, tabulating data, and preparing reports. Emphasis is on managing the marketing research function. Students may receive credit for only one of the following courses: BMGT 452 or MRKT 412.

MRKT 454 Global Marketing (3)

Prerequisite: MRKT 310 or MRKT 311. An in-depth study of marketing principles as they relate to the global marketplace. The aim is to apply marketing principles and strategies to a global organization and markets. Discussion covers the influence of internationalization on the U.S. economy, the competitive pressures on the intensifying global markets, and the development of marketing plans tailored to reach international and global markets. Topics also include the political, economic, legal, regulatory, and socio-cultural trends affecting international marketing; the dynamic environments in which global marketing strategies are formulated; and the challenge of implementing marketing programs leading to competitive advantage.

MRKT 458 Social Media Marketing (3)

Prerequisite: MRKT 310 or MRKT 311. An introduction to social media marketing to increase brand and product exposure and cultivate meaningful relationships with consumers. The aim is to engage with consumers to create an interactive, relevant conversation as part of a dynamic marketing strategy. Discussions explore the current benefits and advantages of social media strategies and campaigns. Projects involve developing social media posts, using best practices for target markets, and evaluating successful campaigns.

MRKT 486A Workplace Learning in Marketing (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

MRKT 486B Workplace Learning in Marketing (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

MRKT 495 Strategic Marketing Management (3)

(Intended as a final, capstone course to be taken in a student's last 15 credits.) Prerequisites: MRKT 354, MRKT 410, and MRKT 412. A study of marketing that integrates knowledge gained through previous coursework and experience in marketing and builds on those concepts through integrative analysis, practical application, and critical thinking. The aim is to manage the marketing process, perform root cause analysis, formulate alternative solutions, and propose marketing strategies and tactics. Emphasis is on the use of appropriate decision models. Topics include the analysis of consumers and markets. Discussion also covers emerging issues. Students may receive credit for only one of the following courses: BMGT 457 or MRKT 495.

Mathematics

MATH 105 Topics for Mathematical Literacy (3)

(For students who do not need a college algebra, statistics, or higher-level mathematics course. Meets the general education requirement in mathematics.) An investigation of contemporary topics in mathematics. The aim is to apply mathematical processes to solve problems involving exponential and logarithmic modeling, personal finance, probability, basic logical thinking, and statistical reasoning.

MATH 107 College Algebra (3)

(The first course in the two-course series MATH 107–MATH 108. An alternative to MATH 115.) An introduction to equations and inequalities and a study of functions and their properties, including the development of graphing skills with polynomial, rational, exponential, and logarithmic functions. The objective is to apply appropriate technology and demonstrate fluency in the language of algebra; communicate mathematical ideas; perform operations on real numbers, complex numbers, and functions; solve equations and inequalities; analyze and graph circles and functions; and use mathematical modeling to translate, solve, and interpret applied problems. Technology is used for data modeling. Discussion also covers applications. Students may receive credit for only one of the following courses: MATH 107 or MATH 115.

MATH 108 Trigonometry and Analytical Geometry (3)

(The second course in the two-course series MATH 107–MATH 108. An alternative to MATH 115.) Prerequisite: MATH 107. An introduction to trigonometric functions, identities, and equations and their applications. The goal is to demonstrate fluency in the language of trigonometry, analytic geometry, and selected mathematical topics; communicate mathematical ideas appropriately; apply and prove trigonometric identities; solve triangles and trigonometric equations; and perform vector operations. Discussion covers analytical geometry and conic sections, systems of linear equations, matrices, sequences, and series. Students may receive credit for only one of the following courses: MATH 108 or MATH 115.

MATH 115 Pre-Calculus (3)

(Not open to students who have completed MATH 140 or any course for which MATH 140 is a prerequisite.) An explication of equations, functions, and graphs. The goal is to demonstrate fluency in pre-calculus; communicate mathematical ideas appropriately; solve equations and inequalities; analyze and graph functions; and use mathematical modeling to translate, solve, and interpret applied problems. Topics include polynomials, rational functions, exponential and logarithmic functions, trigonometry, and analytical geometry. Students may receive credit for only one of the following courses: MATH 107, MATH 108, or MATH 115.

MATH 140 Calculus I (4)

Prerequisite: MATH 108 or MATH 115. An introduction to calculus. The goal is to demonstrate fluency in the language of calculus; discuss mathematical ideas appropriately; and solve problems by identifying, representing, and modeling functional relationships. Topics include functions, the sketching of graphs of functions, limits, continuity, derivatives and applications of the derivative, definite and indefinite integrals, and calculation of area. Students may receive credit for only one of the following courses: MATH 130, MATH 131, or MATH 140.

MATH 141 Calculus II (4)

(A continuation of MATH 140.) Prerequisite: MATH 140. A study of integration and functions. The aim is to demonstrate fluency in the language of calculus, discuss mathematical ideas appropriately, model and solve problems using integrals and interpret the results, and use infinite series to approximate functions to model real-world scenarios. Focus is on techniques of integration, improper integrals, and applications of integration (such as volumes, work, arc length, and moments); inverse, exponential, and logarithmic functions; and sequences and series. Students may receive credit for only one of the following courses: MATH 131, MATH 132, or MATH 141.

MATH 241 Calculus III (4)

Prerequisite: MATH 141. An introduction to multivariable calculus. Exposition covers vectors and vector-valued functions; partial derivatives and applications of partial derivatives (such as tangent planes and Lagrangian multipliers); multiple integrals; volume; surface area; and the classical theorems of Green, Stokes, and Gauss. The objective is to use multivariate calculus to solve real-world problems.

MATH 246 Differential Equations (3)

Prerequisite: MATH 141 or MATH 132. An introduction to the basic methods of solving differential equations. The goal is to demonstrate fluency in the language of differential equations; communicate mathematical ideas; solve boundary-value problems for first- and second-order equations; and solve systems of linear differential equations. Topics include solutions of boundary-value problems for first- and second-order differential equations; solutions of systems of linear differential equations; series solutions, existence, and uniqueness; and formulation and solution of differential equations for physical systems.

MATH 301 Concepts of Real Analysis I (3)

Prerequisite: MATH 141. A study of real analysis. The aim is to construct formal mathematical proofs and solve problems. Topics include sequences and series of numbers, continuity and differentiability of real-valued functions of one variable, the Riemann integral, sequences of functions, and power series. Students may receive credit for only one of the following courses: MATH 301 or MATH 410.

MATH 340 Linear Algebra (4)

Prerequisite: MATH 140. An examination of linear algebra. The aim is to demonstrate applications of various concepts in linear algebra. Topics include abstract vector spaces, linear transformations, algebra of matrices, determinants, similarity, eigenvalues and eigenvectors, and applications to systems of equations. Discussion also covers solutions of problems in physics, engineering, and the sciences. Students may receive credit for only one of the following courses: MATH 240, MATH 340, MATH 400, or MATH 461.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

MATH 402 Algebraic Structures (3)

Prerequisite: MATH 141. An overview of algebraic structures. The aim is to construct mathematically correct and concise proofs. Set theory, techniques of proofs, and the application of those techniques are introduced. Topics include groups, subgroups, isomorphisms, rings, integral domains, and fields.

MATH 463 Complex Analysis (3)

Prerequisite: MATH 141. An overview of the theory and practice of complex variables to enrich the study of differential equations, real analysis, and numerical analysis. The aim is to use complex variables to analyze problems that have direct application to physical problems. Topics include complex numbers, functions, inverse functions, mappings, integrals, series, and poles in the complex numbers.

Music

MUSC 210 Music as Cultural Expression (3)

A study of the role of music in various cultures. The objective is to identify key features that define various genres of world music, articulate the roles and functions of music in world cultures, use the medium of music to explore intercultural relationships, and consciously define personal musical perspectives. Discussion covers music from various cultural traditions and the contexts in which composers and musicians practice their craft. Students may receive credit for only one of the following courses: HUMN 211 or MUSC 210.

Natural Science

NSCI 100 Introduction to Physical Science (3)

Prerequisite: MATH 105, STAT 200, or a higher MATH or STAT course. An introduction to the basic principles of physics and chemistry, with applications to geology, oceanography, meteorology, and astronomy. The objective is to use scientific and quantitative reasoning to make informed decisions about topics related to physical science. Discussion covers the development of scientific thinking, the scientific method, the relationships among the various physical sciences, the role of the physical sciences in interpreting the natural world, and the integrated use of technology. Students may receive credit for only one of the following courses: GNSC 100, NSCI 100, or NSCI 103.

NSCI 101 Physical Science Laboratory (1)

(Fulfills the laboratory science requirement.) Prerequisite: MATH 105, STAT 200, or a higher MATH or STAT course. Prerequisite or corequisite: NSCI 100. A laboratory study of the basic principles of physics and chemistry, with applications to geology, oceanography, meteorology, and astronomy. The objective is to apply the scientific method and use scientific and quantitative reasoning to make informed decisions about experimental results in the physical sciences. Discussion and laboratory activities cover the development of scientific thinking, the scientific method, the relationships among the various physical sciences, and the role of the physical sciences in interpreting the natural world.

NSCI 103 Fundamentals of Physical Science (4)

(Fulfills the laboratory science requirement.) Prerequisite: MATH 105, STAT 200, or a higher MATH or STAT course. An introduction to the basic principles of physics and chemistry, with applications to geology, oceanography, meteorology, and astronomy. The objective is to apply the scientific method and use scientific and quantitative reasoning to make informed decisions about experimental results in the physical sciences. Discussion and laboratory activities cover the development of scientific thinking, the scientific method, the relationships among the various physical sciences, the role of the physical sciences in interpreting the natural world, and the integrated use of technology. Students may receive credit for only one of the following courses: GNSC 100, NSCI 100, or NSCI 103.

NSCI 120 Natural Sciences Laboratory (1)

(Fulfills the laboratory science requirement.) Prerequisite: MATH 105, STAT 200, or a higher MATH or STAT course. A study of the basic principles of science investigation and observation. The objective is to apply knowledge of the natural world and experimental design to address questions about physical, chemical, geological, and ecological phenomena. Activities include observation of the natural world, experiments, measurements, data collection, and quantitative reasoning exercises.

NSCI 170 Weather and Climate (3)

An introduction to the basic principles of atmospheric science. The goal is to use scientific and quantitative reasoning to make informed decisions about topics related to atmospheric science. Topics include the effect of different weather elements (such as temperature, pressure, winds, and humidity) on weather patterns and climate. Discussion also covers weather phenomena such as El Niño, thunderstorms, tornadoes, tropical cyclones, and midlatitude cyclones, as well as the impact of humans on Earth's atmosphere. Students may receive credit for only one of the following courses: GNSC 170, GNSC 398D, or NSCI 170.

NSCI 171 Weather and Climate Laboratory (1)

(Fulfills the laboratory science requirement.) Prerequisite or corequisite: NSCI 170. An introduction to the basic concepts of meteorology. The aim is to apply the scientific method and use scientific and quantitative reasoning to make informed decisions about experimental results in meteorology. Focus is on the observation, measurement, and analysis of weather data, including the interpretation of weather patterns and conditions found on weather maps, satellite images, radar imagery, and atmosphere diagrams. Students may receive credit for only one of the following courses: GNSC 171 or NSCI 171.

NSCI 301 Laboratory Management and Safety (3)

An overview of the role of scientific methodology, data handling, and management practices in research and manufacturing laboratories. The aim is to examine scientific principles; research and development practices; safety and health compliance; and management of laboratory personnel, space, inventory, and equipment. Assignments will address laboratory operating systems, finances and recordkeeping, safety regulations and procedures, data management, project planning, problem-solving, procurement, personnel training, and communication with a broad array of stakeholders. Students may receive credit for only one of the following courses: GNSC 301, MEDT 301, or NSCI 301.

NSCI 362 Our Environment: Human Impact and Sustainable Choices (3)

A scientific examination of the impact humans have had on the global environment in the current era, the Anthropocene. The goal is to apply scientific reasoning to evaluate human impact on the environment and strategies to mitigate this impact. Topics address sustainability as it relates to individual choices, collective responsibility, environmental stewardship, energy use, diet, and consumer behavior. Current scientific research is used to explore environmental issues such as population growth, climate change, resource depletion, biodiversity losses, food security, and the economic implications of making sustainable choices. Students may receive credit for only one of the following courses: BEHS 361, BEHS 365, ENMT 365, GNSC 361, HUMN 360, NSCI 361, or NSCI 362.

NSCI 398 Special Topics in Natural Science (3)

A study of topics in the sciences of special interest to students and faculty.

Nutrition

NUTR 100 Elements of Nutrition (3)

A study of the scientific and quantitative foundations of the applied science of human nutrition. The goal is to understand how nutrition reflects an integration across scientific disciplines and how foods provide important nutrients that provide substance and energy for healthy living. Topics include scientific reasoning, healthy meal planning, and weight management. Students may receive credit for only one of the following courses: NUTR 100 or NUTR 200.

NUTR 101 Nutrition Laboratory (1)

(For students not majoring in biotechnology or laboratory management. Fulfills the laboratory science requirement only with previous or concurrent credit for NUTR 100.) Prerequisite or corequisite: NUTR 100. A hands-on study of human nutrition. The goal is to use an experimental approach to questions in nutrition science. Laboratory exercises emphasize critical thinking in the analysis of quantitative data derived from investigations into various areas of nutrition science, including energy balance, macro- and micronutrients, food guidelines, and food safety.

Philosophy

PHIL 100 Introduction to Philosophy (3)

An introduction to the literature, problems, and methods of philosophy. The goal is to identify and consider central, recurring problems of philosophy. Emphasis is on developing awareness of the significance of philosophical problems and learning to offer rationally justifiable solutions. Students may receive credit for only one of the following courses: HUMN 125 or PHIL 100.

PHIL 110 Practical Reasoning (3)

An examination of methods for thinking analytically about real-world problems and solving them. The goal is to apply logical arguments to practical decision-making. Topics include inductive and deductive reasoning; the properties of arguments; methods of logical analysis; synthesis of ideas; informal fallacies; and the role of presuppositions and other factors in scientific, social, ethical, and political problems.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

PHIL 140 Introduction to Moral Philosophy and Ethical Reasoning (3)

An introductory exploration of the foundational theories of Eastern and Western moral philosophy and an examination of methods for thinking clearly about ethical issues. The objective is to employ a knowledge of moral theory and the methods of ethical reasoning to address contemporary ethical issues and dilemmas in areas such as business, medicine, information technology, and personal ethics. Students may receive credit for only one of the following courses: HUMN 300 or PHIL 140.

PHIL 304 Contemporary Social Justice Issues (3)

An exploration of the political and ethical writings of philosophers who shaped contemporary ideas of social justice and individual rights. The objective is to evaluate political theories and philosophies; defend ethical reasoning on issues of justice; and communicate critical reflections on contemporary social justice issues, such as environmental justice, healthcare, racial justice, women's rights, immigration, and religious freedom. Topics include freedom and the social contract, individual and human rights, distributive and economic justice, gender and racial justice, internationalism, and theories of war.

PHIL 336 Ideas Shaping the 21st Century (3)

An exploration of the philosophical arguments concerning the ideas shaping human knowledge in the 21st century. The objective is to evaluate the ideas and arguments that shape human understanding of reality from antiquity to the 21st century, develop critical reflection of these ideas utilizing the tools of analytical philosophy, and communicate the results of philosophical and critical reflection in writing and oral presentation. Topics of study include an introduction to analytical philosophy, the human mind, consciousness, materialism, naturalism, and the limits of scientific realism. Students may receive credit for only one of the following courses: HUMN 336 or PHIL 336.

PHIL 348 Religions of the East (3)

An examination of South and East Asian religions, including the Jain, Hindu, Sikh, Buddhist, Confucian, Daoist, and Shinto traditions. The goal is to apply key methods in the academic study of religions to examine their geographical, historical, and cultural contexts. Topics include the religious meaning and social significance of rituals, material culture, and written texts. Papers and presentations organize research findings, critical reflections, and creative perspectives. Students may receive credit for only one of the following courses: HUMN 348, HUMN 350, or PHIL 348.

PHIL 349 Religions of the West (3)

An examination of Western religions including the Zoroastrian, Judaic, Christian, and Islamic traditions. The goal is to apply key methods in the academic study of religions to examine their geographical, historical, and cultural contexts. Topics include the religious meaning and social significance of rituals, material culture, and written texts. Papers and presentations organize research findings, critical reflections, and creative perspectives. Students may receive credit for only one of the following courses: HUMN 350 or PHIL 349.

Physics

PHYS 121 Fundamentals of Physics I (4)

(For students majoring or minoring in a science. Fulfills the laboratory science requirement.) Prerequisite: MATH 107 or higher mathematics course. An exploration of mechanics. The aim is to apply the laws of physics to a broad range of motion-related physical phenomena. Topics include kinematics, force, dynamics, conservation laws, and rotational motion. Elementary trigonometric and vector properties are used.

PHYS 122 Fundamentals of Physics II (4)

(A continuation of PHYS 121. Fulfills the laboratory science requirement.) Prerequisite: PHYS 121. An exploration of heat, waves, electricity, magnetism, optics, and modern physics. The aim is to apply the laws of physics to a broad range of physical phenomena. Topics include the laws of thermodynamics, ideal gas law, Coulomb's law, electric field and potential, Ohm's law, magnetic field and force, Ampere's law, Faraday's law, electro-magnetic waves, sound, optics, Bohr's model of the atom, radioactivity, and nuclear decay.

Professional Exploration

PACE 100 Professional and Career Exploration for Transfer Students (3)

(Fulfills the general education requirement in professional explorations for eligible transfer students with 60 or more credits in transfer.) A condensed orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on exploring ways to develop and enhance career opportunities, becoming familiar with program options, and reflecting on personal goals. Students may receive credit for only one of the following courses: PACE 100, PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111B Program and Career Exploration in Business (3)

(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations, learn about UMGC resources for success, reflect on academic and professional goals, and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111C Program and Career Exploration in Communication/Humanities (3)

(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations, learn about UMGC resources for success, reflect on academic and professional goals, and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111M Program and Career Exploration in Multidisciplinary Studies (3)

(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations, learn about UMGC resources for success, reflect on academic and professional goals, and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111P Program and Career Exploration in Public Safety (3)

(Fulfills the general education requirement in professional explorations.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options in various specific fields. Focus is on practicing and improving communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations, reflect on one's academic and professional goals, discover ways to advance progress toward a degree through transfer credit and other prior learning options, and explore UMGC's resources for student success by completing assignments relevant to one's major. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111S Program and Career Exploration in Health and Sciences (3)

(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations, learn about UMGC resources for success, reflect on academic and professional goals, and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

PACE 111T Program and Career Exploration in Technology (3)

(Fulfills the general education requirement in research and computing literacy.) An orientation to UMGC and exploration of how UMGC academic programs align to professional goals and career options. Focus is on developing and practicing communication, teamwork, professionalism, and integrity skills while exploring ways to develop and enhance career opportunities. The aim is to become familiar with the university's academic culture and expectations, learn about UMGC resources for success, reflect on academic and professional goals, and explore opportunities to shorten programs through transfer credit and other prior learning. Students may receive credit for only one of the following courses: PACE 111B, PACE 111C, PACE 111M, PACE 111P, PACE 111S, or PACE 111T.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

Psychology

PSYC 100 Introduction to Psychology (3)

A survey of the basic principles, research concepts, and problems in psychological science. The biological, cognitive, and social perspectives of human thought and behavior are addressed. The goal is to apply major concepts and use the scientific method to enhance the understanding of individual, community, and organizational life experiences. Topics include neuroscience, sensation and perception, learning and conditioning, memory, motivation, language and intelligence, personality and social behavior, and psychopathology and therapy. Applications of psychology are also presented. Students may receive credit for only one of the following courses: BEHS 101 or PSYC 100.

PSYC 220 Social Psychology (3)

(Formerly PSYC 321.) Prerequisite: PSYC 100. An examination of the influence of social factors on individual and interpersonal behaviors. The objective is to analyze how thoughts, feelings, and behaviors are affected by the presence of others (actual or imagined). Topics include the self, social perception, social cognition and information processing, relationships, attitudes, social influence, and group behavior. Students may receive credit for only one of the following courses: BEHS 221, BEHS 421, BEHS 450, PSYC 220, PSYC 221, or PSYC 321.

PSYC 251 Lifespan Development (3)

(Formerly PSYC 351.) Prerequisite: PSYC 100. An integrated study of the biological, socioemotional, and cognitive development of humans from conception through death. Applied is knowledge of lifespan development to interpersonal, community, and organizational relationships. Emphasis is on the interaction of nature and nurture on one's physiology, capability, and potential at each progressive stage of development.

PSYC 300 Research Methods in Psychology (3)

Prerequisites: PSYC 100 and STAT 200. A survey of research methods focusing on the fundamentals of research design and behavior. The aim is to apply research methodologies critically and creatively to communicate effectively about the domains of psychology. Topics include scientific writing using APA style, evaluation of research literature, and ethical issues in research. Practice is provided in asking research questions, formulating research hypotheses, designing and conducting a simulated research study, and presenting results. Students may receive credit for only one of the following courses: PSYC 300 or PSYC 305.

PSYC 301 Biological Basis of Behavior (3)

Prerequisite: PSYC 100. An introduction to the anatomical structures and physiological processes that determine behavior. The objective is to use scientifically valid resources to communicate effectively about the biological basis of behavior. Topics include the acquisition and processing of sensory information, the neural control of movement, and the biological bases of complex behaviors (such as sleep, learning, memory, sex, and language), as well as the basic functioning of the nervous system.

PSYC 306 Special Topics in Psychology (1–3)

Seminar discussion of topics of current interest. Areas explored may extend or augment those covered in more general topical courses. May be repeated to a maximum of 6 credits when topics differ.

PSYC 307 Special Topics in Biological Psychology (1–3)

Seminar discussion of topics of current interest. Areas explored may extend or augment those covered in more general topical courses. May be repeated to a maximum of 6 credits when topics differ.

PSYC 308 Special Topics in Social Psychology (1–3)

Seminar discussion of topics of current interest. Areas explored may extend or augment those covered in more general topical courses. May be repeated to a maximum of 6 credits when topics differ.

PSYC 309 Special Topics in Professional Psychology (1–3)

Seminar discussion of topics of current interest. The goal is to attain specialized knowledge in a particular area of professional psychology. Topics may extend or augment those covered in more general courses. May be repeated to a maximum of 6 credits when topics differ.

PSYC 309BP Stress and Stress Management (1)

This course is an exploration of the nature and causes of stress and techniques for its management. The aim is to identify a variety of techniques to mitigate stress. The biopsychosocial perspective is examined in relation to the stresses produced in a variety of contexts. The four main areas of study are the physiological effects of stressors, the impact of cognitive appraisal, interpersonal relationships, and techniques for the management of personal stress.

PSYC 309K Managing Interpersonal Stress and Conflict (1)

An exploration of the nature and causes of stress and techniques for its management. The aim is to identify a variety of techniques to mitigate stress. Topics include psychological processes that cause interpersonal conflict and those that can bring about its reduction, as well as interpersonal and group factors, such as cooperation and negotiation.

PSYC 309KL Psychology of Grief and Loss (1)

Life and grieving are ongoing processes. The experience of grief and loss varies with individuals and can result in a multitude of outcomes ranging from threatening to transformative. This course is designed to equip students with a deeper understanding of variations in individuals' paths through grief and loss as they relate to the type of losses, coping styles, cultural contexts, and worldviews. Through an examination of perspectives on death, dying, grief, and loss, students can gain a greater appreciation for life, living, and posttraumatic growth.

PSYC 3090 Cyberpsychology (1)

An examination of the psychology of human and computer interaction. The aim is to apply knowledge of psychological principles and research to emerging technologies and evaluate the appropriateness of delivery modality. Topics include e-therapy, online identities and interaction, and artificial intelligence. Emphasis is on the analysis of human-computer interactions and the application of technology in multiple settings.

PSYC 309VG Emotional Well-Being (1)

This course provides an overview of emotional well-being and concepts that can promote an understanding of personal emotions and overall psychological health. In this course, students will learn information pertaining to emotional IQ, or EQ, and developing self-regulated, emotional wellness and happiness. Students will explore the science behind emotion, self-management techniques, as well as methods to address healthy relationships. The course also looks at different strategies for building emotional intelligence, such as taking ownership of emotions, becoming emotionally self-aware, and identifying emotions. This one credit hour seminar consists of a combination of classroom lecture and online work.

PSYC 310 Sensation and Perception (3)

Prerequisite: PSYC 100. A survey of theories and historical and contemporary research into how the auditory, visual, gustatory, olfactory, kinesthetic, and tactile senses acquire information and how psychological, anatomical, physiological, and environmental factors help us perceive the world. The objective is to apply an understanding of complex neural and behavioral processes to evaluate research and analyze variations within and between species.

PSYC 332 Psychology of Human Sexuality (3)

Prerequisite: PSYC 100. An examination of human sexuality and sexual behavior. The objective is to apply knowledge of the physiology and psychology of human sexuality. Topics include sexual anatomy, intimate relationships, sexual health, and sexual identity across the lifespan. Students may receive credit for only one of the following courses: BEHS 363, HLTH 377, or PSYC 332.

PSYC 335 Theories of Personality (3)

(Formerly PSYC 435.) Prerequisite: PSYC 100. A study of major theories and perspectives on personality. The goal is to explain and evaluate major concepts in personality. Topics include trait, psychodynamic, behavioral, and humanistic theories. Methods of personality research and relevant findings are also introduced. Students may receive credit for only one of the following courses: PSYC 335 or PSYC 435.

PSYC 338 Psychology of Gender (3)

Prerequisite: PSYC 100. A survey of the biology, lifespan development, socialization, personality attributes, mental health factors, and special considerations associated with gender. The aim is to apply knowledge of cultural and historical influences relating to gender. Topics include conceptions of gender, gender roles, and gender similarities and differences.

PSYC 341 Memory and Cognition (3)

Prerequisite: PSYC 100. An introduction to basic models, methods of research, and findings in the fields of memory, problem-solving, and language. The objective is to apply knowledge of cognitive processes to a variety of situations, including organizational and educational settings. Both applications and theory are explored.

PSYC 353 Psychopathology and Mental Health (3)

Prerequisite: PSYC 100. An examination of mental disorders across the lifespan. The goal is to evaluate emerging issues in psychopathology and mental health. Topics include the identification and diagnosis of specific disorders and the evolution of treatment protocols. Students may receive credit for only one of the following courses: PSYC 331, PSYC 353, or PSYC 431.

PSYC 354 Cross-Cultural Psychology (3)

Prerequisite: PSYC 100. An examination of the interplay of individual, ethnic, and cultural factors in psychosocial growth and well-being. The objective is to use theory, research, and the practiced utilization of cultural factors to understand identity development, communication, social institutions and norms, health and well-being, cross-cultural interpersonal relations, and cultural humility and competence. Issues of globalization, diversity, cultural bias, and intersectionality are addressed.

PSYC 361 Industrial and Organizational Psychology (3)

Prerequisite: PSYC 100. A general survey of the field of industrial/organizational psychology. The objective is to examine the behavioral, sociocultural, and ethical factors that influence workplace environments. Topics include entering into the organization and evaluating and changing individual workplace behaviors.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

PSYC 386 Psychology of Stress (3)

Prerequisite: PSYC 100. An examination of the forces that define and determine the stress response. The aim is to apply stress management techniques to remediate the negative impact of stress. Stress is studied as the product of the interactions among one's social structure, occupational status, and psychological and physiological levels of well-being. The psychological perspective is examined in relation to the stresses produced in a variety of contexts, such as families and work organizations. Students may receive credit for only one of the following courses: BEHS 463, HLTH 285, or PSYC 386.

PSYC 432 Introduction to Counseling Psychology (3)

Prerequisite: PSYC 100. A survey and critical analysis of research and intervention strategies developed and used by counseling psychologists. The goal is to evaluate current trends in content and methodology. Topics include counseling protocols in various applied settings.

PSYC 436 Introduction to Clinical Psychology (3)

Prerequisite: PSYC 100. A survey of the field of clinical psychology as a distinct mental health discipline. The objective is to evaluate current trends in content and methodology. History of the field, diagnostic and therapeutic strategies employed by clinical psychologists, ethical issues, and working with diverse populations are explored. Emphasis is on the scientist-practitioner model and the critical analysis of theories and empirical research.

PSYC 437 Positive Psychology (3)

Prerequisite: PSYC 100. A survey of the science of positive psychology. The aim is to analyze and evaluate theories and applications of positive psychology. Focus is on the unique characteristics of the human experience that contribute to health and well-being. Topics include hope, optimism, human strengths, happiness, flow, and attachment.

PSYC 495 Psychology Capstone (3)

Prerequisite: Completion of 24 credits of required major coursework, including PSYC 100 and PSYC 300. A capstone study of psychology that integrates knowledge gained through previous coursework and experience. The aim is to build on that conceptual foundation through case study, reflective essays, and portfolio development.

Public Safety Administration

PSAD 302 Introduction to Public Safety Administration (3)

Prerequisite: WRTG 112 or equivalent. An introduction to public safety organizations and the functions of administrators within these organizations. The objective is to identify key functions of public safety administration and describe the history and current forces and trends facing public safety administrators. The history, development, growth, and future of various interdependent public safety entities are examined from an interdisciplinary perspective. Topics include key responsibilities of administrators in public safety administration.

PSAD 304 Contemporary Public Safety Practices (3)

An investigation of contemporary strategic public safety practices. The goal is to explore several best practices generally associated with successful organizations and apply them to the field of public safety. Topics include the role of hazard and risk management, quality control, and customer service in public safety organizations. Discussion also covers contemporary views of public safety integration and consolidation, as well as public and private partnerships.

PSAD 306 Public Safety Planning (3)

An examination of strategic, operational, and tactical planning in public safety administration with an emphasis on the planning process. The aim is to demonstrate key skills in public safety planning by successfully developing a hazards mitigation plan. Topics include strategic, operational, and tactical planning as well as resource allocation and hazards mitigation.

PSAD 408 Public Safety Legal Issues and Public Policy (3)

A review of the U.S. legal system and an analysis of the law as it relates to the administration of public safety organizations. Principles of legal obligations, limitations, liabilities, and immunities are examined and discussed, both in general terms and, where applicable, in terms of how they differ in the treatment of public employers and employees. The objective is to develop an appreciation of the legal responsibilities of public safety administrators to their employees and the public at large.

PSAD 410 Public Safety Research and Technology (3)

An examination of research and the applications of technology in public safety administration. The goal is to describe the principles of scientific research; evaluate existing research and technology; and apply the methods and resources of research, science, and technology to public safety administration. Topics include scientific research, research methodology, technology, and the evaluation and use of research and technology in public safety administration.

PSAD 414 Public Safety Administration Ethics (3)

An in-depth examination of ethics and ethical issues in public safety administration. The aim is to recognize the principles of ethical decision-making and those factors that tend to undermine their application and those that tend to support them. Topics include the most well-known ethical systems, values and empathy, moral disengagement, ethical decision-making and ethical leadership, and deception as viewed through the lens of ethical responsibility.

PSAD 416 Public Safety Leadership (3)

A study of leadership theories, skills, and techniques used in public safety administration. The objective is to define and explain basic concepts of leadership; analyze personal leadership knowledge, skills, and abilities; and evaluate leadership performance in the current public safety environment. Topics include leadership, leadership theories and styles, leadership roles, leadership performance, individual leadership skills and plans, effective leadership, and future trends.

PSAD 486A Workplace Learning in Public Safety Administration (3)

Prerequisite: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

PSAD 486B Workplace Learning in Public Safety Administration (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

PSAD 495 Public Safety Administration Capstone (3)

Prerequisites: PSAD 306, PSAD 408, PSAD 410, PSAD 414, and PSAD 416. An intensive study of public safety administration that integrates knowledge gained through previous coursework and builds on that foundation through integrative analysis, practical application, and critical thinking. Focus is on using these skills to address the challenges of current and future issues in public safety administration. The aim is to integrate leadership, administration, and management concepts and apply them to current public safety issues. Assignments include the development of a comprehensive case study related to a current public safety issue.

Sociology

SOCY 100 Introduction to Sociology (3)

An introduction to the basic concepts, theoretical perspectives, and research methods in sociology. The objective is to apply sociological imagination, perspectives, and research to uncover patterns of social behavior and identify their consequences. Topics include culture, socialization, groups, deviance, stratification, institutions, and social change. Students may receive credit for only one of the following courses: BEHS 102 or SOCY 100.

SOCY 300 American Society (3)

Prerequisite: SOCY 100. An in-depth examination of American society and what it means to be American from a sociological perspective. Discussion explores past and current values, ideals, and norms and applies sociological theories to analyze the ways that these values, ideals, and norms have shaped aspects of American social life, such as politics, consumerism, popular culture, social stratification, economics, diversity, education, religion, and social change. The objective is to identify and describe various aspects of social and cultural change to better understand American society.

SOCY 309 Social Demography (3)

(Formerly SOCY 410.) Prerequisite: SOCY 100. A study of social demography. The goal is to identify, evaluate, and interpret key demographic concepts and develop an understanding of global population dynamics. Topics include types of demographic analysis, demographic data, population characteristics, migration, mortality, fertility, population theories, world population growth, and population policy. Students may receive credit for only one of the following courses: SOCY 309 or SOCY 410.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

SOCY 313 The Individual and Society (3)

Prerequisite: SOCY 100. A sociological examination of how individuals shape and are shaped by society. The objective is to analyze and communicate how the individual self is molded through social forces and how individuals contribute to the continuous creation of society, using micro-level sociological theories and concepts. Discussions apply sociological concepts and theories to examine interpersonal relations, group processes, identity, and social change. Topics include the influence of social inequality on identity, the social aspects of emotion management, interpersonal conflict and cooperation, and workplace interactions. Students may receive credit for only one of the following courses: BEHS 312, SOCY 311, or SOCY 313.

SOCY 325 The Sociology of Gender (3)

Prerequisite: SOCY 100. An advanced sociological examination of how gender intersects with other social strata to produce or reproduce systems of oppression and/or privilege. The goal is to uncover the sociological significance of gender in everyday life. Activities include an interactive implicit associations gender quiz and a gendered analysis of a personal or professional experience. Topics include gender socialization, gender-based violence, intersectionality, artificial intelligence and gender, gender and health, gender relations in the family, hegemonic masculinity, and gender stratification in the labor force.

SOCY 350 Contemporary Social Problems (3)

Prerequisite: SOCY 100. An advanced examination of various local, national, and global problems that affect societies. The aim is to apply sociological perspectives and research to analyze the process by which social conditions become recognized as social problems and are resolved by various actors. Topics include the subjective/objective aspects of social problems, claims about social problems in the media, and how sociologists can help inform possible solutions to social problems. Discussion also covers problems related to human rights, violence, social isolation/loneliness, and social inequality. Students may receive credit for only one of the following courses: SOCY 105, SOCY 210, or SOCY 350.

SOCY 398 Special Topics in Sociology (3)

Prerequisite: SOCY 100. A study of topics of special interest. May be repeated to a maximum of 6 credits when topics differ.

SOCY 423 Race and Ethnicity: A Global Perspective (3)

Prerequisite: SOCY 100. An advanced examination of race and ethnicity in a variety of social and cultural contexts around the globe. The aim is to apply sociological theories and concepts to understand how race and ethnicity are constructed, how prejudice develops, how structural racism manifests in society, the social effects of migration and immigration, the global outcomes of slavery and genocide, and how social movements seek to effect change for a more equitable society. Topics include theories of prejudice transmission and reduction, critical race theory, and global consequences of structural racism related to climate change and health.

SOCY 426 Sociology of Religion (3)

Prerequisite: SOCY 100. An advanced examination of religion from a sociological perspective. The aim is to evaluate the influence of social location on religious beliefs and attitudes; examine relationships between church and state; and analyze current religious conflicts and controversies. Topics include fundamentalism versus extremism; modernity; religious conflicts; and the relationship of religion with race, class, gender, sexuality, and politics.

SOCY 428 Migrants and Refugees (3)

Prerequisite: SOCY 100. An advanced sociological study of international, global, and economic issues regarding migrants and refugees, addressing population movements to and from countries. The objective is to analyze data and historical evidence and assess the role of globalization on migration. Topics include migrants and refugees, immigration, the role of conflict in migration, politics and laws regarding migrants and refugees, and the role of globalization in generating population flows.

SOCY 443 Sociology of the Family (3)

Prerequisite: SOCY 100. An advanced examination of the family in society. The goal is to analyze, communicate, and project trends regarding family structures and outcomes through the application of major sociological perspectives. Discussions will use sociological research to describe some of the following: changing definitions of family; demographic trends in marriage and family patterns; social dynamics within families; and the effects of technology on family relationships. Topics include single parenting, blended families, cultural differences among families, changes in families over the life course, and governmental policies regarding families.

SOCY 462 Women in the Military (3)

Prerequisite: SOCY 100. An advanced examination of women in the military from a sociological perspective. The objective is to understand gender, power, and the changing roles of women in the military; assess how policies affect women in the military; examine military, community, and family support systems for military women; and compare the roles and duties of women in the U.S. armed forces in war and peacetime with those of military women in other countries. Topics include the social construction of gender and sexuality of the armed forces; the history of women in the military; violence against women in the military; rank, status, and advancement of women in the military; and postmilitary transitions and career options for women.

SOCY 473 Cities and Communities (3)

Prerequisite: SOCY 100. An advanced sociological study of cities and the urban landscape. The aim is to apply major sociological theories to investigate interdependencies between social action, urbanization, and the environment. Focus is on current issues relevant to the challenge of building livable and sustainable cities. Topics include urban social networks, suburbanization, social problems of urbanization, and urban planning and policies.

SOCY 486A Workplace Learning in Sociology (3)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

SOCY 486B Workplace Learning in Sociology (6)

Prerequisites: 9 credits in the discipline and prior program approval (requirements detailed online at umgc.edu/wkpl). The integration of discipline-specific knowledge with new experiences in the work environment. Tasks include completing a series of academic assignments that parallel work experiences.

Speech Communication

SPCH 100 Foundations of Oral Communication (3)

For online sections, access to a broadband internet connection, use of a digital camera capable of recording 10-minute videos, and the ability to save and transfer video to a hosting site required. (Fulfills the prerequisite for all upper-level SPCH courses.) An introduction to oral communication, with emphasis on interpersonal communication, small-group communication, and public speaking. The objective is to prepare speeches, provide feedback to others, and participate in group activities. Students may receive credit for only one of the following courses: SPCH 100, SPCH 100X, SPCH 101, SPCH 107, or SPCH 108.

SPCH 100X Foundations of Speech Communication (3)

(Enrollment restricted to students for whom English is a second language.) An overview of the principles of communication. Verbal and nonverbal language, listening, group dynamics, and public speaking are highlighted. Emphasis is on applying communication principles to contemporary problems and preparing various types of oral discourse. Students may receive credit for only one of the following courses: SPCH 100, SPCH 100X, SPCH 101, SPCH 107, or SPCH 108.

SPCH 125 Introduction to Interpersonal Communication (3)

(Fulfills the prerequisite for all upper-level SPCH courses.) An exploration of the role interpersonal communication plays in our personal and professional lives. The aim is to apply theoretical frameworks and key concepts in communication to personal behavior and personal and professional contexts. Topics include self-identity, perception, listening, verbal and nonverbal communication, relationship development, and conflict management.

SPCH 324 Communication and Gender (3)

Prerequisite: Any SPCH course or COMM 300. An investigation of how communication influences gender and how gender affects communication. The objective is to apply theoretical frameworks and key concepts of gender to contexts, situations, and messages. Discussion covers gender roles, gender variation across communication styles, and the role gender plays in personal and professional relationships, as well as its role in culture and the media.

SPCH 470 Effective Listening (3)

Prerequisite: Any SPCH course or COMM 300. An exploration of the complexities of message reception and interpretation as related to personal growth, social relationships, and professional development. The goal is to assess and modify listening practices. Topics include the role of listening in communication, types of listening, and listening skills for specific contexts.

SPCH 472 Nonverbal Communication (3)

Prerequisite: Any SPCH course or COMM 300. A comprehensive investigation of nonverbal communication in human interaction. The aim is to analyze the impact of nonverbal messages on interpersonal, organizational, and public communication. Emphasis is on hands-on application of principles and practices to real-world situations. Topics include foundations of interpersonal attraction, use and abuse of personal space, and cross-cultural and gendered behaviors.

COURSE INFORMATION

UNDERGRADUATE COURSE DESCRIPTIONS

SPCH 482 Intercultural Communication (3)

Prerequisite: Any SPCH course or COMM 300. An examination of the major variables of communication in an intercultural context. The objective is to develop and apply communication strategies. Topics include cultural, racial, and national differences; stereotypes; values; cultural assumptions; and verbal and nonverbal channels.

Statistics and Probability

STAT 200 Introduction to Statistics (3)

An introduction to statistics. The objective is to assess the validity of statistical conclusions; organize, summarize, interpret, and present data using graphical and tabular representations; and apply principles of inferential statistics. Focus is on selecting and applying appropriate statistical tests and determining reasonable inferences and predictions from a set of data.

Topics include methods of sampling; percentiles; concepts of probability; probability distributions; normal, t-, and chi-square distributions; confidence intervals; hypothesis testing of one and two means; proportions; binomial experiments; sample size calculations; correlation; regression; and analysis of variance (ANOVA). Students may receive credit for only one of the following courses: BEHS 202, BEHS 302, BMGT 230, ECON 321, GNST 201, MATH 111, MGMT 316, PSYC 200, SOCY 201, STAT 100, STAT 200, STAT 225, or STAT 230.

STAT 400 Applied Probability and Statistics (3)

Prerequisite: MATH 141. An intermediate study of statistical and probabilistic theory. The aim is to apply quantitative tools for decision-making and interpret statistical results in professional literature and the media. Topics include random variables, standard distributions, sampling methods, law of large numbers and the Central Limit Theorem, moments, estimations of parameters, and testing of hypotheses.

Theatre

THET 110 Introduction to the Theatre (3)

An introduction to the experience of the theatre. The objective is to gain a historical perspective and critically appraise dramatic content in performing arts. Emphasis is on engaging with theatrical performances as informed audience members and assessing one's role within the script-performance-audience dynamic. Assignments include attendance at two live professional performances. Students may receive credits for only one of the following courses: HUMN 110 or THET 110.

UMEI

UMEI 030 Basic Interpersonal Communication Skills Course (3)

(Does not apply toward degree requirements. Yields institutional credit only.) An advanced study of spoken English as a second language focusing on American English. Opportunities to discuss and write about cultural similarities and differences are provided.

UMEI 020 Integrated Skills for College Literacy (3)

(Does not apply toward degree requirements. Yields institutional credit only.) An advanced study of written English as a second language that builds on already acquired English communication skills.

Women's Studies

WMST 200 Introduction to Women, Gender, and Sexuality Studies (3)

An interdisciplinary study of the status, roles, and experiences of women in contemporary society. The aim is to recognize the impact of gender in all academic disciplines; analyze political, economic, social, and cultural issues through a feminist lens; and apply knowledge of local and global issues to affect positive change in women's lives. Discussion covers women's experiences across geography and history. Topics include gender and other identities, systems of privilege and inequality, sexuality, and power relations.

Writing

WRTG 111 Academic Writing I (3)

(The first course in the two-course series WRTG 111–WRTG 112. Fulfills the general education requirement in communications.) An introduction to reading, writing, and critical thinking in an academic setting. The goal is to practice strategies for understanding academic texts and for developing one's ideas in relation to those texts. Focus is on writing thesis-driven essays that incorporate ideas and information from sources and demonstrate critical thinking, proper attribution, and effective language use. Students may receive credit for only one of the following courses: WRTG 100A, WRTG 111, or WRTG 111X.

WRTG 111X Academic Writing I (3)

(The first course in the two-course series WRTG 111X/WRTG 112X. Fulfills the general education requirement in communications. Enrollment restricted to students for whom English is a second language.) An introduction to reading, writing, and critical thinking in an academic setting. The goal is to practice strategies for understanding academic texts and for developing one's ideas in relation to those texts. Focus is on writing thesis-driven essays that incorporate ideas and information from sources and demonstrate critical thinking, proper attribution, and effective language use. Students may receive credit for only one of the following courses: WRTG 100A, WRTG 111, or WRTG 111X.

WRTG 112 Academic Writing II (3)

(The second course in the two-course series WRTG 111–WRTG 112. Fulfills the general education requirement in communications.) Continued practice in reading, writing, and critical thinking with an emphasis on research and argumentation. The goal is to implement strategies for analyzing ideas and rhetorical techniques in academic texts and for conducting academic research. Focus is on writing an argumentative research paper that synthesizes information and ideas from multiple sources and demonstrates critical thinking, varied rhetorical strategies, proper source documentation, and effective language use. Students may receive credit for only one of the following courses: ENGL 101, ENGL 101X, WRTG 101, WRTG 101S, WRTG 101X, WRTG 112, or WRTG 112X.

WRTG 112X Academic Writing II (3)

(The second course in the two-course series WRTG 111X/WRTG 112X. Fulfills the general education requirement in communications. Enrollment restricted to students for whom English is a second language.) Continued practice in reading, writing, and critical thinking with an emphasis on research and argumentation. The goal is to implement strategies for analyzing ideas and rhetorical techniques in academic texts and for conducting academic research. Focus is on writing an argumentative research paper that synthesizes information and ideas from multiple sources and demonstrates critical thinking, varied rhetorical strategies, proper source documentation, and effective language use. Students may receive credit for only one of the following courses: ENGL 101, ENGL 101X, WRTG 101, WRTG 101S, WRTG 101X, WRTG 112, or WRTG 112X.

WRTG 291 Research Writing (3)

(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112. Continued practice in critical reading, thinking, and writing skills. The objective is to analyze, evaluate, and synthesize diverse sources and viewpoints to develop persuasive and academic writing projects. Assignments include prewriting exercises, an annotated bibliography, a synthesis research essay, and a reflective paper. Students may receive credit for only one of the following courses: ENGL 291, ENGL 291H, or WRTG 291.

WRTG 293 Introduction to Professional Writing (3)

(Fulfills the general education requirement in communications.) Prerequisite: WRTG 112. An overview of professional writing. The goal is to analyze professional communication scenarios to develop effective workplace writing. Topics include the standards, conventions, and technologies of professional writing; communicating to a variety of audiences; and developing appropriate written responses to workplace challenges. Students may receive credit for only one of the following courses: COMM 293, ENGL 293, or WRTG 293.

WRTG 391 Advanced Research Writing (3)

(Fulfills the general education requirement in upper-level advanced writing.) Prerequisite: WRTG 112. Instruction and practice in academic research skills. The objective is to critically analyze scholarly and other credible sources and effectively integrate source material into a complex argument. Emphasis is placed on synthesizing multiple sources in producing a literature review on a focused topic. Students may receive credit for only one of the following courses: ENGL 391, ENGL 391X, WRTG 391, or WRTG 391X.

WRTG 393 Advanced Technical Writing (3)

(Fulfills the general education requirement in upper-level advanced writing.) Prerequisite: WRTG 112. A comprehensive, project-based study of applied technical writing. The aim is to design and develop appropriate and effective technical documents using strategies and technologies for a variety of audiences. Students may receive credit for only one of the following courses: COMM 393/393X, ENGL 393/393X, or WRTG 393/393X.

WRTG 394 Advanced Business Writing (3)

(Fulfills the general education requirement in upper-level advanced writing.) Prerequisite: WRTG 112. A comprehensive, project-based study of applied business writing. The aim is to develop documents appropriate to audience and purpose that are well argued and conform to standards to business writing. Topics include context, purpose, audience, style, organization, format, results, technologies, and strategies for persuasion in typical workplace messages. In addition to shorter assignments, a substantial formal report that incorporates research and support for conclusions or recommendations is required. Students may receive credit for only one of the following courses: COMM 394/394X, ENGL 394/394X, or WRTG 394/394X.

COURSE INFORMATION

GRADUATE COURSE DESCRIPTIONS

Accounting

ACCT 605 Accounting for Managers (3)

(For MBA students only.) A fundamental study of financial accounting and how it is used in managerial decision-making. Discussion covers financial statements, cost behavior, budgeting, performance measurement, and control systems. The objective is to use cost-volume-profit analysis to make pricing and product mix decisions and to create and analyze budgets, which are essential tools for planning and controlling business activities. Topics include the process of developing a budget and ways to evaluate performance against budgeted expectations. Emphasis is on developing the ability to think critically about accounting information and its use in managerial decision-making. Activities provide practical experience in financial statement analysis, cost behavior analysis, budgeting, and performance measurement.

Business and Management

BMGT 610 Business Analytics (3)

A study of business analytics, an important capability for companies operating in competitive markets. Topics include collecting, importing, exporting, organizing, and optimizing data and creating and managing data frames. Statistical software and data visualization tools are used to make informed data-driven decisions, solve real-world problems, and increase productivity and efficiency.

BMGT 620 Innovation and Entrepreneurship (3)

An examination of innovation and entrepreneurship in a business environment. Focus is on applying principles of innovation and entrepreneurship to the creation, development, and management of new ventures. Discussion covers the principles of innovation, design thinking, opportunity recognition, funding, and scaling up of entrepreneurial ventures, as well as the challenges and opportunities for innovation in existing organizations. The goal is to think critically about innovation and gain practical experience in managing innovation in organizations and creating and developing new ventures.

BMGT 690 Business Strategy Capstone (3)

Prerequisite: All MBA core courses. An examination of business strategy that synthesizes and applies key concepts gained through previous study to an actual business situation. A business simulation is used to make strategic decisions related to financial, marketing, sales, and production scenarios. Activities include developing a business plan for a foreign market entry, conducting an analysis of two foreign markets, examining the markets' potential, determining country and financial risks, examining potential customers, selecting suitable distributors, and making a market entry decision as part of a team.

Decisive Communication and Leadership

DCL 600M Decisive Thinking, Communicating, and Leading in Multidisciplinary Fields (6)

(Applicable to the acquisition and contract management and transformational leadership programs.) Prepare for academic and professional success by developing skills that employers want in their employees. Explore your area of study to learn how it connects with your career aspirations, create a professional social network presence, and use critical thinking to inform decisions. Improve and refine your skills in communication, critical thinking, quantitative reasoning, and team leadership. Hone your professional writing and oral communication skills to produce effective presentations, and become proficient with spreadsheets, collaboration tools, and other professional software. Students may receive credit for only one of the following courses: CBR 600, DCL 600M, DCL 600T, or PRO 600.

Financial Management

FIN 610 Financial Management in Organizations (3)

An investigation of financial management theory and applications in organizations. Discounted cash flow and rate-of-return analyses are used to evaluate projects and financial instruments. Discussion covers the role of the cost of capital and the Capital Asset Pricing Model (CAPM) in capital investment analysis and selection. Capital budgeting, stock and bond valuation, break-even analysis, and capital market efficiency are introduced.

FIN 615 Financial Analysis and Modeling (3)

Prerequisite: FIN 610. An exploration of how financial managers use financial modeling, analysis, and research to build forecasts and projections, evaluate financial alternatives, and support financial decision-making in both operational and strategic contexts. Models are developed using Microsoft Excel; exercises and extended case studies are utilized to interpret and employ results. Topics include financial statements and ratio analysis, cash flow forecasting, operations budgeting, breakeven and leverage analysis, time value of money applications, and capital budgeting and risk assessment.

FIN 620 Long-Term Financial Management (3)

Prerequisite: FIN 610. An exploration of the long-term financial needs of an organization and the roles of the capital markets. Topics include the financial environment of organizations, options and futures instruments, long-term financing, the capital budgeting decision process, capital structure management, dividend and share repurchase policy, and investment banking and restructuring. Various types of long-term funding sources— including term loans, derivatives, debt and equity securities, and leasing—are analyzed. Alternate policies with regard to financial leverage, capital structure, dividends, and the issuance of preferred stock are evaluated. Mergers, leveraged buyouts, and divestitures are examined as special situations to create value.

FIN 630 Investment Valuation (3)

Prerequisite: FIN 610. An in-depth exploration and application of valuation models to support managerial decision-making in a strategic framework. The theory, concepts, and principles underlying the valuation of firms, business/product lines, and mergers and acquisitions are addressed using extended exercises and applications. The discounted cash flow model is used as a tool. Discussion covers the financial drivers of value, including assessing and determining risk, competitive advantage period, and sales and earnings growth estimates. Other valuation techniques using earnings, revenues, and price/earnings multiples are also discussed and applied in selected examples.

FIN 640 International Financial Management (3)

Prerequisite: FIN 610. A study of financial management issues in international organizations. Topics include the environment of international financial management, foreign exchange markets risk management, international working capital management, and foreign investment analysis. The financing of foreign operations, international banking, and the role of financial management in maintaining global competitiveness are also considered.

FIN 645 Behavioral Finance (3)

Prerequisite: FIN 610. A study of the key psychological obstacles to value-maximizing behavior and steps that managers can take to mitigate their effects, using the traditional tools of corporate finance. Focus is on understanding the underlying factors and processes that result in nonoptimal decision-making by financial managers. Topics include perceptions about risk and reward and financial decision-making in the areas of investing, trading, valuation, capital budgeting, capital structure, dividend policy, agency conflicts, corporate governance, and mergers and acquisitions. The key role played by emotions and recent findings from neuroscience are explored.

FIN 660 Strategic Financial Management (3)

Prerequisite: FIN 610. An integrative study of financial management through applied problems and case studies. Topics reflect the changing environment of financial management in organizations and include capital investment decision-making, the role of intangibles in value creation, financial performance metrics, strategic financial planning and control, strategic valuation decisions, growth strategies for increasing value, the restructuring of financial processes, corporate governance and ethics, value-based management, strategic cost management, and the impact of information technology on the organization's financial systems. A finance simulation is used as an integrating mechanism.

Human Resource Management and Development

HRMD 610 Issues and Practices in Human Resource Management (3)

(Strongly recommended as the first course in the human resources management concentration.) An overview of the human resource management profession, including the theories, research, and issues related to human resource management within modern organizations. The roles, responsibilities, relationships, functions, and processes of human resource management are discussed from a systems perspective. Expectations of various stakeholders, such as government, employees, labor organizations, staff/line management, and executive management, are explored. Particular attention is given to the general legal principles and provisions that govern human resource activities. The specialty areas of employee relations, staffing, human resource development, compensation, and organizational development are described. Current topics, such as human resource information systems and globalization, are addressed.

HRMD 620 Employee and Labor Relations (3)

An investigation of the rights and responsibilities of employees and organizations in union and nonunion environments in the United States. The federal legal framework for collective bargaining is reviewed. Topics include common employment contract trends, topics, and issues, as well as all phases of unionization, from organizing through contract maintenance. Emphasis is on conflict management, negotiation, and alternate dispute resolution.

COURSE INFORMATION

GRADUATE COURSE DESCRIPTIONS

HRMD 630 Recruitment and Selection (3)

An examination of the initial phases of staffing, focusing on the hiring process. The contemporary roles, relationships, and processes of recruitment and selection in the human resource management system are investigated. Emphasis is on productivity factors (such as the use of technology) and quality factors (such as legal, ethical, and validity issues). Topics include international as well as domestic concerns and consideration of multiple staffing levels (such as executive managers and temporary employees). Current issues in private, not-for-profit, and/or public sectors are discussed.

HRMD 640 Job Analysis, Assessment, and Compensation (3)

A study of the interrelated aspects of human resource management, including job design, job analysis, job evaluation, employee compensation, incentives to productivity, employee motivation, and performance appraisal. A variety of approaches for analyzing, weighing, and specifying the detailed elements of positions within modern organizations are presented. Discussion covers techniques for identifying and classifying the critical components of a job, defining the observable standards and measures, preparing and determining the job description and job worth, establishing equitable compensation for job performance, and developing an executive compensation program. The interaction of compensation, worker motivation, performance appraisal, and level of worker performance within the organization is examined.

HRMD 650 Organizational Development and Change (3)

A study of the issues, theories, and methodologies associated with organizational development and the management of change, with a major emphasis on organizational culture and organizational change processes. Topics include the diagnostic process, intervention strategies, and overcoming resistance to change. Techniques such as goal setting, team-development procedures, productivity and strategy interventions, and interpersonal-change models are examined.

HRMD 651 Current Perspectives in Training and Development (3)

An examination of the theories, research, skills, and issues related to one major aspect of human resource development, the management of organizational training services. The role of training in the workplace and adult learning models are investigated. Topics include curriculum management, program development, and operation management with an emphasis on design and delivery issues. The impact of technology, the global environment, and modern organizational structures are considered. Ethical issues are also discussed. Assignments include the development of training proposals or programs.

HRMD 665 Managing Virtual and Global Teams (3)

(Not open to students who have completed HRMD 621, HRMD 652, or HRMD 660.) An investigation of team development and performance from a human resource management and organizational behavior perspective. Focus is on maximizing the effectiveness and efficiency of global and virtual teams in organizations. Topics include the impact of global diversity and use of technology on inter-group development, communication, and outcomes. Scholarly research and field literature are examined and the implications of the findings for applied management are discussed.

Marketing

MRKT 600 Marketing Management (3)

An introduction to marketing management techniques and tools for creating, communicating, and delivering value for customers. Emphasis is on the various stages in the customer journey and marketing funnel, as well as internal and external environments, competition, market segmentation, target market selection, and competitive positioning. Discussion covers planning, decision-making, marketing goals, and metrics. Topics include designing a marketing plan with a digital strategy to create and deliver value to consumers in a digital world.

MRKT 602 Consumer Behavior and Customer Relationship Management (3)

Prerequisite: MRKT 600. A study of the consumer decision-making process, including problem identification, information research, evaluation of alternatives, purchase, and post-purchase assessment. Discussion covers the ways perception, motivation, and learning shape consumer choices and the role of digital media and technology in shaping contemporary consumer behavior. Topics include the fundamental concepts and principles of customer relationship management (CRM) and ways to measure and improve customer satisfaction and loyalty through various CRM strategies and techniques. Focus is on how to build customer relationships and business processes through effective CRM strategy development and execution.

MRKT 603 Brand Management and Integrated Marketing Communication (3)

Prerequisite: MRKT 600. A study of the role and importance of brands in marketing strategy. Discussion covers the fundamentals of developing a comprehensive brand strategy that aligns with the organization's goals and target audience. Topics include strategies to enhance, protect, and measure brand equity and the role of digital marketing and social media in brand management. The integration of marketing communication strategies to coordinate the marketing mix's components and achieve harmony in messages to customers and other stakeholders is also covered, as are ways to build, maintain, and enhance brand identity and equity through integrated communications efforts.

MRKT 604 Marketing Research and Analytics (3)

Prerequisite: MRKT 600. A study of the principles and methods used in marketing research. Focus is on identifying marketing problems and opportunities and developing data-based approaches to generate, refine, and evaluate marketing actions. Topics include designing market research strategies, understanding customer data analysis techniques and their application to real-world marketing problems, and evaluating the managerial implications of analytical results.

MRKT 605 International Marketing Management (3)

Prerequisite: MRKT 600. An in-depth study of marketing principles as they relate to the global marketplace. Topics include risks and opportunities in the global market, the marketing mix in a global context, global supply chain and logistics, and the use of digital and social media marketing. Focus is on developing optimal marketing communications and global marketing strategies that are sensitive to sociocultural aspects that affect consumer behavior. Emphasis is on compliance with international business regulations and adherence to local ethics and social responsibility mandates.

MRKT 606 Digital and Social Media Marketing (3)

Prerequisite: MRKT 600. A study of various methods and techniques used in digital and social media marketing. Discussion covers digital analytics concepts and their role in developing optimized digital insight-driven marketing strategies. Topics include search engine marketing, digital content marketing, mobile marketing, database marketing, and email marketing. Focus is on the ways social media marketing promotes consumer engagement as part of a dynamic marketing strategy. Projects involve developing social media posts, using best practices for target markets, and evaluating successful campaigns.

MRKT 608 Product and Sales Management (3)

Prerequisite: MRKT 600. A study of how new products are developed and successfully launched in the marketplace. Emphasis is on sustainability practices in product development and subsequent sales and marketing. Topics include product road mapping, Agile and lean production processes, product launch, and product life-cycle management. Sales management topics cover sales strategy, sales metrics and analytics, and effective use of customer relationship management (CRM) tools in the sales processes. Communication and negotiation skills are developed, and compliance with legal and ethical standards is examined.

Nonprofit Management

NPMN 600 Nonprofit and Association Organizations and Issues (3)

A presentation of a framework outlining the roles and functions of the principal types of nonprofit organizations. Characteristics that distinguish nonprofit organizations from their counterparts in the private and public sectors are introduced. The challenges, opportunities, and common issues facing managers of nonprofit organizations are explored. These issues include administrative cost control, preserving the organization's legal status and revenue base, staffing and organizing in response to client needs, and ethical considerations. Specific laws, regulations, policies, and court rulings that affect the nonprofit sector are examined.

NPMN 601 Fundamentals of Nonprofit Management (3)

A general introduction to the essential concepts and tools of nonprofit management. Discussion covers the unique characteristics of nonprofit organizations as they relate to incorporation, legal standing, tax-exempt status, and governance. The challenges, opportunities, and common issues facing managers of nonprofit organizations in preserving the organization's legal status and revenue base, staffing, and organizing in response to client needs are analyzed. Topics also include ethical and legal issues specific to nonprofit organizations, including transparency, accountability, and compliance with nonprofit regulations.

NPMN 602 Fundraising and Integrated Marketing Communication in Nonprofits (3)

Prerequisite: NPMN 601. A comprehensive study of effective fundraising for nonprofit organizations. Topics include developing a fundraising strategy, building a donor base, and writing grant proposals. Discussion covers integrated marketing communication (IMC) strategies to achieve harmony in messages to stakeholders and a variety of communication modalities, such as digital media (including search, display, and social media), traditional advertising and event promotions, and other tools that nonprofits utilize to advance their mission objectives.

NPMN 603 Grants and Financial Management in Nonprofits (3)

Prerequisite: NPMN 601. An examination of the financial landscape of nonprofit organizations and grant and financial management. The aim is to align financial decisions with a nonprofit organization's overarching strategic goals. Activities include designing a comprehensive monitoring and evaluation process that promotes effective grant management practices.

COURSE INFORMATION

GRADUATE COURSE DESCRIPTIONS

NPMN 604 Strategic Leadership and Management in Nonprofit Organizations (3)

Prerequisites: NPMN 601 and NPMN 602 (or NPMN 603). An advanced study of management strategies, designed to provide the knowledge and skills needed to navigate complex challenges, enhance organizational effectiveness, and drive long-term impact. The aim is to leverage diverse communication channels to amplify an organization's reach and enhance donor relations. Activities include using data-driven decision-making to develop and present a compelling strategic plan. Decisive Communication and Leadership

Transformational Leadership

TLP 610 Repositioning Your Leadership Skills (6)

Prerequisite: DCL 600M. Master the ways in which leadership takes place within organizations and the most effective leadership styles for directing individuals, projects, and groups to success. Demonstrate the differences between managing and leading, focusing on motivating and inspiring individuals in preparation for future challenges and opportunities. Explore the various roles that leaders take on in domestic and global markets and the ways leaders influence events that can drive success through individual and collaborative efforts. Create your own personal brand as you begin a journey to becoming a transformational leader.

TLP 620 Leading in the Organization (6)

Prerequisite: TLP 610. Analyze the dynamics involved in leading a workforce of multigenerational and diverse talent. Develop strategies for facilitating an inclusive work culture and maximizing the varied skill sets and experiences of employees. Weigh the impact of workforce change on organizations, and consider the potential challenges that run counter to respectful, civil, and ethical work environments. Create retention and succession planning strategies and techniques for coaching and mentoring emerging leaders.

TLP 630 Leading with Strategy and Performance Measures (6)

Prerequisite: TLP 620. Gain the tools to assess the organization's bottom line and action steps for growth and sustainability. Apply strategic management theories and practice to measure and motivate organizational performance, identify trends, and direct the different stages of the organization's life cycle. Become proficient using tools to review and interpret analytics, market research, and financial data that can drive short- and long-range strategic decisions, and identify potential deficiencies that run counter to the organization's mission and goals.

TLP 640 Leading Through Change and Uncertainty (6)

Prerequisite: TLP 630. Apply change management techniques for leading and maintaining stability during unplanned, turbulent events within the organization. Analyze and implement strategic planning and decision-making approaches to diagnose the symptoms and predictors of organizational challenges and obstacles to change. Use change management models to assess organizational performance and process reengineering and to forecast outcomes and resistance to change at the individual, group, and organization levels.

TLP 670 Leadership Capstone (6)

Prerequisite: TLP 640. Lead a real-world consulting project. Apply the techniques of project management as you collaborate with a partnering organization to develop a strategic and financial plan to address an organizational issue. Use client-relationship management, organizational diagnosis models, and coaching and presentation skills to complete your consulting project and showcase your solutions and plans to your partner organization.

LEADERSHIP

University System of Maryland

Board of Regents (2023–2024)

A 21-member Board of Regents, including two student members, governs the University System of Maryland. The full list of the Board of Regents members and their bios are available online at www.usmd.edu/regents/members.

FACULTY

Faculty

The university has a large and distinguished faculty. UMGC faculty consistently win awards, publish scholarly works, and contribute to the intellectual understanding of their fields. They are well respected by both practitioner and academic peers. In keeping with UMGC's mission, UMGC faculty are as nontraditional as their students, bringing practical as well as academic experience in their fields of expertise. Because of this, they are uniquely qualified to teach and guide students toward a richer and more robust understanding of how their academic learning translates into practice. To view a full list of our diverse faculty community visit the Asia Faculty Listing at: asia.umgc.edu/about-our-faculty.

Accounting, Business Management
BS, Polytechnic University of the
Philippines
JD, University of East, Manila
MS, Troy State University

Chandler, Sujung

Adjunct Instructor, Asia
Korean Language
BA, KangNam University
MA, Ohio State University
MA, Liberty University

Chapa, Louis E.

Adjunct Instructor, Asia
Human Resources
BS, University of North Texas
MA, Ashford University

Cheon, Seon-Hee

Adjunct Associate Professor, Asia
Korean Language
BA, Cheonbuk University
MA, University of Louisville

Choi, Jin Uk

Adjunct Professor, Asia
Criminal Justice
BS, Tennessee State University
MPA, PhD, Yonsei University

Choi, Jina

Adjunct Instructor, Asia
Korean Language
BA, MA, Keimyung University

Choi, Youngsuk

Adjunct Assistant Professor, Asia
Korean Language
BA, Myongji University
MS, Ewha Womans University

Christensen, Travis L.

Collegiate Associate Professor, Asia
Accounting and Finance
BA, Linfield College
MIM, Portland State University
PhD, Victoria University of Wellington

Chung, Howard E.

Adjunct Associate Professor, Asia
Business Administration
BA, University of California, Santa Barbara
MBA, Glion Institute of Higher Learning
JD, Whittier Law School

Coloma, Isidra N.

Adjunct Professor, Asia
Business Management
BBE, MS, PhD, Polytechnic University of
the Philippines

Colton, Thomas J.

Adjunct Associate Professor, Asia
Writing, English, Bridge
BS, University of Wisconsin
MEd, Temple University

Concilus, Frank W.

Collegiate Professor, Asia
Anthropology, East Asian Studies,
Sociology, Writing
BA, Colgate University
MA, Harvard University
PhD, Indiana University of Pennsylvania

Crispell, Gary

Adjunct Assistant Professor, Asia
Biology and Nutrition
BS, PhD, The University of Southern
Mississippi

Curtley, Henry H.

Adjunct Associate Professor, Asia
Bridge
BBA, Texas A&M University
MS, Temple University

Easton, Amanda L.

Adjunct Instructor, Asia
Speech, Writing
BA, Minnesota State University, Moorhead
MA, University of North Carolina,
Wilmington

Edwards, Aaron J.

Adjunct Instructor, Asia
Writing
BA, Northern Illinois University
MA, University of Colorado, Denver

Engman, Patrick R.

Adjunct Assistant Professor
Information Systems Management
BS, Roger Williams University
MS, Touro University

Evans, Gregory S.

Collegiate Professor, Asia
Business Administration
BS, University of Cincinnati
MBA, DePaul University
PhD, Northcentral University

Evans, Karl

Adjunct Assistant Professor, Asia
Introduction to Research
BS, MBA, University of Maryland
University College

Fail, Mario

Adjunct Assistant Professor, Asia
Introduction to Research
BS, MBA, University of Maryland
University College

Ferguson, Ian S.

Adjunct Assistant Professor, Asia
Japanese Language
BS, Brigham Young University, Hawaii
MA, University of Colorado, Boulder

Fernandez, Jessica

Adjunct Instructor, Asia
Korean Language
BA, Busan College of Information
Technology
MEd, Ewha Womans University

Feuz, Urness

Adjunct Secondary Instructor, Asia
Business Management
BA, BS University of Maryland Global
Campus
MA, University of Maryland, Baltimore
Country
MBA, University of Maryland Global
Campus

Filonova, Irina

Collegiate Associate Professor, Asia
Biology, Nutrition
BS, PhD, University of South Florida

Fuhriman, Troy C.

Adjunct Professor, Asia
Business Management
BA, MBA, JD, Brigham Young University
PhD, Yeungnam University

Fukuyama, Michelle A.

Adjunct Assistant Professor, Asia
History
BA, Whitman College
MA, University of Washington

Gilstrap, Rebekah

Adjunct Instructor, Asia
Information Systems Management
BS, MS, University of Maryland Global
Campus

Gladney, Marcia

Adjunct Assistant Professor, Asia
Information System Management
MBA, Webster University
MBA, DBA, Northcentral University

Graff, Keith T.

Adjunct Associate Professor, Asia
Business Management
BS, University of Maryland University
College
MA, Webster University
MS, Troy University

Grullon, Frankie R.

Adjunct Associate Professor, Asia
Computer Information Technology
BA, University of Central Florida
MS, Excelsior College
DIA, University of Fairfax

Hall, Derek

Adjunct Instructor, Asia
Information Technology and
Cybersecurity
BS, MS, University of Maryland Global
Campus

FACULTY

Harlow, Tom F.

Collegiate Professor, Asia
Psychology
BA, MS, PhD, University of Georgia

Harmon, David L.

Collegiate Professor, Asia
History, Government, Humanities
BA, Pennsylvania State University

umgc.edu

UMGC provides numerous services and resources to help you complete your educational program from anywhere in the world—through systems and resources available online; by e-mail and telephone communication; and in person at sites throughout the Maryland area, as well as at many military sites stateside and worldwide. A number of offices are responsible for the delivery of these services, including Accessibility Services, Admissions, Advising, Career Services, Student Financial Services, Information Technology, the UMGC Library, and the Office of the Registrar.

Among these, the Offices of Advising and the Registrar respond to most of your academic needs throughout your college career, providing general information; admission assistance; academic advising; registration, graduation, and transcript services; and veterans benefits assistance.

In the Maryland/national capital area, services are available at the following locations. A complete list of stateside class and service locations is available online at umgc.edu/locations.

SUMMARY OF KEY POLICIES

The information contained in this catalog reflects select policies of both UMGC and the University System of Maryland (USM). The complete list and text of UMGC's policies can be found at umgc.edu/policies. USM policies can be found at usmd.edu/regents/bylaws.

Annual Security Report and Consumer Disclosures

In accordance with the Clery Act and U.S. Department of Education regulations, University of Maryland Global Campus distributes an Annual Safety and Security Report to all current students, staff, and faculty. In addition, this report is available to prospective students, staff, and faculty upon request.

The Annual Safety and Security Report provides important information about rights and responsibilities related to UMGC's

- Campus safety and security policies and services
- Sexual misconduct policy
- Emergency procedures
- Alcohol and other drugs prevention program
- Crime statistics by location for the previous three calendar years

You can read the Annual Safety and Security Report for 2023 at umgc.edu/current-students/student-life-and-support/safety-and-security/annual-report.

If you have questions or wish to receive a paper copy of the Annual Safety and Security Report, contact the UMGC senior emergency manager at 301-985-7139 or email Security at security@umgc.edu.

In addition, the following annual notices and consumer disclosures are available on the Consumer Disclosures and Policies page on the UMGC website at umgc.edu/terms-conditions/disclosures.

- Family Educational Rights and Privacy Act (FERPA) Notification: UMGC's annual notice regarding student rights under FERPA
- Peer-to-Peer File Sharing Notification: Information on the unauthorized use of copyrighted materials, including associated criminal and civil penalties
- Consumer Disclosures:
 - Institutional information including, but not limited to, cost of attendance, refunds, withdrawal procedures, academic programs, transfer credit, complaint procedures, and accessibility services

- Financial assistance available to students
- Student outcomes including, but not limited to, retention and completion rates
- Types of graduate and professional education in which UMGC undergraduate alumni enroll

Disclosure of Student Records

UMGC complies with the Family Educational Rights and Privacy Act (FERPA), a federal law that protects the privacy of students' education records. In accordance with FERPA, you have the right to inspect and review your education records; seek an amendment of your education records, where appropriate; limit disclosure to third parties of directory information (student information that may be released without your prior written consent); and file formal complaints alleging a violation of FERPA with the Department of Education Family Policy Compliance Office. In addition, FERPA provides that most of your student information may not be released to third parties without your prior consent.

UMGC's Policy III-6.30 FERPA and Disclosure of Student Records (available at umgc.edu/administration/policies-and-reporting/policies/academic-affairs/ferpa-and-disclosure-of-student-records) contains an explanation of information that may be disclosed with and without prior consent, as well as procedures for requesting amendments to records, requests for nondisclosure, and filing of complaints. Requests for inspection of your student records may be sent to the UMGC Registrar's Office at studentrecords@umgc.edu. For another person to act on your behalf, a power of attorney is required. More information on FERPA, including disclosures to third parties, can be found at umgc.edu/terms-conditions/disclosures/ferpa.

Nondiscrimination Statement

UMGC is committed to ensuring that all individuals have equal access to programs, facilities, admission, and employment and that no person shall be excluded from participation in, be denied the benefit of, or otherwise be subjected to unlawful discrimination in this institution's programs and activities. In accordance with federal, state, and local laws and regulations, UMGC does not discriminate against any person on the basis of race, religion, color, creed, sex, gender, gender identity or expression, marital status, sexual orientation, age, national origin, ancestry, political affiliation, mental or physical disability, genetic information, veteran status (including Vietnam-Era veterans), or any other legally protected characteristic. Specifically, under Title IX of the Education Amendments of 1972, UMGC prohibits discrimination on the basis of sex in its programs and activities. UMGC will take steps to eliminate prohibited conduct, prevent its recurrence, and remedy its effects.

All inquiries regarding UMGC's Nondiscrimination Statement or compliance with applicable statutes and regulations regarding equal opportunity should be directed to the fair practices officer, Office of Diversity, Equity, and Inclusion, 3501 University Boulevard East, Adelphi, MD 20783-8000 (phone 301-985-7955 or email fairpractices@umgc.edu).

For UMGC Policy VI-1.00 Non-Discrimination and Anti-Harassment, see umgc.edu/administration/policies-and-reporting/policies/administration-policies/non-discrimination-and-anti-harassment.html.

Inquiries regarding Title IX/sexual misconduct may be directed to the Title IX coordinator, Office of Diversity, Equity, and Inclusion, 3501 University Boulevard East, Adelphi, MD 20783-8000 (phone 301-985-7930 or email titleixcoordinator@umgc.edu).

For UMGC Policy 041.00 Sexual Misconduct, see umgc.edu/administration/policies-and-reporting/policies/administration-policies/sexual-misconduct.

For external inquiries regarding the notice of nondiscrimination, including Title IX information, contact the Office for Civil Rights, U.S. Department of Education, Wanamaker Building, Suite 515, 100 Penn Square East, Philadelphia, PA 19107, or call 800-421-3481.

Peer-to-Peer File Sharing

Unauthorized use of copyrighted materials may bring civil and criminal penalties to the user. UMGC is committed to combating the unauthorized use of copyrighted materials on UMGC's network (including the online classroom) and therefore has established a written plan to achieve this goal. The intent of this plan is to inform UMGC students, faculty, and staff members of the appropriate use of copyrighted material on the network and to deter, detect, and discipline prohibited use, while reasonably maintaining the educational use of UMGC's network. More information on UMGC's policy on intellectual property is available online at umgc.edu/administration/policies-and-reporting/policies/research/intellectual-property.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For willful infringement, a court may award up to \$150,000 per work infringed. A court can, at its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense.

More information is available on the U.S. Copyright Office website at copyright.gov.

SUMMARY OF KEY POLICIES

UMGC Procedures for Handling Unauthorized Distribution

UMGC implements an active protocol to respond to copyright infringement allegations. In accordance with the Digital Millennium Copyright Act (DMCA), UMGc has designated the following individual to receive and respond to reports of alleged copyright infringement on UMGc's website:

Sherrri Sampson

General Counsel

Office of Legal Affairs

University of Maryland Global Campus

3501 University Boulevard East

Adelphi, MD 20783

301-985-7080

legal-affairs@umgc.edu

To be effective under the DMCA, a notification of claimed infringement must be in writing and include the following information:

1. A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed;
2. Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site;
3. Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit the service provider to locate the material;
4. Information reasonably sufficient to permit the service provider to contact the complaining party, such as an address, telephone number, and, if available, an electronic mail address at which the complaining party may be contacted;
5. A statement that the complaining party has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law; and
6. A statement that the information in the notification is accurate, and under penalty of perjury, that the complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

Once an effective DMCA takedown request is submitted, UMGc will act expeditiously to remove or block access to the infringing material.

Religious Observance

So that academic programs and services of UMGc shall be available to all qualified students who have been admitted to its programs, regardless of their religious beliefs, students shall not be penalized because of observances of their religious holidays. More information on UMGc Policy 051.00 Religious Observances may be found at umgc.edu/administration/policies-and-reporting/policies/academic-affairs/religious-observances.

Retention of Student Records

UMGC maintains records of students' admission, enrollment, grades, transfer of credits, transcripts, graduation, and degree(s) while the student is enrolled and after graduation in compliance with UMGc's Records Retention Schedule. For information regarding UMGc Policy X-1.03 Records and Information Management, visit umgc.edu/administration/policies-and-reporting/policies/info-governance-security-technology/records-and-information-management.

Sexual Misconduct

UMGC is committed to creating and maintaining an environment in which all persons who participate in university programs and activities, perform work, and provide services can learn and work together in an atmosphere free from sexual misconduct, a form of sex-based discrimination. UMGc provides training, education, prevention programs, and policies and procedures that promote prompt reporting; prohibit retaliation; and promote timely, fair, and impartial investigation and resolution of sexual misconduct cases.

Inquiries concerning the application of Title IX may be referred to UMGc's Title IX coordinator or the U.S. Department of Education, Office for Civil Rights. If you have any questions regarding sexual misconduct or need to report a complaint, contact Steven Alfred, Title IX coordinator, by phone at 301-887-7295 (voice and text) or via email at titleixcoordinator@umgc.edu. For details on UMGc's sexual misconduct policy, see UMGc Policy 041.00 Sexual Misconduct at umgc.edu/administration/policies-and-reporting/policies/administration-policies/sexual-misconduct.

Smoking

In accordance with USM policy, UMGC seeks to promote a healthy, smoke-free environment for the UMGC community.

More information on UMGC Policy VI-8.10 on Smoking may be found at umgc.edu/administration/policies-and-reporting/policies/administration-policies/smoking.

Student Classification for Admission and Tuition

For information on student classification and residency, see USM Policy VIII-2.70 at usmd.edu/regents/bylaws/SectionVIII. Also see UMGC Policy VIII-2.70 Student Residency Classification for Admission, Tuition, and Charge-Differential Purposes at umgc.edu/administration/policies-and-reporting/policies/fiscal-and-business-affairs/student-residency-classification-for-admission-tuition-and-charge-differential-purposes.

Student Drug and Alcohol Awareness

UMGC complies with all federal, state, and local laws that regulate or prohibit the possession, use, or distribution of alcohol or illicit drugs. Violations of such laws that come to the attention of UMGC officials will be addressed through UMGC procedures, through prosecution in the courts, or both.

All UMGC students are prohibited by UMGC from unlawfully possessing, using, manufacturing, distributing, or dispensing alcohol or any controlled substance on UMGC premises or at UMGC-sponsored activities. UMGC expects all students to comply with applicable federal, state, and local laws and regulations pertaining to possession, use, manufacture, distribution, or dispensation of alcohol and/or controlled substances.

Any student who violates any of the applicable standards of conduct is subject to corrective disciplinary actions and penalties up to and including expulsion from UMGC academic programs and referral to the appropriate federal, state, and/or local authorities for prosecution in the courts. Students should see the drug prevention program section of the most current UMGC Annual Safety and Security Report at umgc.edu/current-students/student-life-and-support/safety-and-security/annual-report for additional information.

Transfer of General Education Requirements

UMGC conforms with the general education requirements as laid out by the Code of Maryland Regulations (COMAR) 13B.06.032 regulation. Up to 36 general education credits earned at another Maryland public institution will transfer to UMGC as general education credits. UMGC's general education requirements may be found on pp. 1441776 of this catalog.

A student who has satisfactorily completed a course identified as a general education requirement at a Maryland community college will receive credit toward UMGC's general education requirements, as stated in COMAR Title 13B, Subtitle 06, Chapters 1–10. For other students, courses are evaluated on a case-by-case basis. UMGC has included its evaluation of many Maryland community college courses in its section of the University System of Maryland's computerized articulation system (ARTSYS). This software is available at all two- and four-year Maryland public institutions and online at artsys.usmd.edu. Consult an advisor for details.

APPENDICES

CPA Requirements

UMGC's programs in accounting may help prepare you to sit for the Uniform Certified Public Accountant Exam and/or obtain initial licensure as a Certified Public Accountant (CPA) in Maryland. To sit for the CPA Exam in Maryland, a candidate is required to have successfully completed 120 credits toward an accounting degree. Many other states, however, require candidates to successfully complete 150 credits prior to sitting for the CPA Exam.

To obtain initial licensure as a CPA in Maryland and most other states, a candidate is required to have successfully completed 150 credits. UMGc graduate accounting programs help prepare you to become licensed as a CPA in Maryland.

If you intend to request transfer credits from a nonregionally accredited institution, a third-party provider or facility, or an institution located outside the United States, or you intend to request transfer of ACE-evaluated credit, be aware that doing so may impact your ability to become licensed as a CPA. For information regarding licensure in other states and transfer credit, visit umgc.edu/professional-licensure.

MyUMGC Terminology

The following is an explanation of terms students may encounter when using MyUMGC.

Academic Advisement Report (Degree Plan): A review of the academic progress that a student has made within his or her UMGc program.

Activation: The automated process of verifying a student's record for enrollment eligibility each term based on certain criteria. This process enables a student to register for courses.

Admission: The process of being admitted to the university, which includes completing an application and paying the fees required for entrance.

Campus: The UMGc division where a student is located. UMGc has three major campuses—UMGC Asia, UMGc Europe, and UMGc Stateside. Within those "campuses" are additional locations where classes are held or staff and academic advisors may be reached.

Career: Graduate or undergraduate level of study.

Class Number: The unique five-digit number assigned to each class at UMGc.

Drop: To cancel your enrollment in a class before the end of the drop period posted on the UMGc website for your division.

eApp: An abbreviation for electronic application, which is an application to the university that is filled out and submitted online.

EmplID (or Student ID): A system-generated identification number for student use. Students should record their EmplID in a safe, secure place, as it will be needed to access various services.

Lower-Level (LL) Courses: Courses that are numbered 100–299.

Official Evaluation (or Academic Advisement Report): A review of the academic progress that a student has made within his/her UMGc program.

Portal: A website that integrates online applications, such as email, databases, references to other websites, and proprietary applications, under one unique URL, often allowing secure access with one unique login and password.

Real-Time: This means that transactions are implemented at the moment a user makes them, regardless of time zone. There is no time delay; all information is current up to the moment users access it.

Semester: Also known as a term, divided into individual sessions.

Session: Usually an eight-week period within a term (number of weeks may vary), during which classes are offered.

Subject and Catalog Number: The four-letter abbreviation and three-digit number for UMGc classes. For example, in COMM 300, COMM stands for communication studies and 300 is the catalog number.

Term: A full semester, which may be subdivided into sessions. Student finance and financial aid offices use this time period for instructional accounting.

Third-Party Payment: A payment made by a third party, such as tuition assistance (TA), Army Emergency Relief (AER), and scholarships. (Note: Loans and federal grants are not third-party payments.)

Units: The credit value the university assigns to a course.

Upper-Level (UL) Courses: Courses that are numbered 300–499.

UserID: A student's user name for logging into MyUMGC. Students will need both their userID and password to log in.

Withdraw: To cancel your enrollment in a class after the end of the drop period posted on the UMGc website for your division.

2024-25 ANNUAL SCHEDULE

ON-SITE UNDERGRADUATE

// Fall 2024

Session 1	14 August – 8 October 2024
Session 2	16 October – 10 December 2024

// Spring 2025

Intersession	11 December 2024 – 7 January 2025
Session 1	8 January – 4 March 2025
Session 2	12 March – 6 May 2025

// Summer 2025

Session 1	7 May – 24 June 2025
Session 2	25 June – 12 August 2025

ONLINE UNDERGRADUATE

// Fall 2024

Session 1	14 August – 8 October 2024
Session 2	18 September – 12 November 2024
Session 3	16 October – 10 December 2024

// Spring 2025

Session 1	8 January – 4 March 2025
Session 2	2 February – 8 April 2025
Session 3	12 March – 6 May 2025

// Summer 2025

Session 1	14 May – 8 June 2025
Session 2	12 June – 6 August 2025

GRADUATE

3 Term MBA

// Fall 2024

Session 1	14 August – 8 October 2024
Session 2	16 October – 10 December 2024

// Spring 2025

Session 1	8 January – 4 March 2025
Session 2	12 March – 6 May 2025

// Summer 2025

TBD

4 Term MBA and MSTL

// Fall 2024

2 October – 17 October 2024

// Winter 2025

8 January – 25 March 2025

// Spring 2025

9 April – 24 June 2025

// Summer 2025

TBD

Registration deadlines for all classes are one day before the session start date.

This schedule is tentative and subject to change. Visit asia.umgc.edu/calendar or scan the QR code below for the most recent calendar.

ABOUT UMGC

University of Maryland Global Campus was founded 75 years ago specifically to serve the higher education needs of working adults and servicemembers. Today, UMGC continues its global tradition with online and hybrid courses, more than 175 classroom and service locations worldwide, and more than 125 degrees and certificates backed by the reputation of a state university and the University System of Maryland. For more information, visit asia.umgc.edu.

Visit UMGC on the web at asia.umgc.edu.
